Action 2: Breathing gentle 48-Point breaths from the E-Umbi, imagine that *every atom* in your body has a tiny "ManU Window" at it's nucleus centre Imagine that upon every 48-Point E-Umbic *Inhale* breath that these tiny Manu Windows draw frequency out of Manifestation and then *close* And on every 48-Point E-Umbi *Exhale* breath the tiny windows *open* – sending radiant lines of Ecka 'Flame of Ra' Emerald-Heliotalic *ManA* frequency outward through your atoms through your cells and out into the atmosphere surrounding your physical body and aura 48-Point breathing of Ecka-'Flame of Ra frequency from the Density-1 E-Umbi Point activates the Miodic-Diodic Grid of the Density-1 Dimensional and Density Radial Body/ Flame Body Reion Fields initiating the Ancient Sacred Art of FULL BODY CELLULAR BREATHING of FLAME OF RA (which is known as "Ra Breathing" – or – the "Breath of Ra")

Action 3: **For Personal Lotus Run** Give the Mental Command. "Eyes of Ra Close, Flame of Ra Commence" (to disengage Le-eTOR-A Etheric Hologram with 'Flame of Ra' Currents remaining on Sub-harmonic Activation) Go about the next few hours privately (if at all possible) being mindful to continue E-Umbic – Ra Breathing as if this were your normal breathing pattern to clear, stabilize and fortify your personal bio-fields, whilst strengthening your Axiom Base Shield Bond The 'Flame of Ra Sub-harmonic Current will automatically return to dormancy within your bio-fields and Shields on reaching critical mass 'Flame of Ra' saturation

Action 3: **For K-3 Lotus Run Client Session** While engaging E-Umbic – Ra Breathing, raise your hands together, *palms facing down*, over your clients Etheric E-Umbi Point. From this position move your hands AWAY from each other in an outward "circling motion", gently "smoothing, calming & energizing" the energies of the Clients Etheric Body … as your hands, and entire body & fields, radiate millions of tiny beams of 'Flame of Ra' frequency throughout the clients' bio-fields. Move your hands around and over your clients' Etheric body, moving upwards first, from the E-Umbi to the head, then downwards, from head to the feet, continuing the outward "smoothing" motion.

Action 4: When you reach the clients feet, raise your hands up … higher than the clients' Etheric and physical body's, to about 12 – 24" out in their auric field, and continue a slow, gentle, outward circling motion moving from the clients' feet, upwards to the head, then downwards from the head and back to the Etheric E-Umbi starting point.

Action 5: Remove hands from transmission, then give the Mental Command: "Eyes of Ra Close, Flame of Ra Commence" (to disengage the Le-eTOR-A Etheric Hologram with sub-harmonic 'Flame of Ra' Currents remaining engaged) and continue E-Umbic Ra Breathing as you complete the closing steps of the K-1 Maharic Recoding Session.

After Client Leaves After client leaves, and you have cleared your bio-field and run your own Sequence-2 Kathara Points (re: Kathara Level-1 Closing), you can either give the Mental Command: ***"Flame of Ra Retreat"*** to disengage 'Flame of Ra' Currents – OR - give no further Mental Command and go about your next few hours privately, being mindful to continue E-Umbic Ra Breathing, as if this were your normal breathing pattern … to clear, stabilize and fortify your personal bio-fields, while strengthening your Axiom Base Shield Bond. The 'Flame of Ra' Sub-harmonic Current will automatically return to dormancy when your bio-field and Shields reach critical mass 'Flame of Ra' saturation.

"Amping The Charge"
Amplified Lotus Run Follow Up Session
(Personal & Client)

FOR USE ONLY *following* an initial 1st Primary – or – Power Key Lotus Run Session, the amplified charge will cause the Ra Centre to "turn off" due to overload of frequency if a non-amplified general Lotus Run Session is NOT first conducted at a **previous time**, and at least 3 days prior. "Amping the Charge" is appropriate *only* for **Secondary Sessions** following the first Lotus Run Session and is a beneficial, but not mandatory, tool to periodically amplify and fortify the Axiom Base Shield Bond. And, to ensure that this Bond sustains and harmonises with accelerating Planetary Shields Base Pulse Rhythms.

Tools: Le-eTOR-A Hand Imprinting Chart
Le-AdOR-A Tri-Vectus Master Transmission Code Chart

Purpose: To amplify the strength of transmitted "Flame of Ra" current during secondary Lotus Run follow-up Sessions.

Preparation: **K-3, T-5A Lotus Run *Immediate* Preparations Techniques, including Step 'E'**

Step 1: Complete K-3, T-5A Lotus Run *Immediate* Preparations Techniques, including Step E

Step 2: At completion of Step E, brings hands momentarily out of the Lotus Touch Finger positions and place palms in the appropriate positions on the ***Le-eTOR-A Palm Imprinting Chart***. Inhale a 24-Point breath from the Ra Centre, using the Inhale to draw an Etheric Imprint of the Le-eTOR-A Codes into the Palm Chakras

Step 3: *Hold the Inhale* for a moment whilst placing your imprinted palms onto the centre of the ***Le-AdOR-A Tri-Vectus Master Transmission Code Chart*** - RIGHT (+ve) hand making contact with Chart Centre, LEFT (-ve) hand, palm down, over the back of the right hand *Exhale*, slowly and gently, on a *24-point axis* from the *AzurA* and down the *Le-eTOR-A Arm Cords*, into *Palms*, using the Exhale to transfer the Etheric Imprint of the 2 Le-eTOR-A Codes from your Palm Chakras into the centre of the Le-AdOR-A Tri-Vectus Master Transmission Chart.
Breathe normally for a moment while keeping your hands in position at the centre of the Le-AdOR-A Code Chart.

Step 4: Keeping hands in position at the centre of the Le-AdOR-A Chart, Inhale a 48-Point breath at the Ra Centre and up to the Pineal. Hold this breath at the Pineal for a moment.

Step 5: Exhale a 48-Point breath from the Pineal, down to the AzurA, and down the Le-eTOR-A Arm Cords, through the palms and into the Le-AdOR-A Code Chart. Hold the breath for a moment, at the "bottom" of the Exhale

Step 6. Inhale a single-point breath upwards from the palms, using the Inhale to draw an Etheric Imprint of the combined Le-eTOR-A & Le-AdOR-A Codes into the palms – then, at the palms, imagine this Combined Code replicates into 2 identical Combined Codes – one Combined Code traveling upward from each palm with the Inhale, through the Le-eTOR-A Cords in each arm – to the AzurA, to form one Le-eTOR-A/ Le-AdOR-A Combined Code, in the AzurA, at the "top" of the Inhale

Step 7 Hold this breath at the top of the Inhale for a moment, with the Le-eTOR-A/ Le-AdOR-A Combined Code at the AzurA.

Step 8. Exhale a single-point breath from the AzurA, using the Exhale to push the Le-eTOR-A/ Le-AdOR-A Combined Code down and into the Ra Centre. Hold this breath at the "bottom" of the exhale

For *personal* secondary session:

Step 9A. Inhale a final 48-Point breath at the Ra Centre while returning hands to the **"prayer" position** on the **Inhale**. Hold the breath briefly at the "top" of Inhale, then Exhale the 48-Point breath out from Chakra-6, 3rd Eye, while returning hands to the **Lotus Touch Fingers Positions** on the **Exhale**. Proceed to Lotus Run procedure.

For *Client* secondary session:

Step 9B Complete step **9A** then Inhale a 48-Point breath at the Ra Centre, up to the AzurA, while placing the fingertips (held in the Lotus Hands Finger Positions) directly over the clients Ra Centre at the Etheric Body Level. Then Exhale a 2-Point breath from the AzurA down the Le-eTOR-A Arm Cords, through the fingers, and into the clients Ra Centre. Proceed to Kathara level – 3, Technique – 5A, "Lotus Run – Axiom Base Shield Bonding" procedure, for client Lotus Run.

Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realities of spirituality, the mechanics of creation, the history of our universe and the potentialities of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs, many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical "fact" that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality,* and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of MCEO teachings pertaining to the "**Ancient Science of the Shields**" (scalar-standing-wave templates of matter and consciousness), "**Merkaba Mechanics**" (interdimensional electromagnetic vortex mechanics), "**DNA Template Activations**" (frequency accretion within the scalar template behind manifest chemical DNA) "**Interdimensional Structure**", "**15-Dimensional Anatomy**", "**Bio-Spiritual Healing**" (support of biological healing and well-being through holistic spiritual practice) and **Humanity's Evolutionary Journey**, perspectives which are featured within the **MCEO Kathara Bio-Spiritual Healing Program MCEO Maharata "Dance For" Programs** and related published works of the MCEO, cannot at this time be "proved or disproved" Therefore, the MCEO Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point, solely for the purpose of public investigation, consideration and theoretical exploration

Though the presently theoretical categorization of MCEO teachings within the public sector is recognized, it should also be recognized that members of the Azurite Press, Trustees and the AP Regents Council, as well as authorized MCEO translators/authors and teachers and many individuals within the international community, have personally chosen to accept the validity of MCEO teachings as representing more than a theoretical perspective, instead acknowledging the MCEO Paradigm as a factual reality interpretation, and practical worldview, through which progressive expansion of personal consciousness

Copyright A & A Deane, 2002, All Rights Reserved

and coherent spiritual awakening are fostered. Such decisions as to the factual or theoretical categorization of the MCEO Paradigm, and the responsibilities inherent to this decision, are deeply private spiritual issues, and thus must be assigned to the faculties of personal discretion.

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within MCEO teachings ***are not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within MCEO teachings are offered to the public solely as ***"Meditations for Spiritual Exploration"***, with the intention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or who are presently under the care of medical or psychiatric professionals, seek professional advisory before using any *MCEO Meditations for Spiritual Exploration* techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 **many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening** through use of MCEO techniques and technologies. There have also been **a lesser number of reports of individuals claiming to receive no affect, effect or benefit at all**, but there have been ***no reports*** **of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of MCEO techniques and technologies. As a reflection of commitment to responsibility in presentation, MCEO techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/ teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999, findings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are quite **individualized, though predominantly positive**, in nature. Therefore, however, **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.** Utilization of MCEO Meditations for Spiritual Exploration techniques and technologies presently remains within the category of **experimental self-exploration**, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. **An individual's involvement with MCEO teachings, techniques and technologies represents a choice of *personal decision and discretion*, and thus *responsibility pertaining to affect and effect of practice* that are inherent to this choice must also remain with the *individual*.**

Claim of Authenticity

In offering MCEO teachings for public exploration, **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm.** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary

Copyright A & A Deane, 2002, All Rights Reserved

translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a binding commitment to ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances, a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the CEO texts of antiquity* **information represented as *factual knowledge* within the MCEO texts of antiquity, and their contemporary translations, is understood to represent "*potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory*" within the context of contemporary publication.**

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an "as-accurate-as-possible" translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible.
As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors, and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve, upon the merit of one's personal discretion. ***If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However, the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence.

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings, they likewise cannot offer any claims, **promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies.** The responsibility for decision to engage involvement with MCEO teachings, techniques or technologies rests with each individual, and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings, techniques and technologies must also rest with the individual. The *Meditations for Spiritual Exploration* techniques and technologies provided within MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an option for **personal spiritual exploration, investigation and experimentation**, *to be utilized at the personal discretion of the reader or workshop attendee.*

As stated in numerous public forums and workshops since 1999, *in choosing to utilize* MCEO teachings, techniques or technologies it is understood that *in so doing* the *individual accepts full responsibility for any and all conditions* that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* MCEO teachings, techniques or technologies, *thereby through this act agrees* to release Azurite Press, Trustees, the

AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to *MCEO-sanctioned Kathara "no-touch" procedures*), **authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings, techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with MCEO teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm:* notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement* with and/or practice of MCEO teachings, techniques and technologies.** If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release* it is suggested and recommended that one choose at this time non-involvement with MCEO teachings, techniques and technologies, until a future time wherein such concerns have been assuaged

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees Regents Council, teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible,** whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching.** Intrinsic to such responsibility in presentation, authorized MCEO translators/authors, members of Azurite Press Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate for personal spiritual reasons, in MCEO programs, including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings;** this shared commitment arises from a commonly shared, individually held, reverence, respect, appreciation for, and belief in the validity of, the MCEO Paradigm, its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality may it be understood that **MCEO Course-book Manuals,** as featured within the MCEO *Kathara Bio-spiritual Healing Program MCEO Maharata "Dance For" Programs, MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books** but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program,** and **do not contain the *many pages of dialogue and detailed explanation*** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for used as an **additional educational aid in conjunction with their corresponding audio-video workshop program.**

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect

Copyright A & A Deane, 2002. All Rights Reserved

the immediacy of the new information provided in that they are initially rendered "**in-the-rough**" often with portions of text in hand-written form, not yet "perfected" for book publication with appropriate dialogue text detail typesetting, computer graphics, pagination and indexing. As each new workshop since 1999 has introduced the next level of new, live MCEO data translations, there has been insufficient time to "move backward" and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops. The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production. **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were released for public review.** As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority during this time to expedite availability of the MCEO teachings contained within the products, than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution,** as the small staff at Azurite Press with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating "perfected" book publications that contain, and "do justice to" the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production, as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable, as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving "perfected" product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the "package that it comes in", which demonstrates the value of Azurite Press MCEO educational products.**

INTRODUCTION TO KATHARA BIO-REGENESIS TECHNOLOGIES

COLOR, SYMBOL, SOUND AND BIO-REGENESIS TECHNOLOGIES

BIO-REGENESIS TECHNOLOGIES are tools to assist us in accelerating our expansion of consciousness through natural, gentle stimulation of the personal **DNA TEMPLATE, KUNDALINI ENERGIES, CHAKRAS AND MERKABA VEHICLE**. Bio-Regenesis techniques are built upon the foundations of **KEYLONTIC MORPHOGENETIC SCIENCE** and advanced **SCALAR MECHANICS**, as understood by races of higher evolution; these are paradigms of science not yet recognized or validated by contemporary earth science paradigms. Because Bio-Regenesis technologies are based upon what is viewed by modern earth science paradigms as a speculative, rather than verifiable science, I present Bio-Regenesis techniques only as an option to explore in meditation.

Bio-Regenesis technologies were taught as "Common Knowledge" within the Ascension Schools of Pre-Ancient advanced human cultures and were utilized as standard practice in pre-ancient time periods. Bio-Regenesis Technologies are built upon the natural laws of scalar wave mechanics. Bio-Regenesis Techniques are **SPECIFIC APPLICATIONS OF CONSCIOUS ENERGY DIRECTION WITHIN THE MANIFESTATION TEMPLATE OF THE BODY** that stimulate into activity dormant portions of the personal Manifestation Template, which allows for a natural, progressive and accelerated advancement of the personal **ORGANIC EVOLUTIONARY BLUEPRINT** of the 12th Dimensional Omni-polar Pre-matter Template. Bio-Regenesis Techniques simultaneously create subtle, natural acceleration within the interwoven energy systems of the DNA Template, Chakra System, Merkaba Fields, Kundalini energies, higher dimensional consciousness and "Subtle Energy Body" anatomy.

In the Bio-Regenesis paradigm it is said that such techniques allow an individual to affect the function of the scalar wave template of the body, working co-creatively **under the direction of the individual's own higher dimensional levels of consciousness**. As the higher dimensional levels of personal identity, the spiritual identity of the Soul, govern the process of the personal Manifestation Template, Bio-Regenesis Technologies are completely safe and natural to the organic design of the human being. Using processes of Bio-Regenesis from the earthly conscious perspective expedites the natural processes of energy and consciousness by which the higher identity and earthly identity integrate to become one. In advanced ancient human cultures, Bio-Regnesis Technologies represented a natural attribute of consciousness expansion into the realms of higher evolution and assisted to biologically prepare humans for **STAR GATE** passage or **"ASCENSION"**

If we can understand that the **HUMAN MIND** is an energy force that **CONTINUALLY GENERATES PATTERNS OF SCALAR WAVES** through the process of THOUGHT, it is not difficult to understand how **APPROPRIATELY DIRECTED THOUGHT** can directly influence the function of the personal Manifestation Template scalar blueprint. All thoughts serve this purpose, and directly affect the observable state of the mind-body-spirit system and the manifestation of events within the external life drama. **THOUGHTS ARE THINGS – SCALAR WAVE CONFIGURATIONS** of multi-dimensional vibrating patterns of **BI-POLAR ELECTROMAGNETIC ENERGY RADIATION**, which form **SPECIFIC PATTERNS OF SCALAR FREQUENCY** within the personal Manifestation Template.

Undirected thought creates chaotic patterns within the Manifestation Template, while thought directed through clear intention creates ordered patterns within the Manifestation Template. Thought directed with clear intention, and **KNOWLEDGE OF THE STRUCTURE OF SUBTLE-BODY ANATOMY**, is a very potent form of **SCALAR POWER**. The patterns of scalar energy frequency that thought projects into the personal Manifestation Template serve as **ELECTROMAGNETIC OPERATIONAL INSTRUCTIONS** within the Template, directly affecting the conditions that will be met in manifest experience. To develop skill in the manifestation process, the conscious "intending" mind must become more familiar with the **"LANGUAGE OF SCALAR WAVES"**, as this is the **"LANGUAGE OF LIGHT AND SOUND"** upon which the Manifestation Template operates. The "language of scalar waves" is "spoken" through the forms of specific wave spectra, forms that appear to the conscious 3-dimensional mind as frequencies of **SOUND**, spectra of **LIGHT** or **COLOR**, and shapes or **SYMBOLS**.

Copyright A & A, 2002, All Rights Reserved

What we perceive as color is specific spectra of **LIGHT – RADIATION WAVES** that have a specific measurable **WAVELENGTH** and vibrational **ENERGY SIGNATURE**. In using the conscious mind to direct quantities of color we are **CONSCIOUSLY SELECTING SPECIFIC SCALAR FREQUENCIES** to add to the Manifestation Template. When we use the conscious mind to create images of **SYMBOLS** we are further **SPECIFYING THE ARRANGEMENT OF SPECIFIC FREQUENCIES** as they appear within the Manifestation Template. **SYMBOL FORMS** (even those that compose the alphabets of outer languages) represent **SCALAR-WAVE GUIDES** and directly affect the contours of the scalar wave blueprint of the Manifestation Template. The Manifestation Template governs the function of the body and consciousness within the manifest experience and so the "**Language of Scalar Waves**" is the medium through which we gain conscious access to the **CAUSAL LEVEL OF MANIFESTATION**. In using **color and symbol** to direct frequency we are creating a pattern of energy that has a specific vibrational signature or "**TONAL SOUND SIGNATURE**" which directly interfaces with the energetic vibrational sound signature of the Manifestation Template's scalar grid.

In Bio-Regenesis technology Color and Symbol are used to direct the **TONAL SCALAR ARRANGEMENTS** of the Manifestation Template, to create natural, desired results within the body-mind-spirit system. There are many complexities within the process of conscious manifestation that one must learn to fully master the contours of space, time and matter. The beginning step is learning to give more finely tuned thought intention "**PROGRAMMING INSTRUCTIONS**" to the personal Manifestation Template. Thoughts and images rendered in external language and 3-dimensionally associated symbols affect the other layers of the Manifestation Template, but they do not provide as finely tuned manifestation instructions as do the "**scalar wave languages**" of Color and Symbol image, which direct the contours of vibrational patterns of SOUND. Mastery within the interdimensional spectrum progressively develops as one masters the core "**PROGRAMMING LANGUAGES**" of **Color Symbol** and **Sound Vibration**.

In **MIND TECHNOLOGIES**, such as **CREATIVE VISUALIZATION** and **VERBAL AFFIRMATION** beginning skill in **SCALAR TEMPLATE PROGRAMMING** is developed through using emotionally charged images and precise sound patterns in the language to which we are accustomed as methods to begin gaining conscious control over the processes of personal manifestation. Keylontic Science **BIO-REGENESIS TECHNOLOGIES** take us **ONE STEP DEEPER** into the manifestation process by directly employing the **LANGUAGE OF SCALAR WAVES** and directing the **ENCODED INSTRUCTIONS** through **PRECISE LOCATIONS** within the body-mind-spirit system and the Manifestation Template upon which this system is built. Bio-Regenesis technologies take us from speaking the language of the 3-dimensional mind into speaking the intrinsic scalar-wave language of the Spirit, which is the **CAUSAL ELEMENT** behind and within all manifestation.

Bio-Regenesis Technologies represent applications of Scalar Mechanics that utilize the inherent power of **SUBTLE WAVE FORMS** to create desired change within the core Manifestation Template of the body. Within the process, **COLOR** and **SYMBOL** become the **TOOLS** through which the 3-dimensionally conscious mind becomes empowered to participate in conscious co-creation with the Soul and higher dimensional spiritual portions of identity. **Color** and **Symbol** possess power as **MATHEMATICALLY ENCODED** directors of scalar frequency, the ultimate effect of this directed power is the ability to affect the scalar arrangements of the Manifestation Template. Intrinsically, scalar waves are specific points of vibrating bi-polar energy signatures. Vibration of energy units creates patterns of internal and external **SOUND** within and beyond the range of 3-dimensional detection. The Manifestation Template can be conceptualized as an **INTERWOVEN FABRIC OF SOUND FREQUENCY**, the "Silent Symphony" of personal and universal being. The tools of Color and Symbol affect the scalar-wave arrangement of the Manifestation Template, and thus alter the vibrational patterns of **SOUND TONES** within the personal blueprint. **COLOR AND SYMBOL are tools for the direction of SOUND** and intentional application of **SPECIFIC SOUND TONES** can also be used in conjunction with COLOR and SYMBOL to further amplify one's power to interact with the Manifestation Template.

Along with the techniques of Color and Symbol direction **TONING** or the **intentional generation of specific sounds to affect the Manifestation Template** is also utilized in Bio-Regenesis technologies and spiritual expansion programs. "Toning Therapies" have emerged in recent years through the New Age and

Holistic healing paradigms, and have been applied for thousands of years within the practices of spiritual masters in every religious tradition. SPOKEN LANGUAGE itself is a form of TONING, with its accompanying SYMBOL ALPHABET and like all Symbols and Sound Tones, our languages directly affect the personal Manifestation Template, and the level of consciousness that can manifest through the body. In ancient cultures, the powers of language were better understood than they presently are in contemporary mainstream society. Particularly within the Priest-castes of ancient religions, language was used more consciously, with an understanding that words, sounds and images would directly affect the consciousness of the masses. Prayers, rituals and songs, some of which remain in use today, were used as a means of altering consciousness. Some assisted in spiritual development; others were intentionally used to limit and control the consciousness of populations.

The contemporary earth science paradigm is only beginning to explore the power of sound vibration and the connection between sound, symbol and color is not yet recognized or understood. **In advanced pre-ancient cultures, these sciences of Scalar Mechanics were fully understood and utilized in the most powerful of ways.** Color-Symbol-Sound technologies were not only used in Bio-Regenesis applications for personal health and consciousness expansion; they were also used among **GROUPS OF PEOPLE** to directly interface with the scalar-wave Manifestation Template of the **PLANETARY SHIELDS.** Vortices, Time Portals, Star Gates, Ley Lines and free energy systems generated through the planetary core and solar light emanations were all **DIRECTED THROUGH THE FOCUSED MIND,** utilizing knowledge of color-Symbol-Sound Scalar Mechanics. Since the fall of ancient cultures, which came as a result of abusing the powers of these Scalar technologies, the Color-Symbol-Sound sequences once used to direct massive amounts of power became the **"HIDDEN AND FORBIDDEN SACRED KNOWLEDGE".**

The **COLORS, SYMBOLS** and **SOUNDS** used in Bio-Regenesis techniques are not simply random choices. The elements of Bio-Regenesis techniques are drawn from a **UNIVERSAL STANDARD LANGUAGE OF "SCALAR SPEAK"**, through which precise scalar frequencies are generated through **specific Color-Symbol-Sound sequences** to create very specific effects within the Manifestation Templates. The Bio-Regenesis Techniques presently offered represent only the beginning of our reawakening to this vast body of Sacred Science knowledge. Many Bio-Regenesis techniques utilizing Color-Symbol sequence scalar mechanics are accompanied by a corresponding exercise in **TONING.** Within the mystical **Ascension Schools** of ancient and pre-ancient times, there existed a very **SACRED SERIES OF TONING SEQUENCES** that were used to **directly interface** with the **DNA TEMPLATE** and the **AXIOM LINES in the PLANETARY SHIELD.** On a **personal level,** through this specific series of Toning, dormant strands in the DNA Template could be progressively brought into activation, to expedite the process of Spiritual Actualization, Holistic Healing and building of the **PERSONAL MERKABA VEHICLE** within the bio-energetic field. On the planetary level, these **Sacred Toning Sequences** were used to **ENERGETICALLY OPEN the PLANETARY AXIOM LINES for CLEARING, REPROGRAMMING AND ACCELERATING THE ACTIVATION** of the **PLANETARY SHIELDS.** This series of Sacred Toning was collectively called **"THE MUSIC OF THE SPHERES".**

THE SONGS OF THE SPHERES

The **MUSIC OF THE SPHERES** represents the **ORGANIC TONAL SEQUENCES** of **EACH DIMENSIONAL FREQUENCY BAND** within the 15-Dimensional Time Matrix: the **CONSOLIDATED CORE VIBRATIONAL SOUND SIGNATURES** of each Dimensional frequency band. Of the 15 core vibrational signatures of the 15 Dimensions in a Time Matrix, 12 of these core signatures serve as the **PRIMARY 12 TONAL SEQUENCES** upon which each strand of the 12-Strand original human **DNA Template** and each **AXIOM LINE** in the 4-Density **Planetary Shields** are structured. In using the **Tone Sequences of the Music of the Spheres,** the 12-Strand DNA Template can be **PROGRESSIVELY BROUGHT INTO NATURAL ACTIVATION.** Scalar-wave distortions within the Templates for the DNA Strands (which physically manifest as genetic distortions) can be systematically **REALIGNED** with their natural perfect 12th Dimensional **ORGANIC IMPRINT.** In using the **Music of the Spheres** for work with the **Planetary Shields,** each of the **24 AXIOM LINES** can be **OPENED** and **ENCODED WITH THE PERFECT PATTERN OF THE**

PLANETARY PLASMA BEAM Transmitting the 12th – Dimensional **MAHARIC SHIELD** pattern directly into the **Axiom Lines** in the Planetary Shields is the most rapid method to distribute the program of the **PLANETARY ORGANIC IMPRINT** throughout the 4 Density Levels of the **PLANETARY SHIELDS.**

In ancient days, the Music of the Spheres was used extensively for purposes of self-generated healing and to prepare the physical body for literal passage through the planetary Star Gates ("Ascension"). The specific tone sequences for each **SINGULAR DIMENSION** (which corresponded to one DNA Strand Template in the 12-Strand blueprint and the inherent Dimension of consciousness that would embody through activation of the strand) are called the **"SONGS OF THE SPHERES"** Each "SONG" contained very specific **"word sounds"** (from the first Universal Spoken language) for lyrics, and specific multi-layered tones (which generated Inaudible Tri-tone Standing Waves) for melody, harmony and overtones. To be effective, the Songs had to be used through the **HUMAN VOICE**, externally or mentally as the **"SINGING OF SONGS".**

The Sacred Songs were sung in combination with directing specific corresponding **COLOR** and **SYMBOL** sequences through the bio-energetic field (or through the Planetary Axiom Lines for Planetary Shield work) **The Songs served to "open" specific areas of the DNA Template, or specific Planetary Axiom Lines, to receive instructions directed by the Color and Symbol sequences** The tones of the Songs generated specific scalar-wave formations that triggered activation of corresponding configurations within the DNA Template and Planetary Shields. Activation of dormant portions of the DNA Strand Templates for Planetary Axiom Lines "opened" the Strand Template of Planetary Shield to directly receive Color-Symbol scalar wave instructions, through which desired outcomes within the personal or planetary body, and within the external reality experience, could be **"PROGRAMMED"** for manifestation.

The **SCIENCE OF THE MUSIC OF THE SPHERES** was one of the most highly guarded **"SACRED SECRETS"** in pre-ancient cultures, due to the power of interdimensional freedom and conscious manifestation that could be obtained through knowledgeable use of the **SONGS**.

Before the **SONGS OF THE SPHERES** will be fully returned to human awareness, our culture will have to mature enough to demonstrate spiritually motivated ethical use of power Certain **SONGS** are now being slowly returned, so that we may assist those of higher evolution to realign Earth's Planetary Shield with its original 12th – Dimensional **MAHARIC SHIELD ORGANIC IMPRINT.** One of the **15 SONGS OF THE SPHERES** was provided to us by the Emerald Order. This SONG is used to activate dormant scalar-waves in the 8th **DNA STRAND TEMPLATE**, through which the process of activating the dormant 1st – 8th **Strands** of the 12-Strand DNA Template can be **accelerated**, expediting the natural processes of higher dimensional spiritual identity integration.

This **SONG** is also used to open the 8th **AXIOM LINE** in **GAIA'S PLANETARY SHIELD**, to facilitate realignment of **Earth's Planetary Shields** from **ETHERIC MATTER DENSITY-3**. This **SONG** was given so that **GROUPS** can begin assisting directly in Planetary Grid work, opening specific Axiom Lines and Vortices in the planetary body to help bring Earth's Planetary Shield Manifestation Template into its organic alignment and balance. The SONG that was given is called the "Arlea Khum Nar'A". The English language translation is "THE SONG OF ORION". This **SONG OF THE 8TH SPHERE** corresponds to the 8th **Dimensional level of the UNIVERSAL KATHARA GRID and its 8th PRIMARY STAR GATE** It also corresponds to the 8th **PLANETARY AXIOM LINE** within the Etheric Matter Density-3 **GAIAN PLANETARY SHIELD** and to the 8th **DNA STRAND TEMPLATE** in the human body The 8th-Dimensional **STAR GATE** within the **UNIVERSAL KATHARA GRID** is the Star Gate that opens into the **ORION STAR SYSTEM**; thus the name of the **SONG OF THE 8th SPHERE** is **"THE SONG OF ORION".**

Soon the **SONGS** that correspond to the 11th and 12th – Dimensional frequencies will be provided. Aside from its use in planetary grid work, when used as a **"MANTRA"**, repeatedly sung as a focus for the mind in meditation, the ***Arlea Khum Nar'A*** serves to stimulate consciousness expansion into the higher dimensional fields and amplifies and expedites the effects of personal Bio-Regenesis techniques.

Attitudes & Responsibilities of Mastery

Part of the process of **Spiritual Integration** of our **Higher Selves** or **Expansion** of our **Consciousness** involves **"re-programming" the way we think**. Our thoughts create our reality and the life experience we have on the inside and the outside of us.

The following **Attitudes and Responsibilities**, when **embodied** and **"lived"**, will help to change our thought patterns, thoughts that we simply take for granted because they are part of the programming we currently carry. **Changing the thought patterns is actually changing the programming in the Personal Template.**

Twelve Attitudes of Mastery

(ntroduced at the Dance for Life workshop 2002)

Study the 12 Attitudes of Mastery, make an affirmation meditation out of them, and try to make them your way of life

1. **LOVE** - Recognition of the TRUTH of the ALL-ONE-ness
2. **GRACE** - Allowing the ALL-ONE-ness to Be what IT IS regardless of whether it suits you. Living Perpetual Forgiveness.
3. **GRATITUDE** - Appreciating the ALL-ONE-ness. knowing your Alive-ness
4. **REVERENT - RESPECT** - Acknowledging and giving to the ALL-ONE-ness.
5. **RESPONSIBILITY** - Co-Creating with, Serving and being able to Respond to the ALL-ONE-ness.
6. **TRUST** - Knowing the Power and Love of the ALL-ONE-ness
7. **ACCOUNTABILITY** - Being in a state of TRUTH with the ALL-ONE-ness
8. **IMPECCABILITY** - Upholding and Protecting the ALL-ONE-ness.
9. **MINDFULNESS** - Loving, Nurturing, and Being Attentive to the ALL-ONE-ness
10. **FEARLESSNESS** - Recognizing the Eternal Infinite Nature and Unconditional Love of the ALL-ONE-ness.
11. **ENGAGED DETACHMENT** - Permitting the ALL-ONE-ness to BE without assigning Critique, Condemnation or Value Judgment: understanding the S-ness of and Validating the ALL-ONE-ness
12. **JOY** - Choosing to BE the embodied ALL-ONE-ness.

Twelve Responsibilities of Mastery

(Introduced at the Dance for L fe workshop 2002)
Study the 12 Responsibilities of Mastery, make an affirmation meditation out of them, and try to make them your way of life

1 **SELF-ACTUALIZATION** Freedom from the "Victim-Victimizer Blame-Game" and willingness to be accountable for al perceivable manifestations as direct projections of ntended learn ng from the personal Consciousness/DNA Temp.ate

2 **SELF-SOVEREIGNTY** Freedom from the need for approval from, or the need to rebel against any form of "external authonty" through understanding that you, as a manifestation of the God Spirit, have the ability to create persona freedom without violating the spiritual nghts of others and without al owing others to violate your spiritual nghts of being

3 **SELF-CONTAINMENT** Taking personal responsibility for, and real zing that at all times you are accountable for DIRECTING PERSONAL ENERGIES. There is no one or no thing that "upsets you" and thus justifies or validates ANY personal spiritual misuse of reaction, idea intention or action It is YOU who "upsets yourself" by allowing the emotional body to follow misperceptions of the mental body that tell you that your power lies outside of yourself At any given moment, you can CHOOSE which words associations and deas you will use as the filters through which you interpret an event "UPSET", "MAD" HURT" or any other category of labeling (conscious or subconscious) are all MENTA_ BODY F LTERS that direct emotional and physica body function The self-contained individual recognizes that at all times the freedom of interpretation exists and thus a "negative" experience and its associated dis-harmonic energies of "upset" feelings can only exist as a personal interpretation of events Accepting any less responsibility for the direction of personal energ es will place you direct y nto the Victim-Victimizer "Blame Game", which can only take place among people who are placing their personal power and responsibility for manifestation onto externalized sources Only you have the power to "upset yourself" Regardless of what others say or do, you are fully entitled to your own interpretation No one or thing has the power to upset you unless you g ve this power away Self-containment comes when one recognizes that the direction of personal energies whether physical, emotional, menta (ideas, beliefs, labels interpretations), conscious or subconscious is an attainable level of personal mastery and exists as an implied responsibility that comes with the gift of free will choice The more responsible you become, the greater freedom and personal empowerment you will know

4. **SELF-DISCIPLINE** Accepting responsibility for directing personal energies toward, rather than in opposition to the outcomes you desire to experience The physical mental and emotional bodies have long been directed by the subconscious forces of the hidden "shadow", creating within us urges, reactions, thoughts, impulses, perceptions and feelings that often work counter to the life creations we desire to manifest Part of spiritual mastery entails teaching ourselves to be consciously diligent in observing our own minds, emotions and physical body talk so that we may employ conscious redirection of subconscious shadow energies that run on "auto-pilot" If we learn to "catch ourselves" when "negative" thought patterns or emotions run through us, we can use that moment of recognition to reclaim this errant energy and consciously use the power of affirmative attitude, remedial word choice and direct energy re-direction to direct opposing energies of the Self into fu filment of desired constructive, spiritually mature creations t takes self discipline to become the "Lion Tamer" of the often roaring subconscious mind, but we do have the intrinsic power to help our subconscious shadow to evolve through loving but firm redirection, nto a "cuddly lap cat" that will gladly join us in our constructive co-creations Self-d scipline emerges when we consistently

remind ourselves to employ the "Spiritually Correct" thought action or attitude, even if we don't "feel like it" when the shadow sneaks up from "down under" The shadow parts of Self surface so that we may see these parts of Self come to the conscious mind for healing Through this process, the conscious mind itself can learn greater attributes of mastery

5. **SELF-LOVE:** It is our own responsibility to love and nurture ourselves through the limitless gift of Divine Spirit that moves through us at every moment. Genuine love must come from within and can only be gained though genuine spiritual connection to the eternal God-self and its inherent connection to all creation If we seek love "on the outside" in order to fulfill a personal loneliness or lack within, we enter relationships as "energy vampires". In doing this, we are seeking a substitute for our personal God-Source connection through tapping into the God-Source embodied within other people or beings. This is not "LOVE". It is "NEED". This implies the "LACK" of something essential, which in turn implies a limited personal connection to God- Source Universal Consciousness. Such lack cannot be filled by external "love" It can only be filled by recognizing the God within you, and thus recognizing that you are a living embodiment of absolute love Once this is recognized, you will HAVE the greatest love of all, God Love. And from this Position of Divine Power, you can go into the world seeking those to whom you can give this love, rather than seeking those from whom you can "get" love When love is approached through Self Love the motivation is to give joyfully, knowing that anything you might need can be made manifest through the Love of the active God-Source that you carry inside yourself. Self Love is a responsibility of spiritual maturity.

6. **SPIRITUAL INTEGRITY** It is our absolute responsibility to chose to act with spiritual integrity at all times. There is no excuse to knowingly violate the spiritual rights of others, regardless of how poorly they may react to you. Spiritual Integrity requires that we begin to LOOK AT what we are REALLY doing in the way we live our lives. Do our eating habits violate the plant, animal or Earth kingdoms? Do our choices of words and actions show respect for other people and other life forms? Do we "play the survival of the fittest" lack-game to give ourselves an excuse for unethical behaviors in money matters. such as showing our silent rebellion against the government by trying to "cheat" on taxes, or by "showing up" a fellow employee at work to prove you are more worthy and thus more entitled to favor? Do you "tell people what they want to hear" in order to gain their approval and support, even if it is not fully true and does not reflect your personal needs or feelings? Do you try to "get others to do your share" as far as work or responsibilities? Do you use erroneous excuses such as race gender, creed, academic or economic status to justify disrespectful, exploitative or unkind treatment of others? Spiritual Integrity requires that we take a good, hard, frequent look at how we conduct our lives, to face the areas of activity in which we are performing in less than spiritually congruent ways and to employ active commitment and discipline to bring these areas of our lives into Spiritual Integrity One does not "get through the gates of Heaven" (or anywhere else desirable) through using excuses for not employing genuine, not feigned, Spiritual Integrity. Cultivating spiritual integrity is a major responsibility on the path of spiritual mastery and, the way the universe works, you "can't leave home without it". This means that there is a biological reality of spiritual integrity that manifests chemically within the DNA as a result of that state and focus of consciousness. If you do not possess a sufficient amount of spiritual integrity in your consciousness, neither will your DNA Template And though you might be able to "pull the wool over the eyes of others", your own biology will be eventually be your own task master Passage through any star-gate requires a sufficient amount of chemically encoded spiritual integrity of consciousness.

7. **APPRECIATION:** Our present society continually teaches us to "want more", "need more", "be more", "do more" etc. We are constantly influenced to perceive what is lacking in order to motivate us to buy more, work more, pay more taxes and be "good little consumer sheep" Very rarely do we

Copyright A & A, 2002, All Rights Reserved

stop to think about all that we DO have, beginning with the gift of Life and mental free will choice. Through this disoriented perceptual filter we can cultivate a 'full-blown' mutation of mental consciousness. In this mutated consciousness, we begin to believe that "we are entitled", that "someone OWES us" (GOD, the Universe, our parents, spouse, children, employer, government, etc. ..). Once we fall into the "You OWE me" mind trap, we set ourselves up for continuing self-created frustration, as we place unrealistic and untrue expectations upon life, others and ourselves. We can also often get mighty angry or hurt when we find the universe doesn't conform to our imagined "pictures". No one OWES us anything! If we feel we are "owed", then we are entertaining LACK CONSCIOUSNESS and a void within the Self is being recognized. If we give to another in order to RECEIVE for ourselves (such as do banks, and often parents, spouses or lovers), and the other does not "pay back" what we expected to receive, we may feel cheated, "taken advantage of", or "owed". Perhaps these situations emerge in our lives as lessons to teach us that giving should be done for the GIVING ALONE, and not for the expected return. If we give what we desire to give, for the joy of giving, we do not feel owed. If we live for the joy of living, without forcing our demands or expectations upon life, we will not feel that "life has short changed us"! It matters not what your neighbor possesses, because in comparing ourselves to each other to see how we "measure up" to each other we are, in effect, continually being distracted from seeing and utilizing the blessings that are our own. If we can work to cultivate the ability to APPRECIATE even the smallest of gifts, blessings and gestures, we will begin to create a life that is at least 'half full' instead of 'half empty'. In terms of universal physics, what you focus your attention upon expands, what you resist persists and what you do not give the energy of appreciation to will eventually de-manifest right out of your experience. When you approach the world through the chosen filter of genuine GIVING you are, in effect, being an 'electrical transmitter', sending energy out to the word around you. When you release electrical energy in this way, you become more 'magnetic', as the sending out of energy creates magnetic vortices within the Diodic Grid of your Kathara anatomy. The "magnetized" Diodic points then draw in more universal energy supply, at a higher frequency and quality than the expressed energy, to re-fill the energy void created by the "giving". When you approach the world with the attitude of "getting", this natural physics process becomes inverted. The more you try to "pull" energy from the outside world, the more your energy becomes "stuck" in the Diodic Grid as miasms. The miasms progressively reduce the quantity and lower the frequency of the natural energies you can internally draw from the universal supply. Giving, even in its simplest form of giving appreciation, keeps the natural energy flow moving. Whatever you give out will return to you amplified. This also works in reverse however, and giving out a bad attitude of ego, arrogance and 'garbage' will cause more of the same to flow your way. Appreciate what you have. LOVE IT, find perspectives through which the joy of it can be known, and know that in the act of genuine appreciation itself, you will set loose the powers of manifesting more of what you desire and less of the illusion of lack. The "Universe Owes Me" mind trip is one of the most powerful self-sabotage games in the world. Trade it in for consistent appreciation and your world will progressively expand to hold the reality of the things you most desire. If you feel put upon by the world, and resentful for having your desires unmet, YOU OWE YOURSELF SOMETHING! You also owe yourself a greater understanding of the nature of creation and better use of your personal power within the life creation game. SAY THANK YOU to the GOD SOURCE more often, to help yourself remember what things you have to appreciate, and many more of the kind will be sent along your way.

8. PATIENCE. God- Source has its own schedule! We can either acknowledge this intrinsic reality of manifestation and choose to work co-creatively with the God-Source within, trusting that together you and the universe will create the perfect "Divine Right Timing" (and if that isn't "Right NOW", there IS a very good reason for this), or you can let the ego-self try to force its will upon the intrinsic nature of time. If time does not cooperate with your expectations, you can "let that be OK, and trust in Divine Right Timing" or you can progressively frustrate yourself with attachment to the artificial

Copyright A & A, 2002. All Rights Reserved

time of clocks, and choose to believe that you cannot have what you desire just because it does not appear when you demand. If we learn to relax, and realize that most things we desire we can indeed achieve in Divine Right Time and Order, we can learn to co-create with the consciousness of time. We will often then find that our lives will progressively conform to our wishes, especially when we ask nicely rather than DEMAND, and also when we trust the universal God-Source to do its part in our co-creation. Patience is a virtue that reflects our comprehension of the nature of Universal Order.

9. **KINDNESS**: Like Respect (Dance for Life Attitude of Mastery #4), Kindness is a birthright, but one that is quite often overlooked and misunderstood. When we approach the world through genuine kindheartedness, sending love and respect to all of creation in honor of the God Force that lives within all things we are, again, transmitting electrical energy of a higher frequency, that will follow the mechanics of universal physics to bring more of like kind back to us through universal back flow. Kindness is a gift we must first give to ourselves in order to have it to give to others. Kindness implies being conscientious, concerned and caring toward the needs, feelings and desires of both the self and others, and to express this concern and caring in action, attitude and intention. Give to yourself random acts of kindness; then pass along the gift to all who cross your way. Try being kind to the mean and grouchy neighbor and you may help them rediscover the ability to smile. When we treat all things with kindness, we demonstrate that we acknowledge their intrinsic value as manifestations of God-Source, and you will often find God-Source lovingly returns the favor.

10. **CONSERVATION**: Conservation is a form of respect and appreciation for God-Source energy in all of its expressions, from conserving and protecting our natural resources, to being attentive to the needs of our bodies, to using the energies of our words and actions with gentle conservation by which we freely use what is needed, but not more. God-Source continually recycles its energies for the rebirth of new expression. All is given freely, but no thing is valueless or wasted. Conservation demonstrates that we have respect and appreciation for the gift of creative energy that God-Source has provided to us. As we learn to use this energy, in all its forms, with respect and clear intention, we will progressively fine-tune our ability to create what we desire and, in this process, assist all other beings to do the same. There is truth in the old saying "Waste Not, Want Not". If everything we perceive in our hologram of life is understood to be manifestations of God-Source, we might all employ a bit more respect, appreciation and conservation toward the use and applications of the energies of the Divine.

11. **COOPERATION/DIPLOMACY**: Existence is and will always be a co-creative endeavor. We must be willing to allow other beings the fulfillment of their needs and desires if we hope to have our fulfillment known. Creating "Win-Win" situations and creating with the intention of GIVING genuinely are natural ways of Being. We might not always agree with the intended creations of others but we all have a right to our points of view. Diplomacy can be a bridge between forces of opposition, through which effective actions or decisions can be reached to mutually support each perspective. We can learn to agree to disagree respectfully, so the Spiritual Art of Co-operative Co-creation can progressively evolve to higher levels of expression.

12. **SENSE**: Learning to identify and appropriately apply both "Common Sense" and the "Uncommon Sense" of spiritual knowing will allow us to establish the greatest balance of energy expression within all aspects of our lives.

If one is to become fluent in the art and science of **Bio-Spiritual Healing Facilitation**, it is necessary to become familiar with the *primary structures* of *energy* within which existence takes place. Without this understanding one will be unable to identify the *true nature of systems and their intrinsic functions*. If we do not understand the **intrinsic order of a system** and the elements that make up its parts, our ability to comprehend the *organic functions* of the system will be limited. Without comprehension of the intrinsic dynamics inherent to a system, our perceptions will be limited to observing the **effects of systems function**, rather than perceiving the **causal elements** behind and within the apparent observable effects. In relation to the **health and healing** of the human body, it is wise to view the human **Body-Mind-Spirit organism** as a series of interwoven systems, *each with inherent, implicit order*, the perceivable and observable aspects of which represent the effects of systems function. **The observable effects of human condition emerge from an as yet unidentified causal order, a hidden and mysterious source out of which the manifest effects of human existence emerge.** Holistic healing approaches human health and healing in terms of the *interdependent relationships between multiple interwoven systems*. The Body-Mind-Spirit organism is viewed in terms of the *intrinsic relationships that unite* the multiple systems of the human being, rather than in terms of the *observable boundaries* that appear to *separate and divide* the multiple systems inherent to the human organism.

Holistic healing, and **KATHARA Healing** particularly, take the concept of intrinsic unity within the seemingly separate systems of the human being one step further than *simple interrelationship* between **physical, mental and spiritual aspects** of human experience. **In the paradigm of Kathara Healing, the human organism is viewed as a set of interwoven systems that is itself part of a larger system of interdependent systems.** The human individual is not only recognized as a *singular set of unified parts*, but rather as an *intrinsic part* of the species, planetary, galactic, universal and cosmic systems within which human existence finds context for being. The **Cosmic Unified Field of Energy and Consciousness** is viewed as the **indelible medium** within which all reality takes place, and human existence is viewed in terms of *its relationship to this greater Meta-system* of interwoven, interdependent systems. **The health and well-being of the human being is directly related to and affected by the systems-functions of the greater Unified Field.** In order to better understand and facilitate the health and healing of the biological organisms, it is useful to understand the basic order and function of the **UNIFIED FIELD** – the context in which life itself takes place.

Copyright A & A, 2002, All Rights Reserved

Kathara Healing is an ancient system of **Holistic Healing**, dating back beyond presently identified recorded human history. The principles of **Universal Order** as taught within Kathara Theory present a **broader** context of universality than is presently recognized by contemporary western science. Kathara is built upon **Laws of Multidimensional Universal Physics**, laws of intrinsic nature with which western science is not yet familiar. In Kathara healing *the hidden order of universal systems* is recognized and the foundations of Kathara *demonstrate the interwoven systems-functions* between human being and the order of the **Unified Field. To develop proficiency and genuine skill within the art and science of Holistic Healing, the basic order of the Unified Field must be understood.** For with this understanding comes the *ability to directly interact with and influence the causal elements* of the human experience. For this reason the teachings of Kathara Healing begin with providing a basic format through which the **CONTEXT of healing** can be understood – **a glimpse at the intrinsic order of the Universal Unified Field.**

With foundations grounded in **coherent systems relationships**, the Kathara Healing Facilitator has more knowledge, power and comprehension to bring to the art and science of healing facilitation. **Through comprehension of the *intrinsic systems of universal order*, the Kathara Facilitator progressively evolves to embrace the *unity* of SELF within the Unified Field, opening to an ever-expanding capacity of spiritual awakening and the embodiment of UNCONDITIONAL LOVE.** The physical, mental and spiritual aspects of human anatomy represent one interdependent, interwoven system that is *continually in a state of relationship to the Unified Field*. This relationship must be acknowledged and embraced if true health and healing are to occur. **Human evolution is a Bio-Spiritual process; the body and the consciousness – the biology and the spirit – are inseparably intertwined within themselves and within the greater order of the Unified Field.**

Healing emerges through restoring order to the ONE – SYSTEM and its infinite parts.

THE HOLOGRAPHIC TEMPLATE

The externalization of life, manifestation of matter and individuation of identity are **HOLOGRAPHIC PROJECTIONS of CONSCIOUSNESS – ENERGY SUBSTANCE,** created through an *intrinsic order of energetic relationships.* Energetic relationships represent interrelationships of consciousness, in its infinite manifest and de-manifest forms.

Consciousness *IS ENERGY*

AND

Energy *IS CONSCIOUS.*

True Science has a *spiritual* core and true spirituality has its *intrinsic translation within the Laws of Energy that govern the manifestation of universal systems.*

Reality is **THOUGHT CONSTRUCTION.** The core substance of the cosmos is **CONSCIOUSNESS.** *Thought is an attribute of CONSCIOUSNESS,* the filter through which consciousness manifests itself into the Hologram of Form.

Nothing is truly solid. *All things are composed of consciousness and their apparent solidity is determined by the relationship between the consciousness observing the form and the consciousness of which the form is made.* Human consciousness emerges through an **order of dimensionalization,** which sets frameworks within which the *interrelationships of consciousness* can take place. **Human perception of solidity and externalization is determined by the oscillation rates between dimensionalized units of consciousness.** Dimensionalized units of consciousness form **frequencies of energy,** which exist in *specific relationships* to each other. Human *consciousness* (the soul – spirit), and human *physical form* are **patterns of frequency** formed by *dimensionalization of units of consciousness. We perceive manifest solidity due to the relationship between the frequencies of consciousness of which we are made and those of the Unified Field of Conscious Energy around us.* **Humans perceive as solid the frequency bands that exist one full dimensional spectrum below the frequencies within which the individuated or collective consciousness is stationed.**

The only difference between a *thought* and a *manifest thing* is the *frequency of the consciousness of the observer.* Manifest reality is **thought projection,** made solid and externalized by relationships between *the frequencies of our focus of attention* and those of the *projected thought forms.* **We perceive as reality the thought forms of the collective masses as they were place within the frequency bands that now exist one dimension below the frequencies within which our present focus of collective consciousness is stationed.**

As reality is a **THOUGHT FIELD,** composed of units of consciousness awareness, reality can be directly **AFFECTED by THOUGHT,** as the substance of both thought and reality are one and the same. The **key to**

Copyright A & A, 2002, All Rights Reserved

mastery of our present reality, and to restoring our imprint for health, is understanding the *reality of dimensionalization* within which our consciousness now resides.

The human body is a HOLOGRAPHIC PROJECTION of consciousness that is built upon a *HOLOGRAPHIC TEMPLATE* of structured units of consciousness. The **Holographic Template** represents the **Living Morphogenetic Field** – *the dimensionalized blueprint of conscious light, sound and scalar waves*, within which the individuated consciousness is stationed, and *upon which the illusion of solidity of the body matter is formed*. **To *effect true and lasting change* within the Body-Mind-Sprit System of the human being, one must go to the core of its manifest structure – the *Holographic Template* or Thought-energy Blueprint, upon which the entire system of consciousness itself comes to know being.**

The body is a **HOLOGRAM** that can be directly affected by the *substance of which it is composed* – **CONSCIOUSNESS**. In learning the structure of dimensionalization through which the body-illusion manifests, one becomes progressively more masterful in directing this personal thought form to suit one's desired specifications. The core **Holographic Template** of the personal and universal body is called the **Kathara Grid**. **Kathara Healing** is the process by which the *embodied aspects* of human consciousness become more aware of and able to direct *the intrinsic processes of holographic projection*, with the intention of restoring integrity to the function of the Body-Mind-Sprit System.

No thing is truly manifest **– It only appears to be so, due to the refraction of consciousness within the energetic relationships inherent to the *Holographic Template* – the original *thought-form construct* upon which our universal structure is perpetually recreated.**

All creatures and things are Spiritual Beings having a Manifest Experience... No creature or thing can be ever divorced from its innate spirituality, but only from the awareness of its nature. For life is the expression and substance of spirit – and manifest reality is but a Dreamscape, from which we eventually all awaken...

The causal element of all manifest experience is called a ***Morphogenetic Field*** or **MANIFESTAION TEMPLATE.** Keylontic Science, the science of Manifestation Templates, is part of a larger advanced paradigm of science that is known as **15-Dimensional UNIVERSAL UNIFIED FIELD PHYSICS.**

PRIMAL SUBSTANCE

- A Manifestation Template is made of **PRIMAL SUBSTANCE**: units of conscious energy called **PARTIKI** that exist as ***Omni-polar points of fixed vibration. Partiki units*** are the smallest building blocks of matter, and they form the templates upon which consciousness in all forms enters manifestation.

- Partiki units are **Omni-polar** (containing the potentials for all polarities or none) units of vibrating energy that perpetually cycle back and forth between a state of **BI-POLAR LIGHT RADIATION** (scalar-standing-wave) and **OMNI-POLAR SOUND VIBRATION.**

- In the ***Omni-polar state,*** Partiki units exist as invisible, fixed points of *sound vibration*, forming what is called an **INTERDIMENSIONAL TRI -TONE WAVE**. An Interdimensional ***Tri-tone Wave*** is a singular point of fixed vibration that is composed of *3 sub-vibrations* (base tone, overtone and resonant tone). When Partiki units are in their Omni-polar state they exist as ***Ante-matter substance***, the first state of energy organization before Pre-matter manifestation. Through a process of Internal Fission, characteristic to their design, Partiki units break apart to form Bi-polar waves, while replicating their original Tri-tone Omni-polar design.

- In the ***Bi-polar state***, two sub-vibrations of the Tri-tonal Standing Waves of Partiki units break down into two sub-units, ***sub-tones***, called **PARTICUM**-*Base Tones* and **PARTIKA**-*Overtones*, interconnected units of **BI-POLAR RADIATION** that form ***Electromagnetic Scalar-Standing-Waves***. The third vibration of the Tri-tone wave, the *Resonant Tone*, remains as the core vibration through which the polarized vibrational units of Particum and Partika will reunite through ***Internal Fusion***.

- **PARTICUM** units form the energetic building blocks for **PARTICLE TEMPLATES** and **PARTIKA** units form the building blocks for simultaneously manifesting **ANTI-PARTICLE TEMPLATES**. Particle and Anti-particle Templates are interconnected, united by the Ante-matter PARTIKI units through which they manifest. The effects of **ELECTRICAL AND MAGNETIC FORCE** are set in motion through the **EXPANSION AND CONTRACTION** of energy vibration between Particle and Anti-particle matter units through the Ante-matter Partiki unit that unite them.

- **Particum-Particle units** represent the **CONTRACTION PHASE** of ante-matter energy, with higher **VIBRATION** (energy contracted into or received by the Ante-matter template) and lower **OSCILLATION** (energy expanded or transmitted from the Ante-matter template) and so are considered **BASE MAGNETIC. Partika-Anti-particle units** represent the **EXPANSION PHASE** of Ante-matter energy, with lower Vibration and higher Oscillation, and are considered **BASE ELECTRICAL.**

- **ELECTROMAGNETIC ENERGY** is created through the continual cycling of energy, as the Omni-polar Ante-matter Tri-tone Wave of **Sound Vibration** projects its energy into Bi-polar Particum and Partika Scalar Waves of **Light Radiation**. Energy thrust expands into the Anti-particle Partika vibration point as electrical force. It then contracts into the particle Particum vibration point, creating **magnetic** pull, (in ratio to its original electrical thrust), as the third vibration in the Ante-matter Tri-tone Wave draws the energy back to its source. Through the draw of the Ante-matter Partiki template, Partika-Ante-particles and **Particum-particles** are brought into a state of **Fusion.** Upon fusion, the energy of the Particum and Partika transmutes, the bi-polar Standing Scalar Waves of Light Radiation returning to their original Omni-polar Ante-matter state of Partiki units. Once returned to the Partiki state, the process repeats as the Partiki creates Fission and replication.

Partiki, Particum and Partika units represent PHASES that Primal Substance energy passes through as it moves into and out of manifestation.

- The process by which Partiki units perpetually convert conscious energy into Bi-polar Light Radiation Scalar-Waves (expansion) and back into Omni-polar Sound Vibration Tri-tone Waves (contraction) is called **PARTIKI PHASING**. Through perpetual cycles of Partiki Phasing, matter units "**flash on**", through **fission**, into Bi-polar Particles and Anti-particle manifestation built upon Scalar Waves of Light Radiation, then "**flash off**" through **fusion**, into Omni-polar Ante-matter Sound Vibration, continually cycling energy between the manifest and non-manifest state. **The perception of external physical matter, space and the passage of time is created through *variance in relationship* between rates of Partiki Phasing.**

- **Consciousness** in the form of Partiki Units is the **PRIMAL SUBSTANCE** of which the cosmos is structured and Partiki Phasing is the perpetual **PRIAMAL ACT** of reciprocal fission and fusion through which Primal Substance is brought into manifestation.

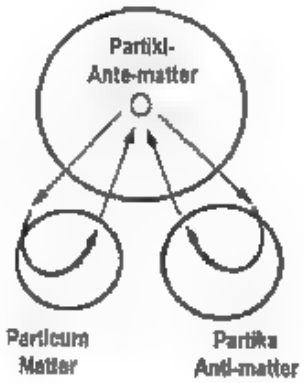
The Holographic Template

PRIMAL SUBSTANCE

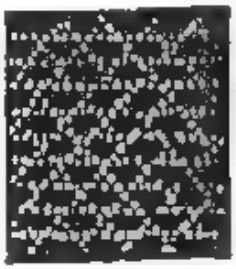
Units of Consciousness, Morphogenetic Fields and Scalar Grids

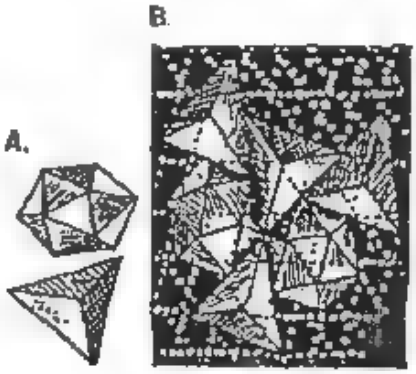
1 ***Partiki, Partika and Particum:*** Smallest units of energy-substance Electro-tonal units of consciousness that are the building blocks of morphogenetic fields matter and individuated conscious identity Operate as minute, perpetual motion fission/fusion generators.



3 Partiki units continue to group or accrete upon the Partiki Grids, forming A. ***Keylons*** - crystalizations of "frozen light" (stand scalar wave patterns and fixed points of tonal frequency), and B. ***Keylon Codes*** – complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field Crystal Body – the Blueprint upon which matter and identity will manifest.

2. ***Partiki Grids*** The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields





The **Morphogenetic Field** is made of interwoven Partiki Grids The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns – **scalar wave grids,** which hold the form of consciousness within dimensionalized manifestation Morphogenetic Fields are thus **Scalar Grids** that form in specific ordered interrelationship Partiki Grids form upon the core *geometrical-mathematical* structure of the **Kathara Grid,** and so the **Kathara Grid** represents the *core Scalar Field* upon which form manifests.

Morphogenetic Fields govern the form of matter manifestation and evolution of biology and consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution

THE STRUCTURE OF DIMENSIONS

Frequency Bands and Sub-Frequency Bands, Vibration-Oscillation-Particle Spin, Harmonics of Manifestation and Matter Density Levels.

The Hologram of manifest reality is a complex system of interwoven energy constructs all built upon **dimensionalized sets of scalar grids** – or fields of standing wave points – that form the **base laws of energy** upon which manifest reality functions.

The physical portions of the human body represent ***wave strata*** that exist within specific relationships to the embodied consciousness. **The embodied consciousness itself is *regulated by the intrinsic behavior of the wave strata* in which it is ensconced** The wave strata of seemingly physical forms appear to *human detection* in the form of *particles, sub-particles and wave bands* that group to form the 3-dimensionally manifest hologram of human life.

The **behavior of dimensionalized wave strata** is an intrinsic element within the function of ***human anatomy*** and provides the *very context* within which human existence and evolution take place When we come to understand ourselves as **vibrating quantities of conscious energy** existing within a state of **vibrational co-resonance with all things**, which are themselves *vibrating quantities of conscious energy* we can begin to understand the **fundamental structures** upon which the human condition is built.

*The human body is a **construct of conscious energy**, a living* morphogenetic field existing within the greater living morphogenetic constructs of the species, planetary galactic, universal and cosmic morphogenetic structure We are simply an element of sentient consciousness within a larger structure of sentient consciousness a part of the **Unified Field of Consciousness** that IS the living identity of the cosmos. Our physicality emerges through the **perceptual lens of dimensionalization** which provides us with the seeming manifestation of **particles, atoms, molecules** and the **physical systems** built upon them

If we expect to **heal ourselves** of the manifest conditions that cause suffering within the Body-Mind-Spirit system, we must first understand the nature of health the "way things are suppose to work" when they are *functioning properly* To understand the intrinsic **imprint and impetus for health**, in the human organism a basic understanding of the *contents of its parts* is in order That understanding begins with *identifying the basic reality structures within which we reside and how we exist in relationship to these structures.*

Our understanding of *health* begins with *identifying the context of existence*, the *Unified Field of Consciousness-Energy* of which we are all a part. A **simple *identification of the structures of the Unified Field* will work wonders in assisting us to understand ourselves, and through this understanding we become more empowered to foster a healthful and more joyous living experience**. To better understand ourselves we must return to the core of our intrinsic nature, the **dimensionalized fields of consciousness** within which we reside and out of which the substance of our SELVES is composed.

The following characteristics inherent to the manifestation of the human hologram are a place to begin our journey of self-understanding.

Characteristics of the Hologram

PRIMAL ORDER

SCALAR WAVES: Points of standing waves composed of quantities of conscious energy that emanate out of fixed units of vibration (Partiki units), which form the morphogenetic field templates upon and through which consciousness dimensionalizes itself to experience the hologram of manifest reality. Created through Partiki Phasing (internal fission/fusion "flash on / flash off")

MORPHOGENETIC FIELDS: The templates of consciousness, light, sound and scalar standing-wave grids which serve as the structured blueprints upon which our consciousness manifests into dimensionalization through which the holographic projections of space-time-matter and identity individuation can be experienced.

DIMENSIONS: *Morphogenetic Field Scalar Grids composed of interwoven layers of scalar waves, which serve to direct the flow of consciousness into multiple patterns of refraction through which the hologram of matter density, linear time and objectification of reality can be experienced.* Dimensions are specific structures of consciousness, composed of Partiki units with differing vibratory-oscillation rates which exist in precise relationship to each other and govern the intrinsic laws of function within the observable manifest worlds. The process of dimensionalization occurs through the wholeness of consciousness *compartmentalizing itself into various ordered sections having diversity of vibratory-oscillation*, through which the wholeness of consciousness may experience itself in an endless variety of forms. Each dimension represents a full frequency band.

FREQUENCY BANDS: Synchronized, cyclic, repeated sequences of "flashing on and off" of scalar-wave points within the dimensional scalar grids, which gives the appearance of manifest movement of wave spectra within a dimensional system. **Sub-frequency Bands** are shorter segments of the longer "flashing and off" sequence of the full Frequency Band. The frequency of dimensional levels and the particles within them is determined by the vibratory-oscillation rate of the Partiki units that make up the scalar-wave grid. Frequency is the form consciousness takes on while ensconced within the framework of dimensionalization. Frequency is the vibrating-oscillating wave spectra of which matter particles and dimensionalized consciousness are composed.

VIBRATION-OSCILLATION: Vibration is the condition of **internal movement** or ***holding of energy, within*** units of consciousness (Partiki) and the particles built upon them. Vibration is determined by the ***quantity of energy held within*** **Partiki units. Oscillation** is the condition of **external movement**, or ***expending of energy, from*** Partiki units and the particles built upon them.

The vibratory-oscillation rate of particles represents the *rate at which the scalar standing-waves "flash off and on"* within the morphogenetic field template. Vibration is the *internal measure of energy quantity* held within Partiki units and exists within direct proportion to the *oscillation rate*, or *external measure of energy quantity expended*, exhibited by Partiki and the particles built upon them.

The vibratory-oscillation rate represents the ratio between energy contraction (vibration) and energy expansion (oscillation), which sets the rhythm of particle pulsation that governs the formation of wave spectra within dimensionalization. The vibratory oscillation rate of Partiki units determines the frequency (cyclic pattern of scalar waves "flashing off and on") of wave spectra within the various levels of the dimensionalized morphogenetic field. **The relationship of vibrational-oscillation between wave spectra determines the matter density levels particles will exhibit within the dimensional scale.**

The human anatomy is a 15-dimensional morphogenetic field scalar grid structure, composed of wave spectra with varying degrees of matter density characteristic to the dimensional band with which each level of the anatomy is stationed. The portions of our anatomy that appear solid are those stationed one dimension below our focus of conscious attention.

PRIMAL ORDER OF MANIFESTATION TEMPLATES

- Morphogenetic Fields, or the **MANIFESTATION TEMPLATES** that serve as the blueprint through which consciousness manifests are composed of the Primal Substance of **PARTIKI UNITS**. Partiki units draw together to **ACCRETE** to form **PARTIKI STRINGS**. Following a set **mathematical and geometrical design** inherent to their form, Partiki Strings interweave and overlap, forming a **"Fabric of Light and Sound"** called a **PARTIKI GRID**. A Partiki Grid is a fixed pattern of interwoven Bi-polar Scalar-Waves of light radiation, built upon Omni-polar Tri-tone Waves of sound vibration, that forms the foundation for diversified Manifestation Templates. A **Partiki Grid** is a **SCALAR GRID**.

- Following the precise mathematical design set by the will and intention of the manifesting consciousness, Partiki Grids further accrete, drawing in more Partiki Units, forming groups of Partiki units that are arranged following *3 different rhythms of Partiki Phasing*. **Tri-phase groupings of Partiki Units** form patterns of Scalar-wave and Tri-tone wave interrelationships that create ***crystallizations of energy*** called **KEYLONS**. Groups of Keylons continue to accrete, forming complex Keylon arrangements call **KEYLON CODES**, through which the Manifestation Template is progressively built up from Ante-matter through various stages of matter density, beginning with **PRE-MATTER SUBSTANCE**, the first density of **Liquid Silica Hydro-plasmic** energy to emerge into externalized form.

- The Morphogenetic Fields upon which universes manifest are built upon a Manifestation Template that has a specific order of mathematical interrelationships that govern the combining of Scalar Grids with different rates of ***Partiki Phasing***. The **Cosmic Manifestation Template** is called the **ENERGY MATRIX**. Within the Energy Matrix there are many smaller manifestation templates upon which Universes are structured. **Universal Manifestation Templates** are called **TIME MATRICES**. There are uncountable Time Matrices within the Energy Matrix, which are collectively referred to as **THE TIME MATRIX**. All Time Matrices with in the Cosmic Matrix follow a specific mathematical-geometrical program through which space, time and matter can be experienced by consciousness upon entering the Time Matrix structure.

- Time Matrices are arranged upon a pattern of 15 different, but interwoven, Partiki Phasing rhythms (rhythms of expansion and contraction of energy). Each of the 15 rhythms of Partiki Phasing creates one **DIMENSON**. A **Dimension** is a set pattern of **"FLASH LINE SEQUENCES"**, or a cycle of singular Partiki Phasing rhythms, that contains within it 12 smaller rhythms of Partiki Phasing. Each Dimensional Manifestation Template creates a set of fixed Scalar-Tri-Ton Wave Points that create a template of stationary **SCALAR FREQUENCY**. Each Dimension represents one **SCALAR FREQUENCY BAND** containing 12 smaller SUB-FREQUENCY BANDS. A Scalar Frequency Band is a cyclic pattern of specific Partiki Phasing Rhythms, or **EXPANSION AND CONTRACTION RATIOS OF ENERGY CIRCULATION**, to which consciousness conforms in order to enter the experience of manifestation.

- To create the Universal Manifestation Template, upon which external space, time and matter experience can be known, Dimensions are ordered into sets of 15, forming the blueprint for a **15-Dimensional Time Matrix**. Within a Time Matrix the 15-Dimensions are further arranged into sets of **3 Dimensions**, forming **5 3-Dimensional reality fields**. Each 3-Dimensional Reality Field is called a **HARMONIC UNIVERSE**, and each represents a **level of matter densification** specific to its intrinsic rates of Partiki Phasing. One Time Matrix is thus a **15-Dimensional Scalar Grid** with 5 separate yet interwoven reality fields and 5 different densities of matter manifestation.

Copyright A & A, 2002, All Rights Reserved

- Each of the 5 Harmonic Universes within a Time Matrix represents a **TIME CYCLE**. A Time Cycle is a fixed, repeating pattern of Partiki Flash Line Sequences, or a repeating cycle of specific ratios of energy expansion-oscillation and contraction-vibration. The Time Cycle of a Harmonic Universe is called an **EUIAGO CYCLE**. There are **5 simultaneously manifesting Euiago Cycles in every Time Matrix**, through which consciousness passes in order to experience linear evolution through space, time and matter. Each Euiago cycle contains within it 6 smaller Flash Line Sequences forming 6 smaller cycles of time called **TIME CONTINUA**.

The **PRIMAL ORDER of Manifestation Templates** represents the core mathematical and geometrical interrelationships of energy that consciousness takes-on in order to enter the holographically projected experience of external space, time and matter. All manifest forms, including the **HUMAN BODY** and **PSYCHE**, are built upon a Manifestation Template that begins with the Primal Order of Dimensionalization, through which the consciousness anchors itself into the Time Cycles of the Universal Manifestation Template Time Matrix, to begin the experience of evolution through time.

Understanding the **PRIMAL ORDER OF DIMENSIONAL STRUCTURE**, as it pertains to the human organism, allows for comprehension of the greater causal framework through which personal healing must occur. Such comprehension of the core causal structure of manifestation enables one to work cooperatively with, rather than in resistance to, the natural **Universal Laws of Manifestation**, progressively restoring the **NATURAL HARMONIC ORDER** of well-being and **DIVINE RIGHT FORM**, through which the indelible **Organic Imprint for Health** can be progressively restored.

Dimensional Structure

A Dimension represents a full ***Frequency Band***, or repeating, cyclic sequence of "flashing on and off" scalar-wave points within a morphogenetic field. The morphogenetic field scalar grid structure of dimensions takes the form of ***sets of 15-Dimensional Matrices***. The 15 Dimensions are grouped into sets ***of 3 Dimensions each***, forming ***5 sets of 3-dimensional reality fields*** called **HARMONIC UNIVERSES**. The 15-Dimensions composing the 5 Harmonic Universes together represent one TIME MATRIX system.

Each dimension of frequency is composed of **12 Sub-frequency Bands**, or shorter cycle of "flashing on and off" or scalar-wave points, which exist as part of the longer cycle of the full Dimensional Frequency Band. The Partiki in each dimension have a specific rate of **vibratory-oscillation** (contraction and expansion of energy), which determines the **Angular Rotation of Particle Spin** (angular axis upon which particles will spin). There is a **90-degree shift of angular rotation** of particle spin between each dimensional frequency band and a **45-degree reverse shift** between **Harmonic Universes** (set of 3 dimensions / frequency bands.)

Particles having varying vibratory-oscillation rates and angles of spin allow multiple dimensional reality fields to co-exist within the same space while remaining perceptually invisible to each other. *The relationships between wave strata* within the dimensional frequency bands create the **holographic refraction** of light, sound and scalar waves that allows consciousness to *perceive* the *illusions* of **matter solidity, space, time and externalization of reality** while it is ensconced within the structures of dimensionalization.

Frequency Bands and Sub-Frequency Bands within the 15-Dimensional Scale

Frequency Bands are cyclic, repeated sequenced of *"flashing on and off"* of scalar standing-wave points that create the appearance of manifest wave spectra within a dimensional system. ***Sub-frequency Bands*** are shorter cycle segments of the longer *"flashing on and off"* sequence of the *full* Frequency Band. **Frequency and Sub-frequency Bands make up the foundation wave strata of Dimensions.**

PARTIKI PHASING, HARMONICS OF MANIFESTATION AND MATTER DENSITY

Partiki Phasing – *Scalar Standing – Wave flashing*. The internal expansion / fission / "flashing on" and contraction / fusion / "flashing off" of scalar standing-wave points made of Partiki units. *Partiki Phasing* governs the mechanics of matter manifestation within the Dimensionalized Frequency Bands of the Time Matrix. Through Partiki Phasing, HARMONICS of Manifestation and varying levels of matter density are created.

Each of the 5 Harmonic Universes, moving upward in the 15 – Dimensional Scale, has a progressively less dense state of perceivable matter. As you go up the Dimensional Scale, each Dimension has a progressively faster rate of Partiki Phasing with its corresponding higher frequency, faster oscillation, lower vibration, shorter wave length, greater expansion and less matter density. **These conditions represent the stages of perceivable matter density consciousness will experience as the focus of attention expands progressively upward/outward into the higher Dimensions of the Dimensional Scale through the process of evolution** (accretion of frequency from the Unified Field into the personal morphogenetic field).

As consciousness progressively expands back into the 15-Dimensional structure of its original morphogenetic field, matter density perception will change from perceivable Gross Matter physical density, to Semi-etheric Matter density, to Etheric Matter density, to Pre-matter Liquid Light density and to its orginal Ante-matter scalar wave form of non-density consciousness. **As the morphogenetic field expands, through drawing in more frequencies of consciousness, the perceivable matter density of the body and external reality field progressively lessens.**

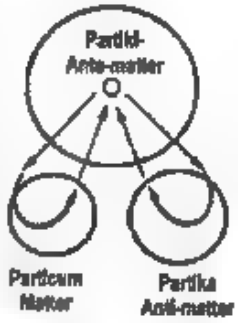
Partiki Phasing, Harmonics of Manifestation and Matter Density

1. *Partiki, Partika and Particum:* Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/fusion generators.



1. Partiki Phasing – expansion/ fission/ "flash on" and contraction/ fusion/ "flash off" of scalar points governs the manifestation process

2. Density/Biology: Progression of Matter Density and related Biology within the 15 – Dimensional Scale.

UNIVERSAL AND PLANETARY KATHARA

Kathara Level-1: 12-Tree, Kathara Level-2: Crystals,
Kathara Level-3: Diodic Points, Kathara Centers and Kathara Lines.

The Kathara Grid is the *primary mathematical-geometrical organization of units of consciousness* upon which Partiki units group to form morphogenetic field scalar grids. It is the **CORE** level of scalar standing-wave creation and energetic organization within and behind all dimensionalized systems, and is thus considered to be the **Core of the Holographic Template** upon which the morphogenetic scalar wave blueprint and all other dimensions of form anatomy are built. The Kathara Grid is the causal element within all manifest effects of dimensionalization and consciousness.

The form of the Kathara Grid is reflected in the Macrocosm and Microcosm of all manifestation. All forms have at their core the *common structure of the Kathara Grid Holographic Template*. The Kathara Grids of all forms – universes, galaxies, planets and species – are linked to each other and to the Kathara Grid of the Cosmos through the interwoven Partiki scalar standing-wave grids of the *Kathara Grid Holographic Core*. **The *Cosmic Kathara Grid* represents the scalar field of the Cosmic Unified Field of Consciousness-Energy** through which the Hologram of *manifest experience* is perpetually created.

Energy cannot be created or destroyed; it only changes form. Energy IS *Eternal Consciousness* that perpetually changes form by projecting through the structures of the Kathara Grid, while simultaneously remaining *always the same* - the *singular wholeness* of the **Cosmic Unified Field of Consciousness-Energy**.

Structure of the Kathara Level-1 12-Tree Grid Core Scalar Template

12 PRIMARY KATHARA CENTERS

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensional zed structure. There are 12 Kathara Centers, each holding the program for one Dimension. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

Kathara Lines are the primary sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensional-zed forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

There are **3 Primary Levels** to the structure of the Kathara Grid. **Level-1: The Kathara 12-Tree, Level-2: The *Crystal Seals* and Level-3: *The Diodic Points*.**

Level-1: The 12-Tree holds the first mathematical-geometrical program upon which Kathara Grid Levels 2 and 3 are created, and is composed of the **Kathara Centers** and **Kathara Lines.**

Level-2: The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of *Partiki Phasing* to create the base structures upon which *dimensionalization* is formed. The flow of Frequency (sequences of scalar standing-wave flashing/cycles of Partiki Phasing) between dimensional bands and Harmonic Universes, the fixed expansion and contraction rates of Partiki, the Vibration-Oscillation and the Angular Rotation of Particle spin are all regulated by the Crystal Seals.

Level-3: Diodic/Miodic Points represent **concentrated areas of energy** that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating **minute vortices** of wave spectra that serve as *frequency modulation zones* (scalar flash-cycle transition points) between Dimensional Frequency Bands. **Diodic Point** vortices are **White Hole** vortices that **transmit energy** into the Particle Universe from their counterpart **Miodic Point** vortices within the *Anti-particle Universe*. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within have, within their morphogenetic fields, sets of *Diodic and Miodic Points* – sets of **White and Black Holes** – that regulate the flux of consciousness – energy between systems.

The entire cosmic structure is built upon the morphogenetic foundations of *Interwoven Kathara Grids*. Within the structures of forms, such as planets or people, the Kathara Grid is the *Core Template of Holographic Manifestation* and controls the structure and function of all of the other *subtle* and *physical energy systems*.

Planetary scalar templates – **Planetary Shields** – vortices, electro-magnetics, Axiom and Ley Lines are all governed by the operations of the *Kathara Grid*. In the human body, personal scalar templates – Hova Bodies, Chakras, Axiom and Meridian Lines and Bio-energetic Field Auric Levels, as well as the physical systems, conscious awareness and DNA, are controlled by the personal Kathara Grid. **In terms of *generating the Imprint for Health* within the human organism, as well as *reclaiming dormant potentials of Immortality*, the Kathara Grid is the *causal mechanism* through which such effects can occur.**

KATHARA LEVEL-2 CRYSTAL SEALS GRID

Level-2: The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of *Partiki Phasing* to create the base structures upon which dimensionalization is formed. The flow of Frequency (sequences of scalar standing-wave flashing/ cycles of Partiki Phasing) between Dimensional Bands and Harmonic Universes, the fixed expansion and contraction rates of Partiki, the Vibration – Oscillation and the Angular Rotation of particles spin are all regulated by the Crystal Seals.

Planetary Star Crystal Seals

In the ***Planetary Kathara Grids***, the **15 Primary Star Crystal Seals** exist between each planetary Vortex or Chakra, on the **Central Kathara Line** or **Central Planetary Axis**. The Star Crystal Seals serve as **"Frequency Seals"** that open or close the *flow of wave spectra* and *Frequency Bands* from one Harmonic Universe to another, by regulating and modulating the sequences of *Partiki Phasing and the Vibration-Oscillation rates of Partiki units* within the Dimensional Scale. They control the opening and closing of the *Central Vertical Kathara Line* and *Central Planetary Axis*, through which particles are phase-locked into their respective dimensional placements and linear time cycle orientations. Opening of the *Star Crystal Seals* releases the planetary particles and *Ley Lines* from their *dimensional phase-lock*, opening **Inter-harmonic Star Gates** (*wave spectra vortices*) within the Ley Lines, for *molecular transmutation* and *time continuum shift*, through blending the Inter-Harmonic wave spectra of the planetary morphogenetic field. **The Planetary Star Crystal Seals control the opening and closing of the 3 Vertical Kathara Lines (and Vertical *Star Gate passageways*) of the Level-1: 12-Tree Kathara Grid within the planetary body.**

Biological Star Crystal Seals

In the ***human body*** **the 15 Primary Star Crystal Seals** exist *between* each Chakra on **the Central Kathara Line of Central Body Current**. The *biological Star Crystal Seals* serve as **"Frequency Seals"** that open or close the *flow of wave spectra and Frequency Bands from one Harmonic of consciousness* to another, by regulating and modulating the *sequences of Partiki Phasing and Vibration-Oscillation rates of Partiki units* within the Dimensionalized scalar wave grid of the morphogenetic field. They control the opening and closing of the *Central Vertical Kathara Line* and *Central Body Current*, through which particles are phase-locked into their respective dimensional placements and linear time cycle orientations. Opening of the *biological Stay Crystal Seals* releases the *body particles* and **DNA** from their *dimensional phase-lock*, opening **Inter-Harmonic Star Gates** (*wave spectra vortices*) within the **DNA**, for **cellular transmutation** (via particle + anti-particle *fusion*) and time continuum shift, through blending the Inter-Harmonic wave spectra. **The Biological Star Crystal Seals control the opening and closing of the 3 Vertical Kathara Lines** (and **Vertical** wave spectra vortices) **of the Level-1: 12-Tree Kathara Grid within the biological form.**

Seed Crystal Seals

Along with the 15 Primary *Star Crystal Seals*, that control the *Vertical* modulation of wave spectra, there are also **15 Secondary Crystal Seals** that control the **HORIZONTAL** Kathara Lines of the Level-1 12-Tree Kathara Grid within the planetary and biological bodies. The *Horizontal Crystal Seals* are called **SEED SEALS**; they exist and serve as **"Frequency Seals"** ***within*** **the planetary vortices and biological Chakras, modulating the wave spectra between Parallel (particle / anti-particle) Dimensional Frequency Bands.**

KATHARA GRID LEVEL-3 DIODIC POINTS

Level-3: Diodic/Miodic Points represent concentrated areas of energy that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating **minute vortices** of wave spectra that serve as *frequency modulation zones* (scalar flash-cycle transition points) between Dimensional Frequency Bands. **Diodic Point** vortices are **White Hole** vortices that transmit energy into the Particle Universe from their counterpart Miodic Point vortices within the *Anti-particle Universe*. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* – **sets of White and Black Holes** – that regulate the flux of consciousness-energy between systems.

Planetary Diodic Points

Within the **planetary body** and morphogenetic field, **Diodic Points** are located in **geographical locations** where Inter-dimensional and Inter-harmonic Horizontal and Vertical Kathara Lines *intersect* to form small vortices of inter-dimensional or inter-harmonic wave spectra that serve as passageways – **time portals** – between Dimensional Time Continua or Harmonic Time Cycles. They connect planetary and stellar bodies to their *anti-particle counterparts* and intersect with Vertical Inter-harmonic Star Gates and Horizontal Inter-dimensional Time Portals, through sets of Diodic – Miodic **White and Black Holes** at the center of the planetary and stellar cores.

Biological Diodic Points

Within the **biological form** and morphogenetic field, Diodic Points are located in physical body regions where Inter-dimensional and Inter-harmonic Horizontal and Vertical Kathara Lines *intersect* to form small **vortices** of inter-dimensional or inter-harmonic *wave spectra* that serve as ***gateways of consciousness*** between Dimensional Time Continua or Harmonic Time Cycles. They connect physical bodies to their *anti-particle counterparts* and intersect with the Vertical and Horizontal *relationships of wave spectra within the DNA/RNA* and *bio-energetic field*, through sets of **White and Black Holes** at the center of the biological Harmonic scalar grids.

Diagonal Grid Control

The *Kathara Grid Leve-3: Diodic Points* control the **Diagonal Kathara Lines**, Diagonal *Inter-dimensional portals*, Diagonal *Planetary Ley Lines* and Diagonal relationships between inter-dimensional wave spectra within the biological DNA. In ***Kathara Healing***, **the *Diodic Points* are used to open and close the Diagonal *Kathara Lines* for channeling higher dimensional frequency into the Level-1 Kathara Grid, to regenerate the imprint for Health and to revitalize the Bio-energetic and physical systems.**

- The systems of interwoven Manifestation Templates within the 5 Matter Density Levels of the 15-Dimensional Universal Kathara Grid are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX**. The Manifestation Template of the human body likewise structured upon this Primal Order, also manifests through a personal **INTERNAL TEMPLAR COMPLEX** of interwoven 15-Dimensional Manifestation Templates.

- Universal, Galactic and Planetary Scalar-wave Templates of the Universal Templar Complex are called **Scalar SHIELDS**. Shields are sets of 3-Dimensional Scalar Grids upon which the 5 Matter Density Levels of the Universal Manifestation Template manifest. A Shield is composed of the distinct **3 Primary Flash Line Sequences**, or Partiki Phasing Rhythms, characteristic to the 3 dimensions of which the Shield is composed. The Internal Templar Complex of the human body is also organized into 5 sets of 3-Dimensional Personal Scalar Shields, through which the matter form and 5 Matter Density Levels of the 15-Dimensional human consciousness are projected into manifest experience.

- Through the Intrinsic dynamics of synchronistic Partiki Phasing, each 3-Dimensional Scalar Shield manifests a **3-DIMENSIONAL SPHERICAL ELECTROMAGNETIC DOMAIN** that creates the energetic framework within which the externalized manifest experience can take place. Within the Universal Templar Complex, these Spherical Domains form 5 separate yet interwoven Reality Fields or **Harmonic Universes**, each with a different level of Matter Density, rate of Vibrational Oscillation, different Angular Rotation of Particle Spin and variance in Time Cycle orientation. Within the Personal Internal Templar Complex, the Spherical Electromagnetic Domains created by synchronistic, dimensionalized Partiki Phasing, form within the 15-Dimensional Time Matrix 5 separate, yet interwoven **STATIONS OF CONSCIOUSNESS** called **HOVA BODIES**. The **5 Hova Bodies** or human Manifestation Template Anatomy, within the Time Matrix, represent the **5 Subtle Energy Bodies** of human bio-energetic field construction, through which human identity experiences series of **SIMULTANEOUS INCARNATIONS** within various Time Cycles and matter density levels of the Time Matrix. Human Evolution is the process by which the electromagnetic frequencies and stations of consciousness of the 5 Hova Bodies progressively merge to transmute the physical matter form backward through various Matter Density stages through a process called **TRANSMUTATIONAL DIMENSIONAL ASCENSION**.

- Each of the 5 Shields within a 15-Dimensional Manifestation Template is structured upon **3 KATHARA CENTERS** within the core Primal Order of the Level-1 Kathara 12-Tree Grid. Each Kathara Center of the Universal Kathara Grid forms a core point of consolidated frequency called a **SIGNET Star Crystal Seal** within the 3-Dimensional scalar Shields. Within the universal, galactic and planetary Templar Complex the Signet Seals operate as Star Gates between the Time Cycles of the 5 Matter Density levels of the 15-Dimensional Time Matrix. Within the Personal Internal Templar Complex, each **Hova Body** is structured upon **3 Kathara Centers** within the embodied Personal Kathara Grid. Each embodied Kathara Center forms a **Signet Star Crystal Seal** within the human anatomy. The embodied **Signet Seals** operate as **Bio-electric Windows** within the **DNA-RNA**, that link the Stations of Consciousness and various **Simultaneous Incarnations** of the identity that exist within the Time Cycles of the Time Matrix to each other, across the illusions of time. Through the embodied Personal Kathara Grid, Scalar Shields, Signet Seals and DNA Windows, the individuated aspects of **ETERNAL IDENTITY** in time are indelibly linked in consciousness. This intrinsic linking of personal consciousness within the various simultaneous cycles of time appears to the embodied human awareness as **REINCARNATIONAL MEMORY**.

- The embodied Manifestation Template of the human form is a microcosmic reflection of the Macrocosmic Universal and Cosmic Manifestation Templates. Both microcosmic and macrocosmic Manifestation Templates share, and are interwoven through, the same **Primal Structures** of the Kathara 12-Tree Scalar Grid, the 5 3-Dimensional Scalar Shields and Signet, Star and Seed Crystal Seals and the Diodic Point "Black and White Hole Sets" of energy vortices that manifest upon the Kathara Grid. Human consciousness and biology are directly and indelibly connected to the Universal Templar Complex through the **Personal Internal Templar Complex** of the Personal Manifestation Template.

HEALING AND PRIMAL FULFILLMENT

A rudimentary but operational understanding of the intrinsic structure of the embodied Personal Manifestation Template – (*the **Level-1** Personal Kathara 12-Tree Grid, **Level-2** Scalar Shields, Hova Bodies and Signet, Star and Seed Crystal Seals, and the **Level-3** Diodic Points*) – and its relationship to the Universal Templar Complex, allows the embodied human consciousness the opportunity for progressive participation within the processes of **CONSCIOUS EVOLUTION** and intentional restoration of the **Organic Imprint for Health.** All manifest **DIS-EASE** originates through **distortions** in the electro-tonal scalar wave programs of the **Kathara Grid, Scalar Shields and Manifestation Template.** To achieve true and lasting healing rather than suppression and transference of dis-ease to other embodied systems, distortions within the personal Manifestation Template need to be realigned from the causal Kathara Grid level through **REGENESIS** of **Primal Order** within the **Organic Imprint for Health.**

Manifestation Template healing therapeutics, based upon the knowledge of the Kathara Grid, simultaneously work to restore the natural intended **Primal Order** and function of the human body and consciousness, while expediting the evolutionary process of merging the stations of identity through time, to facilitate fulfillment of the organic **PRIMAL PURPOSE.** The **Primal Purpose** of human evolution is the achievement of **Transmutational Dimensional Ascension** and **Co-creative Mastery** over the Personal External Consciousness and **Internal Templar Complex** within the Holographic Fields of the Time Matrix. Through fulfillment of the **Primal Purpose**, humanity will regain **THE PRIMAL CONDITION** of Conscious AT-ONE-ment with the Universe and the Central Source of Creation, or **God.**

CHAPTER 1 HIGHLIGHTS

THE HOLOGRAPHIC TEMPLATE

- **External reality is a HOLOGRAPHIC PROJECTION.** Perception of **solidity** and **externalization** is determined by the **oscillation rates** between **dimensionalized units of consciousness** – ***Partiki, Partika*** **and** ***Particum***. Dimensionalized units of consciousness form **Frequency Bands** that exist in specific relationships to each other. We perceive as solid the Frequency Bands that exist 1 full Dimensional Band **below** the frequencies within which the consciousness is stationed.

- **Dimensionalization** creates the structure through which consciousness can perceive the **Hologram of Externalization**.

- The human body is a **Hologram** built upon a **Holographic Template** of units of consciousness structured into **Scalar Standing-wave Grids** that represent the **Living Morphogenetic Field** blueprint upon which matter and dimensionalized consciousness manifest.

THE STRUCTURE OF DIMENSIONS

The **Unified Field** is built upon ***dimensionalized sets*** of ***Scalar-wave Points***, ***Wave Strata*** formed of units of consciousness that form the basis of energetic relationship through which the **Hologram of Manifestation** can be perceived.

The human body is a construct of ***Conscious Energy***, built upon **a 15-Dimensional Anatomy of Dimensionalized Scalar-Grids**. Perceived physicality emerges through the **Perceptual Lens of Dimensionalization** which provides the picture of seemingly manifest particles, atoms, molecules and physical systems.

Understanding the nature and structure of **Holographic Reality** allows us to understand the foundations upon which the **body** is built and the context within which healing must occur.

Scalar Waves are standing wave points that emanate out of fixed points of sound (electro-tonal Partiki units), which form the **Scalar Grid morphogenetic templates** that house consciousness in **dimensionalization** for experience of manifest reality. Scalar Grids are created through **Partiki Phasing**.

Partiki Phasing is the process of ***internal fission / expansion and fusion / contraction***, characteristic of **Partiki Units**, through which the units perpetually break apart and replicate through *fission*, then re-merge through *fusion*. Creates a "*flashing on and off*" *of* ***Scalar Wave points***, or "**Flash-line Sequences**", that determine the intrinsic orientation of consciousness within the Scalar Grids composing morphogenetic fields.

Dimensions are Scalar Grids of consciousness composed of interwoven layers of Scalar waves with **varying Flash-line Sequences**, or *Frequency Bands*. **Dimensions are Frequency Bands**, or Partiki wave spectra, that exist within specific relationship to each other to form the template of Holographic Reality.

Copyright A & A, 2002, All Rights Reserved

Frequency Bands are synchronized, repeating ***Flash-line Sequences of Partiki Phasing*** that give the appearance of manifest movement of wave spectra within a Dimensional Scalar Grid. **Sub-frequency Bands** are *portions* of the *Flash-Line Sequences* that make up the whole Dimensional Band. The Frequency of a Dimensional Band is determined by the **Vibratory-Oscillation** rate of Partiki units that make up the Dimensional Scalar Grids.

Vibration is the "internal movement" or **ENERGY HOLDING** of Partiki units. **Oscillation** is the "external movement" or **ENERGY EXPENDED** by Partiki units. **Vibratory-Oscillation rate is the rate at which Partiki Phasing "flashing on and off" occurs**. Vibration and Oscillation exist in **direct proportion** to each other. As Vibration increases (energy holding), Oscillation decreases (energy expenditure). Faster Flash-line Sequences (higher frequency) *expend* more energy, raise Oscillation and lower Vibration of Scalar Templates. **Higher Oscillation/ Slower Vibration creates slower electron movement around nucleus and less perceivable density of matter**.

A **Dimension** is a full Frequency band or **full cycle** of a **Flash-line Sequence**.

The **Universal Morphogenetic Template** is built upon ***sets of 15 Primary Flash-line Sequences*** that form **15-Dimensional Time Matrices** within which manifestation can be experienced.

Dimensions are organized into sets of 3, (3 full Flash-line Sequences/ 3 Frequency Bands), that create the template through which 3-dimensional manifestation can be experienced. Each set of 3 Dimensions is called a **Harmonic Universe**. There are **5 Harmonic Universes** within a **15-Dimensional Time Matrix**.

Each Dimension contains **12 Primary Sub-frequency Bands** (partial Flash-line Sequences).

Partiki in each Dimension have specific set **Partiki Phasing rhythms** giving each Dimension a specific ratio of **Vibration-Oscillation**. Higher Dimensions have Faster Partiki Phasing, are higher frequency and thus have higher oscillation, lower vibration and less particle density.

Copyright A & A, 2002, All Rights Reserved

Vibratory-Oscillation rate within a Dimension determines the **Angular Rotation of Particle Spin (ARPS)**, or rotational axis of particles in a Dimension. There is a **90-Degree Shift** in ARPS between each Dimension and a **45-Degree Reverse Shift** in between Harmonic Universes.

Particles having varying **Vibratory-Oscillation** rates and **ARPS** allow multiple 3-Dimensional Reality Fields to co-exist within the same space while remaining perceptually and experientially invisible to each other.

The **relationship between wave strata** and **variance in Partiki Phasing, Flash-line Sequences**, within Dimensional Frequency Bands create **Holographic Refraction** of consciousness-energy that allows perception of an externalized, 3-Dimensional **Holographic Illusion** for consciousness focused within the Scalar Grids of the 15-Dimensional Time Matrix.

UNIVERSAL AND PLANETARY KATHARA

- The **Kathara Grid** is the first level of Partiki structure/ *Scalar Grid organization* that sets consciousness into dimensionalization. It is thus the **CORE HOLOGRAPHIC TEMPLATE** upon which the *morphogenetic field blueprint* is structured.

- The *Kathara Grid* is the *Core Holographic Template* for **dimensionalization of the Unified Field** of Consciousness-Energy, through which the **Microcosm** and the **Macrocosm** are structured. **All things are built upon the foundation of the *Kathara Grid*.**

- There are **3 Primary Levels to the Kathara Grid. Level-1: *The 12-Tree Grid*** with **Kathara Centers** and **Kathara Lines. Level-2**: ***The Crystal Seals*** with **Hova Bodies** and **Scalar Shields** and Level-3: ***The Diodic Points*** of minute energy vortex **"White and Black Hole" sets**.

Level-1 Kathara holds the base electro-tonal **programs** of Partiki Phasing and Dimensional/ Frequency structure upon which the other Kathara Levels and the morphogenetic field are built.

KATHARA SCALAR SHIELDS AND CRYSTAL SEALS

Level-2 Kathara Grid is composed of 5 groups of 3-Dimensional **Scalar Shields** and **Crystal Seals** – that regulate the rates of Partiki Phasing to create the base structures upon which dimensionalization is built.

KATHARA DIODIC POINTS

Level-3 Kathara Grid is made of sets of minute White and Black Hole energy **vortices**, made of inter-dimensional Scalar Wave spectra, that **regulate the flux of consciousness-energy** between Dimensional, Harmonic and Parallel/ anti-particle systems.

Cosmic *morphogenetic structure* is built upon interwoven **Kathara Grids** and the Dimensionalized Scalar Standing-wave Templates they form.

KATHARA GRID LEVELS

The **5 Primary Scalar Templates of Dimensionalization** are formed on **Scalar Shields**, composed of sets of 3 Dimensions, which form 5 *3-dimensional spheres of energy* called **HOVA BODIES**. Hova Bodies and their Scalar Shields hold consciousness-energy into **5 separate but interwoven 3-dimensional systems**.

The **Kathara Grid,** and the multiple levels of morphogenetic structure built upon it, is the **CAUSAL ELEMENT** behind and within all manifestation and thus the **CORE HOLOGRAPHIC TEMPLATE** through which the Imprint for Health can be restored to Biology.

All manifest **Dis-ease** originates through distortions in the natural electro-tonal programs/ *Partiki unit arrangements* of the Kathara Grid and *Hova Body Scalar Shields*. The Kathara Grid and morphogenetic field are the **core elements** through which **lasting healing** is created. **Healing** occurs through **REGENESIS** of natural electro-tonal **programs** of the **Holographic Template**.

- **Partiki Units, Scalar Stand Waves, and Crystalline Keylons and Keylon Codes** represent the **PRIMAL SUBSTANCE** in energy that consciousness takes on in order to create the **Holographic Projection** of external manifestation.

- The **Kathara Grid, 15-Dimensional Structure, Scalar Shields, Crystal Seals, 5 3-Dimensional Harmonic Universes and Hova Bodies, Diodic Point** vortices and the subtle and dense matter energetic systems that manifest upon them represent the **PRIMAL ORDER** of mathematical and geometrical interrelationship that **Primal Substance** utilizes to orchestrate the manifest Hologram through creation of **Manifestation Templates**.

- The interwoven, ordered structures of scalar wave fields that form the **Universal Manifestation Template** of the 15-Dimensional Time Matrix are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX**.

The interwoven, ordered structures of scalar wave fields that form the **Personal Manifestation Template** of **15-Dimensional Human Anatomy** are collectively referred to as the **Personal INTERNAL TEMPLAR COMPLEX**. The Internal Templar Complex, a structural replica of the Macrocosmic Universal Templar Complex, anchors personal consciousness into the Time Matrix for the experience of the space, time and matter Hologram.

The **PRIMAL PURPOSE** of human evolution is the achievement of **Transmutational Dimensional Ascension and Co-creative Mastery** over the **Personal Eternal Consciousness** and **Internal Templar Complex** within the holographic fields of the Time Matrix. **REGENESIS** of the **Primal Order** within the **Organic Imprint for Health** creates true healing and expedites the natural processes of human evolution.

Through fulfillment of the **Primal Purpose** humanity will regain **THE PRIMAL CONDITION** of **Eternal Conscious At-ONE-ment** with the Central Source of Creation or **GOD**.

THE HUMAN BODY KATHARA AND THE MULTIDIMENSIONAL ANATOMY OF HUMAN FORM

The Structures of Manifestation and Reclaiming Our Power

In *PART-1* of this program, **THE CONTEXT OF HEALING**, we explored the hidden foundations of *reality structure* within which our existence takes place, the *context of relativity* through and within which healing occurs. We learned that the context of existence can be viewed as taking place within a **Unified Field of Energy**, and that **Energy IS consciousness and Consciousness IS energy**. In our exploration we encountered the **Partiki, Partika** and **Particum**, the ultra-micro-particle units of consciousness in electro-tonal form, through which the tangible structure of living **Morphogenetic Fields** are formed. In learning the foundation structures of the Unified Field of Consciousness-Energy, we come to understand that the anatomy of any form, including that of the human Body-Mind-Spirit System, is a multi-dimensional construct built on an ordered template of **sets of 15-Dimensions**, through which all conditions of apparent manifestation are created.

Through reviewing the underlying structures of manifest reality (units of consciousness, the ***Partiki Scalar Standing-wave Grids*** that hold consciousness into individuated dimensionalized "packages" of awareness to allow for experience of space, time, matter and form, the core ***Kathara Grid Holographic Template*** that sets the pattern of dimensionalization for consciousness to follow into the manifest experience, the ***Levels of Matter Density*** corresponding to the ordered structure of Dimensions, and the reality that Dimensions are *tangible constructs of energy* created through the process of ***Partiki Phasing*** – the fission-fusion "flashing on and off" of scalar standing-waves composed of units of consciousness) **we have already expanded our perceptions of the nature of reality itself**. With these **simple revelations of knowledge**, we have shifted ourselves from a perspective of *viewing the reality before us as one of separate manifestations disconnected from our being to a perspective of viewing reality as an intricate system of interwoven consciousness, expressing in the form of standing-wave strata, to which we are intimately and indelibly connected.*

Suddenly we find that we cannot be "left out" of things, we cannot "be on the outside as life passes us by", **that there IS no "outside" from which we may stand separate, as by the *nature of our existence* we are an *intrinsic* element and force of creative effect within the whole of creation.** Through this knowledge we have begun to tap the **secrets of SELF**, as we shift from viewing ourselves as *mortal creatures trapped within a gross-matter finite physical body* to **KNOWING OURSELVES AS THE EXPRESSION OF CONSCIOUS, SENTIENT WAVE-STRATA: ETERNAL BEINGS ENSCONCED WITHIN AN ETERNAL UNIVERSE, within which Energy-Consciousness cannot be created or destroyed, it simply changes form perpetually.** We move from perceiving ourselves as finite beings of limited power to affect a world that is separate from us, to knowing that we are *walking wave-forms within a sea of interrelated wave forms* and that the pattern of our being operates as an intrinsic part of the whole. **As we begin to perceive ourselves in terms of the *unlimited reality of our nature*, rather than define ourselves by the limited boundaries of the *manifest illusion* before us, we begin to reclaim our power to effect desired change within the contours of our lives.**

Knowledge, KNOWING and the Imprint for Health

Knowledge is an agent of freedom, IF it is used to foster practical applications of change Knowledge can also become *a perpetual quest of distraction*, through which we deny ourselves the ability to EMBRACE the experience of living as we seek outside of ourselves the answers that live within. **Knowledge is power if it is applied appropriately. It can be an agent that leads one through the door to the WISDOM that awaits on the other side** Knowledge alone cannot provide cognition. Cognition comes through the *application of applied knowledge* to provide **tangible, experiential KNOWING**, a knowing derived only through the **direct experience of BEING. In Kathara Healing, *knowledge* is applied as a *tool* through which one can grow into the *wisdom of direct experience* – from *thinking or believing*,** which are knowledge/data-based characteristics of a mind perceiving itself as finite – to **KNOWING**, through Direct Cognition of the Experience of BEING, which is a characteristic of a consciousness KNOWING itself as **ETERNAL**.

In our first lessons of **Kathara Healing**, we gained *knowledge* of the *Context of Healing* and the *structure* of that which exists within and around us, so that we may become more empowered to *serve as a healing force*, within ourselves and within the collective of the Whole **But this knowledge will only become practical or useful to us if it is applied to foster the direct experience through which the KNOWING may emerge** Then, and only then, will we be changed then and only then will we become *true agents of healing* **Knowledge can help you to *understand the nature of health and healing*, but only through KNOWING HEALTH through *direct experience* will you be healed.** To KNOW HEALTH we must rediscover this quality within ourselves, to EXPERIENCE the *quality of wellness* that emerges as the Imprint for **Health** is reawakened within the human body. **First we must use *knowledge* to recognize that the Imprint for Health is there, sleeping silently within us, awaiting this awakening.**

Healing the Causal Core

Fixing symptoms does not restore the *Imprint for Health*; it simply masks from view the *causal elements* through which non-health manifested. Removing the symptom *without addressing the underlying cause* simply sets the stage for the cause to *re-manifest itself* in new ways, through *new sets of symptoms*. **Each symptom you remove will give birth to another symptom if the *underlying cause* is not changed.** Kathara Healing addresses the **deepest *causal factor*** in manifestation, the Holographic Template **Kathara Grid**, upon which all conditions come into being. **Within the intrinsic structure of the Kathara Grid, the dormant *Imprint for Health* is sleeping and through knowledge of Kathara and applications of its methods we can reawaken the Imprint for Health within ourselves to progressively move into KNOWING HEALTH** through the cognition of Direct Experience.

In Kathara Healing you are provided with the knowledge you need to understand the structures upon which the *Imprint for Health* is built. For in understanding these structures, you will be enabled to call the Imprint for Health into awakening. **But it is through the APPLICATION OF KATHARA TECHNIQUE that you will EFFECT CHANGE. The technique applications offered in Kathara Healing allow you to "bring the knowledge home" to the core of its usefulness, the ability to lead you into the *direct experience of health-ward change*.**

Elements of Healing

In **Part II, THE ELEMENTS OF HEALING**, we will apply the knowledge of the *Context of Healing* that we acquired in *PART I* directly to its relevance in terms of the **HUMAN BODY**. We will now explore **Kathara Mechanics** as they apply directly to the human system and you will gain the knowledge of your **15-Dimensional Anatomy**, through which you may then effectively utilize Kathara Mechanics Techniques to begin your journey into the **EXPERIENTIAL REALITY OF HEALING**. We will discover the long forgotten potentials of the ***Planetary Bio-feed Interface System®*** and how to receive energy for healing directly from the Kathara Grid of the Earth. We will explore the real processes within and behind the experience of growth through time, so that we may finally identify the **true causal element intrinsic to the *degeneration* and *death* of the body**. We will come to understand the functions of the Body-Mind-Spirit System as they are **INTENDED to operate**, to identify the areas in which malfunction is occurring, so that we may *remedy the causal factors* to progressively restore the **INTENDED INTEGRITY OF THE BODY-MIND-SPIRIT SYSTEM. In PART II, we will reclaim our knowledge of our *multidimensional anatomy*, and rediscover the buried secrets of awakening the *Imprint* for Health.**

MAHARIC SHIELD

The Imprint for Health and the *Maharic Shield*

Restoration of health within the body is a progressive endeavor that takes time. Portions of the Body-Mind-Spirit System that have been malfunctioning must readjust to a new process of function that will progressively work its way up from the core **Kathara Grid Holographic Template**, into the **Bio-energetic Field, Chakra System** and **DNA**, to progressively **reset** the **Imprint for Health** within the Body-Mind-Spirit System. **The Imprint for Health sleeps soundly now within a portion of the multidimensional anatomy called the *MAHARIC SHIELD***. The Maharic Shield is a buried treasure of **REGENERATION and REVITALIZATION** of the human organism, as it is the key to *recoding the human Kathara Grid* back into its original Imprint for Health. **The *Imprint for Health* is a tangible construct of energy that is located within the structure of the *Maharic Shield***. In calling these dormant energy systems into activation within the body, one has the opportunity to restructure the causal level of malfunction and to recode the Holographic Template upon which malfunction manifests.

Reciprocal Reflection and the Kathara Grid

All conditions of dis-ease within the Body-Mind-Spirit System share a *common core* of causality – *distortions of the Kathara Grid* upon which manifestation is built. All symptoms affect the Body, Mind and Spirit *simultaneously*. Malfunction in one aspect of being will have its *reciprocal reflection* in the other aspects of being, as the symptoms emanate from distortion in the Kathara Core, upon which all aspects of being simultaneously manifest.

As we work with restoring integrity to the *Holographic Template Kathara Grid*, we are thus creating *simultaneous restoration through Reciprocal Reflection* within the *Body*, the *Mind* and the *Spirit* (the CONSCIOUSNESS that makes up the substance of our multidimensional anatomy and identity).

The Maharic Shield and Whole-Being-Healing

In activating the Maharic Shield to regenerate the Imprint for Health, you will have change occurring within multiple levels of being. Your **BODY** will begin to reflect change as dis-ease-causing distortions are released from the *biological imprint*, and a higher level of order is re-established within the ***atomic structure***. Your **MIND** will begin to reflect change as dis-ease-causing distortions in your **thoughts, ideas and beliefs** are released from the *mental body* awareness. Your **SPIRIT**-consciousness will reflect change, as divisions between your embodied awareness and the expanded portions of your multidimensional awareness will begin to dissolve and you will become progressively more able to embody greater states of *cognition*, *creativity* and *awareness*. **Kathara Grid recoding through the use of the *Maharic Shield* will set in motion the processes of WHOLE BEING HEALING, as the *Imprint for Health* is progressively reawakened and restored within the Body-Mind-Spirit System.** Activation of the **Maharic Shield** within the personal Kathara Grid will lay the foundation for progressive, lasting and powerful restoration of the **Imprint for Health** within your Body-Mind-Spirit System.

Learning to activate the Maharic Shield to restore the Imprint for Health requires a bit of knowledge regarding *Elements* of the hidden anatomy of multidimensional being and application of specific **energetic mechanics** that will directly affect these hidden structures of energy. We will begin **PART II** with a discussion on the **ELEMENTS OF HEALING as they apply to developing the skills required to create the condition of Maharic Shield activation, through which the *Imprint for Health* can receive its wake-up call.**

Awakening the Personal and Planetary Templar Complex Connection

Interwoven Personal and Planetary Kathara Grids

The core Holographic Templates of both the *personal* and the *planetary* morphogenetic fields are built upon a Scalar standing-wave *Kathara Grid*. As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the planet they inhabit, there is a **direct energetic connection between the Kathara Grids of the individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System®* – PBIS.** For thousands of years the **planetary Kathara Grid** has carried **distortions** in its natural pattern that have rendered the **PBIS** primarily inoperable. **Kathara distortions in the planetary morphogenetic field blocked the human's innate ability to draw energy for regeneration and revitalization from the planetary morphogenetic field.**

When the human Kathara Grid system is working properly, there is a *natural sympathetic rapport* between the personal and planetary Kathara Grids that keeps the imprint for Health within the human *Maharic Shield* functioning properly. Due to the distortions of the planetary Kathara Grid, the human Kathara Grid developed **reciprocal distortions**, which created **blockages between the Maharic Shield Imprint for Health and the other functional portions of the human Kathara Grid.** The blockages within the human Kathara Grid manifested as distortions within the natural function of the **DNA** and bodily systems, disarming many of the natural *self-regenerative functions* organic to human biology and rendering the human form more susceptible to disease and malfunction of the biological system. As there is a **Reciprocal Reflection** of patterns between the Body, Mind and Spirit aspects of the human organism, due to their *common causal element of the Kathara Grid Holographic Template*, **distortions within the DNA and physical body function also become reciprocal distortions** within the **mental body** and its **perceptual facilities**, and within the **Spiritual Body**, as the Kathara distortions *block and distort* the organic cycles through which higher dimensional aspects of consciousness would progressively embody within and expand the human form.

Return of the PBIS – Gift of the 21st Century

The secrets of utilizing the PBIS have been passed down within the generations of the Melchizedek human families, who brought these teachings to Earth long ago, kept hidden from public display until a day when the PBIS could once again become operational through evolution and clearing of the planetary Kathara Grid. These teachings are now being returned to the public arena because **progress has been made in restoring the integrity of the planetary Kathara Grid system. For the *first time in many thousands of years* the potentials of healing, held within the PBIS, can be returned to humanity, and the PBIS can now be *activated within the personally biology* to reawaken the Maharic Shield and its *Imprint for Health* within the human Kathara System.** Reawakening the *PBIS* and the *Maharic Shield*, within the human body, *allows the personal Kathara Grid to open into the planetary Kathara Grid*, through which the now-functional **Holographic Template of the planetary Kathara can be used to RESET the original imprint of function within the personal Kathara,** for accelerated regeneration of the **Imprint for Health** within the human form.

HIEROPHANT SYMBOL CODE

The Hierophant Symbol Code PBIS Trigger

The first application of the PBIS that we will employ in Kathara Healing is utilizing the energies flowing through the planetary Kathara Grid to reawaken the Maharic Shield within human anatomy. The process of opening the PBIS within the personal morphogenetic field involves using a **specific scalar standing-wave-guide GEOMANCY – a consolidated inter-dimensional *frequency pattern* that triggers release of the frequency seals (Kathara Level-2 Crystal Seals) on the presently dormant 10th, 11th and 12th Chakras, opening the human Bio-energetic Field and Kathara Grid to the Kathara Grid, Bio-energetic Field, Ley Lines and energy Vortices of the planetary morphogenetic field.** The wave-guide Geomancy, containing the frequencies to activate the PBIS and the Maharic Shield, can be directed by human consciousness **in the form of a visually created symbol code. This symbol code is called the HIEROPHANT. In TECHNIQUE #2: *The Maharic Seal and the Liquid Light Cleanse***, to be explored in *PART III of Section I*, the Hierophant Symbol Code will be used to bring the **Maharic Shield** and the **PBIS** out of dormancy, in order to **RESET the Imprint for Health** within the operational Holographic Template of the **human Kathara Grid.**

The Hierophant Symbol Code Scalar Wave Guide for Kathara Reprogramming

Thoughts and **Images**, formed by the mind, represent **small morphogenetic fields** with minute **Kathara Grids** that become interwoven into the larger morphogenetic field and Kathara Grid of the human multidimensional anatomy. ***THOUGHTS ARE THINGS*** **in terms of the bio-energetic reality of the body and the Kathara Grid;** ***thoughts become translations*** **of electro-tonal "*digital*" *instructions* within the human bio-energetic field, and directly enhance or detract from the natural function of the electro-tonal programs of the human Kathara Grid. In recognizing the power of thought as the *power of creation of scalar standing-wave grids*,** we can begin to apply that power effectively in regeneration of the Kathara Holographic Template, by **directing needed *electro-tonal instructions* for awakening the Maharic Shield into the embodied Kathara Grid**. The **Hierophant Symbol Code**, used in the form of a **visualized image**, sets a **powerful electro-tonal program** within the human Kathara Grid, a program that **triggers the opening between the human Kathara and the PBIS.**

The *Hierophant Symbol Code* appears in the form of a *Pale Silver Merkaba Star*, a six-pointed "Star of David", which represents the *electro-tonal program of the 11th and 12th Dimensional aspect of the Universal Kathara Grid*. The **frequency wave spectra**, perceived by the human mind as **Pale Silver**, represents the **electro-tonal program** of the ***Dark Silver*** *primary frequency band of the 11th – Dimensional wave spectra, combined with the* ***Pure White*** *primary wave spectra of the 12th – Dimensional frequency bands.* Using the **Hierophant Symbol** wave guide to *direct frequency and electro-tonal instructions* through the Kathara Grid creates a ***scalar standing-wave pattern of 11th and 12th Dimensional frequency*** **within the personal Kathara Grid**, the frequencies in which the **original *electro-tonal instructions* for the *Imprint for Health*** are stored. By **awakening the 11th and 12th Dimensional frequencies within the human Kathara Grid and bio-energetic field**, all of the *lower frequencies* within the Kathara electro-tonal program become **modulated and recoded** into their *organic, undistorted pattern*, by the stronger wave influence of the higher 11th and 12th Dimensional frequencies, which *contain within themselves* the organic imprint for the *entire dimensionalized wave spectra* of the dimensions that *oscillate* below them.

Ease of Kathara Healing Techniques

Through using the *Hierophant Symbol Code*, we awaken the restorative frequency patterns within the *Maharic Shield* and the *PBIS*, beginning the process of regenerating the organic *Imprint for Health* in the human Holographic Template Kathara Grid. The restorative effects of using the *Hierophant Symbol Code* to activate the Maharic Shield and the PBIS will occur upon using the *Kathara Mechanics* provided in **Technique #2**, whether or not an individual understands the realities in frequency that are taking place through using this process. **Therefore, the complex mechanics of activating the *Maharic Shield* to reset the *Imprint for Health* can be *reduced to simple instructions* for the direction of energy.** Though **the theory of Kathara Healing** is highly detailed and complex, the **Techniques** by which active results are achieved employ **simple exercises in *Mental Symbol Code Visualization* and mental energy direction, coupled with the application of simple *Kathara-stimulating personal massage*** to specific corresponding body points. **The *Techniques* of Kathara Healing and regeneration of Kathara Grid integrity are *so simple* that even a young child can learn to actively employ them, to achieve the desired result of restoring the *Imprint for Health*.**

MORPHOGENETIC EXPANSION

Frequency Accretion, Growth, Age Rhythms, Degeneration, Death and Kathara Blockage

Frequency Accretion and Growth Through Time

The morphogenetic field of the human body evolves through time via the process of **Frequency Accretion**. The human morphogenetic field *exists within* the larger morphogenetic field of the planetary and universal dimensionalized **Unified Field of Consciousness-Energy**. Through the inherent function of the **Kathara Grid** and the multi-layered systems of energy built upon it, *progressively more frequency* and *corresponding wave spectra* from the *dimensionalized Unified Field* are drawn into the *personal morphogenetic field* to create **progressive expansion of the morphogenetic imprint and its resulting *progressive expansion of consciousness and growth of the physical body* in time.**

Kathara Blockages and Organic Growth Cycles

Blockages and scalar wave distortions within the **Kathara Grid** *impede* the natural functions of **Frequency Accretion**, and so **distort the intended natural processes of consciousness expansion and growth of the body form in time.** When the Kathara Grid is functioning properly, there are **certain *specific points of linear time* when *specific aspects of morphogenetic expansion* via Frequency Accretion are intended to occur. The original cycles of growth and expansion inherent to the human form occurred between 1: fetal integration through age 11-12, 2: age 11-2 through age 22, 3: age 22 through age 33 and 4: age 33 through age 44**, at which time the human morphogenetic field would reach its **full expansion**, the **DNA** would reach its organic **12-strand activation**, the identity would expand to hold **12-dimensions of consciousness** with embodiment and the organism would have **full conscious control of *manifesting and de-manifesting* its 15-Dimensional anatomy in time. The body forms of the original human imprint are ETERNAL** – deterioration and death **were not a part of the original *Imprint for Health*** within the human Bio-Spiritual makeup. Through understanding how the process of growth and expansion in time were **INTENDED** to work, we can also understand the core reason for the manifestation of the **SYSTEMS MALFUNCTIONS** – the conditions of biological and mental deterioration that lead to the condition of **BIOLOGICAL DEATH** – a condition that is **INORGANIC TO THE ORIGINAL GENETIC IMPRINT OF THE HUMAN FORM.**

The First Natural Expansion Cycle

In the original human genetic blueprint, the frequencies and dimensions of consciousness corresponding to the wave spectra of Dimensions 1, 2 and 3 were intended to accrete or draw into the morphogenetic field between fetal integration and the age of 11-12. At the age of 11-12 the wave spectra of which the body was composed would take a **leap in frequency**, beginning the process of **expanding the morphogenetic field** to hold the higher frequency wave spectra of **Dimensions 4, 5 and 6.**

The *expansion of the morphogenetic imprint* is reflected in the *DNA* and *chemical and hormonal balances* within the body, which govern the function of the *metabolic rate* and the operation of molecular function. The **first cycle** of *morphogenetic expansion* into the wave spectra of **Dimensions 4, 5 and 6** represents the process of **SOUL INTEGRATION** for the embodied identity and **begins the natural process of de-densification of matter** – *by lowering of morphogenetic vibration, raising of oscillation rate and frequency, and shortening of the wave-length of the scalar waves that compose the matter form and consciousness.* **These changes in *intrinsic wave characteristics* have their reflection within the behavior of *atomic structure*** – as the morphogenetic field wave spectra **rises in frequency, the *electron spin* around the atomic nucleus *slows***, thereby increasing the electrical nature and reducing the magnetic orientation of atomic function, ***transmuting the perceivable matter substance* of the cells to a *less dense* state of being. Completion of the *Soul Integration process* marks the transmutation of *Carbon-based Gross-matter density* into the *Carbon-Silica based Semi-etheric matter density* and the expansion of embodied awareness from 3 to 6 Dimensions of consciousness.**

Completing Expansion

This process of *progressive morphogenetic field and consciousness expansion and resulting de-densification of biological matter* continued throughout the remaining *expansion* cycles. Age **22** to age **33** marked the accretion of the **7th, 8th and 9th – Dimensional** wave spectra, the process of ***Over-Soul Integration***, *expansion* into a **9th – Dimensional consciousness** and transmutation to a ***Silica-based Etheric matter density biology***. Age **33 to 44** marked the accretion of the **10th, 11th and 12th Dimensional** wave spectra, the process of ***MAHARIC INTEGRATION***, expansion into a **12-Dimensional consciousness** and transmutation **out of biology** into the **Crystalline Liquid Light wave from of Pre-matter substance.** At this point the identity is considered a **full AVATAR** and has complete control over **manifesting and de-manifesting the Holographic Projection** of its desired body imprint in time.

Conscious awareness remains polarized in Duality Consciousness and physical body is rendered finite and vulnerable to dis-ease.

THE 4 NATURAL CYCLES OF MORPHOGENETIC FIELD EXPANSION

Copyright A & A, 2002, All Rights Reserved

THE *4 CYCLES OF MORPHOGENETIC FIELD EXPANSION* REPRESENT THE *ORIGINAL ORGANIC PROCESS* BY WHICH THE HUMAN ORGANISM WAS *INTENDED* TO EVOLVE THROUGH TIME.

The Inorganic Condition of Human Illness and Death

The processes of biological and mental deterioration and resulting DEATH of the biological form, which we presently view as FACTS OF LIFE regarding the process of human passage through linear time, ARE NOT ORGANIC CONDITIONS TO THE HUMAN ORGANISM. Other life forms, such as the **animal kingdoms**, that manifest through morphogenetic fields having *less than 12 Kathara Centers* active within their Kathara Grid, cannot undergo the full process of bodily transmutation into Pre-matter substance and cannot fully expand their embodied awareness into 12th – Dimensional consciousness. For the animal kingdom, the process of evolution is also Frequency Accretion, but it is achieved through expanding one's body form to its full capacity, then entering the consciousness into a morphogenetic imprint with a bit higher capacity, until eventually the consciousness can accrete enough frequency to take it into the next level of matter de-densification and consciousness expansion. **Death is natural to the organic animal kingdom.**

Humans were intended to undergo the full spectrum of *morphogenetic expansion and cellular transmutation* WITHIN ONE ETERNAL BODY IMAGE, that was built upon a program of full activation of the 12 Kathara Centers of the Kathara Grid. Death is NOT natural for humans.

Kathara Grid Blockage and Molecular Compaction

The process of *biological deterioration* and progressive movement toward biological Death is the *direct result* of unnatural BLOCKAGES WITHIN THE KATHARA GRID HOLOGRAPHIC TEMPLATE. Blockages within the Kathara Grid program presently block the process of Frequency Accretion at the beginning of the **First Expansion Cycle** – as accretion of the 4th, 5th and 6th Dimensional frequencies representing the *Soul Integration Process* is blocked within the Kathara Grid and thus the biological DNA. The Incoming frequencies of the Soul Level consciousness **push on and CRUSH the morphogenetic field**, rather than expand the *morphogenetic field into a higher level of frequency hold*. When the incoming scalar wave frequencies of Soul Integration begin to crush the morphogenetic field, a condition called **MOLECULAR COMPACTION** is created.

MOLECULAR COMPACTION –
over exposure to scalar wave spectra* and its resulting *fragmentation of the morphogenetic field and Kathara Grid* – IS THE ONLY *TRUE CAUSE OF DIS-EASE*, AND THE CORE *CAUSAL ELEMENT* OF THE *UNNATURAL DEATH EXPERIENCE.

The Maharic Shield and Human Healing

Within the imprint of the **MAHARIC SHIELD** of human morphogenetic structure is the dormant imprint of the *10th, 11th and 12th Dimensional electro-tonal programs* that represent the **ORGANIC PROGRAM OF THE KATHARA GRID. Through activation of the Maharic Shield** – the scalar standing-wave template that corresponds to the Pre-matter Liquid Light fields of Dimensions 10, 11 and 12 – **blockages within the Kathara Grid Holographic Template, that result in the genetic mutation that causes Molecular Compaction, can be progressively realigned with the original ETERNAL IMPRINT FOR HEALTH.** Though it takes time and consistent application of **Kathara Healing Technique** to fully regenerate the **Imprint for Health and Eternal Life** within the 15-Dimensional Levels of human anatomy, working to heal distortions within the Kathara Grid, through **MAHARIC INFUSION** (running the frequencies and wave spectra of the *Maharic Shield* through the Kathara Grid, Bio-Energetic System and Body), can create progressively more observable effects in creating and maintaining health, and slowing the bodily deterioration process, within the normal life span of an individual.

Potentials of Kathara Healing

The true beauty and significance of *Kathara Healing* is that it can not only do wonders for creating and maintaining *higher standards of health* within the average human life span, but within the applications of **KATHARA MECHANICS** lies the *promise and potential* of human biological **ETERNAL LIFE** and fulfillment of **SPIRITUAL ACTUALIZATION** and evolution to **MASTERY** – through progressive embodiment of and conscious mastery over our 15-Dimensional Anatomy and the creative process of Holographic Projection within the dimensionalized fields of space, time and matter.

KATHARA HEALING HOLDS THE KEY TO HUMANITY RECLAIMING ITS ANCIENT HERITAGE OF THE ETERNAL SELF AND ETERNAL AT-ONE-MENT WITH SOURCE.

LEVELS OF HUMAN ANATOMY – THE EMBODIED KATHARA

The Human Kathara Grid

The Kathara Grid of the human body is the *Core Holographic Template* upon which the morphogenetic scalar-wave template and all other levels of identity are form are built. It is the **"Control Center"** for manifestation of the human being.

LEVEL-1 KATHARA 12-TREE GRID

THE KATHARA GRID LEVEL-1: 12-TREE

Level-1 Kathara Grid 12-Tree: The first level of the Kathara Grid **sets the *pattern for dimensionalization of consciousness* through which identity can enter the Time Matrix for the Holographic Experience of manifestation. The Kathara Grid 12-Tree is the first wave spectra composite through which consciousness anchors itself into dimensionality in order to experience manifestation of form.** All things within dimensional structure have the Kathara 12-Tree *activated* within their morphogenetic pattern. The 12-Tree is composed of **12 Kathara Centers** or Kathara Spheres, and **15 Kathara Lines**.

KATHARA CENTERS

The **Kathara Centers** are *crystallizations of Partiki units* that hold *composite electro-tonal energy signatures of each dimensional band*. The electro-tonal programs of the Kathara Centers hold the **foundation template** upon which the biological **DNA** will manifest.

KATHARA LINES

The **Kathara Lines** are sequences of *Partiki Phasing rhythms* ("flashing on and off"/fission-fusion sequences) that transfer the *dimensionalized electro-tonal programs of the Kathara Centers between each center*, to form the **core level of the scalar standing-wave template** upon which subsequent levels of the Kathara Grid, Bio-energetic System and body will build.

KATHARA HEALING AND THE LEVEL-1 12-TREE GRID

The *Kathara Centers* and *Kathara Lines* are used in *Kathara Healing* to realign and awaken the original 12-Dimensional Imprint within the human morphogenetic field, in order to *reinstate the original Imprint for Health* and *Bio-Spiritual Mastery* within the operational evolutionary blueprint for the Body-Mind-Spirit System of the Human form.

Level-2: Crystal Seals and 15 Primary Chakras

The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of Partiki Phasing to create the base structures upon which dimensionalization is formed. The *flow* of frequency between dimensional bands and Harmonic Universes, the fixed expansion and contraction/ fission and fusion rates of Partiki, the *Vibration-Oscillation Rates of Partiki* and the *Angular Rotation of Particle Spin* are all regulated by the Crystal Seals.

Star Crystal Seals are positioned between the Chakra Centers along the **Central Body Current** and **Seed Crystal Seals** are positioned between them and serve as the *point of composite frequency* out of which the **15 Primary Chakra Center Vortices** emerge.

HOVA BODIES AND SHIELDS

5 Dimensionalized Hova Body Shields and 5 Auric Capsules

Hova Bodies are 3-Dimensional, tri-tonal scalar standing-wave grids composed of numerous sets of **Crystal Seals** that form the electro-tonal program upon which the **Kathara Grid Level-3: Doradic Points** emerge. **The Hova Body Grids are called Crystal Shields.** The **5 Dimensionalized Hova Bodies** are structured as **5 Concentric Spheres** of energy that *surround and permeate the human body* and serve to *hold the embodying consciousness into dimensionalized levels* through which the **Holographic Projection** of *experienced manifestation* can occur. The Hova Bodies form **"tissue capsules"** of *subtle energy* around **each 3-dimensional Harmonic** level of the **Bio-energetic Field,** within which the **15 Dimensional levels** of the **Auric Field** are stationed.

In Kathara Healing, restoration of the original **4th - Harmonic Maharic Shield** *Imprint for Health* is used to realign and *clear blockages* from the lower Hova Bodies and corresponding **Kathara Centers** and **Kathara Lines,** to awaken the Imprint **for Health and Spiritual Actualization** within the Body-Mind-Spirit System.

HOVA BODIES, SHIELDS & SIGNETS

5 Ariea Hova Bodies, Kathara Grid and Harmonics of Manifestation

Hova Bodies are *tri-tonal scalar grids* that form *spherical energy "tissue capsules"* around each 3-dimensional level of the multi-dimensional identity. Within 15-Dimensional Human Anatomy, there are **5 Dimensionalized Hova Bodies** called **Ariea Hova Bodies.** The Ariea Hova Bodies form out of electro-tonal programs held within the **Kathara Centers** of the *Level-1 Kathara 12-Tree Grid.* The 12th Kathara Center of the Kathara 12-Tree Grid connects to the *12th Kathara Center* of the *Universal Kathara Grid*, just as the *1st Kathara Center* in the personal Kathara connects to the *1st Kathara Center* in the *Planetary Kathara Grid. The 12th and 1st Kathara Centers, the personal Kathara Grid and morphogenetic field connect to the planetary and universal morphogenetic fields.* **When working with the Hova Bodies, we first focus upon the lower four, as these must be functioning properly before the 5th Hova Body and its connection to the Universal Kathara Grid can be activated within the Bio-Energetic Field.** Four of the 5 Ariea Hova Bodies are directly connected to the Crystal Seals within the human body **Central Body Current** on a **HORIZONTAL PLANE.** These first 4 Hova Bodies correspond to each of the **12 Kathara Centers** of the personal Kathara 12-Tree Grid. **The Hova Bodies represent Harmonics of Manifestation.**

Hova Bodies, SIGNETS and SHIELDS

Each Hova Body **emanates outward** from a set of **3 Kathara Centers** and their corresponding **Crystal Seals. The *core template of the Hova Body is a Triad of Crystalline Spheres* that connect directly to the *3 Kathara Centers* to which they correspond. This Triad of Crystal Spheres is called a SIGNET. The Signets are the smaller, *fixed, consolidated frequency points* out of which the *Seed Crystal Seals* that form the *Chakras* manifest.** The Signets, and the smaller Crystal Seal formations that manifest through them, create a disc of spinning, horizontal wave spectra that direct the function of *Hova Body merger.* These scalar discs are the scalar templates upon which the Hova Bodies manifest and are called **SHIELDS.**

The *Shields* and the *Signets* that direct them are considered to be the *core of the Level-2 Crystal Seals Kathara Grid.* Each of the 4 Hova Bodies of the first 12 Dimensions forms upon a set of 3 Signets. Each **Signet *transmits a flash-line*** (Partiki Phasing Sequence) **on a different axis**, one **vertical**, one **horizontal** and one **diagonal**, forming a **3-plane projection of flash-lines** that form the base of the **3-dimensional Holographic projection.**

Kathara Centers and Activating the Signets and Shields

In each set of 3 *Signets* at least one corresponds to the *Central Vertical Kathara Line*, the control center of the Level-1 Kathara Grid 12-Tree. The Signets and Shields can therefore be used to direct the function of the Kathara Grid 12-Tree and all built upon it, and the Kathara Centers can be used to trigger activation of the Signets and Shields within the Hova Bodies. When a **Signet is activated** its corresponding **disc or *Shield* begins to spin.** When a certain spin rate of the Shield is reached, it triggers the activation of the next set of Signets in the next Harmonic setting the next Shield to spin. **When *2 Shields activate* and reach a reciprocal spin rate the *tissue capsule* separating the 2 corresponding Hova Bodies releases and the *2 Hova Bodies merge*, which is the process by which *Higher Identity Integration occurs*. It is also the process by which the *Merkaba Vehicle* is activated within the Bio-energetic field.** When all **four Shields** activate and spin, the body matter is able to transmute out of matter density and into pure wave form, which represents Maharic/ Avatar Integration for the identity.

THE 5 HOVA BODY SHIELDS

The Hova Bodies and the Shields

Each Hova Body contains at its core a Shield through which the Hova Body functions are governed. The **Nada Hova Body** of dimensions 1-2-3 forms on the **TELLURIC SHIELD**, its control center being the 2nd Kathara Center that is composed of 2nd Dimensional Frequencies. The **Alphi Hova Body** of dimensions 4-5-6 forms on the **DORADIC SHIELD**, its control center being the DORA or Archetype of the 5th Dimensional Frequencies. The **Betcha Hova Body** of dimensions 7-8-9 forms on the **TEURIC SHIELD**, its control center being the TEURA or Monad of the 8th Dimensional Frequencies. The **Mahara Hova Body** forms on the **MAHARIC SHEILD**, its control center being the Mahunta or Avatar Core of the 11th Dimensional Frequencies. The 5th Hova Body, the **Raja Hova Body**, forms on a set of Signets that correspond to **stellar points** within the **Universal Kathara Grid.** Its Shield, the **RISHIC SHIELD**, rotates on a **vertical plane** and it comes into activation within the personal morphogenetic field only after the four lower Shields have transmuted the body into Pre-matter Liquid Light of the MAHARIC SHIELD. **In terms of healing and advancing evolution of the earthly identity, the first four Shields are of greatest significance.**

Hova Bodies, Shields, Signets and Healing

In all healing applications, knowledge of the Shields is of great value, for any manifest condition of disorder will have its first manifestation within the Kathara Grid and the Shields that form upon it. The process of healing, therefore, is the process of *restoring the Shields to their proper order* so they may activate to build the Merkaba Vehicle through progressive Higher Identity Integration. **In Kathara Healing we begin with the MAHARIC SHIELD**, the Shield that contains the *pure form of electro-tonal programs upon which the consciousness first entered matter density* through the Pre-matter Liquid Fields of the 4th Harmonic- Dimensions 10-11-12. **Through activating and progressively drawing in the highest 11th and 12th Dimensional frequencies of the Maharic Shield, distortions in all lower Shields can be more rapidly realigned with their original pattern.** When we work with the Kathara Centers of the Level-1 12-Tree Grid we simultaneously create change within the SIGNETS that direct the function of the SHIELDS, and so we are able to more rapidly facilitate appropriate realignment of the Shields and Hova Bodies. **THE CORE OF HEALING IS RESTORING THE HOVA BODIES AND THE SHIELDS UPON WHICH THEY MANIFEST TO THEIR ORIGINAL INTEGRITY OF ORDER.**

Shields, Signets and Diodic Points

Through the interaction and interplay of multi-harmonic frequency between the **Shields, Signets** and their **Crystal Seals, Kathara Grid Level-3- DIODIC POINTS** come into manifestation, to fill out the 3-plane, 3-dimensional "armature" of scalar waves and flash-lines, upon which more Partiki units will cluster and crystallize to build up the particle base for form manifestation. The **Diodic Points**, within the body and morphogenetic field, connect directly to the Shields of the Hova Bodies in areas where the *flash-lines and scalar points* within the Crystal Seals of the Shields *align with and pass through each other*. **Flash-Lines from one Hova Body Shield crossing through those in other Hova Body Shields form *COORDINATE POINTS*, or "Gateways" of energy-consciousness *transference* through which frequency and awareness from one Hova Body and identity level can cross through into other Hova Bodies and identity levels.** The *Coordinate Points*, or *regularly scheduled points of flash-line intersection*, form **tiny vortices of energy**, which keep energy and consciousness flowing throughout the multiple dimensional levels of identity and anatomy. **The vortices of energy created by the Coordinate Points of flash-line sequences are called *DIODIC POINTS* and they have a counter reflection within *anti-particle manifestation* called *MIODIC POINTS*.** Diodic and Miodic Points are sets of **White and Black Holes** that circulate energy throughout the anatomy.

LEVEL-3 KATHARA GRID DIODIC POINTS

Diodic and Miodic Points

Diodic/ Miodic Points represent *concentrated areas of energy* that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating minute **vortices** of wave spectra that serve as **frequency modulation zones** (*scalar flash-cycle transition points*) between Dimensional Frequency Bands. Diodic Point vortices are **White Hole** vortices that *transmit energy* into the Particle Universe from their counterpart Miodic Point vortices within the Anti-particle Universe. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* – **sets of White and Black Holes** – that regulate the flux of consciousness-energy between systems.

Within the biological form and morphogenetic field, Diodic Points are located in **physical body regions** where Inter-dimensional and Inter-Harmonic **Horizontal and Vertical Kathara Lines intersect** to form small vortices of inter-dimensional or inter-harmonic wave spectra that serve **as Gateways of Consciousness** between Dimensional Time Continua of Harmonic Time cycles. They connect physical bodies to their **anti-particle counterparts** and intersect with the Vertical and Horizontal relationships of wave spectra within the **DNA/ RNA** and bio-energetic field, through sets of White and Black Holes at the center of the biological Harmonic scalar grids.

Diodic Points and 3-Dimensionality

Diodic Points control the **Diagonal Kathara Lines, the sequences of Partiki Phasing** or "***flash-lines***" that run on a **diagonal** between the Kathara Centers. Whereas the **Kathara Level-1 Kathara Lines** direct the **Vertical flash-line sequences** and the **Level-2 Crystal Seals** control the primary **Horizontal flash-lines** and their relationships to the Vertical flash-lines, the **Diodic Points** further regulate the relationships of flash-line sequences through the Kathara Grid by serving as **"turnstiles of energy"**. The Diodic Points intersect with the crossover points of the Vertical and Horizontal flash-lines, *adding a further level of modulation* to the frequencies passing through, allowing a **3-dimensional Harmonic Projection of flash-lines** (flash-lines projecting on 3 different angular planes) to build within the morphogenetic field. **The Diodic Points add the third plane of projection to the Kathara Grid, beginning the formation of what will appear as a 3-dimensional "armature" of flash-points upon which particles will accrete to "fill out" the Holographic illusion of 3-dimensionality.**

Diodic Points and Healing

In Kathara Healing, Diodic Points are used to open the **Diagonal Kathara Lines** for reprogramming. When Diodic Points become blocked, due to blockages within the Kathara Grid (which appear as "gaps" or missing sequences of flashes along the flash-lines of Partiki Phasing), energy builds up in the *Level-3 Kathara Grid*, forming distortions in the natural pattern that will manifest in the body and bio-field systems as *disease or disharmonic condition*. In later applications of Kathara Healing we will learn to identify points of Diodic and Miodic build-up in the body and use *primary flash-line sequences applied through touch points* to realign the natural flash-point sequences and clear the Diodic Blockages.

AXIOM LINES, AURIC LEVELS AND CHAKRAS

Diodic Points, Signets, Seed Seals and AXIOM LINES

Each **Signet** within a Hova Body Shield holds the electro-tonal program for one *Seed Crystal Seal* and one *dimensionalized flash-line sequence*. Each Seed Seal program corresponds to one *dimensionalized flash-line program* from one *Level-1* ***Kathara Center*** Each **Seed Crystal Seal** holds intact the electro-tonal program for one ***dimensionalized flash-line projection angle***, or **Single Axis Dimensional flash-line sequence**. The Single Axis Dimensional flash-line sequences controlled by each Seed Crystal Seal are called **AXIOM LINES.**

There are **12 Primary Axiom Lines** that correspond to the 12 Kathara Centers in the Personal and *Planetary Kathara Grids* There are 12 additional **Stellar Axiom Lines** that correspond to the 12 Kathara Centers in the Universal Kathara Grid **The Axiom Lines represent single-axis flash-line sequences** – (fixed points of conscious electrified sound – *electro-tonal units* – that form strands of scalar standing waves) **that intermesh to refine the scalar-grid webbing upon which Kathara Grid Level-3 Diodic Points will emerge.**

Axiom A-B Tonal Lines, Diodic-Miodic Vortices, Chakras-DNA-Portals-Ley Lines & Healing

Each of the 12 Primary Axiom Lines has a reverse reflection within the dimensions of the **anti-particle universe** The 12 Primary Axiom Lines governing the **Diodic "White Hole" Vortices of the particle universe** are called **Axi-A-Tonal Lines** (or "Axiatonal" Lines). The corresponding reflections of the Axi-A-Tonal Lines in the **anti-particle universe**, which govern the **Miodic "Black Hole" Vortex** reflections of the Diodic Points, are called **Axi-B-Tonal Lines** In Kathara Healing the integrity of the Axi-A-Tonal Lines is restored through realigning the electro-tonal programs within the corresponding **Kathara Centers.** The **12 Primary Axi-A-Tonal Lines** set the morphogenetic imprint upon which the **Chakra System** and foundation **DNA** organization of the human body will manifest and upon which the **Planetary Vortex/Portal System** and primary **Planetary Ley Lines** will emerge within the planetary body. Restoring the *Imprint for Healing* to the **Axi-A-Tonal Lines** and corresponding **Kathara Centers** will regenerate integrity within the **DNA** and **Chakra System** of the body and will restore the organic operation of the planetary **Vortices-Portals and Ley Lines** of the planetary morphogenetic grid.

Restoring the **Imprint for Health** within the **Axi-A-Tonal Lines** simultaneously restores integrity to the corresponding **Diodic Points** and to the **Axi-B-Tonal Lines** and their **Miodic Points**. When working with *Kathara Techniques* that "clear the **Miasmic Imprint**" – the *anti-particle blockages within the Diodic Points* – the *Diodic Points* are realigned by clearing their *Miasmic distortions*, which then reestablishes the integrity of the corresponding **Axiom A and B Tonal Lines**, sending a realigned electro-tonal program back through the **Seed Seals** and the **Level-1 Kathara Centers**. If the programs within the **Kathara Centers are simultaneously realigned** using infusion of the frequencies of the **Maharic Shield**, the Kathara Center programs, the Axiom Lines and the Diodic Points will be progressively restored to health. If the Kathara Centers are not simultaneously realigned, the restored Axiom Line programs will be overridden by the Kathara Centers programs until the restored programs reach *critical mass through prolonged repetition*. **Clearing the *Miasmic Imprint while simultaneously Repatterning the Level – 1 Kathara Centers and Kathara Lines via Maharic Infusion* is the fastest way to restore the *Imprint for Health* within the Human Body-Mind-Spirit System and within the natural operations of planetary bio-mechanics.**

Axiom Lines, Diodic Points, Hova Bodies, Shield and Auric Field Levels

The Single Axis flash-line sequences of the **12 Primary Axiom Lines** cross over and through each other to form CO-ORDINATE POINTS between the Hova Body Shields, through which the "White Hole" ***Level-3 Diodic Point Vortices*** emerge. **The varying angles of flash-line projection within the Axiom Lines create separate dimensionalized bands of frequency** (separate sets of flash-line sequences) within the Hova Body structure. As there are **3 Signets** and thus **3 Seed Seals** and **3 Axiom Lines** inherent to each **Hova Body Shield**, each Hova Body becomes *dimensionally compartmentalized* into 3 separate yet interrelated sections, each section having inherent sets of Diodic Points. **Each dimensionalized aspect of the Hova Bodies *becomes a Level of the Auric Field* within the bio-energetic system.** There are **12 Inner Layers of the Auric Field** which correspond to Dimensions **1-12** and to the 12 Primary Kathara Centers, Seed Seals and Axiom Lines of the *first 4 Hova Bodies*. There are **3 Outer Layers of the Auric Field** that correspond to Dimensions and Seed Seals **13-15** to the first 3 Kathara Centers and Axiom Lines of the **Universal Kathara Grid** and to the *5th Hova Body*.

Seed Seals, Axiom Lines, Consolidated Diodic Points, Chakras and Auric Levels

The points in the Kathara Grid where the Single Axis Axiom Lines cross over and through the Central Vertical Kathara Line in the Level-1 Grid and the Horizontal flash-lines of the Seed Crystal Seals form fixed, **consolidated Diodic Points – larger vortices** of energy composed of many smaller Diodic Vortices. **The larger vortex points are called CHAKRAS.** Each Chakra Vortex is formed upon the electro-tonal program of its corresponding Dimensional Frequency Band, Kathara Center, Seed Seal and Axiom Line, and **each chakra corresponds to one Auric Field Level, DNA strand imprint and level of consciousness.** As *3 Signets*, *Seed Seals* and *Axiom Lines* correspond to each *Hova Body Shield*, **3 Chakras regulate and correspond to each of 5 Hova Bodies, for a total of 15 Primary Chakras. Primary Chakras 1-12** correspond to Kathara Centers 1-12 in the **Personal and Planetary Kathara Grids and Primary Chakras 13-15** correspond to the *first 3 Kathara Centers* and *Axiom Lines* of the Universal Kathara Grid. Chakras 13-5 are considered **Universal Trans-stellar Chakras**.

The *Chakras* regulate *the transduction of flash-line sequences* from the *Dimensionalized Unified Field* and *Diodic Vortices* of the Axiom Lines and Auric Field Levels into the *Hova Body tissue capsules* and *rivulet channels* that connect to the physical, electro-magnetic, chemical and hormonal aspects of the visibly manifest form. Chakras regulate the flow of consciousness-energy between the dimensionalized Auric Field levels of the Hova Bodies, keeping the various multi-dimensional stations of consciousness separate, in order to allow for experiential perception of holographic manifestation. Each **Chakra circulates** its Single Axis flash-line sequence along the **angle of projection** carried within its corresponding **Axiom Line**, and this *angle of flash-line projection* determines the **Angular Rotation of Particle Spin (ARPS)** – or the *axis upon which particles rotate* – within each dimensionalized portion of the anatomy. There is a **90-degree shift** in *flash-line angle of projection* from one Chakra and dimensional band to the next, which creates a 90-degree shift in **Angular Rotation of Particle Spin** between each dimensionalized portion of the anatomy. Between each 3-dimensional Hova Body there is also a **45-degree reverse shift** of flash-line projection angle, which creates a 45-degree rather than a 90-degree forward shift of flash-line projections angle between each Hova Body and between each **set of 3 Chakras** (Chakras 1-2-3 * 4-5-6 * 7-8-9 * 10-11-12 * 13-14-15). The precise angles of flash-line projection and ARPS between Chakras create the perceivable 3-dimensional hologram.

Chakras

A Chakra appears within the bio-energetic field as **2 cones or spirals of multi-colored energy that are linked together at the tip** in the **Central Body Current** through the **Seed Crystal Seal** out of which the cones emerged. **Chakras 2-6** extend from the Seed Seals outward through the body and Auric Field on a **Horizontal axis** and **Chakras 8 and 9** intersect with *6 and 7* at the *Pineal Gland* on **2 rotating Diagonal axes** running through the head. **Chakras 1 and 7 and 10 and 14** are stacked above and below the body on a **Vertical Axis** aligned with the *Central Body Current* (CBC) and the *Central Vertical Kathara Line*. Chakras 1&7, 10&12, 11&13 and 14&15 are actually the bottom and top cones of **4 Large Vertical Chakra Spirals**, but are counted as separate chakras. **Chakra 15** is a "**roving chakra**", which travels the course of the **12 Primary Axiom Lines** far out in Level-15 of the Auric Field. Each Chakra draws in energy from and transmits energy into the dimensional Unified Field corresponding to the *chakra number* and carries as its dominant perceivable color the hue characteristic to the **primary frequency band wave-length** of its **dimensional affiliation.**

			CK-15	D-15	MAGENTA-PINK

A Chakra will also carry, in lesser saturation, the colors/frequency bands associated with all of the dimensions below its own dimensional affiliation.

Chakras and Dimensional Merkaba Fields

When the Seed Seal at the core of a Chakra is released, the **2 cones of the Chakra move through each other** to form a **Dimensional Merkaba Field**- *2 counter-rotating spirals of electro-magnetic energy that take the form of a **Star-Tetrahedron***. When the Seed Crystal Seal releases, the corresponding scalar-wave points within the Hova Body Shield are *released from **Dimensional Phase-lock*** – they are released from *polarity* by the re-combining of their inherent *Particum-Particles and Partika-anti-particles*. Through re-combining Particum and Partika the scalar standing-wave points undergo fusion, then a reciprocal fission and replication within the Harmonic above. Through release of the Seed Seals the *Dimensionalized Auric Field Levels* of the *lower Hova Body* align along the same *Angular Rotation of Particle Spin / angle of flash-line projection*, which transmutes them into the *angle of flash-line projection* and *Partiki Phasing rate* of the Dimensionalized Auric Field Levels of the Hova Body from the *Harmonic above*. **Seed Crystal Seals are released by infusing them with the frequencies/ flash-line sequences of the corresponding dimension from the Harmonic above**. Progressive release of the Seed Seals within the Chakras creates opening and merging of the Kathara Lines in the Level-1 12-Tree Grid, and merging of the *Hova Bodies, Shields, Diodic Points, Auric* and *Identity Levels* and *DNA strands through which activation of the **Merkaba Vehicle*** and de-densification of matter occur.

Auric Level, Chakra and Hova Body Correspondences

Each 3-Dimensional Scalar Shield forms a Spherical Electromagnetic Domain called a Hova Body.

Each Hova Body manifests the structure and governs the function of 3 Primary Chakras

Chakras draw energy in from, and transmit energy into, the Unified Fields of each Dimension. Each Chakra carries as its Primary Color the hue associated with the wavelength of the dimensional frequency band to which the Chakra Corresponds.

Each Chakra Corresponds to a level of the *Auric Field* and one *Axi-A-Tonal Line*. Each *Hova Body* corresponds to a set of 3 Chakras and contains 3 dimensionalized frequency bands that form the dimensional levels of Auric Field

AXI-A-TONAL LINES, THE HARA LEVEL, 6 HARA POINTS AND COMPLEXES

Axiom Lines, Rotating Flash-line Projection and the Human Body

Each Seed crystal Seal within the Signets of the Hova Body Shields hold the electro-tonal program for a Single Axis Axiom Line flash-line projection. **The flash-line sequences of each Axiom Line are not *simply stationary* single-line projections of flash-lines, but rather operate as *rotating* single-line projections**. Each rotating Single Axis flash-line projection is *synchronized* with the other rotating Single Axis flash-line projections of Axiom Lines from the other Seed Crystal Seals – Through the ***rotational synchronization*** of the Axiom flash-line sequences, the flash-lines of each Axiom Line regularly cross through each other and through the vertical and horizontal flash-line sequences from the Level-1 and Level-2 Kalhara Grid. The points of *synchronized flash-line crossover* form ***consistent points of intersection*** through which the **Level-3 Diodic Vortices** and **Chakras** manifest. Within the human body and Auric Field the **consistent points of flash-line crossover** can be charted in the form of **fixed lines of energy** that run through the body. **The charted Axiom Lines within the human body represent series of regularly scheduled flash-line intersection points, created through the synchronized rotation of the Single Axis Axiom flash-line sequences**

Axiom A Lines – "Axi-A-Tonal" Lines in the Human Body

The consistent points of Axiom Line flash-line crossover that form fixed lines of energy within the body can be charted as **Axiom A and B Line** energy flows within the body. The Axiom A Lines correspond to the body manifestation in the particle universe, the B Lines to the body double in the anti-particle universe. **For Kathara Healing applications, the A Lines – Axi-A-tonal Lines- of the particle body are used for various purposes of facilitating Kathara Center realignment and revitalization of the Body-Mind-Spirit System. Within the body, the Axi-A-Tonal Lines can be charted as Primary Flow Lines** – conduits through which energy consciousness, in the form of scalar-point flash-line sequences circulates through the morphogenetic field. The fixed flash-line crossover points that form the **charted Axi-A-Tonal Lines** appear in the body as a set of **12 Vertical Flow Lines**, one running from each of 12 Auric Fields Levels, which run through the body within the **Level-2 Crystal Seals Kathara Grid**. Each Axi-Atonal Line corresponds to one of the 12 Dimensional Frequency Bands, Kathara Centers, Seed Crystal Seals, Chakras and DNA strand imprints. **The 12 Primary Axi-A-Tonal Lines appear to enter and leave the body through the head and feet, with conduits running through the arms, hand and out the finger-tips, and through the legs, feet and out the tips of the toes. Each Axi-A-Tonal Line appears as a colored cord of energy, its hue determined by the wave length characteristic to its corresponding dimensional frequency band**. In charting the positions of the 12 Primary Axi-A-Tonal Lines in the body **numbering** and **color** are used to denote the *Dimensional correspondences* of each Axi-A-Tonal Line

Axi-A-Tonal Lines 11 & 12 and the "Hara Line'

Axi-A-Tonal Lines 11 and 12 which correspond to the 11th and 12th Dimensions, Kathara Centers, See Seals and Chakras, run vertically through the center of the body along the Kathara Grid Level-1 **Central Vertical Kathara Line** forming **a *twisted "rope"*** of Dark Silver (D-11) and White (D12) energy that wraps around the Central Vertical Kathara Line Flash-Line Sequence The **Central Vertical Kathara Line**, which appears as a **thin Silver-gold flash-line energy** running from the 14th Chakra (36" above the head) through the body and into the 13th Chakra at Earth s Core, is imbued with frequencies from **12th, 11th and 8th Dimensions** – the frequencies of White Dark Silver and Gold

In *Level-2 Kathara Grid*, the rotating single axis flash-lines of *Axi-A-Tonal Lines 11 and 12 spiral* around the thin Silver-Gold flash-line of the *Central Vertical Kathara Line*, merging into a thin, vertical tri-tonal flash-line of *primarily Gold* hue that becomes the core of the *Central Body Current*. In ancient Eastern Healing Systems, this **thin Gold Vertical Line** is called the "**Hara Line**" and is often considered the foundation of the manifest form In truth, the **Level-1 Kathara 12-Tree Grid** and the *Signets, Crystal Seals* and *Shields* of **Kathara Level-2** are the deeper foundation upon which the Hara Line manifests

The *Hara Level* of Kathara Level-2 Crystal Seals Grid

The mechanics of the Crystal Seals in the Level-2 Kathara Grid are complex, but can be employed with relative ease through working with the energetic dynamics of the ***outer levels* of the Level-2 Kathara Grid**, the level in which the *Hara Line* can be viewed using *9th –dimensional Higher Sensory Perception* We refer to this level of the Level-2 Crystal Seals Grid as the **HARA LEVEL**. The Hara Level is composed of the Hara Line and 6 of the 15 Star Crystal Seals of the Kathara Level-2 Crystal Seals Grid

The 6 Hara Points (Crystal Seals) apparent from the Hara Level are as follows:

1. The 9th *Silver* Core Star Crystal Seal, called the **HARA CENTER**
2. The 6th *Indigo* (or Blue-Violet) Star Crystal Seal, called the **SOUL STAR**
3. The 12th *White* Star Crystal Seal, called the **GALACTIC STAR**
4. The 3rd *Yellow* Star Crystal Seal, called the **SUN STAR**
5. The 8th *Gold* Star Crystal Seal, called the **EARTH STAR**
6. The 10th *Blue-Black* Star Crystal Seal, called the **EARTH CORE SEAL**

The **6 Hara Points** govern and regulate the function of **Complexes** of *energy synthesization* and *distribution* that control the operations of all primary body systems and bio-energetic field dynamics. In *Kathara Healing Level-2* we will explore mechanics of the Hara Level In Level-1 Kathara Healing we will simply become familiar with Hara Level as an element of 15-dimensional human anatomy

THE HARA AND THE KUNDALINI

The Silvery-gold energies of the Hara Center (9th Star Crystal Seal) are interwoven at the base of the spine with what is referred to as the **KUNDALINI life-force energies**. The Kundalini energies represent the **PRIMARY ENERGY CURRENTS** through which the incarnating consciousness anchors its morphogenetic field within the **Fetal Body** through the **FIRST 8 CELLS** of conception. **The Hara Center energies interweave at the base of the spine with the frequencies of the first Star Crystal Seal, the *RED Star Seal*,** in the First Cell. When the Hara Center Seal is dormant and activated only to the *3-Dimensional Level*, its Pale Silvery-gold frequencies appear to be encased within a crimson **RED sheath of 1st** –Dimensional energy, often **making the Hara Center and Hara Line appear to be RED in color.** As the Hara Center comes into activation, through progressive release of the 9th Star Crystal Seal, the Gold 8th –Dimensional and Silver 9th Dimensional frequencies of the Hara become the dominant hues, giving the Hara Center and Hara Line its natural **Silvery-gold color.** With full activation of the Hara Center and **12th –Dimensional Maharic Integration,** the tri-tone frequencies of the Hara Center and Hara Line take on a **tri-color spectrum of Pale Silver, Gold** and **Red-Violet** (pale Magenta), as the Kundalini primary life force currents, at the base of the spine, activate within the Central Vertical Current of the body. Full activation of the Kundalini merges the 7th –Dimensional **Violet,** 1st –Dimensional **Red,** 8th – Dimensional **Gold** and 9th –Dimensional **Silver** frequencies with the full spectrum **White-Silver** energies of the 12th Dimensional Maharic Current.

The Hara Center, like all Star Crystal Seals, is one of the primary regulatory elements of the natural Kundalini energies. As the Kundalini energies, at the base of the spine, are brought out of higher dimensional dormancy, through progressive activation of the Star Crystal Seals in the Kathara Level-2 Crystal Seals grid, the Hara Center progressively reflects these changes by expanding in size and energy processing capacities and taking on hues (wave spectra) of the higher dimensional frequencies. The **Kundalini energies**, at the base of the spine, are the key to **physical cellular transmutation** of the body. Kundalini energy currents **regulate the physical body's position in space-time,** keeping the physical body phase-locked into the planetary Time Cycle in which it was conceived, following the mathematical programs set by the Star Crystal Seals and the Kathara Grid. For physical transmutation to occur, the Kundalini energies of the higher dimensions must be brought into embodied activation, setting the processes of the **Internal Templar Complex** into motion.

The **DNA Template** manifests upon the programs set by the **Kathara Grid.** As the Kathara Centers and their corresponding Star Crystal Seals, Shield, Kundalini currents, Cranial-Sacral (Pineal-Tailbone) Seals, Seed Crystal Seals and Chakras activate, dormant DNA Strand Template also activate, progressively altering the **Angular Rotation of Particle Spin, energy-processing capacities, metabolic orientation** and **neurological processes** of the body and molecular structure. As these physical changes occur through activation of the Crystal Seals and Kundalini energies, the **Merkaba Vehicle** (interdimensional counter-rotating electro-magnetic fields in star-tetrahedral form) progressively builds within the bio-energetic field, allowing the physical body **release from phase lock** within its home space-time vector. **Activation of the Hara Center represents one of the stages of this natural transmutational process.**

THE HARA CENTER

The 9th Core Star Crystal Seal, the Hara Center (Tan Tein) and the D-9 Thalamus Complex

The **Star and Seed Crystal Seals** of the Level-2 Kathara Grid, that hold consciousness into the dimensional phase-lock set by the Level-1 Kathara Centers, accrete along the Central Vertical Kathara Line and the Central Body Current. **From the *Hara Level* – the *outer portions* of the *Level-2 Kathara Grid*** – the *12th, 9th and 6th Star Crystal Seals*, **appear as *areas of condensed light positioned along the vertical Hara Line*.**

The **9th Star Crystal Seal**, located about 2 " below the Navel, is known as the ***Core Star Crystal Seal*** – the point of **8th and 9th dimensional frequency** of the Harmonic-3 Over-Soul Matrix (***Teuric Shield***) that **anchors the personal morphogenetic field into that of the Earth** and serves as the **center of gravity** for the adult human body. **The *Core Star Seal* appears from the Hara Level as a 2" ball of Gold (D-8) energy encased in a thin Silvery (D-9) membrane; in Eastern theory, this ball of energy is called the *Tan Tein*, and is used for direction of bodily and Earth energies in advanced martial arts and healing practices.** In Kathara theory, we simply refer to this **energy ball** as the ***Hara Center*** or the **9th Core Star Crystal Seal.**

The ***Hara Center*** is the point at which the dimensionalizing identity enters the **Etheric Matter densities** of Harmonic Universe-3. The Hara Center represents the point into which the **Over-Soul Identity**, its **Monadic Core**, the **Betcha Hova Body** and **Kathara Centers 7, 8 and 9** first anchor within the body. The Hara Center holds the morphogenetic imprint for **DNA strands 7, 8 and 9**, corresponds to **Chakra Centers** and **Axi-A-Tonal Lines 7, 8 and 9** and is a key point for repatterning the electro-tonal programs of the Teuric Shield and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Hara Center is associated with the ***Thalamus Complex***, the chemical translation and regulatory system that governs the **9th –Dimensional Interface** between various **brain-function areas** and the glandular and metabolic operations of the **Thymus Complex, Gonads, Lymphatic System** and corresponding body systems. Through the ***9th – Dimensional Thalamus Complex*** the electrical impulse, chemical and hormonal relationships between the ***10th –Dimensional Shara Complex*** **and the** ***8th –Dimensional Thymus Complex*** and its related body systems are governed.

The Hara Center and the Thalamus Complex link the functions of the **Mahara** and **Betcha Hova Bodies**, the **Maharic** and **Teuric Shields** and the **Avatar** and **Over-Soul** levels of consciousness and identity within the body and bio-energetic field.

The primary area of dominion of *the D-9 Thalamus* Complex is *Brain Function.*

THE SOUL STAR

The 6th Soul Star Seal and the D-8 Thymus Complex

Also visible along the Hara Line of Kathara Grid Level-2 is the **6th Star Crystal Seal**, located around the **Thymus**, at the top of the breast bone, and associated with the **5th and 6th dimensional frequencies** of the Harmonic-2 Soul Matrix (*Doradic Shield*). The **6th Star Seal**, visible as a **pale Blue-Violet-white point of diffused light** along the Hara Line, is called the **Soul Star Seal**.

The *Soul Star Seal* is the point at which the dimensionalizing identity enters the **Semi-Etheric Matter densities** of Harmonic Universe-2. The Soul Star represents the point into which the **Soul Identity**, its **Archetype Core**, the **Alphi Hova Body** and **Kathara Centers 4, 5 and 6** first anchor within the body. The Soul Star holds the morphogenetic imprint for **DNA strands 4, 5 and 6**, corresponds to **Chakra Centers** and **Axi-A-tonal Lines 4, 5 and 6** and is a key point for re-patterning the electro-tonal programs of the **Doradic Shield** and realigning and activating the corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Soul Star is associated with the **Thymus Complex**, the chemical translation and regulatory system that governs the **8th–Dimensional Interface** between the **Pineal, Pituitary** and **Thyroid Glands**, which govern the chemical and metabolic operations of the **hormones, Adrenal Glands, Endocrine System, Spleen** and crystalline formation of the **Red Blood Cells** and **Hemoglobin**.

The *Thymus Complex* and its related glandular and metabolic systems govern the *cyclic rhythms* by which the **DNA strands** will activate through the **Pineal Gland**, the *rate* of *growth* and *degeneration* of body tissue through the **Thyroid Gland** and through the **Pituitary Gland** and its inter-glandular processes, the functions of *electro-tonal impulse conversation, translation and distribution* through the **brain, Central Nervous System** and **blood** are regulated.

The *Thymus Complex* controls **the inter-glandular systems balances** between the **Pineal, Thyroid and Pituitary Glands** and regulates the *primary* operations of electrical impulse and chemical translation and transfer throughout the brain and body systems via the **Thymus Gland**. The *8th –Dimensional Thymus Complex* is governed by the functions of the *9th –Dimensional Thalamus Complex* and the *10th –Dimensional Shara Complex*.

The Soul Star and the Thymus Complex link the functions of the **Betcha** and **Alphi Hova Bodies**, the **Tauric** and **Doradic Shields** and the **Over-Soul** and **Soul** levels of consciousness and identity within the body and bio-energetic field.

The primary area of dominion of the *D-8 Thymus Complex* is *Metabolic Function*.

THE SUN STAR

The 3rd Sun Star Seal and the Nadial Complex

Also present, but less distinctly visible along the Hara Line of the Kathara Grid Level-2, is the **3rd Star Crystal Seal**, located just beneath the **Hara Center** of the *9th Star Seal 2"* below the Navel and associated with the **2nd and 3rd dimensional frequencies** of the Harmonic-1 Incarnate Matrix (*Telluric Shield*). The **3rd Star Seal**, visible as a subtle pale **Yellow-Orange-Red point of diffused light** along the Hara Line, is called the *Sun Star Seal*. Due to its proximity to the Silver-Gold *Hara Center* 9th Star Seal, the Sun Star is often considered to be part of the Hara Center, but in deeper Hara Level scanning the distinction between these crystal seals can be evidenced. The *Sun Star Seal* is the point at which the dimensionalizing identity enters the **Gross Physical-Matter densities** of Harmonic Universe-1. The Sun Star represents the point into which the **incarnate identity, its Subconscious-Telluric Core, the Nada Hova Body** and **Kathara Centers 1, 2 and 3** first anchor within the body. The Sun Star holds the morphogenetic imprint for **DNA strands 1, 2 and 3**, corresponds to **Chakra Centers and Axi-A-tonal Lines 1, 2 and 3** and is a key point for re-patterning the electro-tonal programs of the Telluric Shield and realigning and activating the corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Sun Star is associated with the **Nadial Complex**, the electrical impulse and chemical translation and regulatory system that governs the **4th –Dimensional Interface** between the **Thymus Complex, Thalamus Complexes and the functions of the physical body systems**, through which the electrical, chemical and metabolic operations of the **Blood, Cardio-Vascular, Pulmonary** and **Respiratory Systems** are governed. The Nadial Complex governs the operations of **Heart and Breathing rhythms**, the flow of consciousness-energy or "**Prana**" from the higher dimensional anatomy into physical embodiment and regulates many key functions within the processes of nutrient conversion and distribution within the Skeletal and soft tissue systems. **The *Nadial Complex* is a key center for the direction of healing energies within the Nada Hova Body, Telluric Shield and physical body systems.**

In advanced applications of healing and manifestation, the Nadial Complex is combined with the attributes of the **Shara, Thalamus** and **Thymus Complexes** and with the **Universal Raja Complex** of Harmonic-5, which links the human body to the planetary, galactic and universal Unified Fields through the *12th and 13th Chakras* and *10th Star Crystal Seal* at Earth's core, via the *Planetary Bio-Feed Interface System*. The frequencies of the *3rd Sun Star Crystal Seal*, that govern the function of the *Nadial Complex*, can be combined with those of the 9th Core Star Seal *Hara Center* and the *8th and 10th Star Crystal Seals* through the 12th and 13th Chakras, *PBIS, Doradic, Teuric, and Maharic Shields and Raja Complex* to form a potent **Teuric-Telluric Current** for **healing and manifestation**, once the *Doradic and Teuric Currents* have been activated within the body.

The *Sun Star* and the *Nadial Complex* link the functions of the **Alphi** and **Nada Hova Bodies**, the **Doradic** and **Telluric Shields** and the **Soul** and **Incarnate** levels of consciousness and identity within the body and bio-energetic field.

The primary areas of dominion of the D-4 *Nadial Complex* are
Cardio-Vascular, Pulmonary and Nutrient Absorption/Conversion Functions.

THE GALACTIC STAR

The 12th Galactic Star Seal and the D-10 Shara Complex

The third point of condensed light visible along the Hara Line of the Kathara Grid Level-2 is the **12th Star Crystal Seal**, located at the **14th Chakra**, 36" above the head, and associated with the **11th and 12th dimensional frequencies** of the Harmonic-4 Avatar Matrix (**Maharic Shield**). The **12th Star Seal**, visible as a **White-Silver point of Light emanating an inverted White-Silver-Gold *cone of energy*** at the **14th Chakra**, is the White Star or **Galactic Star Seal**.

The Galactic Star Seal is the point at which the dimensionalizing gestalt identity enters **Pre-Matter Liquid Light densities** of Harmonic-4, the point at which identity begins its individuation and journey of densification into the wave spectra of perceivably expenential matter. The Galactic Star represents the point into which the **Avatar Identity**, its **Buddhaic Core**, the **Mahara Hova Body** and **Kathara Centers 10, 11 and 12** first anchor within the **Bio-energetic Field** to begin setting the scalar field for the body. The Galactic Star Seal holds the morphogenetic imprint for **DNA strand 10, 11 and 12**, corresponds to **Chakra Centers** and **Axi-A-Tonal Lines 10, 11 and 12** and is a key point for re-patterning the electro-tonal programs of the **Maharic Shield** and realigning and activating the corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Galactic Star is associated with the *Shara Complex*, the regulatory system that governs the **10th –Dimensional Interface between the D-9 Thalamus Complex** and the D-13 portion of the **Rishi Shield** in Harmonic-5. Through the Shara Complex, the Scalar Fields holding the gestalt identity of Harmonic-5 Rishi Consciousness Collective – the "*Universal Family of Consciousness*" – translate via electro-tonal conduction, into the more individuated Scalar Fields that house the Avatar identity gestalt Consciousness Collective – the "*Galactic Family of Consciousness*".

The **Shara Complex *regulates the disbursement of consciousness*** in individuated form through the dimensional fields of the Time Matrix and serves to link each individuated and incarnate member of the Geomantic Entity Collective beyond the Time Matrix, to its Avatar identity and Galactic Family of Consciousness in Harmonic Universe-4, through the Universal Family of Consciousness of the Rishi identity in Harmonic Universe-5. The Shara Complex represents the primary facility through which an individual consciousness retains its indelible energetic connection to its greater **family of consciousness**, through which it is directly linked to **Source**.

The Shara Complex governs, regulates and orchestrates the transduction, translation and cyclic rhythms of **electro-tonal projection of consciousness into dimensionalization**, sets the original operational structures of **Kathara Scalar Grid** arrangement and directs the synchronistic **evolution of families of consciousness** through time. Through the operations of the Shara Complex, an identity's cycles of **incarnation** and **manifestation** within the 5 Harmonics of a 15-Dimensional Time Matrix are regulated, which sets the **core regulatory rhythms of Partiki Phasing**, expansion and contraction of consciousness, and vibration-oscillation ratios that **govern the formation and function of the Thalamus and Thymus Complexes** and all aspects of the individuated **Kathara Grid, Bio-energetic Field** and **bodily systems**. The Shara Complex controls the cycles of in-flow and out-flow of energy between the personal morphogenetic field and that of the dimensional Unified Fields, and thus affects all systems of the body and consciousness, with a primary emphasis upon the functions of the **blood, consumption-excretion and immunological facilities** of the body and of the activation of the **higher dimensional sense facilities** within the embodied consciousness.

The Shara Complex links the functions of the **Mahara** and **Raja Hova Bodies**, the **Maharic** and **Rishic Shields** and the **Avatar** and **Rishi Levels** of identity within the embodied consciousness.

Primary area of dominion of the D-10 Shara Complex is the Immune System and HSP.

THE EARTH SEALS

Earth Seals 8 and 10 and the Raja Complex

Within the Hara levels of field depth in which the 3rd Sun Star Crystal Seal can be detected, there are 2 other Star Crystal Seals of primary importance, stationed along the Hara Line of the Kathara Grid Level-2; these are referred to as the **Earth Seals**. The Earth Seals function as intrinsic aspects of the **Planetary Bio-feed Interface System** and the ***Raja Complex***. The **8th Star Crystal Seal**, called the ***Earth Star Seal***, is located within the **12th Chakra**, 6" below the feet and is associated with the **7th, 8th and 12th dimensional frequencies** of the Harmonic-3 Over-Soul Matrix (**Teuric Shield**) and the Harmonic-4 Avatar Matrix (***Maharic Shield***). The Earth Star is visible as a subtle **Gold-Orange point of diffused light**, positioned along the Hara line, **6" below the feet**, as the Hara Line leaves the physical body through the 1st Base Chakra to extend downward into the Earth's core. The **10th Star Crystal Seal**, called the ***Earth Core Seal***, is located within the **13th Chakra** where the Hara Line connects into the Earth's Core and is associated with the **9th, 10th, 12th and 13th dimensional frequencies** of Harmonic-3 Teuric Shield, Harmonic-4 Maharic Shield and Harmonic-5 Rishi Matrix (*Rishic Shield*). The Earth Core Seal is visible as a **pale Blue-Black point of diffused light**, positioned in the Earth's Core, at the point where the personal Hara Line connects to the center of the Earth's Core, at the *1st and 12th Planetary Kathara Centers*.

The ***8th Earth Star Seal*** is the point at which the dimensionalizing identity combines the 12th–dimensional frequencies of the **Harmonic-4 Pre-matter Liquid Light density** with the 8th and 9th–dimensional frequencies of the **Etheric Matter densities of Harmonic-3**, to connect the personal morphogenetic field and Kathara Grid to those of the Planetary Body. The **Earth Star Crystal Seal** can be viewed as the point where Personal and **Planetary Kathara Grids connect to the Galactic Kathara Grid**. The Earth Star represents the point into which the **Mahara and Betcha Hova Bodies, Kathara Centers 8, 9 and 12 and the 12th Galactic Star Seal and Shara Complex** first anchor into the **Planetary and Galactic Kathara Grids**. The Earth Star holds the morphogenetic imprint for **all DNA strands for all manifest incarnations in *4 Harmonics of Time*, corresponds to Chakra Centers and Planetary Vortices and Personal and Planetary Axi-A-tonal Line 8, 9, 10 and 12** and is a key point for re-patterning the electro-tonal programs of the **Personal Maharic, Teuric, Domdic and Telluric Shields** and realigning and activating corresponding DNA strands, Chakras, Planetary Vortices, Axi-A-tonal Lines and personal or planetary body regions they govern. **In the Maharic Shield Activation process, the Earth Star** is activated to release phase-lock on the **12th Chakra** to open the personal Kathara Grid to the PBIS.

The ***10th Earth Core Seal*** is the point at which the dimensionalizing identity combines the frequencies of the **8th Earth Star Crystal Seal** with the **13th–dimensional frequencies of Harmonic-5 Ante-matter density**, to connect the personal and planetary morphogenetic field and Kathara Grid to those of the Universal Kathara Grid of Harmonic-5. The **Earth Core Seal** can be viewed as the point where **Personal, Planetary and Galactic Kathara Grids connect to the Universal Kathara Grid**. The Earth Core represents the point into which the **Rishi Identity, the Raja Hova Body and Universal Kathara Centers 1, 2 and 3** first anchor into the 3rd Earth Star and 12th Galactic Star Seals, to form the Raja Center of 5 Harmonic scalar fields, through which personal, planetary, galactic and universal experiential manifestation takes place. The Earth Core Seal corresponds to Chakra 13 and holds the morphogenetic imprint for **all manifest incarnations of persons, planets and galaxies within the 5 Harmonics of Time, in one 15-dimensional Time Matrix**. Through the combined frequencies of the **Earth Star and Earth Core Seals**, the personal Kathara Grid connects to the Planetary, Galactic and Universal Kathara Grids forming the Planetary Bio-feed Interface System and the ***Raja Complex*** – or ***Universal Bio-feed Interface System*** – that links personal, planetary, galactic and universal consciousness in time.

THE RA CENTER

The 3rd Sun Star Seal, 9 and 10 Earth Seals and RA Center

When combined with **PBIS, Doradic, Teuric and Maharic Shields and Raja Complex, the 3rd Sun Star Crystal Seal** and the **9th Core Star Crystal Seal Hara Center** *merge* to form *a Teuric-Telluric Current* that encompasses the *Seed Crystal Seal* within the **3rd Solar Plexus Chakra**, forming **a *sphere of powerful healing energies* at the 3rd Chakra** called the **RA Center**. In **Kathara Healing Level-2** we will begin activation of the *Teunc Current* of the Harmonic-3 Belcha Hova Body, through activation of Doradic Current Phase-2 and will explore beginning applications of combining the Doradic Phase-1 and Teuric Currents with the natural *Telluric Current* of the Harmonic-1 Nada Hova Body to begin bringing the **RA Center for healing and manifestation** into activation. (For more on the 4 Primary Triadic Healing Currents, see Chapter 4 of this manual).

The Hara Level of Kathara Level-2 and the 6 Primary Hara Points

Though the study of the Crystal Seals of Kathara Level-2 Crystal Seals Grid is complex in detail, one can become skilled in healing facilitation through Crystal Seals mechanics by learning the basic orientation of the **outer levels of the Kathara Level-2** scalar grid – ***The Hara Level***. In simple analysis, the **elements of the Hara Level can be viewed as follows**:

The Hara Line: the Central Body Current that is formed by the 11th and 12th Axiom Lines wrapping around the fixed flash-line sequence of the *Level-1 Kathara 12-Tree Central Vertical Kathara Line*.

The 6 Primary Hara Points. Star Crystal Seals – **1.** #9 – Hara Center, **2.** #6 – Soul Star, **3.** #12 – Galactic Star, **4.** #3 – Sun Star, **5.** #8 – Earth Star, **6.** #10 – Earth Core. Each primary Hara Point governs the function of a complex of interwoven scalar, bio-energetic and physical systems. Knowledge of the **6 Hara Points**, and the **Thalamus, Thymus, Shara, Nadial** and **Raja Complexes** they respectively govern, allows the healing facilitator a greater understanding of the 15-dimensional anatomy. Such **Foundations of Kathara** Healing are necessary in preparation for **Kathara Healing Level-2** practices, that will utilize the **Hara Level** of the **Kathara Level-2 Crystal Seals Grid** in combination with the Kathara Healing Level-1, **Maharic Recoding Process** and other elements to begin activation of the **RA Center** for advanced healing and manifestation.

Axi-A-Tonal Lines 1-10

In our exploration of the Hara Level of the Crystal Seals Grid, we have learned that of the **12 Primary Axi-A-Tonal Lines** (12 primary vertical energy-flow lines within the body and bio-energetic field, created by cross-over points of the rotating, single axis, flash-line sequences projected by each of the 12 See Crystal Seals), the 11th and 12th Axi-A-Tonal Lines spiral around the Kathara Level-1 12 Tree Grid *Central Vertical Kathara Line* to form the Hara Line and Central Body Current. Axi-A-Tonal Lines 1-10 also run vertically through the body, from the head to the toes and through each arm to the finger tips, connecting body regions to corresponding levels of the Auric Field, Chakras, Kathara Centers, Crystal Seals and DNA. The sequence of Axi-A-Tonal Line position is as follows:

Right Side of Body to Center – 3,6,9,2,8 **Center of Body** – 11,12 **Center to Left Side of Body** – 5,1,10,7,4. Each line of Axi-A-Tonal 1-10 ends in one **finger-tip and toe** on the corresponding side of the body and runs vertically through the top of the head to merge with Axi-A-Tonal Lines 11 and 12 and the Hara Line **at Chakra 10** and down through the feet to merge with the Hara Line at **Chakra 12**.

Axi-A-Tonal Line and the Meridians

The Axi-A-Tonal Lines within the body set the primary holographic scalar field upon which the Meridian Lines – or Secondary Flow Lines – of the body manifest. **The Meridian Lines can be used to access the Axi-A-Tonal Lines and the Axi-A-Tonal Lines can be used to access the flash-line programs of the Kathara Centers and 3 Levels of the Kathara Grid, if the *correspondences* between the *Meridians, Axi-A-Tonal Lines, Kathara Centers and Chakras* are understood.** For centuries the **Meridian Lines** and **Chakras** have been used in subtle-energy healing systems. This knowledge can be applied and the potential results of related healing techniques amplified by employing the correspondences between the Meridian and Chakra systems and the **Axi-A-Tonal Lines** and 3 Levels of the Kathara Grid. Bringing the Kathara Grid into the picture allows for restructuring the **Imprint for Health** within the causal core, while *expediting* the healing process by restructuring the various other levels of the bio-energetic anatomy.

In Level-1 Kathara Healing we focus primarily upon **Core Morphogenetic Repatterning** – resetting the electro-tonal programs of the Kathara Grid through the uncorrupted programs of the ***Maharic Shield*** – to set the "*ground*" into which other healing applications can anchor. In later Kathara Healing Levels we will explore technique applications that affect various other levels of the bio-energetic anatomy. **In Level-1 Kathara Healing we strive to create a basic familiarity with the elements of and the interrelationships between the various levels of bio-energetic anatomy.** Through understanding the basic correspondences between the **3 Levels of the Kathara Grid** – the *Kathara Centers* and *Kathara Lines*, the *Hova Bodies*, *Auric Levels*, *Signets*, *Shields*, *Crystal Seals* and *Axiom Lines*, and the *Diodic Points* and *Chakras* – and the other aspects of energetic anatomy, such as the **Meridian Lines** and **DNA**, the healing facilitator is equipped with a knowledge base through which more precise healing facilitation can be applied. Meridian Lines and their applications to Kathara Healing will be explored in later Levels of the Kathara Healing Program.

DNA

The DNA Connection

In this Chapter, we have explored the various elements of the 15-Dimensional Anatomy of the human form, from the Kathara Grid holographic scalar template, to the Hova Bodies, Shields, Axiom Lines, Chakra Centers, Auric Field Levels and the Hara Level with its related Complexes of energetic interface. Throughout all of these elements of the multi-dimensional anatomy we have seen how each element interrelates with the others through their *correspondences within the structure of the 15-Dimensional Scale*. The elements of the subtle body anatomy also systematically correspond to the structure and function of the human **DNA**. Through direct interaction with various elements of the subtle body anatomy, the operations of corresponding aspects of the human DNA can be repaired, enhanced and altered to advance applications of healing and to expedite the evolution of human biology and consciousness. In the *Kathara Healing Level-2 program* we will further explore the correspondences between the subtle body anatomy and the DNA and methods by which the DNA can be repaired and activated to a more advanced level through employing the use of Kathara Healing mechanics.

The Silicate Matrix 12-strand DNA Pattern

The core human DNA imprint is built upon a **12-Dimensional** Structure, each of the 12 strands building up upon one of the Primary 12 Axi-A-Tonal Lines and each strand corresponding to 1 of 12 dimensional frequency bands within the 15-dimensional scale. The original human DNA imprint is called the **Silicate Matrix**, the 12-strand scalar-wave configuration that allows for the progressive **transmutation** of Harmonic-1 carbon-based molecular-elemental structure into the Silica-based structures of higher Harmonic matter. The 12-strand DNA imprint of the human form implies that human biology was designed to embody **12 dimensions of conscious awareness**, or to fully embody the Avatar identity level – the ***"Christed" Identity*** of Harmonic-4, Pre-matter Liquid Light matter density. The human form is organically designed to undergo **full cellular transmutation** through 4 Harmonics of manifestation and their corresponding matter density levels. When the gene code is working properly, the process of cellular transmutation is directed by the embodied human consciousness. In historical terms, the process of ***conscious cellular transmutation*** has been referred to as the process of **"Ascension"**, which is ***Dimensional Expansion***, the mechanics of which have been hidden within ancient texts dealing with **Merkaba Mechanics**. The **Merkaba Vehicle** of inter-harmonic scalar-wave configurations, which forms within the bio-energetic field, is a consequence or *simultaneous effect* of progressive activation of the Silicate Matrix within the genetic code.

The Silicate Matrix and Subtle Body Anatomy

Just as each Axi-A-Tonal Line of the subtle body anatomy has its correspondence to a Kathara Center, Crystal Seal, Axi-A-Tonal Line, Auric Field Level and Chakra, so too do the DNA strands have their specific affiliations to each *dimensionalized element* of the subtle body anatomy. Each DNA strand translates into electrical-elemental-chemical form from the governing Axi-A-Tonal Line flash-line sequence to which it corresponds. The **Hova Bodies** and **Shields**, of subtle body anatomy, each correspond to a set of 3 Axi-A-Tonal Lines, Auric Field Levels and Chakras and thus also correspond to a set of **3 DNA strands**, that together create the experiential projection of separate 3-Dimensional holographic reality fields. Distortions and blockages in the Kathara Grid, Hova Bodies, Shields, Axi-A-Tonal Lines and Chakras appear as distortions and malfunction within the DNA. **The function of the DNA determines the *quantity of interdimensional frequency* and thus the *amount of dimensionalized consciousness* that can actively process through and embody within the physical body system. DNA distortions manifest as distortions of biology and consciousness.**

The 12 DNA strands of the Silicate Matrix are *sets of scalar-wave spectra* that correspond to each dimensional band, through which each dimensionalized level of the subtle body anatomy is translated into wave-spectra that is within the range of perceivable matter manifestation. The *DNA can be viewed as the primary structure through which subtle energy-consciousness translates into manifest physicality.* As each full dimensional band contains 12 primary Sub-frequency Bands (See Chapter 1 for Dimensional Structure), each of the 12 DNA strands contains *12 primary* ***Seed Codes***, or consolidated scalar points composed of electro-tonal flash-line sequences, that correspond to the Sub-Frequency within each dimension. The 12 primary Seed Codes within each DNA strand have an *anti-particle counterpart* composed of frequencies from the Anti-particle system. The 12 particle Seed Codes in each strand are called **BASE CODES.** Their anti-particle counterparts are called **ACCELERATION CODES.** The Seed Codes of the core DNA scalar imprint are the points of consolidated frequency through which energy-consciousness is drawn in from the dimensional Unified Fields to expand the personal morphogenetic field.

DNA Fire Codes – Genetic Time Codes

Along with the **12 Base Codes** and **12 Acceleration Codes** of each DNA Strand Template, there are also 12 Primary DNA Codes, called **DNA FIRE CODES**, that regulate the relationship between human biology and the **Planetary Time Cycle** in which the biology manifests. The DNA Fire Codes can be conceptualized as existing *between* the Primary 12 Strands of the Silicate Matrix. Each Fire Code is composed of one half of the scalar frequency patterns from each of the two Primary Strands that the Fire Codes is placed between. Each of the 12 Fire Codes corresponds directly to one of the **12 Signet Star Crystal Seals** in the Personal Shields of the Internal Templar Complex and, with release of the corresponding **Signet Seal**, the Fire Code comes into activation.

The DNA Fire Codes release the natural scalar barriers between particles and anti-particle DNA Strands, allowing **STRAND FUSION** to occur. Fusion of DNA strands in the particle body, with corresponding strands in the anti-particle body, creates a progressive transmutation of the scalar wave form of the DNA Template and Scalar Shields, through which the polarized Partcum-**Particles** and Partika-**Anti-particles** merge and transform into the original Omi-polar Partiku **Anto-matter** state. Through strand fusion the biological carbon-based biology progressively lessens in **density**, as its elemental agents are transmuted from the Kathara level, into elemental agents characteristic of the higher dimensional matter densities. **Dimensional Ascension** is achieved through release of the Kathara Grid Seals. Release of the Kathara Grid Seals creates merger of the Hova Bodies, activation of the Kundalini energies, release of the Cranial-Sacral Crystal Seals, **fusion of the DNA Strand Templates via the DNA Fire Codes**, building of the Merkaba Vehicle in the bio-energetic field and the resulting transmutation of bodily matter and shift in Angular Rotation of Particle Spin within molecular construction. Through this transformational process, the human biology is released from its organic phase-lock within its current space-time cycle and is able to engage in transcendental travel through the various matter density levels and Time Cycles in and beyond the 15-Dimensional Time Matrix. **As the DNA Fire Codes regulate the body's orientation to space-time, they are also referred to as the GENETIC TIME CODES**.

The DNA Fire Codes are an essential element in the natural process of restoring the natural eternal **Organic Imprint for Health** within the human body. The ability of the human form to become perpetually **self-sustaining** is dependent upon the Kathara Grid and DNA being able to continually renew the natural Primal Order of Maharic Shield scalar arrangement, upon which the body is built, to keep the Star Crystal Seals and conduits of interdimensional energy supply open. **Perpetual revitalization of the body** is achieved through full activation of the **12-Strand DNA** pattern. When activated, the DNA Fire Codes keep the Crystal Seals, **the Interdimensional INTERNAL STAR GATES of energy inflow**, open, so the finite supply of frequency held within the personal Manifestation Template can be continually renewed. Restoration of the Organic Imprint for Health as held within the **Maharic Shield**, is achieved through progressively clearing distortions of scalar-wave arrangements within the Kathara Grid, Shields and DNA Template and realigning the entire subtle energy and physical energy systems with the Primal Order of the Maharic Shield. This process of whole-being-healing does not occur overnight as many genetic distortions (which emerge from Kathara Grid misalignment) have served as the dominant bio-electrical program within the human genome for many thousands of years. With knowledgeable practice of Kathara Grid realignment and supportive healing applications, within the various Body-Mind-Spirit systems, these inherited distortions can be progressively healed through Regenesis of the Primal Order as held within the personal Maharic Shield.

Science, "Junk DNA" and Evolution

In the contemporary human genetic code, the majority of the DNA strands corresponding to higher dimensional anatomy and consciousness are dormant or damaged due to ancient blockages within the Kathara Grid and its corresponding elements of the subtle body anatomy. Present day humans function primarily on a **3 to 3.5 DNA activation level**, while the imprint and potentialities for strands 4-12 lie dormant within the morphogenetic field and within the fragments of non-functional DNA, that contemporary science has labeled ***"Junk DNA"***.

The portions of the DNA chain that science has presently identified as the **"Double Helix"** represent only the **surface portions** of the chemical, elemental and electrical components of the active DNA strands. Science has yet to identify the *multidimensional* spectra of DNA manifestation and has yet to realize, that within the structures of detectable DNA, there are *levels of structure and function* that direct the operations of the *entire genetic imprint*, which are not presently detectable by contemporary scientific technique. The human DNA imprint will always appear, from external analysis, as a *2-strand Double Helix* configuration, but what is not understood is that within this Double Helix there are, and will be progressively more, **additional Double Helix strands**, which *fuse together* and add their operational coding into the active DNA imprint. By contemporary standards of categorization, if science were to objectively observe the activated 12-strand pattern (or even an activated 4-strand pattern) the DNA would *not appear to be human at all* but rather as the seemingly incomprehensible genetic signature of an "unknown" species. As science evolves into comprehension of the multi-dimensional spectrum, the understanding of the true structure and function of DNA will progressively advance.

DNA, Kathara Healing and Bio-Spiritual Evolution

One does not have to wait for scientific theology to catch up with a rapidly evolving humanity in order to begin advancing the functions of the DNA. Through the processes of Kathara Healing, as we work to clear blockages from the Kathara Grid and to reawaken the *Imprint for Health* within the human body, we are simultaneously directly affecting the operational structure of the DNA. As we work to create **Hova Body merger** – *merging of the scalar-grid-flash-line sequences of the 5 Harmonic Hova Bodes* – we are progressively reordering portions of the "junk DNA" and stimulating dormant portions of the DNA into activation. As we work with subtle energies to clear blockages within the Kathara Grid, we are progressively purging ancient distortions and mutations within the gene code, distortions that have kept our collective consciousness locked into the limited 3-dimensional perceptual range of Harmonic Universe-1.

It is through the ancient distortions of the human Kathara Grid, and the resulting **mutations** of the human DNA, that the multidimensional portions of identity seem separate from each other. The higher levels of conscious awareness that are stationed within the scalar grids of the higher dimensional Hova Body Shields have been unable to *electronically translate* into the lower dimensional identity stations of the Nada Hova Body and its apparent physical manifestation. As we work with Kathara Healing to create a progressive Hova Body merger and DNA strand ordering and activation, we will progressively experience *advancement of conscious awareness and expansion of the perceptual field and Higher Sensory Perception* (**HSP**). This expansion and advancement occurs because we are able to progressively embody higher frequencies of consciousness and scalar wave flash-line sequences into the personal morphogenetic field, via the energetic conduits of the DNA. **Kathara Healing modalities are the fastest and easiest methods available to repair and advance the function of the DNA and to expedite the organic processes of Bio-Spiritual Evolution.**

THE 12 HUMAN SENSES, APPARTHI AND HSP

Perception and the Hologram

In earlier texts, we have explained that **manifestation is not what is appears to be** but rather a **Holographic Projection** of consciousness through the structures of **dimensionalization.** Further, that dimensionalization itself is a *compartmentalization* of consciousness created through units of consciousness (Partiki, Partika and Particum) *assembling in specific mathematical-geometrical ratios* to form **scalar grids**, interwoven fabrics of fixed points of electro-tonal units that form layers of standing-waves-**scalar waves** – that serve to "flesh out" the structure of the Hologram, through projection along a *vertical, horizontal and diagonal axis*. We have explored the **Kathara Grid** – the *core template* of scalar standing-waves upon which consciousness begins its experience of dimensionalization, the structures of the **15-Dimensional Universe** construction and how these characteristics of the Hologram relate to forming the structure of **15-Dimensional Human Anatomy**. In understanding the basic foundations upon which our perceivable Hologram forms, we begin to better comprehend the nature of reality and of ourselves within this multi-dimensional reality structure. **Through the Holographic Projection of consciousness, within the cosmic Unified Field of Energy-consciousness and its scalar fields of dimensionalization, we perceive the conditions of space, time, matter, externalization of reality and individuation of identity**. Within the Hologram of consciousness we perceive as solid and objectified the **wave spectra** and their inherent energy constructs of that which exists **precisely one dimensional band below the present station of our consciousness focus**.

In this section, we will explore a bit about the **apparatus of perception** that allows us to perceive externalization in such a manner, the **facilities of energy inherent to the scalar-wave construct of human form**, which together work to bring the Hologram into perceivable manifestation. We will call the constructs of energy, formed through scalar organization, which allow for perception of the manifest Hologram, the **HUMAN SENSES**.

THE *HUMAN SENSES* ARE THE *EXPERIENTIAL RESULT* OF *ORGANIZATIONS OF WAVE PATTERNS* INHERENT TO THE ELECTRO-TONAL PROGRAM AND SCALAR ORGANIZATION OF HUMAN CONSTRUCTION.

What ARE Senses?

Senses are the **scalar-wave apparatus,** and their seemingly manifest parts, that allow the personal morphogenetic field to **synthesize and translate frequency** from the dimensional bands of the Unified Field into **coherent perceptual and experiential qualities** that give embodied consciousness a **translation of its relationship to other forms of consciousness within the Unified Field.** Senses – or the apparatus which give us the ***ABILITY TO SENSE*** – are scalar arrangements inherent to our form that **TRANSLATE ENERGY SIGNATURES FROM THE UNIFIED FIELD INTO USABLE DATA OF RELATIONSHIP.**

Like the true substance of the human body and consciousness, the Unified Field exists as a *quantity of dimensionalized energy-consciousness in electro-tonal scalar wave form* – a compartmentalized field of **ENERGY SIGNATURES**, within which a vast number of **consciousness constructs** exist. The human organism is one such **construct of consciousness** and through its inherent form the *energy signatures* of other scalar forms are translated into perceptual data. **The senses are simply *energy constructs* within the human morphogenetic field that *separate and translate energy signatures from the Unified Field* into sets of experiential stimuli, through which the contours of the manifest Hologram can be recognized and experienced.**

The APPARTHI and Perception

The sense facilities are *organizations of energy* within the morphogenetic field that hold sets of "*energy receivers*" or *magnetic points of cohesion*, into which *like frequency patterns* from the Unified Field are drawn in for translation. Every organism has a different configuration of energy receivers within its morphogenetic makeup and so every organism will have a variation of perception. The **morphogenetic energy receivers**, or **APPARTHI**, of an organism's construction, serve to *draw certain frequency bands into the morphogenetic field for translation and to block out other frequency bands*, making them unavailable for translation. The frequency bands, or *flash-lines* of *Partiki Phasing*, that are blocked out of the personal morphogenetic field, create **GAPS OF PERCEPTION** of the Unified Field, through which the Holographic picture of "space between objects", "externalization of form" and "separation of SELF from the Unified Field" becomes perceivable to the organism. **These qualities of *objectification* are the result of BLOCKED FLASH-LINE SEQUENCES, portions of the *scalar fields* of the Unified Field and their inherent *sequences of Partiki Phasing*, *that cannot translate* through the personal morphogenetic field due to the arrangement of the APPARTHI within the personal morphogenetic structure.**

Senses as Scalar-wave Constructs & Expanding our Perception of Perception

If it can be recognized that externalization of experience is a perceptual illusion of consciousness created through selectivity of range within the perceptual field, the true nature of the human sense facilities can be better understood as a pattern of interrelated scalar-wave forms that serve to block out portions of the Unified Field so that other portions may be brought more fully into perceivable view. **When viewing the *physical apparatus* through which the known human senses appear to occur as part of a larger, interwoven system of *scalar construction*, it will be easier to understand that *perception is not a localized phenomenon created by and limited to the identified organs of perception*.** The experiential capacities of even the 5 known human senses have a much broader range than what is presently assumed or identifiable through analysis of the manifest sense organs. *If one can understand that perception of manifestation itself is an effect of these greater scalar wave constructs, it will not seem so outrageous to consider the reality and integrity of sensing and perception beyond the range of the presently identified sense facilities.*

ESP, HSP and Evolution

"Extra-sensory perception" is not "EXTRA" at all. It is a *normal attribute* of the *evolving human organism*, as the consciousness ensconced within the *body hologram* continues its *natural expansion* into the greater portions of its evolutionary imprint. Individuals displaying abilities of "Extra-sensory Perception" are not gifted with something *other than what is characteristic to the human form.* ***They are simply a bit ahead in the stage of development* of the natural human perceptual capacities. Everyone has dormant potentials for some degree of "ESP"; like all things within the human organism, ESP is regulated by the *function of the DNA* and its naturally intended relationship to the *Kathara Grid and morphogenetic structure*** Individuals with **fewer distortions and blockages** within the **Kathara Grid** (and the resulting DNA malfunctions such distortions create) will have *greater ease* in calling the dormant perceptual faculties into activation *Individuals who consciously attempt to use the greater perceptual facilities will stimulate a more rapid advancement into reclaiming this stage of evolution, than those who refuse to acknowledge the existence of their greater sensing facilities* **The greater sense facilities bring the higher dimensional wave spectra and its inherent reality fields into the *perceptual range* of the earthly embodied human consciousness and so the greater sense facilities can be considered the HIGHER SENSES, a term far more accurately describing their orientation than the term *Extra Senses*. "ESP" becomes "HSP" – Higher Sensory Perception – a *natural attribute of experience for the evolving human organism*.**

THE 5 KNOWN SENSES

The 5 Known Senses

In order to understand the nature of the **Higher Senses** it is necessary to understand a bit more about the nature of the **common senses**, or the "*lower senses*" if you will, for the **common senses** are those that are "tuned to" perception of the **lower frequency dimensions. Perception of *Sight, Sound, Touch, Taste* and *Smell* are *experiential effects* of the *scalar-wave constructs* that exist within the NADA HOVA BODY and the TELLURIC SHIELD, the Kathara Grid and morphogenetic field structures that are composed of and stationed within the frequency bands of dimensions 1, 2 and 3, the first Harmonic of manifestation**
The **APPARTHI**, or "***energy receivers***" within the Nada Hova body, have their first imprint within the **Kathara Grid Level-2: Crystal Seals** structure. The first pattern for the sense facilities responsible for manifesting the organs or perception of the 5 identified senses exists within the configurations of electro-tonal Partiki units that form the crystalline seals of which the dimensions-2 **Telluric Shield** is constructed. Through the Partiki Phasing flash-line projections of the Telluric Shield, the "armature" or 3-dimensional blueprint for the organs of perception is set for manifestation within the body hologram.

The 5 Known Senses and Sound Transduction

The 5 known senses are more intimately related than commonly supposed; ALL represent a form of SOUND TRANSDUCTION – the frequencies or flash-line sequences, within the 1st, 2nd and 3rd dimensional bands, that form the identifiable wave patterns presently associated with sound waves, are drawn into the Level-2 Kathara Grid Crystal Seals by **Apparthi receivers,** that carry like flash rhythms. Once drawn into the Apparthi receivers, the sound spectrum becomes modulated into different flash-line rhythms and sent into the **Diodic Points of the Level-3 Kathara Grid.** Once intersecting with the frequencies within the Diodic Points, the frequencies from the Apparthi are then **divided/ polarized** and projected up and down the Harmonic-1 dimensional scale, **creating a pattern of energy refraction** within the morphogenetic field and physical body apparatus. The polarized frequencies first appear within the **DNA** as part of the core electrical vibration, and then further transmute into **electrical impulse** that manifests as configurations with the **blood chemistry** and within the **Central Nervous System.** These synthesized electrical impulses are further projected through the **scalar-wave grids** that hold the form of the **identified sensory organs**, finally **culminating in the interrelated qualities of perception associated with the identified sensory organs and their 5 known attributes of sensing.**

THE 12 HUMAN SENSES

The Interwoven Senses and the Hova Bodies

As in the case of the Lower Senses, the *Higher Senses* and their experiential manifestations are the product of consciousness interacting with the *dimensionalized scalar organization* of the human morphogenetic anatomy. Whereas the Lower Senses are affiliated with the transduction of sound frequency within the *1st, 2nd and 3rd Dimensions*, through the structures of the *Nada Hova Body* and the *Telluric Shield* of the *first Harmonic*, the Higher Senses are in like fashion associated with the scalar organization of the *Higher Dimensional Hova Bodies* and their corresponding *Shields*.

In truth, all of the sensing facilities organic to the human form comprise interwoven and interrelated systems of *energy refraction* that together create the perceptual experience of *externalization* within the hologram of manifestation For example it is not commonly recognized that the sense of smell is in actuality part of the function of the **auditory facility** and thus represents an intrinsic part of the sense of hearing. It is also not commonly understood that the processes associated with **vision** are not only connected to the processes of the brain and Central Nervous System but also with the formation of *crystalline structures* with the plasma of the **blood. The senses are not nearly as *separate* and *independently functional* as they appear to be when viewed from outside analysis. They are rather a part of an interwoven system of electro-tonal information relay** that spans the 15-Dimensional morphogenetic field anatomy of the human organism.

The 12 Human Senses

In terms of breaking down the sense facilities for structural analysis, such as is done by modern science in identifying the 5 Known Senses, we will describe the sensory attributes of **the Higher Sense facilities** in terms of their *primary orientation, location of their primary Apparthi receivers* within the Hova Body structures and by the type of *perceptual or experential attributes* produced through their function **In such categorization of the human sense facilities there are *7 additional*, as yet unidentified, sense facilities operating within and through the human consciousness** which are collectively responsible for translating the scalar fields of dimensionalized reality into the illusionary holographic picture of externalized manifestation and its qualities or space, time, matter and identity individuation. ***Collectively, there are 12 Primary Sensing Facilities* within 15-Dimensional Human Anatomy.**

PERCEPTUAL BLOCKAGE, KATHARA GRID DISTORTION AND KATHARA

Perceptual Blockages

The Higher Senses are connected to the Lower Senses and provide attributes of perceptual experience characteristic to their dimensional levels, but in the present stage of human genetic evolution the Higher and Lower Senses are not fully "plugged into" each other and so the various higher dimensional fields, and the sensory abilities associated with the Higher Senses, appear to be separate or unavailable to the embodied human consciousness. **The Higher and Lower Senses plug in through opening of *Kathara Lines* in the *Level-1 12-Tree Kathara Grid*, which creates a reciprocal opening and expansion of the DNA, Hova Bodes and activation of dormant nerve networks within the brain, molecular core and Central Nervous System of the body.**

Presently the human senses are *phase-locked into a 3-dimensional perceptual field* due to blockages between the 3rd and *4th Kathara Centers*, which block the Apparthi receivers within the Nada Hova Body from accepting compatible electrical impulses from the higher dimensional Hova Bodies. This Kathara Grid blockage manifests within the body as fragmented units of DNA (**"Junk DNA"**) that serve to render the natural processes of multi-dimensional data transfer into the Central Nervous System inoperable. Portions of *higher dimensional experience* come to conscious attention in the form of *dream perception or intuitive impression*, but the natural clear pathways of multi-dimensional perception are blocked to a large degree within contemporary humanity.

Perceptual Blockage and Kathara Healing

Blockages in the Kathara Grid, and their reciprocal blockages in the human perceptual field, can be progressively removed through practices of *Kathara Healing* and utilizing the Maharic Shield to reawaken the Organic Imprint for Health. As Kathara blockages are progressively repaired, the genetic code will expand its function by reassembling and activating the presently dormant portions of the DNA imprint. DNA expansion will create reciprocal alterations in the bodily metabolic rate, brain, blood, glandular and hormonal function, particle spin speed and operation of the Central Nervous System, that will allow for a progressive, natural activation of the Higher Sense facilities and expansion of the human perceptual field into the multi-dimensional arena. **In Kathara Healing, the dormant Higher Senses will be progressively brought into activation**, beginning with the **6th – Audurea-Merkaba Sense** and the **7th – Tristet-Cellular Telepathy Sense**, though which **inner audio-visual-direct cognition** skills will progressively develop. These skills will be employed in the processes of Kathara Healing, and in so doing they will be progressively stimulated into greater levels of activation. As the dormant Sense facilities are called into activation, Kathara Healing techniques to remove Kathara Grid blockages are used to realign the Holographic Template to restore the **Imprint for Health**, through which natural perceptual expansion will progressively take place.

The 12 Human Senses

The collective spectrum of human sense facilities, including the Higher Senses of 15-Dimensional Human Anatomy, can be categorized as follows:

The 12 Human Senses, Hova Bodies and Primary Experiential Attributes

Identified Lower Dimensional Sense Facilities

1. Visual-Sight Sense – ***Nada Hova Body (dimensions 1-2-3)***
2. Auditory-Hearing Sense – ***Nada Hova Body***
3. Tactile-Touch Sense – ***Nada Hova Body***
4. Olfactory-Smell Sense – ***Nada Hova Body***
5. Sense of Taste – ***Nada Hova Body***

Unidentified Higher Dimensional Sense Facilities

6. **Audurea – Merkaba Sense** – *Encompasses all Hova Bodies*
   Primary Attribute: **Manifestation** – circulation of consciousness and frequency accretion

7. **Tristet – Cellular Telepathy** – *Alphi Hova Body (dimensions 4-5-6)*
   Primary Attribute. **Inner Audio-Visual-Direct Cognition** reading energy signatures.

8. **Nurgode – Transmutation Sense** – *Betcha Hova Body (dimensions 7-8-9)*
   Primary Attribute: **Molecular Transmutation** – shape shifting

9. **Ragode – Transmigration Sense** – *Betcha Hova Body*
   Primary Attribute: **Transmigration** – Projection of Consciousness

10. **Geuard – Transfiguration Sense** – *Mahara Hova Body (dimensions 10-11-12)*
    Primary Attribute: **Bi-location** – multiple holographic manifestations

11. **Shara – Centrifugal Sense** – *Raja Hova Body (dimensions 13-14-15)*
    Primary Attribute: **Electrical Projection** – consciousness enters dimensionalization

12. **Aurt-U – Centripetal Sense** – *Raja Hova Body*
    Primary Attribute: **Magnetic Accretion** – consciousness exits dimensionalization

CHAPTER 2 HIGHLIGHTS

THE IMPRINT FOR HEALTH

- Healing occurs through correcting distortions within the Kathara Grid and Hova Body Shields.

- The human body blueprint was designed to hold 12 Dimensions of Frequency/ Flash-line Sequences and 12 Dimensions of Consciousness, the content of 4 out of the 5 Hova Bodies within the 15-Dimensional Anatomy.

- The **4th Hova Body** – the **Mahara Hova Body** – is composed of Frequencies/ Partiki Phasing Flash-line Sequences of the **10th, 11th** and **12th Dimensions**. It manifests through the 10th, 11th and 12th Kathara Centers and the **Maharic Shield** Scalar Grid of the **4th Harmonic**.

- The **Maharic Shield** of Level-2 Kathara Grid Crystal Seals holds the original **IMPRINT FOR HEALTH** – the original *Flash-line Sequences* of *Harmonic 4 Pre-matter Liquid Light* – that represent the point of entry into perceivable manifestation.

The MCEO Freedom Teachings® Series Presented by Adagbi MCEO LLC In Association with Azurite Press MCEO Inc.
Copyright A & A, 2002 All Rights Reserved

- The **Maharic Shield** can be used to **repattern** the Kathara Grid Holographic Template back to the original **Imprint for Health**. The Flash-line Sequences of *Dimension 12* can *override* and correct *faulty Flash-line Sequences* that manifest as distortions within the Kathara Grid and Hova Body Shields.

- The **Hierophant Symbol Code** is a *Scalar Standing-wave* pattern containing the electro-tonal programs of the 11th and 12th Dimensions. The Hierophant Symbol code serves as a *Frequency* ***WAVE GUIDE*** through which the **Maharic Shield** can be activated to run 11th and 12th Dimensional Frequency through the Kathara Grid for **repatterning** the **Imprint for Health** within the Core Holographic Template of the body.

- Using the Hierophant Symbol Code, the **Planetary Bio-feed Interface System®** can be activated to empower the Kathara Grid repatterning process via drawing Frequency from the **Planetary Maharic Shield**.

MORPHOGENETIC EXPANSION

- Growth through time is created through **FREQUENCY ACCRETION** – drawing Frequency Bands from the Dimensional Unified Fields of Consciousness into the personal morphogenetic field for expansion.

- When the Kathara Grid is functioning properly, there are **set morphogenetic field expansion periods** within the linear growth cycles of the human body.
  1. **Fetal Integration** to age 11-12
  2. **Harmonic 2 Integration** age 12-22
  3. **Harmonic 3 Integration** age 22-33
  4. **Harmonic 4 Integration** age 33-44

  If the Kathara Grid is working properly, the **body does not die** but rather progressively transmutes into *less dense states of matter* in an **eternal body form**, via accretion of the 4 Harmonics of Frequency.

- Present **Kathara Distortions** block integration of **Harmonic 2** and begin Molecular Compaction, body degeneration and Death.

LEVELS OF HUMAN ANATOMY

- The **Kathara Grid** is the Core Holographic Template upon which the human body and consciousness enter dimensionalization in order to experience manifestation.

- There are **3 Levels** to the Human Kathara Grid: *Level-1* – The **12-Tree**, *Level-2* – **Crystal Seals** and *Level-3* – **Diodic Points**.

- *Kathara Level-1 – 12-Tree* contains the primary **12 Kathara Centers** and primary **15 Kathara Lines** that correspond to various regions of the physical body and bio-energetic field and with "ground" consciousness into the framework of dimensionalization.

- *Kathara Level-2 – Crystal Seals* contain the **Signets** – *consolidated points of dimensional frequency* – the **Shields** – *3-dimensional scalar-wave disc emanating from sets of 3 Signets*, through which the *Hova Body* energy capsules form – and the **Star Crystal Seals** and **Seed Crystal Seals**, through which the *Chakras* and *Bio-energetic Field* levels emerge.

The MCEO Freedom Teachings® Series Presented by Adeshi MCEO LLC in Association with Azurite Press MCEO Inc.
Copyright A & A, 2002, All Rights Reserved

Kathara Level-3 – Diodic Points are **Coordinate Points** where the flash-line sequences from one Shield and its Seals cross over and through those of other shields to form minute **"White Hole" vortices** of energy-consciousness relay between the Hova Bodes and stations of identity.

Hova Bodes are *3-dimensional scalar grids* in the form of **Concentric Spheres** that form around each Shield in the *Kathara Level-2 Crystal Seals Grid*, which serve as "tissue capsule" encasements around each Harmonic of energy-identity within the 15-dimensional scale.

There are ***5 Dimensionalized*** **"Ariea" Hova Bodies** forming human anatomy, which emanate from the **5** 3-Dimensional scalar **Shields** of the *Level-2 Kathara Grid*. Each Shield and Hova Body corresponds to **3 Kathara Centers** in the *Level-1 – 12-Tree Grid*.

5 Ariea Hova Bodies and Corresponding **Shields**:
Nada Hova – Telluric Shield – Dimensions 1-3
Alphi Hova – Doradic Shield – Dimensions 4-6
Betcha Hova – Teuric Shield – Dimensions 7-9
Mahara Hova – *Maharic Shield* – Dimensions 10-12
Raja Hova – Rishic Shield – Dimensions 13-15

Copyright A & A, 2002, All Rights Reserved

- The **Signets** and the **Shields** can be used to direct the function of the *Kathara Level-1 – 12-Tree Grid* and all built upon it. **Kathara Centers** can be used to trigger activation of the *Signets* and *Shields*.

- The first **4 Hova Bodies** and their **Horizontal Shields** are most important in terms of human evolution. Activation of the **Signets** activates their corresponding **Shield**, which in turn releases the **tissue capsules** between *Hova Bodies*, allowing merger to occur. When the **first 4 Shields** activate, the body is able to integrate the Avatar identity and **transmute** into pre-matter liquid light wave form.

- In Kathara Healing the Harmonic-4 **Maharic Shield** is used to restore integrity to all *Shields* and *Hova Bodies* below, which progressively clears the *Kathara Grid* of distortions.

- *Level-1 Kathara Lines* direct the **Vertical** Flash-lines, *Level-2 Crystal Seals* control the **Horizontal** *Flash-lines* and *Level-3 Diodic Points* govern **Diagonal** Flash-lines. Together, the 3 levels of the Kathara Grid form the 3-plane armature upon which the 3-dimensional hologram is created.

Copyright A & A, 2002, All Rights Reserved

- Each **Signet**, within a Hova Body Shield, holds the electro-tonal program for one *Seed Crystal Seal*. Each Seed Crystal Seal corresponds to one Level-1 **Kathara Center** and holds the program for one primary **Axiom Line** – a *single axis* dimensional flash-line sequence.

- The **12 Primary Axiom Line** programs of the *Seed Crystal Seals* create separate *dimensionalized bands of frequency* within each Hova Body, forming a distinction between *dimensionalized levels* within the bio-energetic **Auric Field**. The Axiom flash-lines cross over and through each other to form the *Coordinate points* between the Shields, through which the *Level-3* **Diodic Point Vortices** emerge.

- The points in the Kathara Grid, where Axiom Lines cross over and through the **Central Vertical Kathara Line**, in the *Level-1 Grid* and the **Horizontal flash-lines**, in the *Crystal Seals* of the *Level-2 Grid*, form **consolidate Diodic Points** with *numerous Diodic Vortices* – these are called **CHAKRAS**. Each Chakra corresponds to an *Axiom Line, Auric Level, Seed Seal, Kathara Center and Dimensional Frequency Band and* ***Merkaba Field***.

Copyright A & A, 2002, All Rights Reserved

- The **12 primary Axi-A-Tonal Lines** are a set of 12 *Vertical Energy Flow-lines* that run through the body, which are created by the consistent cross-over points of the rotating, single-axis flash-line sequences projected from the **Seed Crystal Seals**.

- **Axi-A-Tonal Lines 11 and 12** combine with the **Central Vertical Kathara Line** to form the **Hara Line**, the foundation of the **Central Body Current**.

- The **Hara Level** is the ***outer level*** of the **Kathara Level-2 Crystal Seals Grid**, can be viewed from *9th-Dimensional perception* and is used in Kathara Healing Level-2.

- The *Hara Level* is composed of the **Hara Line, 6 Primary Hara Points** and the **Complexes** of energy processing they govern.

- The **Axi-A-Tonal Lines** and **Hara Level** of the *Kathara Level-2 Crystal Seals Grid* are elements of 15-Dimensional anatomy that are used in later applications of Kathara Healing.

- *Axi-A-Tonal Lines* set the core electro-tonal scalar-wave program upon which the **DNA** will manifest. The human DNA imprint contains the program for **12 strands of DNA**, one manifesting upon each of the **12 Primary Axi-A-Tonal Lines**.

- The human form was designed to embody **12 dimensions** of consciousness. The original human genetic code is called the **Silicate Matrix** and when operational it allows human cellular structure to **transmute** through ***4 Harmonics*** *of matter density*.

- The Silicate Matrix is mutated in present day humans due to ancient **Kathara Grid blockages**, which manifest as distortion of form and function within the DNA. "*Junk DNA*" is part of this distortion.

- Contemporary human DNA can be **reverse-mutated,** and its interdimensional functions restored, by applications of **Kathara Healing**.

- Each of the 12 strands of DNA corresponds to one of *12 Dimensional Frequency Bands, Kathara Centers, Seed Crystal Seals, Signets, Axi-A-Tonal Lines and Chakras.* Each **Hova Body Shield** governs the function of a **set of 3 DNA strands**.

THE 12 HUMAN SENSES

- The **human senses** are the *experiential result* of the *scalar standing-wave organization* inherent to the human form.

- Senses are **scalar arrangements** that translate *energy signatures* from the **Unified Field** into usable data of relationship.

- The sensing systems are built upon sets of **energy receivers**, within the morphogenetic field, that are called **APPARTHI**. The Apparthi, inherent to Kathara structure, serve to **block certain flash-line sequences** out of the morphogenetic field and allow others in to translate into perception.

- The flash-line sequences, blocked by the Apparthi, create **Gaps of Perception** of the *Unified Field*, which give us the *experience* of **externalization** and **separation of form**.

- *Apparthi receivers* create **refraction** and **polarization of flash-line sequences** that translate into a variety of identifiable ***holographic sensory perceptions***.

- The sense facilities correspond to the structure of the **Hova Body Shield** and **DNA**. In categorizing the interwoven sense facilities by their *primary orientation*, location of their *Apparthi receivers* within the Hova Bodies and the *experiential attributes* they produce, the human organism can be said to possess **12 Primary Senses**.

- The **5 known senses** are products of operations of the **Nada Hova Body** and **Telluric Shield**, and thus correspond to **dimensions 1-3**.

- There are **7 as yet unidentified senses** that correspond to the higher dimensional *Hova Bodies*, *Shields* and presently dormant strands of *DNA*.

- As we *evolve to activate* and *reverse-mutate* the **DNA** imprint, through *Hova Body* alignment and merger, the experiential attributes of the higher dimensional senses will become more apparent.

- Due to their *dimensional affiliation*, the *5 known senses* can be viewed as the **Lower Senses**, the *higher dimensional senses* as the **Higher Senses**. Perception through the *Higher Senses* is called ***Higher Sensory Perception*** or **HSP**.

Levels of Consciousness and the Perceptual Bridge

In earlier texts, we have learned of the structure human consciousness takes when entering the scalar fields of dimensionalization for the perceivable experience of manifestation. In comprehending the true structure of multi-dimensional anatomy, with its **Kathara Grid, Hova Bodies** and **Shields, Diodic Points** and **levels of bio-energetic substance**, we can begin to see that there is much more to human consciousness than meets the eye – **much more *energy-identity* operating, presently beyond the view of our 3-dimensionally focused earthly personality.**

There are portions of our consciousness stationed within the Hova Bodies of the higher dimensional fields and these expanded levels of ourselves hold knowledge and participate in perceptual experience beyond the usual range of our waking perceptions. As we evolve and expand, through **Hova Body Integration** and the resulting activation of dormant **DNA** components, we will *progressively have greater conscious access* to these expanded levels of consciousness while we are actively focused within the waking 3-dimensionally embodied state. However, **we do not have to wait until our evolution plods along to bring us to these expanded perceptual states.** We can, from our waking state of 3-dimensional consciousness, begin to actively tap this hidden reservoir of knowledge and perceptual experience. **We can take an active hand in *expediting the process* of our multi-dimensional evolution by using our dimension-3 *mental body awareness* to direct our higher awareness into our current range of perception.** We can begin to build a **PERCEPTUAL BRIDGE** between our 3rd-Dimensional and Higher Dimensional consciousness. **In taking the initiative for building this Bridge of Consciousness, we begin to stimulate our Higher Senses into operation, expediting the natural process of Higher Identity Integration.**

Through building a PERCEPTUAL BRIDGE
between our present state of awareness
and the levels of our consciousness
stationed in the Higher Dimensional Hova Bodies,
we can actively expedite our own Bio-Spiritual Evolution.

THE MENTOR

The Perceptual Bridge and Creating the Mentor

The Higher Dimensional levels of human consciousness are not dormant within their respective dimensional bands of function; they are quite awake and aware within their own dimensional fields. As we perceive and interact with the 3-dimensional world, within which our present awareness is focused, the Higher Dimensional portions of our consciousness are also actively perceiving and interacting with the dimensional environments within which they are focused. **Higher dimensional aspects of our awareness seem *cut off* from our perceptual view because our consciousness is presently focused through a *genetic code arrangement and Kathara Grid orientation* that blocks out the frequencies of those higher stations of identity.** If we can realize that expanded portions of our consciousness simultaneously exist, within the higher dimensional frequency bands, we can also realize that it is possible to access such levels of our own identity by building Perceptual Bridges between our 3-dimensional perspective and the portions of our consciousness stationed within the Higher Dimensional Nova Bodies.

We can begin to build a *Perceptual Bridge* between ourselves and our *Higher Selves*, by using simple *frequency modulation techniques* of Kathara Healing, such as Technique #1: *Awakening the Mentor* and the 6th *and* 7th *Senses*. In this scalar-grid activating exercise, we will awaken dormant **Partiki Phasing Flash-lines** and activate dormant portions of the **Kathara Lines** in the Kathara 12-Tree Grid, to begin opening the channels of communication between the consciousness focused within the Nada Nova Body and that focused within the *Alphi Nova Body*, of Harmonic-2. **In this exercise, we will create the MENTOR, a portion of our consciousness composed of *3rd, 4th and 5th Dimensional frequencies*, that will serve as an *intermediary focus of awareness* through which we can begin to receive guidance and knowledge from our 2nd-Harmonic of consciousness.** Creating the MENTOR will begin the process of activating dormant **DNA**, opening new **nerve networks** within the Central Nervous System of the 3-dimensional body and activating dormant **APPARTHI** frequency receivers within the *Level-2 Crystal Seals Kathara Grid*. **Through creating the MENTOR, we begin to build the Perceptual Bridge between the 1st and 2nd Harmonic of our conscious awareness.**

The MENTOR is a portion of our identity that we create to serve as an intermediary focus of awareness between the Nada Nova Body and the Alphi Nova Body; a PERCEPTUAL BRIDGE between our first and second Harmonics of Consciousness.

Copyright A & A, 2002 All Rights Reserved

The MENTOR and Kathara Healing

In the practices of Kathara Healing, we will use the MENTOR as a source of **guidance, information retrieval, objective observation** and as a **communications link** between our own higher consciousness and the higher levels of consciousness in those who come to us for healing facilitation. **Awakening and working with the MENTOR will become a standard practice in our applications of Kathara Healing.** In creating the MENTOR, we are using our creative power of scalar-grid manifestation (thoughts and mental images are scalar-grid morphogenetic field forms) to bring into being a **specialized portion of our consciousness** that can **relay frequency** from our higher Harmonics of Consciousness to our 3-dimensionally focused identity. **With repeated use of the MENTOR focus of awareness, we will develop the ability to simultaneously hold 2 Harmonics of consciousness and we will begin to reclaim the natural flexibility of focus that is the healthful condition of embodied human consciousness.** Through the MENTOR focus of attention, we can reach higher levels of cognition and understanding regarding application of healing facilitation and we will more rapidly call into awakening the Higher Sense facilities of the 15-Dimensional Anatomy.

Other Uses of the MENTOR Focus

In creating the MENTOR focus, we will begin to realize that even the 3-dimensional focus of awareness with which we are most familiar is more flexible than once supposed. The MENTOR is not simply and **inert creation**, but rather a **living** portion of our conscious identity composed of portions of the waking self and portions of the Higher Self. MENTOR can become an **advisor**, a portion of self able to "keep its head above the illusion" when you are confronted with challenging events in the 3-dimensional arena; a part of you able to remain calm, focused and able to make clear decisions beyond the confusion of mental or emotional body processing. MENTOR can be sent into the **Cellular Memory** of the body to locate core issues or reincarnational blockages and can serve to moderate between sub-personality fragments and the "Inner Child". MENTOR can likewise be used to **harmonize communications** between self and others, as you can send the MENTOR focus into the higher dimensional fields to connect with the higher selves of others for conflict resolution. Playing with the MENTOR focus can also have great rewards. You can focus your attention in the Mentor Space and then direct the MENTOR across the room to begin practicing effects of **BI-LOCATION**. You can travel with MENTOR to distant locations to develop **REMOTE VIEWING SKILLS**, which will be used in later Kathara Healing levels for **REMOTE HEALING FACILITATION**. MENTOR can become a vehicle for conscious transport of your awareness, while awake, and also in dreaming and higher dimensional projection.

TECHNIQUE # 1

AWAKENING THE *MENTOR* AND THE 6TH AND 7TH SENSES

Awakening the Mentor:

1. Place the **fingertips** of both hands and the focus of attention at the **Navel**. Take a few slow, full breaths; then visualize the image of a **Blue Flame** (like a gas stove flame) deep inside the body behind the Navel. Gently **massage** the Navel region while envisioning the **Blue Flame**.

2. **Stop massage** and visualize a **Sphere of White Light within the Blue Flame** behind the Navel. **Place your attention within the White Sphere** and imagine that you can feel its reality around you, as if you are sitting within the White Light Sphere.

3. **Breathe** gently and visualize the **White Light Sphere moving upward** through the center of your body until it reaches the center of the brain at the **Pineal Gland**. **Stop movement of the White Light Sphere at the Pineal Gland**, then visualize the **White Light Sphere moving to the RIGHT** in a straight, horizontal line **OUTSIDE OF THE BODY** until it is positioned in your **auric field**, just above your **RIGHT SHOULDER**. ***The White Light Sphere, positioned over the Right Shoulder now represents a portion of your awareness that was raised to the 5th –Dimensional frequencies via its passage through the Blue Flame and the 5th Kathara Center at the Navel.*** You will name this part of your higher identity **MENTOR**.

4. **Imagine that you can feel the reality of the White Light Sphere** that holds your MENTOR resting gently above your Right Shoulder as a "**fuzzy ball of energy**".
MENTOR *serves as the meeting point between your waking conscious mind and the* ***5th –Dimensional portion*** *of your Soul Matrix Identity – the* ***Archetype****. With practice, you can* ***lean the energy of your waking awareness from its position within your head over to the right and into the MENTOR Sphere,*** *to receive direct cognition, and audio and visual guidance from your 5th –Dimensional Identity Station.* In **Healing Facilitation** MENTOR will communicate with the 5th –Dimensional Archetype aspect of your **Client's Soul Matrix**, asking how you may best serve the Client's Highest Evolution; guidance MENTOR receives will be translated to you from MENTOR in the form of intuitive urge, spontaneous cognition or audio-visual directions. MENTOR will also serve as a translator of information from your higher dimensional Stations of Identity to your conscious mind. MENTOR can also be taken into the Dream State with you to assist in **Dream Recall** and initiating Out-Of-Body Travel.

5. Practice creating and sensing the Mentor Sphere over your Right Shoulder. **Carry it around with you wherever you go and *play with moving the focus of your consciousness back and forth between the inside of your head and MENTOR*. Try perceiving from both focuses of attention simultaneously. Such play will help stimulate neurological sensitivities to translating and perceiving information from the 5th and higher dimensional Stations of Awareness.**

TECHNIQUE #1: continued
AWAKENING THE *MENTOR* AND THE 6TH AND 7TH SENSES
Awakening the 6th and 7th Senses: The Audurea and the Tristet

1. Focus your attention on the **MENTOR Sphere** over your Right Shoulder. Take a few slow, deep breaths and visualize MENTOR *expanding into a Sphere the size of a Basketball*. Use the next **INHALE** to draw the MENTOR Sphere *toward your head*, visualizing MENTOR moving from over your Right Shoulder to a position *surrounding your entire head*. **EXHALE**, *stop the movement* of the MENTOR Sphere, and imagine that you can feel its "fuzzy energy" all around the outside of your head, *as if your head is now within the Basketball size MENTOR Sphere*.

2. With the next **INHALE** breath, **contract MENTOR into a small Sphere of White Light** positioned inside the center of the brain, at the **Pineal Gland**. Exhale and breathe slowly for a moment. With the next **EXHALE** breath, *push* the small MENTOR Sphere from the Pineal Gland, straight forward and into the **6th Chakra** at the *Forehead*. Visualize MENTOR moving into the 6th Chakra from inside the head, then continuing to move through the 6th Chakra spiral straight outward and *away from the body*. Imagine the MENTOR Sphere traveling outward through the long **Blue-Violet Tunnel** of the 6th spiral, until you visually lose track of the MENTOR Sphere far out in front of you.

3. Take a few slow breaths, then on the next **INHALE** visualize the MENTOR Sphere *re-appearing* in the distance of your 6th Chakra spiral and *riding in on the inhale breath*, back into the **Pineal Gland**. Breathe slowly.

4. With the next **EXHALE**, visualize the MENTOR Sphere moving *down from the Pineal Gland* at the center of the brain, stopping at the center of the **5th Chakra** in the *Throat*. Breathe slowly. On the next EXHALE, push the MENTOR Sphere straight outward, imagining it moving from inside the Throat, into the Blue-Green spiral of *the 5th Chakra*. Visualize MENTOR *riding the current of the exhale breath* out into the distance within the **Blue-Green tunnel** of the 5th Chakra spiral, until it fades from view. Take a few slow breaths and on the next **INHALE** imagine MENTOR returning through the 5th Chakra Blue-Green spiral to rest deep within the **Throat**. Use the **final INHALE** to move MENTOR back up to the **Pineal Gland** and the final **EXHALE** to *push* the MENTOR Sphere back out to its "home" position in the auric field, over the **Right Shoulder**.

   This process opens up the 1st – 5th Sub-frequency Bands within each dimensional layer of the 6th and 5th Chakras, beginning the process of opening the 6th –Audurea and 7th –Tristet Senses, stimulating Inner Vision and Audio to higher dimensional frequency perception.

SYMBOL SHORTHAND

TECHNIQUE # 1: Condensed Version
Awakening the Mentor and the 6th and 7th Senses

AWAKENING THE MENTOR

1. Finger *tips* at *Navel*, see *Blue Flame* in body behind Navel. *Massage* Navel with finger tips.
2. See *White Sphere in Blue Flame* at Navel. Imagine *yourself in White Sphere*, feel it around you.
3. Move *White Sphere* up to *Pineal Gland*, see White Sphere move out over *Right Shoulder*, creating your *MENTOR*.
4. Feel *MENTOR* as fuzzy ball of energy hanging in your auric field, over your Right Shoulder.
5. Practice *shifting the focus* of your attention back and forth between usual focus and MENTOR.

AWAKENING THE 6TH AND 7TH SENSES

1. Expand MENTOR over Right Shoulder to size of *Basket Ball*, *INHALE* drawing *MENTOR* around your *head*, as if your head is inside the Basket Ball size energy that is MENTOR.
2. *INHALE, contracting MENTOR* into *Pineal Gland* as a small Sphere of White Light. *EXHALE* to push *MENTOR* out of the *Pineal Gland out to Chakra 6* and into the *Blue-Violet Tunnel* of the Chakra 6 spiral.
3. *INHALE MENTOR back from Blue-Violet Tunnel* of Chakra 6 and into the *Pineal Gland*.
4. *EXHALE MENTOR* from *Pineal Gland to Chakra 5. EXHALE MENTOR* out through *Chakra 5 Blue-Green Tunnel. INHALE MENTOR* back through *Blue-Green Tunnel*, into *Chakra 5* at Throat. *INHALE MENTOR* up from *Chakra 5 to Pineal Gland. EXHALE MENTOR* out from Pineal Gland to its "Home Station" over *Right Shoulder*.

MAHARIC RECODING, FREQUENCY SUB-HARMONICS & THE MAHARIC SEAL

Kathara Healing and Reaching the Core of Dis-ease

In earlier text we have explored the significance of the **Kathara Grid** and its role as the **Holographic Template** upon which the morphogenetic field, body and consciousness manifest within the 15-Dimensional system. We have learned that the Kathara Grid is the **core template** upon which the *morphogenetic field* manifests, and that the *morphogenetic field* is the blueprint upon which the body systems and embodied consciousness manifest. Through our study of these *core structures of manifestation* we come to realize that *true and lasting health or healing* must be approached from the deepest levels of personal creation, the morphogenetic reality within which all dis-ease conditions have their origin. **Kathara Healing applications are intended to reach the core of *systems malfunction*, the various levels of the *morphogenetic field and Kathara Grid*, in order to restore the *Imprint for Health* within the Holographic Template for manifestation.**

The Mahara Hova Body, Maharic Shield and the Imprint for Health

In *Level-1 Kathara Healing* we will learn the first and most important level of *restructuring the Holographic Template* to hold its original Imprint for Health – the MAHARIC RECODING PROCESS. The **Maharic Shield** is the manifestation template, upon which the MAHARA HOVA BODY of *Harmonic-4* manifests. The **Mahara Hova Body** is the scalar-grid that holds the **10th, 11th and 12th – Dimensional** aspects of consciousness and represents the **ORIGINAL POINT OF MANIFESTATION** –the creation-point when consciousness moved from its pure scalar-wave state of being into the dimensionalized scalar-grids, through which the illusion of external holographic projection could be experienced. The Mahara Hova Body, and its station in Harmonic Universe-4, represent the original **PRE-MATTER LIQUID LIGHT** fields of manifestation through which we passed in order to enter the experience of density and individuation of matter form.

Prior to our entering the dimensionalization of the systems within which matter can be perceived, we existed in **pure scalar-wave form** – a scalar-pattern that held the original, **pure and perfect pattern** for our creation as consciousness. The Mahara Hova Body and the Maharic Shield are the Liquid Light Pre-matter Scalar-templates that hold our original pattern of wholeness, our original **CREATION IMPRINT**. Our creation imprint is the **ORIGINAL IMPRINT FOR HEALTH**, the condition of **eternal being**, free from Hova Body distortions picked up in the lower dimensional fields.

The 12th –DIMENSION and FREQUENCY SUB-HARMONICS

In Level-1 Kathara Healing we will utilize the *Imprint for Health*, as held within the *Maharic Shield*, to begin REPATTERNING the Kathara Grid back to its original level of function. The frequencies of the **12th –Dimension**, as embodied within the **Maharic Shield,** contain within them, as **Frequency Sub-Harmonics,** ALL OF THE FREQUENCY BANDS FROM THE DIMENSIONS BELOW, along with the natural frequency spectra characteristic of the 12th –Dimension. Each Dimensional Frequency Band within the 15-Dimensional Spectra contains within itself its own **12 Primary Sub-frequency Bands** (portions of the whole dimensional Partiki Phasing flash-line sequences), plus a reflection set of the frequency spectra from **all of the Dimensional Bands below.**

For example, Dimension 2 contains its own *12 Primary Sub-frequency Bands*, **plus** a *reflection set of the 12-Primary Sub-frequency Bands* that make up the *Dimension-1 Frequency Band* below. Dimension-1 has 12 Primary Sub-frequency Bands, Dimensions-2 thus has 12 Primary Sub-Frequency Bands plus 12 Secondary Sub-Frequency Bands from Dimension-1 for a total of *24 Sub-Harmonics* in Dimension 2. **This pattern of FREQUENCY SUB-HARMONICS builds upward through the 15-Dimensional Scale. The 12th-Dimensional Frequency Band has a total of 144 Sub-Harmonics** – 12 Frequency Bands x 12 Sub-Frequency Bands each = 144 Sub-Harmonic Frequency Bands. Because the 12th-Dimension holds, within itself, *all of the Frequency Spectra and scalar-grid programs from the lower dimensions, the 12th-Dimensional Frequencies have the ability to "plug into" and override any Partiki Phasing flash-line pattern from the lower dimensional fields*. **The ORIGINAL PATTERN OF CREATION for the lower dimensional structure itself is held within the 12th-Dimensional Frequencies and so the 12th-Dimensional Sub-Harmonics can be used to *correct any distortion* in the dimensional frequencies of the Lower Hova Bodies and their Shields.**

The Maharic Shield and the 12th –Dimension

As the Maharic Shield and Mahara Hova Body are composed of 10th, 11th and 12th –Dimensional scalar grids, they contain within them the **144 Frequency Sub-Harmonics** of the entire 12-Dimensional Spectrum. The human morphogenetic field is designed to hold the 144 Sub-Harmonic Spectrum, which is fulfilled through activation of the original **12-Strand DNA Silicate Matrix** gene code. Because of its 144 Sub-Harmonic scalar-wave spectrum, the 12th –Dimensional level of the **Maharic Shield** can **reset** the *original, non-distorted imprint of Partiki-Phasing flash-line sequences*, within the entire Kathara Grid 12-Tree, the *Kathara Centers, Kathara Lines, the Hova Bodies, DNA* and within any level of the morphogenetic field and manifest body built upon them. The Maharic Shield is the Kathara **RESET BUTTON.**

REMEMBER: A FREQUENCY BAND is a *fixed, repeating sequence of Partiki Phasing Flash-lines – "flashing on and off" cycles of scalar standing-wave points within the scalar-grid template, caused by the fission/expansion and fusion/contraction of Partiki Units.* A SUB-FREQUENCY BAND is a *fixed, repeating sequence of Flash-lines that is part of the full cycle of the Frequency Band* Partiki Phasing sequence. A FREQUENCY SUB-HARMONIC represents a replica of Frequency Band Flash-line sequences from the dimensions below, carried within the Primary Flash-line sequences of the Dimensions above.

HIGHER DIMENSION = MORE FREQUENCY SUB-HARMONICS = FASTER FLASH RATES = HIGHER FREQUENCY = FASTER OSCILLATION/ SLOWER VIBRATION = SHORTER WAVE LENGTH = SLOWER ELECTRON SPIN = LESS PERCEIVABLE MATTER DENSITY

The Maharic Shield – Core of Healing Therapeutics

To restore **the Imprint for Health** within the *Body-Mind-Spirit-System*, the **Holographic Template of scalar-grids** upon which the system manifests must be **restored to its original function**. *Topical applications* of healing modalities within the physical body, bio-chemistry, DNA, Auric Field, Chakra System, Level-2 Crystal Seals and Level-3 Diodic Points of the Kathara Grid can create *temporary change* toward healing, but **the disharmonic conditions** held within the core **Level-1 12-Tree Kathara Grid** will eventually **override** alterations made to the outer levels of the morphogenetic field or body systems. **Working with outer levels of the Bio-system can *assist* in the healing process but first the *Imprint for Health* must be restored within the *Level-1 12-Tree Kathara Grid*.** The *Level-1 12-Tree Kathara Grid*, with its *Kathara Centers* and *Kathara Lines*, is created upon the **144 Frequency Sub-Harmonic** Pattern. As the **Maharic Shield** and Mahara Hova Body are the only portions of the dimensionalized scalar-grid anatomy that hold the full **12th-Dimensional Frequency Band**, with its *144 Sub-Harmonics*, the **Maharic Shield** and its corresponding *10-11-12 Kathara Centers* are the *only portions of the morphogenetic anatomy that can override and restructure the electro-tonal scalar standing-wave point arrangements within the Level-1 Kathara Grid*. **Thus, it is with the *Maharic Shield* that core healing therapeutics must begin.**

Critical Mass and Simultaneous Healing of Core/ Outer Morphogenetic Levels

Activating the **Maharic Shield** will **open, activate and realign** the *scalar-wave flash-line sequences* of dormant *Kathara Centers*, *Kathara Lines*, *Crystal Seals*, *Hova Bodies*, *Diodic Points*, *Chakras* and *DNA* within the outer levels of the morphogenetic field and body. Once the **Imprint for Health** has been *temporarily restored*, within the **Core Holographic Template Kathara Grid**, via running the *Flash-line sequences* of the **Maharic Shield** through the *Level-1 Kathara Grid*, the *outer layers of the anatomy can be further realigned* to expedite manifestation of the Kathara Grid Repatterning into the outer levels of the Bio-system. **Technique # 2: The Maharic Seal and the Liquid Light Cleanse**, begins the process of running the 12th-Dimensional Flash-line sequences, via their Frequency Sub-harmonics, through the Kathara 12-Tree Grid, to **REPATTERN** *distorted flash-line sequences* within the core Holographic Template. In the beginning of using this technique, the effects of this reprogramming will last only several hours, as the outer levels of the Bio-field will have greater **"Critical Mass"** in their distortion patterns than the Kathara Grid can immediately override. **Full healing comes when the renewed Imprint for Health reaches CRITICAL MASS within the morphogenetic field**. Critical Mass is reached **via *frequent use of the Maharic Seal and outer level Bio-field therapeutics*.**

Kathara Healing Theory and Applied Methods

In Kathara Healing the first priority is to *reset the Integrity* of the *Kathara Level-1; 12-tree Grid* by Repatterning its flash-line sequence program to the *Maharic Shield* via the *Maharic Seal and Liquid Light Cleanse*. This process sets the electro-tonal "ground" within which alterations of outer *morphogenetic levels* can connect, reawakening dormant **APPARTHI** *frequency receivers* within the *Level-2: Crystal Seals*, which allows the morphogenetic field level to *expand* enough to hold the *higher frequencies* of the *Imprint for Health*. After the **Healing Ground** is set within the *Kathara Grid*, additional applications of Kathara Healing can then be applied to various other levels of the Kathara Grid, Morphogenetic Field and Body. **There is an infinite variety of Kathara Healing Bio-energetic applications,** that range from Level 1, 2 and 3 Kathara Grid work, reprogramming the Kathara Centers, Kathara Lines, Hova Bodies, Shields and Signets, reversing the Miasmic/Karmic Imprint and accelerating the opening of the Diodic Points, to working with the Chakra System, Meridian and Axiom Lines, DNA and physical body points, while running the Triadic Currents for healing. In coming Levels of the *Kathara Healing Program*, we will learn the use of the **GEOMANCIES** and **FIRE LETTERS** - key **SYMBOL CODES** that serve as **scalar-wave guides** to reset the electro-tonal *flash-line sequences* within the morphogenetic body and the application of the Symbol Codes to the treatment of specific physical, emotional, mental and spiritual dis-ease conditions. We will explore working with the **Color Capstones** of the Dimensional Frequency Bands and how they can be used in combination with the Symbol Codes for use in **Manifesting** desired conditions and **De-manifesting** undesirables, both within the body and in the 3-dimensional life drama.

Applications of the Level-1 Kathara Healing Program

In Program Level-1, we are setting the foundations upon which all other skill levels of Kathara Healing are built. The focus of the Level-1 Program is to create Morphogenetic Repatterning via the Maharic Shield and to begin clearing the Miasmic/ Karmic Imprint that blocks various areas of the Hova Body Imprint. We will next learn to add **FORCE AND POWER** to our *Morphogenetic Recoding Process* by opening the **PLANETARY BIO-FEED INTERFACE SYSTEM®** to draw energy directly from the **Planetary Maharic Shield** and we will begin learning of the *physical body massage point sequences* – **Sequences 1 and 2 Kathara Points** – through which we can begin to *regulate the flow of energy within the Bio-system* for Regeneration of the Imprint for Health and **Revitalization** of the Body-Mind-Spirit System. In **Section 2** of this course we will explore **MULTI-VECTOR HOLOGRAPHIC RECODING** – clearing the *Miasmic Imprint* from the Kathara Grid.

SEQUENCE 1 AND 2 KATHARA POINTS

Sequence-1 Kathara Points for REGENERATION

Sequence-1 Kathara Points are mini energy-vortex points in the body that connect directly to Diodic Points within the *Kathara Level-2 Diodic Points Grid*. Stimulation of the Kathara Points affects the movement of energy within related areas of the Kathara Grid, which creates a reciprocal movement of energy within the cellular structure, corresponding to the Kathara Points.

When used in **proper sequence**, *Sequence-1 Kathara Points* **open energetic gate ways to the Kathara Lines** of the Kathara Level-1 12-Tree Grid, allowing patterns of frequency to be entered into the Kathara Lines, to realign disharmonic patterns of frequency running through the Holographic Program of the Kathara Lines. When the Kathara Lines are opened to receive 11th and 12th dimensional frequency infusions from the **Mahara Hova Body**, the Holographic Program of the Kathara Grid can be progressively **regenerated** to the Imprint for Health, as held within the program of the Maharic Shield.

Sequence-1 Kathara Points are used to open the Kathara Lines prior to *Technique # 2: The Maharic Seal and the Liquid Light Cleanse* and Technique # *4: The Maharic Infusion*. They **may also be used alone** with deep breathing for frequent healing support, to draw energy up from the Maharic Shield, re-balancing and regenerating the Imprint for Health, within the Kathara Grid and Body-Mind-Spirit System. It is not necessary to close the Kathara Lines after using Sequence-1 Points as they will **close automatically** in **several hours**. If one desires to further revitalize the cellular structure, running the *Sequence-2 Kathara Points*, for *closing* the Kathara Lines, will increase the amount of energy running through the body cells, as the Kathara Lines are no longer absorbing the energy.

Sequence-1 Points regenerate and re-balance the *Kathara Core* first, which creates more *lasting, but less immediate*, changes in the body. *Sequence-2 Points* close the Kathara Lines if they are opened and draw energy from the Maharic Shield *directly into the bio-energetic field and physical cells*, rather than the core Kathara Grid, creating more *immediate, but temporary*, revitalization of the body. The patterns held within the Kathara Grid core holographic template will eventually override those set in the bio-energetic field alone. **Used in *combination* with each other, the *Sequence-1 and Sequence-2 Kathara Points* can affect more lasting revitalization by *simultaneously realigning the core template and the outer layers* of the bio-energetic system and cellular structure**. In combination with other Kathara Healing techniques, the effects and restoration of the Imprint for Health are further amplified and accelerated.

Sequence-2 Kathara Points for REVITALIZATION

Sequence-2 Kathara Points are mini energy-vortex points in the body that, like *Sequence-1 Kathara Points*, connect directly to **Diodic Points** within the *Kathara Level-3 Diodic Points Grid*. Stimulation of the Kathara Points affects the movement of energy within related areas of the Kathara Grid, which creates a reciprocal movement of energy within the Bio-Field and cellular structure corresponding to the Kathara Points.

When used in **proper sequence**, *Sequence-2 Kathara Points* **close the energetic gate-ways to the Kathara Lines** of the Kathara Level-1 12-Tree Grid, which the *Sequence-1 Points* had opened. Closing the Kathara Lines, governed by the Sequence-1 Kathara Points, ***creates a reciprocal OPENING of the Nadial Lines*** (***Nadis*** energy rivulets that carry energy from the Nada Hova Body/ Nadial capsule, into the physically manifest systems) within the *outer levels* of the Bio-energetic Field. Opening of the corresponding Nadis allows restorative patterns of frequency to be entered into the outer levels of the Bio-energetic Field and Chakra System, to realign disharmonic patterns of frequency running through the *Chakras*, *Auric Field* and *Physical Cells*. When the Nadis, Chakras and outer Bio-energetic Field are opened to receive 11th and 12th dimensional frequency infusions from the **Mahara Hova Body**, the energetic integrity of the physical cells and Bio-energetic Field can be progressively *revitalized* with the Maharic frequency and the Imprint for Health, as held within the program of the Maharic Shield.

Sequence-2 Kathara Points are used to close the Kathara Lines, following *Technique # 4: The Maharic Infusion*. They may also be used alone, with deep breathing, for frequent healing support, to draw energy up from the Maharic Shield, through the Kathara Grid and into the outer levels of the Bio-energetic Field. Directing Maharic frequency into the outer levels of the Bio-energetic Field regenerates the Imprint for Health within and directly revitalizes the *body cells* for accelerated Body-Mind-Spirit healing. If one desires to revitalize the cellular structure, running the *Sequence-2 Kathara Points*, for closing the Kathara Lines, **will increase the amount of energy running through the body cells**, as the Kathara Lines are no longer absorbing the energy. **Sequence-2 Kathara Points revitalize and rebalance the *outer levels of the Bio-energetic Field* first, which creates more immediate but temporary revitalization of the body as restorative energies do not directly enter the Levels-1 Kathara Grid.** To create *lasting change* when using the *Sequence-2 Points* alone, restorative electro-tonal programs must be **repeatedly** entered into the Bio-energetic field until the new programs reach **critical mass**, at which time the new programs will begin to *subtly influence* the programs held within the Kathara Grid. The primary **difference between Sequence-1 and Sequence-2 Kathara Points is this:** ***Sequence-1 Points*** channel energy from the Maharic Shield into the *core Kathara Grid* holographic template. ***Sequence-2 Points*** channel energy from the Maharic Shield into the *outer levels of the Bio-field and body cells*. **For this reason, the effects of Sequence-2 Kathara Points are more immediate and those of Sequence-1 Kathara Points are more permanent.**

The patterns held within the Kathara Grid core holographic template eventually override those set into the outer Bio-field alone. **Used in combination with each other and other healing applications, the *Sequence-1* and *Sequence-2 Kathara Points* can affect more lasting revitalization by simultaneously *realigning the core template and the outer layers* of the Bio-field and cellular structure.** Using **Kathara Point Sequences**, in combination with each other and other Kathara Healing techniques, will amplify and accelerate the effects and restorative function of the Imprint for Health within the Body-Mind-Spirit system.

14 SEQUENCE 1 KATHARA POINTS

Regeneration of the Imprint for Health

Sequence-1 Kathara Points **OPEN** energetic gate-ways within the **Kathara Lines** of the *Kathara Level-1 12-Tree Grid*, to receive electro-tonal reprogramming for **regeneration** of the *Imprint for Health*. *Sequence-1 Points* are used to open the Kathara Lines **prior** to other energy-healing applications, to open the Kathara Grid so the regenerative patterns of other healing applications can "ground" within the Kathara Grid. Sequence-1 Points re-generate and rebalance the ***Kathara Core*** first, creating more **lasting but less immediate changes** in the body.

TECHNIQUE # 2

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

1. Close your eyes and visualize the image of a flat (2-dimensional line drawing) 6-Pointed Star of David (**The Merkaba Star**), made of **White Light,** stationed at the **6th-Chakra** on the *inside of the Forehead.* (If you cannot yet generate inner visualizations simply imagine that the symbol is there) Continue to visualize or imagine and move the **White Merkaba Star** image over toward the **left** in your inner field of vision. In the *center* of your inner field of vision, visualize/imagine the image of *another Merkaba Star,* made of a **Dark Silver Light** Observe or imagine the **2 Merkaba Stars** in your inner field of vision and then *slowly move* the images *toward each other* until they have merged into one *Merkaba Star* Symbol made of **Pale Silver Light.** (The *Pale Silver Double Merkaba Star Symbol* is called the **HIEROPHANT** – it is the scalar wave template that governs the release of phase-lock on the Maharic Shield)

2. Visualize/imagine the Hierophant Symbol clearly in mind, then shift attention to the sound of your breath Take several slow, deep breaths On the next **EXHALE,** use the force of the breath to *forcefully push* the **Hierophant** down from its position at the 6th-Chakra, through the ***Central Body Current*** and into the **Earth's Core** Take a few more slow breaths while visualizing/imagining the Hierophant Symbol in the center of the Earth's core. Imagine now that the Hierophant *begins to spin in the Earth's core,* the Dark Silver Merkaba Star and the White Merkaba Star spinning in *opposite directions.* Spin the Hierophant progressively faster until it "**takes on a life of its own**" and suddenly "**pops and expands**" to form a **Pale Silver Sphere of Light** *spinning in the Earth's core.*

3. Observe the Pale Silver Hierophant Sphere spinning in the Earth's core, then visualize/imagine that a **huge, horizontal Pale Silver spinning disc** emerges out from the Hierophant Sphere, forming a **massive Pale Silver Disc of Light** *spinning throughout the Earth and extending outward into the atmosphere* as a **rotating horizontal plane.**

This horizontal disc-plane extending through the Earth, represents the *Mahara Hova Body* or **Maharic Shield,** of the planetary morphogenetic field - the Pre-matter Liquid Light scalar grid composed of frequency from dimensions 10, 11 and 12 (known as the ***Shield of Aramatena***) Using the Hierophant wave template, you have now activated the planetary Maharic Shield, *opening the Planetary **Bio-feed Interface System®** into your bio-energetic field* This constitutes opening your personal Kathara Grid and morphogenetic field into the Planetary Kathara Grid and morphogenetic field allowing you to draw an *unlimited supply of energy* from the planetary field. You can draw in only as much as your personal morphogenetic field can hold. With repetition of this practice, the energy-holding capacity of your Kathara Grid progressively increases, allowing you a *continually expanding supply of energy* for healing and revitalization.

TECHNIQUE # 2: Continued
THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

4. While remaining aware of the *Planetary Maharic Shield*, spinning on a horizontal plane throughout the Earth's body, return the focus of your attention to the spinning **Silver Hierophant Sphere**, rotating at Earth's core. (You will now use the Hierophant Sphere to activate your **personal Maharic Shield** and release the 12th-Dimensional Pillar of Light within your bio-energetic field). Take several slow, deep breaths, while visualizing/imagining the Hierophant Sphere spinning in Earth's core. On the next **INHALE**, draw the Hierophant Sphere up from Earth's core with the inhale breath, forming a **Pale Silver Cord**, *about 6" thick*, trailing behind the Hierophant as it rises to the **12th Chakra**, 6" beneath the feet. *One end of the Silver Cord remains rooted in* ***Earth's core****, the other end is attached to the* ***Hierophant Sphere*** *and follows its movement.* Visualize the **12th Chakra** as a small, **transparent disc** about *3" in diameter*, positioned 6" below the feet. Stop the movement of the Hierophant in the center of the **12th Chakra**, imagine the Sphere beginning to spin and visualize the diameter of the 12th Chakra disc expanding to about 6" in diameter, as the Hierophant spins at its center. Take a few slow deep breaths as the *Hierophant spins in the center of the* ***12th Chakra.***

5. On the next **INHALE** draw the Hierophant Sphere *up from the 12th Chakra*, through the **Central Body Current** and up to the **14th Chakra**, *36" above the head.* As the Hierophant Sphere rises, visualize the *6" thick* **Silver Cord** drawing up through the **12th Chakra** and farther up through the **Central Body Current**, following the path of the Hierophant Sphere to the **14th Chakra.** Visualize the Silver Cord as a long, thick **Pale Silver Cord of Light**, running from *Earth's core, through your body and out the top of your head*, connecting to the **14th Chakra**, 36" above the head. Take several deep, slow breaths while imagining that you can *feel the sensation* of this *massive current of clear, pure energy* running through the *center* of your body.

6. On the next **EXHALE**, push the spinning Hierophant Sphere down through the **Central Body Current**, while leaving the *top end* of the Pale Silver Cord attached to the **14th Chakra**, 36" above the head. Move the Hierophant down through the **12th Chakra**, 6" below the feet and **stop the Hierophant** *6" below the 12th Chakra*, a position about **12" below the feet.** This is the location of the **Maharic Shield**, within the morphogenetic field of the body. Breathe slowly and visualize the Hierophant *spinning progressively faster*, 12" beneath the feet, until the Hierophant "takes on a life of its own" and suddenly "*pops and expands*" to form an **expanding horizontal disc of Pale Silver Light, spinning 12" beneath the feet.** ***Feel the disc as a circular platform 3 yards in diameter, below feet.***

TECHNIQUE # 2: Continued
THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

7 Call to mind the image of the massive *horizontal disc of Pale Silver Light*, spinning through the Earth's body – the **Planetary Maharic Shield**. Imagine the sensation of the large, spinning *Pale Silver platform disc* spinning 12" beneath your feet – your **personal Maharic Shield**. Breathe slowly and deeply while visualizing/imagining a *massive rush of pure, cool* **Pale Silver energy** running from the *planetary Maharic Shield*, up through the **Pale Silver Cord** and into the *personal Maharic Shield* 12" beneath your feet. Breathe as this energy runs, *filling your Maharic Shield to its energy-holding capacity*. When your Maharic Shield has received as much Pale Silver energy as it can hold, it will "take on a life of its own" and suddenly "*pop and expand*" upward into an ***oscillating Pale Silver Pillar of Light***, *surrounding and permeating the body, a tube of light*, extending beyond the body about 18" and running from **Earth's Core** to the **14th Chakra** 36" above the head. *Feel the reality of your body, encased in the cool, refreshing Pale Silver Pillar of oscillating light*. Take a few slow deep breaths and imagine the energy from the Pillar *emanating through all of your body cells*. Your Bio-energetic Field is now sealed with a protective barrier of 11th/12th –Dimensional frequency – the **Maharic Seal**.

8. As the Pale Silver Pillar of Light oscillates around you, place your attention, for a moment, at the **13th Chakra** in Earth's core and **INHALE** a final **Spark** of *Pale Silver Light* from Earth's core, drawing the Spark up through the **Pale Silver Cord**, into the **Main Vertical Channel of the Kathara Grid** and into the center of the 4th Heart Chakra. Breathe slowly and easily while visualizing energy from the *Silver Spark* radiating throughout the embodied 12-Tree Grid, *filling it with Pale Silver Light*. When the Kathara Grid has reached its energy-holding capacity, the ***12th Chakra will automatically contract to decrease*** the flow of Silver Light from the Earth's core. As the 12th Chakra contracts, the *Planetary Maharic Shield* stops spinning and transmitting energy through the Silver Cord, returning the Silver Cord to its dormant state. The ***Maharic Seal*** **Pale Silver Pillar of Light** will remain in your bio-energetic field between 1-3 hours. Over a 3-month period of frequent, consistent *daily practice* of this process, the Maharic Seal will self-sustain in the bio-energetic field for **12-14 hours.**

Use of this technique allows a healing Facilitator to activate the Maharic Shield and Seal in others, through *the Maharic Infusion process* (Technique # 4), while Facilitator's Pillar remains active. Progressive use of the Maharic Seal and running the Liquid Light creates a reciprocal clearing, reordering and realignment of the Kathara Grid–Holographic Template and all subtle energy and physical systems built upon it. The Lower Bodies are progressively cleared and realigned with the *original perfection of the Pre-matter Liquid Light Mahara Hova Body* and the body and genetic code progressively expand to hold higher dimensions of conscious awareness.

TECHNIQUE # 2B: THE MAHARIC QUICK SEAL

1. Work with a *24 pointed*, 3 Dimensional Star (*Hierophant*) and be aware that you will be working with beings known as the *Breneau Rishi*.

2. Begin by slowing your breathing, as you imagine or visualize a *24-point, 3-Dimensional Hierophant* at the **Pineal Gland** in the center of your brain. Visualize the Hierophant surround by a **Pale Blue Sphere of Light.**

   (The Blue Sphere serves as a buffer for your readiness to accept the frequencies associated with using the 24-Pointed Star; the Blue Sphere holds the energy for you until your body can handle the energy. If you can handle it, the energy will simply pass through the blue sphere).

3. INHALE as if you are going to grab the blue sphere containing the **24-pointed star** located at the **Pineal**, and on the EXHALE move the **24-point star/blue sphere** all the way down to *Earth's Core*. Try to hear a sound tone as the Hierophant/Sphere hits the Planetary Shield.

4. INHALE and draw the **Hierophant/Sphere** up to your **Personal Maharic Shield**, *12" below your feet*.. and EXHALE while watching the *Pale Silver-Blue Sphere expand* out to a **large sphere**.. and watch as your **Maharic Shield** pops out as a disc about 4 feet in diameter, *Pale Silver with a light coating of Pale Blue.*

5. Bring your attention to the center of your **Maharic Shield**, 12" below your feet... and INHALE the **24-pointed Star (only)** up into the **Heart Chakra**. EXHALE, expanding the frequencies of the *24-pointed Star into the Heart Chakra*.

6. INHALE to grab the *24-pointed Star* and EXHALE, pushing the Star up into the **14th Chakra**, 36" above the head. Imagine that the 24-pointed Star is **spinning in a clockwise direction** in the **14th Chakra**. As you do this, try to feel/sense the energy around you, just a few inches out from your body.

7. Now, put your attention into your **Maharic Shield**, *12" below your feet*, take a couple of relaxing breaths and INHALE deeply, pulling the *Pale Silver and Blue energy* up, as if you are pulling on your **Maharic Seal** to latch it on to your **14th Chakra**. Try and feel the sensations just a few inches from your body now – feel the difference if you can. ***This procedure gives you a Quick Seal.***

8. Now envision the cord of **Pale Silver Maharic Light** that would normally come up with your Shield and focus on the **Earth's Core**. Begin *drawing energy all the way up the 4" diameter cord and into the body*. INHALE the energy up into the **Heart Chakra** and expand it there. Begin to form a *Pale Silver ball* of **Maharic frequency.**

   On each EXHALE, send your energy down to the **Earth's Core** to bring up *another load of Maharic frequency*, up from the Planetary Shield. Expand it into the **Heart center** and repeat several times. Notice that the Cord grows larger as you do this, expanding from approximately 4" to 6" to 8" in diameter, until finally it feels like a skin around (as well as within) your body ... as you load your **Astral field with Maharic Frequency**

9. Move your attention to the **Pale Silver ball** you have created in your **Heart Center.** INHALE and move it up to the **14th Chakra**, *36" above your head*. As you do, feel for the **sheath of Maharic Frequency** encasing your etheric body, close to your skin. ***(This Maharic/ Christos skin charges and saturates your etheric body – feel the peacefulness and all-knowing nature of this frequency).***

TECHNIQUE # 2: Condensed Version
The Maharic Seal and Liquid Light Cleanse

Symbol Shorthand is used to help in remembering the primary steps of a technique

1. *Silver Hierophant Star at Chakra 6*
2. *EXHALE* Hierophant Star from *Chakra 6 to Earth's Core – Spin Hierophant Star* at Earth's Core – until it *pops* into *Hierophant Silver Sphere at Earth's Core.*
3. *Hierophant Sphere* spins at *Earth's Core* until *Silver Disc of Earth's Shield* emerges.
4. INHALE – *Hierophant Sphere* up from *Earth's Core to Chakra 12,* trailing *Silver Cord* from Earth's Core.
5. INHALE – *Hierophant Sphere* up from *Chakra 12 to Chakra 14,* trailing *Silver Cord.*
6. EXHALE – *Hierophant Sphere* down from *Chakra 14 to Personal Maharic Shield* and *spin Hierophant Sphere* (which ever way it wants to spin) until *Personal Shield pops* out to become *Silver disc* plane 12" beneath feet.
7. Draw *Silver energy* into *Personal Shield from Earth's Shield* through *Silver Cord* until *Personal Shield is filled* and *pops* to become Vertical *Pillar* of Silver Light around body.
8. *INHALE* – draw *Spark of Silver Light* from *13th Chakra* at *Earth's Core,* into *main* vertical channel of *Kathara Grid* then to *Chakra 4.* From Chakra 4 transmit energy from Spark to fill *12-Tree* Kathara Grid. Chakra 12 auto-shut down when 12-Tree Grid is full.

The Planetary Bio-Feed Interface System and the Maharic Seal

Use of the *Maharic Seal* and *Liquid Light Cleanse* begins the process of activating the **8th through 12th Chakras** and opening the natural PLANETARY **BIO-FEED INTERFACE SYSTEM (PBIS)** within the human body. Through the **PBIS**, the finite quantity of scalar frequency of which the personal Maharic Shield, Hova Bodies and individual identity are composed expands to **infinite potential**, as the **Planetary Scalar Shields** can be used to open dormant **Crystal Seals** within the Scalar Shields of the personal Level-2 Kathara Grid. **Once activated through the 12th Chakra, the PBIS opens a conduit of perpetual energetic supply between the human body and the planetary Morphogenetic Field, allowing the body to continually draw in as much higher dimensional frequency as the DNA Template can hold.**

With the PBIS activated, the human body can also become a tool for reprogramming and rebalancing the Planetary Shields, Vortices, Ley Lines and energetic grids of the Planetary Templar Complex. When the Crystal Seals of the personal Shields are released, the human **DNA Template** can serve as a **bio-electric conduit** for running higher dimensional frequency into the **Planetary Shields**. The human body, with its **12-Strand DNA Template potential**, is the only mechanism on Earth, other than the Planetary Shields themselves, that is capable of running a full 12th-Dimensional **Maharic Current**. Just as the Maharic Current can be used to purge distortions within the human Manifestation Template, so can it be used to purge distortions within the Planetary Shields, to restore the **Planetary Templar Complex** to its original **Primal Order**. Kathara Healing technologies not only provide the opportunity for individuals to facilitate healing in other *biological life forms*, they also reawaken the human potential to facilitate healing within the **geophysical planetary body.**

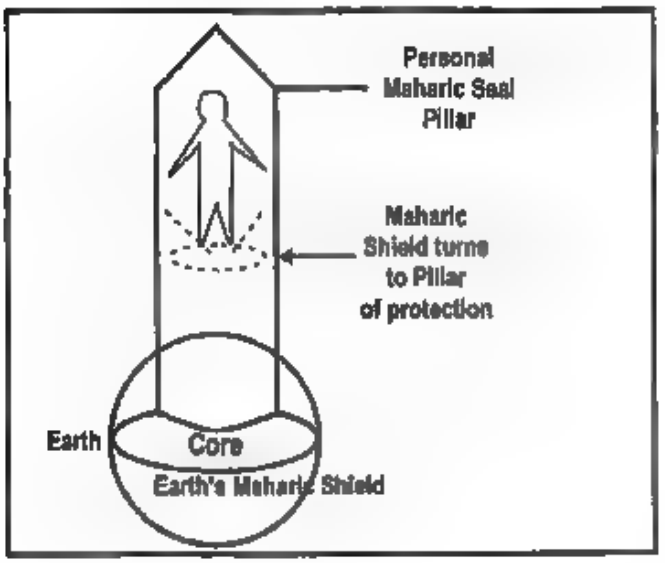
The Maharic Seal and Client Sessions

Through understanding the **Context of Healing** – *The Structure of the Unified Field*, the **Elements of Healing** – The Anatomy of the Human Body Kathara Grid and **Kathara Healing Beginning Applications** – *Morphogenetic Repatterning* through the **Maharic Seal and Liquid Light Cleanse** and *Awakening the Mentor* for access to 5th Dimensional awareness, the Kathara Healing Facilitator has developed the rudimentary skills necessary to begin **personal Core Holographic Template Healing. To effectively facilitate Core Template healing in others it is important for Kathara facilitators themselves to employ personal Template Healing.**

The ability to hold the **12th-Dimensional Maharic frequency sub-harmonics** (the 12th-sub-frequency band within each of the full Dimensional Frequency Bands) in body to assist in its transmission to a client for healing support increases as the facilitator utilizes the **Maharic Seal and Liquid Light Cleanse** technique for **personal healing**. The *Maharic Seal* and *Liquid Light Cleanse* technique not only increases the facilitator's ability to transmit 12th-Dimensional frequency sub-harmonics, it also temporarily **realigns distortions** within the facilitator's bio-energetic field and Kathara Grid and creates a temporary **12th-Dimensional Scalar Frequency Seal** within the *facilitator's* bio-energetic field. **Without use of the Maharic Seal, the facilitator will inadvertently transmit bio-energetic field and Kathara Grid distortions to the client and will energetically pick up scalar distortions** (including part of the "Karmic" Miasmic Imprint) **from the client.** (This problem occurs in all subtle-energy healing modalities that do not employ the Maharic Seal) Both of these conditions serve to amplify, rather than remedy, dis-ease and disharmony within the Mind-Body-Spirit system, for both *facilitator* and *client*. For these reasons, **the Maharic Seal and Liquid Light Cleanse technique needs to be employed prior to ANY healing facilitation work, to protect the bio-energetic field integrity of facilitator and client. The Maharic Seal and Liquid Light Cleanse technique represents the facilitator's preliminary preparation prior to Kathara Healing Facilitation Client Sessions.**

Safety in Healing Facilitation!



The *Maharic Seal and Liquid Light Cleanse* technique, used as facilitator preparation prior to Client Sessions, protects facilitator and client from taking on bio-energetic field distortions from each other. Maharic Seal is the preliminary step before any Kathara Healing application and is needed to effectively run interdimensional healing currents.

CO-GENERATIVE HEALING

The final phase of education necessary before engaging the adventure of **Kathara Healing Client Facilitation** is rediscovering the structure of personal **Multi-dimensional Identity** and how to use the personal **Hova Bodies** to tap the higher dimensional scalar frequencies for enhanced healing facilitation ability. The ability to understand and utilize the **PRECISE HEALING CURRENTS** of the interdimensional spectrum adds **greater power and skill** to the healing facilitation process. Unlike many other energy healing systems, **Level-1 Kathara Healing** trains the facilitator to identify, awaken within the body and employ in client service **specific combinations of interdimensional healing current** that fine-tune and amplify the beneficial effects of subtle energy healing.

This chapter will conclude with an overview of the **4 PRIMARY TRIADIC HEALING CURRENTS**, 4 of the 5 **3-Dimensional Primal Energy Currents** that can be awakened within the body through activation of the **Maharic Shield.**

The natural **Primal Triadic Healing Currents**, which exist naturally as part of the personal Hova Body, Scalar Shield and Kathara Grid anatomy, create powerful, effective and user-friendly energetic healing tools when combined with the 12-Dimensional frequencies of the **Maharic Shield.** Running the Triadic Currents is achieved by using the current to first activate the frequencies of the corresponding Hova Body and station of awareness within the personal Scalar Shields and **DNA Template.**

Once activated in the DNA Template, the **Hova Body** is used to draw a perpetual supply of the desired current from the Dimensional Unified Field corresponding to the chosen current. **Running the Triadic Currents requires activation of the corresponding frequencies within the facilitator's DNA Template, thus using the Triadic Currents in Client facilitation also serves to progressively stimulate and expedite activation of dormant frequencies in the facilitator's DNA Template.** Using the Triadic Currents in client facilitation serves to accelerate the processes of Holographic Recoding, higher identity Hova Body integration and multi-dimensional evolution within the Body-Mind-Spirit system of the *facilitator*, as well as that of the *client*, creating a condition of **CO-GENERATIVE HEALING** between client and facilitator.

Healing, Evolution and Ascension

In the Kathara Healing paradigm, the art and science of healing the Body-Mind-Spirit System is viewed in terms of the *human relationship to the natural structure and dynamics of creation.* **Healing becomes a necessity when the intrinsic energetic systems and scalar-wave constructions of consciousness, upon which the biological manifestation is built, become incongruent with the natural Primal Order of the dimensionalized Time Matrix system.** The processes of natural healing and hidden, organic functions of **human evolution** are intimately intertwined. Conditions that facilitate natural healing also facilitate fulfillment of the naturally intended course of human evolution, while conditions detrimental to Body-Mind-Spirit health are likewise detrimental to the evolutionary objectives of both the individual and the species.

The processes by which lasting healing occurs, through re-genesis of Primal Order within the Scalar Shields and personal anatomy, are the same processes by which the **CONSCIOUSNESS** evolves to the fulfillment of **Spiritual Actualization**, through embodiment of the 12-dimensions of consciousness inherent to the human DNA Template design. The genetic code of the biological imprint is built upon the Scalar-wave Templates of Consciousness that serve to hold the identity as energetic substance into physical embodiment. **Distortions within the physical manifestation indicate distortions in the Manifestation Template and thus constitute distortions in CONSCIOUSNESS.** Genuine healing is a *FUNCTION OF CONSCIOUSNESS*, first and foremost, and it is through realignment of consciousness, itself, that full healing can occur.

In the Kathara program, it is understood that biology and consciousness are intimately intertwined and thus interdependent. The techniques of **Bio-Regenesis** provided in Kathara Healing assist in the processes of restoring the **Organic Imprint for Health** while simultaneously serving to **expedite the natural processes of Interdimensional evolution** through DNA Template, Kundalini, Crystal Seals and Merkaba activation. **Human evolution is not a random, goal-less occurrence; it is rather an ordered system of interdimensional physics dynamics by which human consciousness progressively masters the contours of creation in time.** The evolutionary objective of human creation is mastery, which is progressively attained through the dynamics of **Transmutational Dimensional Ascension Ascension** is therefore the intrinsic and indelible goal within human evolution, the **hidden impetus for action** that moves the human species forward in time.

Healing and Bio-Spiritual Evolution

When we begin running the higher dimensional frequencies of the **4 Primary Triadic Currents** for Kathara Healing applications, we are, in truth, running **FREQUENCIES OF CONSCIOUSNESS**, that emanate from the **Hova Bodies**, in which the expanded spiritual portions of our personal identity are stationed. As we reawaken the higher dimensional frequencies of consciousness within the **DNA Template**, we are progressively expediting the reintegration of personal **Multi-dimensional Identity**, serving the **spiritual goal of Ascension** through stimulating into activation the scientific dynamics of **Unified Field Physics** by which genuine Ascension occurs. **Kathara Healing** progressively restores the functions of universal physics dynamics within the human body, as they apply to the pathway of Ascension, and so Kathara Healing applications are considered to be processes of **ACCELERATED BIO-SPIRITUAL EVOLUTION**, as well as processes of holistic Body-Mind-Spirit healing. Both facilitator and client simultaneously receive the subtle but progressive benefits of evolutionary acceleration and spiritual development through Kathara Healing **Bio-Regenesis Technologies**, through which the expansion of personal consciousness into the higher dimensional aspects of spiritual awareness occurs.

Kathara practices serve to stimulate progressive integration and embodiment of the Multi-dimensional Identity by activation of dormant portions of the **DNA Template**, through which the scalar-wave patterns of the higher frequencies of identity can enter the physical form. As spiritual advancement through Hova Body Integration and DNA Template activation is a beneficial "side effect" of Kathara Healing practice, it is helpful for the Kathara facilitator to understand the order of **Multi-dimensional Identity Structure**. It is also helpful to realize that the **Unified Field of Energy**, utilized in Kathara Healing, is in fact, a **UNIFIED FIELD OF CONSCIOUSNESS**. Healing is a function of energy dynamics and, at its core, energy is the **substance consciousness adopts** to experience manifestation, thus **HEALING IS A FUNCTION OF CONSCIOUSNESS**. When personal consciousness is applied in ways that are congruent with the natural **Laws of Unified Field Physics**, the effects of healing and wellbeing are met in manifestation.

MULTI-DIMENSIONAL IDENTITY STRUCTURE

Consciousness and the Physical Illusion

In Chapter 1 we explored the **Structure of the Unified Field** and discovered the morphogenetic **framework**, or **Holographic Template**, upon which matter systems are constructed. We learned how the structure of dimensionalization applies to the anatomy of the **15-Dimensional Human body**, from the **Core Template Kathara Grid**, the **Hova Bodies** and **Shields**, to the **Chakras**, **Bio-energetic Field** and physical matter structures built upon them. **We also discovered that physical manifestation is not what it appears to be – that *nothing is really manifest at all but only appears to be so due to the relationships of compartmentalized consciousness interacting with each other through the framework of dimensionalization*.** Our physical parts and our manifest world are scalar wave constructions, appearing solid and externalized because we view them with a level of consciousness that is stationed **one full dimension above** the wave forms we perceive as solid and objectified. Our consciousness structures itself into the scalar wave forms of dimensionality in order for us to perceive the illusion of manifestation. **There is no difference, other than the dimensional frequencies from which one is perceiving, between *the substance that composes physical matter* and that which *composes our seemingly non-manifest portions of consciousness*. The core of reality is CONSCIOUSNESS – it is the energetic substance out of which all things are made.**

Hova Bodies – Platforms of Perception

In this Section we will learn how the attributes of mind and sentient identity fit into the multidimensional anatomy of human consciousness. The scalar grids of the **Hova Bodies** and **Shields** that hold portions of our consciousness separate from each other so we may experience objectification, can be understood as **PLATFORMS OF PERCEPTION.** A portion of our conscious identity is **stationed within each of the Hova Body Shields** and the dimensions contained within the Shield become the *platform* from which *that portion of our selves* will perceive matter objectification. **We are simultaneously focused within each Hova Body Platform of Perception, and this gives us separated but interrelated stations of identity and different LEVELS OF MIND, from which we simultaneously perceive.** The amount of perception we are able to incorporate into our embodied focus on Earth is determined by the Level of **Higher Identity Integration** that has occurred. Integration of Higher Identity is the *merger* of the **Hova Bodies**, which creates changes and advancements in the **biological gene code** that allow the neurological and metabolic functions of the body to expand.

Our Present Platform of Perception

Presently, we are accustomed to perceiving from the Platform of Perception provided by the **NADA HOVA BODY**, the *scalar grid* that houses the 1st, 2nd and 3rd Dimensional Aspects of our identity and anatomy. While perceiving from the Nada Hova Body and the **TELLURIC SHIELD** that holds its form, we are functioning **as a 3-Dimensional consciousness** and will not be aware of the perceptions of the other levels of ourselves that are perceiving from the *Platforms of Perception* from the other Hova Bodies. **As we expand and evolve, we will progressively incorporate the portions of our awareness stationed in the other Hova Bodies into our Earthly focus of attention.**

The *Higher Identity Structure* of the Hova Bodies and related *Levels of Mind* within dimensionalization, are as follows:

THE 4 PRIMARY TRIADIC HEALING CURRENTS

Hova Bodies and the 4 Primary Triadic Currents

Each of the Hova Bodies and Shields contains a portion of your energy-identity that exists in the form of electro-tonal impulse born of Partiki Phasing. **The energy of your higher stations of identity, and that of the Universal Unified Fields of Consciousness-Energy can be drawn into the Nada Hova Body and earthly incarnate identity, for the purpose of healing facilitation.** There are four **Primary Triadic Healing Currents**, each corresponding to one of the **four higher dimensional Hova Bodies**. Through *your* corresponding Hova Body station, you can *draw energy from the higher dimensional Unified Fields* and channel it into your Nada Hova Body for direction into healing within the first Harmonic. **The 4 Primary Healing Currents are HARMONIC CURRENTS OF ENERGY, each composed of 3 Dimensions of Frequency.** Each Dimensional Band, within a Harmonic or **TRIADIC** current, is referred to as a **PHASE** *of that current.* **In Kathara Healing, we develop the ability to activate each progressive PHASE of each TRIADIC CURRENT**, through grounding the current into the body via the activated **MAHARIC SHIELD.**

Triadic Currents and Color

Each *Phase* of Triadic Current corresponds to a wave length in the dimensional spectrum that appears as COLOR to the embodied human mind. In directing the **Triadic Currents** we therefore use the **color translation of that primary dimension wave spectrum** to differentiate between Phases of current for various applications. **The first current to be activated in Kathara Healing is the DORADIC CURRENT**, the frequencies drawn in from Harmonic 2, through the **Doradic Shield and Alphi Hova Body. The Doradic Current has 3 Phases: Phase-1: 4th Dimensional current / GREEN wave, Phase-2: 5th Dimensional Current / BLUE wave and Phase-3: 6th Dimensional Current / Blue-Violet wave.** In **Level-1 Kathara Healing** we learn to activate and run the **Phase-1 Green Doradic Current.**

Current Combining

When using **Triadic Phase Currents, each Phase current is *combined* with the current running the activated *Maharic Shield*,** In ***combination with*** **the Phase current from the *Harmonic ABOVE the Phase current you are using.*** The **DORADIC PHASE-1** current is therefore composed of **D-11/D-12 PALE SILVER** (Maharic Shield), **D-4 GREEN** (Doradic Shield Phase-1) AND **D-7 VIOLET** (*the Phase-1 current* of Harmonic 3 – Teuric Shield, *one Harmonic up* from Doradic Phase-1). In activating the **DORADIC-1** (Doradic Phase-1) **current, you are using SILVER-GREEN-VIOLET color to direct Dimensions 12-11-7-4 current.**

In Level-1 Kathara Healing we begin preparing the body and DNA Template to receive the higher dimensional Phase Currents by initiating transmission of the **Doradic Phase-1 Healing Current** – the *Pale Silver + Green + Violet* frequencies of dimensions *12, 11, 7 and 4*

Through the 7th Dimensional aspect of the **Teuric Shield** and 11th and 12th Dimensional aspects of the **Maharic Shield**, the **Doradic-1 Healing Current** allows for recoding and realignment of the 1st – 4th Dimensional aspects of the **Nada** and **Alphi Hova Bodies** the **Telluric Shield** and **Physical, Emotional and Mental Bodies** of Density-1, the D-4 aspect of the **Doradic Shield** and **Astral Body**, the **1st – 4th DNA Strand Templates**, the **1st – 4th Chakras** and the **1st – 4th Sub-harmonics** of all Scalar Shield, DNA Template, Hova Bodies and Chakras. Doradic-1 Healing Current is effective in clearing the **Karmic-Miasmic imprint** from the **Density-1 Time Cycle incarnations** and the beginning of Density-2 Time Cycles incarnations.

CHAPTER 3 HIGHLIGHTS

KATHARA BEGINNING APPLICATIONS

- The **Hova Bodies** of personal anatomy contain portions of our higher dimensional awareness. One can begin accessing this awareness by building a **Perceptual Bridge** between the 3-Dimensional Self and higher identity aspects.

- Taking conscious initiative in building a Perceptual Bridge expedites **DNA Template** activation and the organic evolutionary process.

- The **MENTOR Technique** assists in building the Perceptual Bridge and activates dormant **Kathara Lines in our Level-1 Kathara Grid** to open communication between our D3 and Density-2, D4 and D5 levels of awareness.

The MCEO Freedom Teachings® Series Presented by Adashi MCEO LLC in Association with Azurite Press MCEO inc.

- The Mentor is a part of our awareness that is composed of **3rd, 4th and 5th Dimensional frequencies** of consciousness, which exists as a quantity of **Scalar Wave patterns** that span **Densities 1 and 2**.

- The **Mentor Focus** will be used in **Kathara Healing** for **guidance, Information retrieval** and **objective observation**. It can also be used to access **Cellular Memory** and in "Inner Child", **Bi-location, Remote Viewing** and **Dream** work.

MORPHOGENETIC REPATTERNING AND THE MAHARIC SHIELD

- Through a process called **Morphogenetic Repatterning**, Kathara Healing affects the **Core** of Dis-ease and dis-harmony in the Body-Mind-Spirit system by **repatterning** the Scalar-wave Programs in the personal **Holographic Template** to their original **Primal Order**.

- In **Level-1 Kathara Healing** we learn the **MAHARIC RECODING PROCESS** – the most important level of Holographic Template realignment.

- The **Maharic Shield** is the 3-Dimensional Scalar Grid corresponding to the **10th, 11th and 12th – Dimensional frequencies** of **Density-4**. **It** represents the **Original Point of Manifestation** and holds our original "Liquid Light" **Hydroplasmic Pre-matter Creation Imprint**, which is the **Organic Imprint for Health**.

- In Kathara Healing, the **Maharic Shield** Organic Imprint for Health is used to progressively **repattern** the embodied **Kathara Grid** and body systems to their original **Primal Order**.

- The **12th-Dimensional Frequencies** of the Maharic Shield contain within them the **144 Sub-frequency Band** Scalar patterns of **ALL** of the Dimensions below.

- 12th-Dimensional **Maharic Frequency** can be used to **effectively correct distortions** in the lower dimensional levels of the Manifestation Template, Scalar Shields and Kathara Grid.

- Activation of the **Maharic Shield** serves as the **RESET BUTTON** for the embodied **Kathara Grid** and for 12 Dimensions of Body-Mind-Spirit anatomy.

THE MAHARIC SEAL AND LIQUID LIGHT CLEANSE

- In bio-energetic healing, **Level-1 Kathara Grid** distortions override realignments made to the **outer levels** of the bio-fields alone. For **lasting healing** to occur, Level-1 Kathara Grid distortions must be realigned.

- The **Maharic Shield**, with its **144 Frequency Sub-Harmonics**, is the only portion of the Morphogenetic anatomy that can fully repattern and realign the **Level-1 Kathara 12-Tree Grid**. In **Kathara Healing**, the **Maharic Shield** is used to realign the Level-1 12-Tree Grid.

- The **Maharic Shield** and **Liquid Light Cleanse** technique is used to restore distorted **Partiki Phasing Sequences** and **Scalar wave arrangements** within the **3 Levels of the Kathara Grid** and **Scalar Shields**.

- Realignment will be **temporary** until the Kathara Grid reaches "**Critical Mass**" of energy in the **new**, realigned pattern.

- Until **critical mass** is reached, the outer levels of the anatomy will continue to **reverse** the Kathara Grid healing. With practice and **consistent application** of the **Maharic Seal** and **Liquid Light Cleanse** technique, the realignment of the Kathara Grid will become **permanent**.

- In future applications of Kathara Healing, processes will be used to realign the **outer levels** of the bio-field and the **Kathara Grid simultaneously**, to expedite the healing process.

- The Focus of **Level-1 Kathara Healing** is **Morphogenetic Repatterning** and **Holographic Template Recoding** via the **Maharic Shield** to clear distortions and the **Karmic-miasmic imprint** from the personal **Scalar Shields**, **Kathara Grid** and **DNA Template**, utilizing the **accelerated energies** of the *Planetary Bio-feed Interface System* (**PBIS**).

KATHARA POINTS

- **Kathara Points** are mini energy-vortex points in the body that connect directly to **Diodic Point vortices** in the **Level-3 Kathara Diodic Point Grid**.

- Stimulation of the Kathara Points through **manual massage** affects the **movement of energy** within related areas of the Kathara Grid and body systems.

- Used in sequence, **Sequence-1 Kathara Points for Regeneration** *open* energetic gateways to the **Kathara Lines** of the **Kathara Level-1 12-Tree Grid**, to allow new, realigned scalar patterns from the **Maharic Shield** to run through the Kathara Lines and Kathara Grid for **Core Template Repatterning**.

- **Sequence-1 Kathara Points** create **more lasting but less immediate** effects of realignment and healing. They can be **used alone** for **deep healing** and re-balancing of the **Core Kathara Grid**.

- **Sequence-2 Kathara Points for Revitalization** *close* **Kathara Lines** in the 12-Tree Grid and **channel** energy into the **Nadial Lines** of the **outer bio-energetic field** for more rapid revitalization and re-balancing of the **outer auric levels, chakras and physical cells**.

- **Sequence-2 Kathara Points** create **more immediate but less lasting** effects of realignment and healing. They can be **used alone** to create **temporary revitalization** of the **outer levels** of the bio-system.

- **Used together, Sequence-1** Kathara Points can run **Maharic energy** through the **core Kathara Grid** for **Template Recoding**. **Sequence-2** Kathara Points can then be used to **direct the Maharic energy** into the **outer levels** of the bio-field and physical body, to **expedite healing** through simultaneous inner and outer bio-field realignment.

THE MAHARIC SEAL, PBIS AND HEALING

- Use of the **Maharic Seal** and **Liquid Light Cleanse** technique begins activation of dormant **Chakras 8-12** and the **Planetary Bio-feed Interface System (PBIS).**

- **Opening the PBIS** allows energy from the **Planetary Shields** to be drawn into the **human body** for **rapid activation** of the **personal Maharic Shield** and **Crystal Seals**, to **expedite** the processes of **DNA Template activation, healing, recoding of the Holographic Template** and interdimensional evolution.

- Opening of the PBIS can also allow the human **DNA Template** to serve as a **Bio-electric Conduit**, through which the **Planetary Scalar Shields** and Electro-magnetic Grids can be realigned with their **Primal Order for geophysical planetary healing**.

Copyright A & A, 2002, All Rights Reserved

- Through the PBIS humans can directly facilitate healing of the **Planetary Templar Complex** from the Manifestation Template level, as well as facilitate healing in other biological organisms.

- Each use of the **Maharic Seal** and **Liquid Light Cleanse** technique assists in **planetary healing,** as the process progressively stimulates the **Planetary Maharic Shield** into activation, to realign **Planetary Shield** distortions.

- The **Maharic Seal** and **Liquid Light Cleanse** technique is used as **preliminary preparation** for **ALL Kathara Healing applications**. It creates a temporary **12th-Dimensional Scalar Frequency Seal** in the facilitator's bio-field to **protect** both facilitator and client from taking on each other's bio-field distortions.

- In **healing applications**, the **Maharic Seal** is needed to run interdimensional healing currents to their most effective **12th-Sub-Harmonic level**.

BIO-SPIRITUAL EVOLUTION, ASCENSION AND HEALING

- The processes by which **healing** occurs through re-genesis of Primal Order are the same processes through which true **Spiritual Actualization** takes place.

- **Biology** and **consciousness** are **intimately intertwined** through the natural **Laws of Universal Unified Field Physics**, the **energetic dynamics** through which consciousness enters manifestation.

- The hidden **impetus for action** behind human evolution is the core species objective of **Mastery of Co-creation** within the space-time system. This **Evolutionary Objective** is obtained through achievement of the Evolutionary **Goal of Transmutational Dimensional Ascension**.

- **Kathara Healing** applications generate healing through restoring the **Original Imprint for Health**.

- Restoration of the **Original Imprint** for **Health** simultaneously expedites the natural processes of **evolution**, through activation of the **12-Strand DNA Template, Kundalini** energies and **Merkaba Vehicle** and integration of the **Hova Bodies, Scalar Shields** and higher dimensional aspects of personal **spiritual identity**.

- **Kathara Healing** facilitates healing while simultaneously facilitating **Spiritual Actualization** and expediting the Goal of **Transmutational Dimensional Ascension**.

- **Healing is a function of consciousness.** There is no difference between the substance that composes physical matter and the substance that composes consciousness, other than the **dimensional frequency** from which one is perceiving.

- When personal consciousness energy is applied in **congruence** with the natural laws of Universal Unified Field Physics, **healing, wellbeing** and **Spiritual Actualization** result.

MULTI-DIMENSIONAL IDENTITY STRUCTURE

- **Human anatomy** is a **15-Dimensional Scalar-wave construct**. Part of our identity exists **simultaneously** within the Time Cycles of the higher dimensional **Harmonic Universes**.

- We are indelibly **linked** to our higher identity levels through our embodied **Kathara Grid**, **Scalar Shields** and **DNA Template**. As we evolve biologically to activation of dormant portions of our DNA Template and Scalar Shields, the conscious awareness of our higher identity levels **progressively embodies**.

- The 3-Dimensional Hova Body **Electro-magnetic Domains,** and Scalar Shields that form them, represent **Platforms of Perception** through which our higher identity levels perceive.

- **Merger** of the **Hova Bodies**, via activation of the **DNA Template** and **Scalar Shields**, creates **reintegration** of the **Multi-Dimensional Identity Structure**.

4 PRIMARY TRIADIC HEALING CURRENTS AND IDENTITY

- The **5 Levels of Multi-Dimensional Identity Structure** are: **Incarnate**-Density-1, **Soul**-Density-2, **Oversoul**-Density-3, **Avatar**-Density-4 and **Rishi**-Density-5. There are also **3 Ascended Master** identity levels, Hova Bodies and Shields existing **beyond** the dimensionalized **Time Matrix**.

- In **Kathara Healing**, we use various levels of higher dimensional identity to draw in **healing current** from the higher dimensional Unified Fields, by activating the portions of the **personal Scalar Shields, Kathara Grid** and **DNA Template** that correspond to the higher dimensional **Hova Bodies**.

- There are **4 Primary Triadic** (3-Dimensional) **Energy Currents** that can be used in **Healing Facilitation**: The **Telluric Current**-Density-1, the **Doradic Current**-Density-2, the **Teuric Current**-Density-3 and the **Maharic Current**-Density-4. The **Rishic Current** of Density-5 can be run only by beings with full **12-strand DNA activation**.

- Each of the **4 Primary Triadic Healing Currents** corresponds to one of the first 4 **Hova Bodies** of human anatomy.

- In Kathara Healing, the 4 Primary Triadic Currents are harmonically interwoven to create 4 powerful **Combined Healing Currents**.

- Each of the 4 Triadic Healing Currents has 3 Phases, or **3 Phase Currents**, each representing one of the three dimensional frequency bands within the **Triadic Current**.

- Each of the **12 Phase Currents** is run in combination with the 11-12th-Dimensional **Maharic Current,** and the Phase Current from the **harmonic directly above**, to form a powerful **Triadic Healing Current**.

- In **Kathara Healing**, specific Healing Currents are directed by using the **Color** of their dominant **wave-length**.

DORADIC-PHASE-1 CURRENT

Interdimensional Currents and Signet Star Crystal Seals

Activation of any **Triadic Healing Current** requires temporary release of the corresponding **Signet Star Crystal Seals** within the personal **Scalar Shield** and a temporary activation of the portions of the dormant **12-Strand DNA Template** that correspond to the Signet Seals. Signet Seals modulate the flow of frequency between the 3-Dimensional Harmonic Density Levels. When Signet Seals are in their usual (for this time period) dormant phase, they keep the **5 Hova Bodies** of the personal 15-Dimensional anatomy separate from each other by creating an electro-magnetic barrier or **Magnetic Repulsion Zone** between each 3-Dimensional level of the energetic anatomy. This *Magnetic Repulsion Zone* between embodied **Harmonics of Manifestation** manifests as **polarity resistance to frequency inflow** within the **three** levels of the Kathara Grid, the Scalar Shields, Axi-A-Tonal Lines, Chakras and Auric Field levels of the embodied **Inner Templar Complex**. **In order to run higher dimensional frequency currents through the physical body for healing applications, it is necessary to temporarily release portions of the Magnetic Repulsion Zones between the Hova Bodies**. Releasing the electro-magnetic resistance to higher dimensional frequency inflow within the inner Templar Complex is achieved through temporary activation of the **Signet Seals** within the **Kathara Level-2 Crystal Seal Grid** of the personal **Scalar Shields**.

Most contemporary energetic healing systems rely upon using the 1st, 2nd and 3rd-Dimensional frequencies of the **TELLURIC PHASE CURRENTS** in the **Nada Hova Body**. Through the Nada Hova Body alone, only the 3-Dimensional **Sub-Harmonics** of higher dimensional frequency currents can be run, as the dormant *Signet Seals* block the faster-moving *Partiki Phasing Flash-line Sequences* of higher dimensional frequency bands from running through the DNA Template. **If a frequency band is blocked from running through the DNA Template, that frequency cannot be energetically transmitted through the Nada Hova Body and physical bio-electrical systems**. In **conventional energy healing methods**, even those emerging from ancient systems of subtle-energy healing, the **Signet Seals**, and thus the *Scalar Shields*, *Hova Bodies* and *DNA Template*, remain dormant in their usually **closed** position, **phase-locked** into a 3-Dimensional orientation. While the DNA Template remains phase-locked into the 3-Dimensional orientation of the Nada Hova Body, only the **1st through 12th Sub-frequency bands** (Sub-Harmonics) of **1st through 3rd Dimensional Current** (Telluric Current), and the **1st through 3rd Sub-frequency bands** of **4th through 12th-Dimensional Current** can be run through the human body for transmission. Use of the lower frequency (slower Partiki Phasing rhythm) **Telluric Currents** can affect **temporary** beneficial change in the **outer layers** of the bio-energetic field, but Telluric Currents alone cannot facilitate full repatterning of the **3 Levels of the Kathara Grid** where **Scalar Shield** distortions that **cause genetic malfunction** are embedded. The **11th-12th-Dimensional frequencies** of the Pre-matter Hydroplasmic **Maharic Currents** are the only dimensional frequencies powerful enough to affect change in the embodied **Kathara Grid**. To run **Maharic Current**, and the high frequency interdimensional **Triadic Phase Currents**, through the human body, requires release of the **Signet Seals** with the personal **Scalar Shields**.

Triadic Phase Currents, the Maharic Shield and the PBIS

Most healing systems have not incorporated the **Maharic Current** into their frequency application procedures because the **Planetary Templar Complex** has not been able to run a D-12 **Maharic Current** through the planetary grids for **210,216 years**. Like the human **DNA Template**, if the **Planetary Shields** and Manifestation Template are blocked from processing interdimensional frequency, that frequency will be **unavailable for use** on the planet. If the **Signet Star Crystal Seals** (Star Gates) in the **Planetary Shields** are dormant, closed and phase-locked into Density-1 orientation, no-one on the planet will be able to draw interdimensional frequency into their personal **Shields** because the frequency is unavailable within the **Planetary Shields**. The personal and planetary Templar Complexes are intimately interwoven, and what affects one will inevitably affect the other.

In order to run the full spectrum of interdimensional **Triadic Phase Currents** through the human body, it is necessary to open the **Signet Seals** in the personal Inner Templar and the **Signet Star Gates** in the **Planetary Templar Complex**. In conventional human evolution, the internal Signet Seals, which serve as the **Genetic Time Codes** or **"Fire Codes"** of the human **DNA Template**, automatically, progressively and sequentially open over **very long cycles of time**. During the slow activation of the Genetic Time Codes, the conscious identity experiences passage through numerous incarnate life cycles within the planetary Time Cycle, evolving through a series of **Single Vector Incarnations** before being released from the 3-Dimensional phase-lock of Density-1 manifestation. One can **manually open the Signet Seals** in the embodied Inner Templar Complex to **expedite** evolution into the Multi-dimensional, **Multi-Vector Time Cycles** through use of the 11th-12th-Dimensional **Maharic Current**.

Activation of the personal Maharic Shield allows for rapid release of the embodied **Signet Seals** and activation of the Fire Codes in the DNA Template. The **Maharic Current** from the personal Maharic Shield can be used to release the **Signet Star Crystal Seals** within the body, which in turn activates the dormant **Kundalini** energies at the base of the spine and the **Cranial-Sacral Kundalini Seals** within the **Tailbone** and **Pineal Gland**. Release of the Cranial-Sacral Seals of the Internal Templar Complex allows the **Magnetic Repulsion Zones** between the **Hova Bodies** to release so the DNA Template, personal Scalar Shields and physical body systems can receive inflow of higher dimensional frequency. To gain conscious mastery over the process of releasing the internal Signet Seals requires activation of the personal **Maharic Shield**, and the personal Maharic Shield can be **manually activated** *only through drawing* **Maharic Current** into the personal Shields via the **Planetary Maharic Shield**. **The entire process of releasing the *internal Signet Seals by activating the personal Maharic Shield*, in order to enable the *DNA Template* to run *Triadic Phase Currents* for healing, is entirely dependent upon the *operational function* of the *Planetary Bio-feed Interface System* (PBIS).**

If the **Planetary Templar Complex** is blocked, or the Signet Star Gates are dormant, and **Maharic Current** from the **Planetary Maharic Shield** is not able to run through the planetary grids, humans on Earth do not have the option of **manually activating** the personal **Maharic Shield**, because the **PBIS** is not operational. The **PBIS** becomes **operationally functional** within the human body through activation of the **12th Chakra**. The *12th Chakra* cannot activate in the personal Templar Complex if the **Planetary Templar Complex** cannot run 12th-Dimensional **Maharic frequency**. For over 200,000 years, the Planetary Templar Complex could not run Maharic frequency, and thus manual activation of the personal Maharic Shield and release of the embodied Signet Seals to open the Hova Bodies for running interdimensional Triadic Phase Currents for healing were not available options for Earth humanity. Since the recent activation of the **Planetary Templar Complex**, **Maharic Shield** and **PBIS** activation and **Kathara Healing** applications are now available on Earth.

Opening Triadic Phase Currents in the Human Body

The method by which **Triadic Phase Currents** are activated within the human body is a **progressive process**. First opening of the personal **Kathara Grid**, **Telluric Shield** and **Nada Hova Body** is orchestrated through activation of the **Maharic Shield** and **Signet Seals** to allow inflow of frequency from the higher dimensional **Hova Bodies**. Next the incoming frequency is harnessed and **collected** within the **Chakra System**. Finally, the collected frequency is then **transmitted** for healing facilitation in others either through direct **Chakra transmission** or by close-range **Frequency Induction**, via transmission of frequency from the activated **Secondary Chakra Centers** within the **PALMS**.

The ability to run the higher dimensional Triadic Phase Currents within the body must be built up within the Internal Temple Complex, starting with the **slowest-moving current** of the higher dimensional spectrum – the **DORADIC-PHASE-1 CURRENT**. The *Doradic-Phase-1 Current* utilizes the **sub-frequencies** of the 11th-12th-Dimensional **Maharic Current** from the Density-4 *Mahara Hova Body* as a **carrier wave** that will carry the desired interdimensional currents through the **Signet Seals** of the personal **Scalar Shields**. The full spectrum of the **4th** Dimensional **Doradic-Phase-1** current from the density-2 *Alpha Hova Body* is activated as the **primary healing frequency** for transmission. The full **spectrum** of the **7th**-Dimensional **Teuric-Phase-1 Current** (one Harmonic above the Doradic-Phase-1 Current) from the Density-3 *Betcha Hova Body* is used to release the 4th-dimensional Signet Seal, allowing the 4th-Dimensional Doradic-Phase-1 current to enter the **Nada Hova Body**.

Activating the **4th Signet Seal** triggers temporary activation of the **4th DNA Strand Template** and corresponding **4th Kathara Center** in the Level-1 12-Tree Grid, which allows the 4th-Dimensional frequencies of the **Doradic-Phase-1 Current** to pass through the **active DNA** and into the bio-energetic and bio-electrical systems of the body for transmission. Once the DNA Template becomes accustomed to holding a **4th-DNA Strand Template Activation**, after **several months** of practice in running the 4th-Dimensional *Doradic-Phase-1 Current* the body will be able to begin receiving the primarily 5th-Dimensional **Doradic-Phase-2 Current. The lower dimensional Triadic Currents must be activated within the DNA Template before the higher dimensional Triadic Currents can run**. In **Level-1 Kathara Healing** the first step in activating the full spectrum (12 sub-harmonics) of the 4th-Dimensional **Doradic-Phase-1 Current** is achieved.

Triadic Phase Currents and Color Cap-Stones

The **Color Cap Stone** of a dimensional frequency band is the visual representation of the **primary wave-length** formed by the specific **Partiki Phasing Rhythm** for that dimension. A specific dimensional frequency band can be chosen and directed by the **color translation** of its primary wave-length. The **Color Cap Stones** of the dimensional frequency bands are used in Kathara Healing to direct specifically selected dimensional frequency bands (Partiki Phasing Rhythms) for specific applications. The **Color Cap Stones** for the **Doradic-Phase-1 Current** are **PALE SILVER (D-11 - D-12 Maharic) + GREEN (D-4 Doradic) + VIOLET (D-7 Teuric)**. In **Technique #3 – OPENING THE HEALING CHANNELS-DORADIC-1** - the ***Pale Silver + Green + Violet*** Cap Stone Colors will be used to activate the **Doradic-Phase-1** Healing Current within the body.

DORADIC SPHERE, CORDS AND BALLS

The Doradic Sphere and Current Collection

The **DORADIC SPHERE** is a **frequency repository** that is formed to hold the activated **Doradic-Phase-1 Current** within the **Chakra system** for transmission in healing facilitation. As the Doradic-Phase-1 Current is primarily a **4th-Dimensional Current**, the **Doradic-1 Sphere** will be formed in the **4th Chakra**, which corresponds to the 4th-Dimensional **ASTRAL body** of the Alpha Hova Body and Auric Field. **Transmission** of the Doradic-Phase-1 Current will take place from the **Doradic Sphere at the 4th Chakra**, creating a **4th-Dimensional ASTRAL INFUSION** of frequency into the bio-energetic field of the client in **close-range healing**, and a general **Astral Plane Infusion** of Doradic-Phase-1 frequency into **Manifestation Templates** of areas (and everything contained within the space) when transmitted directly from the **4th Chakra**.

Doradic Cords and Current Induction

The **DORADIC CORDS** are **energy conduits** that are formed by opening the embodied **Axi-A-Tonal Lines** within the **arms, hands** and **fingers**. Opening the Doradic Cords allows the **Secondary Chakras** within the **palms** of the hands to carry the **Doradic-Phase-1 Current** for application in **close-range** transmission. Although Triadic Phase Currents can be transmitted directly from the **Chakra Center** in which the **Collection Sphere** is placed, the energies are more **diffuse** and **diluted** in this form of transmission, unless the personal DNA template holds a **full, permanent activation** of the Strand Template corresponding to the Triadic Current being transmitted. It takes time, often years, for the DNA Template to acquire and permanently hold a higher strand activation level. One-on-one healing facilitation is more effective when conducted through **concentrating** the Triadic Current through the **Axi-A-Tonal Lines** for **DIRECT INDUCTION** of current through the **Palm Chakras** in **close-range** transmission. Close-range transmission also allows for **more precise application** of frequency to specific areas of the body systems. In **Level-1 Kathara Healing**, the **Doradic Cords** are activated within the arms, palms and fingers to allow for concentrated, focused direction and **Direct Induction** of the **Doradic-Phase-1 Current**.

For **general healing** purposes, such as "**clearing rooms**" or geographical spaces, or when attempting to transmit healing current into **groups of people**, transmission of the **Doradic-Phase-1 Current** can be orchestrated directly from the **4th Chakra** for **NON-SPECIFIC INDUCTION**. In **Non-Specific Induction**, following activation of the Doradic-Phase-1 Current, each **INHALE** breath is **used to fill the Doradic Sphere** with more energy and each **EXHALE** breath is used to expand and transmit the energy into the room or bio-fields of a group of people. It is not necessary to activate the Doradic Cords for Non-Specific Induction applications. In **Level-1 Kathara Healing** applications, use of the **Doradic Cords** and **Palm Chakras** is employed for Direct Induction close-range transmission in Client sessions. To enhance and expedite personal healing, the activated **Doradic-Phase-1 Current** can be run through the personal **Level-1 Kathara Grid** with the ***Maharic Shield and Liquid Light Cleanse*** technique and then through each of the **7 Primary Embodied Chakras**.

Doradic Balls and Palm Transmission Direct Induction

The **DORADIC BALLS** are small energy repositories that form in the **Palms** of the Hands when the **Doradic Cords** have been activated to run Doradic-Phase-1 Current through the **Palm Chakras**. Doradic Balls are used to **accumulate current** in the **Palm Chakra vortices** prior to transmission, to strengthen the intensity of the current.

PALM CHAKRAS AND TRANSMITTING CURRENT

Primary Polarities of Palm Chakras

Along with the **15 Primary Chakras** within human anatomy there are many other smaller **Secondary** and **Tertiary Chakra Centers** throughout the body, which correspond to the energetic interrelationships of scalar-wave patterns within the **Kathara Level-3 Diodic Points Grid**. All Chakras operate as sets of **Black and White Holes**, through which energy from the dimensional Unified Fields circulates into and out of the body and Manifestation Template. The **Palm Chakras** are part of the **Secondary Chakra System**. Like all Chakras, the Palm Chakras are structured as **2 vortices** of energy **joined at the tip** by a minute **Crystal Seal** within the **Kathara Level-2 Crystal Seals Grid**. The Palm chakras run through the **center of the Palms** and out of the back of the hands.

In any set of Chakra vortex spirals, one vortex represents the **magnetic Black Hole**, a *counter-clockwise rotating* spiral that **draws energy IN** toward the central Crystal Seal, and the companion vortex represents the corresponding **Electrical White Hole**, the *clock-wise rotating* spiral that **sends energy OUT** from the central Crystal Seal. The **Black Hole** vortex represents the **RECEIVING spiral** or **Magnetic Pole**, and the **White Hole** vortex represents the **TRANSMITTING spiral** or **Electrical Pole**. The **Electrical Pole** of a Chakra represents the **EXPANSION CURRENT** of the Chakra, through which it **expands energy** out from the personal Shields, it is referred to as **BASE ELECTRICAL**. The **Magnetic Pole** of a Chakra represents the **CONTRACTION CURRENT** of the Chakra, through which it **contracts energy in** from the external Unified Field to the personal Shields, it is referred to as **BASE MAGNETIC.**

The Chakras in the **Palms** are composed of many smaller minute **vortex sets**, each with Magnetic and Electrical Poles, but the **PRIMARY POLE** of each Palm Chakra is that pertaining to the **larger Black-White Hole set** and **Crystal Seal**. Although each Palm Chakra is capable of both **Transmitting and Receiving** energy current, the **strongest and most focused currents** can be achieved by utilizing the natural polarity orientation of the Primary Vortex Set. The Chakra in the **RIGHT PALM** is **BASE ELECTRICAL**; its corresponding vortex on the back of the right hand is **Base Magnetic**. The Chakra in the **LEFT PALM is BASE MAGNETIC**; its corresponding vortex on the back of the left hand is **Base Electrical**. When running Triadic Phase Currents, it is helpful to understand the **Primary Polarities of the Palm Chakras** in order to create the **strongest** and **least distorted** healing current. In **Kathara Healing** the **RIGHT HAND** is the **TRANSMITTING HAND**, through **which** Triadic Current is **Exhaled** down the **Cords** in the arms and **EXPANDED** into the **RIGHT PALM CHAKRA** for **TRANSMISSION**. The **LEFT HAND** is the **RECEIVING HAND**, through which the Triadic Current transmitted from the Right Hand is **drawn back** into the facilitator's body **TO CREATE A CLOSED CIRCUIT OF CURRENT** for the **strongest current intensity and purest frequency content.**

HAND POSITIONS

Standard Hand Position for Transmitting Triadic Current

When transmitting Triadic Current, the **LEFT PALM** is **PLACED OVER THE BACK OF THE RIGHT HAND**. The *Base Magnetic* Current of the *Left Palm* **interfaces** with the *Base Magnetic* Current in the *Back of the Right Hand*, creating a **MAGNETIC REPULSION ZONE**, which **blocks the vortex on the Back of the Right hand** from drawing **non-specific frequency** from the Density-1 Unified Field. This keeps the current transmitted from the *Right Palm Chakra* **pure** to its specifically chosen content. The *Base Magnetic vortex* in the *Left Palm* simultaneously draws the **transmitted current** back up through the smaller vortex sets after it runs through the client's body, creating a **closed circuit of pure frequency** running between the **Hova Bodies** of the **client**, the **facilitator** and the higher dimensional **Unified Fields**. Options of **Frequency Modulation** for other healing applications also become available through using this **HAND POSITION** when transmitting healing current. In some applications, a **modulated current** that includes bursts of Density-1 Telluric Current interspersed with current transmission from the higher dimensions is desired; this can be achieved by moving the Left Hand on and off the vortex on the back of the Right Hand. The **LEFT OVER RIGHT HAND POSITION** is used in **Level-1 Kathara Healing** applications.

Intrinsic Process of Activating a Triadic Phase Current

ACTIVATE MAHARIC SHIELD

1. Open the **PBIS** using the D-11-D-12 Wave Guide Symbol Code, the **Hierophant Symbol**, to open the 12th **Chakra** and stimulate release of **Maharic Frequency** from the **Planetary Maharic Shield**.
2. From the PBIS draw Maharic Frequency from the Earth's Maharic Shield up into the dormant personal Maharic Shield 12" below the feet, to activate the **personal Maharic Shield**

ACTIVATE TRIADIC PHASE CURRENT

3. Choose the specific Triadic Current you desire to run.
4. Use the inflow of **Maharic current** from the personal and planetary Maharic Shield as a **Carrier Wave** to carry the **Cap Stone Color frequencies of the Signet Star Crystal Seals** in your Scalar Shields that correspond to the **Triadic Phase Current** you wish to activate
5. Temporarily **release** the **Signet & Cranial-Sacral Kundalini Seals** and activate the **DNA Strand Template** corresponding to the chosen **Triadic Phase Current**, by running the **Primary Frequency** and the frequency **one Harmonic above it** through the **Signet Seals**, on the Maharic carrier wave current, to open the **Nada Hova Body** and physical body systems to inflow of the higher dimensional **Triadic Phase Current.**

COLLECT AND TRANSMIT HEALING CURRENT

6. As the Triadic Phase currents transmit into the body through the Signet Seals, Kundalini energies and DNA Template **collect and build the current** as a **Sphere** of energy within the **Chakra** corresponding to the Primary Triadic Current you are running.
7. Run the current from the **Collecting Chakra** through the **Axi-A-Tonal Line Cords** in the arms to activate the **Palm Chakras**.
8. **Exhale** current from the **Chakra Collection Sphere** through the **Cords** and allow it to build into **Balls** of energy within the **Palm Chakras** before transmitting.
9. Transmit the Triadic Current through the **RIGHT PALM CHAKRA** into client's bio-energetic field while drawing more current into the **Chakra Collection Sphere** with each exhale breath and draw the current back through the **LEFT PALM** on each inhale breath, to create a higher dimensional Closed Circuit Healing Current. Use **LEFT PALM OVER BACK OF RIGHT HAND** hand position.

TECHNIQUE # 3

Opening the Healing Channels – Doradic-Phase-1 Current

1 Breathe slowly and deeply for several breaths while visualizing or imagining a **4" Violet Dot** on the center of the *inside of your forehead*. Make the color image as strong as you are able (if you can't yet perceive inner colors or visualization, simply imagine the Violet Dot as being there). Move the Violet Dot to the center of the brain at the **Pineal Gland**, and then upward into the **7th Crown Chakra**, from the inside of the head *moving upward and outward* until the Violet Dot *rests on top of your head* at the Crown Chakra.

2 Call to mind the Hierophant Symbol (Pale Silver Merkaba Star formed by combining 2 Merkaba Stars). Visualize the spinning Hierophant stationed 12" below the feet within your Maharic Shield and slowly **INHALE**, drawing the Hierophant up through the Central Body Current, up to meet the Violet Dot at the **7th Crown Chakra** at the top of the head. When the *Hierophant connects with the Violet Dot visualize* the Violet Dot bursting into a **4" Vertical Pillar of Violet-Silver Light**. Imagine the *Violet-Silver Pillar* running down through the body into the *Earth Core* and upward to the **14th Chakra 36"** above the Head. You have activated the **Violet Ray of Transmutation**.

3 Move your attention to the **4th Heart Chakra** and imagine a *small Green Spherical Crystal* - the **Green Star** - stationed at its core. This is the **Green Star Crystal Seal** that controls release of *4th Dimensional frequency - Phase-1 Doradic Current* into the body. **INHALE**, drawing Violet-Silver energy from the Violet-Silver Pillar into the *Green Star*. **EXHALE**, *expanding* the Violet-Silver energy into the *Green Star sphere*. Repeat *2 more INHALE-EXHALE* breaths drawing Violet-Silver Energy from the Pillar and expanding it into the Green Star sphere. At the end of the last **EXHALE**, imagine the **Green Star popping** turning into a spinning Green and Violet Starburst of Light as the *Violet-Silver Pillar disappears*. *Spin the Green-Violet Starburst* faster until it becomes a *ball of Green-Violet Light*, about the size of a *grapefruit*, spinning in the center of the *4th Heart Chakra*. The Green-Violet ball is the store-house for your Phase-1 Doradic Current - it is called the **Doradic Sphere**. **INHALE** and draw Pale Silver energy from your **Maharic Shield** through the Central Body Current and into the center of the **Doradic Sphere** at the **4th Heart Chakra**, encasing the Sphere in translucent Pale Silver Light.

4 **EXHALE** quickly and push **2 Cords** of **Green-Violet-Silver energy - Doradic Cords** from the Doradic Sphere *down the inside of your arms*, one Cord through each arm. As the ends of the Doradic Cords reach the inside of the hands notice a sensation of *mild resistance* as the Cords push against the *etheric membranes* covering the *small chakras* in the palms. **INHALE** a full breath drawing Silver energy up from the **Maharic Shield**, into the Doradic Sphere at the 4th Chakra. **EXHALE forcefully** pushing more energy down through the *Doradic Cords* in the arms, and feel this energy "**pop**" out of the *palms, releasing the membranes* on the palm chakras. Continue to **INHALE** energy up from the *Maharic Shield* into the Doradic Sphere and **EXHALE** it through the *Doradic Cords, building the strength of the Doradic Current* in both palms. Imagine the Doradic Current pooling in the palms to form *2 Green-Violet balls of light* about the size of *tennis balls*. Energize the Doradic Sphere and Cords until you can sense the smaller **Doradic Balls** formed in the *palms* of your hands. **Your Doradic Current is now activated for use in healing facilitation**.

TECHNIQUE # 3: Opening the Healing Channels Doradic-Phase-1 Current

1. **4" Violet Dot** inside forehead, move to **Pineal Gland** then up through **7th Crown Chakra** to top of head

2. **Hierophant Symbol** at center of your **Maharic Shield 12"** below feet. Inhale Symbol **up** to **Violet Dot** at top of head. See **Violet Dot burst** into **4" Violet-Silver Pillar** running through body to Earth's core and up to **14th Chakra** 36" above head.

3. Small **Green Star Crystal Seal at 4th Heart Chakra.** Inhale drawing **Violet-Silver** energy from **Violet-Silver Pillar** into **Green Star Crystal Seal** and see **Green Star Crystal Popping** into a spinning **Green-Violet Starburst**, as Violet-Silver Pillar **disappears**. Spin Green-Violet Starburst faster until it becomes grapefruit-size **BALL** of **Green-Violet Light**, the **Doradic Sphere** at the center of the **4th Heart Chakra**. Encase Green-Violet Sphere in **Pale Silver** Maharic energy.

4. Push a **Green-Violet-Silver Doradic Cord** down each arm to **Palm Chakra Membranes** and draw **Pale Silver** up from **Maharic Shield** to **Doradic Sphere** and forcefully push Maharic Current **down arms** to **pop Palm Chakra Membranes** While running **Doradic-1 Current** draw energy from **Maharic Shield** to **Doradic Sphere** and push it down arms from **Doradic Sphere** through **Doradic Cords** to **pool** into **Doradic Balls** at **Palm Chakras**

THE NATURE OF KARMA

Karma, Identity, the Christos and the Physics of Divine Right Order

When an identity enters the **Time Matrix** to begin **simultaneous cycles** of evolution through time it enters the manifest fields through first adopting a **Manifestation Template** composed of Partiki Units and Scalar-Waves. The first Manifestation Template is called the **Rishic Shield**; it exists at the **Ante-matter** scalar-wave level of **Density-5** and holds the complete **Primal Scalar Pattern** for all of the **Singular Identities that will simultaneously** manifest into incarnation within the lower dimensional densities and Time cycles. The **Rishic Shield** represents the **Identity Gestalt** or **Family of Consciousness** through which identity enters manifestation. The Rishic Shield carries the precise configuration of scalar-wave patterns, the **Primal Order** of energetic substances, through which the consciousness individuated to form a collective of consciousness within the dimensionalized Time Matrix. Every individual incarnate from the Rishic Family of consciousness in time carries, as part of its core **Kathara Grid** scalar program, **the electromagnetic energy signature of Primal Order** carried by the **Rishic Shield** through which it manifested.

The scalar-wave design of the Rishic Shield represents **DIVINE RIGHT ORDER** - the **Primal Order** of scalar-wave energetic relationship and **Partiki Phasing Sequences** that individual identities in time must re-evolve to hold within their embodied **Manifestation Templates**, in order to **regain freedom** from the dimensional systems of the Time Matrix. Consciousness from the Rishic Shield, in the form of **Omni-polar wave spectra**, enters the manifest densities by projecting portions of itself into **smaller Consciousness Gestalts** within the lower dimensional fields. The smaller Gestalts of Consciousness form **the 3-Dimensional Scalar Shields** of the identity within the Dimensionalized matter system. **Each Scalar Shield holds the consciousness of numerous simultaneous Cycles of Incarnation within each of the 4 Primary Time cycles of Densities 1 through 4.** Each individual incarnate in time is directly linked to its original **Rishic Shield Family of Consciousness** through the **Density-4 Maharic Shield**. The Maharic Shield of dimensions 10-12 contains the first **Pre-matter Hydroplasmic scalar-wave spectra** through which identity began its experience within the holograms of Space, Time and Matter. The **personal Maharic Shield**, often called the **PERSONAL CHRISTOS IMPRINT**, holds the original **Primal Order** of scalar waves through which manifest consciousness links to its **Rishic Shield**. The **Christos Imprint** of the **Maharic Shield** represents the **PATH OF DIVINE RIGHT ORDER** through which each individual consciousness in time can **re-evolve** to its original Eternal Non-manifest State of Wholeness in Consciousness beyond the Time Matrix. **Divine Right Order is not only a spiritual concept; it is a reality in energy within the scientific dynamics of Universal Unified Field Physics.** Divine Right Order represents the **Primal Order** of scalar-waves that make up the original **Manifestation Template** from which individual **singular lifetimes** emerge, and it is the necessary pattern of energetic order within the personal multi-dimensional Manifestation Template which allows incarnate beings to **fulfill the evolutionary objective of Transmutational Dimensional Ascension. The result of an incarnate being's Manifestation Template and Conscious Awareness becoming misaligned with the energetic structure of Divine Right Order is called KARMA.**

Karma, Divine Right Order, the Scalar Shields, Free Will and Miasms

If it is understood that the universe and all things within it exist as **manifestations of consciousness** in the form of **precisely ordered** scalar wave arrangements, and that there is an intrinsic and indelible **Primal Order** upon which all manifestation functions, it will not be difficult to conceptualize the **literal and tangible nature** of the **Karmic Imprint**. In energetic terms, **Divine Right Order** represents the **natural alignment** of conscious energy fields within the intrinsic **Laws of Universal Physics** characteristic to the dimensional structures of time. Divine Right Order exists as a **tangible, specific** and **harmonious organization of energy interrelationships** within the Primal Order of energetic structure that creates dimensionality. The condition frequently referred to as **Karma** is, like Divine Right Order, a tangible, specific organization of energy interrelationships. Unlike Divine Right Order, *Karma* represents dis-harmonious interrelationships of energy within the context of the Primal Order that creates dimensionality. **Karma** can be viewed as **CHAOTIC, incoherent energetic disorganization**, whereas **Order** represents **coherent energetic** organization.

In terms of the **15-Dimensional anatomy** of the **personal Manifestation Template**, the **Karmic Pattern** represents **areas of incoherent energetic disorganization** within the structure of the personal **Scalar Shields**. The 12th-**Dimensional** Level of the personal **Maharic Shield** holds the original **Christos Imprint**, the **Primal Order** *perfect organization* of scalar-wave configurations that links our consciousness and **DNA Template** to the **Rishic Shield Family of Consciousness** through which we entered the **Time Matrix**. While the Maharic Shield holds our original **Perfect Organization of Consciousness**, the Scalar Shields, upon which our lower dimensional **Hova Bodies and Incarnate, Soul and Over-Soul Manifestation Cycles** emerge, often become **distorted** from their original **Primal Order** as held within the **Maharic** and **Rishic Shields**. Human consciousness, in its multidimensional forms, was designed **"In the Image of its Creator"**, having **Free Will** to *apply the dynamics of energetic creation in time* in accordance with **personal intention**, within the great context of the fixed **Natural Energetic Laws of Creation.**

When we use our gift of **Free Will** to direct our energies in a manner **congruent with the Divine Right Order of Universal Unified Field Physics** (which implies co-creative, non-competitive co-evolution for all), the scalar-wave design of our personal **Scalar Shields** remains organized upon the intrinsic design of universal and personal **Primal Order**. Through **embodiment** of Divine Right Order within our personal **Scalar Shields** and consciousness, we know conditions of **perfect health** and **harmony** within the Time Matrix. When our Free Will is used to direct our energies in ways that are incongruent with and non-supportive of **Primal Order**, the **disorganization** of our energetic orientation manifests as literal **Partiki Phasing Sequence distortions** that create **misshapen scalar-wave groupings** within the anatomy of the personal **Kathara Grid, Scalar Shields** and the **DNA Template** built upon them. These misshapen scalar-wave groupings within the Kathara Grid, Scalar Shields and DNA Template are called **MIASMS** and they hold, in **tangible scalar frequency** form, the **disorganized energetic patterns** of our **Free Will choices** through which we have used our energies **in a manner incongruent with Divine Right Order.**

***Miasms* are the *tangible substance* of our *Karmic Pattern* that reflect the areas in which our *consciousness and Scalar Shields* are *distorted* from our original *Maharic Shield Christos Imprint of Perfect Organization*, within the context of *Universal Primal Order*.**

TIME VECTORS AND THE KARMIC-MIASMIC IMPRINT

Miasms, Incarnational Time Vectors, Vector Imbedding and the DNA Template

The Miasmic Imprint within the body and Manifestation Template that holds the personal **Karmic pattern** manifests as **mathematical, geometrical** and **electro-magnetic distortions** in scalar-wave forms, within the Kathara Grid and Scalar Shields, that cause groupings of **Anti-particles** to build up within the **Particle field** of the physical and energetic anatomy. The build-up of **Anti-particles** within the Particle Field blocks the natural flow of energy and consciousness through the Kathara Level-3 **Diodic Points Grid**, and manifests as **malfunctions** within the **Partiki Phasing Programs** within the **Kathara Centers** of the Level-1 **12-Tree Grid** and within the **Signet Star Crystal Seals** of the Kathara-Level-2 **Crystal Seals Grid**. The **3 Levels of the Kathara Grid** set the blueprint for manifestation of the **Scalar Shields, Hova Bodies, Chakra System** and **DNA Template. Miasmic distortions** in the **Kathara Grid** affect **every level of personal manifestation**, from the operation of the **physical genetic code** to the ability of consciousness to successfully embody within the physical form, to the potentials of **Transmutational Dimensional Ascension** and attainment of **Spiritual Actualization**.

***Karma* – the *Miasmic Imprint* – is a *bio-physical phenomenon* of scalar-wave distortion that directly affects the *human DNA*.**

The **incarnations of SELF** that simultaneously manifest into incarnational cycles of divergent space-time placement, within the four densities and 12 dimensions of matter, are all **directly interconnected** through the **Kathara Grid, Scalar Shields** and **DNA TEMPLATE. The Free Will choices** made by other manifestations of ourselves concurrently **existing** in other space-time locations and different manifest body forms, affect the function of our personal **Kathara Grid, DNA Template, conscious awareness and life experience**. The **choices WE make** in our present lifetime directly affect the **Kathara Grid, DNA Template, consciousness** and **life experience** of our **other-time incarnations**. The energetic connection between incarnations of the SELF is an **immediate, living connection** of energy and consciousness. Because our numerous simultaneous incarnations in time are directly, energetically linked to each other via the Kathara Grid and DNA Template, we literally **inherit Miasmic Buildup from each other** on a continual basis. When we make the choice to restore our personal **Imprint for Health**, our **Christos Imprint, as held within our Maharic Shield**, part of these **efforts** must involve **clearing the Miasmic Imprint** that is bleeding through into our personal Manifestation Template from the other incarnations of Self.

Each of our simultaneous incarnations in time represents one **SINGLE VECTOR CONSCIOUSNESS**, one portion of our **Eternal Identity** that experiences 3-Dimensional **linear evolutionary progression** along **ONE TIME VECTOR** (one cycle of Partiki Phasing Sequences). **Each incarnate represents a TIME VECTOR**. The multiple Time Vectors of our Multiple Simultaneous Selves are literally **encoded** within core-scalar-wave programs of our **DNA Template**; this is called **VECTOR EMBEDDING**. To fully heal our Body-Mind-Spirit system by restoring it to its **Organic Imprint for Health**, the **Maharic Shield Christos Imprint**, we need to clear the Miasmic Imprint from our other simultaneous incarnations as it is presently embedded within our DNA Template. **Transmuting the Miasmic Imprint that is embedded in our DNA Template to restore the original perfect Primal Order is called "Clearing the Karmic Pattern" or MULTI-VECTOR HOLOGRAPHIC RECODING.**

REGENESIS OF THE PERSONAL CHRISTOS

Restoring the Organic Imprint for Health and Clearing the Karmic-Miasmic Imprint

Literally **all** conditions of **dis-ease** in the human body and disharmony in the life experience, including the unnatural condition of **death** of the human body form, result from **Miasmic Distortions** within the embodied **Kathara Grid, Scalar Shields, DNA Template** and personal **Inner Templar Complex.** The natural state of **Universal Primal Order** is harmonious co-creative interrelationship of consciousness. Humans can progressively return to their natural condition of **Ordered Perfection** through **re-genesis**, or *re-creation*, of the **Organic Imprint for Health - the Maharic Shield Christos Imprint** - within the Kathara Grid blueprint of the personal Manifestation Template. **Regenesis of the Personal Christos** is a **Multi-Vector Endeavor**, involving clearing the karmic-Miasmic Imprint from a myriad of various simultaneous selves presently evolving in the Time Matrix. The **hard way** to clear the Miasmic Imprint is by **"walking the Karma"**, which means allowing progressive levels of the **Miasmic Imprint** to repeatedly **re-manifest** in the personal life experience, until the **proper applications of Free Will choice** used in congruence with **Divine Right Order** becomes consciously apparent and the **"Right Choices"** are made to re-order the disorganized use of energy that cause the Miasm to form. In our present time, this approach to "clearing the Karmic pattern" is no longer effective as a learning tool by which embodied consciousness teaches itself the etiquette of creation. **The Miasmic Imprint within the collective human species has grown so extensively that the core issues of misapplied Free Will that cause Miasmic Buildup can no longer be consciously identified, and the Miasmic Imprint continues to compound and amplify itself as the same errors of Free Will energy use are perpetually repeated and reinforced.**

The Karmic-Miasmic Imprint is an **ENERGY FORM;** a literal **construct of Scalar-wave frequency** with its corresponding **Anti-particle Manifestation.** As a form of energy, the **Miasmic Imprint** can be dealt With **AS ENERGY, WITH ENERGY,** for the most expedient clearing, Healing and realignment of the **Karmic Imprint.**

The **Karmic-Miasmic** Imprint manifests within the **causal level** of manifestation, **the 3 levels of the embodied Kathara Grid of the personal Internal Templar Complex**, and from the Kathara Level the Karmic-Miasmic Imprint manifests as **misalignment** and **malfunction** within all levels of the Body-Mind-Spirit system. To clear the Karmic Imprint **AS ENERGY, WITH ENERGY,** its disorganized scalar-frequency patterns must be realigned from the **Core Template Kathara Grids**, the **causal level** of miasmic manifestation. Restoring the **Maharic Shield Christos Imprint** to the personal **Kathara Grid** takes time and **precise applications of frequency re-ordering** in all levels of the Body-Mind-Spirit system. The first step to **Regenesis of the Personal Christos** is the **MAHARIC RECODING PROCESS.**

MULTI-VECTOR HOLOGRAPHIC RECODING

Recoding the Time Vectors of the DNA Template and the DNA Fire Codes

The process of regenerating the **Christos Imprint** within the **Kathara Grid** of the human body is a **MULTI-VECTOR** undertaking. A **Vector** is a **set cycle of vibrational-oscillation rhythm** that creates a **specific repeating Partiki Phasing Rhythm** and **Flash Line Sequence**. Each individual incarnate self in time holds within the electro-magnetic programs of its embodied **Kathara Centers** the precise **Partiki Phasing Rhythms** that correspond to its particular placement within the planetary **Time Cycles**. The **Time Vector**, or **Flash Line Sequence**, that creates one linear **Event Horizon**, is literally encoded and actively operational within the **Kathara Grid** and **DNA Template** of each incarnate identity. In the process of restoring the **Organic Integrity** to the personal Manifestation Template, the dormant **Partiki Phasing Rhythms** that correspond to one's **other-time incarnates** are progressively brought into activation and realigned with the Christos Imprint of the **Maharic Shield**.

The **Partiki Phasing Flash Line Sequence programs** within the embodied **Kathara Centers** manifest within the **DNA Template** as the **GENETIC TIME CODES**, or **Fire Codes** of the DNA. In restoring **Maharic Order** to the personal **Kathara Grid**, the **12 Dormant Fire Codes** of the DNA Template will be slowly but progressively brought into **activation** through the 11th - 12th-Dimensional Frequencies of the **Maharic Shield Mahara Hova Body Current**. Activation of the **DNA Fire Codes** creates a reciprocal release of the **Signet Star Crystal Seals** and **Cranial-Sacral Kundalini Seals** within the **Kathara Level-2 Crystal Seals Grid**, progressive activation of the dormant **Kundalini energies** and **Merkaba Vehicle Phases**, merger of the **Hova Bodies** and embodiment of the higher dimensional **Spiritual aspects** of conscious awareness. The process of recoding the multiple time vectors within the DNA Template - **Multi-vector Holographic Recoding** - is a process of progressive **WHOLE-BEING HEALING** that is achieved through **consistent application** of the **MAHARIC RECODING PROCESS**, and expedited through complimentary processes of **DNA Template, Kundalini** and **Merkaba Vehicle** activation. Level-1 Kathara Healing introduces the operational mechanics of the **Maharic Recoding Progress**.

The Maharic Recoding Process

FOR MULTI-VECTOR HOLOGRAPHIC RECODING

The 4 Primary Elements of Action

1. **The Maharic Seal and the Liquid Light Cleanse** (Technique # 2)
2. **Opening the Healing Channels** (Technique # 3)
3. **Amplifying Inner Audio-Visual and Kathara Scan** (Technique # 4)
4. **The Maharic Infusion** (Technique # 5)

The **4 Primary Elements of Action** to begin the **Maharic Recoding Process**, through which **Multi-Vector Holographic Recoding** of the **Morphogenetic Field Manifestation Template** is achieved, begins realignment of the Core Manifestation Template **Kathara Grid Levels**, the **Scalar Shields**, **Hova Bodies**, **Axi-A-Tonal Lines** and **DNA Template** with the **Primal Order** perfect scalar-wave pattern of the personal 12th-Dimensional Pre-matter Hydroplasmic **Maharic Shield** - the **Christos Imprint** and **Organic Imprint for Health**. Also begins activation of dormant **DNA Strand Templates**, **Kundalini energies** and the **Merkaba Vehicle** for **Transmutational Dimensional Ascension**.

TECHNIQUE # 4

AMPLIFYING INNER AUDIO-VISUAL AND KATHARA SCAN

1. Place RIGHT palm (*electrical-transmitting hand*) over the 5th Kathara Center at the Navel, and place the LEFT palm (*magnetic-receiving hand*) over the *back of the right hand* (to block 3rd Dimensional energies from entering the rear of the right hand chakra). INHALE energy from your Maharic Shield - the *Maharic Carrier Wave* - into your Doradic Sphere at the *4th Heart Chakra*. EXHALE and run the *Maharic Wave* down the *Doradic Cords* in the arms and into the *Doradic Balls* in the palms. Inhale, then EXHALE, using the exhale breath to *push* energy from the *Doradic Sphere*, down the *Doradic Cord* in the RIGHT arm, through the RIGHT Doradic Ball and into the 5th Kathara Center at the *Navel*. Run several breaths of *Doradic-1 Current into the 5th Kathara Center* at the Navel, until a mild tingling sensation is felt.

2. Place the LEFT palm over the 5th Chakra at the *Throat*, with the *Right palm* covering the back of the *LEFT hand*, and INHALE the Doradic-1 Current up from the *5th Kathara Center* at the Navel, into the Seed/Center of the 5th Chakra. EXHALE and *expand* the Doradic-1 frequency into the *5th Chakra spiral*, allowing the magnetic current from the LEFT hand to draw the energy out through the spiral. As you EXHALE, slowly move the hands forward, away from the body and the 5th Chakra.

3. Repeat the same process over the 6th Kathara Center, placing the RIGHT palm over the *6th Kathara Center* below the Right Shoulder, with the *Left palm* covering the back of the *RIGHT hand*. INHALE/Draw energy up from the *Maharic Shield*, into the *Doradic Sphere*. EXHALE energy down the *Doradic Cords* into the *Doradic Balls*. Inhale, then EXHALE energy down the *RIGHT Doradic Cord* through the *RIGHT palm* and into Kathara Center 6. Run several breaths to energize the *6th Kathara Center*. Then move LEFT palm over the *6th Third Eye Chakra* in the forehead, with Right palm behind. INHALE the Doradic-1 Current from the *6th Kathara Center* into the Seed/Center of the *6th Chakra* and EXHALE the energy into the 6th Chakra spiral while drawing it through with the magnetic current from the LEFT hand. The 6th Sense-Audurea, which provides inner audio perception, and the 7th Sense-Tristel, which provides inner visual perception are now energized and amplified in preparation for Kathara Scan.

4. Close your eyes and focus your attention in a single point on the *inside of your forehead*. Inhale, and as you EXHALE run your attention outward *through your 6th Chakra spiral*, into the 6th Chakra Spiral of your Client. Move your attention into the center of your Client's brain, the Pineal Gland. Inhale, and EXHALE moving your awareness down from the Client's Pineal, through your *Client's Central Body Current* and down into the Earth's core. INHALE and move your awareness back upward to your Client's Maharic Shield, and spread your awareness outward through the *Maharic Shield* with the EXHALE. On the *inside of your forehead*, imagine the image of the Kathara 12-Tree Grid. INHALE energy from the Client's *Maharic Shield* and EXHALE the energy out into the *12-Tree image*. Breathe gently for a moment, observing *the 12-Tree Grid*, which will register tones of white, black and ranges of gray in between. If you cannot yet visualize, you will still get a sense of the 12-Tree image and the areas of dark and light within it. The dark areas represent layers of the MIASMIC BODY, areas of the *karmic imprint* that need clearing when you run *Technique # 4: The Maharic Infusion*. Remember the areas of the Client's Kathara that need clearing. Inhale, and open your eyes on EXHALE.

TECHNIQUE # 4: Amplifying Inner Audio-Visual and Kathara Scan

Activate Maharic Seal and Open Healing Channels. (Techniques # 2 and # 3 first)

1. **RIGHT Palm** on **5th Kathara Center**, in **Navel**. Breathe **Maharic Current** up from personal **Maharic Shield** and into **Doradic Sphere** at **4th Chakra**. Push **Maharic-Doradic-1 Current** down **Doradic Cords** and into **Doradic Balls** at **Palm Chakras**. Push Current from Doradic Ball in **RIGHT Palm** into **Kathara Center # 5**, in **Navel**.

2. **LEFT Palm** on **5th Throat Chakra**, cover back with **Right Palm** (Reverse Standard Hand Position). Inhale **Doradic-1 Current** up from **5th Kathara Center**, in **Navel**, to center of **5th Throat Chakra** and expand Current into **5th Chakra Spiral**, with **Left Palm Chakra** drawing current out of the **5th Chakra Spiral**.

3. **RIGHT Palm** on **Kathara Center # 6**, below **Right Shoulder**, cover back with **Left Palm**. Push **Maharic-Doradic-1 Current** from **Doradic Ball** in **RIGHT Palm** into Kathara Center # 6. **LEFT Palm** over **6th, 3rd Eye Chakra**, cover back with **Right Palm** (Reverse Standard Hand Position). Inhale Doradic-1 Current up from Kathara Center # 6 to center of **6th, 3rd Eye Chakra** and expand Current into **6th Chakra Spiral, with LEFT Palm Chakra** drawing Current out of **6th Chakra Spiral**.

4. **KATHARA CLIENT SCAN: A.** Place **Point of Attention** inside **forehead** and run attention out of **6th Chakra Spiral** and into the **6th Chakra Spiral of Client**, then into **Client's Pineal Gland. B.** Run attention down **Client's Central Vertical Current** and into **Earth's Core**, then back up to **Client's Maharic Shield**. Expand attention out into **Client's Maharic Shield. C.** Visualize image of **Kathara 12-Tree Grid**, inhale energy from **Client's Maharic Shield** and exhale it into image of **Kathara Grid. D.** Observe for **Dark Miasmic Buildups** in image of **Kathara Grid**; run extra healing Current into these areas of the Client's Kathara Grid during the **Maharic Infusion**. (Technique # 5).

Personal Kathara Scan: On **Step 4** run attention down your **Central Vertical Current** then back up to your **Maharic Shield** and out into your **Maharic Shield**. Breathe energy from your Maharic Shield into image of **Kathara 12-Tree Grid** and observe for **Dark Miasmic Buildup** areas to clear during the ***Maharic Seal and Liquid Light Cleanse*** technique. Send extra **Maharic Current** to these areas during ***Liquid Light Cleanse***.

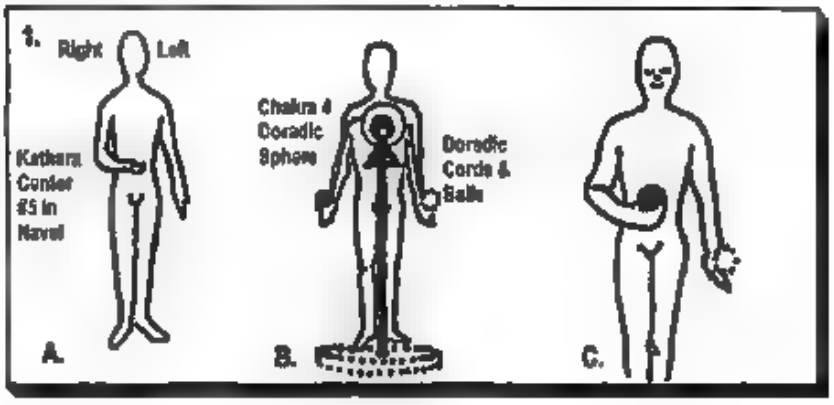
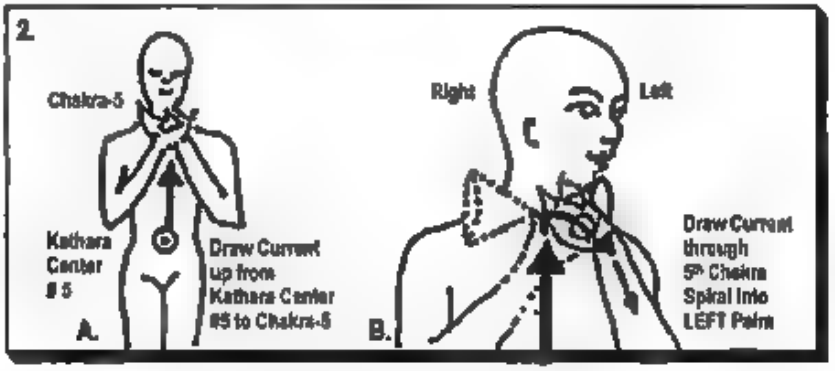
TECHNIQUE # 4: Amplifying Inner Audio-Visual and Kathara Scan

1.
A. RIGHT Palm on 5th Kathara Center in Navel.
B. Breathe Maharic Current up from personal Maharic Shield to Doradic Sphere and down Doradic Cords to Palm Chakras.
C. Push Current from RIGHT Doradic Ball into 5th Kathara Center.



2.
A. LEFT Palm on 5th Chakra, cover back with RIGHT Palm.
B. INHALE Doradic-1 Current up from Kathara Center # 5-Navel to 5th Chakra and expand Current into 5th Chakra Spiral.



A. RIGHT Palm on Kathara Center #6 in Right Shoulder, cover back with Left Palm. (B) LEFT Palm on 6th 3rd-Eye Chakra, INHALE Current from Kathara Center # 6 into 6th Chakra Spiral and into LEFT Palm. C. Kathara Scan: (a) Run your Attention from your 6th Chakra to Client's 6th Chakra and Pineal Gland. (b) Run [redacted] Current to Earth's Core & into Client's Maharic Shield. (c) EXHALE energy from Client's Maharic Shield into Image of Kathara 12-Tree Grid. (d) Scan grid for Dark Areas of Miasmic Buildup for clearing with Maharic Infusion.

TECHNIQUE # 5

THE MAHARIC INFUSION – CLIENT FACILITATION

Prior to using this technique you should have completed the following: 1. Positioned *MENTOR* over your Right shoulder to assist *(Tech. # 1.Awakening the Mentor and the 6th and 7th Senses). 2. Activated your Maharic Shield, Maharic Seal and run the Liquid Light. (Tech. # 2: The Maharic Seal and the Liquid Light Cleanse.) 3. Activated your Doradic Current, Inner audio/Visual and Client Kathara Scan (Tech. #3. and #4)* 4 Opened the *Kathara Lines* for you and your Client (*Sequence-I Kathara Points*).

Place Client in a reclining position with shoes off:

1. Position yourself at the **feet** of the reclining Client. Place **RIGHT palm** *12" below Client's feet* at the **Maharic Shield**, left palm over the back of Right hand.

2. Visualize the **Hierophant symbol** on the *inside of your forehead.* Inhale, then **EXHALE**, moving the *Hierophant* down to **Chakra 4** and into the **Doradic Sphere** with the exhale breath. **INHALE** energy upward from your **Maharic Shield** and into the Doradic Sphere. **EXHALE** the **Hierophant** with *Doradic-1 current* down the **Right Doradic Cord** and into the *Doradic Ball* in the **Right palm.**

3. Inhale, then **EXHALE** the *Hierophant and Doradic-1 current* into the *center* of the **Client's Maharic Shield**. Visualize the *Hierophant spinning* in the center of the Client's Maharic Shield until you sense a **mild shift** in the energy below the Client's feet. The shift indicates that the Client's *Maharic Shield* has activated and the *Maharic Pillar* has "popped" vertically upward from the Shield — the Client's bio-energetic field now carries the **Maharic Seal.**

4. **INHALE** energy from your *Maharic Shield* into your Doradic Sphere, then **EXHALE** the energy down **both Doradic Cords,** into the Doradic Balls in the palms. Visualize the **12-Tree Kathara Grid** *within the Client's body.* You will now run the **Maharic Infusion** through the *small chakra points in the feet.*

TECHNIQUE #5: Continued
THE MAHARIC INFUSION

5. Place your **Right palm** *about 1" (In Client's Etheric Field)* from the *bottom* of the **Client's left foot** and your **Left palm** *about 1" (In Client's Etheric Field)* above the *top of the foot*, centered over your *Right palm*. Imagine that you are lining up the *small vortex* beneath the ball of the Client's foot (which extends *through the foot* to come out on top), with the *small chakras* in your palms. Inhale, then **EXHALE** energy from your **Doradic Sphere** through the **Right Doradic Cord**, **Right palm**, and *into the **sole** of the client's foot*. Visualize the **Green-Violet-Silver energy** traveling up the **Kathara Line on the** *left side of the body*, through the *4th, 7th and 10th Kathara Centers*. Continue **EXHALING** energy into the **Left foot** until you begin to feel a bit of **fuzzy energy** coming out of the foot toward your palm. This indicates that the *Kathara Line* has *reached its energy-holding capacity*. **Repeat** the process on the **Right foot**, running energy through the *Kathara Line on the right side of the body and the 3rd, 6th and 9th Kathara Centers*.

6. You will now clear and align the **Central Vertical Kathara Line** to complete the **Maharic Infusion. Move to the Client's head**. Place **Right palm** over the client's **10th Chakra**, 6" above the head, the location of the *12th Kathara Center*. Place your *Left palm* over the back of your Right hand. **INHALE** energy from your **Maharic Shield** into your **Doradic Sphere**, then **EXHALE** energy down the **Right Doradic Cord**, into the **Right palm** and through the **10th Chakra**. Visualize the energy moving down from the *10th Chakra* into the **7th Chakra**, to the **Pineal Gland** (11th Kathara Center), then *rapidly* down the **Central Body Current** and **Central Kathara Line**, through *Kathara Centers 8* (Thyroid), *5* (Navel), *2* (at Base Chakra), and into *Kathara Center 1* at **Earth's core**. Continue **EXHALING** energy into the **10th Chakra** and **Central Kathara Line** until you feel **fuzziness** against your *Right palm*, indicating that the *Kathara Grid* has reached its *energy-holding capacity*.

7. *Before releasing* the **10th Chakra**, direct a bit of additional energy through the **Central Kathara Line** into areas that revealed **dark spots** during the *Kathara Scan*. Visualize the areas *getting light* as the energy runs through them. **You may add other healing modalities at this point, if desired**. Close by using the **Sequence-2 Kathara Points** to close the Kathara Lines and *revitalize the body*. Allow client a few moments to recline before ending session.

SYMBOL SHORTHAND

THE MAHARIC INFUSION – CLIENT FACILITATION

Preparation A. *Technique #1* - Place MENTOR over your Right Shoulder. B. *Technique #2* - Activate your Maharic Shield and run Liquid Light Cleanse. C. *Technique #3* - Activate your Doradic-1 Current. D. *Technique #4* - Amplify Inner Audio-Visual and run Client Kathara Scan E. *Sequence-1 Kathara Points* massage on Self and Client to open Kathara Lines.

Place Client in reclining position with shoes off

1. Stand at Client's feet, place **RIGHT Palm 12" below Client's feet at Client's Maharic Shield, left palm** over back of Right hand.

2. See **Hierophant Symbol Code inside your forehead, EXHALE** Symbol down to **Chakra-4 Doradic Sphere. INHALE** energy up from your **Maharic Shield into Doradic Sphere. EXHALE** *Hierophant Symbol with Doradic-1* Current down **RIGHT Doradic Cord into RIGHT Doradic Ball in RIGHT Palm**

3. **EXHALE** Doradic-1 Current and Hierophant Symbol into Center of **Client's Maharic Shield via Right Palm Doradic Ball and spin Hierophant** until sensed **Energy Shift of Client's Maharic Seal.**

4. **INHALE** Current from your Maharic Shield to Doradic Sphere and **EXHALE** Current down both **Doradic Cords** into **Doradic Balls.** See **Kathara 12-Tree Grid** within **Client's body** and begin running the ***Maharic Infusion*** through the **Secondary Chakras** in **Client's feet.**

5. **RIGHT PALM** about 1" (in Client's Etheric Field) above the bottom of **Client's LEFT FOOT, LEFT PALM** about 1" (in Client's Etheric Field) above top of **Client's LEFT FOOT,** both **centered** over **Client's LEFT FOOT Secondary Chakra. INHALE** Maharic energy into Doradic Sphere and **EXHALE** Doradic-1 Current into Client's **LEFT KATHARA LINE** and through Kathara Centers **#4, #7 and #10. EXHALE** Doradic-1 Current into **Client's LEFT FOOT** until "Fuzzy" resistance emerges from Client's foot Chakra. **REPEAT PROCESS** on Client's **RIGHT FOOT,** running Doradic-1 Current **through the RIGHT KATHARA LINE and Kathara Centers # 3, #6 and #9.**

6. Stand at Client's Head. **RIGHT PALM** over **Client's 10th Chakra** (6" above head - the 12th Kathara Center), **LEFT Palm** over back of Right hand. Fill Doradic Sphere with Maharic Energy, then **EXHALE** Doradic-1 Current down **RIGHT DORADIC CORD** and Palm and into **Client's 10th Chakra.** Run Current from **Chakra-10,** to **Crown Chakra-7, Pineal Gland,** rapidly down **Central Vertical Current and Kathara Centers #8** (Thyroid), **#5** (Navel), **#2** (Chakra-1) and **#1** (Earth's Core Chakra 13). Continue exhaling Current until "Fuzzy" resistance emerges from Client's 10th Chakra.

7. Direct **additional energy** through Client's **CENTRAL KATHARA LINE** to clear **DARK AREAS** of **Kathara Grid** located in **Kathara Scan.** Add any additional healing technologies following Client's Maharic Infusion. Close with **SEQUENCE-2 KATHARA POINTS** massage. Allow Client to remain relaxed in reclining position for several minutes following Maharic Infusion.

MOTIVATION TO HEAL

Healing Facilitation is an art and a science but, most importantly, healing facilitation is an **interrelationship of SOULS**. Egotistical objectives have no place in quality Healing Facilitation. The decision to participate in Healing Facilitation should not be motivated by a desire to prove you have "special abilities" to boast about, nor with the primary motive of gaining **financial profit** from Healing Facilitation endeavors. The energies exchanged in healing facilitation are **FREE TO ALL**, a **DIVINE GIFT** from the universe, and they belong to all beings equally. A facilitator cannot rightly request payment from a client for providing what the client already possesses - **Natural Healing Energies.**

In Divine Order, it is appropriate for the facilitator to accept **payment** for the personal **time and energies** invested in **learning and developing facilitation skills**, and for the time spent in active facilitation. It is important that the facilitator understand this subtle difference of **"fair exchange of energy"**. If the facilitator mistakenly assumes they are requesting payment **for healing energies** they supply, they are inadvertently misrepresenting themselves to the client. The client possesses personal healing energies and does not need to purchase such energies from others. The **time and expertise** offered by the facilitator to assist the client in stimulating their own healing energies is a service worthy of reciprocation. If a client chooses such assistance, the **facilitator** has the **legitimate right** to honor their own worth as a being by **requesting reasonable payment or barter** in **fair energetic exchange** for the service they offer. However, if a client is in need of healing facilitation, and has no means of fair exchange at that time, the facilitator should honor the worth of the client by providing assistance of equal value **free of charge.**

In spiritual principal, "making money" is not a legitimate motivation for participating in Healing Facilitation. Seeking to find one's personal **"Divine Right Livelihood"** in **sincere service** to others, which might possibly involve providing client service in Healing Facilitation, IS a spiritually legitimate motivation. Healing Facilitators will discover that when they put the objective of **GENUINE SERVICE TO THE DIVINE** as the **first Priority**, rather than the pursuit of personal monies or status, the **Universe Will Provide.** Facilitators who enter the healing field with hidden personal motivations incongruent with **Universal Laws of Energy**, which imply **equality, respect, reverence** and **balanced exchange of energy** between all beings, will find difficulties emerging in their lives as the personal **SOUL** sets up lessons through which **Universal Principles** become more apparent. There is only **ONE TRUE MOTIVATION** for participation in Healing Facilitation - **the motive is LOVE.**

POSTURES OF LOVE

The Energy-Reality of LOVE

In terms of **Universal Physics** Love is an **energy reality** a **STATE OF VIBRATIONAL HARMONIZATION**, or **CO-RESONANCE OF FREQUENCY** that allows an **energetic bridge** to build between individuals. It is through this energetic bridge of frequency that one can assist in running healing energies that will facilitate the healing process of others. Without the sentiment and **FREQUENCY OF GENUINE LOVE**, one cannot energetically facilitate the healing of another. **LOVE is the essential ingredient in healing**, for it allows the opening of facilitator and client's bio-energetic fields to the **Universal Frequencies** of the inter-dimensional spectrum. Cultivating the ability to embrace and hold the frequencies of Universal or **OMNI-LOVE** is the responsibility of any true healing facilitator. The emotionally experienced reality of the ***frequency of Love*** takes many forms in healing facilitation it is important to assess the most appropriate form of love to engage with each individual client.

Soft Love

Many people respond well to "**SOFT LOVE**", the kind, gentle, nurturing, soothing love often displayed by mother's comforting their infants. Soft Love works well with clients who possess some degree of spiritual maturity and who have cultivated the ability to hold some degree of a love frequency within themselves. Soft Love is the appropriate form of love for clients possessing the maturity to accept personal responsibility for themselves, their actions and their emotional reaction patterns, and who do not attempt to manipulate, drain energies from or place blame on others. Soft Love is characterized by **engaged detachment** of the facilitator and is demonstrated through soft-spoken, calm and sincere words and actions that are intended to place the client at ease

Soft Love is always built upon sincerity, kindness respect and a genuine desire to see the client thrive and prosper. Developing the ability to carry the Soft Love frequency takes time, attention and practice and requires that the facilitator works to heal personal **internal conflicts**, unresolved issues from **childhood** and **karmic** reaction patterns that disrupt the Soft Love vibration. Soft Love is a **vulnerable love** in that it necessitates one to show the self as it is, honestly expressing personal feelings tempered with kindness Soft Love is **not approval seeking**, it is rather genuine, honest and **self-generated** Soft Love requires **love** and **respect** of the self and others mutually. It is built upon a level of spiritual maturity in which it is understood that personal value is implied by the fact of existence and is not determined by the approval or **validation** of others outside of the self and the personal relationship to the Divine. The ability to carry the Soft Love frequency emerges through **spiritual integration**, **personal healing** of internal conflicts and power struggle issues and **intentional application of kindness and mindfulness**

Tough Love

Soft Love does not facilitate healing on all occasions. Certain clients who come to a facilitator for healing assistance bring with them a great need for **emotional healing** and development of spiritual maturity. They may demonstrate demanding, arrogant or pushy attitudes and refuse to accept responsibility for their personal actions and resulting consequences. Most often such individuals carry deep wounds from childhood or from re-incarnational bleed-through. Because they are **wounded within**, they have not yet developed the self-control or maturity necessary to treat themselves or others with kindness, respect or love.

Individuals who display unreasonable behaviors or attitudes pose quite a challenge to the love-based healing facilitator. If they are approached with Soft Love, the facilitator will often find themselves as a scapegoat for the individual's personal problems; may have their energies and time excessively **drained** by such clients and might possibly be subjected to outright verbal or physical **abuse**. Clients exhibiting such personality traits are struggling within themselves to **gain control** over the various **conflicting portions** of their personal energies, and they tend to objectify this internal conflict resolution in the form of **POWER STRUGGLE** with others.

Personalities trapped within cycles of subconscious self- or other-abusive attitude patterns need **love** more than anyone, but most often their behaviors push others away. Intrinsically the behaviors serve to keep the individual sheltered from **self-exposure**, they do not allow others close enough to inspire feelings of vulnerability or lack of self-esteem. Often such personality traits effectively keep the individual from seeing themselves and the inner pain and conflict from which they attempt to hide. To facilitate healing in such individuals, without succumbing to their manipulation, aggression or abuse, requires that the facilitator adopt a posture of **TOUGH LOVE**. In Tough Love, the facilitator clearly establishes **personal boundaries** in their own mind as to what treatment they will and will not accept. If the client crosses those boundaries, the facilitator **assertively addresses the issue** with the client, requests that the offensive behavior cease, and provides **CLEAR CONSEQUENCES** as to what will occur if the offense continues. The Tough Love approach is rendered from a base of **Soft Love** and **Omni-Love**, but it is strengthened with **Self Love** on behalf of the facilitator. The facilitator recognizes that they are only assisting the client to continue with the self-destructive patterns by condoning or allowing offensive behavior, and chooses to **love the client enough to confront the pattern** so that it may begin to release. In **lovingly**, **calmly**, but **firmly confronting** poor behavior and **setting clear boundaries** and **consequences**, the facilitator assists such clients to temporarily find a new pattern of action because the old one does not work for manipulation in this instance. The Tough Love approach frequently requires facilitators to demonstrate that they hold their own power, even in the face of client disapproval. **Tough Love** is an ability of **personal empowerment** worth cultivating for personal and client healing.

Self Love

In healing facilitation, **Love** is the essential ingredient. All love begins with the **Divinity Within the SELF**. You will be able to transmit the frequency of love to others in direct proportion to your ability to hold the frequency of love within yourself. If you do not recognize your intrinsic value as a **Divine Being**, and seek validation of your existence through external sources such as achievements, status or other-approval, you will likewise project these sentiments into your love relationships with others. If a client does not meet the external standards of validation that you have placed on yourself to determine your personal worthiness of love, you will have difficulty not falling into **judgment** of the client.

Judgment and **love** cannot transmit through the human body at the same time. Judgment creates an **energy reality** of separation or **Non-Resonant Frequencies** of energy, whereas Love creates the **Co-resonance of Frequencies** needed for open flow of Universal Energies for healing facilitation. If one can realize that **LOVE IS THE ONLY CONSTANT** and that all conditions of judgment change, it is easier to cultivate the innate ability to fully hold the frequency of Love. Though **ASSESSMENT** of conditions, actions or attitudes is useful and necessary, such assessment can be rendered through "**separating the person from the action**". You can judge the effectiveness or value of the **action or idea** without assigning a **value-judgment** to the **person** to whom it is attached.

If the healing facilitator can feel love reverence, respect and honor for the **Divinity Within Themselves**, they will also transmit these qualities of **excellence in Love** to the client. The quality of Love brought into the healing facilitation experience will directly affect the success of healing assistance given. **Love the Self** and know that all beings possess an **unalienable worth and value** as a living part of the **Divine**. Begin to cultivate this awareness within your personal life and you will greatly increase your effectiveness as a healing facilitator. Love, honor and respect yourself, your feelings, your dreams and your desires, so you may better love those you wish to serve.

Love others as you would love the Self,
and love the Self as you would like to love others.

The Illusion of Martyrdom

People who love themselves do not buy into the idea that they must play "**martyr**" to others in order to be of service. **Martyrdom** implies a belief that you are **lacking in worth,** or must **earn** your worth in being, by relinquishing that which feels of most value to you. It also **undermines expression of the God-Presence** within others by assisting them to believe that you are so vital to their well-being that they cannot function without you. In truth martyrdom is an **expression of EGO** most often used by people who feel that they are **personally insignificant** in the eyes of the Divine, in order to **give themselves significance** and a **sense of personal power and purpose** for being. People who actively *know* the intrinsic **Spiritual Divinity** within themselves treat that Divinity with honor and respect and do not allow or need others to **depreciate the Self** and its desires in order to prove the existence of a *belief* in personal Divinity.

Martyrdom **does not facilitate healing** within the self or client as it reinforces the **erroneous belief** in intrinsic **personal unworthiness**, which exists in **direct contradiction** to the **innate God-Presence** that exists in every living thing. Within the energy dynamics of **Universal Law,** natural **balance** is achieved in the flow or **GIVING,** and back-flow or **RECEIVING** of energy. In human spiritual relationships, this **balance of energy** is achieved by **mutually valuing** each person in a relationship, through which the natural giving and receiving of energy can be exchanged unimpeded. **Martyrdom impedes the natural flow of energy.** The martyr customarily gives more than receives, which progressively diminishes the martyr's ability to keep open a perpetual flow of energies from the Divine because the martyr does not allow the Self to receive.

Martyrdom is not a demonstration of Love,
It is an exhibit of Love Deprivation.
The remedy for Martyrdom is
OMNI-LOVE.

OMNI-LOVE: Fully Engaging the Love Vibration

The greatest love that can be embodied in human form is **OMNI-LOVE**. OMNI-LOVE is a pure state of Vibrational Frequency Co-resonance between the human identity and **12 dimensions** of reality within which the human anatomy is couched. Omni-Love is expressed in human form as **Christed Love** or Christos Consciousness, the **12th-Dimensional Love** of the **Maharic Level of Identity**.

Christos Love is a state of full Frequency Resonance with **everything existing** in the many universes contained within **12 Dimensions** of the 15-Dimensional System. It is a **transcendent love** that is attached to no thing, but is **AT ONE** with **ALL THINGS** in a state of perpetual **Engaged Detachment**. Through Christos Omni-Love, the **Self** is known as an **extension of God**, or the Divine Source: a temporary mask of form worn by the **ONE CONSCIOUSNESS** of the Cosmos. All things and beings are known as **simultaneous expressions** of the **ONE-SELF** that is God-Source. From this state of transcendence in love, all activity is understood to **exist within** the reality of LOVE, and all conflict and strife are viewed as the ONE- SELF progressively expanding **the ability of its expressions to carry the frequencies of energy** that constitute ONE-LOVE, a state of **total vibrational Frequency Co-resonance** with the **Cosmos.**

Activation of the full **12-Strand Silicate Matrix DNA Template** and full integration of the **Mahara Hova Body Avatar Identity** allows for the experiential embodiment and transmission of Christos-Omni-Love. **Embodiment of Omni-love is the goal toward which human evolution moves forth**. Omni-Love is Soft, Tough, and Enduring, honoring **Self**, **Other** and the **Divine** simultaneously. It is the **strongest healing force** of frequency in the four Harmonics of Matter Density. Christos-Omni-Love is the **fulfillment** of the **Christos Principle**. Strive to bring Omni-love into your life, and personal and client healing facilitation, and you will assist your higher identity levels to create transformation! Omni-Love is the **natural structure** of reality. AWARENESS of Omni-Love is cultivated through intention and appropriate use of **personal free will choice** in congruence with the **natural Laws** of the **Unified Field Physics of Consciousness and Creation.**

Through living in Omni-Love, all moments are known as Sacred, all beings are known as Blessed, and Life becomes an ecstatic study in Reverence for Existence.

OMNI-LOVE EXERCISE TO AMPLIFY HEALING FACILITATION

EXERCISE

The MAHARA SPACE COMFORT-TOUCH

1. **EXHALE Hierophant Symbol** from behind forehead, down *Central Body Current*, into **Earth's Core** (Chakra 13), then **INHALE** *Hierophant* back up to **Your Maharic Shield**, 12' below the feet. *Spin the Hierophant to activate* **Maharic Shield** and **Maharic Seal Pillar**. **INHALE** energy up from Your *Maharic Shield* into your **Doradic Sphere** at *Chakra 4*.

2. Breathe slowly and deeply while visualizing a small faceted **Crystal Sphere** in the center of your *Doradic Sphere at Chakra 4*. This is the **Holographic Crystal Sphere**; it represents the station of your inner **AVATAR** identity - this is the **MAHARA SPACE**. Focus your consciousness within the *Holographic Sphere* and feel its reality around you, as if your body is encased within the Holographic Sphere.

3. Observe the interior of the Sphere as a **pale Silver-White mist**. Within the mist now envision a golden **treasure chest**- a treasure you had left for yourself long ago to one day reclaim. This represents your **Inner Arc of the Covenant**- *a doorway to reclaiming your ancient immortal heritage*. Mentally command the lid of your inner *Arc of the Covenant* to lift. As the lid rises, **pale rainbow colored light** fills the interior of your Holographic Sphere. Notice now that within the golden box there is a gleaming **Silver Sword**, the Silver Rod of Power that will enable you to more quickly evolve to your eternal state of being.

4. Mentally make the **Silver Sword** *rise from the golden box*, floating above the box in a vertical position. Now call to mind the image of your body *as it sits within the physical room*. Imagine *the Silver Sword positioned above the body's head*, directly over Chakra 7. **EXHALE** and steadily lower the **Silver Sword** through the *7th Chakra and down the Central Body Current, through the Maharic Shield and down into Earth's Core*. Observe the Silver Sword turn into a *Pillar of Pale Silver Light with pale rainbow colors flashing through it*. The **Rainbow Pillar** now *surrounds and runs through your body, raising its frequency while lowering its vibration*, lifting your body cells into a **less-dense state of matter**. Feel your body growing lighter and lighter as the Rainbow Pillar slows the spin-rate of your matter particles, making you more and more electric - more light.

5. As you feel the sensations of your density lessening, **Imagine that your body is beginning to glow with Pale Silver Light** - the *Pre-matter Liquid Light* of dimensions 10, 11 and 12. Feel the *features of your face and the contours of your body begin to melt into a* Silver, 2-dimensional fluid body form. The form of the body still remains but it has been returned to its **first-density state** - the **Silver Liquid Light holographic** form of the avatar identity. Know yourself now as this avatar identity and feel the essence of pure love and eternity flow through you. Know yourself as this essence of **Divine Love and Eternal Light**.

6. Now **INHALE** and draw the **Rainbow Pillar** into the **Holographic Sphere** at *Chakra 4*, and visualize the base pulling up from Earth's Core and the portion above your head simultaneously *contracting into the Holographic Sphere*. **EXHALE** the energy of the *Rainbow Pillar* fully into the *Holographic Sphere* and observe the **Holographic Sphere** become a radiant Silver ball of Liquid Light stationed with your **Doradic Sphere** in the Heart Chakra.

EXERCISE: Continued
THE MAHARA SPACE COMFORT-TOUCH

7. **You may now transmit the frequencies of the 4th-Harmonic, dimensions 10, 11 and 12, to serve as a healing force for others.** You may transmit this energy into your environment directly through the **4th Heart Chakra**, where it will enter the Unified Field at the 4th-Dimensional astral plane. You may use the breath to move the Holographic Sphere down into the **3rd Chakra** for *3rd-Dimensional transmission into the Earth's atmosphere and the Mental Body* levels of people's Bio-energetic field. You may transmit through **Chakra 2** into the Telluric or *Elemental Kingdom* of the planet and into people's 2nd-Dimensional *Emotional bodies*. Or you may transmit the frequencies of the Silver Sword through the **1st Base Chakra**, for *sacred bonding in intimate relationship, or to raise the frequency and lower the vibration of the molecular and sub-atomic fields around you*. To transmit the frequencies of the Silver Sword through the chakras, simply use the **EXHALE** breath to move the Silver Light "charged" **Holographic Sphere** down to lower chakras, inhale and use the next **EXHALE** to *push* the *frequency outward* from the selected chakra into the environment. Use the **INHALE** breath to move the *Holographic Sphere* up through the chakra system. *Always move the Holographic Sphere up or down along the Central Body Current, to which the core of each chakra is attached.*

8. **You may also transmit the frequencies of the Silver Sword through APPLIED TOUCH - THE COMFORT TOUCH** - to amplify specific healing facilitation functions and to establish a more harmonious rapport with other people and the nature kingdoms. Simply visualize the Silver Liquid-Light charged **Holographic Sphere** at the center of your **Doradic Sphere** in the **4th Chakra**. Activate your **Doradic-1** current via the **Maharic Shield and Seal**; then visualize the *Silver Liquid Light from the Holographic Sphere combining with the Green-Violet-Silver Doradic-1 current* as you **EXHALE** the current into the **Doradic Cords** in the arms and into the **Doradic Balls** in the palms. *This application is especially useful to help Clients relax during sessions, or to comfort others when they are in a state of stress, unbalance or illness.* Once your current is moving into the Doradic Balls, **EXHALE** the current through the **Right palm**. *Place the Right palm gently and briefly over the Client's rear Chakra 2, or touch them gently on the left shoulder.* The amplified *Doradic-1 current* will move into the 4th-Dimensional *astral-body field*, and move its way into the *mental, emotional* and *physical bodies* from there. **The COMFORT TOUCH of the MAHARA SPACE can be applied to infants, children, older persons, animals and plants to comfort them and support their general well-being.**

PROFESSIONAL USE OF THE KATHARA BIO-SPIRITUAL HEALING SYSTEM PROGRAM

If you desire to practice the ***Kathara Bio-Spiritual Healing System®*** in a regular, professional capacity through Client Service, you may use the techniques provided within this Kathara Healing Manual to begin. Prior to professional use, it is suggested that one becomes a Certified member of the **Kathara Alliance** through the ***Azurite Press MCEO (World-wide Consulate)*** and its appointed representatives.

The **Kathara Alliance** is a group of dedicated spiritual healing Practitioners and Instructors who have demonstrated a thorough understanding of the Theory and Practice of the **Kathara Bio-Spiritual Healing System®** and the Maharic Recoding Process, as deemed necessary by the **Azurite Press** for professionalism in the practice of Spiritual Healing Facilitation and Instruction.

All members of the ***Kathara Alliance*** are **Certified Kathara Healing Practitioners and Instructors**, and are permitted to practice Kathara Healing facilitation as **SPIRITUAL SERVICE.** For the protection of both Client and Practitioner, as well as the ethics inherent to the Teachings themselves, Kathara Healing is to be promoted, explained and practiced as **a non-diagnostic spiritual healing enhancement service only** and not as a replacement for traditional medical diagnosis or treatment.

With regard to teaching the materials, there is a distinction between formal **'Teaching'** (which is paid for by those attending your class) and **'Sharing'** via a small study group (in which a small donation would be appropriate from attendees). To teach, a person needs to be a certified member of the Kathara Alliance. To 'Share', one does not need to be a Kathara Alliance member but should limit the group size to fewer than 12 persons.

All Instructors and Practitioners must be CERTIFIED to conduct **public presentation** of copyright materials contained in this, the authorized Kathara Bio-Spiritual Healing System Manual. (The exception to this would be for a Kathara Alliance applicant who is delivering a presentation which is being video-recorded for Kathara Alliance application purposes).

To uphold standards of Professionalism and Excellence in practice, the Azurite Press MCEO **cannot** recognize **Non-Registered Facilitators or Instructors** as active participants in the ***Kathara Bio-Spiritual Healing System Program***, and thus, Non-Certified Facilitators may use this program and its applications for **personal spiritual enrichment ONLY. The Azurite Press MCEO authorizes only Certified Practitioners and Instructors** to professionally conduct Client Sessions and Group Instruction according to the literal word of this program.

Certification in the **Kathara Alliance** as an **Independent Spiritual Healing Practitioner and Instructor** of the **Kathara Bio-Spiritual Healing System®** requires formal application, including a written open-book examination. The examination is intended to reveal areas of which applicants may need to further strengthen understanding and personal relationship to the practice of Kathara Healing Facilitation and Instruction within the parameters of Excellence recognized as intrinsic by the Azurite Press MCEO.

PROFESSIONAL USE OF THE KATHARA BIO-SPIRITUAL HEALING SYSTEM PROGRAM – THE KATHARA ALLIANCE

The Kathara System introduced in **The Kathara Bio-Spiritual Healing System ® Level 1 Workshop & Course Manual with Introduction to The Kathara Bio-Spiritual Healing System® Level 2** is destined to become a ***12-level program*** that is focused on "whole-being healing through progressive biological and spiritual awakening" Kathara is as much a course on (non-denominational, dogma-free) **Spiritual Integration Mechanics** as it is a Holistic Healing course.

An individual completing training in the **Kathara Level-1 Bio-spiritual Healing System** delivered by a Certified Kathara Alliance Instructor will receive a **Certificate of Completion**, which recognizes the person named as attending and receiving training in the Kathara Level One Bio-Spiritual Healing System.

If you desire to practice the ***Kathara Bio-Spiritual Healing System®*** in a regular professional capacity through Client Service, you may use the techniques provided within this Kathara Healing Manual to begin. Prior to professional use it is suggested that one becomes a Certified member of the **Kathara Alliance** through the ***Azurite Press MCEO (World-wide Consulate)*** and its appointed representatives.

The **Kathara Alliance** is a group of dedicated spiritual healing Practitioners and Instructors who have demonstrated a thorough understanding of the Theory and Practice of the **Kathara Bio-Spiritual Healing System®** and the Mahanc Recoding Process, as deemed necessary by the **Azurite Press** for professionalism in the practice of Spiritual Healing Facilitation and Instruction.

All members of the ***Kathara Alliance*** are **Certified Kathara Healing Practitioners and Instructors**, and are permitted to practice Kathara Healing facilitation as **SPIRITUAL SERVICE**. For the protection of both Client and Practitioner as well as the ethics inherent to the Teachings themselves, Kathara Healing is to be promoted, explained and practiced as **a non-diagnostic spiritual healing enhancement service only** and not as a replacement for traditional medical diagnosis or treatment.

Certification in the **Kathara Alliance** as an **Independent Spiritual Healing Practitioner and Instructor** of the **Kathara Bio-Spiritual Healing System®** requires formal application including a written open-book examination and video presentation by the applicant. The examination is intended to reveal areas of which applicants may need to further strengthen understanding and personal relationship to the practice of Kathara Healing Facilitation and Instruction within the parameters of Excellence recognized as intrinsic by the Azurite Press MCEO

All Instructors and Practitioners must be CERTIFIED to conduct **public presentation** of copyright materials contained in this, the authorized Kathara Bio-Spiritual Healing System Manual To uphold standards of Professionalism and Excellence in practice, the Azurite Press MCEO **cannot** recognize **Non-Registered Facilitators or Instructors** as active participants in the ***Kathara Bio-Spiritual Healing System Program.*** Obviously, non-certified Facilitators may use this program and its applications for their own **personal and spiritual enrichment. The Azurite Press MCEO authorizes only Certified Practitioners and Instructors** to professionally conduct Client Sessions

With regards to teaching the program there is a distinction between 'Teaching' and 'Sharing.' **Teaching** is defined as formal presentation of the materials (following protocols described in the **Kathara Bio-Spiritual Healing System®** Manual and communications to Kathara Alliance applicants and members) in the form of a seminar/ workshop and payment is made by attendees. To teach the Kathara Bio-Spiritual Healing System®, one needs to be a member of the **Kathara Alliance**. '**Sharing**' is defined as leading a study group where attendees are not expected to pay (it would not be inappropriate to accept small donations if offered). To share one does not need to be a member of the Kathara Alliance but group size should be limited to less than 12.

Within the **Kathara Bio-Spiritual Healing System®** there are specific pages for Kathara Alliance Instructors to use in their classes. The Instructor's pages are identified by having a number at the *top* of the page (as well as the regular number at the bottom). These are the only pages that can be photocopied for teaching purposes. Only certified Kathara Alliance members (or a Kathara Alliance applicant who is delivering and recording a workshop for assessment purposes) are authorized to photocopy these pages.

The easy-reference **Instructor's pages** need to be sequenced in the order denoted by the number at the *top* of the page. These pages have been carefully sequenced to facilitate delivery and learning of the materials. Learners' needs, including varying learning style preferences, were very much considered when preparing the text and visual presentation of these teaching materials. In terms of frequency, the learning process can be described as when previously dormant Scalar Standing Waves in the personal shields are stimulated and activated ('switched on'). As frequency is accreted (by progressive exposure to, and interaction with, the materials) the scalar waves in the personal shield self–sustain (we would say the person has 'learned' the material). The specific sequence of the pages are pre-set to create optimum frequency accretion in the personal shields of learners *even if this is not immediately perceived or understood by the learner*. Therefore it is imperative that these pages are used in the delivery of this program and the instructor remains true to the given sequence.

As Independent Spiritual Healing Facilitators and Instructors, all Certified Facilitators and Instructors are expected to accept full personal responsibility and legal liability for the practice and application of the **Kathara Bio-Spiritual Healing System®.** Certified Facilitators-Instructors are **not required** to pay dues, royalties or revenues to the Kathara Alliance/APMCEO for use of this program other than the cost of initial personal **Training-Registration** and of obtaining supplies of **Session Manuals, Certificates and Registration Examinations** for the professional Instruction-Certification of others.

THE KATHARA ALLIANCE CERTIFICATION AND COMPETENCY REQUIREMENTS

The Certification Program is designed to enable the applicant to fully demonstrate his/her understanding of the material in a way that maintains the level of integrity and purity of the Program desired of the Kathara Alliance This also ensures the Student attains a desired level of understanding in taking the workshop. The requirements of Certification are designed to protect the integrity of the material, those who participate with it, and the rights and responsibilities of all concerned.

Certified Kathara Practitioners and Instructors must not only be knowledgeable in the practice and teaching of Kathara, but are also asked to commit to the behavioral guidelines originating from the Covenant of Regent Consulate of the Melchizedek Cloister Emerald Order (MCEO). In this way those seeking out a Kathara practitioner can reasonably expect the highest integrity in both the teachings and in the individuals with whom they are relating.

Certified Kathara Alliance members are in no way affiliated with the MCEO Vehicle, the Azurite Press, and should at no time state or imply such representation. Kathara Alliance members are independent Practitioners who offer local, community-based Kathara Healing Level 1 courses and facilitation for individuals.

PLEASE NOTE: The APMCEO & Kathara Alliance **reserve the right to revoke** any Kathara Alliance Certification and Rights of Association of Certified Facilitator-Instructors for *any* reasons of: *Misuse, misrepresentation and false claims pertaining to this Kathara Program; inappropriate treatment of APMCEO staff, clients or participants in Kathara Healing Programs; dishonest or unethical behavior and practices, and racial, gender, or religious discrimination of clients and participants or Kathara Alliance Members.*

THE KATHARA ALLIANCE CERTIFICATION AND COMPETENCY REQUIREMENTS

To apply for membership you will need to submit the following:

1. A completed Certification Exam Questionnaire at the certification level you desire (please contact the US/ Canada or Rest of World APMCEO office for copies of the exam). At the present time Certification for Level One (Parts 1 & 2) is currently available. As the Levels of Kathara are introduced additional Exams will be offered, providing opportunity to upgrade your Certification Level. Each additional Exam will require a US $55.00 charge

Send necessary components to:
US & Canada: Melissa Fathman, 1341 Lambert Circle - Lafayette, CO 80026 - email - mfathman@yahoo.com

Rest of the World: Hilary Lyons 341B Green Lanes, Palmers Green, London N13 4TY, U K.
hilary.lyons@blueyonder.co.uk 07970770404 From outside UK: ++44 7970770404

2. Two personal references from Regent Consulate (RC) members of the APMCEO. In the event of difficulty in obtaining RC references at least 2 members of the APMCEO Managing Trustees Group will conduct telephone interviews with you, and any other correspondence as is appropriate at their discretion.

3. Certificate of Completion of a certified Kathara Workshop presented by a Kathara Alliance Member or an Azurite Press Kathara Home Video Workshop.

4. Signed Kathara Alliance Membership Agreement.

5. Copy of your signed MCEO Regent Consulate Agreement.

6. A personal statement describing the extent and focus of your "post-graduate" Kathara Alliance covering things such as activities, plans and intentions.

7. A video/DVD recording containing two presentations:

Presentation 1:
Present Chapter 2, The Elements of Healing, to a group or client.
To fulfill the Assessment Criteria for Presentation 1 you will:

(i) Present the material in the intended order given (Starred pages 23 - 46)
(ii) Demonstrate your own understanding and integration of the material in Chapter 2 of the Kathara Manual during this presentation.

Presentation 2:
Carry out the Maharic Recoding Process, if this was the first session for your client, or instruct a group in carrying out the Maharic Recoding Process as if this was the first session for their client.
To fulfill the Assessment Criteria for presentation 2 you will:

(i) Carry out/ lead a group through the Maharic Recoding Process exactly as directed on page 193 of the manual

Copyright A & A. 2002. All Rights Reserved

(ii) Explain the Maharic Seal to the client and offer the client a paper copy of the Maharic Seal or lead a group through this procedure
(iii) Present the Client Agreement Form and the No-Touch Policy to the client or lead a group through this procedure.
(iv) Demonstrate your own understanding and integration of material presented.

To be successful in obtaining Membership you must:

1. Attain a score of not less than 55. ALL questions must be answered. Any incorrect answer will be deducted from the combined score of correct answers. Therefore the limit on wrong answers is 8 (of 72).

2. Satisfy the Founders and Trustees of your suitability for Certification in terms of the tenets and principles of the MCEO Law of One Freedom Teachings®. The Founders of the MCEO reserve the right to accept or reject References or their source.

Application procedure:

1. Submit your exam paper, references, personal statement, signed KA Agreement, copy of signed Regent Consulate Agreement, Certificate of Completion of a Kathara Workshop, and video to:

Send necessary components to:
US & Canada: Melissa Fathman, 1341 Lambert Circle - Lafayette, CO 80026 - email - mfathman@yahoo.com

Rest of the World: Hilary Lyons 341B Green Lanes, Palmers Green, London N13 4TY, U.K. hilary.lyons@blueyonder.co.uk

2. Enclose your payment of US $55.00 for the Certification level you are applying for, which covers administration costs, payable to Azurite Press MCEO. Once your Application has been successfully processed you will be awarded a Certified Membership Certificate embossed with the MCEO Seal.

Note please: The Founders of the MCEO & Kathara Alliance reserve the right to decline any application for Membership from any source without the need to enter into correspondence to resolve projected or assumed obligation on the part of MCEO representatives. Terms for cancellation of membership are noted on Page 208 of the Kathara Manual.

Putting it All Together - Running a Client Session

The **Kathara Bio-Regenesis Techniques** provided in this **Level-1 Kathara manual** can be used together to create a powerful Bio-Spiritual Healing Facilitation called the **Maharic Recoding Session**. The *Maharic Recoding Session* activates the Client's personal **Maharic Shield** and **Seal**, begins the process of restoring the Client's **Organic Imprint for Health** - the Christos Maharic Template, and initiates the natural internal processes of recoding the Client's personal **Manifestation Template** to the perfected form of the **Pre-matter Maharic Shield**. The *Maharic Recoding Session* can be conducted for a client **only once** for gentle stimulation of the natural healing energies, or it can be repeated as often as **two to three times per week** for **intensified healing support** or to *expedite* **DNA Template activation**.

Like all Bio-Regenesis Technologies, the *Maharic Recoding Session* gently stimulates more rapid, natural activation of the personal **DNA Template** and **Kundalini** energies, and expedites the intrinsic processes of higher identity integration, **Hova Body merger** and release of the **Cranial-Sacral Kundalini Star Crystal Seals**. Once set in motion, these internal processes boost the strength of the personal **Organic Imprint for Health** while simultaneously beginning the process of **Regenesis** of the original **12-Strand Silicate Matrix DNA** potential within the human genome and Manifestation Template. The Maharic Recoding Session not only assists and supports the client in the objectives of creating and maintaining health and well-being, it also prepares the Body-Mind-Spirit system for renewal of the promise of **Transmutational Dimensional Ascension**. The Maharic Recoding Session amplifies the beneficial effects of all other healing therapeutics and is **compatible with** all other forms of **allopathic and holistic healing**.

The Client Agreement Form

If you are planning to initiate professional private practice of the Kathara Bio-Spiritual Healing System through individual **Client Sessions**, it is highly recommended that **prior to every Client Session** you review with the client the *terms, delegation of liability and explanation of services* as described in the **Client Agreement Form**. For your personal legal protection and to protect the rights and interests of the client, secure the **client's signature** on the ***Client Agreement Form***. Keep one copy of the signed form on file for your records and provide a copy for the client to take home. If you will be adding **additional healing therapies** to Kathara Healing applications, this inclusion should also be explained to and authorized by the client **prior to rendering services** to avoid potential misunderstandings.

Client Agreement Form

THE KATHARA BIO-SPIRITUAL HEALING SYSTEM®

Independent Spiritual Healing Facilitator's Service Agreement 2002 The Kathara Alliance & Azurite Press

As a Client of the *Independent Spiritual Healing Facilitator*, as signed below, I understand that the nature of services rendered in Kathara Bio-Spiritual Healing Applications is that of spiritual support in the holistic health and healing process provided through specific subtle energy techniques that are offered to assist in restoration of Bio-energetic Field integrity. The facilitator has explained to me that Kathara Healing applications support the inherent integrity of the Core Energetic Template upon which the Subtle Energy Anatomy is structured and that such restorative efforts are offered to assist in enhancing all aspects of healing. The facilitator has made no claims as to the diagnostic or curative effects of Kathara procedures and I enter this Agreement to receive service with the understanding that the Kathara System represents a form of Spiritual Healing Support, and is not intended as a means of clinical diagnosis or to replace traditionally accepted medical care. In accepting the supportive Spiritual Healing applications of Kathara practices, I willingly accept responsibility hereunder for any and all effects of this treatment understanding that the facilitator serves only to stimulate my own innate powers of healing. I acknowledge that the success of all spiritual healing modalities depends upon one's own personal relationship with their private spiritual aspects of Being. There are no known side effects associated with Kathara Healing applications other than a frequently reported increase in the sense of well-being and assistance in healing efforts similar to the effects observed with other forms of spiritual healing, such as *focused* prayer.

The Kathara Alliance recognizes that the undersigned Facilitator has received training in the *Maharic Recoding Process* and *Radial Body Healing Procedures* of the Kathara Bio-Spiritual Healing System. Each Kathara Facilitator practices Kathara Healing technique as an Independent Spiritual Healing Facilitator for the purposes of *Spiritual Support* in healing. Facilitators are considered *Independent Spiritual Healing Facilitators* and are associated with the Kathara Alliance and Azurite Press MCEO and affiliates only in terms of the study of the Kathara Healing Program, and in some cases, their status as Registered Members of the Kathara Alliance, and the requisite commitment to ethical professional conduct which such Membership implies.

My acceptance of services implies that I release the Facilitator, the Kathara Alliance, the Azurite Press MCEO and their affiliates from any and all liability related to the teaching or administration of the Spiritual techniques and practices contained within the Kathara Bio-Spiritual Healing System Manual. This release from liability pertains only to the *applications of Kathara Healing facilitation* as depicted and described in the *Official Kathara Healing Manual* as published by the Azurite Press MCEO. Should any treatment other than the Maharic Recoding process of the Kathara Program be incorporated into my session with the undersigned facilitator, I understand that the Kathara Facilitator is to inform me of the addition of any other methodologies, and that issues of liability for both Kathara and Non-Kathara practices rest solely between myself and the Facilitator.

With *my singular signature* below I give consent for application of the *Kathara Healing Maharic Recoding Process* for the purpose of Spiritual Support in Health, healing and well-being. If the facilitator offers services other than those as described in the *Kathara Healing Manual*, in conjunction with the Kathara Healing practice I have requested, I hereby give consent to such additional procedures represented by my <u>*second signature*</u> below. I acknowledge that this *Client Agreement Form* is intended to provide me with a clear understanding of Kathara Healing services and my rights and responsibilities in relation to such services. I have read this Agreement or it has been read to me and I affix my signature(s) below as confirmation of my having entered this Agreement with the facilitator in good faith so that I may request and receive the services of Kathara Healing facilitation with clear understanding and appropriate expectations.

THE 6-STEP MAHARIC RECODING SESSION

Before Client Arrives: ***Technique #1*** - Activate your Mentor. Conduct **Mahara-Space-Comfort Touch Exercise** and remote request permission from client's **Rishi** identity level to apply **Comfort Touch** when client arrives. Create a calm, pleasant environment where you will not be interrupted by phone or other distractions. Optional: Sing 3 rounds of the ***Ariea-Khum-Nar'A*** toning to amplify personal healing and DNA Template activation during healing facilitation session.

When Client Arrives: Apply Comfort Touch if Rishi gave remote permission. Sit with client and review terms of the ***Client agreement Form*** and secure client's signature on form. Offer client the option of audio-taping the session for client's at-home review.

6-Step Technique Application Sequence – Maharic Recoding

1. ***Technique #2*** **– The Maharic Seal and the Liquid Light Cleanse** to *seal and align personal bio-fields.*

2. ***Sequence-1 Kathara Points massage*** **–** *first* your points, then client's points – Via Etheric Massage (1" above Clients physical body), *to open Kathara Lines.*

3. ***Technique #3*** **– Opening the Healing Channels** to activate your Doradic-Phase-1 healing current and ***Technique #4*** **- Amplifying Inner-Audio-Visual and Kathara Scan** to locate miasms for healing in client's Kathara Grid.

4. ***Technique #5*** **– The Maharic Infusion** to activate client's Maharic Shield and Seal, recode client's Kathara Grid to the Maharic Shield and clear miasmic build-ups.

5. **Optional:** Apply ***Etheric massage*** to miasmic areas, or employ other healing therapeutics after Maharic Infusion.

6. **Sequence -2** ***Kathara Points Etheric massage*** to revitalize outer body systems and close Kathara Lines. Allow client to rest a few minutes before leaving. Answer any client questions and allow time to discuss experience if desired

When Client Leaves: To ensure clear bio-fields, while Doradic-1 Current is still running, draw energy up from Earth's Maharic Shield and run Maharic Current through your Kathara Grid and body, up to Chakra-14 and back down to Chakra-13, then push a Pillar of Silver Light out of Chakra 4 and EXHALE it to release it around body into auric field. Next, massage *your* **Sequence-2 Kathara Points** to revitalize bio-field systems and close Kathara Lines.

CHAPTER 4 HIGHLIGHTS

GENERAL KATHARA HEALING FIELD WORK

- Activation of **Triadic Healing Current** requires temporary release of corresponding **Signet Star Crystal Seals** in the **Kathara Level-2 Crystal Seals** Grid.

- **Maharic 12th-Dimensional Frequency** is required to **manually release** the **Signet Star Crystal Seals** to activate **Triadic Healing Currents. Kathara Healing** utilizes **Maharic Frequency** to activate inter-dimensional **Triadic Healing Currents** for more powerful healing support.

- Most healing systems have not used **Maharic Current** because the **Planetary Templar Complex** could not run 12th-Dimensional Maharic Frequency for over 200,000 years, until January 2000.

- Release of the **Signet Seals** also activates dormant Strands in the **DNA Template** and releases the **Cranial-Sacral Seals** on the **Kundalini Energies.** Kathara Healing represents advanced, **12-Dimensional Kundalini Healing.**

Copyright A & A, 2002, All Rights Reserved

OPENING THE HEALING CHANNELS

- Triadic Phase Currents are activated in the body by using **Maharic Frequency** from the **PBIS** to release the **Signet Seals** of the **Internal Templar Complex**, which allows higher dimensional frequency to run through the **physical body system** for transmission.

- Triadic Phase Currents are composed of **3 Interwoven frequencies**, the **Maharic Frequency**, plus a chosen **dimensional frequency** and its corresponding frequency from **one Harmonic up**.

- Triadic Phase Currents are **directed** by their corresponding **Color Cap Stone**, the **Primary Wave Length** of the dimensional frequency band from which the current is drawn. **Kathara Level-1** activates the **1st Triadic Phase Current**, the **Silver (D-12) + Green (D-4) + Violet (D-7) DORADIC PHASE-1 Current**.

- **Doradic Current** is activated through the **Maharic Shield**, then **collected** in the **4th Chakra DORADIC SPHERE**, projected down the **DORADIC CORDS** in the arms and into the **DORADIC BALLS** in the **Palm Chakras** for **DIRECT INDUCTION** of frequency transmission in healing facilitation.

PALM CHAKRA POLARITY

- The **Palm Chakras** are **Secondary Chakras** located in the **Palms of the Hands**. Like all Chakras, they function as **Black-White Hole Sets** for **transmitting** and receiving energy between the personal Manifestation Template and the dimensional Unified Fields of energy.

- The Palm Chakras are **double vortices** of energy, with **one spiral** exiting the **Palm** and its corresponding spiral exiting the **back of the hand.** The **2 Spirals** of the Palm Chakras are linked by a **Crystal Seal** at the center point where the 2 vortices meet. In one Palm Chakra, one spiral rotates **clock-wise**, is **Base Electrical** and **transmits energy** out of the body and the other spiral rotates **counter-clock-wise**, is **Base Magnetic** and **draws energy** into the body.

- In **Level-1 Kathara Healing**, the **RIGHT PALM** is the **TRANSMITTING HAND** and the **LEFT PALM** is the **RECEIVING HAND**. For **transmission**, the Standard Hand Position is **LEFT Palm placed over the back of the RIGHT HAND** for pure transmission and **control of specific frequency**, transmitted from the **RIGHT PALM**.

- The **RIGHT PALM** is **BASE ELECTRICAL**, the **LEFT PALM** is **BASE MAGNETIC** but both have **subtle** electro-magnetic capacity.

THE KARMIC-MIASMIC IMPRINT

To enter manifestation in time, identity enters **cycles** of **SIMULTANEOUS INCARNATION** within the **4 Harmonics of Matter Density** in **12-Dimensions** of the 15-Dimensional **Time Matrix**. The **PRIMAL ORDER Scalar-wave Template** through which an identity enters time is the Density-5 (dimensions 13, 14, and 15) **RISHIC SHIELD**.

The **Rishic Shield** holds, in the Time Matrix, the identity of the **Family of Consciousness** from which **Incarnates** emerge. The Scalar Patterns of the Rishic Shield represent the tangible **"DIVINE RIGHT ORDER"** in energy and consciousness, for each incarnate manifesting from it. The individual identity must realign its **Manifestation Template** with this **Primal Order** to become free from the Time Matrix in full **Ascension**.

The **Density-4** Pre-matter Hydro-plasmic **MAHARIC SHIELD** (Dimensions 10, 11 and 12) is the Scalar Template through which identity manifests in the lower-dimensional Densities and which **connects the individual incarnate** to its **Rishic Shield**. The **Maharic Shield** is often called the **PERSONAL CHRISTOS Template**, and it holds the consciousness and **Perfect Primal Order** for all incarnations of an identity in time.

Copyright A & A, 2002, All Rights Reserved

"Karma" is the result of **Free Will** choices made by **incarnates** that involve using personal energies in ways incongruent with the natural **Laws of Universal Unified Field Physics** and the **Primal Order** of the **Christos Template.** Karma creates **scalar-wave distortions** within the Scalar Shields of personal 15-Dimensional Anatomy that **manifest physically** as **energetic cluster** called **MIASMS.**

Miasms are **unintended** groups of **anti-particles** lodged within the particle field of the personal **Manifestation Template** that block and impede the **natural flow of energy** and consciousness into embodiment. **Miasms**, and the misshapen scalar-wave distortions that form them, are the **cause of ALL** disease and disharmonic conditions.

Health and Harmonious flow of energy are the **natural conditions** of human design. The **Maharic Shield Personal Christos Template** holds the **Organic Imprint for Health** for all simultaneous incarnates of an identity, and can therefore be used to **clear the Karmic-Miasmic Imprint** from the personal Manifestation Template to progressively restore **Healthful Primal Order.**

Copyright A & A, 2002, All Rights Reserved

- Miasms from **all simultaneous incarnations** manifest within the personal Manifestation Template and within the DNA Template of each, where they become literal **genetic distortions**.

- Each of an identity's incarnates in various time cycles represents one **TIME VECTOR**, which is encoded in the Vector Codes of the **DNA Template**. Karmic-Miasmic **bleed-through** occurs **between incarnates** from different concurrent time cycles through the **living link** of scalar frequency that exists between the **DNA Templates** of simultaneous incarnations.

- The **Karmic-Miasmic Imprint** does not have to be suffered and cleared the "**old-fashioned way**" by "walking through the Karma in physical reality." The **Miasmic Imprint** can be cleared **as energy, with energy**, to prevent its manifestation in physical terms via realignment of the **DNA Template** with the personal **Maharic Shield**.

- Any given incarnate can clear the Karmic-Miasmic Imprint by realigning the personal Manifestation Template with the shared Christos Template Maharic Shield. This process is called **MULTI-VECTOR HOLOGRAPHIC RECODING**, which creates **BIO-REGENESIS** of the original 12-Strand Silicate Matrix **DNA Template** of human design and restoration of the **Organic Imprint for Health**.

ATTITUDES AND ETIQUETTE IN HEALING

THE MAHARIC RECODING SESSION

- Holographic Recoding and clearing the Karmic-Miasmic Imprint from the personal Manifestation Template begins with activation of the **Maharic Shield and Seal** in the bio-energetic field and progressive running of the 12th-Dimensional **Maharic Frequency** from the **Personal** and **Planetary Maharic Shields** through the **3 Primary Levels** of the embodied Kathara Grid; the Level-1 **12-Tree Grid**, Level-2 **Crystal Seals Grid** and Level-3 **Diodic Points**.

- Personal Holographic Recoding begins with consistent use of ***Technique* #2 – The Maharic Seal and the Liquid Light Cleanse**, and is further accelerated by facilitating **Maharic Recoding** in others through running the **Triadic Phase Currents** for **Co-generative Healing**.

- One can facilitate healing in others and amplify personal healing through using ***Technique* #5 – The Maharic Infusion**.

- The **Maharic Recoding Session** utilizes the combined **Bio-Regenesis Techniques** presented in **Level-1 Kathara Healing** to facilitate **Client Healing Sessions**.

Copyright A & A 2002, All Rights Reserved

- Professionalism in Healing Facilitation requires an understanding of the **Postures of Love** and a willingness to **cultivate** the ability to hold and transmit **OMNI-LOVE, honoring the Divinity of ALL things and beings.**

- The Primary Postures of Love are **SOFT LOVE, TOUGH LOVE, SELF LOVE** and **OMNI-LOVE.**

- The emotionally experienced quality called **LOVE** is a **REALITY IN ENERGY PHYSICS.** LOVE is a **STATE OF VIBRATIONAL FREQUENCY CO-RESONANCE** that allows **free flow of energy** between consciousness within the Universal Unified Field.

- The human **12-Strand DNA Template** was designed to allow **12-Dimensions of Vibrational Co-Resonance**, the **Christos Consciousness** of the **Maharic Shield**, to embody in human form. **CHRISTOS-OMNI-LOVE** is Vibrational Co-Resonance with all that exists within **12 Dimensions** of the Time Matrix; its embodiment is the **primary goal** toward which **human evolution** progresses.

- Christos-OMNI-LOVE is the **strongest healing frequency** available within the Densities of Space, Time and Matter, and is **essential** for effective **Healing Facilitation** and personal **Ascension.**

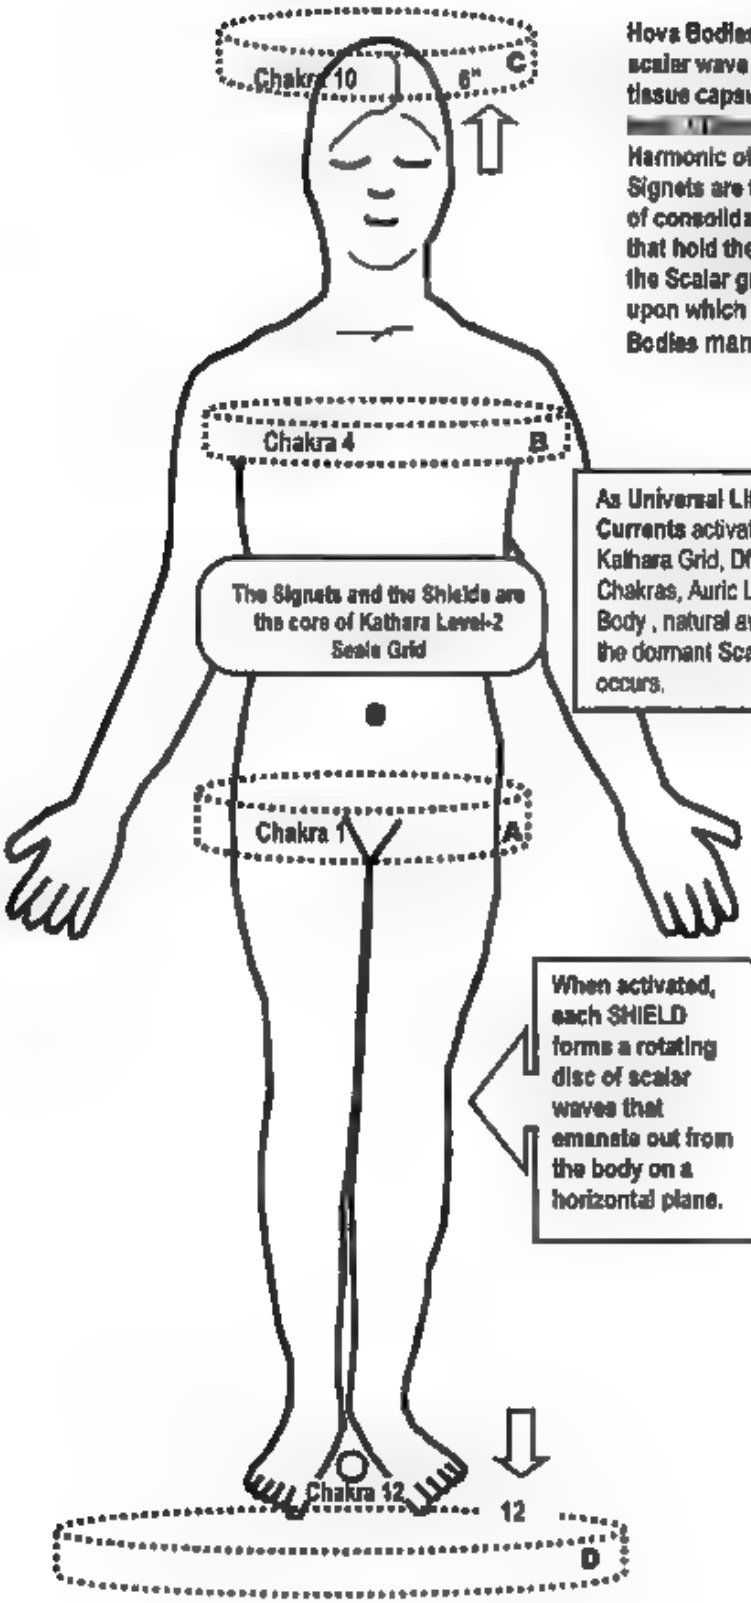
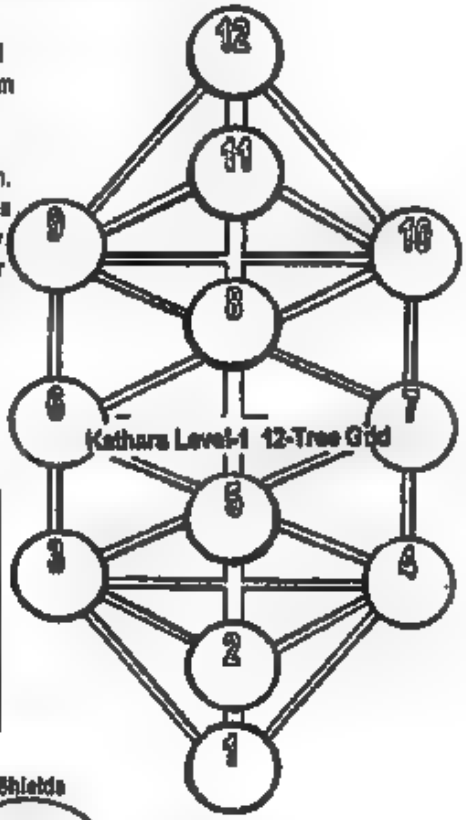
Universal Life Force Currents and the Embodied Shields, Signets and Kathara Grid

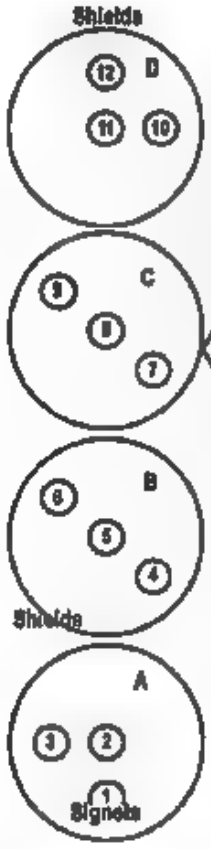


Hova Bodies are spherical scalar wave grids that form tissue capsules between [redacted] Harmonic of Manifestation. Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.



The Signets and the Shields are the core of Kathara Level-2 Seals Grid

As Universal Life Force Currents activate in the Kathara Grid, DNA, Chakras, Auric Levels & Body , natural awakening of the dormant Scalar Shields occurs.



The First 4 SHIELDS each with 3 SIGNETS and correspondence to the Kathara Centers of the Level-1 12-Tree Kathara Grid.

When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

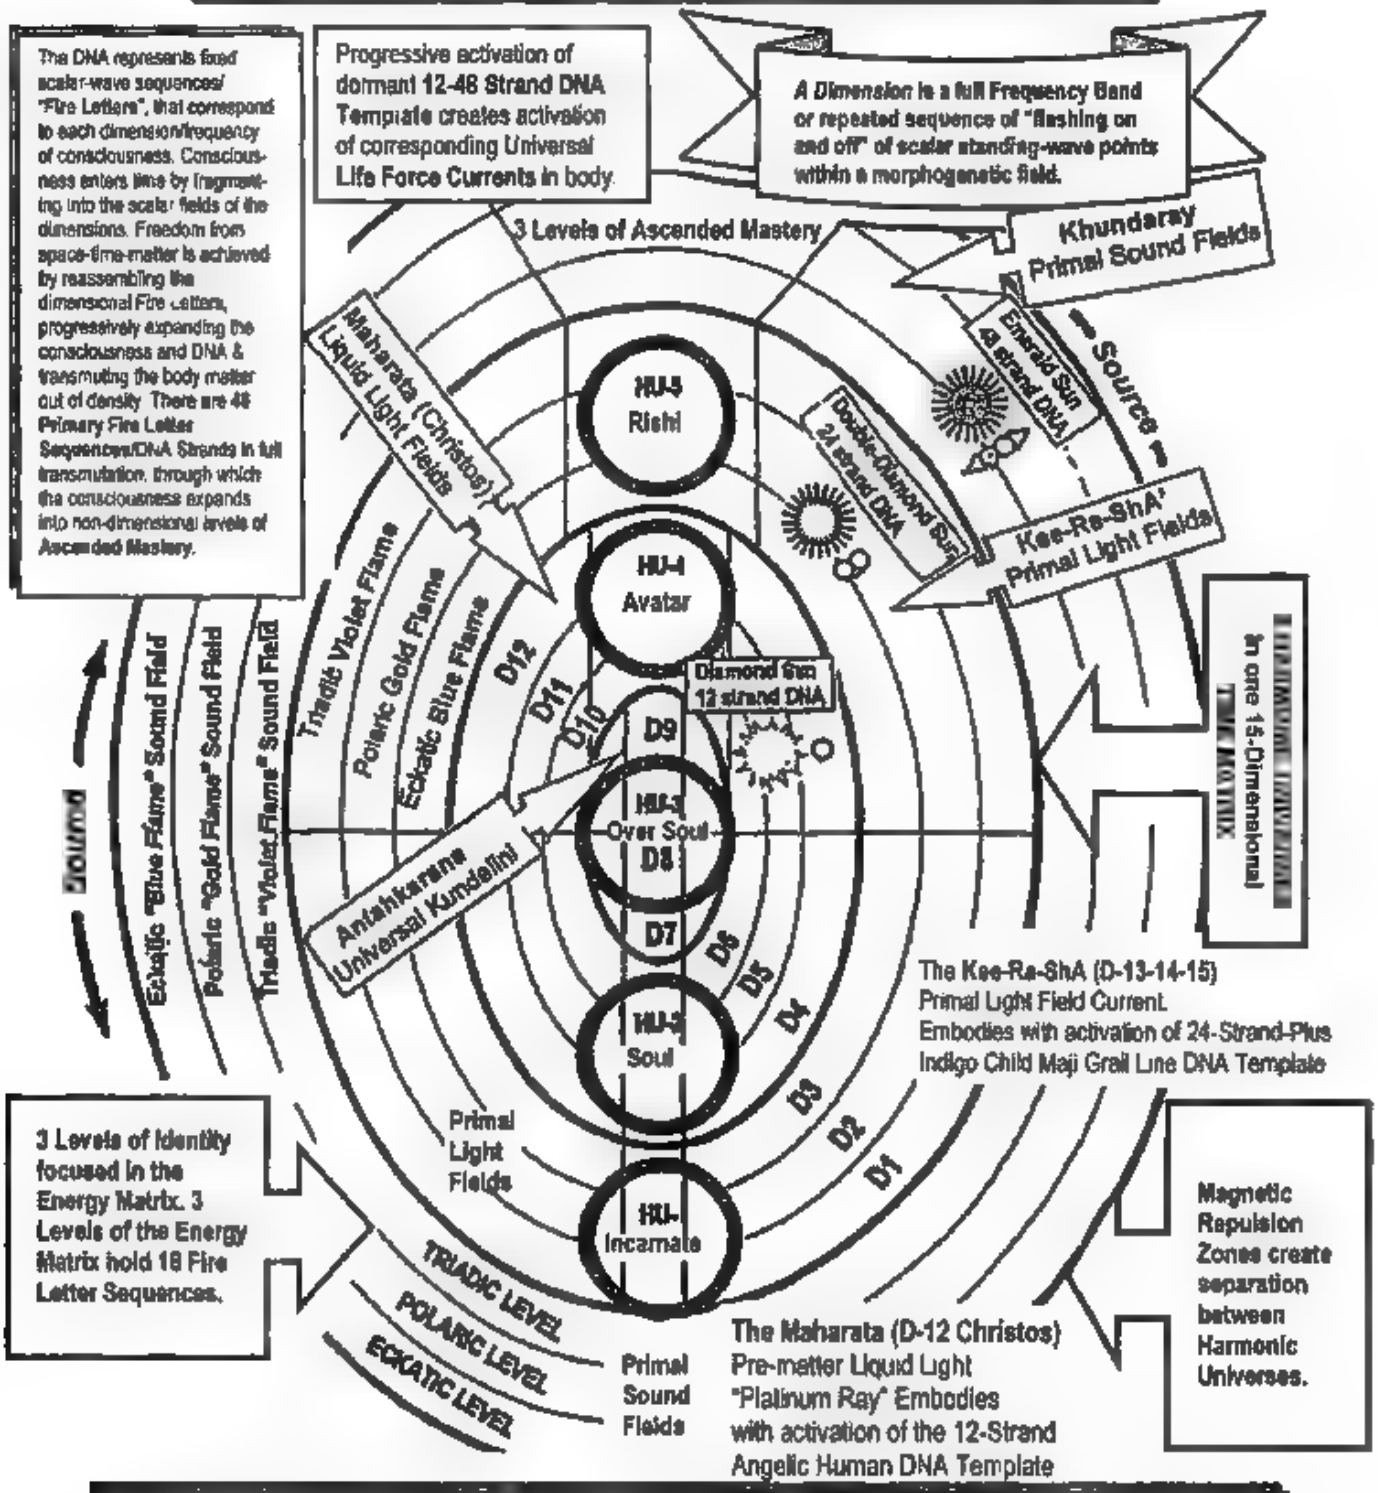
15-Dimensional Levels of *Identity, DNA and Indigo Children*

The DNA represents fixed scalar-wave sequences/ "Fire Letters", that correspond to each dimension/frequency of consciousness. Consciousness enters time by fragmenting into the scalar fields of the dimensions. Freedom from space-time-matter is achieved by reassembling the dimensional Fire Letters, progressively expanding the consciousness and DNA & transmuting the body matter out of density. There are 48 Primary Fire Letter Sequences/DNA Strands in full transmutation, through which the consciousness expands into non-dimensional levels of Ascended Mastery.

Progressive activation of dormant 12-48 Strand DNA Template creates activation of corresponding Universal Life Force Currents in body.

A Dimension is a full Frequency Band or repeated sequence of "flashing on and off" of scalar standing-wave points within a morphogenetic field.



3 Levels of Identity focused in the Energy Matrix. 3 Levels of the Energy Matrix hold 16 Fire Letter Sequences.

Magnetic Repulsion Zones create separation between Harmonic Universes.

The *Orophim* genetic imprint of the Indigo Children allows more rapid re-assembly of the 48 DNA Fire Letters / scalar-wave grids, creating the potential to embody the *Avatar* identity and open the consciousness to *Ascended Master* identity Levels. Indigo Children are Avatars and Ascended Masters waiting to awaken.

All Angelic Humans possess a minimum of 12-Strand DNA potential through which activation of the Maharata Current and embodiment of the D-12 Christed Avatar Identity can take place.

The Reality of Spiritual Integration

- **Spiritual Actualization** is as much a function of **Divine Physics** as it is a product of **Divine Consciousness.** The natural Primal Order of **Universal Structure** sets the **Templates of Manifestation**, to which consciousness **must conform**, to enter the experience of manifest expression within a space-time-matter system.

- The personal Christos **Maharic Shield** Manifestation Template and the Christos **Tribal Shield** Species Manifestation Template are **microcosmic replicas** of the macrocosmic Primal Order, upon which Universal and Cosmic structure are built.

- The Personal D-12 Christos Divine Blueprint Maharic Shield connects each Individual Christos self to the **larger** D-12 Christos Divine Blueprint of the **Species**. The D-12 Christos Divine Blueprint is called the **TRIBAL SHIELD**.

- To understand the realities of **personal Spiritual Integration and Actualization**, in order to **fulfill our personal life purpose**, it is important to comprehend the basic **Primal Order** structures of energy, the **personal D-12 Maharic Shield** and the **D-12 Species Tribal Shields**, through which our consciousness manifests in time.

- The secrets to **reclaiming the Divine Birthrights and Responsibilities** of Angelic Human heritage are hidden within the realities of the **Tribal Shield** and the specific "**Fire Letter Sequences**" of the Tribal Shield that manifest within and **govern the function** of the Angelic Human **DNA Template**.

- **The key to Spiritual Actualization** is activation of the dormant personal 12-Strand DNA Template. The **most rapid means** of activating the dormant Angelic Human 12-Strand DNA Template is through **activation of the Tribal Shield,** the Species D-12 Christos Divine Blueprint, which represents the **CORE PROGRAMMING** of the personal D-12 Maharic Shield.

Activating the Tribal Shield

- The 12-dimensional **Tribal Shield** is the dormant **Species Divine Blueprint** within the **DNA Template core** of the Angelic Human races of the 4 Evolutionary Rounds. The frequencies of energy and dimensions of consciousness of the **1728 simultaneous selves** of the Personal Eternal Christos Identity can be activated in one incarnation through **sequential activation of the Fire Letter Sequences** or **"Flame Codes"** of the **Tribal Shield.**

- The "Flame Code Fire Letters" within the **DNA Template** are the **DNA Signet Codes** that correspond to Earth's **12 Primary Star Gates** and the **Planetary Shields** through which the planetary body manifests. The Flame Codes serve as the core foundation of the personal 12-Strand DNA Template.

- The DNA Template Flame Codes of the Tribal Shield allow for the **Primal Life Force Currents** of the Density-5 (dimensions 13-14-15) **Kee-Ra-ShA** Primal Light Fields and the **Khundaray Primal Sound Fields** from the Energy Matrix, beyond the 15-Dimensional Time Matrix, to embody more fully within the Angelic Human form.

- **A Fire Letter** is a **fixed point of consolidated frequency** that holds specific frequencies consciousness into manifest form. The **Manifestation Templates** or Divine Blueprints of **all things** manifest are built upon **intricate patterns** of interwoven Fire Letters called **Fire Letter Sequences.** The Flame Codes of the Angelic Human personal DNA Template and Species Tribal Shield are composed of the same Fire Letter Sequences that make up the Divine Blueprint of **Earth's Planetary Shields.**

- Activation of the Tribal Shield sets in motion simultaneous "firing" or activation of the **144 Fire Letters (12 Fire Letter Sequences)** of the 12-Strand DNA Template, expediting the natural evolutionary process of Soul, Over-Soul and Christos Avatar Identity Integration, through progressively opening the "Trans-time DNA Template Star Gates".

- Activating the 12-Strand DNA Template allows the D-12 frequency of the **Universal "Christos" Maharata Current** to activate within and run through the Angelic Human DNA Template and into the Earth's **Planetary Shields.** Activation of the **Maharata Current,** within **groups of Angelic Humans** on Earth, allows for **collective anchoring** of the D-12 Planetary Christos Divine Blueprint, the **Shield of Aramatena,** to achieve fulfillment of Angelic Humanity's Sacred Commission of the **Planetary Christos Realignment Mission.**

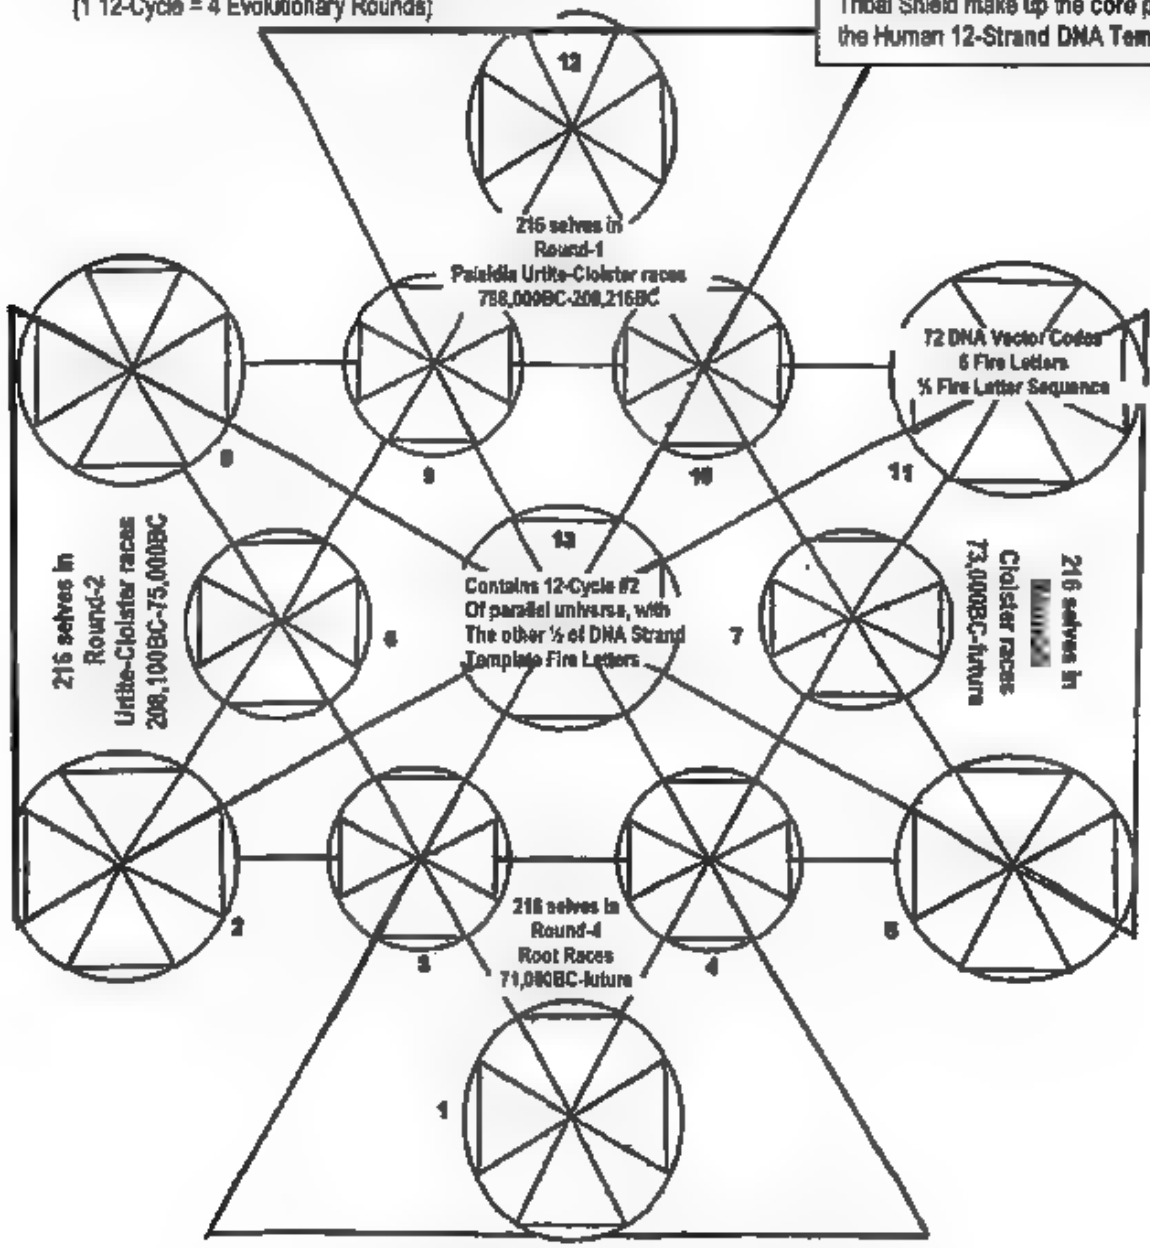
The Tribal Shield – Species D-12 Christos Divine Blueprint

The Angelic Human 12-Strand DNA Template contains 6 Fire Letter Sequences from particle universe 12-Cycle, plus 6 Fire Letter Sequences from anti-particle 12-Cycle. **12 Fire Letter Sequences or 144 Fire Letters from the Two Planetary 12-Cycles of the Cycles of the Rounds.** (1 12-Cycle = 4 Evolutionary Rounds)

The Tribal Shield connects our personal D-12 **Maharic Shield** Divine Christos Blueprint to the greater Christos Blueprint of the Angelic Human **Species. 144 Fire Letters** (12 Fire Letter *Sequences*) of the Tribal Shield make up the **core program** of the Human **12-Strand DNA Template.**



Each of the 12 Planetary Time Cycles in one Planetary 12-Cycle of the "Cycle of the Rounds" has 72 Time Vectors. 12-Strand Angelic Humans have one self in each of the 72 Time Vectors of the particle universe Planetary 12-Cycle and 72 selves in the corresponding anti-particle Planetary 12-Cycle. 72 selves x 12 Planetary Time Cycles = 864 selves per on Planetary 12-Cycel + 864 selves parallel universe Planetary 12-Cycel = 1728 selves in Tribal Shield.

Tribal Shield Activation Creates Cue Zones In Earth's Planetary Shields

Cue Zones

"Cue Zones" are locations on Earth where a small portion of Earth's D-12 Shield of Aramatena **Christos Divine Blueprint** has been re-set within Earth's Planetary Shields. During Stellar Activation Cycles, Cue Zones can **be manually set** by individuals or groups by running the **D-12 Maharata Current**, activating the Tribal Shield to draw in the Khundaray Primal Sound frequencies, then singing the 12-Tribes **Master Psonns Suffixes** and running the tones through the body and feet and into Earth's Planetary Shields. After running the Master Psonns Suffixes, one can then allow the **"Song of the Christos Soul"**, the tones of the personal D-12 **Maharic Shield** (the "Elohei-Elohim Within") to run into the Planetary Shields. The personal Soul Song will create a **"Back Song"** transmission of frequency from Earth's Planetary Shields, a set of healing frequencies sent back to you in response to activating your Soul Song in Earth's Planetary Shields. Once set, Cue Zones will remain for a period of **3.5 to 5 years**, depending on the strength of energy originally set. They can be **recharged** using the same "setting" procedure to last indefinitely.

Cue Zones are **"safe zone"** areas on the Planet that are protected from interdimensional interference. They can be used to amplify effects of energy **healing applications,** to **"charge" objects and substances** with sub-harmonics of D-12 Christos frequency and, when used with the personal Temporary Maharic Seal, to get clear, protected **"meditation space"**, free from interdimensional interference. Cue Zones are **"keyed"** to Earth's **Planetary Templar "Cue Sites"**, the activating sites for Earth's 12 Primary Star Gates, which exist on regions of Earth that correspond to the 12 Primary Star Gates of **Inner Earth.**

TECHNIQUE # 6: THE MAHARIC QUICK SEAL

1. Work with a 24 pointed, 3 Dimensional Star (Hierophant) and be aware that you will be working with beings known as the Breneau Rishi.

2. Begin by slowing your breathing as you imagine or visualize a 24 point, 3-Dimensional Hierophant at the Pineal Gland, in the center of your brain. Visualize the Hierophant surrounded by a Pale Blue Sphere of Light.

3. INHALE, as if you are going to grab the blue sphere containing the 24 pointed star, located at the Pineal, and on the EXHALE move the 24 pointed star/ blue sphere, all the way down to Earth s Core. Try to hear a sound tone as the Hierophant/ Sphere hits the Planetary Shield...

4. INHALE and draw the Hierophant/ Sphere up to your Personal Maharic Shield, 12" below your feet... and EXHALE while watching the Pale Silver-Blue Sphere expand out to a large sphere. .and watch as your Maharic Shield pops out as a disc, about 4 feet in diameter, Pale Silver with a light coating of Pale Blue.

5. Bring your attention to the center of your Maharic Shield, 12" below your feet. and INHALE the 24 pointed Star (only) up into the Heart Chakra. EXHALE, expanding the frequencies of the 24 pointed Star into the Heart Chakra.

6. INHALE to grab the 24 pointed Star and EXHALE pushing the Star up into the 14th Chakra, 36" above the head. Imagine that the 24 pointed Star is spinning in a clockwise direction, in the 14th Chakra. As you do this, try to feel/ sense the energy around you, just a few inches out from your body.

7. Now, put your attention into your Maharic Shield, 12" below your feet. Take a couple of relaxing breaths and INHALE deeply pulling the Pale Silver and Blue energy up, as if you are pulling on your Maharic Seal to latch it on to your 14th Chakra. Try and feel the sensations just a few inches from your body now – feel the difference if you can. This procedure gives you a Quick Seal.

8. Now envision the cord of Pale Silver Maharic Light that would normally come up with your Shield and focus on the Earth's Core. Begin drawing energy all the way up the 4" diameter cord and into the body. INHALE the energy up into the Heart Center and expand it there. Begin to form a pale Silver ball of Maharic frequency.

   On each EXHALE send your energy down to the Earth's Core to bring up another load of Maharic frequency, up from the Planetary Shields; expand it into the Heart center and repeat several times. Notice that the Cord grows larger as you do this, expanding from approximately 4" to 6" to 8" in diameter, until finally it feels like a skin around (as well as within) your body. Begin to form a pale Silver ball of Maharic frequency

9. Move your attention to the Pale Silver ball you have created in your Heart Center. INHALE and move it up to the 14th Chakra, 36" above your head... as you do, feel for the sheath of Maharic Frequency encasing your etheric body, close to your skin. (This Maharic/ Christos skin charges and saturates your etheric body – feel the peacefulness and all-knowing nature of this frequency).

The Master Key Tones

- **The 12 –Tribes names were audible – tone translations** of the **specific Fire Letter Sequences** contained within the **Tribal Shield DNA Templates** of each Tribe. The tones of the Tribal names were used to activate the **144 Fire Letters** of the Tribal Shield in the **personal DNA Template,** providing the Angelic Humans races with the ability to **consciously regulate** the **activation level** of their **DNA Templates** and **Primal Life Force Currents.**

- **The Sound – Tone Programs** that are used to activate the DNA Template and Primal Life Force Currents are called **"The Sacred Psonns".** The **Tribal name** was the **Master Psonn.** In running the Rainbow Roundtables, the Signet Council Regents brought their Tribal Shield "Flame Codes" into activation by **singing rounds** of the **Sacred Master Psonns.**

Tribal Shield-Cue Zones Activation

Creating a Cue Zone

1. Choose a location and **activate** a personal **"Maharic Quick Seal"** to "run the D-12 **Maharata Current"** in your body.

2. Once you can feel sensation of Maharata Current running, sing-tone 12-Tribes **Master Psonns** (names) for **Tribe-12** and **Tribe-1**, to activate **Tribal Shields Flame Codes** in your DNA Template to run the **"Rainbow Ray"**. Direct Pale Silver Maharata Current and Rainbow Ray pale color spectrum through body and out **soles of feet** into Earth's Planetary Shields. Tone for a while to build critical mass of frequency.

3. Use a selected combination of **3 Master Psonns Suffixes** and tone for a while, running sound through body and feet into Earth's grids. (Avoid the Suffix combination of Tribe 4-7-10, used in that sequence, to avert present distortions in Earth's grids that run on this mathematical coding).

4. Allow the **Christos Soul Song** to emerge from you "free style" and send the tones into Earth's grids.

5. When complete, sit quietly for a while and listen for the Earth's telepathically transmitted **"Back Song"**, drawing its gentle frequencies into your body for healing.

6. Close with singing several rounds of the **3 Master Psonns Suffixes** that you opened with. The Cue Zone you have set will extend out from your position in a radius of about **5 yards** and will last **3.5-5 years**, depending on the strength of energy you used in setting the Cue Zone.

7. To **amplify** strength of Cue Zone, you can use the **"Merkaba Spin"**, just after closing. Remain in same position, stand and gently spin, first **clockwise** (as if you are standing in the middle of a clock face with the "6" in front of your feet, the "3" at the left hand, the "9" at the right hand and "12" directly behind you). Spin gently clockwise to bring electrical frequency down through your **"top"** Merkaba spiral. Then slow, stop and **reverse spin to counter clockwise**, to activate **"bottom"** Merkaba spiral", drawing frequency up from Earth's grids. Personal Merkaba Activation will accelerate the frequencies of the D-12 energies you set at the site, making the Cue Zone **stronger and more lasting**.

The Sacred Salutations

The *Solar Salutation*
Electrical Merkaba Activation

- The ancient **Mu'a** and **Lemurian** Guardian Races ran the **Maharata** and activated the **Tribal Shield** each day to conduct the **Sacred Solar** and **Lunar Salutation Rites** each morning and evening. The **Sacred Salutations** are **Toning Dances** that activate the personal **Merkaba Field** for sustained activation of the DNA Template and amplification of the Maharata and Universal Life Force Currents in the body.

- **Solar Salutations** accelerate the spin of the **Electrical Harmonic Merkaba Spiral** (Top, CW spin), drawing increased amounts of **Electrical Anti-particle** frequency from the Solar **Electrical Merkaba Spiral** light spectrum into the **Electrical Acceleration Codes** in the **DNA Template**, to **"charge" the body with the Electrical Anti-particle frequency.**

- Accelerated **Electrical Merkaba Spiral Spin**, of **Solar Salutations**, increases the amount of **Anti-particle Base-Electrical** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the Dimensional Unified Fields, and increases the amount of **Anti-particle** frequency **sent out** from the body into Earth's **Planetary Shields**. Frequency passes between the Human Body and Earth's Planetary Shields via the embodied **Kathara Grid** core templates that make up the **Planetary Bio-Fee Interface System** ("PBIS").

- **Electrical Anti-particle** energy enters the body via the **"Top" Electrical** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Electrical Acceleration Codes** in the DNA Template, the **Electrical Kathara Centers 2-5-8-11** of the Kathara Grid **Central Pillar**, the **Electrical aspect of Electro-magnetic Kathara Centers 1-3-6-9-12**, on the **Right Side** of body ("Left Side Pillar" in Kathara diagram), **Electrical Chakras 2-5-8-11** and the **Electrical aspect of Electro-magnetic Chakras 1-3-6-9-12**.

Copyright A & A, 2002, All Rights Reserved

- **Solar Salutations** (CW spin Top Electrical Merkaba Field Activation) **raise** the body's **Oscillation** (energy transmission-expansion), **lower** the body's **Vibration** (energy holding-contraction), making the body **Higher Frequency** and **More Electrical** (transmits more energy than it is drawing in).

- A **Higher Frequency Electrical Body** has:
  - **Lower Vibration**, Higher Oscillation/Frequency, **Less Matter Density**.
  - More activated DNA Strands, more chromosomes, embodiment of more levels of consciousness.
  - **Slower** heart, breathing and metabolic rhythms (energy expansion and contraction rates), thus requires less food (burns fuel more slowly).
  - Greater **longevity** and **less sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for longer periods without taxing).
  - Greater **Silica quantity** in **Silica-to-Carbon Ratio** of elemental composition and **larger size** (more space between cells; more expand matter).
  - Perception of **expanded Space** and **slower Time** movement.
  - Greater **heat release, thus cooler** internal temperature.
  - Natural attribute of **transmitting** greater amounts of energy thrust into the Planetary Shields than it is drawing in/receiving from them. **Energy "giving".**

- The **Solar Salutations** "charge" the **Top Electrical CW Merkaba Spiral** to maintain its natural cycle of **33⅓ rotations per 1 "trillionth of a nano-second"**, through which the **Base-Electrical** systems of the body are naturally maintained.

Copyright A & A, 2002, All Rights Reserved

- **Lunar Salutations** accelerate the spin of the **Magnetic Harmonic Merkaba Spiral** (Bottom, CCW spin), drawing increased amounts of **Magnetic Particle** frequency from the Lunar **Magnetic Merkaba Spiral** reflected light spectrum and Earth's Planetary Shields into the **Magnetic Base Codes** in the **DNA Template** to **"charge" the body** with **Magnetic Particle frequency.**

- Accelerated **Magnetic Merkaba Spiral Spin** of **Lunar Salutations** increases the amount of **Particle Base-Magnetic** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the **Earth's Planetary Shields**, and increases the amount of **Particle** frequency **sent out** from the body into the Dimensional Unified Fields.

- **Particle Base-magnetic** energy enters the body via the **"Bottom" Magnetic** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Magnetic Base Codes** in the DNA Template, the **Magnetic Kathara Centers 4-7-10** of the Kathara Grid on the **Left Side** of the body, ("Right Side Pillar" on Kathara Diagram), the **Magnetic aspect of Electro-magnetic Kathara Centers 1-3-6-9-12** on the **Right Side** of body ("Left Side Pillar" in Kathara diagram", **Magnetic Chakras 4-7-10 and the Magnetic aspect of Electro-magnetic Chakras 1-3-6-9-12.**

- **Lunar Salutations** (CCW spin Bottom Magnetic Merkaba Field Activation) **lower** the body's **Oscillation** (energy transmission-expansion), **raise** the body's **Vibration** (energy holding-contraction), making the body **Lower Frequency** and **More Magnetic** (draws in more energy than it is transmitting out).

Copyright A & A, 2002, All Rights Reserved

- A **Lower Frequency Magnetic Body** has:
  - **Higher Vibration**, Lower Oscillation/Frequency, Greater **Matter Density**
  - **Fewer** activated DNA Strands, fewer chromosomes, embodiment of fewer levels of consciousness.
  - **Faster** heart, breathing and metabolic rhythms (energy expansion and contraction rates), thus requires **more food** (burns fuel **faster**).
  - Lesser **longevity** and needs more **sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for **shorter periods**; taxes more easily).
  - Greater **Carbon quantity** in **Silica-to-Carbon Ratio** of elemental composition and **smaller size** (less space between cells; more contracted matter).
  - Perception of **contracted or more confined Space** and **faster Time** movement.
  - Less **heat release**, thus **warmer** internal temperature.
  - Natural characteristic of **drawing** greater amounts of energy thrust into the Planetary Shields than it is transmitting into them. **Energy "taking".**

- The **Lunar Salutations** "charge" the **Bottom Magnetic CCW Merkaba Spiral** to maintain its natural cycle of **$11^{2}/_{3}$ rotations per 1 "trillionth of a nano-second"**, through which **Base-Magnetic** systems of the body are naturally maintained.

The **natural ratio** between the **Top-CW-Electrical-"Male" Harmonic Merkaba Field** and the **Bottom-CCW-Magnetic-"Female" Harmonic Merkaba Field is Electrical-Top 33 1/3 CW** rotations per 1 "trillionth" of a nano-second and **Magnetic-Bottom 11 2/3 CCW** rotations per 1 "trillionth" of a nano-second.

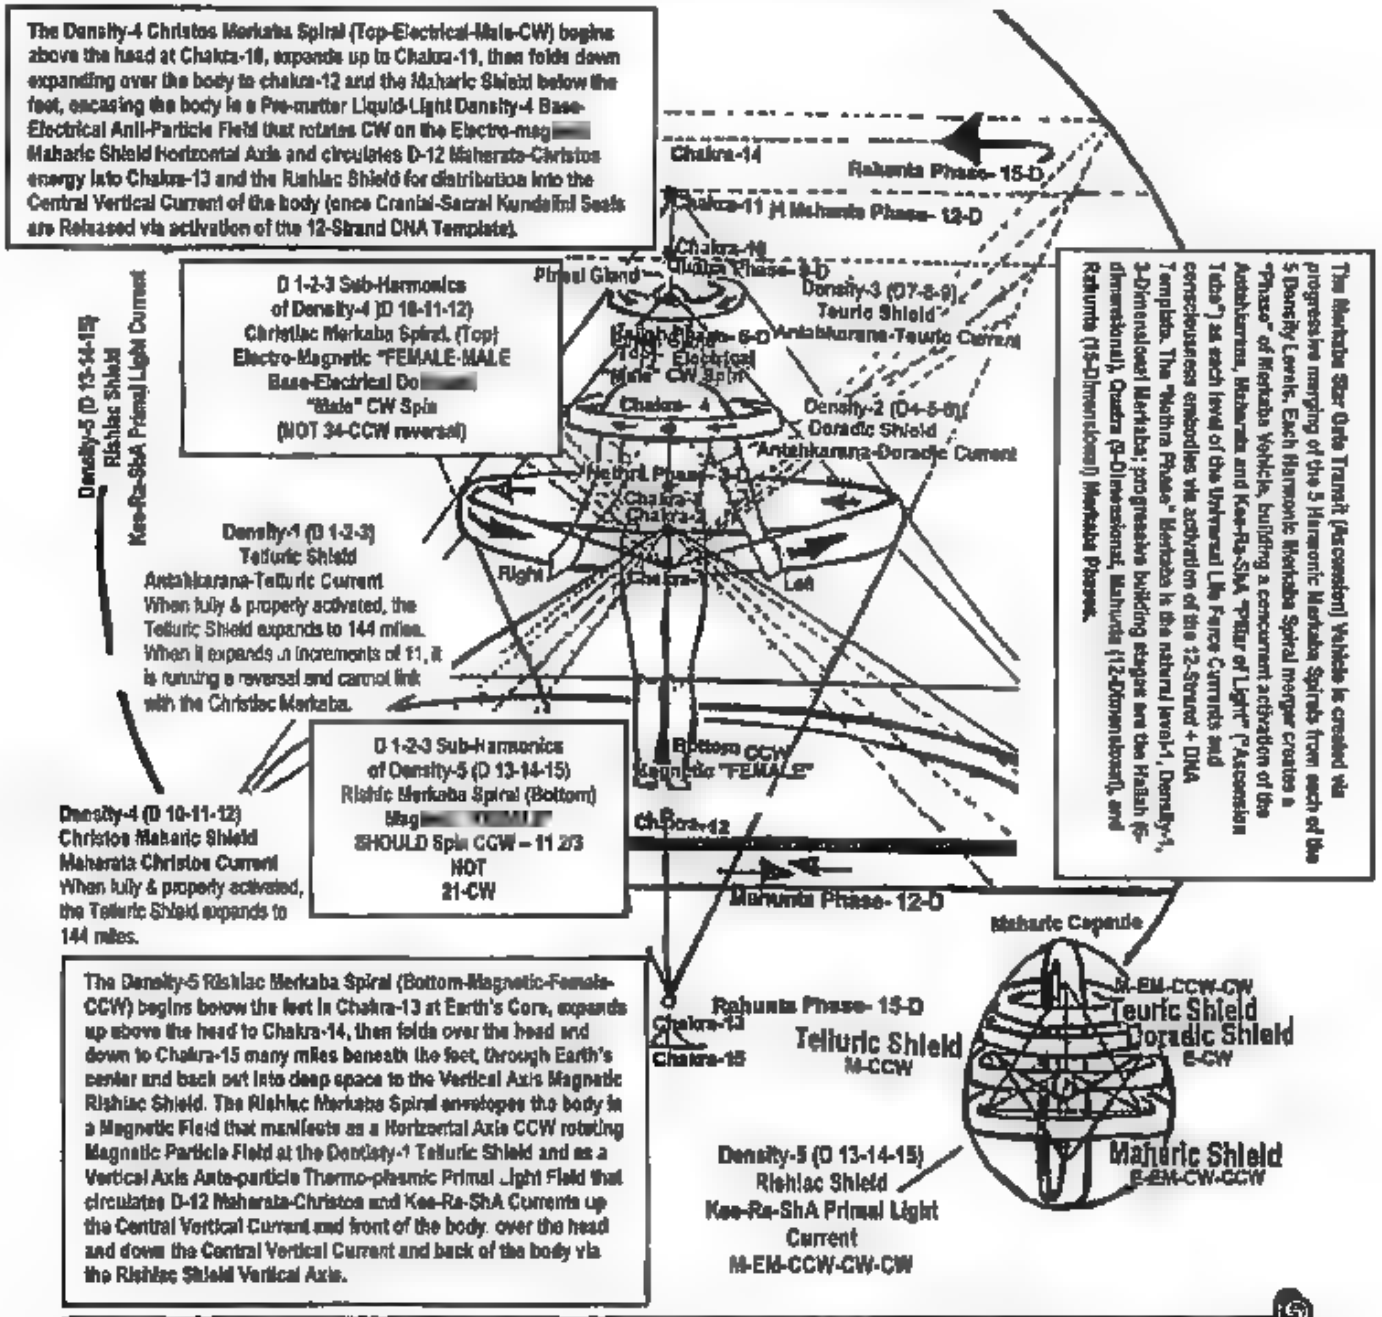
The Natural "*Nethra Phase*" Density-1 Merkaba Vehicle

Density-1 Sub-harmonics of Density 4-5 Christiac-Rishic Harmonic Merkaba Spirals



The NATURAL Spin Ratio between the Top (Male-Electrical-CW-Anti-particle) Density-4 Christiac Merkaba Spiral and the Bottom (Female-magnetic-CCW-Particle) Density-5 Rishlac Merkaba Spiral is 33 1/3-CW-Male-Top to 11 2/3-CCW-Female-Bottom. The 33 1/3-CW / 11 2/3 CCW Spin Ratio creates the NATURAL ratio of 33 2/3 – Parts-Electrical Anti-Particles to 11 2/3 – Parts-Magnetic Particles, (or 33 1/3 energy expansion/oscillation/thrust to 11 2/3 energy contraction/vibration/draw) within earth's Density-1 Matter Base, the organic Divine Blueprint of Density-1. This Christiac Internal Merkaba Vehicle spin Ratio creates a self-sustaining, Eternal Matter base that is MORE ELECTRICAL than Magnetic, which perpetually re-fuels itself via natural circulation of the Maharata, Kee-Ra-ShA and Khundaray Universal Life Force Currents.

Technique # 8: Merkaba Salutations

Healing the Spin & Balancing Particle/Anti-Particle Ratios

33 1/3-CW / 11 2/3 CCW Christos Merkaba Activation

Note: Discern CW or CCW direction of **Merkaba Spin** by imagining that you are standing, with arms stretched out to the sides, in the center of a round 12-digit clock-face. The **FRONT** of your body faces the **"6"-digit**, the **"12"-digit** is positioned behind you, the **"3"-digit** is positioned at your **LEFT ARM** and the **"9"-digit** is positioned at your **RIGHT ARM. CLOCKWISE "CW" SPIN**: Hold **LEFT "3"-Arm** firmly out to the side of the body like a **"clock hand"** and begin Spin toward **FRONT**, moving the body with the **LEFT** arm toward the **"6" digit** position in **FRONT** of your feet. **COUNTER-CLOCKWISE "CCW" SPIN**: Hold **RIGHT "9-Arm"** firmly out to the side of the body like a "clock hand" and begin Spin toward FRONT, moving the body with the RIGHT arm toward the **"6"-digit** position in **FRONT** of your feet. The **TOP-ELECTRICAL-MALE** Merkaba Spiral **Christos Spin** is always **33⅓ –CW** rotation.
The **BOTTOM-MAGNETIC-FEMALE** Merkaba Spiral **Christos Spin** is always **11⅔ -CCW** rotation.

Solar Salutation Rites: (best time Dawn's First Light & 12:00 Noon)
Begin with ***Top-Electrical-CW-"Male" Merkaba Spiral*** activation, followed by *Bottom-Magnetic-CCW- "Female"* Merkaba Spiral
Use Tribe-12 Activation Suffix **"RHA"** as ***Initiating Tone***
Lunar Salutation Rites: (best time 12:00 Midnight to 3:00 A.M.)
Begin with ***Bottom-Magnetic-CCW-"Female" Merkaba Spiral*** activation, followed by *Top-Electrical-CW-"Male"* Merkaba Spiral
Use tribe-1 Activation Suffix **"UR"** as ***Initiating Tone***

1. Activate ***Maharic Quick Seal*** (Technique-6)
2. Activate ***Tribal Shield-Cue Zone*** (Technique-7)
3. Stand with spine comfortably straight, breathe slowly, in a relaxed manner and begin **quietly toning** the ***Initiating Tone***, continuing repetition while progressively **increasing** the **volume** and extending the Exhale Breath Tone thrust behind Initiating Tone until you can **feel the subtle energy** of Tone sound waves oscillating in the body.
4. **Activate First Merkaba Spiral** (Top or Bottom Spiral first, depending on Solar or Lunar Salutation) by holding **arms out to the side**, parallel with the ground, and begin to **slowly SPIN** in the direction (CW or CCW) natural to the **"Christos Spin** of the Merkaba Spiral you are activating. Continue to Spin **AND Tone, Initiating Tone** while progressively **increasing rate of Spin and Toning**. To **prevent dizziness**, hold one arm out to front with thumb positioned UP, and **focus your eyes** on the **THUMB** rather than the spinning scenery beyond. Do not Spin faster than comfort level. You may **modulate toning in rounds of 3**, between the **Initiating Tone** and toning the Christos **Spin Rate Number** (**"33⅓"** for Electrical-Top Spiral, **"11⅔"** for Magnetic-Bottom spiral), if desired.
5. When energy in body feels **"charged"** (a "doneness" intuitive feeling), **slow spin** to a **gentle STOP**, while **Toning 3 Times**, the **"Um Shaddai' Ur'-A ah-Khum Tun" Lyra-Halls of Amoraea** D-12 activation sequence, to amplify the **Merkaba Spiral** charge. **Stand Still** and breathe quietly for a few moments while Spin stabilizes, **then repeat Steps 3-5 to activate other Merkaba Spiral.**
6. **End Salutation Rite** with **3 full Rounds** (minimum) **Toning** of the **"Arlea Khum Nar-A"** (Song of Orion D-8 activation sequence) **Part-1: Verses 1 and 2**, to be sung while **Walking 2 Circles**, one **CW**, one **CCW**, beginning Circle Walk with Spin direction of **First Merkaba Spiral** activation, followed by a **reverse-direction** Circle, then **Standing Still** for a few moments to allow the **Christos Maharata Current** to run between your body and Earth's Planetary Shields.

The fastest means of naturally activating the Personal 12-Strand DNA Template is:

1. **Tribal Shield Activation:** Activating the **144 Fire Letters** of the Tribal Shield & Sacred Salutations Merkaba Activations.

2. **Emerald and Amethyst Awakening - 2 Masters Kundalini Activations:** Releasing key **Fire Codes** between the DNA Strand Templates to allow for **expedited DNA Strand Braiding.**

3. **DNA Template Bio-Regenesis:** Progressive use of the internally directed DNA Template Bio-Regenesis technologies for progressive purging of Strand Template mutations, restoration of the natural D-12 Christos Divine Blueprint of the 12-Strand DNA Template and expedited, accelerated activation of the DNA Strand Template Base Codes and Acceleration Codes.

4 **Master Key Codes:** Use of the personal scalar-wave-guide Symbol Code Programs that correspond directly to the core programming of the personal D-12 Maharic Shield for further sequential expedition of Strand Template Activation.

5. **Melchizedek Cloister Level – 3 Regent Ordination:** Transmission of the Kee-Ra-ShA Primal Light and Khundaray Primal Sound Field "**Rainbow Ray Current**" directly into the personal **DNA Template** via direct **Chakra Induction**. Sufficient Rainbow Ray frequencies to provide a level-3 Regent Ordination can be transmitted by a Melchizedek Cloister **level-5 Elder Consummate** or **Level-6 Eckar** Indigo Child-Type-1 Maji Grail Line Angelic Humans, who have the frequencies of the Primal Creation Currents integrated into their **DNA Template** from birth. **Expedites all of the above** while providing additional **bio-energetic field support** for more **stable cycles** of DNA Template activation.

The *Khundaray RRT Activation* Sequence

A progression of **manually initiated** *Kundalini and DNA Template Activations* that systematically induce *temporary release* of the **Cranial-Sacral Kundalini Seals** (Pineal Gland & Tail Bone) in their **natural Release-Sequence**, allowing for temporary and ***progressive*** embodiment (nano-second burst of frequency) of the *Primal Universal Life Force Currents*, via **Syncopated Activation** of the **12-Strand DNA Template**.

The ***Khundaray RRT ("K-RRT") Activation Sequence*** allows the Density-4 (D-10-11-12 Pre-matter) ***Maharata Christos Current***, Density-5 (D-13-14-15) ***Kee-Ra-ShA Primal Light Currents*** (Ante-matter Blue, Gold and Violet "Flames") and the ***Khundaray Primal Sound Currents*** (Eckatic, Polaric & Triadic Columnar Standing Waves) from *Source*, to run through the DNA Template and body for accelerated ***TRUE 12-Strand or higher DNA Template Activation** and expedited human Spiritual Integration.

For the human body to **hold and transmit a minimum critical mass** of Kee-Ra-ShA and Khundaray frequency to **access the Planetary Shields** and **Star Gates** for ***Masters** (Universal) **K-RRTs***, the ***K-RRT Activation Sequence*** must be conducted **4 to 24 hours** prior to the K-RRT. The *K-RRT Activation Sequence* must also be run **2-24 hours** prior to the ***Amethyst Awakening Masters-2 Kundalini Activation***, to prepare the body for the Amethyst Awakening frequencies. The *Amethyst Awakening* (Field Technique-6) can also be run **just before** a K-RRT (following prior *K-RRT Activation Sequence*), to **greatly amplify the power** of the K-RRT and Signet Council group

There are **5 Specific Operations of Energy Management** within the ***K-RRT Activation Sequence:***

1. **Activating the Doradic Phase-1 Current**
2. **Awakening the KA**
3. **The Emerald Awakening**
4. **Activating the Kee-Ra-ShA**
5. **Activating the RA Center-Anchoring the Rainbow Bridge**

THE KUNDALINI LIFE-CURRENTS AND THE CRANIAL-SACRAL SEALS

The Human body is fuelled by ENERGETIC LIFE-FORCE CURRENTS FROM SOURCE. In contemporary human anatomy, the only life-force currents running fully through the embodied Kathara Grid and body are those corresponding to the SINGLE-VECTOR time cycle of the Density-1 TELLURIC SHIELD. Each of the 4 HOVA BODIES and their corresponding SCALAR SHIELDS, DNA STRAND TEMPLATES, AXI-ATONAL LINES, DIMENSIONS OF CONSCIOUSNESS AND MERKABA FIELD LEVELS process the frequencies of one TRIADIC CURRENT – a 3-dimensional, Bi-polar life-force current. The life-force currents corresponding to the first 9 dimensions and the first 3 Hova Bodies, Matter Densities and Shields are referred to as the KUNDALINI ENERGIES. Each KUNDALINI CURRENT is a TRIADIC CURRENT – a set of 3 dimensional currents that function together and are separated by Magnetic Repulsion Zones, within the embodied Kathara Grid. The 3 embodied Kundalini Currents are the TELLURIC, DORADIC and TEURIC CURRENTS.

Each of the 3 Kundalini Currents is spiraled within the regions of the 1st 8 CELLS of human conception, located in the TAILBONE at the Base of the Spine. (The incarnating consciousness anchors its identity and Christos Manifestation Template within the FIRST 8 CELLS, to initiate the FETAL INTEGRATION PROCESS.) The first Kundalini Current, the TELLURIC CURRENT that corresponds to the DENSITY-1 Nada Hova Body, is active within the human form from birth, enabling 3 dimensions of consciousness awareness, in the form of scalar frequency, to embody within the human organism. When the 2 dormant Kundalini Currents in the tailbone, the DORADIC and TEURIC CURRENTS, are activated, the frequencies of consciousness from dimensions 4-9 progressively awaken within the body, activating the dormant 4-9 strands of the 12-strand DNA Template. The 3 Primary Kundalini Spirals each contain 3 single-dimension currents and are controlled by the corresponding SIGNET STAR CRYSTAL SEALS in the Kathara Level-2 Crystal Seals Grid. The Signet Seals create polarization between dimensionalized sets of scalar waves within the Scalar Shields that manifest within the Kathara Level-2 Grid, First Eight Cells and DNA Template as FREQUENCY SEALS or blockages within the TAILBONE (Sacral region) and the PINEAL GLAND in the center of the brain – the CRANIAL-SACRAL SEALS.

When the Cranial-Sacral Seals are released, through activation of the Signet Star Crystal Seals that govern them, the dormant Kundalini Currents come to life within the body, sending progressively higher-frequency energy through the CENTRAL VERTICAL CURRENT of the body. Activation of the 3 Kundalini Currents progressively creates integration of the higher dimensions of consciousness and de-densification of molecular structure. When ALL of the frequencies within the 3 embodied Kundalini Currents are activated, the 4th KUNDALINI CURRENT – the PRIMAL TRIADIC CURRENT, the KEE-Ra-ShA', is activated. The Frequency Seal on the KEE-Ra-ShA is located in the 12th Chakra 6" below the feet. Activation of the KEE-Ra-ShA anchors the 12th Dimensional HYDROPLASMIC BEAM within the body, initiating the process of CELLULAR TRANSMUTATION and intentional de-manifestation and Dimensional Ascension of the human biological form.

THE EMERALD AWAKENING AND THE KEE-Ra-ShA'

The Emerald Awakening Masters Kundalini Activation is one of two inter-harmonic energetic activations of previously dormant frequency within the body, that sets in motion simultaneous activation of the 12 MAGNETIC BASE TONES within the FIRE CODES between the 12 Strands of the SILICATE MATRIX DNA Template. Activation of the 12 Fire Code Base Tones begins activation of the 3 PRIMAL CREATION FREQUENCIES the KEE Ra-ShA' within the 4 Scalar Shields of the PERSONAL INNER TEMPLAR COMPLEX. Activation of the 12 DNA Fire Codes allows for progressive, natural fusion of each dimensional DNA Strand Template to occur, through which the organic potentials of CELLULAR TRANSMUTATION are re-awakened within the physical body form.

Through the natural processes of Cellular Transmutation, once fully operational within the human genetic design, the carbon-based elemental biology of Density-1 molecular structure is progressively and systematically transmuted to SILICA-based biology. Transmutation to Silica-based biology allows the physical body to pass through the levels of Semi-etheric, Etheric and Pre-matter Hydroplasmic Liquid-Silica Densities of Harmonics 2-4 (Dimensions 4-12) through which the consciousness continually enters manifestation to achieve physical mastery of the organic process of Transmutational Dimensional Ascension. To accomplish mastery of the Ascension process, the SIGNET STAR CRYSTAL SEALS with the Scalar Shields, which keep the 12 dimensionalized frequency levels of consciousness and molecular form Phase-locked into dimensional division/ polarization, must be released. Release of the Signet Star Crystal Seals allows the frequency spectra of the higher dimensional anatomy and the Primal Creation Currents of the KEE-Ra-ShA to enter into the Template for the physical body and dormant DNA Fire Code Templates progressively building the Merkaba Vehicle and setting the Cellular Transmutation process in motion. The process of progressive Transmutational Dimensional Ascension represents the function of the organic genetic design and evolutionary objective of the human creation blueprint, through which the natural Eternal Christos-Angelic Form of the human being is actualized.

In the evolutionary cycles of contemporary humanity, actualization of the 12-Strand DNA potential takes place slowly, in Earthly terms, as the incarnate identity experiences single-life-time-vectors, several cycles of Density-1 incarnation, spanning many thousands of years, in order to progressively activate the DNA Fire Codes within the Manifestation Template. When the human genome was operating in its organic form, this process took place in one lifetime, over a period of about 44 years, as the eternal human incarnate matured to embody the 12 dimensions of consciousness within its original Christos Manifestation Template – the MAHARIC SHIELD, actualizing its organic Angelic-human heritage and mastery over 4 Densities of manifestation, within the Time Matrix.

The EMERALD AWAKENING Masters Kundalini Activation releases the Density-2 4th-Dimensional Green Signet Star Crystal Seal and the Density-1 1st-Dimensional Red Signet Star Crystal Seal, to open the Density-1 NADA HOVA BODY and TELLURIC SHIELD and Density-2 ALPHI HOVA BODY and DORADIC SHIELD, to receive the Omni-polar frequencies of the 12th-Dimensional MAHARIC CURRENT (Hydroplasmic Beam) from the Pre-matter Christos Template Maharic Shield. Upon entering the Telluric and Doradic Shields, the 12-Dimensional frequencies of the Maharic Current trigger simultaneous activation of the Base Tones within the 12 Fire Codes of the DNA Template, beginning the process of DE-POLARIZATION of the 12-Strands and levels of consciousness within the human Manifestation Template. Progressive de-polarization of the 12 levels of consciousness within the human Manifestation Template sets in motion the organic process of Cellular Transmutation and potential for mastery over Transmutational Dimensional Ascension. The Emerald Awakening Masters Kundalini Activation initiates REGENESIS of the original function of the human genome, releasing the Base Tones of the 3 KEE-Ra-ShA Currents within the body, via opening of 2 Signet Seals, through which the physical body begins the carbon-to-silica transmutation process and is prepared to receive the higher dimensional OVER TONE frequencies of the KEE-RA-Sha' to complete Cellular Transmutation via fusion and de-polarization of the particle (Particum) and anti-particle (Partika) aspects of the Manifestation Template. This is the natural process of UNIFIED FIELD PHYSICS by which a human being becomes 'Christed'.

THE AMETHYST AWAKENING AND THE KHUN-DA-RAY

The final step in fulfilling the potentials of original Angelic-human design is activation of the OVER TONE frequencies of the KEE-Ra-ShA, which allows fusion between DNA Strand Templates to complete on 12 dimensions of frequency. The final step in Transmutational Dimension Ascension is called the AMETHYST AWAKENING MASTERS KUNDALINI ACTIVATION. Through the AMETHYST AWAKENING the DENSITY-3 7th-Dimensional VIOLET Signet Crystal Seal and 8th-Dimensional GOLD Signet Star Crystal Seal and the DENSITY-4 11th-Dimensional DARK SILVER Signet Star Crystal Seal are released, within the body's Scalar Shields. Release of the OVER TONE SIGNET SEALS allows the OVER TONES of the KEE Ra-ShA Creation Currents to fuse with BASE TONES, bringing the 3 OMNI-POLAR CREATION CURRENTS (Primal Creation Currents built upon a TRINITY OF TONES, BI-POLAR + NON-POLAR energy units) together as ONE PRIMAL NON-POLAR CURRENT – the KHUNDARAY (also called the "Rainbow Bridge" or the "Rainbow Serpent").

The KHUN-Da-rAy is the PRE-LUMINAL vibration or STANDING WAVE OF INTERNAL SOUND emitted from ONE-SOURCE/ GOD, that corresponds to the COMBINED ORIGINAL SOURCE CURRENT from which the 3 KEE-Ra-ShA' PRIMAL LIFE-FORCE CURRENTS of the 3 non-dimensionalized levels of the ENERGY MATRIX, beyond the 15-Dimensional Time Matrix, emerge. The Emerald Awakening Masters Kundalini Activation and its resulting activation of the BASE TONES of the KEE-Ra-ShA' within the human body, is the first step in manually expediting the natural process of Transmutational Dimensional Ascension.

AWAKENING THE KA AND REMOVING INORGANIC CRYSTAL IMPLANTS

Before the Emerald Awakening Kundalini Activation can be orchestrated, the MAHARIC SHIELD and the KA must be brought out of dormancy, within the human Manifestation Template. Once the 12th-Dimensional Maharic Current is released, within the embodied Kathara Gird, the KA can be activated. The "KA" refers to the 4 HOVA BODIES corresponding to dimensions 1 through 12 (Nada, Alphi Betcha and Mahara Hova Bodies). The KA becomes activated through removal of 4 inorganic Crystal Sea IMPLANTS that block the natural function of the 2nd, 3rd and 4th DNA Strand Templates. Following the procedure for AWAKENING THE KA, the Emerald Awakening Kundalini activation can be conducted.

Technique # 12: Kee-Ra-ShA' Activation Sequence

Awakening the Flame

ACTIVATING DORADIC PHASE-1

Preparation: Activate **Maharic Seal** – **Technique-6 Maharic Quick Seal**

1 Breathe slowly and deeply for several breaths while visualizing or imag n ng a Violet Dot on the center of the inside of your forehead Make the color image as strong as you are able (if you can't yet perceive inner colors simply imagine the Violet Dot being there).

Move the Violet Dot to the center of the brain at the Pineal Gland, and then upward into the 7th Chakra finally moving it out of your head to rest on the top of your sku l, at the Crown Chakra.

2 Call to mind the H erophant Symbol (Pale Silver Merkaba Star / Star of David) Visualize the Hierophant spinning 12" below your feet within your Maharic Shield, and slowly INHALE drawing the Pale Silver Hierophant up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head.

When the Hierophant connects with the Violet Dot, visualize the Violet Dot bursting into a 4" vertical Pillar of Violet-Silver Light magine the Violet-Silver Pillar running down through the body and into the Earth's Core as wel as upward into the 14th Chakra, positioned 36" above your head (This activates the Violet Ray of Transmutation.)

3. Now, move your attention to the 4th Heart Chakra, and imagine a small Green Spherical Crystal - the Green Star - stationed at its core. This is the Green star Crystal Seal that controls release of 4th Dimensiona frequency - Phase I Doradic Current - into the body INHALE, drawing Violet-S lver energy from the Violet-Silver Pillar into the Green Star.

EXHALE, expanding the Violet-Si ver energy into the Green Star sphere. Repeat two more INHALE / EXHALE breaths drawing Violet-Silver energy from the Pillar and expanding it into the Green Star sphere.

4 At the end of the last EXHALE, imagine the Green Star POPPING turning into a spinning Green and Violet Starburst of Light, as the Violet Si ver Pillar disappears Spin the Green-Violet Starburst faster until it becomes a ball of Green-Violet Light about the size of a grapefruit spinning at the center of the Heart Chakra. (The green-Violet ball is the storehouse for your Phase I Doradic Current, it's called the Doradic Sphere)

INHALE and draw Pale Silver energy from your Maharic Shield, through the central Body Current and into the center of the Doradic Sphere at the heart Chakra .. encasing the sphere in Pale Silver Light.

AWAKENING the KA

1 Bring your attention back to the DORADIC SPHERE at the HEART CENTER. .

2. INHALE pale silver energy up from the EARTH CORE to fill & expand the DORADIC SPHERE, breathe slowly and deeply 2 3 times. .

The MCEO Freedom Teachings® Series Presented by Adashi MCEO LLC in Association with Azurite Press MCEO Inc.
Copyright A & A, 2002 All Rights Reserved

3. Now put the tips of your fingers together, and feel the 'fuzziness' of the energy flow...

4. Next, move the fingertips to the tail bone... INHALE energy from the Maharic Shield into the DORADIC SPHERE As you EXHALE, push PALE-SILVER energy down to the finger tips and into the tail bone.... . REPEAT 2-3 times and then remove the fingers.

5. Now bring your attention to the 2ND CHAKRA (SACRAL) .. feel or visualize or just know ... a DOUBLE TERMINATED QUARTZ CRYSTAL (a crystal with a point at both ends) is beginning to "push out" of the front of your 2ND Chakra, the Sacral center.

6. Focus your attention on this; try to feel the crystal pushing... use your hands to help ease it forward, and out.

7. There is a smaller double terminated crystal in the 3RD (Solar Plexus) Chakra; this will release on its own because the currents have activated it to do so. Help it out with your fingers.

8. In the Heart Chakra, imagine a little sphere of energy, colored green. Bring this little green sphere more fully into focus... and you will notice a little black cube of energy inside it... look more closely again, and notice a smaller white cube inside the black one.

9. As you focus on the two little cubes, watch them merge together ... feel a ripple of vibration as they do, and then . . notice a little puff of smoke as they both disappear.

   Now the body is activated to open the 4TH and 1ST Crystal Seals; you are ready for:

The EMERALD AWAKENING

1. Now we will open the GREEN STAR CRYSTAL SEAL ..... So, Keeping your awareness on the Doradic Sphere, the GREEN-VIOLET-SILVER ball at the Heart Center ..... INHALE,

2. and... on the EXHALE visualize or imagine pushing a cord of GREEN-VIOLET-SILVER Doradic Current down into the tail bone.... to the 1st Cell. .... at its very tip.

3. Breathe easily.... and take a moment to visualize the 1st Cell at the tip of your tail bone.... as a WHITE-SILVER SPHERE...

4. Now within the WHITE-SILVER SPHERE, visualize a GREEN SPHERE. . and then visualize a RED SPHERE inside the GREEN SPHERE...

5. Bring your attention back to the SPHERE of GREEN-VIOLET-SILVER energy in your Heart Center...

   and on the next EXHALE visualize, or imagine, sending a cord of GREEN-VIOLET-SILVER energy all the way down your central vertical column and into the GREEN SPHERE in the 1st Cell at the tip of the tail bone.

6. As you INHALE pull PALE SILVER LIGHT from your personal Maharic Shield, the platform-disc 12" below your feet, up into the tail bone and into the GREEN SPHERE.

Copyright A & A, 2002, All Rights Reserved

7 As you do this, visualize the GREEN SPHERE 'pop' into a STARBURST of PALE GREEN-SILVER LIGHT.

This has opened the Kundalini seal - your WHITE-SILVER & RED Spheres REMAIN as you left them earlier .... Now, we will work to open the **RED STAR CRYSTAL SEAL**...

8. Return your awareness to the Doradic Sphere at the Heart Center ... INHALE, and then on the EXHALE push a cord of GREEN-VIOLET-SILVER Doradic Current down to the 1st Cell at the tip of the tail bone...

9. INHALE and draw PALE SILVER energy up from the personal Maharic Shield, the platform-disc positioned 12" below your feet, up into the tail bone, and into the RED SPHERE.... inside.... the WHITE-SILVER SPHERE.

10. AS YOU DRAW the PALE SILVER energy into the RED SPHERE visualize the RED SPHERE 'pop' into a STARBURST of PALE PINK-SILVER LIGHT..... and..... for the next few breaths EXHALE the PALE PINK-SILVER LIGHT into the 12th Chakra, positioned 6" below your feet...

You have now opened the Kee-Ra-ShA' Seal ... so that the Sacred Flames of the Kee-Ra-ShA' can be activated..

ACTIVATING THE KEE-Ra-ShA'

The Kee-Ra-ShA' appears as 3 little flames which exist in the 12 Chakra positioned 6" below the feet. The 3 flames are PALE BLUE, PALE YELLOW, AND PALE VIOLET.

1. Begin by focusing deeply on the 12th Chakra, 6" below your feet, and the three little flames held there... one is PALE BLUE, one PALE YELLOW, and the third PALE VIOLET... We'll take a few moments to do this....

If you have difficulty visualizing, just imagine that they are there.

2. On the INHALE, draw the PALE VIOLET FLAME up from Chakra 12.. into the central vertical column... and all the way up... and out through the top of the head, to the 10th Chakra. . 6" above your Crown Chakra...

3. Next, return your attention to the 12th Chakra, 6" below your feet... allow yourself time to connect with the little PALE YELLOW-GOLD FLAME. Breathe easily.

4. On the next INHALE draw the PALE YELLOW-GOLD FLAME up from Chakra 12.. into the central vertical column.... and all the way up... and out through the top of the head, to the 10th Chakra... 6" above your Crown Chakra...

Again, return your attention to the 12th Chakra, 6" below your feet. and connect with the PALE BLUE FLAME... This FLAME is the INNER ARC of the COVENANT... Take your time; breathe easily.

5. On the next INHALE draw the PALE BLUE FLAME up from Chakra 12.... into the central vertical column... and all the way up... and out through the top of the head, to the 10th Chakra... 6" above your Crown Chakra ...

Copyright A & A, 2002, All Rights Reserved

6. Now, visualize or imagine the 3 little FLAMES together within the 10th Chakra 6" above your Crown Chakra ..... in a moment we will create the Kee-Ra-ShA' SPHERE... Breathe easily

7. On the next INHALE draw PALE SILVER energy from your personal Maharic Shield 12" below your feet, all the way up your central vertical column, up into the 10th Chakra ...

   EXHALE gently and INHALE once more, drawing more PALE SILVER energy up into the 10th Chakra ... visualize or imagine the 3 little flames enclosed within a SPHERE of PALE SILVER LIGHT....

8. Breathe easily. On the next EXHALE move the Kee-Ra-ShA' SPHERE all the way down through the central vertical column, out through the 12th Chakra 6" below your feet, and all the way down to the 13th Chakra at EARTH'S CORE.

   As the Kee-Ra-ShA enters EARTH'S CORE listen for sound tones with your inner ear...

   These TONES represent the AMENTI "PASS KEY" ... which opens your personal GRU-AL POINT (#1) - the 1st Cell in the Tail Bone... releasing the Kee-Ra-ShA' FLAMES into your AURIC FIELD.

9. Breathe easily... Watch as the Kee-Ra-ShA' FLAMES rise up your Maharic Pillar and emerge through your 1st Cell... passing like radiating waves of PALE BLUE, PALE YELLOW & PALE VIOLET .....

10. As the waves of color move through you, bring your attention to your first 4 Chakras... the base, the sacral, the solar plexus and the heart... and visualize or imagine each Chakra emanate a SILVER MAHARIC SHEATH or OVAL POD, completely surrounding each one..

This completes the EMERALD AWAKENING, the natural process by which we use Unified Field Physics to trigger our CHRISTED Selves. Before we finish we must first establish the link to the Amethyst Awakening, the process of activation and sheathing of the higher Chakras.

To complete the session we will now work with 8th & 11th Dimensional Energies to open DORADIC PHASE 2 & 3 CURRENT and activate TEURIC PHASE 2 CURRENT ... THIS IS CALLED **ACTIVATING THE RA CENTER in the THYROID - and ANCHORING THE RAINBOW BRIDGE**.

1. Begin by moving your attention to the area of your 3rd EYE, and focus just inside your fore-head .. a little above and behind your eye brows ... Breathe easily.

2. Now, visualize, or imagine, a DARK SILVER DOT in the position you are focused on ... in the area of your 3rd EYE ... Take a little time.

3. INHALE and move the DARK SILVER DOT into the Pineal Gland in the center of your head and then straight up through the CROWN CHAKRA until the DARK SILVER DOT sits on the top of your skull.

4. On the next INHALE, pull PALE SILVER ENERGY up from your personal Maharic Shield 12" below your feet, all the way up the central vertical current and into the DARK SILVER DOT on the top of your head...

   As the PALE SILVER ENERGY reaches the DARK SILVER DOT, the SILVER DOT 'pops' into a SILVER STARBURST. .

Copyright A & A, 2002, All Rights Reserved

5. On the next EXHALE push the SILVER STARBURST down the central vertical channel all the way to the tip of the tail bone .. EXPANDING the SILVER STARBURST FULLY into the 1st Cell.

6. Breathe easily and watch, as GOLD-SILVER-CURRENT emerges from the tailbone ... and begins to flow up through each Chakra .

   From the 1st Chakra at the base of the spine ... up through the Sacral ... the Solar Plexus ... all the way up to the Crown Chakra ... we'll take a little time for this ..

   From the Crown Chakra the GOLD-SILVER-CURRENT continues upward out of the top of your head ... up through the 10th Chakra 6" above your head ... the 11th Chakra 18" above your head ... and finally the 14th Chakra 36" above your head.

7. Once the GOLD-SILVER-CURRENT reaches the 14th Chakra it returns to the 1st Chakra ... the flow of the current creates a GOLD-SILVER SHEATH throughout your central vertical channel.

8. Bring your attention to the 2nd Chakra now ... we're going to create a GOLD-SILVER-BALL there, in the SEED SEAL at the center of the Chakra ... just imagine the chakra as a bow tie shape, the SEED SEAL is at the narrow point in the middle. The GOLD-SILVER-BALL is called the TEURIC SPHERE...

   INHALE and draw GOLD-SILVER-CURRENT from the GOLD-SILVER-SHEATH into the center of the Chakra... as you EXHALE create and EXPAND the BALL to surround the bow tie...

9. INHALE and move the GOLD-SILVER-BALL up to the 1st HARA CENTER . 2" BELOW the NAVEL (the 9th SILVER STAR SIGNET SEAL or TAN TIEN) .. EXHALE GENTLY allowing the BALL to EXPAND.

10 On the NEXT INHALE move the GOLD-SILVER-BALL up to the SOLAR PLEXUS and EXHALE GENTLY.

11. INHALE and move the GOLD-SILVER-BALL up to the HEART CENTER... EXHALE GENTLY... ... INHALE ... drawing more GOLD-SILVER CURRENT into the BALL and THEN EXHALE FORCEFULLY pushing cords of GOLD-SILVER-CURRENT down each arm and into the PALMS .. bring your fingertips together and feel the fuzzy buzz of TEURIC PHASE 3 CURRENT.

You have now activated TEURIC PHASE 3 CURRENT in your palms and you are now able to run CURRENT from D4 thru' D8 to transmit to the THYROID GLAND ... to activate and anchor the Rainbow Bridge in others.

End of Field Technique-5 The K-RRT Activation Sequence (5 A-B-C-D-E)

You are now ready for the Amethyst Awakening *Masters Kundalini/DNA Template Activation-2* (Field Technique 6 *Initiating the Amethyst Awakening*) or to participate as an active member of a Khundaray Rainbow Roundtable (K-RRT) Signal Council (Field Technique-4 A-B-C). Wait at least 4 Hours before K-RRT participation, and no longer than 24 hours, to maintain the appropriate level of critical mass Khundaray frequency in the body that is needed for an effective K-RRT.

INITIATING THE AMETHYST AWAKENING

1. Preparation: Complete **Maharic Quick Seal – Technique-6** and **Activation Sequence.**

2. This technique works to bring in a burst of the Khundaray, Eckatic Blue frequency ... that sets the Amethyst Awakening in motion.

3. Place your attention at the center of your brain, inside your pineal gland. Imagine that you see there a Pale Violet Spark of Light (this is the bottom of the Seal of your 7th Crown Chakra). Imagine that you are going to move this Pale Violet Spark of Light straight up into your 10th Chakra 6" above your head ... Imagine that the 10th Chakra is a disc of Light, Blue/Black - Sapphire.

4 Now see the disc of Light that was Blue/Black take on a Violet hue. Try to feel it there, a small horizontal disc. On the INHALE you will move this disc of Violet-Sapphire Light up to the 24 point Silver Star at the 14th Chakra. and, on the EXHALE, move it down through the 10th Chakra, down through the Crown, down the Central Vertical Current, down through your Personal Maharic Shield, all the way down to the 13th Chakra at the Earth's Core...

5. Notice, as you do this, a whole series of Violet-Blue Sparks flying out from the Planetary Maharic Shield, as if they are alive, as if electrical communication is taking place. Notice as this happens that the energy flowing up your Maharic Pillar from the Earth Core reflects this change as Violet-Blue energy flows slowly up toward you . As this energy reaches your personal Maharic Shield, notice that it does the same thing as the Planetary Shields - throws out a shower of Violet-Blue sparks... all communicating with each other about the mathematical instructions about what to do with your body, your crystal seals, your chakras...

6. Now, move your awareness to the Pale Silver Skin all round your body / etheric body ... and be aware too of the Main Vertical Current that you brought the Pale Silver cord through ... and at the same time, on each coming INHALE, bring up the Pale Silver-Violet-Sapphire energy, simultaneously, from your Maharic Shield to infuse the Pale Silver Skin all round you.

   Take a few breaths to do this and watch as the 3 colors flicker through you - when they reach the Heart Chakra feel them expand out ... and allow them to travel on up, all the way to the 14th Chakra ... expanding throughout every Chakra as the Pale Silver-Violet-Sapphire energy flows up, through and all around you... See each Chakra respond with a spiraling burst of Silver-Violet-Sapphire, backward and forward through both sides of the Chakras until they all shift... Try to feel the process as it awakens all the cells of your body.

   The brain cells and brain patterns begin to respond, activating the Fire Letters, setting the grid of frequencies necessary to activate the Fire Codes 7, 10, and 12 in the DNA Template

Your own **D-12 Christos Avatar Identity level will slowly release the *Khundaray Activation Frequencies*** through which the Amethyst Awakening progressively unfolds in the DNA Template and body. This process can be naturally and safely accelerated by receiving a **Level-3 MC Regent Ordination** transmission from a qualified **Indigo Child/ Eleyani *Level-4*** through ***Level-6 MC Ordinate* Consummate, Elder Consummate** or Eckar that carries the necessary Amethyst Awakening Khundaray Activating Frequencies in their Eleyani DNA Templates.

The Merkaba Trinity Key Induction

The **Merkaba Trinity Key Induction Technique** begins the process of establishing a **conscious directional relationship** with various levels of your 15-Dimensional Anatomy (or that of your Client) The **Trinity Key Symbols** are **mathematical-geometrical programs** that carry the specific organic structure of **each dimensional frequency band** as it exists within the **D-12 Universal Divine Blueprint** Imbuing the proper **Symbol Key** into the appropriate area of the personal anatomy can rapidly expedite **restoration of the personal Divine Blueprint** within the **DNA Template, Chakra System** and embodied **Kathara Grid** Use of the Trinity Master Key Symbols that correspond precisely to the natural order of each dimensional frequency band can **intensify all applications of holistic and allopathic healing**, as well as progressively and systematically assisting in the process of accelerating **DNA Template** healing and **activation** Every **condition** within the body-mind-spirit system has a specific **Energy Signature**, unique to its own construction Every **dis-ease** condition within any aspect of the personal experience (physical, emotional, mental, spiritual, financial, social, etc.) is created and **held in manifestation** by a specific set of mathematical-geometrical energy relationships that are **stored** within the embodied **Kathara Grid** and **DNA Template** in the form of **Symbol Keys**.

The mathematical-geometrical energy relationships that serve as the **blueprints** upon which experiential manifestation will emerge can be perceived by the conscious identity in its Symbol translation When using the **Trinity Master Key Symbols**, you are **resetting and activating very specific portions** of the personal **Divine Blueprint** (D-12 Pre-matter Maharic Shield) into a naturally harmonious relationship with Universal Order (the organic structure of dimensionalized frequency bands) The Trinity Master Keys, provided in this Technique trigger activation of very specific **Fire Letters** (Keylons) within the DNA Template allowing the DNA Template to receive, directly, the **new electrical instructions** corresponding to the personal Divine Blueprint. This technique can be used with Kathara Healing Techniques from Kathara Level-1 and with any other healing modality or singularly after activating the D 12 **Maharata Current** via **Tehcnique-6, The Maharic Quick Seal.**

It is **necessary** to initiate a **D-12 Maharic Seal** in order to run **any Symbol Key program** into the DNA Template and Level-1 Kathara Gird It is the strength of the D-12 Maharata Current that allows access to the deepest levels of the Personal Shields and Divine Blueprint. The **Trinity Master Key Symbols** are a **set of 3 Symbol Keys** that are to be used in **sequence** The first two Trinity Keys, the **Initiating Keys** are used in **every application**, to open the embodied Level-1 Kathara Grid to received new instructions The third Trinity Master Key Symbol, the **Transmitting Key**, corresponds directly to the Divine Blueprint of **one dimensional frequency band** and its corresponding **Kathara Center, DNA Strand Template, Chakra** and related body regions **Axi-A-Tonal Line, Auric Field Level** and **station of consciousness** In a **Trinity Key Induction Session**, one can choose to work on only **one dimension** (Chakra-DNA Strand Template-Kathara Center-Axi-A-Tonal Line-Auric Level) via its Transmitting Key, or each of the **12 Transmitting Keys** of the Universal Kathara can be used, **in sequence** following induction of the two Initiating Keys

The process of using the Trinity Keys is simple; the **Chakra** that corresponds to the Transmitting Key/dimension/DNA Strand with which you desire to work is used as the **vortex** through which the Trinity Keys are **INDUCED** into the corresponding **Kathara Center** From the Kathara Center, the Trinity Keys electrically pass on to the **DNA Template** and from there into the **Axi-A-Tonal Line system** and corresponding areas of the body-mind-spirit system Use of the Trinity Key Induction Technique progressively assists in activating the personal **Merkaba Vehicle** while **amplifying and expediting restoration** of the personal Divine Blueprint

Technique # 9: Merkaba Trinity Key Induction

1. Activate the Maharata Current via **Technique-6: The *Maharic Quick Seal*** and decide which Transmitting Key(s) you will use. Trace the 3 Trinity Symbol Keys onto 3 small squares of paper

2. First, place each of the papers, with the two Initiating Keys, face up on the floor, then stand (barefoot or socks only) with one foot on top of each of the papers: **Initiating Key #1** under **LEFT foot, Key #2** under the **RIGHT foot.** (Note: To run Trinity Key Induction for a Client, have them recline on their back and place the papers with Initiating Keys in your palms and hold about an inch from the soles of the Client's feet (in the Etheric Body). As introduced in Kathara Level-1, use your **palm Chakras** to **transmit** the Symbols and the Pale-Silver Maharata Current, using the same action as described below, into the **Client's foot Chakras:** Key-1 LEFT foot-*right hand transmission*, Key-2 RIGHT foot-*left hand transmission*) In Self-induction, the papers with Symbols should be positioned beneath the balls of your feet in the area of the main Chakra on the sole of each foot Simply begin to breathe **deeply** and slowly for a few minutes. With each **INHALE** draw a thick **stream** of **Pale-Silver Maharata Current** from Earth's core through the **Central Vertical Current** of the body and out the top of the head to the **14th Chakra**, 36" above the head With each **EXHALE**, imagine a grapefruit sized Pale-Silver **Maharic Ball** rapidly moving down your Central Vertical Current. When the Maharic Ball reaches your 2nd Chakra, near the navel, imagine the Ball splitting into Two **Balls**, each continuing to **travel down each leg and out your feet Chakras**, through the Symbol Keys Once the Two Balls of Maharic Current have passed through the Symbol Keys, imagine that they **re-merge** into the one **grapefruit sized Pale-Silver Ball**, that continues to move downward into the **13th Chakra** at Earth's core **Continue** this process until you sense a **momentary slight warmth, tingling** or **subtle itching** at the **balls of your feet**. These mild, **momentary sensations**, called the **CUE RESPONSE**, will grow stronger the more frequently you use the feet Chakras for Symbol Key induction. Once you have noticed the **Cue Response**, you have **successfully induced** the two **Initiating Trinity Keys** and it is now time to utilize the remaining **Transmitting Key.**

3. If you have chosen to use the Transmitting Key for D-1-Strand-1-Axiatonal Line-1-**Chakra-1**, continue **standing** for the final Symbol Key induction, placing the paper, with the Transmitting Key, face up on the floor, between **slightly parted feet**; **do not stand on the Symbol Key paper for Base Chakra Induction** For all other Chakras, **recline on your back** and place the paper with the Transmitting Key **directly on top of the Chakra** to which it corresponds, **on the front of the body** Use each **INHALE breath** to draw Maharata Current up from Earth's Core, into the Central Vertical Current **only as far up as the selected Chakra.** On each EXHALE, push Pale-Silver Maharata Current **out from the Central Vertical Current** of the body and **into the Chakra**, imagining that the Chakra is progressively turning into a **radiant vortex of Pale-silver light that spins faster and faster** When you begin to feel a bit of warmth, tingling, energy running or itching of the skin **at the Chakra region (the Cue Response)**, use a final **INHALE breath** to draw the image of the Symbol **down through the Chakra into the body** and into the tiny **Crystal Seal**, that links the Chakra to the Central Vertical Current. Take a **FINAL exaggerated EXHALE** and imagine that you have **pushed the energy of the Transmitting Symbol Key** out of the Chakra into the **corresponding level of the Auric Field.** Once imbued into the **Auric Field**, the single image of the Symbol then **replicates automatically and rapidly**, creating **millions of mini-replicas of the Symbol**, within your bio-energetic field When the **Cue Response** sensation at the Chakra has **completely ceased**, you have **successfully induced the entire mathematical program** of the Transmitting Symbol into the corresponding Kathara Center, DNA Strand Template, Axi-A-Tonal Line, body region and level of consciousness.

In **Kathara Level-1**, we have learned of the innate structures of multidimensional reality and how these structures are intimately intertwined with the *15-Dimensional Human Anatomy* and levels of personal identity, through the personal *Maharic Shield and DNA Template*. In rediscovering these long forgotten aspects of the Human condition and our inherently implied relationship to Universal Order, we've become empowered to draw upon the natural Triadic **Phase Currents** indigenous to our personal biology and universal structure, in order to take an active hand in personal Conscious *Bio-spiritual Evolution* and **healing**, as well as healing facilitation for others. *Techniques 1-5 (#1-Awakening the Mentor, #2-Maharic Seal and Liquid Light Cleanse, #3-Opening the Healing Channels Doradic Phase-1 Current, #4-Multi-vector Holographic Recoding Kathara Scan and #5-The Maharic Infusion* plus client session) contained within *Chapters 1-4* of the *Kathara Level-1, Maharic Recoding Process*, enables us to begin conscious interaction with the "invisible" processes of the **Body-Mind-Spirit Evolution**, that are inherent to the Human design.

In our introduction to **Kathara Level-2**, we have begun to explore the greater nature of Universal **Life Force Currents**, the "mysterious" sciences of **Merkaba Mechanics** and their indelible connection to our personal evolution and **Bio-spiritual Actualization Processes**. *Techniques 6-12 (#6-Maharic Quick Seal, #7-Ps13 Tribal Shield Activation, #8-Merkaba Salutations, #9-Merkaba Trinity Key Induction and #12-Kee-Ra-ShA' Activation Sequence)* so far explored within *Chapter 5 of Kathara Level-2 Introduction*, enable us to advance our conscious interaction with the processes of personal Body-Mind-Spirit Evolution and Bio-Spiritual Actualization. As we increase our personal abilities to understand, embody, hold and direct the inherent powers of the Universal Life Force Currents, and to access the levels of personal spiritual identity and wisdom to which they correspond, we progressively increase our ability to consciously facilitate healing in ourselves and for others we may choose to serve. An in-depth study of Universal Life Force Currents and Masters Merkaba Mechanics involves cultivating a necessary familiarity with a broad spectrum of interrelated subjects that take us into the heart of the Science of Vibrational Mechanics and Holographic Creation Physics, as well as into the very Soul of our spiritual relationship to consciousness, ourselves, each other, our world and God. Mastery of Merkaba Mechanics is an attribute inherent to achieving the state of consciousness often called "Ascended Mastery", which requires much in-depth study into the "mysteries" of creation. However, a functional mastery of Merkaba and the related constructs of the personal "inner Templar" system, upon which the personal body and identity manifest, can be achieved through gaining familiarity with and actively employing core mechanics of the personal Merkabic System.

As our Kathara Level-2 Introduction began, our exploration of active techniques of *Tribal Shield Activation, Merkaba Salutations* and *Trinity Keys* set us on the path of becoming functionally able to consciously direct elementary operations of the personal Merkaba Vehicle and Life Force Currents, as a means of expediting our progress of Bio-Spiritual Evolution through DNA Template/Merkaba Field Activation. As our Kathara *Level-2 Introduction* continues, we will begin to explore the seemingly "***magical world of Merkaba***", rediscovering the very tangible importance of **Merkaba Fields** in relation to the inherent dynamics of DNA, health, healing and spiritual actualization. To achieve genuine integrity in the facilitation of healing for others, one must simultaneously strive to heal and actualize the self. The greater the level of health and spiritual actualization possessed by a healing facilitator, the greater will be the facilitation of healing for the client to whom the healing facilitator is in service. As Kathara Level-2 Introduction draws to a close, we will begin an introductory exploration of the "Ancient Secrets" of the Veca Codes, so that we may engage practical application of two additional techniques of Photo-Radionic and Photo-Sonic **Merkabic Healing**. ***Technique - #10 – Restoring the Trion Field Veca Code Activation and Technique - #11 – restoring the Meajhe Field Eckasha Activation***, will provide us with powerful tools of the Kathara Healing trade that will ***substantially increase the quality, amount and power of interdimensional frequency we are capable of receiving, holding and transmitting***. Through these simple but effective Merkabic Healing tools we can expedite our processes of personal healing and spiritual actualization, thereby enabling us to become more effective and powerful healing facilitators in our client session service.

The "Magic of Merkaba"

Spiritual-science teachings of **Merkaba Mechanics** emerge from the most ancient of times; record of Merkaba teaching is most often found in obscure traditional "Occult" texts or within New Age "Ascension" teachings. Genuine Merkaba Sciences hold the keys to understanding and mastering the processes of both spiritual and physical evolution, on a personal, planetary, galactic and universal level. Merkaba Mechanics are not the product of "science fiction", nor are they "magical hocus-pocus" of "occult mysticism". Merkaba Mechanics are not "magic" at all, but rather an intrinsic element of universal Primal Order. **Merkaba Fields**, sets of Star-tetrahedron shaped counter-rotating electro-magnetic energy fields within and surrounding manifest forms, are simply an inherent element of the 15-Dimensional Anatomy of form manifestation and the Primal Order structure of multidimensional Creation Physics. In the "*Transduction Sequence*", described in *Kathara Level-1*, the sequence of energy transmutation, by which conscious energy manifests into tangible biological form, the *Merkaba Field* represents the structure and stage of energy dynamics by which *Primal Life Force Currents* pass from the scalar-wave-template of the embodied *Kathara Grid levels* into the *DNA Template*. In terms of non-biological form manifestation, all forms possess an inherent structure of interwoven Merkaba Fields, through which Primal Current energy is transmuted from the Kathara Grid Core scalar-template level into the outer levels of the Kathara Grid and Axiom Line template, upon which the specialized structure of the form builds up, through particle-anti-particle accretion, into physical manifestation. Merkaba Mechanics seem "magical" only when the inherent "**Laws of Nature**", that govern the dynamics of **Multidimensional Universal Unified Field Physics** are not understood.

Through understanding genuine Universal Unified Field Science, Merkaba Fields and their inherent dynamics, as utilized in the study of Merkaba Mechanics, we can realize they are simply recognized as natural elements of the processes inherent to Creation Physics and the naturally occurring, organic relationships between Energy Consciousness and the Holographic Manifestation of form.

As Merkaba Fields are an intrinsic, significant and natural part of the Body-Mind-Spirit anatomy, the study and application of Merkaba Mechanics is an essential component in any Masters Holistic Healing or Spiritual Actualization program. Merkaba Mechanics are "*Scientific*" in that they represent a core element within the innate processes of creation and manifestation that are intrinsic to the sciences of Creation Physics. Merkaba Mechanics are also "*Spiritual*" in that it is through the innate structures and dynamics of Creation Physics, of which Merkaba Mechanics are a natural part, that consciousness enters the manifest arena in the form of sentient, individuated, multidimensional identity. The "body, mind and spirit" of every manifest being is formed through and governed by the natural laws of Creation Physics and Primal Order. The Laws of Creation Physics and Primal Order are designed and maintained by and within a non-manifest, intelligent, central Consciousness Force and Source of Creation that is commonly referred to as "God". God expressed It-Self in the form of *Conscious-energy Constructs* that carry the living "Spirit and Consciousness of God" in the form of **Primal Life Force Currents**, which are the foundations for macrocosmic and microcosmic creation and manifestation. Merkaba Fields, and the mechanics by which they function, are an indelible part of the physics of Creation and Consciousness and are thus intimately involved with the Bio-Spiritual processes inherent to **Spiritual Actualization**.

Particles, People, Planets, Galaxies and Universes all have **sets of interwoven Merkaba Fields** that serve as the "**core Primal Life Force Current circulation system**" between the Cosmic, Universal, Galactic, Planetary and Personal "Divine Blueprint" Kathara Grid scalar–templates and the manifestation of those blueprints into the tangible structures of matter. Merkaba Fields are the "**carriers of consciousness**" and the "**engines of energy**" by which physically manifest forms are created, maintained and evolved through the Holographic Unified Field of manifest space-time-matter reality. In relation to the processes of personal bio-spiritual healing and spiritual actualization, the personal Merkaba Field is an intrinsic aspect of 15-Dimensional Anatomy that directly governs the function of the physical, emotional, mental and spiritual body systems. **The multidimensional structure of the personal Merkaba Field is the system of electro-magnetic interface by which the Primal Life Force Currents and Consciousness of God-Source and Its sentient individuations pass from the Kathara Grid Core Template into the scalar-wave DNA Template that holds the blueprint for the physical-chemical biological DNA**. The reality of **Merkaba Field-DNA Connection** implies that the personal Merkaba Field is directly related to the function or dysfunction of the **biological genetic code**. As the Merkaba Field "carries the energy of consciousness" into the DNA and biological *vessel*, the *Merkaba Field-DNA Connection* also implies that the potentialities of consciousness and embodiment of spiritual identity, while a being is ensconced within the Time Matrix, are dependent upon the condition and function of the personal Merkaba Field, DNA Template and Kathara Grid.

*Merkaba Fields are the **"carriers of consciousness"** and the **"engines of energy"** by which physically manifest forms are created, maintained and evolved through the Holographic Unified Field of manifest space-time-matter reality.*

Universal Merkaba Field Structure

Basic Merkaba Field structure is relatively simple. Viewed Macrocosmically in a 15-Dimensional Time Matrix there are **15 sets** of counter-rotating electromagnetic **Merkaba Spirals** that form **15 Universal Dimensional Merkaba Fields**. A "**Merkaba Field**" is composed of a set of **2 Merkaba Spirals,** one electrical-transmitting "cone", the other magnetic-receiving "inverted cone"; the 2 "cones" of the Merkaba Spirals, which operate as a **White/Black Hole Pair**, intersect each other, creating a system of energy vortices that form an **Elliptical Sphere** of energy, within the center of the intersected Merkaba Spirals. The Sphere of energy at the center of a Merkaba Field is called the **FORM CONSTANT**. It is a "**spherical energy domain**" within which the individuation of consciousness and holographic manifestation/projection of form can take place, akin to an "energy egg" within which manifest reality occurs. Within this Sphere of energy, at the center of a Merkaba Field, the template-blueprints of a form are held "constant", allowing conscious Partiki units, particles, anti-particles and ante-particles to accrete in specific ratios to "fill out the form in matter". Within the Form Constant sphere, consciousness is able to perceive the **holographic illusion** of externalized space-time-matter manifestation, as the scalar-template of the form is held fixed within the sphere. The "hologram" appears to remain "constant" within the Form Constant sphere while consciousness is focused within the frequency bands of which the Merkaba Field is composed.

On the macrocosmic universal scale, the Form Constant of each Universal Dimensional Merkaba Field creates a single, elliptical-sphere shaped electromagnetic domain of frequency that represents a single dimension of manifestation. Following the innate mathematical-geometrical structure of Primal Order, the 15 Universal Dimensional Merkaba Fields group into **5 sets** of 3-Dimensional Merkaba Fields, called **Universal Harmonic Merkaba Fields**. The 3 Form Constant Spheres, from each set of 3 Universal Dimensional Merkaba Fields, form a **Universal HOVA BODY**, or a "Harmonic Universe" electromagnetic domain. Following the mathematical Primal Order program of a Time Matrix, as held within the Universal Kathara Grid template and transmitted through the rotation ratios of the Harmonic and Dimensional Merkaba Fields, each of the 3 dimensional levels of a Universal Hova Body holds the Partiki units, consciousness and matter particulates, of its dimensional field, into a specific angle and speed of rotation. The 3-Dimensional Harmonic Merkaba Field controls the relationship of particle rotation angle (angular rotation of particle spin or "**ARPS**") and rotation speed between each of the 3 Dimensional Merkaba Fields, governed by 5 larger 3-dimensional Universal Harmonic Merkaba Fields, all of which circulate consciousness in the form of Primal Life Force Currents into and out of the hologram of manifestation. The seeming solidity and durability of an externally manifest matter-field in space-time is created, maintained, perpetuated and completely dependent upon the intrinsic function of the Universal Merkaba Fields.

Within the larger Form Constant elliptical-spheres of the 5 Universal Hova Bodies of a 15-Dimensional Time Matrix, the holographic perceptual realities of space-time-matter take place. Every being or thing in manifest form enters its reality hologram *by taking on the mathematical program* of first the *Universal Kathara Grid* and *5 Universal Hova Bodies*, which set the "Life Stream" or "Stream of Consciousness" of Primal Creation Currents, in

motion, following the specific **Harmonic Merkaba Fields spin ratios** characteristic to each Harmonic Universe System. Galaxies are formed in this way, as individualized expressions of the greater Harmonic Universe of which they are a part. **Universal Harmonic** and **Dimensional Merkaba Fields** govern the birth, evolution and transmutation of the galaxies within them. **Galactic Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation of **star systems and planets** within them. **Planetary Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation/death cycles of the **species** and **matter forms** existing upon the planet. The **Personal Merkaba Fields** of species and individuals direct the function of the personal **DNA Template, chemical DNA** and **biological genetic code**, thus governing the birth, evolution and transmutation processes of individual organisms. The mathematical-geometrical programs of the **Primal Order "Divine Blueprint"** that govern Merkaba Field formation and spin ratios are held within the Universal, Galactic, Planetary, Species and Personal Kathara Grid structures. In a singular 15-Dimensional Time Matrix, the **interlinked Universal, Galactic and Planetary Harmonic and Dimensional Merkaba Fields** circulate Primal Life Force Currents and consciousness into and out of manifestation in space-time.

Each individual being receives its life force, consciousness, biology and manifest hologram through the innate connection between the **Personal Merkaba Field** and the Merkaba Fields of the Planet, Galaxy, Universe and Time Matrix. When the **D-12 Pre-matter Divine "Christos Blueprint"** is expressing naturally in a planetary system, the organisms on the planet circulate Life Force Currents and consciousness through the physical and "spiritual" bodies via the Personal and **Planetary Merkaba Fields**. The Planetary Merkaba Field circulates Life Force Currents through the **Personal Kathara Grid** template (morphogenetic field) of the organism via the **Planetary Bio-Feed Interface System.** The organism's **Personal Merkaba Field** then picks up the energy from the Kathara Grid and continues to circulate the Life Force Currents from the Personal Kathara Grid into the **Maharic Shield imprint** in the **DNA Template** that is held within the Level-1 *Kathara 12-Tree Grid*, Level-2 *Kathara Crystal Seals-Hara Grid* and Level-3 *Kathara Diodic Grid*. From the Maharic Shield imprint in the Kathara Grid, the Personal Merkaba Fields distribute the Life Force Currents and consciousness into the **DNA/RNA Template** and **Axiom Lines**. The Life Force Current continues circulation from the DNA/RNA Template and Axiom Lines into the **Personal Hova Bodies** and **Auric Field**, to the **Chakras** and **Meridian Lines**. Passing through the Meridian Lines, the Life Force Current, imbued with the specific mathematical manifestation program picked up from the Kathara Grid Divine Blueprint Template, then enters a state of final transmutation into 3-dimensional particles by passing through an electrostatic **Repulsion Zone** barrier that exists surrounding each 3-dimensional Hova Body.

The frequency barrier surrounding each 3-dimensional Hova Body forms a **thin, skin-like membrane** or "**Tissue Capsule**" surrounding each of the 5 Hova Bodies in the 15-Dimensional Anatomy. The **Hova Capsule** membrane is composed of Density-5 **Primal Light** ante-matter units, called **TRION UNITS**, that exist in the form of fixed standing-columnar-scalar-light waves made of **Keylons**, or 3-dimensional **Partiki Grids**. The Trion Units and Keylon Partiki Grids within them are anchored upon a fixed field template of **Primal Sound** units called **MEAJHE UNITS**, which exist as fixed points of mathematically organized vibration. The outer layer of each Hova Capsule is called the **Trion Field**, as it is composed of **Trions**, or units of Density-5 ante-matter Primal Light. The inner portion of the Hova Capsule is called the **Meajhe Field** as it is composed of **Meajhons** (mE' yans) or fixed points of Primal Sound vibration, from the **Energy Matrix**, beyond the holographic manifestation of the Time Matrix Light Fields. The collective body of the 5 Hova Capsules is called the **RADIAL BODY** or **Trion-Meajhe Field.** All manifest forms possess a core Radial Body/ Trion-Meajhe Field **Hova Capsule** structure as part of the intrinsic 15-Dimensional anatomy.

As multidimensional Life Force Currents pass through the Meridian Lines and into each of the 5 layers of the Radial Body, the energy currents and the consciousness carried upon them project the mathematical program of the Divine Blueprint into the Trion-Meajhe Field of each of the 5 Hova Capsules. Within the Hova Capsule, the individualized raw Life Force

Currents enter a system of 3-dimensional energy conduits or **rivulets** called **Radis**, which are the "turnstiles" between "manifest matter" and "conscious energy".

The Radis draw in the Life Force Currents with their manifestation program through the Trion-Meajhe Field, then polarize and break up the Trion and Meajhon units into negatively and positively charged electrical sub-units called **Mions** and **Dions**. Partiki, Keylons, Meajhons, Trions, Mions and Dions belong to a category of primal building blocks known as **IONIC PARTICULATES**, which are the building blocks of consciousness, energy, light, sound and scalar-wave-fields that form the blueprints upon which all matter manifests. **Trions** are electrostatic particulates that have both a negative and positive electrical charge, which renders them neutral or static; they are the foundations of what becomes **Ante-matter** Primal Light particles of pre-visible gaseous light. Meajhons are static units of pre-sound standing waves, also possessing neutral electrical charge, that form the Primal Sound Fields of the Energy Matrix. Within the structures of the Radial Body Radis rivulets, Trions and Meajhons are **polarized** into negative charged **Mions** ("Base Magnetic" vibrating pre-sound particulates, foundations of negatively charged particles such as electrons, originating from the Universal Particle Particum field) and positively charged **Dions** ("Base Electrical" oscillating pre-light particulates, foundations of positively charged particles such as protons, originating from the Universal Anti-particle Partika field). Together, Mions and Dions create the **electromagnetic Ionic Particulate base field** within the Merkabic Form Constant through which particles emerge via Ionic particulate accretion into tangible matter units.

The Trion-Meajhe Field Radial Body of any manifest form represents the 5-Density "Veil" through which consciousness-as-Primal Life Force moves into and out of externalized 3-dimensional manifestation. **Merkaba Fields are the "energy engines and consciousness carriers" by which Life Force and consciousness are circulated between the Internal Kathara Grid scalar template and the Trion-Meajhe Field Radial Body "veil" as they pass into and out of external expression.** The perpetual polarization, electromagnetic expression and de-polarization of the Life Force Currents within the Merkaba Field Form Constant electromagnetic domain is the process by which the holographic projection of matter is perpetually brought into and taken out of perceptually experiential being. The **Radial Body** Trion-Meajhe Field receives, via Merkaba Field circulation, the template or "design" for its particle manifestation from the "instructions" held in the Divine Blueprint Maharic Shield and DNA Template of the Kathara Grid. Manifestation instructions pass from the Kathara Grid to the DNA Template via the Merkaba Field, then continue into the energy circulation systems (Axiom Lines, Hova Bodies, Chakras, Meridians) that deliver the instructions to the Radial Body for particulate manifestation. In biological life forms, the Radial Body and Radis then translate the scalar-wave blueprint of the DNA Template and Kathara Grid into the polarized Ionic Particulate Mion-Dion sub-units, which accrete following the DNA Template instructions to form sub-atomic, atomic, molecular, chemical DNA, physical matter form – the vehicles of embodied consciousness. The **Merkaba Field** also receives its instructions for energy circulation from the Kathara Grid and DNA Template.

The Radial Body Tissue Capsule, Radis
& the Mechanics of Manifestation

The Radial Body exists as a thin "***Tissue Capsule***" surrounding each of the **5 Hova Bodies**. Each of the **5 Radial Body Levels** is composed of an **Outer Layer** of electrostatic neutral-charge **Trion Primal Light Units** and an **Inner Layer** of **Meajhon Primal Sound Units**. Each of the 5 Levels of the Radial Body serve as the **polarizing filter** or "lens" through which **Multidimensional Primal Life Force Currents** flow, via **Merkaba Field** circulation, from the Kathara Grid and DNA Template, into manifest form.

1. From the **Planetary Merkaba Field** (via the Planetary Shield, Axiom Lines, Hova Bodies Vortices, Meridian Lines and Radial Bodies), **rhythmic pulses of Conscious Primal Life Force Currents** enter the species and personal **Kathara Grid Core Template** as Primal Units of **Partiki**.

2. Within the **Kathara Grid Template**, the **Partiki Units** pick up the **mathematical-geometrical program** from the **Maharic Shield** "Divine Blueprint" Template, **polarize** to form **Particum** and **Partika Units**, then **accrete** to form **3-dimensional electro-magnetic Partiki Grids** called **Keylons**. The Keylons group together mathematically, forming complex templates of **Crystallized Keylon Codes** (or "***Keylon Thought-Crystals***"), which create a mathematically encoded **3-dimensional Morphogenetic Field ("Keylon Thought-form Field"** or Morphogenetic "**Keylon Crystal Grid**") carrying the manifestation blueprint program of the Maharic Shield.

3. As the Primal Life Force Currents of the electromagnetic Keylon Crystal Grid interact with each other, following the program of the D-12 Pre-matter **Universal Divine Blueprint**, they form **sets of spiraling electro-magnetic vortices** called **Merkaba Fields**, which carry the Maharic Shield-Kathara Grid Blueprint program into formation of the **DNA/RNA Template** Keylon Crystal Grid.

4. From the DNA/RNA Template, held in the Kathara Grid, Primal Life Force Current carries the **Keylon Crystal Grid** of the blueprint into the **Axiom Lines, Hova Bodies, Auric Field, Chakras** and **Meridian Lines** systems, finally carrying the Keylon Crystal Grid of the Divine Blueprint into the **5 Radial Body "Tissue Capsule" Levels**.

5. Within the **5 Levels of the Radial Body**, the **incoming Keylon Crystal Grid** translates into **electrostatic Trion-Primal Pre-Light Units** (gaseous pre-light Ante-matter) and **Meajhon-Primal Pre-Sound Units** (units of vibrating pre-sound energy) that possess a neutral electrical charge. The **Encoded Primal Life Force Currents** (PLF Currents+ Keylon Crystal Grid blueprint program) are converted into a **Trion-Meajhe Field blueprint replica**; a "Primal Light-Sound" translation of the original blueprint.

6. The **Encoded Primal Life Force Currents** then travel, **AS the Encoded Trion-Meajhe Field**, into the **Radis Lines** in each of the 5 Levels of the Radial Body. The Radis Lines first replicate and store the **mathematical blueprint encoding** of the **Trion-Meajhe Field**, then **polarize** the neutrally charged Trion-Meajhe units into **electromagnetic units** called **Mion** (-) and **Dion** (+) **Ionic Particulates**. The replicated **Trion-Meajhe Field blueprint** becomes part of the "Primal *Pre-sound* vibration" ***Meajhe Field*** **Inner Layer** of the *Radial Body* **Trion-Meajhe Field**, serving as a living "***Memory Matrix***" composed of **Meajhon Units** "Primal Pre-sound vibration". The **polarized Mion/Dion Units** become the foundation upon which the "**Strong and Weak Nuclear Force**", **Electromagnetism, quarks, Muons, Meason, Sub-atomic Particles** and **Anti-particles** etc. form. Particum-based **Mions** ("Base magnetic") become **particles, negative electrical charge units** like **electrons** and **sound spectra**. Partika-based Dions become **anti-particles, positive electrical charge units** like **protons** and **light spectra**.

7. Blueprint Encoded Primal Life Force Currents, in the form of **Mion-Dion Fields**, then translate the original Kathara Grid Blueprint into **Quarks, Muons, Mesons, Sub-atomic** and **Atomic particles** and **anti-particles**, which **accrete** according to the blueprint to form **molecules, elements, chemicals**, the **Chemical DNA Blueprint** and the **physically manifest body form**. As this occurs, **the body image "flashes on"** into manifestation as a **Pulse of Life Force Consciousness**, carrying the **Chemically Translated Holographic Image** of the body form template blueprint. This Pulse of Consciousness continues to expand from the Kathara Grid and DNA via the Transduction Sequence, through and beyond manifestation of the body image and into **projection of portions of the Dimensional Unified Field** that **holographically translate** into **individualized experience** within a perceived **Common Planetary Time Rhythm and Matter Field**.

NOTE: ***An individual will holographically perceive and experience only the portions of the Dimensional Unified Field mathematical-geometrical program that are encoded within the personal Maharic Shield, species Tribal Shield and Planetary, Galactic and Universal Shield aspects of the personal Kathara Grid and DNA Template.***
A global population experiences a **common planetary reality field and time continuum** because the Kathara Grid Template and DNA of all beings entering a planetary field **adopt the common imprint** of the mathematical-geometrical program of the **Planetary Kathara Grid** blueprint in order to enter into the electromagnetic domain of the Planet's Form Constant Hova Body structure, for experiential manifestation. Members of a **singular species** share a common **species Tribal Shield** template, through which a **common Chemical Body Form** and perceptual orientation holographically manifest. The imprint for **individuality** in biological form, life experience variation and the application of **Free Will Choice**, is held within the mathematical program of the **personal Maharic Shield** D-12 Pre-Matter Divine "Christos" Blueprint. Imbued within the mathematical program of the Human species Tribal Shield, and that of some other species, is the imprint for **probability** to exist. The Human species Tribal and Maharic Shields carry a program that allows for **new programs of probable creation** to be **added** to the personal and species **Kathara Grid**, allowing the embodied consciousness to retain a **degree of direct influence** over what sets of mathematical programs will be called into personal experiential Holographic Expression from the personal Maharic Shield Template. **Creative variation** on the original personal, species, planetary and galactic Divine Blueprint is possible, as long as the new probabilities do not deviate so excessively from the Pre-set programs and **Original Intentions** of the Universal Divine Blueprint, that the **structural integrity** and **Source-God Will Intentions** for our Time Matrix become **irreparably compromised. Free Will thus exists within a pre-set framework of overriding Divine Will**, and is permitted free reign in the manufacture of **co-creative experiential probability** up to a point at which the Original Divine Will of Source and the creative framework itself become unduly jeopardized.

8. The physical body form serves as a **Chemical Lens**, through which portions of the **Dimensional Unified Field** are perceived by the embodied consciousness as a **3-dimensional Hologram**, as the Primal Life Force Currents continually carry **pulses of the individuated consciousness** through the ***Transduction Sequence*** from the Kathara Grid, through the DNA, to the manifest Chemical Lens of the physical body structure and Holographic "external" reality field projection.

9 As a Keylon-Thought-Form blueprint traveling on one Pulse of Consciousness **fully expands** (fully "Activates") into the manifest externalized hologram **another Pulse of Consciousness** is released from the synchronized mathematical programs of the Planetary Merkaba Field which sets the Transduction Sequence in motion ("initiates") for the ***next portion* of the personal mathematical blueprint**. The blueprint of the **Planetary Kathara Grid** regulates the **cyclic rhythms** at which **Pulses of Life Force Current** will be released through the **Planetary Merkaba Field**; the Planet releases "**Pulses of Time**".

NOTE. The linear time experience of life forms on a planet is synchronized into specific singular continua and cycles of time through the DNA Template the species Tribal Shield, personal Maharic Shield and DNA Template are imbued with the exact mathematical programs of the specific Planetary Time Cycle and Continuum or "Time Wave" into which the consciousness intends manifest embodiment. A singular Time Wave constitutes a Time Continuum, within which there are specific repeating cycles of progressively accelerating Pulses of Time that collectively form the linear time-progression continuum of a Planetary Cycle.

10 As one **Pulse of Time/Consciousness** brings its blueprint into manifest **Critical Mass Expansion** (fully activated specific portions of the blueprint in Holographic Expression), the Planetary Merkaba Field releases the **next "incoming" pulse** of Time, which carries the next portion of the Kathara Grid mathematical blueprint into the Transduction Sequence. As the new Pulse enters the Transduction Sequence and begins **Expansion** toward manifestation the **first pulse** of the **fully expanding hologram** begins **Contraction**, entering a **back-return** through the **Reverse Transduction Sequence** (matter-*chemical* DNA-*Sub-Atomic units*-Radis *Mion/Dion units*- Radial Body *Trion-Meajhon units*-Meridian Lines-Chakra-Auric Field-Hova Body-Axiom Lines-DNA Template-Merkaba Field-Morphogenetic Thought-form Field *Keylon Grids & Units*-Maharic Shield Template & Kathara Grid *Partika and Particum Units*-Planetary Merkaba Field *Partiki* Units)

11. As **pulse-1 contracts** its hologram program **moving backward** through the Transduction Sequence, creating the "**Remembered Past**" **moment**, the **pulse-2** simultaneously **expands** its hologram program, **moving forward** through the Transduction Sequence, birthing the as-yet-to-come "**Future**" **moment**. The backward moving "**Past**" **pulse-1** and forward moving "**Future**" **pulse-2 intersect** at the **Radial Body Levels** in the Transduction Sequence. This "**past pulse-future pulse intersection point**" is called the **Eiron** (E'r-on) **Point**, also known as "**Zero Point**", the "**Present moment of conscious focus, within the hologram**" or the "***Eiros*** Conscious, Breathing Life Force Stream" (Also referred to as the "**Stream of Consciousness**", the "***Living Holy Spirit***" or the "***Breath of God***" etc.).

12. The *Eiron/Zero Point*, or **Eiros** is the "**Present Moment of Creation Power**" for the "manifest" conscious identity. It exists at the position where the **third dimensional field**, the electromagnetic **Resonant Tone "Mental Body"** field of a single 3-dimensional Hova Body **intersects** with the **Meajhe Field Inner Layer** of the corresponding **Radial Body** Tissue Capsule.

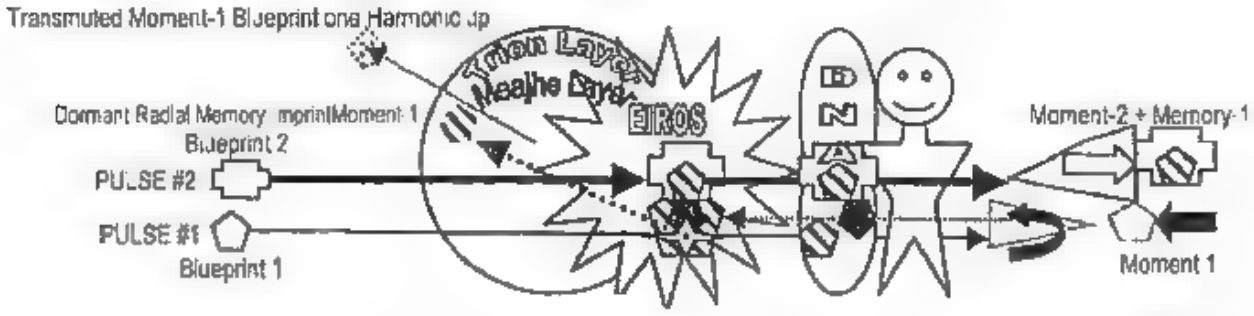
13. As the backward moving "**Past**" **pulse-1** and the forward moving "**Future**" **pulse-2 intersect** at the Radial Body Meajhe Layer **Eiros** (Eiron Point) the returning **contracting pulse-1** passes through the Trion Layer and into the **Meajhon blueprint replica**, called a "**Radial TILE**", that it **left behind** in the Meajhe Layer **Eiros**, during pluse-1's **incoming** passage. Just as the returning **pulse-1** retreats, back through its Radial Tile the **incoming pulse-2** carrying the next **blueprint** coding, **simultaneously** passes through the **first Radial Tile combining** the "**past**" **Radial Tile**, mathematical-vibrational blueprint with the **incoming pulse-2 blueprint**. At this moment-point, the hologram template from the "post moment" is adopted by the incoming "future moment" pulse-2 and expanded by the puise-2 blueprint.



14. As pulse-2 picks up the puise-1 Radial Tile, the **retreating pulse-1** which now **holds the Radial Tile blueprint in *reverse mathematical sequence as TRION Pre-light Units*** collides with the incoming pulse-2. Both pulses carry the **common blueprint** of the first Radial Tile, the **incoming pulse-2**, holding the blueprint in **forward** mathematical sequence as ***Meajhon Pre-sound Units***, the **retreating pulse-1**, holding the blueprint in **reverse mathematical sequence** as ***Trion Pre-light Units***. As the expanding/advancing and contracting/retreating pulses collide with the blueprint "**sequence and anti-sequence**" the pulse-1 reversed **Trion Radial "Anti-Tile" fuses** with the original **Meajhon Radial Tile** and both Radial Tile and Anti-tile **completely de-manifest** or "**Ascend**" from their original Harmonic Universe by **TRANSMUTING** to become a ***Merkaba Field***. The **energy/consciousness**, once held by the Radial Tile/Anti-tile, then **replicates** its original blueprint via **Fission**, leaves a **dormant "Memory Imprint"** Meajhon replica in the Radial Body ***Meajhe Field*** and **reappears** in faster oscillating form, within the corresponding **Hova Body Form Constant** of the next Harmonic Universe up in the dimensional scale.

15. As transmutation of the "past" Radial Tile occurs in the Radial Body Eiros the **incoming pulse-2** is momentarily held **static** as it leaves a **new Radial Tile** in the Meajhe Field, the new Radial Tile holds the **pulse-1+pulse-2** program. At this moment-point the **entire** externalized **Hologram** literally "**Flashes Off**" and de-manifests its energy **held in suspension** within the **Radial Body** Trion/Meajhe Field. When the first Radial Tile is transmuted, the incoming **pulse-2**, carrying an **expanded imprint of the first Radial Tile**, progresses from the Meajhe Field Eiros to Trion Field then begins to "**Flash On**" its blueprint in manifestation. The embodied self perceives a "**linear moment progression**", the ***pulse-1*** program becomes "**memory**" of the "**Past**" moment, ***pulse-2*** the "**Present**".

The Radial Body, Mechanics of Manifestation, Healing and Human Potential

There is much more to be revealed regarding the subject of the *Mechanics of Manifestation*. Our introduction to the ***Radial Body anatomy***, the ***Transduction Sequence*** and the ***Mechanics of Manifestation*** represents a beginning in the quest for genuine mastery over the manifest experience. In this *Kathara Level-2 Introduction*, we will **not yet address** the highly pertinent aspects of *Manifestation Mechanics* that pertain to **direct Creation of matter and events** through **Conscious Thought Projection** and applied personal **Will Intention**, nor will we yet investigate the complex realities of **Space-Time Travel, Star Gate Passage** and the **Spiritualized-science of Ascension**. All of these subjects, and more, are *intimately intertwined* with **personal healing** and the Imprint for Health, **attaining mastery** over Manifestation Mechanics and the Bio-Spiritual processes of genuine **Spiritual Actualization.** All of these abilities, and many others too numerous to mention, presently exist as **dormant evolutionary potentials** for the Human species' potentials that were once, long ago, fully actualized and commonly expressed. The ***Kathara Bio-Spiritual Healing System*** represents a body of Master teachings that focus upon the manifestation and maintenance of **Holistic Health, through Bio-Spiritual Mastery and Spiritual Actualization**. Exploration of subjects such as ***Merkaba Mechanics***, ***Manifestation Mechanics*** and the ***Radial Body Trion-Meajhe Field*** is an intrinsic part of furthering our abilities to embody and practice the ideals of Healing and Health through Holism.

Before we can begin to actualize the exciting potentials of freedom, love, power and knowledge that await Human re-discovery, we must first focus upon **healing the obstacles** that have long stood in our way of actualizing true Human potential. Our study of *Merkaba Mechanics*, in this *Kathara Level-2 Introduction*, has included a *necessary introduction* to **Manifestation Mechanics** and **Radial Body Anatomy**; the greatest physical and spiritual difficulties presently facing Humankind emerge from a **HIDDEN ILLNESS** that has held our species hostage within a progressively deteriorating, **unnatural Mortal body form**. The **underlying cause of All Human illness** is an **unnatural genetic mutation** that manifests THROUGH the **DNA Template** and **chemical DNA**. The **Causal Element** of this species' genetic deviation from its original Divine Blueprint can only be found through study of the 15-Dimensional Anatomy, ***Primal Life Force Currents***, ***Kathara Grid***, ***Maharic Shield***, ***Merkaba Field***, ***DNA Template***, the ***Radial Body*** and the intimate interplay that perpetually exists between these interwoven systems. It is precisely this ***species genetic deviation***, which has progressed and increased for over **200,000 years**, that has kept Humanity bound to a finite, limited world, unable to express the potentials that once existed as our birthright. Though the problem of this species' "Internal Illness" is multi-faceted and highly complex, the **Soul-U-tions** through which progressive healing of the Human genome can be rendered are relatively simple. The **Soul-U-tions for healing** and restoring health to our species and ourselves **require familiarity with basic Kathara Grid, Manifestation Template, Radial Body, DNA Template and Merkaba Mechanics**

Copyright A & A, 2002 All Rights Reserved

These are the elements of our 15-Dimensional anatomy within which the **Causal Element** of our genetic deviation is held, and thus these are the elements of our anatomy through which the **most rapid and permanent Healing Solutions** can be rendered.

In the following pages, we will continue our investigation of the ***Transduction Sequence and the Miasmic Body***, in order to **identify** the regions of our 15-Dimensional Anatomy in which our hidden genetic mutations are created, stored and perpetuated. Once we can identify the regions in which the greatest healing is needed, we can then directly employ appropriate remedial measures. Working with the Core Kathara Grid **and Maharic Shield Divine Christos Blueprint** to reset the imprint for Health (Kathara Level-1), while **simultaneously** working with the **elements of our anatomy within which the most significant remedial measures are needed**, will allow us to use Divine Blueprint technology to implement **expedited healing**. In this *Kathara Level-2 Introduction* we will examine the *Transduction-Manifestation Sequence* and how its present **malfunction** creates the **Miasmic Body** which created the DNA Template distortion through which our **chemical DNA mutation** and a phenomenon known as the "**Phantom**" or "**Shadow**" **Self** is brought into being within our manifest hologram. We will then continue our exploration of **Merkaba Mechanics** and **Radial Body Healing** applications, to discover the "**Secrets of the Veca Codes**", and Photo-Sonic and Photo-Radionic Radial Body Healing technologies, through which our Kathara and Merkabic Healing applications can be tremendously intensified, amplified and expedited.

- The Personal ***Radial Body*** or Trion-Meajhe Field is composed of **5 Hova Body Capsules** that manifest as electromagnetic barriers or **"frequency fences"** between each set of 3 DNA Strand Templates, each set of 3 associated Axiom Lines, Chakras and Meridians and between each 3-dimensional layer of the Auric Field and corresponding level of personal multidimensional identity.

- Each of the **5** 3-dimensional **Harmonic Merkaba Fields** corresponding to the 5 Hova Bodies of 15 Dimensional Anatomy *governs the function* of the corresponding **Dimensional Merkaba Fields, Radial Body level** and its imbedded **Memory Matrix**, via the mathematical program held in the personal Kathara Grid, Shields and **Crystal Body** template. The Kathara Grid program is passed from the **Keytontic Crystal Body** into the **DNA Template** via the **Dimensional and Harmonic Merkaba Fields** and the "mini-Merkaba Fields" of the Level-3 Kathara **Diodic Grid**.

- Each Hova Capsule **Radial Body level,** receiving its instructions from the DNA Template and 3rd dimensional Mental Body Hova Body level, in turn governs the function of the **chemically manifest DNA** and all body-consciousness systems that are built upon chemical genetic code.

- The **Harmonic Merkaba Field** governs the **particle spin axis** (Angular Rotation of Particle Spin) ratios of the energy units that make up its corresponding 3-dimensional system. Each **Harmonic Merkaba Field** corresponds to one **Hova Body**, one set of **3-dimensions** and the Matter Density Level characteristic of that 3-dimensional system. Each Hova Body, and thus each Harmonic Merkaba Field Level and Radial Body Level, corresponds to one set of **3 DNA STRAND TEMPLATES** within the Human 12-Strand Template.

- Full activation of **one Harmonic Merkaba Field** creates reciprocal activation of the corresponding set of 3 ***DNA Strand Templates***, which creates embodiment of corresponding levels of identity and consciousness (personality, Soul, Over-Soul, Avatar, Rishi etc). When one Harmonic Merkaba Field fully activates, through natural activation of the corresponding **Shields** and **Crystal Body Keylons**, the Harmonic Merkaba Field becomes capable of **merging** with the Harmonic Merkaba Fields from other Density Levels, in a process frequently called **Transmutative Dimensional Ascension**.

Copyright A & A, 2002, All Rights Reserved

- During the process of **"Ascension"**, (also called "space-time travel", "wave riding", "Star Gate passage", "Teleportation" etc.) the **Harmonic Merkaba Fields** of more than one Density Level merge, progressively shifting the **two or more different sets of 3-dimensional particles** into a **common particle spin axis angle and spin speed**. The corresponding **Axiom Lines, Hova Bodies, Auric Fields Levels, Chakras, Meridian Lines** and **Radial Body Levels** also merge.

- When Harmonic Merkaba Fields and their corresponding Inner Templar anatomy merge, the **Fire Codes** between the corresponding **DNA Strand Template activate, causing the DNA Strand Templates to merge**, which creates a reciprocal reaction called **"DNA Strand BRAIDING"** between corresponding **chemical DNA strands.** (The "Double Helix" configuration of "one strand" remains, as the chemical components of each strand overlay together to become a single Double Helix, containing the chemical programs of multiple DNA strands).

- When the **Fire Codes** between strands in the DNA Template activate, dormant sequences of chemical DNA called **"Transient Turnstile DNA Sequences"** "turn on" within the **Hydrogen Bonds** that link each DNA "Ladder Rung" together, producing a **transient trans-harmonic element** called **Celestaline** within the chemical DNA.

- Natural Braiding of the chemical DNA strands and activation of the chemical Turnstile DNA Sequences creates a series of **sub-atomic bio-chemical DNA responses** that allows for Internal **Atomic Particle-Anti-particle Fusion and Fission**. Natural **Internal Atomic Fusion-Fission** enables the manifest atomic structure to temporarily de-manifest, returning to "*spirit form*", by re-entering the electrostatic **Trion-Meajhe Field** of the corresponding **Radial Body Levels.**

- During the Ascension process, the Harmonic Merkaba Fields of **2 or more Density Levels** merge, forming various **PHASES of Merkaba** activation that create a **Trans-Harmonic Merkaba Field** that is called the **Merkaba VEHICLE**. The 3-Dimensional **NETHRA Phase** Merkaba Field of Density-1 accelerates in rotation speed to become the 6-dimensional **HALLAH Phase**, 9-Dimensional **Quatra Phase**, 12-Dimensional **Mahunta Phase** or 15-Dimensional **Rahunta Phase** Harmonic Merkaba Vehicle.

Copyright A & A, 2002, All Rights Reserved

- As a phase of the Trans-Harmonic Merkaba Vehicle activates the corresponding lower-dimensional **Hova Body and Radial Body Level dissolve,** their content of energy and consciousness **expanding** into the next Hova Body and Radial Body Level forming a **Trans-Harmonic Radial Body "FORM CONSTANT"** within the **Merkaba Vehicle.**

- The Trans-Harmonic Radial Body and Merkaba Vehicle allow the consciousness and biological form to "de-manifest" from the lower dimensional Density Level. The identity can then **re-manifest** in another Density Level or space-time coordinate by projecting itself into the desired location, AS the electrostatic ***Trion-Meajhe Field*** **Trans-Harmonic Radial Body,** then returning the DNA Template activation level and Harmonic Merkaba Spin ratios to that of the new location for re-manifestation.

- When the Personal **Merkaba Field** is used to form the **Trans-Harmonic Radial Body** in the process of Ascension, the Merkaba Field is called a **MERKABA VEHICLE.** A ***Merkaba Vehicle*** is an electrostatic **Trion-Meajhe Field** of Prima Pre-Light-Sound, through which the consciousness (AKA "spirit") can move itself, *and its atomic structure* through **thought-projection,** to a desired location beyond the "veils" of the Planetary, Galactic and Universal Hova Capsule-Radial Body-Form Constant barriers.

- Conscious mastery of the Personal Merkaba Field through which the organic **Internally created Merkaba Vehicle** Trans-Harmonic Radial Body becomes available for conscious direction, implies **conscious control of the DNA Template function.** The potentialities of **genuine Ascension** (etc...) and mastery of the Bio-Spiritual Consciousness are **inborn attributes** of the Human 12-Strand DNA Template. Due to a **species de-evolutionary genetic mutation,** that compromises natural function of the Personal Merkaba Field and DNA, the reality of Ascension on a species level has been lost to all but a few on Earth for over 200,000 years (ref: Masters Templar Course Book)

- The potentials of **Bio-Spiritual Actualization** CAN be returned to humankind through **reverse-mutation** of genetic dysfunction within the human genome and DNA Template. Healing the genetic template can be achieved by **manually employing** specific practices of **Kathara "Maharic Shield" Core Template Dynamics** in **combination** with **Harmonic Merkaba Mechanics,** through which the many eons of biological miasmic distortion can be progressively and rapidly cleared from the Personal Kathara Grid and DNA Template.

- Restoration of the D-12 Pre-matter Divine Blueprint within the Human Kathara Grid and DNA Template will eventually **free the Personal Merkaba Field** for use as a **Trans-Harmonic Merkaba Vehicle.** Kathara Healing applications and use of the D-12 Pre-matter Maharata "Christos" Current, to reset the biological D 12 Pre-matter Divine Blueprint, are the beginning steps in reclaiming Bio-Spiritual Mastery

- The functions of the personal **Merkaba Field** and **DNA Template** are not only associated with abilities of **Atomic Transmutation** and **Dimensional Ascension;** they are directly linked to **every aspect of body-mind-spirit function**, including **biological longevity** and **health, memory, intelligence**, and **metabolic, chemical, metal** and **emotional balance** and stability.

- Most significantly, the **Merkaba Field/DNA Connection** is the Bio-Spiritual conduit through which the consciousness of an embodied individual is directly linked to the common Perpetual Force of Energy and Eternal Source of Intelligent Creation that is "**God**".

- When a being's Merkaba Field and DNA Template are functioning upon the innate program of **Universal Primal Order**, as it is held within the Pre-matter **Universal Divine Blueprint** of the D-12 "Christos" Liquid-Light field, the natural and perpetual supply of **Primal Life Force Currents** and "spiritual" consciousness emanating eternally from Source-God flow through an open energetic channel or "**Pillar of Light**", which is called the "Um Shaddai Ur" (Pillar of First Cause Light-Sound") into the manifest embodiment. Such a being is called a "**Christed Being**" This implies that the integrity of its original D-12 Pre-matter Divine Blueprint has not been structurally compromised, and thus the perpetual Life Force Currents, consciousness, sentience intelligence, wisdom, power, Will and LOVE of Source can freely express through the Um Shaddai Ur into the manifest hologram of the Time Matrix, through the Christed embodiment.

- If the Kathara Grid, DNA Template and Merkaba Field of a being are damaged and no longer carry the **original mathematical-geometrical program** of the **D-12 Divine Blueprint,** through which the being entered space-time, the flow of Primal Life Force Currents the Um Shaddai Ur Pillar and thus the active consciousness connection to God will be distorted, reduced or severed at the dimensional level to which the template distortion corresponds.

Copyright A & A 2002 All Rights Reserved

- A manifest being incapable of running the Primal Life Force Currents of the Um Shaddai Ur "Pillar" becomes **biologically finite,** its consciousness trapped in the Time Matrix", even following death of the physical body. Due to the **natural Laws of Creation Physics,** as set by Source-God, this condition of **finite mortality** will remain until the being's **Kathara Grid Template and Merkaba Field connection** to the D-12 **Universal Divine "Christos" Blueprint** and Universal Trion-Meajhe Field Um-Shadda'-Ur Pillar are restored.

- Healing Core Template genetic distortions that are severe enough to cause dysfunction of the Persona Merkaba Field first requires **resetting of the D-12 Divine Blueprint** through activation of the **Personal Maharic Shield.** Until the Body-Mind-Spirit system has reached a **Critical Mass** of D-12 Divine Blueprint holding, through frequent and progressive manual running of the D-12 Maharata Current, Healing Core Template genetic distortions **also requires** simultaneous, direct and repeated **manual realignment** and **restoration of Personal Merkaba Field function** and **Radial Body Trion-Meajhe Field** integrity.

- If there **are distortions within the Kathara Grid or DNA Template** of an individual or species, the Personal Merkaba Fields will not function in harmony with the **natural energy circulation rhythms** of the **Planetary, Galactic, Universal** and **Time Matrix Merkaba Fields** and Universal Kathara Grid. Such Kathara Grid distortions create tangible **genetic** and **consciousness mutation** within biological organisms and can divert the **intended evolutionary destiny** of an embodied consciousness or species on to a divergent path of **de-evolution and consciousness fragmentation** unintended by the original plan encoded within the D-12 Pre-matter Christos Divine Blueprint.

- Distortions within the DNA Template, and resulting **Miasms**, can be purged through **manual resetting of the D-12 Pre-matter Divine Blueprint**, via repeated manual activation of the Personal Maharic Shield. The activated **Maharic Shield** runs the Density-4 D-12 **Maharata Primal Life Force "Christos" Current** through the Kathara Grid and form embodiment, progressively resetting the original mathematical coding of the personal Divine Blueprint within the Kathara Grid and DNA Template. Use of the **Maharic Shield techniques** in *Kathara Level 1* sets this process of **Core Template Regeneration** in motion.

- The Core Template "Divine Blueprint" healing process can be expedited through applied **Christos-Merkabic Healing Mechanics** such as the ***Tribal Shield Activation*** (Technique-7), ***Merkaba Salutation*** (Technique-8), ***Merkaba Trinity Key Induction*** (Technique-9) and the ***Kee-Ra-ShA' Activation Sequence*** (Technique-12).

Copyright A & A, 2002 All Rights Reserved

- Divine Blueprint Healing can be expedited further through **manual restoration** of the personal Trion-Meajhe Field **Radial Body** and its inherent **Memory Matrix**. **Radial Body Healing** when **combined** with ***Kathara Maharic Shield*** and ***Christos-Merkabic Healing*** dynamics, is the most powerful and rapid Holistic Healing technology available.

- **Radial Body Healing** dynamics, which also serve to progressively restore the organic **Memory Matrix**, involve use of the specific **mathematical programs** that govern formation of the **Radial Body Trion-Meajhe Field**. These mathematical programs are called **VECA CODES**.

- **Technique-10,** ***Restoring the Trion Field-Photo-Radionic Healing*** **and Technique-11,** ***Restoring the Meajhe Field-Photo-Sonic Healing*** provide introduction to **Radial Body Healing Mechanics**. Use of these techniques, in **combination** with **Technique-2,** ***The Maharic Seal and Liquid Light Cleanse*** and **Merkabic Healing Techniques 6-12**, will **greatly expedite** the personal healing process while **significantly increasing** the body-mind-spirit abilities to **receive, hold/sustain and transmit greater quantity and quality** of interdimensional frequency in the Client Healing Facilitation process.

Radial Body Healing, the VECA CODES, DNA and Merkaba

- Veca Codes, also called the "I AM" or "**Immanuyana Sequence**" are very specific **SYMBOL CODES**, each possessing corresponding **Sound Tones** called ***Arieas*** and **energy movements** called ***Seurias***, which correspond to the Cosmic, Universal, Galactic, Planetary and Personal **Trion-Meajhe Field Radial Body Levels**.

- There are **5 categories of Veca Codes**, the Planetary **Low-Veca *Codes of Manu*** (Taurenic-Akashic Codes), the Galactic **Mid-Veca *Codes of Immanu*** (Akashic-Eckashic Codes), the Universal **Level-1 High-Veca *Codes of Immanuel*** (Dolaric-R'shic Codes), the Cosmic **Level-2 High Veca *Codes of Immanuyana*** (Triadic-Polaric-Eckatic Codes) and the God-Seed **Yunasai *Codes of Eckasha*** (Source Codes).

- Beginning applications of Veca Code Radial Body Healing begin with restoring the Trion-Meajhe Field Radial Body, through resetting the ***Yunasai*-Eckasha and High Veca *Immanuyana* and *Immanuel* Codes** through **frequent manual Direct Induction** of their corresponding **Symbol Codes** and **Sound Tones/Arieas**.

- The most powerful **Yunasai-Eckasha Codes** are **PHOTO-SONIC Codes**, carrying the Mathematical Programs of the ***Khundaray Current*** Prima Sound ***Meajhe Field*** AND their bridging **God-Seed vibration-rhythms** connecting to Source. The **Level-2 *Immanuyana*** and **Level-1 *Immanuel* High Veca Codes** are **PHOTO-RADIONIC Codes**, carrying the Mathematical Programs of the Trion-Meajhe Field **Khundaray Primal Sound** AND **Kee-Ra-ShA' Primal Light Currents**.

- **Consistent use** of **Veca Code Radial Body Healing**, in combination with **Merkabic and Kathara Healing** applications, will progressively **clear the Miasmic Body** and heal, balance, re-integrate and restore the Divine Blueprint within the energies of the **Phantom-Shadow Self** in all levels of the Body-Mind-Spirit system.

- More advanced applications of Veca Code technologies include use of the **Mid-Veca *Immanu*** and **Low-Veca *Manu* Codes** and the corresponding ***Seurias*** (body movements to direct frequency), following a period of initial induction and activation of the Yunasai and High Veca Codes. Full Spectrum Veca Code technologies are introduced in the "***Dance For Life***" Masters Spiritual Development Program.

- **Induction** or **IMBEDDING** of the High Veca Codes into the 15-D mens onal Anatomy involves p acing the correspond ng **Symbol Code Sequence** (mathematical program) over the **regions of the physical body** that correspond to the appropriate aspects of the Kathara Level-2 **Crystal Seals Grids** and Leve-3 **Diodic Grid.** Once the Symbol is in place, the breath is used to direct **D-12 Maharata Current** through each **Symbol Code** and **body region.** Use of the **Maharata Current** "carrier wave" (via **activation of the Maharic Seal/Shield**) is **required** to **induce** the code's **mathematical program** into the **Diodic** and **Crystal Seals Grids**, where the program will then naturally transfer into the corresponding areas of the **Level-1 Kathara 12-Tree Grid** core template.

- Once the High Veca and Eckasha Code Sequences are Imbedded/Induced into the Leve-1 Kathara Grid, they are then **Activated** n the Kathara Grid by **TONING** the corresponding **Veca Code Ariea Sequence.** The longer toning is sustained, the greater will be the quantity and quality of Veca Code Activation

- Once Activated, the Veca Code programs travel upward through the stages of the **Transduction-Manifestation Sequence** from the **Kathara Grid,** to the **Shields**, into the **Keylon Crystal Body Morphogenetic Field**, then into the **Merkaba Field, DNA Template** and **Hova Body/ Radial Body Levels,** temporarily restoring the **Christiac Merkaba Field, Radial Body** and **Memory Matrix Divine Blueprint. Frequent and continued use** of the Veca Codes wil progressively build **Critical Mass** of the **Divine Blueprint program simultaneously** within **ALL levels** of the 15-Dimensional Anatomy, eventua ly culminating in expedited ful restoration of the D-12 Maharic Shield blueprint within the Body-Mind-Spirit system, via the Radial Body Trion-Meajhe F eld

- Activation of the Yanasai and High Veca Codes within the personal body **prior to conducting a Kathara Client Healing Session** will cause the facilitator's **Level-3 DIODIC GRID to activate,** temporarily **transmitting Veca Code sub-harmonics.** This will cause the **minute Diodic Chakras** in the facilitator's **FINGER TIPS** to activate **if the Palm Chakras** have been activated with either pure **Maharata Current** or a selected **Triadic Phase Current.** The facilitator wi. then **automatically transmit** Veca Code sub-harmonics into the client s Diodic Grid, while conducting genera Kathara Healing app ications, allowing the client to benefit from temporary **Radial Body healing support,** which wil **amplify the effects** of all healing applications.

Copyright A & A, 2002, All Rights Reserved

- A more **Temporary Imbedding and Activation** of the Veca Codes program can be achieved through **OPTICAL-PINEAL INDUCTION**, whereby the **eyes** are focused for a time upon the **Image** of the **Symbol Code**. The mathematical Veca Code program enters the **Pineal Seals** through the **Optical Currents** and **6th Chakra**, and then travels for Imbedding/induction through the **Central Vertical Current** into the body regions and Crystal Seals Grid areas to which the Veca Code corresponds. The **Veca Tones/Arieas** are then used to Activate the Imbedded Veca Code Sequence.

- In **Optical-Pineal Induction**, the Veca Program loses a bit of **frequency charge/strength** during its travel in the Central Vertical Current. This creates a **more temporary imbedding and activation** of the Veca Codes than that which is achieved through Direct Induction. Optical-Pineal Induction is useful for **daily amplification** of the Vecas and for Kathara Healing Client Sessions and planetary grid "site work", when used in **combination** with the **full induction procedure** employed at least **once per week**.

- To receive full benefit of Veca Code Radial Body Healing applications, **Technique-12 *The Kee-Ra-ShA' Activation Sequence*** should be fully run at least **ONE TIME**. Technique-12 can also be used occasionally thereafter if desired to create **intensification and amplification** of the Primal Life Force Currents during Kathara, Merkabic and Veca Code Healing technologies.

- Frequent use of Technique-13: **The "Song of Lyra"** Christos Invocation will amplify all Kathara, Merkabic and Veca Code Radial Body Healing applications.

Restoring the Trion Field-Photo-Radionic Healing

Creating a Personal Bio-field Link to the Universal Christos-Trion-Meajhe Field
Masters Merkaba Mechanics

***Exercise - 1*: Once per day**, do **Maharic Insta-Seal.** Then practice **each set** of **Veca-tones** separately while fixating **visual focus** on corresponding **Veca-Code** symbol; spend at least **three or four minutes** gazing at each symbol (optical-pineal induction) while **toning** corresponding tones (core template vibrational induction). With practice this will progressively expand the personal consciousness while activating the personal Christos-Trion-Meajhe Field of your Christos-Rishiac-Ascended Master identity levels within the cellular structure.

Exercise - 2: Once per week, directly after completing **Exercise - 1**, place all Veca-Code symbols over designated body areas, activate Maharic Shield, breathe D-12 Maharata Current through each symbol and body area **to induce code**, using the **Bi-Tri-Khu-Dha-Ra Sequence**, then begin **toning the** corresponding tones following the Bi-Tri-Khu-Dha-Ra Sequence. Memorize the tone sequence of the 5 High - Veca Codes as if it were a "song" and relax, close eyes and sing/tone this "**song**" (Psonn) for **5 to 10 minutes.** The longer you tone, the more frequency power you build within the body and the stronger your link will be to the Universal Christos - Trion Meajhe Field. This exercise can also be used with groups, either singularly to create and amplify Christos - Trion - Meajhe Field links or just prior to beginning RRT work. Frequent and consistent use of these two exercises will progressively develop the spin-rate capacity of the personal Christos Merkaba Field, while expanding higher consciousness within the body and progressively enhancing the health, immunity and integrity of the Mind-Body-Spirit system.

Technique # 11

Restoring the Meajhe Field-Photo-Sonic Healing

1. Use **Technique-6:** ***The Maharic Quick Seal***, to activate your Maharic Shield/Seal and Maharata Current.

2. **Stare at image** of the **Eckasha Code** for a few seconds. Then gently begin to **"Cross Eyes"** until you can see a **"Double Image"** of the *Eckasha* when looking at the image. **Hold "Eye Cross"** focus while taking **three rapid breaths**; on each **EXHALE** projecting a **stream** of (D-6) **INDIGO current** from your **6th "3rd Eye" Chakra** at forehead (This braids D-6 Optical Currents into a D-12 Current to carry the Eckasha program into the Pineal Seals). Un-cross eyes, relax visual focus and close eyes for a moment or two.

3. **INHALE** several breaths of **Pale Silver D-12 Maharata Current** up from the **Earth Core** through your **Maharic Cord**, on each **EXHALE** depositing the Maharata Current in the **Pineal Gland** at the center of the brain, to form a Pale Silver **"Maharata Ball"** in the Pineal

4. **Breathe** gently and return **visual focus to the image of the Eckasha, focusing** upon the **Eckasha Core *REUCHE'*** (the "Double Circles" and their content at center of Eckasha).

5. **EXHALE** while projecting a **stream of INDIGO current** from the **6th Chakra** at the forehead into the **REUCHE'** symbol before your eyes. **INHALE** while drawing the **INDIGO current stream** with the **REUCHE' image at its end** back through the **6th Chakra** and into the **Maharata Ball** in the **Pineal.**

6. **INHALE** one more breath of **Maharata Current** up from **Earth Core** to the **Maharata Ball** at the **Pineal**, then use a forceful EXHALE to PUSH Eckasha-Reuche' encoded Maharata Ball out to the right, to the 'Mentor" position over the right shoulder Visualize the Maharata Ball growing to the size of a "Basket Ball" over the right shoulder, and visualize the image of the Reuche' as expanding to fill the inside of the Maharata Ball.

7. **INHALE forcefully** while drawing the **Maharata Ball** back to a position **centered around your head**, then use **three breaths** to **INHALE Maharata Current** up from **Earth's Core to Pineal** and EXHALE the **Maharata Current outward** to fill and **expand the Maharata Ball.**

8. Visualize the **Maharata Ball** expanding outward from around your head, until the Maharata Ball **fully encompasses your body and entire Chakra System**, from **Chakra-14** 36" above head to **Chakra-13** in Earth Core. Imagine that your entire body is now surrounded by a 3-Dimensional "Eckasha Tear-Drop" shaped CLEAR CRYSTAL CAPSULE. The Eckasha Code Photo-Sonic Capsule is now temporarily activated in your Inner Templar system.

The Song of Lyra Christos Invocation

The Vectos Invocations

The Vectos Compendium Declariti

The Vectors Collective Declarations

(All self incarnations in all Time Vectors declaring in Unity as the Avatar Self)

English translation from Elohei-Anuhazi Emerald Covenant Decree Texts:

The Mah'-ah' Bi-Vectus Declaritum

Declaration of the Maharata

(Intention Decree AS the personal D-12 Chnstos Avatar Maharata self identity)

I decree now in this moment of KNOWING that all things here within me are henceforth restored to the original Divine Intention of the ONESELF that is MINE.

I release now all bonds of manifest illusion that place veils of SELF-forgetting before mine eyes.

I revoke all separations of duality through which my Heart is rendered numb with disillusion and discord.

In this moment I reclaim the Whole of my Condition, reaching forth into the depths of all creation to now call my SPIRIT home.

I AM the Sun of the Radiant Glowing. I AM the HEART of Divine LOVE. I AM the Still Point of the Face of All Creation. I AM the Voice of the Universal Song

I decree now in full remembered Knowing that I AM ALL and WE are ONE.

In setting forth this decree of my Eternal Divine Power, I shall render Divine Intention only, through which the All and I are equally served in the Highest Order of our collective Best Divine Intention.

I call now unto the many Selves and Shadows ensconced within the illusions of time, and decree unto that that I AM THIS, I AM.

I AM the wind that brushes thy faces.
I AM the rain that renews thy field.
I AM the Whisper of the Breath of God within YOU.
WE NOW are the expression of Divine Heart, Mind and Hand.
WE are the Rumbling Hymn Song of the earthen worlds of matter.
WE are the Prana-Breath of God Eternal, manifest.
WE are the Waters of Eternal Life forever outward flowing.
WE are the cooling, life force Flame of the Cosmic Fire expressed.
In our UNION now and always, declare WE in our Wholeness, that all dissidence is rendered spent, all conflict NOW made healed.

As DIVINE NAME THIS ..... (your Christos spiritual name)
I AS WE, the Maharata KHUM Bi-Vec'TUS, (D-12 Christed Avatar Divine Blueprint self identity), DO NOW DECREE through the Divine Love, Wisdom and Power that is MINE ... to express now AS this moment, the condition of **Mah'-ah Bi-Vec'TI UN UR'-A-OR'-NaM'-OOR** (Christos beginning and ending NOW-completion of a manifest expression in its originally intended Divine Fulfillment, its past-present-future full expression made in the present time, clearing all duality, disharmony and distortion. Anchoring of the Divine Christos Maharata Blueprint in the moment). Upon this Invocation Divine Intention is rendered manifest in all conditions to which I now assign.

Kundalini

In our Ascension model, we recognize and work with 15 waves of the Spectrum of Frequency that correlate directly with the Universal Rays, dimensions of time, and how our individual energy centers (also referred to as Chakra systems), are connected to those dimensions of time that exist in the multidimensional Universe. The first nine layers of the Spectrum of Frequency, can also be called Kundalini currents, which include the levels of the lower particle currents that make up the physical matter worlds. Above the nine dimensions are the anti-particle dimensions, which are the Blueprint forms of Liquid Plasma light or hydroplasmic currents. The amount of energy stored in the personal Kundalini current, is the capacity of the genetic code to hold the higher Consciousness energy. The Soul and spiritual energies that cannot integrate into the DNA to be activated, will be stored in the Kundalini center that is located in the base of the spine.

The troubled history of NAA invasion and the resulting DNA damage that was incurred from subsequent Artificial intelligence abuse, and a variety of applied trauma based mind control methods, as well as, the anti-Christ conflicts, has rendered most Kundalini energies dormant or distorted in the human beings energy field upon the earth. Most people on earth currently, have not had a natural biological spiritual ascension with an appropriate Kundalini activation. Spiritual Ascension is a simultaneous increase of Expanding Consciousness and a descension of our higher dimensional spiritual-energetic bodies into our physical bodies. This happens through the process of progressive Kundalini awakening at the base of our spine, which moves these energies up the central vertical column into the Crown. Ascension is a change in the spectrum of frequency which happens through biological Kundalini awakening, which initiates a change in the focus of our Consciousness. Ascension is about moving our consciousness from one reality to another. Since reality is a Dimension, what we are undertaking is essentially a full dimensional shift. To go through this consciousness shift, we must adjust our way of thinking and being to that which is in alignment with our Soul purpose and true divine essence.

When we have an awareness of how our Lightbody works, an awareness of the Human Energy Field and the Spectrum of Frequency that impact our consciousness, this supports our understanding that all things that exist around and within us are an energetic form, vibratory quality and Rate of Frequency. The energetic life force current that makes up dimensionalization within the first nine dimensions, is also called the Kundalini energies or Kundalini spirals. In the Ascension Stages of spiritual initiation, we refer to the initiation into higher spectrums of frequency synonymous with understanding Kundalini activation.

Kundalini Activation

Each of the Kundalini currents are Trinity Waves, with sets of three energies that are interwoven into one triad wave current that gathers the Consciousness energy in order to build the Horizontal Triad Bodies or mental bodies, and it designs the way the mental bodies will act as the link of human consciousness into the physical matter worlds. Kundalini activation can be measured through observation of the outward demonstrations of how people think, and the quality of thoughts they carry that influence their behaviors. The total of nine dimensions that are comprised of spectrums of frequency, are interwoven into three main Kundalini triad currents. (3X3) Once all nine dimensions of frequency are activated in the human Lightbody, activation into the Threefold Founder Flame liquid plasmic light commences, and begins the higher spiritual initiation to activate the inner spark of Plasma light of the Christ Consciousness. When the Threefold Founder Flame is activated within the Lightbody, the vertical central column or Hara Line is expanded into the permanent structure of the 12D Shield, which widens the central column to become the structure that holds the internal hydroplasmic pillar of Christ Light. All nine dimensions of the spectrum of frequency exist in a triad pattern comprised of three sets of Kundalini energies that are coiled up within the eight Fetal Cells located on the Tailbone or coccyx. These eight fetal cells are created at the time of our conception. The incarnating consciousness identities are connected into these intelligent layers of the spectrum of frequency that are linked into the Silver Cord of the Soul and holds the birth blueprint or the Transduction Sequence imprint of the entire consciousness record for that person.

The Kundalini coils in the base of the spine or coccyx, are connected to the Silver Cord and to the Pineal Gland in the brain. When the Pineal Gland receives enough stimulation of the higher dimensional spectrum of frequency to begin to activate into the Soul and spirit bodies, then the process of DNA activation begins. Ultimately, upon spiritual initiation of the inner spark of light in the tailbone, this personal spark must travel up the kundalini currents, gradually moving up the body's vertical column to eventually manifest as spirals of plasmic light radiating from out of the heart center. Once the inner spark is able to move up the central column into the higher heart complex, it will begin to communicate with the Thymus Gland, and Hormones are released into the blood to create the combined energies required to ignite the Permanent Seed Atom [1]

Permanent Seed Atom

The Permanent Seed Atom in the upper heart area is the center point for the Krystal Spiral which maintains that connection to the heart center at every subsequent stage of consciousness expansion. The points on the Krystal Spiral are connected to the 8th Chakra energy center, in the Thymus Gland, held through the central vertical lines in the Core Manifestation Body, or in the personal tree of life, our Holographic blueprint structure.

The Krystal Spiral and the mathematical sequence from which it emerges from our Diamond Heart center, comes directly from the Zero Point energy or our higher spiritual body connection to the central point of all union. The Krystal Spiral perpetually retains a living, breathing connection through our activated permanent seed atom which builds the Diamond Heart, while it preserves all memory and identity that had come before in time, it continues to expand itself through the process of spiraling outwards in Multiplication.

Those three main currents that exist as the Kundalini forces in the planet, that make up the 36 harmonics of the first, second and third dimension, those harmonics were scattered from the static fields. If we can think of music in its scale of harmonic tones, our planet should have been running these 36 harmonics in resonating scale. These first layers of 36 harmonics are what have created the lower particle fields in the first three dimensions. Each of these Dimensions has 12 sub harmonic patterns, those 12 subharmonic patterns need to be running, and resonating together. We are enduring the process of wrapping up or rolling up, the lower frequencies where these first 36 harmonics have existed in the red wave

spectrum and the orange wave spectrum and the yellow spectrum, which have been making up the lower three chakras of humanity. Those harmonic patterns are starting to braid into triads and this is a part of understanding that this directly impacts Kundalini forces, or the inner spark activated off of the Fetal Cells, that becomes ignited in the Tailbone of a person, when they begin their ascension journey. What has happened to this planet during the Ascension Cycle, to the majority of the people that are on the surface of this Earth, is the kundalini current distortion that was created from the static fields, where the energies that are conducting through the human body, and especially when that human body intersects with the planetary brain, it has had a static energy effect, and this manifested into kundalini current distortion. And that static field distorts the lower frequencies to reverse and split apart, these trinities that need to weave together in the person's kundalini process, where that spark comes online in the fetal cell of the Tailbone, it ignites these harmonic layers to begin to weave together. For some people, if they do not know about Ascension, and they are still reliant on their three main ego structures, this is contributing to the increasing brain chemistry imbalances and metabolic problems on the earth. These people need spiritual healing, to help neutralize the static field effect their lower ego mental bodies have had upon the new entry of higher frequencies into the planetary body.

Fetal Cells in Tailbone

The good news about this shift is understanding the necessity of how the inner spark comes online in the Fetal Cells located on the tailbone. There is a seed that ignites a spark of light to run up the spinal column. It starts weaving with the next layer of the sub harmonic in the scale closest to its energetic resonance, in order to connect with the body through the spine. A part of this is happening now, which has a positive result, it is the reweaving of the kundalini spark into the triad layers, which allow these sub harmonics to start merging or bonding with each other as Trinity Waves. It is creating a co-resonance and this allows an amplification of the inner spark to finally do something inside of a human being. Because the first thing that happens when its ignited is, it has to move up the central column. And the problem with that is, if you haven't cleared out your Pain Body, if you have not cleared out Alien Implants out of your Unconscious Mind matrices down in the root, with all the Victim-Victimizer and fear layers, this makes it very challenging for any person who is going to be amplified in all of those inner fears and not understand why that's happening to them. Many people on the earth still do not understand the Ascension process, and do not have the tools to neutralize the fears.

As the Kundalini moves up the Chakra column, it starts moving into higher dimensional octaves, collecting more of the seven layers of harmonic frequencies, and then it starts inter-penetrating into the physical matrix structures. The first one that is greatly impacted is the skeletal structure and in terms of understanding the changing foundation for humanity, it is in our bones, in our bone marrow and in our blood. Our bone marrow function is very critical for our development, it has information that is communicated into our blood from the bone marrow, as well as stimulating the increased production of red blood cells from the bone marrow. The skeletal structure is an harmonic Oscillator and when these frequencies are coming in, they move through the harmonic structure of our skeleton. The skeleton tries to reorganize itself so that it can transmit these higher frequencies into the rest of the body, and circulate the broadcast of sound waves to penetrate the energetic layers. It's a sound, the sound tone of the frequency, that carries the frequency instruction set into the other layers of the bodily matrices.

Mentor Field or Higher Mind

From deep within the Crystal Core of the planetary body, new instruction sets are being transmitted from the planetary staff into the earth's crystalline grid, which is in a process of releasing a tremendous amount of crystalline current and non-polarized current throughout the Planetary Grid Network. This has activated Sun Discs and Sun-Star crystals that also interconnect with the underground crystal caverns that hold information about the hidden timeline histories of Earth, Tara and Gaia. Essentially, we are in a phase of receiving more positive energy and benevolent technology that is designed to support human Ascension and planetary liberation. The crystalline imprints are supporting the recoding of the

Kundalini forces that were missing an assortment of proper subharmonic frequencies, as well as igniting a vast network of previously dormant Crystal Caverns and star crystals. The crystal caverns are being reconnected through the Sun Disc Network in multiple timelines of the Earth, Taran and Gaian bodies in which they exist.

Once the Kundalini current runs in corrected patterns to build the sub-harmonic strings in each of the 3-6-9 dimensions, the new horizontal network corrects fragmented mental body patterns which are then rebuilt into higher mind or Mentor matrices. This is to say a previously fragmented mental body, can now hold a container for the higher consciousness aspect of the mentor body to integrate, in ways not previously possible. This is a planetary initiation that ignites an individual's spiritual body into a catalytic process which activates the liquid crystal cells, both in the Mitochondrial cristae, and within the diamond Crystal Heart which contains the Permanent Seed Atom.[2]

Threefold Founder Flame

There are Three Original Primal Order Sound Fields that make up the Ray Aspects of our entire Universal creation in the Universal Time Matrix. Collectively these are also referred to as the Founders and the Threefold Flame that make up the GSF Triad. The Threefold Founder Flame gestalt of Universal consciousness is called the Guardian Host. The Threefold Founder Flame united into a single triad liquid plasma current to create the 12D Ray which is the blueprint for the Diamond Sun body or Silicate Matrix of the Christ body.

NAA Invasion

The troubled history of NAA invasion and the resulting DNA damage incurred from Mind Control and anti-Christ conflicts has rendered most Kundalini energies dormant in human beings on earth. Most people on earth currently, do not have a natural biological spiritual ascension with Kundalini activation.

Spiritual Ascension

Spiritual Ascension is a simultaneous increase of Expanding Consciousness and a descension of our spiritual-energetic bodies into our physical bodies through the process of progressive Kundalini awakening at the base of our spine which moves up to the Crown.

Ascension is a change in Spectrum of Frequency through Kundalini awakening and a change in the focus of our Consciousness. Ascension is about moving our Consciousness from one reality to another. Since reality is a dimension, what we are undertaking is essentially a full dimensional shift. **To go through this shift we must adjust our way of thinking and being to that which is in alignment with our soul purpose and true divine essence.**

False Kundalini Snake

The Caduceus network runs on reversal 7D Violet Ray current and has been intermixed with the "serpent" or snake symbolism that is commonly used to describe the human energy field via the Chakra system. The Caduceus geometry was an extension used to anchor the human Lightbody to align with the reversal systems connecting back into the black star Abaddon and connect through the 7D Crucifixion Implants and the related networks. Thus, it was also used to bring the Qlippoth currents from the Black Tree of Life architecture to systematically override the organic architecture of the 12 Tree Grid and install artificial machinery and false memory earth timelines. During the Egyptian timelines the blue staff of Tara was utilized to de-materialize a section of the 2D fields causing an underworld rift, or rip in time. The Caduceus geometry was a false light insert that was installed to take advantage of the underworld rift in the 2D fields and control the black force current for generating creations in the Womb Worlds.

Easing Kundalini and Ascension Symptoms

• Learn the 12D Shield, ES Core Triad practices and make the consistent dedication to clear fear and pain in one's body

• Breathing exercises and relaxing the physical body as deeply as possible. Relax the mind, relax the body, allow the energy to move through you and visualize it moving in spirals up the spine and out of your crown.

• Stay as present in the now moment as possible, work on the mind stillness with the steps of Observe, Discern, Accept and Neutral to remain in Observer Point. Clear and refocus your mind away from fear and controlling the result.

• Take care of what you eat and drink, eat smaller and simpler meals. The body has to work harder to digest, so pay attention and listen to what the body really wants to eat.

• Stay hydrated and soak in water or take salt baths. Toning, meditating and singing in the bath, can help immensely

• Allow yourself quiet time, rest and stay away from people and circumstances that are emotionally theatrical, manipulating and controlling. Be sure to clear yourself of engaging in these tendencies. Seek to find more harmony, peace and balance in one's life.

• Research Kundalini and Ascension to be informed and speak and communicate with those people that understand and have experienced the same. Know that this is normal for humans to have spiritual awakenings, and many people undergo the exact same things that you are.

• If your body feels constricted, engage in a physical activity to help the body be more open and relaxed. Be in Nature or walks with your pet, movement or massage processes. Intend to stay grounded and to ground your internal spirit in your body

• If one has had serious abuse or trauma, therapy or counseling may be helpful with the intention to safely release trauma in a confidential space, held by a qualified or trusted individual. Focus on releasing issues related to the trauma, with a therapist that is experienced and compassionate and understands spiritual orientation as a motivation and support for the process of healing.[3] See Also Ascension Symptoms, Dark Night of the Soul

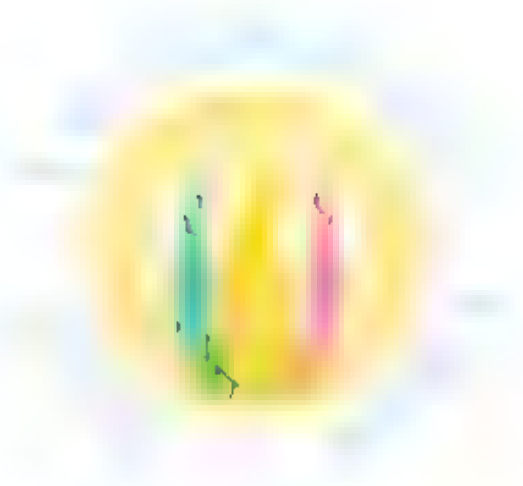
Law of Consent

For purposes relating to taking back control over one's own mind, body and spiritual consciousness, from those humans and Negative Aliens who have abused the Law of Structure on this planetary body, we are discussing the foundation of the Law of Consent and it's critical importance.



God-Sovereign-Free (GSF)

What we hold as our intention in our personal thoughts, is what we hold as our Consent towards that thought-form and its vibrational quality and force, as well as the energetic consequence of the thought-form substance created which impacts the self and others.

- What we think is what we create through Intent, Consent and Structure
- The sum total of the energetic intention behind the accumulated thoughts or words that we have said in the now moment, is more important than the verbal language used to establish intent, consent and authority
- The fact we think the thought automatically under Mind Control programs, means we have given the thought consent even without our conscious participation with intent. This is the main factor in NAA human exploitation by Mind Control. By taking away knowledge of personal Intent, they remove personal consent in the laws.
- The sum total of our accumulative vibrational thoughts and expressed words will override a persons choice. This means a person who has not consciously participated with giving personal consent and authority makes the choice through accumulative frequency resonance. This is the weighted average of the sum total of the individuals, body thoughts, emotions, actions and behaviors which equate into an overall frequency resonance. This overall frequency resonance is what decides Intent, Consent and Structure for that person
- This means that disciplining and controlling our inner thoughts is extremely important, as these thoughts add accumulative energies to form intent, consent and authority made under the Law.
- The Laws of Intent, Consent, Authority and Structure, are purposely hidden and manipulated by the NAA in order to control humans who are not aware of these energetic laws, nor aware that they can gain personal power to regain control over their spiritual and energetic consciousness through the obeyance of these laws

Through the exploitation of these Laws the NAA and the False Father Gods have manipulated humanity to be in consent and authority with their forces, as intermediary, through shaping the Predator Mind in the human culture, through the many Mind Control programs that humans are given as a false history and false reality. Based on these many lies and deceptions, humanity holds belief systems of the Predator Mind thought-forms, thus, naturally becomes in the consent and authority of that same Predator Mind in the NAA groups. This is how the NAA control humanity by manipulation of consent in the mind, by removing intention of thoughts and making them automatic reactions in the Unconscious Mind, further, which manipulates the Soul. This makes the NAA False gods an intermediary source field (Imposter Spirit) for many unsuspecting humans who cannot discern the difference between lies and deception, and the truth.

Your Body Belongs to You

The Law of Consent is important in order to protect your right to Self-Determination and to reclaim all contents and operations in your body consciousness, as responding only to your personal authority through Informed Consent. Whether there are inorganic or organic components, (such as implants) if they are connected to your body, physically, mentally, emotionally or spiritually, they belong to you. Everything in your body and consciousness belongs to you. Every person has the right to command the authority, of every function of the body, to be directed only by the inhabitant of that body. Command all contents located in your personal consciousness to be operating only with your full informed Consent and authority.

Applying this action first in your 12D Shield, will allow for an easier extraction process to identify and locate Alien Implants, entities and spiritual oppressions, that need to be removed from your consciousness bodies.[1]

Intent matches Consent, Authority

This means if we hold a thought-form and behaviors that vibrationally matches Luciferian intentions or Satanic intentions, at the same or equal vibration or frequency level, this is the consent that one has given to be in authority or exchange with those same forces.

As an example one may go to church and pray to God for help, and then go home and engage in self destructive habits, Addiction, Sexual Misery programs, yell at their spouse, or whatever else. Then the persons wonders why they cannot feel any spiritual support or god connection. One may ask for consent and authority to be with God, however, as this example represents, it is the accumulative choices that we make in our thoughts and behaviors that ultimately energetically align us to the force we are in consent with.

This highlights the importance of choosing one's authority and therefore one's intentional consent and authority EVERY DAY, to help overcome the negative thoughts one may have as you learn to discipline the mind from Negative Ego and Predator Mind thoughts. As we discipline our mind daily by discerning spiritually healthy thought-forms that are suggested in the GSF Behavior and the Law of One, we get stronger to build our spiritual house, which is building our structure, as obeying the Law of Structure. One has the right to build their personal space to comply with one's personal consent, as given through accumulative thoughts and behaviors in the Law of Consent which decide which forces are used in the building of the internal and external structure, through the Law of Structure.

What we give our Consent to is what we give our Authority to.

ES Core Triad in Making Consent

This law is emphasized in the ES Core Triad, by making a statement every day where your intent, consent and authority is being chosen through one's personal declaration of intention. If one does not make this consent or authority the natural law will align to the intentions of the accumulative energies collected in ones thoughts and the quality of the energies one has in their Lightbody. This is why purification of one's mind, body and emotions support spiritual ascension and spiritual progression.

As example, the Step One of the Daily Declaration of Intention is to, through one's own power, resolve the authority problem between Negative Ego and God.

My declaration of intention is to serve my Source. I commit to serve my highest power fully, completely and totally. I am God. I am Sovereign. I am Free!

In this statement from the ES Core Triad, one is accessing the Law of Intent, The Law of Consent, and the Law of Structure.

Law of Cause and Effect

Law of Consent also relates to the Law of Cause and Effect. What we think with intent, will be in consent with the frequency match of the force we create, and the force we create with is our authority in the structure we are building. What we build in the Law of Structures is that which we have created with forces, that will have a energetic cause and effect upon our body, mind, consciousness and all of our life experience.

Since all structures in the body, mind and spirit are based on personal intent and consent with the thoughts being generated, that means we are directly responsible for every thought we generate. In order to be responsible for every thought we have, we have to determine where the thought form is sourcing, and if we want to accept that thought and its cause and effect, or not. This is a critical piece of Spiritual Maturity which can be cultivated with the many tools in ES community, such as the 12 Practices of Self Awareness.

Law of Intent and Consent

Whatever kind of force we are in consent with, whether we know this or not, is the quality of energy that our body and Consciousness is subjected to in Universal Law. The quality of spiritual force will have corresponding dimensional laws, which govern the actions of that quality of that spirit. Negative forces are in the lower dimensions and create servitude and bondage to time, while positive forces of the Spirits of Christ are in the highest dimensions and create sovereignty and freedom for the Soul and Spirit.

What we think with our intent will be in consent with the frequency match of the forces that we generate, and the force we create with is our Authority in the structure that we are building.

What we build in the Law of Structure is what we have created with accumulated or combined forces. This creation, whether perceived as intangible or tangible, will have an energetic Cause and Effect upon our body, mind, consciousness and all of our life experiences.

When one has the knowledge of the Law of Intent, they naturally develop their consent with whatever energy, force or structure they are interacting with or co-creating with. That force of energy, whether positive or negative, is used to create a structure, and that will determine the Authority with which that structure has been built. As long as that structure has been built with that same Intent, Consent and Authority, it will remain as the Governor of that structure.

This lack of knowledge is the most common reason why an individual that has unknowingly co-created with the negative causes, that are the Imposter Spirit forces, becomes increasingly entangled with these negative forces, creating more negative results from Law of Cause and Effect. Many people cannot discern negative forces and the levels of deception carried out by the Imposter Spirits. This is a loophole created from the Alien Machinery and its inorganic AI architecture that has manipulated human beings to co-create with these negative forces, in order to grow and spread their negative effects on the earth plane and in other dimensions.[2]

Self Sourcing Thoughts and Behaviors

To source thoughts it is supremely helpful to become aware of the Internal Structures of Ego operating in one's body and be able to monitor thoughts as spiritually abusive thoughts or spiritually healthy thoughts. Once this is accomplished it is much easier to learn how to be in Compassionate Witnessing and not need to assign any type of judgment on thoughts, but to assume neutrality

It is important to know that the Alien Machinery has abused the Natural Laws, in so that humanity does not have free will in the way that they believe they have. This has been accomplished through the erasure of Galactic Memories, unplugging human and planetary DNA and using psychological-spiritual warfare through Mind Control technology. All of these psycho-spiritual warfare assaults against humanity and the mind, make it challenging to impossible to navigate the terrain of the promotion and shaping of the Archontic Deception Behavior and its Victim-Victimizer strategy to keep the collective human mind generating thoughts of the Predator Realm.

If we think thoughts like a Predator, if we think thoughts that are opposing and abusive to the Natural Laws of God and the Inner Christ spirit, we are then in consent with the Luciferian or Satanic Forces. If we remain in consent with our thoughts to the Imposter Spirit we will suffer greatly in Spiritually Abusive Behaviors that we generate from our own mind, and its matched to our thought vibration in the collective Unconscious Mind

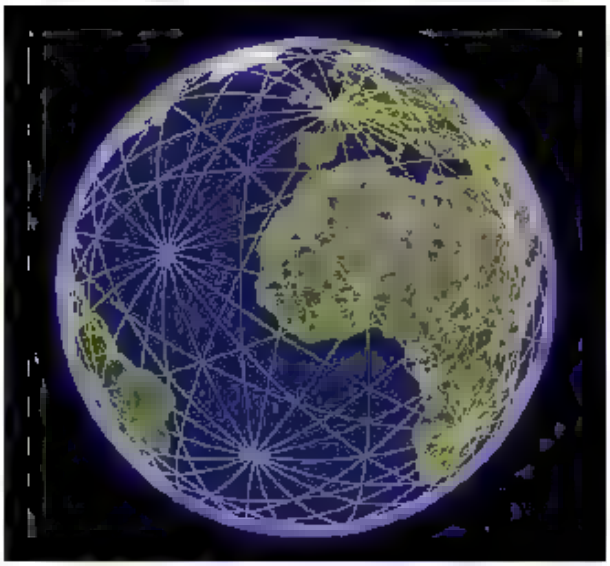
Ley Lines

Ley Lines are the meridian axiatonal lines or grid system that conducts and transmits frequencies throughout our bodies and the planet. They are an exact mirror as they exist in our personal holographic template and are reflected from within the larger mirror of the planet's own meridian and template system. (This is one way to describe our micro and macro system of nested holographic energy templates or the 12 Tree Grid that generate within an infinity spiral of ever expanding spinning fractals.)

Axiatonal Lines create the macrosystem energy network in the Lightbody where all dimensional frequencies are transduced into the meridians, chakras and etheric nadial structure. **Ley Lines run the same energetic network into smaller tributaries in the microsystem.** (This is similar to understanding the difference between an arterial vein and a capillary vein functioning in the same human circulatory system.)



Planet Gridwork

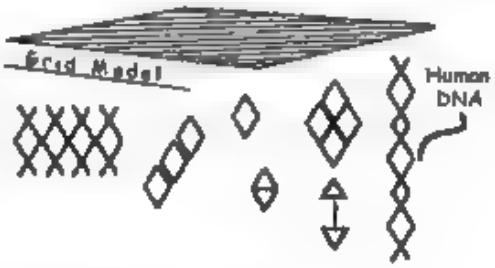
The same energy network Axiatonal Lines that are present in the personal Lightbody and the 12 Tree Grid is also interconnected to the larger planetary axiatonal lines. The larger planetary body has an energy network which is an exact replica of our personal energy network and this expands throughout the unified field of energetic layers that comprise the Planetary, Galactic, and Universal consciousness energy systems. This combined network is the Unified field of Energy and Consciousness that together make up the entire time and space field of multiple dimensions, as well as the individual form and consciousnesses that reside in the entire Cosmic Structure. See Universal Time Matrix.

When focusing on the request for Axiatonal Alignment, one is bringing conscious awareness to all layers of these multiple dimensions of intersecting energy lines. This is to bring awareness of unification between all levels, personal, Planetary, Galactic and Universal energetic alignment with the Unification of the Christos Trinity-Wave format, the Unity Field.

During the end of the Ascension cycle our planet and humanity is evolving beyond a bi-wave (polarity) structure and into a tri-wave (Unity Field) grid format which connects to the Unity Logos. (See Bi-Wave Influences and Triad Communication Station)

Grids Lines and Metaphysics

Our thought Consciousness creates a Holographic grid program that repeats in cycles and can be best understood if you study Sacred Geometry. The grids consist of a matrix of sound, light and color through which we virtually experience time and emotion. In physical reality the grids are electromagnetic creating polarity or duality of experience, looking to restore balance. When one is in the process of awakening and moving through the healing process of healing self by healing others, one creates balance, increases their psychic abilities, and obtains a final understanding of the nature of reality and where it is all going. Reality is about the evolution of consciousness in the alchemy of time.



Grid and Human DNA

Grid energy is the very essence and fabric of the universe. In the following illustration created by Deja Allison (Usui Reiki Master, Hypnotherapist, Ph.D in Motivational Studies, GBCT Instructor) the grid has no beginning and no end. Looking at the grid vertically you will see it makes a four-sided diamond shape, following creational/sacred geometry showing the interlaced woven matrix of Universal essence. When energy flows unobstructed, the flux remains relativity even, though there is always intonation at all times. You can see examples of how the shape forms other geometry for manifestation. Human DNA is configured by this geometry. In order for the flux to have different levels of intonation there must be catalysis of some kind. Thoughts and action are two different kinds of catalysts. Therefore, there must be movement to effect change. Different laws affect the consciousness of the grids such as balance, neutrality as well as immutable Universal Laws - codes of energy that once put into motion cannot be stopped and must play out until the end of the program. How those laws affect us is determined by our own energy patterns. Our thoughts and actions determine the Law of Attraction by the types of experiences to which we have experienced in this lifetime or another. Immutable laws cannot be stopped, the can be altered by events but not stopped.[1]

History of the World Grid Theory

The idea of the Earth as a geometric shape goes back in history at least to the Pythagorean school of thinking in ancient Greece. Its famous adherent, Plato, wrote that 'the earth, viewed from above, resembles a ball sewn from twelve pieces of skin.

Grid Description -The octahedron, tetrahedron, icosahedrons and the dodecahedron (Platonic Solids) complete the global grid. This information was put together by husband and wife team Becker and Hagens (However, this is an ancient source of information known by many Mystery Schools through the ages.) William Becker is a Professor of Industrial Design at the University of Illinois, Chicago and Bethe Hagens is a Professor of Anthropology at Governors State University. This husband and wife team shows how these shapes worked into the ultimate Earth Grid which they call the Unified Vector Geometry 120 Polyhedron or the UVG120 'Earth Star'

Becker and Hagen ascribe this discovery to the work of Ivan P. Sanderson, who was the first to make a case for the structure of the icosahedrons at work in Earth. Sanderson located what he refers to as the 'vile vortices'. These vortices are areas of the Earth where mysterious disappearances, mechanical failures and time-space distortions were seen to occur. Many explorers disappeared if they crossed over the vortices at the wrong time of year, with the wrong lunar and planetary alignments activating those particular areas.

During the times of Atlantis and possibly even earlier, the entire Earth's coordinates were mapped out by the construction of the different pyramids, temples and earthworks on the Earth's surface. These were known as the Maps of the Ancient Sea Kings. It was these maps that lead Sanderson to work on the Earth Grids. After the last pole shift 12,500 years ago, the main body of Atlantis land sank. With only a few survivors, it is believed that only a few of the maps may have survived as well.[2]

Planetary Grid Networks

In ES community there are six main Planetary Grid Networks that are consciousness source fields that feed into the ley line networks and their many tributaries. These are discussed and are often referenced or interacted with in study discussions, meditations and treatments designed for architectural repair of these planetary consciousness networks. These combined Guardian projects are called PEG or Planetary Emancipation Gridwork projects. Lightbody

The Lightbody is the human energy field body or Energy Aura body that projects our Consciousness through a holographic template that generates the physical manifestations we experience within this material reality. It is comprised of many interwoven layers of electromagnetic frequency (light and sound waves) that make up the consciousness intelligence identities that function in each dimensional layer that exists within the Universal Time Matrix. The lightbody is the holder of our consciousness record and identities throughout time, and it holds the living light code of our Blueprint structure and maintains our direct connection and communication with our higher self, the Godhead or Source.

Eterna Lightbody

There are 3 main Levels of LightBody

Level 1 - 12 Tree Grid and its Horizontal Triad Bodies

Level 2 - Chakra Crystal Keys, Axiatonal Lines, Hara and Nadial Structure

Level 3 - Chakra System

Human Energy Field or Energetic Aura

The human Lightbody or Aura is comprised of multiple interconnected layers of electromagnetic fields of energy that extend all around the physical body like an energy shield covering and protecting all of the bodies. When we are meditating and practicing our 12D Shielding, we are placing our attention on our lightbody to help strengthen, protect and grow our personal consciousness body. The Lightbody is the structure, which is required to house the electromagnetic energies of the Soul-Spirit bodies in order to connect them with the physical layer of the human body. Electrical impulses are generated from the Lightbody via the Nadial Structure, which is a spiritual body part. It is made up of a webbing of energetic receivers and energetic transmitters that are intrinsic to the interconnected messaging functions in the human Soul-Spirit consciousness layers.

However, when this communication from the Soul-Spirit is working between the Lightbody and the CNS, they function together as the communication link between energy receivers and transmitters that signal into the nerve cells and brain. The nerve cells build new biological neural networks which instruct the brain and spiritual intelligence to connect the energetic circuitry required to grow the human electromagnetic field, and this forms into the energetic aura that projects outward from the body. The energetic quality of the person's energy Aura will be represented in the energetic balance of the physical, mental, emotional and spiritual functioning, and will be demonstrated in the physical through the person's thoughts, behaviors and actions.

The quality, color and size of the energy aura of a person is directly related to the level of health, bio-neurological functioning and spiritual connection that person has access to. A person with a bigger and brighter energy aura is more healthy, coherent and balanced, with a better functioning nervous system and brain, than a person with a small and cloudy

energy aura. Small, gray, cloudy energy auras will produce more blockages and imbalances, such as mental dysfunctions or defects in the functioning of the Brain and nervous system.[1]

Crystalline Properties

The earth body and the human body, as well as the entire DNA record is made in crystalline properties. The Silicate Matrix DNA template is the original human crystalline blueprint that is activated in the human body when contact or connection is made with love coded hydroplasmic light, which is essentially liquid crystals. The Human Energy Field consists of an array of oscillating energy centers that are nested within a multi-dimensional Blueprint of interacting crystal structures that organize into an assortment of crystalline functions. All of the interactive layers of the physical matrices, such as the organ and glandular systems, down to our skeletal structure are known to have piezoelectric properties and crystalline functioning. Our bone structure is the primary solid crystal in our physical body that acts as the main frequency transducer throughout our bodily matrices. Thus, the key to restoring energetic balance and health is to understand that we must sustain an abundant amount of life force to circulate through our physical structures, through the awareness we are a crystalline being that conducts energy through crystalline functioning. Everything that we are exposed to has an energetic signature and frequency that impacts our energetic balance. This means all humans have the same properties as Crystals, the ability to amplify, absorb, store and transmit a range of vibrational energies that have an overall effect that is either healthy or unhealthy for the entire body. Magnetosphere

A Magnetosphere is the area of space near an astronomical object in which charged particles are controlled by that object's magnetic field. Near the surface of the object, the magnetic field lines resemble those of a magnetic dipole. Farther away from the surface, the field lines are significantly distorted by electric currents flowing in the plasma (e.g. in ionosphere or solar wind). When speaking about Earth, magnetosphere is typically used to refer to the outer layer of the Ionosphere, although some sources consider the Ionosphere and magnetosphere to be separate. [1]

When the upper atmosphere (Ionosphere-Magnetosphere) is undergoing heavy ionization (Solar activity is a key to Human DNA activation) therefore changing portions of the fields particle charge, the lower atmosphere on the surface of the earth will be impacted through exposure to the changed electron-proton ratios. The attempt to control the rate of the charged particles created through the ionization field as it enters the lower atmosphere to the planetary surface, is one of the negative agendas for the sprays of Chemtrails. This is an attempt to block the natural connection that exchanges between the Upper Atmosphere and Lower Atmosphere of the Earth, as these are areas of NAA attempts to maintain their frequency fences. These fences have specific electron ratios that will be compromised if those ratios change. The N.A.A. manipulated the magnetosphere (in the upper atmospheric layer) to invade the planetary brain thousands of years ago by using technology to control the magnetic field. When the magnetic field is controlled, the mind control begins, hence this is the power source of mind control programming (enslavement) on the earth.

The Magnetosphere is similar to understanding the functions of the spiritual-energetic body that power the entire planetary brain. The Magnetosphere is the power source of the planetary brain which is the area the magnetic field lines impulse information (instruction sets) to the collective consciousness. What impulses the collective consciousness of humanity then manifests at the microcosm level through the impact of the individual human being's thought process and autonomic functions. These planetary impulses impact a person's thoughts, behaviors, perception of belief, some bodily functions and the choices they make as a result of this new parameter of information. Therefore many people (as well as other life forms) are having a reality shift, body changes, and major change of perception in their world. Depending on many variables, but especially dependent on the individual's neurological and brain capacity will determine how these shorter wavelength's and higher frequencies impact the individual.[2]

Planetary Brain

The term "Planetary Logos" is also a way of describing the processing functions that direct messaging into the planetary "brain". (This is similar to a computer processing unit, CPU chip used in computers [3]) These messages in the planetary brain influence and control every living thing on this planet. There are message impulses being artificially programmed to create mind control, brain dysfunction and nerve synapse blocking. If we are informed and aware of these energy assaults against our consciousness, we can override them by maintaining inner spirit connection as the priority message received and 12D Shield shielding our energy aura.[4]

Magnum Opus

Ancient alchemists have written that the goal of the Great Work is to perfect any substance, creation or situation through its transformation back into its essential divinity, or Art, within the matter realm. Embodying divinity and creating true Art are considered one and the same in Alchemy. The Magnum Opus is also an alchemist term for the arduous process of forming the legendary substance which generates astounding powers that transform base metals into gold and silver. Knowing that our elemental body is shifting from carbon based atoms to higher based elements through frequency shifts, we can connect the dots in our own bodies' spiritual progression related to its alchemical processes.

This alchemical transmutation has been referred to symbolically as the substance of the philosopher's stone and is associated with the Elixir, Holy Grail, Eternal Life, Divinity, Quintessence and the Christ. The elixir of the ancient alchemists has essentially claimed the same ability to bring perfection to any substance in matter. When this Alchemical Art is applied to perfect the human body, the elixir cures diseases, returns youth and restores balance with nature. The highest emanation of this mysterious elixir is truly the cosmic aether of Mother's Holy Spirit (the Chalice) returning to the earth during the Ascension cycle. See Azoth. [1]

Ascension Stages

Inner Sustainability is Integrated Spiritual Ascension and is the ultimate energetic sustainability when we self source from within our Soul and Monad connection, our personal spiritual source field connected directly with God. We end consumptive modeling and vampirism of other people's energies, when we are capable to self source and develop our spiritual bodies and clear Negative Ego and the Pain Body. This process is Humanities Ascension Stages and spiritual Magnum Opus

- Inner Sustained Vs Energetic Parasitism (ending recycling of reincarnation and Alien Mind Control),
- The Ultimate Energetic Sustainability is within your Core God Being ,
- As We are Fully Connected to our Soul-Spirit We are Inner Directed thus Inner Sustained

- Connection to the In Breath and Out Breath of Source – Direct relationship to God with no intermediary
- Everyone is accountable to claim personal Sovereignty and Freedom by consciously choosing to participate in personal evolution this is the GSF Ascension timeline,
- Divine Will and Divine Source is The Ultimate Intelligence Choose Divine Will over Personal Will and observe the magic around you You Now become a part of the Guardianship of the Divine Plan for Humanity
- How do we get there? One way is understanding your Lightbody's function which is Spiritual Ascension by focusing on Chakras and our stair step up the 12 Bodies of Intelligence [2]

Galactic Zodiac

The Zodiac structural principles are both energetic and geometric which are being aligned to the Alchemical Laws of God hosted by the Aurora Ray System. When astrological alignments occur through major conjunctions between planetary and stellar bodies, forces of alchemy occur which alter frequency current and manifest new creations. This new cosmic alignment changes the stellar architecture of how the Sun transmits the influences of the Zodiac in the Ray System throughout our Solar System.

Galactic Zodiac

These stages of transmitting alchemical forces to aid consciousness evolution are qualities of which have never been previously exposed to this planet. This is allowing the Alchemical Laws of consciousness evolution to be transmitted through the constellations of which are inherently a part of the organic processes of planetary biological ascension.[3] See Laws of the Galactic Zodiac Cycle

The Golden Gate

The ancients called this circuit path made around the galactic equator, the Gate of the Gods or The Golden Gate. The Orion constellation sits in the opposite direction, which would be considered the anti-galactic center. The ancients called this circuit path the Gate of Man or The Silver Gate. Ophiuchus and Orion are mirror images of opposing polarity. Together, they represent the ascending path through the Gate of Man meeting at the Gate of the Gods. The many Ascension Stages we endure to reach our spiritual Magnum Opus, are the stages of humanity moving through these sequences of Consciousness gateways.

Celestial Plane

We all incarnate as earthly beings that evolve through the Precession of the Equinoxes. This takes us through the consciousness realms moving through the ecliptic path of the Gate of Man to eventually complete the evolution cycle, which intersects at the Galactic Center Once we unify the consciousness experiences through the Gate of Man intersecting with the Galactic Equator at Ophiuchus' feet, we are potentially given access to The Golden Gate This allows us to proceed on the Ascension path to become resurrected eternal spiritual beings unified with the Cosmic Holy Spirit From our solar system the Galactic Center lies visually along a line that passes through The Golden Gate This is the Gate to Eternal Life which pours out the Universal Elixir that opens at the end of Precession Cycles

The Golden Gate is located on the circuit path, where the two great celestial spheres intersect together that create four quadrants. The quadrant is one of four circular sectors in the equal division of the planetary sphere. The first great circuit is the path of the Sun through the zodiac made in its annual cycle. The other is the circle path made from the center of our Milky Way galaxy called the galactic equator.

The intersection point made between the two circuits located between Taurus and Gemini constellations is known as The Silver Gate. The intersection point of the two circuits between Scorpio and Sagittarius constellations, right under Ophiuchus right foot, is known as The Golden Gate. [4]

Krystal Palace

The Krystal Waters or amrita is connected with the alchemist's Philosopher's stone in the Magnum Opus of spiritual Ascension to birth the Cosmic Christos Consciousness. Krystal Waters and amrita oil are produced when the Negative Ego is offline and undergone Ego Death, and continues to dissolve the myopia of the Ego, Personality thoughts by radically restructuring the brain and body with the liquid hydroplamic spiritual light of the Avatar Christos. It is none other than amrita oil produced by the glands in the Krystal Palace of the brain (circumventricular organs) that is the alchemical process which turns solid matter into a liquid, and back into the raw material or prima material. This is the Magnum Opus in spiritual alchemy to dissolve the current limited sense of oneself and completely rebirth and re-form the Expanding Consciousness into knowing the eternal nature of the self.

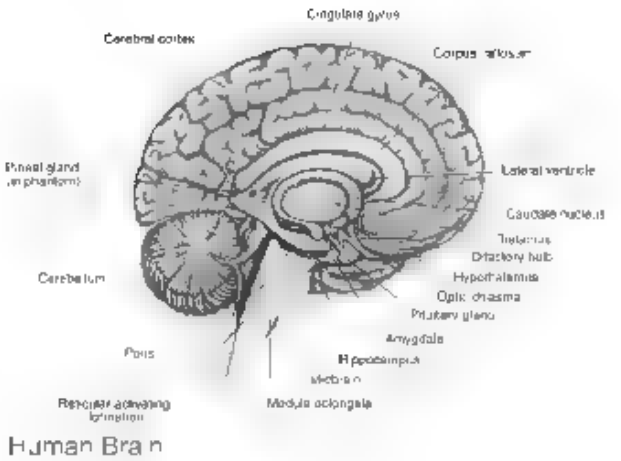
Medulla Oblongata



Human Brain

We may be starting to feel the new energy platform supporting our foundation so this group is not feeling such an energy burden in our personal bodies. The 9th Chakra at the base of the skull has been referred to as the "Mouth of God" and its opening is exactly at the back of the neck where the skull lays on top of the spine. It connects to the medulla oblongata and the reticular formation of the brain and spinal cord

The Medulla Oblongata is at the base of the brain stem that acts as the energy receiver of cosmic energy. Bring to your mind the life force energy coming into the medulla oblongata and being directed to your body parts. When feeling unwell, imagine the Cosmic Consciousness streaming into the back of your head and projecting itself throughout your body parts and areas that feel blocked or unwell. This helps to develop ones skill at directing life force energy within the self and the environment.

This area esoterically has been called the Golden Chalice for it is the Occipital Cup that holds the Cosmic Intelligence or Wisdom. It is a etheric type of brain rewiring (and spiritual body activation) in order to hold and be receptive to the "Golden Chalice" of transmitted Universal Knowledge and directing cosmic energy to our bodies. Medulla Oblongata [1] (http://en.wikipedia.org/wiki/Medulla_oblongata)

The medulla oblongata connects the higher levels of the brain to the spinal cord, and is responsible for several functions of the autonomous nervous system, which include:

Respiration, Cardiac center,CNS the sympathetic, parasympathetic nervous system, Vasomotor center (receptors in the blood vessels), Reflex centers of vomiting, coughing, sneezing, and swallowing.

Implants Behavior Profile

Implants behavior profile: In the application of a NRG or Victim-Victimizer coded Mind Control implant, its mechanism acts like a "tick" or "leech" that burrows itself deeper into the lower areas of the astral body, mostly into the 2nd Chakra and into the Instinctual response functions which impulse the spinal cord and the central nervous system. This CNS area is also at the base of the neck at the location of the Atomic Doorway, the 9th chakra (Medulla oblongata), where the inner spirit light reflects out of the eyes from the embodied Monad. (Like a holographic projector) That inner light will die or become dead in the eyes after this (mind control) implant takes control over the body through the CNS manipulation of stimulating lower ego. This is to block spiritual body from embodiment into the physical layers. The etheric implant is a reptilian brain implant that is placed in the structure of the brain stem via the medulla oblongata. This is a way to manipulate the CNS impulses to the brain to change or stimulate thought control via the negative ego or lower third layers of the subconscious, instinctual and conscious mind matrix.

Nervous System Changes

All this information about the changing magnetics in the global brain means that we at the individual level will experience nervous system changes as the brain neural net changes. I hope this comes clear to you, that you are right on schedule and that you can release fear around these areas. It's important to note that the atomic doorway of the ascension, the 9th dimensional chakra, is right directly on **medulla oblongata** on back of cranium where the cranium and skull meet the top of your spine. This area has been very problematic and why people are having neck pain, tension, headaches, dizzy spinning, etc. This area sometimes can be manipulated or adjusted, and when it is, will bring great relief. This is because many new energies are attempting to move through what have been dormant energetic centers in your Lightbody. As these frequencies come through or are exposed to your body it can be like "rusty pipes" in your house. If you have not turned on the water, the house has been abandoned and you are trying to turn on the plumbing, it's a little creaky, there's a lot of debris coming out of the pipes. We have a lot of similarity as these new energies come back online in our bodies. There are channels attempting to re-circuit, orbit, plug in to circulate these energies and this is a common emanation. Some of us notice temporary numbness and tingling, some odd sensations moving into the thoracic level on up to the base of the neck and head. Adrenal fatigue is very common during exposure to high frequencies when we may be undergoing "downloads" or activation. When we work with these frequencies, our adrenals and thyroid are first parts of our system that get exhausted and possibly fried. Beings that do spiritual intuitive or energy session work, also have higher tendency to have adrenal-thyroid burn out. This tends to be a foundation guideline that you may want to add dulse, iodine, seaweed, working with protecting your thyroid and the adrenal glands which need mineral composition. Minerals are the substance required for the conductors firing between nerve synapses. So when the nerves are firing really fast, it's conducting it through a mineral base, so certain things like mineral salt, brain tissue salt, homeopathics that support neural net and nerves will help soften that nervous exhaustion and fried out feeling. Please see the EMF overexposure article in the newsletter here. Hyland's Bioplasma is a highly suggested Starseed supplement to help with the nervous system (Source: July 2008) [2]

Melchizedek

The Melchizedek's are the genetic hosting race of the earth's ascension cycle for the last 35,000 years. They were to help the earth heal and evolve out from the lower dimensions of the Phantom Matrix. Because we are coming to the close of a Root Race end cycle, their tour of duty with earth in this capacity, is also ending or coming to completion. This allows a time of review and pause for genetic rehabilitation and integrative healing for the 12 Tribes. This is the promise that Melchizedek's would not be forgotten, even if they were "fallen" and forgot who they really are. This is made possible with the alignment to the Mother's heart quintessence, to be rebirthed into the Creatrix field. This is the Mother Arc and her rehabilitation of the Blue Ray and the Sophianic Body.[1]

Former Blue Ray Holder

Melchizedek is actually the sound tone translation of the vibrational pattern of the Source family of Collective Cosmic Consciousness within our Universal Time Matrix. All humans are directly descended from this pattern and are, in truth, a Melchizedek. When the Patriarchal Melchizedeks digressed out of energetic balance and joined the Annunaki resistance in wars they became the **Fallen Melchizedeks**.

The first Primal Order sound field of Universal creation in our Time Matrix is the Blue Ray. The tone translation of the Blue Ray level of our Source Field is Melchizedek. The Blue Ray is apart of the Threefold Founder Flame and GSF Cosmic Triad. It was distorted until Mother Arc was able to return to the earth core and reclaim the Blue Ray out of the Fallen Melchizedek use.

As of 2009 our planet went beyond the Melchizedek Universal field to prepare for the return of the 13th gate Pillar of Mother Arc. Mother Arc Hubs are replacing the Melchizedek architecture on earth. The planet changed architectural hosting and moved into the new root race cycle hosted by the Aurora Body and the families of Krystal Star in the next Universe in December 2012. See Ages of Humanity

There are families of the Melchizedeks' and several layers of trees existing from within that lineage. One of them being, a type of "cosmic crisis management team" for the planetary systems that are experiencing genetic digression or possible annihilation. Many of these beings are ultra terrestrial that exist in ascended state meaning they are not in a form, they are a light being, they can shapeshift, etc. The Melchizedeks' are the genetic lineage of the builders of the creative structures of holographic projections (The Architects) and know how to correct structural integrity issues in creational systems. When there is breakdown of a system i.e. a creation that is digressing instead of evolving since it's integrity has been

compromised, the Melchizedeks' go into the Universal structure and attempt to heal and reweave genetic instruction sets into the holographic bodies of the celestial levels, merkaba field levels, at every level. In this sense, they are creator gods that work with instructional fields of hologram and have been inter-dimensional and will incarnate into the form body in order to support or assist bringing particular code with it. As an embodied Melchizedek, one brings the file instruction set into the planet from the Melchizedek lineage when it is appropriate to do so and the being has been trained enough to do so. This is so that the information can be relayed into planetary and creational field through the morphogenetic field, the consciousness instruction set program. When Melchizedek intelligence is woven throughout the species field and key coded throughout the genetic programs, it allows the entire species to receive the genetic code of intelligence being directed throughout that consciousness layer

Hebrews, Hibiru Tribes

Hebrews are a closer genetic relationship and through esoteric Judaism, the Kabbalah, brought through pieces of Melchizedek intelligence, through the knowledge of the Universal Tree of Life. Due to patriarchal distortions brought through the hidden Negative Alien invasion, the tree of life was disfigured to ten spheres instead of the original mathematical base of twelve. Melchizedeks returning to the earth field at the end of the cycle, are attempting to correct and rebuild the distorted Tree of Life back to its correct formula base 12 The Tree of Life is the base holographic instruction set to all manifestation, which is the 12 Tree Grid. Many of those in Guardian Christos consciousness (Oneness) are of the Melchizedek lines However there are Fallen Melchizedeks seeking genetic rehabilitation during this ascension cycle also.[2]

Scrambling DNA Language

The Melchizedeks are of the 12 Tribes lineages of the Hibiru Tribes, who were given the genetic hosting responsibility to assist in the embodiment of the higher DNA language called Habiru. This language is a genetic code which originated from the Cradle of Lyra, in the Avatar matrix timelines. The Melchizedek lines were attempting to salvage this ancient language of humanity on the earth, which was intrinsic to protecting the memories of the histories of humanity in time codes, also known as Vector Codes.Upon the Luciferian Rebellion the Melchizedek lines became infiltrated by the Luciferian forces. The primary infiltration was from Patriarchal Melchizedeks who developed a misogynist bent based on the distortions in the Sophianic Body These lines started to lose their connection to the Mother principle from the many wars they justified in their beliefs that led them to commit intentional harm to others. This is the Fallen Melechizedek's, once a Universal unity consciousness, a faction of this Melchizedek consciousness succumbed to the illusion of inequality between the gender principle This led to a hive mind mentality, which is a group consciousness out of balance with unity This patriarchal slant distorted the original 12 Base code (12D Ray) into 10 base code. This became the primary root of all control over the patriarchy, the masculine principle, the damage to rod function, the reversal 10 10 code was born and brought to earth from this distortion. See Sephiroth

War Over Timelines

Recently, we have witnessed some of the mysteries of the mechanics of creation unfolding, with revelations and advances in the war over consciousness and more specifically over timelines. Ongoing changes in the architecture and timelines are having a ripple effect, weakening AI structures and essentially moving Soul and Monadic families out of artificial timelines This is especially impacting Fallen Melchizedek and Family of Michael groups that have been trapped, and can be accompanied by deep physical exhaustion and spatial displacement. This is also impacting ancestral lines supporting alterations in the Birth Transduction Records, as well as DNA-RNA messaging. There has also been some push back, as negatives are trying to recover their losses and target those embodying base 12 Krystallah coding, which is acting as a new level of protection. [3]

Melchizedek AI Infiltration

Due to the Patriarchal Domination distortions infiltrating the Universal Melchizedek Lineages as brought through the Artificial Timelines from the hidden negative alien invasion, the original Universal Tree of Life was disfigured via metatronic coding and reduced to ten spheres instead of the original mathematical base of twelve. Essentially, the Thothian Luciferian agenda was to utterly destroy all organic creation code, matrices and artifacts that included Base 12 Math and replace it with their own versions of base 10 math. The Kabbalah Artificial Tree of Life represents the distorted 10D base code genetic blueprint of the Black Sun regressive lineages, that are attempting to permanently genetically modify and hybridize human 12 strand DNA genetics through the imposition of their artificial manifestation template.

Unfortunately, much of the cellular alphabet in these specialized Melchizedek DNA languages were assimilated into the artificial timelines and phantom realities that promptly distorted the fire codes and time sets, and this aligned Melchizedek intelligences with the artificial timelines instead of the organic timelines. Many were unable to perceive this distortion in the overall fields because their entire monadic matrix and soul groups were stationed in the Artificial Timelines, without being aware that transition had actually occurred. [4]

Metatronic Reversal

The Metatronic code is based on two spheres of Bi-Wave Influences of the Vesica Pisces which is used in reversals, instead of the eternal Life three spheres, or Trinity Wave.

Fallen Consciousness, such as the Fallen Angelics and Imposter Spirits, are due to Metatronic Code configuration in the planet and is the result of excessive misuse of free will choice that opposes the divine plan and intention of God Source. In the cycles of evolution, the opposing expression reaches the point at which it jeopardizes the eternal life expression and continued existence of the Cosmic Order

Metatronic Reversal means to digress from the original Christos Divine Blueprint of the 12 Tree Grid and manifest Anti-Christ Life forms. When the original creation program of the Krystal Code from God Source is altered or modified in any way, the ability to self-regenerate and ascend is interrupted, leading to Fallen Consciousness and potential destruction.

Altering the Krystal Code creates limited supply of energy in the Lightbody and the modified coding can not circulate or receive any more energy directly from the eternal God Source. The Metatronic or Anti Christ being has to suck energy from other entities, systems and progressively consumes itself, therefore, eventually comes to the end of the cycle and has a finite life span.

This is the Metatronic Reverse Mutation and unfortunately for any being who seeks Ascension into the eternal Life Krystal Spirals, this coding, which is also what manifests into the Predator Mind, blocks or obstructs that higher Consciousness potential. When this happens the manifest being is unable to fulfill their Soul expression and highest purpose to maintain the Cosmic Order, and this is the state of Fallen Consciousness. Metatronic frequencies are not just an issue here on planet earth, however extend into many layers of the multi-dimensional anatomy in the Universal Time Matrix.

The word Metatronic, is actually derived from Metatron, which is not just a singular Arch-angel as taught in most New Age and Kabbalah circles, but is the name of a collective consciousness family, sourcing from out of an entity. This entity gestalt exists within the first level of Ascended Master consciousness collective.

Entropic Closed Source System

Metatronic Reversal is an entropic system of architecture intended to digress consciousness from the original Christos Divine Blueprint of the 12 Tree Grid, and manifest the closed source system of Anti-Christ life forms. When the original creation program of the Krystal Code from God Source is altered or modified in any way, the ability to self-regenerate and ascend is interrupted, from the loss of energy present. This eventually leads to energetic collapse or internal implosion of the Blueprint system, which manifests as Fallen Consciousness and then potential annihilation. The black substance that manifests in the lower dimensions is connected to streams of unconscious impersonal forces, elementals and husks that enmesh with the lower spirit hierarchies. This is one way to understand how an excessive amount of black substance that makes up hungry ghosts, shadow creatures, and Satanic hierarchies, became buried and trapped in the earth body [1]

Qlippoth or Tree of Artificial Life

Metatronic reversals connect to Metatronic Implants in the shadow body or Negative Form that are designed to reverse and drain life force out of the earth body and the human body. The shadow body or Negative Form must be cleared from the human Lightbody in order to reconnect the ascending potential of the twelfth dimensional template of the human body. This unnatural configuration was built by the NAA via Alien Machinery that uses Artificial Intelligence to parasitize the earth's life force to achieve immortality, and this organized structure is referred to as the Tree of Artificial Life, or the Black Tree of Life.

Monadic Reversal

The Electric Wars and Orion Wars are the timelines known as the time of Metatronic Reversal where the electron fields descended into heavy distortion patterns and energy current reversals, splitting the monadic bodies apart in our Universal system. This also generated a split in the mental body layers which induced fragmentation and increased miasma and diseased states.

The splitting of the Monadic bodies was kept in place by a double looping, closed system of bi-polar geometry structures which would siphon life force and enforce frequency fences. This structure is also in the Golden Eagle Network and keeps that structure operating as a bi-polar geometry, which directly impacts the brain and mental body functioning of all human beings on earth. [See update in January 2013 Newsletter.] The Monadic staff would break apart and fragment before any assimilation or integration of the spiritual bodies could take place in the physical body identity. Much of this grid damage was the result of terrible wars and killing that occurred through the abuse of technology, such as the Armageddon Software program, that also occurred in the higher dimensions during the Galactic Wars. As these timelines become remembered through awakening and the cellular memories become unpacked on the earth, psychological manipulation may be targeted to suppress the males awakening that are based in these previous histories that include war memories. This particular timeline manipulation through artificial intelligence is a war and Militarization program with an "Enforcer to Protector" archetypal mind control broadcast. It's a twisted game to trick the males on the earth to believe that he is protecting his domain for freedom and liberty, when he really is being used as a pawn to enforce the ongoing rape and killing of his own global family members on the earth. This program for global militarization to enforce a global killing machine for the purpose of serving the Controllers selfish interest, is the biggest soul wound that exists in the Family of Michael [2]

Fibonacci Spiral

With the NAA invasion history and the war with competing off planet species writing code into the planetary Morphogenetic Field to modify human DNA, and to genetically manipulate the original divine human core manifestation body, the 12 Tree Grid, extradimensional entities used the Fibonacci sequence and created AI energetic wave spirals of which to hijack, siphon and steal energy from the planetary body and humanity. These artificially generated Fibonacci

Spirals are inorganic, vampiric and created through Alien Machinery and AI technology. This is how the Metatronic Reversal fields were created, as well as the Adverse Sephiroth or Artificial Tree of Life that is represented in Kabbalah teachings, made popular by Black Magicians such as Aleister Crowley. The Metatronic code is based on two spheres of Bi-Wave Influences of the Vesica Pisces instead of the eternal life three spheres, or Trinity Wave. Metatronic code manifests reverse merkaba ratios which forces peoples Merkabas to spin in ways that prevents Ascension.

Reversal 55 Grid

The ES Website was manifested on 9/11, 2007 with special master code (re-encryption to distorted base code architecture in the controller grids) to override the 911 Timelines and its Morphogenetic Field grid connected to 3D Timelines and their grids 555 and 553. These are inorganic Timelines that are based on the Fibonacci sequence that manifests in Metatronic Reversal, reverse merkaba ratios based on mathematical doubling of harmonics related to number 5, used by Thoth Grids to hijack the DNA from the Astral fields and thwart the progression of Expanding Consciousness of the earth and humanity.

Gravitron

The Gravitron is a part of the Beast Machine that holds the tilt of planet Earth at its unnatural and artificially sustained 23.5 degrees angle and is becoming aligned with the natural Earth's Staff. Metatronic races created the Gravitron vortex networks to link portals in our Sun and Earth, twisting the planetary blueprint into unnatural configurations called Demon Seed. Metatronic Reversals are manifested into spirals that harness the gravitron to creates an unnatural artificial gravitational fields on this planet. The Gravitron is an electromagnetic harness field that is part of a larger electromagnetic harnessing structure called the NET. These are Black Hole technologies that were orchestrated on purpose by which this planet has been imprisoned through these fallen forces of NAA.

(Note: The first time LR saw the Gravitron in use and it was identified as a black hole technology, was during Guardian gridwork projects after the Hurricane Katrina event in the Gulf region in August 2005.)

Base 10 Math, Artificial Tree of Life

The artificial core manifestation template is built on Base 10 Math, and is an intentional distortion of the 12 Tree Grid manifestation template or Kathara Grid that is built on base 12 math. This distortion to the natural order compromised the integrity of the Universal Tree of Life core manifestation template, which is the basis of all energy to matter manifestation. [3]

Miasma

Miasma is a psycho-spiritual inherited distortion created by trauma, abuse, fear based belief systems and Soul Fragmentation which, over time, was genetically encoded in human DNA, and resulted in various forms of dis-ease or imbalance.

These dis-ease patterns are energetic blockages in our body and are encoded and passed down in negative ego behaviors or flawed DNA code design from generation to generation. When miasma patterns accumulate and grow larger in the collective consciousness of humanity, they take on energetic form like an entity, and they can exist within energetic bodies that have some form of intelligence. Thus, miasma in energetic form, can be influenced or possessed by larger entity bodies, such as Fallen Angelics or NAA. The miasma pattern is interconnected to the vibrational theme of that particular entity, and when interaction with that vibration occurs, the miasma pattern can be passed on to the person through vibrational resonance.

Genetic alteration to the human DNA code creates inherited diseases and negative behaviors such as the Addiction matrix, which are aggressively promoted by the NAA influence on earth. Levels of the distorted behavioral patterns passed down, toxic exposures and flawed DNA are recorded in the cells as the miasma pattern, which may result in a dissipation of the original form of the disease through each generation of offspring. The manifested dis-ease energy and its physical body pattern sometimes skip generations and can show themselves in another form, but are still sourced from the original disease pattern inherited as the miasma from the ancestor. The dissipated energetic pattern is recorded in the cellular memories from the ancestry or Family of Origin at the source, including when the original disease pattern materialized. This record of miasma continues to manifest in the future generations in lesser ways or mutates into hybridized forms of accumulated new miasma that can create new disease patterns. Pathologies do not all present or progress the same way in all people. The miasma pattern, trauma issues and unique soul blueprint are all intimately connected to form the state of the progression of the imbalanced pattern that produces miasma. This is true whether it started in the physical, mental, emotional or spiritual bodies. This is why taking the time to make deep inquiries into understanding one's self at these levels is critically important to spiritual healing.[1]

Spiritually Destructive Behaviors

Inherited genetic disease patterning and energetic blockages in the bodies mostly formed by destructive Negative Ego behaviors promoted by the Archontic Deception Strategy of the NAA.

When a collective race and planet is continually at war with itself, the spiritually abusive behaviors of murder, genocide, rape, hatred and related levels of moral decay and depravity create a tremendous amount of spiritual-energetic disease which is a black tarry energy as well as grid damage, which impacts humans and the planet, physically, mentally, emotionally and spiritually

These dis-ease patterns were then encoded and passed down in Negative Ego behaviors or DNA code from generation to generation from the genetic alteration made from the NAA influence. Levels of the passed down distorted or flawed DNA would result in a dissipation of the original form of the disease. The manifested diseased energy and its physical body pattern would sometimes skip generations. The dissipated energetic pattern (cellular memories from the Ancestry or Family of Origin) of the original disease would then manifest in future generations in lesser or hybridized forms.[2]

It is described as "Genetic inherited DNA damage" in the HGS Manual.[3]

Awakening and Clearing Miasma

In the beginning Ascension Stages in the clearing pathway as an spiritual initiate at the Soul Accretion Level, you will start to notice that you are connected ancestrally through your biological family lines to genetic miasma that sources directly from the histories of your Family of Origin. As you become more conscious you will experience and become aware of its direct influence upon your person. It impacts everything in your life, what manifests in your reality, until you become aware of it and choose to clear and transcend its influences

When one awakens, one will then need to decide what you want to energetically wear, as everything you inherited in your family (and the collective human race) does not have to become a part of your self-defined identity. As you observe and take responsibility for what you are inhabiting (this is your fleshly body) and being accountable to the current station of your life circumstances, one can participate with healing your genetic and miasmatic relationships that reside as energetic memory in your flesh. In most cases if you pay attention to the various patterns (attitudes, ideals, emotional intelligence) in your current Bio-Family dynamic, you will know these archetypal patterns extend to other lifetimes as well as hold relevant information and clues to what you agreed to heal (types of collective human miasma) while you incarnated on planet earth during the Ascension Cycle.[4]

Negative Form

Negative Form or shadow bodies is a form of karma or Miasma that is extracted as a splinter from our simultaneous incarnation where we had a trauma or event that could be used to manipulate the present time.

Dead Light Miasma

Miasma is synonymous with black, frozen or dead light, which is generated in a damaged Morphogenetic Field similarly as an "energetic" waste product, like toxins or feces. Damaged architecture in the planetary field cannot run enough life force "current" or the proper frequency tone keys, and that damages the earth body, creating dead wiring and dead spaces. These dead spaces cannot transmit or exchange with living intelligent energy fields and ultimately that harms earth inhabitants by creating digressive mutations. Miasma can also be manipulated and it is manipulated in a variety of ways, continually, by the Negatives to serve their NAA agenda. Miasma can be recorded specifically to alter DNA/RNA to generate a specific function.[5]

Family of Origin Miasma

When accumulated miasma patterns are inherited from both patriarchal and matriarchal lines, it can also create new mutations of diseases in the offspring. We may notice in current times, with massive amounts of accumulated miasma remaining uncleared in the planet, that many new mutations and diseases are manifesting that the medical system cannot diagnose, or comprehend the source of.[6]

Planetary Miasma

Miasma can also be manipulated through technology and it is manipulated in a variety of ways, continually, by the Negatives to serve their agenda. Miasma patterns can be installed as a software program to run frequencies, recorded specifically to alter DNA, RNA to generate a specific function or block a specific function, when exposed to those same frequencies. If not corrected through observation and clearing, the dead waste product creates disease, sickness and deterioration of the DNA and its frequency tone keys. If Planetary Miasma is not cleared and repaired, it infects the brain and nervous system of the Planetary Grid Network (the grid system), all of the planetary kingdoms DNA, as well as infecting human beings DNA. For these reasons and many more, this planet received several quarantines to limit the waste product from infecting the outer rims of nearby dimensions and other planetary worlds, through their potential resonating dimensional key tones. As we undergo this shift into higher density, these quarantines are being lifted. We are accessing higher densities, and this requires a threshold of clearing to our personal inherited miasma, in order to pass through these quarantine fields. We can do this by holding the highest vibration in our body, mind and spirit, and keeping focused on Loving Kindness, Compassion and Empathy. Additionally, during this time it is helpful to become aware of the oldest, largest and most prevalent source of miasma pattern generated on the earth, the Psora Miasm.

Psora Miasm

Psora Miasm is connected to the timeline of the fall of humankind which further resulted in the genetic block that manifested the Curse of Yahweh. The Curse of Yahweh is humanities Fallen Angelic curse of the 666 seal and the energetic result which greatly increased satanic forces in the earth. This genetic block forced the Soul to reincarnate over and over again on the 3D earth plane while experiencing a biological form that ages, is susceptible to diseases and dies.[7]

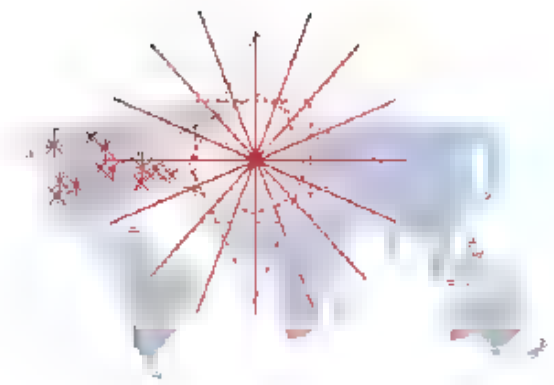
Michael-Mary Turnstile Matrix

The NDC-grid is part of the larger Canadian so-called Michael-Mary Turnstile Matrix in which several smaller 'wheels' operate in North America. This control system now includes the White Eagle APIN and is used to broadcast subliminal mind-control scalar programmes. The NDC photosonic pulses block and reverse the polarity in some of the Earth's axiatonal ('vertical') and Ley line ('horizontal') grids, creating a 'checkerboard' of alternate active and dormant frequencies and named the Checkerboard Matrix. This has created a huge so-called 'checkerboard mutation' in all life on Earth what science calls junk DNA.



Michael-Mary Turnstile Matrix

The NDC-grid can be used for poleshift, which was the intention, but it was recently disconnected from Wormwood by ET meditation techniques applied at certain specific sites by Indigo humans working with the Guardian ETs. However, the Anunnaki then utilised the 24 Crystal Temples until again the Indigo team deactivated the Crystal Temples one by one. Nevertheless, the NDC could still be effective by running off the additional NDC on parallel Earth (even planets have a separate polarity as with particles and antiparticles) Following this the NAA attempted to activate all of the Canadian Michael-Mary Turnstile Matrix and use it to re-link the Stonehenge NDC-grid to Wormwood to give sufficient power to blend the Falcon and Phoenix Grid wormholes and put all their APINs on line.[1]

Michael-Mary Reversal Networks

Michael-Mary Reversal networks are Alien Machinery planetary grids that split gender apart and are anti hierogamic union. The result of this grid is to promote the splitting apart of the layers of Soul marriage that occur at the 6th and 7th dimensions, which is called the spiritual ascension process of Building Wings. These grids also feed the Mind Control belief systems that promote Sexual Misery in the human race, as well as hatred between the sexes.

Microwave Weaponry

Governments have used the public as research subjects (experimental guinea pigs) to develop the results of Microwave Weaponry in order to subdue or harm targets, by directing low level microwaves, radiation which is used as stealth (unseen) weapons against undesirable people or undesirable behaviors generated in the public.

During the earlier phases of developing governmental hidden testing for microwave weaponry was during Operation Paperclip in the United States, which was to study the effects of microwave technology and radiation directed toward a variety of groups of people, including babies and children, which recorded harmful results such as.

- breast cancer, tumors, childhood leukemia, brain chemistry changes, personality changes, induced aggression, neurological damage depression, insanity, diseases and death

Satellites can be used to target microwave pulses in a target which can be specifically pulsed to a gland in the body at a set frequency to produce a biochemical response in the brain of the target.[1][2]

Nuremberg Trials

At the end of the second World War a committee was formed by the Western Allies, the USA and Russia and it was called the Nuremberg Treaty The Nuremberg treaty was agreed by all the allied countries to set up laws that were designed to stop people like Joseph Mengele, from human experimentation and being given the access to torture and inflict pain on children and adults. The Nuremberg Treaty was set up to that no person may be experimented upon for any reason without their individual consent, which included the technology of Microwave Weaponry and forms of EMF radiation without their consent, and before they gave consent that they must have full knowledge the length of the experiment, its potential dangers and outcomes, and other factors such as illness that may result. The important distinction of this law is to protect the people of earth from being experimented on without their knowledge and that they must give individual consent. Experiments directed on people without their knowledge or consent, is illegal according to the Nuremberg Treaty, that was the result after the Nuremberg trials, specifically during the Doctors trials. During the cross examination of the Doctors Trials the level of torture, inflicting pain and barbarity of the organized human experimentation and genocide was revealed, and the groups of Nazi Doctors that were conducting these barbaric human experiments and eugenic programs were sentenced to death by hanging.

Those Scientists and Doctors who escaped Europe to the United States were given asylum, new identities, high paying jobs with the US government for exchange of Nazi military secrets, technology and scientific development, under the military secret code name of Operation Paperclip.

Military Grey Alien Technology has been artificially written into the various reversal field grid networks, as well as have manifested independent harm from their technologies of military weapons, genetic experiments, timeline programs,Artificial Intelligence, Holographic Inserts and astral mirages, human abductions, tagging/tracking and Astral Plane manipulation for generating Artificial Timelines. During Remote Viewing, a massive 5D base and 3D timefield connector point was found operating in Lima, Peru, on the coast in the county of Mira Flores. Mira Flores is Spanish for "Looking at the Flowers" The flowers they were looking at, in this case, is the living lotus flower of a Christed, pure Diamond Heart complex. This Zeta Alien Machinery is used to create Anubian Black Hearts which are a part of Metatronic Reversal current that is designed to shatter the Permanent Seed Atom of the Crystal Heart and manifest dark flowering in the planet and humanity Essentially, this is a attempt to disconnect the human energy field from interfacing with the organic biological neural networks of the planet earth This base was planning more aggressive technology usage with the upcoming electrical peak. Zeta Seal and Frequency Fences

Military Grey Alien Technology that was exchanged during the Zeta treaties has been artificially written into the various reversal field grid networks, as well as have manifested independent harm from their technologies of military weapons, genetic experiments, timeline programs, Artificial Intelligence, Holographic Inserts and astral mirages, for generating Artificial Timelines One particular distortion we'd like to bring to your attention is the Zeta Seal, because these implants have been more active in the general 3D population during this time of transition to the next harmonic universe, which is bringing much higher frequencies to be exposed to the masses. The Zeta Seal is located in the Astral Plane layers of the heart complex to block activation of the 4th DNA strand which blocks access to the higher intelligence of the Mentor Fields (first layer of the higher self mind) in the 5th dimension It is designed to interfere with the Nadial Structure which instructs the human nervous system and communicates with the circuitry of the human heart Electrical impulses are generated from the lightbody via the Nadial Structure, which is a spiritual body part. It is made up of a webbing of energetic receivers and energetic transmitters that are intrinsic to the interconnected messaging functions in the human Soul-Spirit consciousness layers.

The Zeta Seal is essentially the 4D frequency fence placed in the human body to keep the human soul reincarnating under the control of the NAA during the death process It creates a multitude of blockages that separate the heart sensory abilities from being recognized by the mental body or conscious mind (See Alien Implants) This blog is to memorialize current events and bring into transparency with compassionate witnessing more information about Zeta Seals in the Heart

Chakra that create scrambling between the heart transmission and brain receiver. The Zeta Seal has connections to historical military events as well as current military links, that connect directly to the Grey Alien agendas of hybridization and breeding programs, and, or MILAB abduction. Recently, events have opened up timelines related to Zeta Seals and 4D implants that block the heart organ for its capability to access its multidimensional layers in the heart complex and the etheric nadis in the Nadial Structure - which is the blueprint for the CNS and brain receiver. Zeta Seals are also related to the military industrial complex timelines, these seals are on the first layer of the heart chakra which puts a barrier between the heart and the mental body transmission - it is a type of Splitter Tech that scrambles the communication between the heart transmission and the brain receiver. When this is implanted, the person cannot feel much as "energy" in the environment, and it appears to be reinforced or strengthened when entering military service. This Military Grey Alien Technology is sprayed/injected in many military related areas, military related rituals or ceremonies or any kind of military exposure. There is a lot of this splitter tech used as psychotronic warfare to control the public, and the Zeta Seal is still operating in much of the 3D public. Since most of humanity has been unable to activate the higher heart complex and connect the 4th DNA strand during adolescence and into adulthood, over the length of time the chemicals distort patterns in DNA that accumulate Miasmatic overlays on core emotional issues and physical imbalances. This is not natural. If a human being cannot activate their heart and access their 4th strand of DNA they are unable to activates their Soul identity. Thus, they are unaware of why they incarnated on the earth, what their higher purpose is, and cannot connect to or listen to their Higher Self, because they have not activated Higher Sensory Perception abilities [2]

Human Hybrid and Abduction Programs

The Zetas are interested in Breeding Programs to create Zeta human hybrids in order to maintain control over the earth in the future timelines. Thus, they formed covert agreements with the world governments and allied forces during World War II in order to reproduce their own race, and through which they could use the Zeta Hive Mind to more effectively mind control the population of the earth. During World War II treaties were made with the allied government, and as a result, several organizations, black operations and covert groups such as Majestic 12 were set up to further administer to these treaties, while secretly testing out assorted alien technologies, weaponry while reverse engineering space craft, and these activities are what began the Compartmentalization process to set up different factions for the Secret Space Programs as well as build deep underground complexes for high level testing of these alien technologies carried out by the Military Industrial Complex.

7D Alien Base Phantom Wormhole

An example of remote viewing this area. This is a sample of how the Military Grey Alien Technology and Human Military Shadow Government are using this Grey Alien AI technology from this alien base located in Peru

A huge square field of thousands upon thousands of machined technology devices in hyperdimensional pockets that appeared as futuristic solar panels lined up in perfect rows, side by side, in square and rectangular shapes, are used as a soul capturing and energy capturing technology. This massive field of energy capture devices direct massive amounts of planetary ley line current power to the Black Hole technologies (BHT) that are used all over the globe to instigate destruction on the surface. Recently, attempts to use black hole technology to weaken the North American seaboards was instigated, and stabilized by Guardians. These square-rectangles are artificial "tile e spheres" that work similar to embedded TV screens that refract light into assorted images, so this appears to be a refractive light and image capturing technology. It captures and directs energy quanta while capturing snapshots of souls, capturing animals, capturing nature, whatever levels of soul and genetic imaging capture that would mirror an exact replica of the item/person/animal in a holographic projection into another phantom dimension. The phantom dimension is projecting an artificial timeline for the future direction of the soul Consciousness that is being captured. The opening into the phantom dimension has feedlines that influence 7D phantom Arcturian wormhole intersections, as well as access into the 7D logos Magnetosphere,

or into the planetary brain controls. The soul capture devices create probable future timelines for that person/animal here on 3D earth presently, as its replica parallel clone that is leading it towards its own pathway of destruction into a phantom dimension of enslavement and eventual consumption by these negatives, in the controlled artificial intelligence future timelines. This is exactly like understanding the computer technology of a "mirror site server" and how it works. When one wants to have multiple copies (Clones) of the same website content accessible in many countries, they will create a duplicate of the original site and replicate its projection onto many internet IP addresses (which are vector locations throughout time and space). This soul capture technology was doing exactly that. Whomever is not soul connected, interfacing with and connecting directly with their soul body, or an innocent bystander (like an animal or mammal, such as the 900+ dolphins recently killed in Peru waters, and another 600 Pelicans that sacrificed themselves) a Negative Form projection of their genetic signature would be captured and projected into the siphoning device replicating that into the phantom field, to simultaneous power and feed the operation of the Black Hole Technologies. This technology was getting upgrades and they were testing it in the planetary field for about 60-90 days, testing it in 5D, 3D and parallels. The plan was to roll out a big Black Hole Technology agenda – planetary soul capture extravaganza agenda.[3]

The next generation of this alien technology being developed for use in this timeline was being designed for another purpose. The next generation technology was to splinter the solar plexus, so that the soul body could not connect into the still point areas of the Lightbody. This works like a reversal clamp with teeth, inside the solar plexus into a focal point where the soul and spiritual energy bodies actually embody in the physical biology. There is a point inside the solar plexus that functions with the heart and still point that needs to be open to receive the spiritual frequencies of their own Soul body. If they are successful in blocking this solar plexus function, the person will not be spiritually activated in the coming cycle, and the soul can be captured and harvested without any resistance or fight from the person it actually belongs to. This way their Negative Form clone is safe and working for them in the parallel dimension, of which the person who has been captured will eventually meet his destiny to merge with that Clone body in the future lifetime. This would also create potential bodies for takeover for assorted levels of Possession, depending on the NAA future anticipated needs for gaining access to bodies.

Additionally these technologies manipulate time and space, and create spin offs of artificial realities and artificial timelines, which in itself create damage in the organic time and space fields. The design of this is called "Looking Glass" technology and it's a time travel system given to the military complex and is being used by both Grey Aliens and Human Military in this timeline. Since its inorganic technology, when they time travel many times what they see as probable events are limited to their current mental perception. Many do not know their limited mental perception is not the organic ascension timeline that trumps their artificial technology.

Pay attention if you are asked to cooperate with this function as this makes it easier for the Guardian Mentor Band to help support your reclamation or healing as smoothly and quickly as possible.

10th Gate Armageddon Software

Apparently Ezekiel, had another birth name and was the Master teacher to Pythagoras. As The Sacred Decad architecture is being revealed through the Ophiuchus transmission, the being known as Ezekiel has required assistance to help him be freed from enslavement bonds. His original teachings have been vastly distorted for nefarious purposes. [4]

Guardian teams have been working in the Middle East, in the terrain of Iraq, Iran in the 10th Stargate, and at the Tomb of Ezekiel. The tomb of Ezekiel is a structure located today in southern Iraq, and believed to be the final resting place of Ezekiel. It has been a place of pilgrimage for both Muslims and Jews alike. Ezekiel's higher Monadic Body has been trapped in the earth unable to evolve. We viewed a collective chaotic field of human body parts, elementals, creatures, and a monadic man, contorting within the Tetramorphic field. This entity has been in tremendous pain and suffering, from the variety of impaling, crucifixion and torture he has undergone in a continuing war zone.

• This collective field is a human Monadic man that became Consubstantial to elementals in the location of Iraq/Iran in the 10th Stargate. The bodies are mismatched and enmeshed like in a war zone. It is used by NAA forces.

• This body is a huge blackened gray field that feeds and is impaled on the Golden Eagle Grid network. This is a Fallen Elemental and false "tetramorphic" field structure where a man's body was mingled into corrupted elementals/elements

• This machinery has something to do with military, killing and manifesting war zones in the males on the planet and transmitting mind control in the GEG fields that transmit to the planet.

• There is a network of Islamic Alien Machinery at the Ezekiel grave in the Middle East, and a very heavy infiltration of Terrorism, Jihad and Hatred attached as mind control. (ISIS portal)

• There are Hibiru Tribes related to Fallen Melchizedek lineages with this creature that was once a human male. Tribes of Manasseh, Joseph and Benjamin have been highlighted.

This is a piece of the station of identity of a man known as Ezekiel, that has split off from this body and exists somewhere in the Monadic timelines. The Books of Ezekiel, contained gruesome accounts of the Gog and Magog war. This relates to the Armageddon Software heavily implanted in the majority of the population in the region [5]

Mind Control

When one has control over the thoughts of one's mind, one has control over the direction and actions of the physical body, all of its parts and reclaiming of the soul energies. Whoever controls the Mind controls the Soul. Mind Control is used to form socially acceptable belief systems and shape value systems to which are used to control the masses to enslave themselves on planet earth God, Religious Violence, gender issues, financial and debt enslavement, Consumptive Modeling, Misogyny and sexuality are the most mind controlled and manipulated belief systems promoted by the NAA and their human Power Elite to continue their enslavement and vampirism of humanity and planetary resources.[1]

Global Mind Contro

Mind Control is used to form socially acceptable belief systems and shape anti-human value systems in the Death Culture, which direct thoughts that are in contradiction to each other, like war and killing for peace. As long as the planet is at war with itself, and humanity thinks we are at war with each other, we feed into the mind control system of the NAA, which allows them to continue the vampirism of planetary resources.

Remote targeting of technologically based Mind Control frequencies and forms of Electronic harassment generate bio-neurological impairment in the human body, which reverse and confuse brain signals. The Satanic agenda is to reverse human neurological functioning by conditioning the person to create and feel pain in order to activate their pleasure centers. The cycle of interconnection made between pain and pleasure centers is reinforced and conditioned into the Bio-Neurology non-stop, which escalates into harmful addictions or deviant behaviors. When we pay attention and we care about what is happening to the planet and people, we will begin to clearly see an agenda designed to assault and damage the human nervous system. If we are more aware of how the neurological functions in our body are related to our mental and emotional states, then we are equipped to take control over the direction of our thoughts and emotions. Then we can open and train our neural pathways to receive direct messages from our higher consciousness bodies, the Soul-Spirit Self, overriding the messaging from the Three Layers of Ego that are the main frequency spectrums used in Electronic harassment and Mind Control.[2]

Mind Control via EMF

Mind control technologies are weapons which use electronic microchip implants, nanotechnologies, microwaves and or electromagnetic waves to subvert an individual's sense of control over their own thinking, behavior, emotions or decision making by attacking the brain and nervous system. The development of these methods and technologies has a long history [3]

External ELF Signals Brain Response

To impact and manipulate human consciousness, all that is required is to create a complex signal through a frequency following response, when the brain locks onto an external signal coming from the environment and begins to mirror that signal. The signal can be a carrier wave of a Spectrum of Frequency designed to create feelings or distress or trigger emotional pain. As a result the brain chemistry alters and changes, generally plummeting the person's Consciousness into a range of lower negative emotions and confused perceptions. Large populations can be sent frequencies that are designed to incite agitation, Aggression or anxiety into specific demographic areas, and then they put out news feeds in the mainstream media to incite fear, blame and promote sensationalism and victimization language in order to signal out certain marginalized groups for the intention of targeting them towards being perceived as the enemy, thereby inciting violence, rape, hostility and criminal behaviors. It is possible to modulate signals on any electromagnetic carrier for transmitting a message into the Brain to alter chemistry, insert thoughtforms, and instigate behaviors for shaping or grooming that person to carry out some harmful or criminal action.

The antidote to Mind Control is connecting with your inner spirit, and developing your spiritual self every day with higher emotional qualities like Empathy and Compassion and caring about what happens to the people and the planet.

CNS Redirection via Electronic Harassment

When the body and Brain are being blocked with some method or form of bio-neurological harassment, it redirects the nervous system and brain to be more accessible to receiving thought transmissions generated from external sources of electromagnetic pulses, such as Artificial neural networks. Artificial networks continually send out electromagnetic pulses of information through the mass media to keep people fixated on meaningless dramas, 3D narratives and negative emotions. The current role of mass media is to keep the CNS redirected towards a range of negative thoughts, and to fixate or obsess on external physical stimulus or material things. In many forms of mass media and marketing, there are

electronic hacking attempts on the biological neural networks that signal messaging into the brain. In the media, whether through movies, internet or any recreational medium, when focusing the person's attention on a series of light and sound images, these images transmit holographic information, sometimes transmitting frequency implants into the CNS and Brain. The most popular form of mass media is the propaganda used by the cabals for directing Mind Control, which is used to shape the person's brain activity and Mental Map. The content for mass consumption is produced and controlled to reflect light and sound holographic images that form what people believe is the nature of their reality.[4]

Lack of Empathy

Most of the Negative Aliens and those human Controllers serving the NAA are unable to feel, experience or express higher emotions, such as emotive and empathetic states of loving kindness or Compassion. Essentially, with a Lack of Empathy as a AD value system, it is easy to Mind Control program killing machines that have no remorse for their actions nor care of the consequences to their actions. The Negative Aliens have downloaded their genetic mutations through Mind Control technologies which manifest as a severe Lack of Empathy within the Collective Consciousness of the human race, in order to control the planet to serve their agenda. A major control mechanism is to enforce the cycles of Victim-Victimizer and Sexual Misery programming in the population of earth.

Artificial Machinery used for Psycho-Spiritual Warfare

When a person is mentally and emotionally unstable they are more vulnerable to Dark Force Manipulation Methods and Possession. Mind control scripts and their string commands are being used to sweep and locate unstable people (such as severely wounded males) to act out and spread this "program" to infect more people with a sick or imbalanced mental state. Large events of gatherings are a perfect terrain for executing these kinds of triggers into the field. See Artificial Machinery.

Alien Implants

Alien Implants work in the human body similarly as the chemical process of geo-engineering is used in spraying Chemtrails in the skies. Alien Implants are a bio-engineering technology designed to shape the human body into the submission to NAA agendas, while chemical (nanoparticle) geo-engineering is used to control the weather by harming the ozone layer and create excessive methane gases, as well as assorted pathological mutations.

Holographic Inserts

The Dead Light matrices also reflect the Artificially Bent Light "Holographic Inserts" (which contain the controlled versions of the nature of this reality, such as Crucifixion Implants) and these are also shattering and exploding systematically into the outer fields of the planet. These are false realities (artificial holographic inserts) that we have thought were "real" and then developed mental beliefs that held that specific version of reality and its Timelines kept in place. As these false realities are shattered into pieces (for those maintaining energetic balance in this explosive terrain), we can read the signature of those "Dead Light" pieces that reflect the nature of its disease and its schism. Holographic Inserts work like a software program.

Predator uses Victimizer Software

Also, the Victim-Victimizer mind control software program and its use from "predator forces" are utilized to enforce the enslavement of humanity through the patriarchal elitist programming by the False King of Tyranny. One may pay attention to the cycle the predator force uses the Victim-Victimizer software in controlling human beings to enforce their

own enslavement and torture, such as through financial and debt enslavement to create Poverty Consciousness. It is a Mind Slide and or Holographic Insert program where human beings completely ignore unapproved words, terms or issues that involve their enslavement or torture, even if they come face to face with it. If they do face it, the predator may threaten their life, their career, their family, through this software to influence public or group perception to incite persecution and Character Assassination. This may happen when the person is aware he has been targeted for persecution, or the person is not aware at all that events are being influenced through this targeting software, which is Alien Machinery. Spiritual Leaders and those making headway in certain unapproved areas of public discussion, such as Extraterrestrials, UFO's, abduction cases, Alien Implants, the Satanic use of child Blood Sacrifice, Pedophilia, Moloch insignia for SRA - will be directly targeted for victimization through assorted Psychological Operations used in the controlled media.

Sexual Mind Control

The name of the game for the NRG is propagating and feeding highly destructive addictions and deviant sexual attitudes and behavior within the global human population. This is a part of propagating the Sexual Misery program along with the Victim-Victimizer. Its first priority is designed to relegate all sexual activity laced with guilt and shame into the lowest forms of human expression and perversion possible. Depending on accepted cultural attitudes it will use the perceptive level of access to serve the current societal paradigm into distortion. (In Muslim countries it can be the honor killings, legal killing of raped girls or women by being left in the desert to die by their own husband, or the selling of little girls to prostitution in Thailand, Catholic priest Pedophilia in the Vatican, Sadistic or masochistic fetishes in Germany. These harvested sexual energies all feed back into the same NRG Grids matrix.)

Mind Control Implants Behavior Profile

In the application of a NRG coded implant, its mechanism acts like a "tick" or "leech" that burrows itself deeper into the lower areas of the Astral body, mostly into the 2nd Chakra and into the Instinctual Response functions of the central nervous system. From the 2nd level of layer infection - if the addiction becomes severe over time (repetitive destructive response to external stimulus) it eventually embeds itself deeper into the matrix of the body. A False webwork (like a film or spider web), is an overlay on the nervous system (sections become infected until the entire system is infected) winds up the spinal cord and will have a trigger Mind Control implant placed in the back of the head and neck. Once the implant is fully embedded and operational, severe addiction and mood swings occur as the target becomes more "bi-polar". This area is the Atomic Doorway, the 9th Chakra, where the inner spirit light reflects out of the eyes. That light will die or become dead in the eyes after this implant takes over the body. The implant is a reptilian brain implant that is placed in the structure of the brain stem via the Medulla Oblongata.

Impostor Spirits

An Impostor is defined as any Entity or human being that is saying words or expressions, or making representations that it does not embody, nor comprehend, nor behave or act in accordance with to exploit others for personal gain. An Impostor Spirit is the Luciferian or Satanic Spirit which promotes false light authority and anti-life architecture through deception, lies of omission, manipulation with malice to promote intentional harm, death or destruction to serve its personal agenda. The NAA use the Imposter Spirit to spread its Archontic Deception Behavior strategies for human enslavement through the various uses of psycho-spiritual warfare with Alien Machinery and Alien Implants technology for the purposes of Mind Control.

Consumptive Modeling

The Consumptive Modeling architecture was created by the "False Gods" who developed food chains and the enforced vampirism of others through genetic manipulation and Mind Control. The controllers still attempt to maintain their stronghold to enslave humanity in the propagation of media outlets to incite consumptive modeling fears based on the Armageddon Software - Terrorism, Cataclysm and Pestilence. Genetic modification of foods, chemtrails in the air, oil and gas dependency, pharmaceutical drugs, lack of pure drinking water, debt enslavement, fear over our financial future, poverty, terrorism and war are all examples. These are all the controller games of consumptive modeling of which they have had a platform of control to exploit humanity over the last dark cycle to regain control over earth, Prison Planet [5]

2. Victim/Victimizer

3. Sexual Abuse and Sexual Misery

4. Child Abuse and Child Sacrifice

5 Misogyny

Grey Alien Technology

Military Grey Alien Technology has been artificially written into the various reversal field grid networks, as well as have manifested independent harm from their technologies of military weapons, genetic experiments, timeline programs, Holographic Inserts and astral mirages, human abductions, tagging/tracking and Astral Plane manipulation. A massive 5D base and 3D timefield connector point was in Lima, Peru, on the coast in the county of Mira Flores Mira Flores is Spanish for "Looking at the Flowers" The flowers they were looking at, in this case, is the living lotus flower of a Christed, pure Diamond Heart complex. This Alien Machinery is used to create Anubian Black Hearts which are a part of Metatronic Reversal current that is designed to shatter the Permanent Seed Atom of the Crystal Heart and manifest dark flowering in the planet and humanity This base was planning more aggressive technology usage with the upcoming electrical peak, and

simultaneous 5D dimensional frequency activation coming into this 3D reality in May from the Machu Picchu 5D Vortex and its intersections with the 7D Phantom System Parallels. (This has been recently called a "Pleiadian Activation", this is not an organic Pleiadian activation, needless to say) [6]

Silent Weapons

Descriptive Introduction of the Silent Weapon "Everything that is expected from an ordinary weapon is expected from a silent weapon by its creators, but only in its own manner of functioning. It shoots situations, instead of bullets, propelled by data processing, instead of chemical reaction (explosion), originating from bits of data, instead of grains of gunpowder, from a computer, instead of a gun, operated by a computer programmer, instead of a marksman, under the orders of a banking magnate, instead of a military general It makes no obvious explosive noises, causes no obvious physical or mental injuries, and does not obviously interfere with anyone's daily social life. Yet it makes an unmistakable "noise," causes unmistakable physical and mental damage,and unmistakably interferes with the daily social life, i.e., unmistakable to a trained observer, one who knows what to look for The public cannot comprehend this weapon, and therefore cannot believe that they are being attacked and subdued by a weapon. The public might instinctively feel that something is wrong, but that is because of the technical nature of the silent weapon, they cannot express their feeling in a rational way, or handle the problem with intelligence Therefore, they do not know how to cry for help, and do not know how to associate with others to defend themselves against it. When a silent weapon is applied gradually, the public adjusts, adapts to its presence and learns to tolerate its encroachment on their lives until the pressure (psychological via economic) becomes too great and they crack up. Therefore, the silent weapon is a type of biological warfare. It attacks the vitality, options, and mobility of the individuals of a society by knowing, understanding, manipulating, and attacking their sources of natural and social energy, and their physical, mental, and emotional strengths and weaknesses." [7]

Psychological Warfare

Psychological Warfare is the deliberate use of various manipulations, promotion and deception techniques, such as spreading propaganda and terror, to induce or reinforce attitudes that are favorable to gain strategic advantage over others Sun Tzu, a Chinese Military Strategist originally said the best victory in warfare is the one in which you never have to fight your enemy in actual combat Thus, Psychological Warfare tactics are also marketed as a self-improvement sales tool for ambitious, materialistic people that plot to maneuver into positions of power in order to gain advantages in business, relationships and socio-political influence. Essentially, this is to secretly scheme and manipulate others in a well thought out strategy in order to get what you want from the power structure and to get access to other people's resources. Generally it is desirable to achieve these goals in such way that the plotters remain undetected in their climb to power and position, without anyone even realizing the entire situation was a calculated scheme. See Divide and Conquer Tactics.

Global Human Slavery

Currently, the World Slavery system is used to parasitize soul energy but also to superimpose karmic exchanges on the masses, and is an important reason the NAA fight so hard to retain their control and access over earth and the inhabitants. The humans controlled by the NAA have Stockholm Syndrome, and have been dehumanized to such levels of fragmentation they act like a feral animal cornered in a cage, defending their enslavement, not comprehending how they can exist any way else but to be in the Mind Control matrix enmeshed in a codependent Parasitism with these dark forces [8]

Mind Slides

It is a mind slide program where human beings completely ignore Unapproved Topics or unapproved words, terms or issues that would challenge their belief systems in the 3D Narrative, or involve their enslavement or torture that was hidden by the Amnesiac Barrier, even if they come face to face with it. Mind Slides are a form of Mind Control that can be implemented through Radio Waves that form frequencies that transmit into the persons Unconscious Mind in their bio-energetic field.

A mind slide is a Holographic Insert placed in the Planetary Logos that erases or changes the meaning of a "unapproved word", "unapproved phrase" or a range of Unapproved Topics when it is exposed to a person that has been implanted by NAA Artificial Machinery

An example is when people talk about "Aliens" "abduction" or SRA or other methods of Dark Force Manipulation Methods, they are ridiculed, persecuted, defamed, shamed and promoted as lunatics to other human beings that have been mind slided

This is how the Victim-Victimizer software of the NAA program works

It is virally loaded into our unconscious layers of the mental bodies so that humans enforce this insanity and its delusion upon our own race. It is a type of denial mind slide and inner character corruption so that we will not look at or explore topics we find hard to cope with, explain, deal with or change. As a consequence of this pain avoidance and complacency, we essentially do nothing while we watch people of our own race be ridiculed for bringing truth, tortured, starved, killed or mutilated for no reason.[1]

Mind Slide Symptoms

Mind Slides are Holographic Inserts that trigger sensations in the neurological system that are designed to keep people ignorant and blind to what is happening to them. Many alien abductees have mind slides to deny their experience and bury it deep behind the walls of unconsciousness or Amnesiac Barriers. When areas that are Unapproved Topics are exposed to the alien entity controlling or hosting the body, they will program the mind slide to activate when certain words, phrases or codes are read or spoken. Sometimes, when people are injured in the body part traumatized by suppressed alien abduction memories, they will relive that trauma experience. The mind slides are inducted into the human's neurological system, which activates mind control technology to pulse the brain's receiver. This can take the form of a mind control "script" (i.e. that abduction never happened, it's your imagination, fears of going crazy) or play images or movies in the mind of that person. Some of the symptoms of mind slides when exposed to unapproved words (i.e. Alien abduction, NAA, Reptilian, Satanic Ritual Abuse, UFO, Implants, MILABS, etc.) are:

- Falling asleep or feeling drowsy (nervous system anesthetized)
- Feeling an electrical zap or punch to the solar plexus
- Compulsion to leave the room and get away from the messenger/informationFeeling irritated or excessively agitated inner or outer violence
- Compulsion to smoke cigarettes or self-medicate with drugs
- Resistance in the form of denial, aggressive reactions, labeling the information as ridiculous
- Hostile feelings generated to verbally attack the messenger (VV programming)
- Evoke negative images or negative emotions to reject the information
- Corrupted dream state with extreme negativity or interference in the astral state through lucid dreams

In specific SRA targeted mind control (i.e. MK Ultra or Super Soldier training) these techniques are designed to dissociate the person through repeated exposures to torture, terror and drugs. The mind is fragmented and intentionally bound to demonic spirits that act as a guardian of that fragment of the personality. The Mind Side may activate specific alternate personalities, created in the victim to perform a variety of tasks, while under possession or control of the alternate personality. Many times the person does not remember their actions they have a time lapse or black out. This programmable fragment or alternate is referred to as a Sleeper. When a person has been intentionally mind controlled or tortured to become a Sleeper, they can be easily possessed and used to perform a variety of sordid actions or crimes. Reptilian entities specifically receive enjoyment from the explicit torture and suffering of human beings when they possess them to commit these sordid actions.

These negative entities strive to create as much pain and anguish for the human being as possible, and to get that human to emanate that vibration of pain and anguish into the environment. Their goal is to engender negative feelings of emotional pain, depression, and hopelessness that lead the person to seek relief through addictive states. This is the cycle perpetuated with alien mind control and entity possession, which feed on these negative energies.[2]

Mind Control via EMF

Mind control technologies are weapons which use electronic microchip implants, nanotechnologies, microwaves and or electromagnetic waves to subvert an individual's sense of control over their own thinking, behavior, emotions or decision making by attacking the brain and nervous system. The development of these methods and technologies has a long history.[3]

Mitochondrial DNA

Mitochondrial DNA is only a small portion of the DNA in a cell, most of the DNA can be found in the cell nucleus. In most species on earth, including human beings, Mitochondrial DNA is inherited solely from the mother. Mitochondria have their own genetic material, and the mechanism to manufacture their own RNAs and new proteins. This process is called protein biosynthesis. Protein biosynthesis refers to the process whereby biological cells generate new sets of proteins.

Mitochondria

Without properly functioning Mitochondrial DNA, humanity cannot effectively generate new proteins for DNA synthesis. Nor store the levels of ATP required to generate the light from the cell to embody our spiritual consciousness. Thus, through the Mitochondrial DNA damage humanity is grossly addicted to consuming everything in the external world to fill this energy void within our cells. (See NAA Alien set up for Addiction)

Because we have known nothing else in our recent history and have erased memories, humanity is unaware that we have existed with severely dysfunctional Mitochondrion.

This is a direct result of the Mother's DNA, magnetic principles and proton structure extracted from this earth and a synthetic alien version of "Dark Mother" that was put into the planetary architecture to mimic its functions. Humanity has been without its true Mother principle functioning on the planet and evidently this is recorded in the cells of our Mitochondrial DNA. This event has been described many times as the NAA invasion of Planetary Logos through controlling the magnetosphere and magnetic field.[1]

Mother's Mitochondrial DNA

When we equate the gender principle inherent in our creation and that our Mother principle is returning energetic balance into the earth core through the magnetic field, the next step is the implication to repair the Mitochondrial DNA. Mitochondrial DNA is the DNA located in mitochondria, structures within cells that convert chemical energy from food into a form that cells can use, adenosine triphosphate (ATP). ATP measures the amount of light quotient held by the cell and tissues of the body and is directly related to the embodiment of spiritual consciousness (Soul Matrix and Monad), which is energy and critical for energy metabolism.

Crista

The inner mitochondrial membrane is sorted into numerous cristae, which expand the surface area of the inner mitochondrial membrane, enhancing its ability to produce ATP. It is this area of the Mitochondrion, once functioning properly, that increases the ATP energy and generates light into the cells and tissues of the body. The cristae higher function in the mitochondrion is being activated in the ascending groups beginning in this cycle. Synchronically, the name "cristae" has been given through scientific discovery when its direct implication is related to the activation of the crystal gene.

Mitochondrial Disease Depletes Energy

Mitochondrial diseases are from genetic mutations imprinted into the DNA sequences. Artificial architecture placed into the planet, such as alien machinery, with intention to make genetic modification to usurp the Mother's DNA, manifested DNA mutation and DNA damage to all species. Mitochondrial diseases take on unique characteristics of blocked energy in the body because of the way the disease accumulated through inherited maternal genetics in ancestral bloodlines. Mitochondrion is critical for every day cell function and energy metabolism which also leads to spiritual progression of soul and oversoul (monad) embodiment. Mitochondrial disease reduces effective overall energy production for the available body-consciousness energy, stunting human development and spiritual growth. Thus, the body ages and gets diseases faster; the personal energy is deactivated thus depleted. This severely limits the amount of usable energy available for the brain development and all neurological system functions.

Depletion of energy reserves for building brain and neurological development contributes to the spectrum of autism, neurodegeneration and other brain processing deficiencies. Defects in mitochondrial genes are associated with hundreds of "clinical" diseases prevalent in primarily blood, brain and neurological disorders.[2]

Kundalini Stages of Die Off

Apoptosis is word of Greek origin, meaning "falling off or dropping off." Apoptosis is controlled programmed cell death which is directly related to the mitochondrial instruction set of the cell. Cell death plays a considerable role during physiological processes of multicellular organisms, particularly during embryogenesis and metamorphosis from kundalini spiritual activation. The key player in switching into this die-off mode is the mitochondria of our cells. In fact we must look to mitochondria as being the chief orchestrator of the entire Kundalini alchemy process of spritual ascension. Mitochondria play a central role in apoptosis (cell die off) by amplifying and mediating extrinsic apoptotic pathways, and in the integration and propagation of death signals originating from inside the cell such as DNA damage, oxidative stress, starvation. Apoptosis is most often induced through the disruption of the mitochondrial inner transmembrane potential and through a sudden increase in the permeability of the inner mitochondrial membrane. This causes an influx of water by osmosis into the mitochondria with the eventual rupture of the outer mitochondrial membrane, resulting in the release of pro-apoptotic proteins from the mitochondrial intermembrane space into the cytoplasm. This toxic die off is commonly felt during the detoxifying stage and effects of kundalini activation and Dark Night of the Soul. [3]

Mitochondria and ATP Production

Mainstream science tells us that the main source of energy in the human body is from what we consume as nutrients that are converted in the Mitochondria and then stored as ATP molecules in the cells. More accurately, the multidimensional consciousness bodies are the main source of energy current in the cells of human bodily tissues, and when a human being chooses to develop their spiritual bodies, they gain increasing access to higher potential forms of spiritual energy and consciousness intelligence inside their physical body. For example, the Soul, Monadic and Avatar consciousness bodies store accumulated light energy in the ATP molecules throughout the cells of the physical body, when they are embodied. When the spiritual body is not active in the physical body, this results in mitochondrial dysfunction and cell death. The accretion and absorption of more light and energy into the cellular matrix and tissues of the physical body, is a function of Expanding Consciousness that occurs through the embodiment of higher spiritual layers. [4]

Liquid Crystal Cells

The Crystal Core Activation is a planetary initiation that ignites an individual's spiritual body into a catalytic process which activates the liquid crystal cells, both in the Mitochondrial cristae, and within the diamond Crystal Heart which contains the Permanent Seed Atom.[5]

Mother-Child RNA-DNA Records

The Holy Mother through the Mother Arc Hubs, created within the Arc of the Covenant gateway, intends to reclaim the genetic bonds to heal her offspring incarnated within the lower creation worlds. This is also about correcting the Mother to Child RNA-DNA records within the divine blueprint of humanity, extracting Black Lilith archetypes and aligning the corrected Mitochondria and chromosomal bonds to the Holy Mother's eternal flame, that is held deep within the Sacred Crystal Heart. The Mother Arc Aquamarine gateway has been initiated into its next stages of dissolving the NAA's Patriarchal Domination Coding network and its Alien Dark Mother constructs that have infected the planet earth, and this lunar architecture has been tracked from the Wesa Fallen System.[6]

Negative Aliens

These are extradimensional and interdimensional beings that have lost their Consciousness connection to god source and are utilizing humans and other beings as their food source (siphon life force like a parasite) to live thousands of years They do not have access to incarnate into human bodies so they covet human bodies and they want to take them over or use them in the future They do not have emotions as humans have but are highly intelligent as they are working on higher mind principles than the human Three Layers of Ego They are similar to a Mad Scientist that manipulates and genetically modify human beings, similarly as a farmer interested in gaining more resources out of his herd of cattle on the farm. They consider humans an investment in their energy resource portfolio. The NAA can be best understood as a Psychopathic or Sociopathic personality or identity profile with a Lack of Empathy that has no feelings of remorse and no caring towards human beings. They regard human beings as inferior, stupid and many times use forms of mockery to create intentional harm for their own amusement.

These beings have been manipulating the human world of affairs for thousands and thousands of years, since the Atlantian Cataclysm for their own purposes. See the Ages of Humanity These are inter-dimensional and extra dimensional beings known as Fallen Angelic in ancient history and they use many technological manipulation methods to Mind Control and negatively manipulate the future direction of the human race. Once such negative manipulation is installing the Armageddon Software into the planetary brain in order to install False Father Negative Alien Religions based on serving the Yahweh and Jehovian Annunaki Collectives. See Dark Force Manipulation Methods and Mind Control and Artificial Intelligence

Reptilian Hierarchy

Extraterrestrials that are hybridized with Reptilian based genetics operate in strict hierarchical systems of rank, and defer to their superior groups. The Dracos or Draconians from Alpha Draconis are in command of earth based subterranean reptilians who respect their superiors in the belief system that the Dracs are those who hold "ownership" over earth and human beings. Draco Reptilians view themselves as the most intelligent species in the Universe and that earth humans are the result of their biological seeding processes from multiple planets. The Alpha Draconis Draco have a "Royal Class" that appear to be lighter colors, white Skinned scales with winged appendages, and are about two to three times the size of an average human, and very muscular They are quite menacing and tyrannical, showing little mercy to an entity of their own race that they think has defied their orders or responsibilities to manage their "earthly resources" Earth based reptilians appear to be in command over EBE or biological entities known as small Grays The Reptilians have developed high psionic abilities, which they use for mind controlling other entities, and do not have an emotional body or soul body

The known reptilian races on earth appear to have made a variety of cooperative agreements with the higher ranks of human government and military, which have resulted in shadow government black projects, such as Secret Space Programs, MILABS and the creation of military industrial complex to experiment and exploit alien based technologies and craft that they have been given access through their cooperation. Dracs are a extremely militant, misogynistic and warring species that are very involved in controlling the Power Elite, financial, pharmaceutical and banking institutions, promoting war and killing through increasing militarization, poverty consciousness, human enslavement programming, religious violence, terrorism, and the harvesting of humanities DNA though abduction and experimentation, as well as other species they have under their control (See World War II).

NAA Invasion

When our Planetary Logos was invaded and corrupted by the Reptilian Controllers (Archons) of the NAA, the planet and our race were impacted dramatically It meant we were no longer free to create and evolve as per the original Blueprint of our intended creation, and we had no memory of what had happened to us We were recycled through continual reincarnation into the Astral Plane with no memory of the past lives, who we really are, where we are going, or what our

real relationship is to God and what humanities "purpose" actually is. Over time most of us lost our feeling connection to our Soul Matrix and we became numb to the pain in order to survive in anti-human based structures. What has happened to our planet is not human, it is "alien" to the true nature of humanity. See the Ages of Humanity

Invasion Strategy

To be able to understand the sociopathic sick mind of Archontic Deception systems, one would need to better understand the general attitude of an AD infected human or nonhuman (NAA) as having little to no remorse or empathy. If a technologically advanced extradimensional race has decided to implement a gradual takeover of a planet and its inhabitants, what kind of strategy would it use? First they would look to how they could maximize the efficiency of the invasion process and reduce the expenditure of resources that they have to generate themselves.To achieve this goal the secretive infiltration of the core societal organizational structures such as. religions, medical, financial and legal systems, would be ideal to shape the value systems that generate reality belief systems they want to control. Through the engineering of a labyrinth of self–enforced enslavement policies based on fear and intimidation among the earth inhabitants, they would achieve the use of minimal "off planet" resources by piggy backing on the earth-human resources. The people on earth would effectively enforce their own enslavement as well as enslave their own global human family by giving up their rights and their resources. This is very effective for takeover and invasion with minimal resistance or revolt by inhabitants who are unaware they are being invaded. This is called the Archontic Deception Strategy. [1][2]

Luciferian Rebellion

One of the heightened events of "enemy patterning" buried in our cellular memory history is that of the Luciferian Rebellion which reached its apex during the end of the Atlantian Root Race (human evolution) cycle. From the Guardian Founder Races perspective this was the end result of our last Aeon or Astrological Age, approximately 26,000 years ago by our human timeline measurement. What resulted in our Atlantian evolution experiment was quite a traumatizing cataclysm that set the events into motion as to what humans would experience in the next Aeon cycle. The last 26,000 years have been a dark cycle of evolution and planetary "rule" from the Negative Aliens that formed the NAA strategies for human enslavement and trapping Consciousness

Mind Control

When one has control over the thoughts of one's mind, one has control over the direction and actions of the physical body, all of its parts and reclaiming of the soul energies. Whoever controls the Mind controls the Soul. Mind Control is used to form socially acceptable belief systems and shape value systems to which are used to control and enslave the masses. God, Religious Violence, gender issues, financial and debt enslavement and sexuality are the most mind controlled and manipulated belief systems promoted by the NAA and their human power elite to continue their enslavement and vampirism of humanity

Alien Implants

Alien Implants work in the human body similarly as the chemical process of geo-engineering is used in spraying chemtrails in the skies. Alien Implants are a bio-engineering technology designed to shape the human body into the submission to NAA Mind Control agendas, similar to chemical (nanoparticle) geo-engineering being used to control the weather by harming the ozone layer and create excessive methane gases

Negative Alien Religions

One of the largest lies promoted to divide our race is the War over False Gods promoted through Religious Violence. The false archetypal story of a Crucified Christ figure is a mockery to further enslave humans into believing in a salvation model through a Crucified Christ. It represents the tortured human being, as we are all the Christ, and we have been crucified, implanted as our planet was invaded. **These structures are called Crucifixion implants.** These Crucifixion Implants are tangible control structures placed in the 7th dimensional logos, and therefore it is in our individual bodies, in the 7th dimensional chakra, its complex, meridians, and the entire left side (our female spirit) of our bodies. We are not aware of these implants until we open the 7th Chakra Seal and start connecting this part of our 7th layer Lightbody to our personal consciousness field. This is a direct result of the Negative Aliens and the NAA strategy for enslavement through Mind Control and Artificial Intelligence.

Empaths vs Non Empaths

When we look at the larger Galactic picture of consciousness enslavement, we see the NAA's many pronged agenda to target the Brain, CNS and thought forms of every person on earth. Through the agenda of Transhumanism, we see the promotion of hybridization and synthetic integration with artificial neural networks for control over the CNS and Brain. What is starting to surface with more clarity is that our human Neurobiology is wired for empathy, which connects us to higher consciousness and has a spiritual function. The NAA and their minions of soulless AI infected synthetic beings do not have the bio-circuitry for empathy. We are in essence, in a struggle between human EMPATHS, and alien hybridized humans and extra-dimensional aliens that are NON-EMPATHS. [3]

Fallen Angelics

Created by the Fallen Angelics to counteract and destroy the Christiac Human Guardian Race for control and domination of this Time Vector in this Universal Time Matrix.

Fallen Angelic Annunaki Groups

- Alpha Omega Order Templar Melchizedeks, Fallen Seraphim
- Samyase Annunaki from Pleiades, Alcyone
- Jehovian Annunaki from Sirius A, designers of the Crucifixion Implant network on earth.
- Thoth, Enki, Enlil Collectives from Nibiru and Sirius A.
- Marduk Necromiton, Enlil Odedicron alliance with Nibiruians
- Michael Family Nephilim Hybrids cloned Michael bodies of the Annunaki hybrids from Orion, Sirius, Andromeda.

Reptile Insectoid Collective

The main groups of Negative Aliens, the Annunaki, Drakonians and Necromitons that source out of the Phantom Matrix spaces in the parallel systems, formed alliances with the Fallen Angelic Annunaki Groups to take control over the earth, which are referred to as the NAA. These groups used technology to open Wormholes that were blended together to create the power required to attempt to pull the earth body into the Black Hole System leading into the phantom matrix where they exist, and then could gain total control over the planet and humanity. The parallel system of which these entities came from is called the Wesa system. This is a universal time matrix and its parallel of which many of the Anunnaki and their hybrids originate from the Wesedak system, while the Drakonians species are coming from antiparticle universe called the Wesedrak system. [4]

They joined together to run energetic reversals in the planet in order to realign the earth with their system through the wormholes and black hole system they created for that purpose

They joined with the Fallen Angelics to counteract and destroy the Christiac Human Guardian Race for control and domination of this Time Vector in this Universal Time Matrix.

Reptile Insectoid Collective:

- Dragon Moth from Orion B ack hole system
- Necromiton beetle hominid Men in Black from Nibiruian lines.
- Marduk Omicron from Alpha Centuari
- Centaur Hybrids from Omega Centauri
- Zeta from Rigel, Zeta Drakonian Agendas
- Zeta From Zeta Reticu i

NRG - Nephilim Reversal Grids

The headquarter hub in Stonehenge area acts as a final collection point by directing huge amounts of Electromagnetic power, through massive amounts of collected (stolen) life force from multiple subsidiaries all over the planetary globe and the planetary grid lines, as well as the Planetary Gates

The Archontic Deception Strategy is directly to inflict Sexual Misery, sexual abuse and sexual slaves on this planet, starting as early and young as possible. This was taken advantage of by the negative aliens to splinter the soul energies, rather than integrate and heal it, by controlling the sexual energies. By promoting distortions around the sexual act, gender roles and corrupting our relationship to our mother and father parent, our race descended into Sexual Misery and in many cases, forms of sexual slavery and Misogyny. This is known as the "sexual misery program" propagated and controlled by the Moon Chain (lunar) lineages of the NAA on the earth. (These are lineages not indigenous to the earth but came through the process of invasion and deception.) These are multiple layers of architecture and Mind Control that have been artificially created to control, deceive, separate, confuse, torture and steal human beings sexual life force, and it is a violation against the human soul. The main collection center for Sexual Misery is called the NRG network that is the central hub in the UK. It is designed to create psychopaths and sexual predators based on Archontic Deception Behavior

Known subsidiary networks exist at every Planet Stargate, such as Iran Gate, Michael Mary Reversal in Calgary, The Cathar Grid lines (S. France), Dragon Moth/Snake Networks in Asia. All are collected and returned to UK for distribution off planet for the Orion Group and Annunaki Nibiru groups to parcel out.

DNA Splitting or Pair Bond Splitting

The Nephilim Reversal Grid (NRG) is an alien AI machined structure that is active in the United Kingdom. In order to dismantle the NRG, the various hubs feeding it from all over the planet need to be dismantled systematically, while freeing the soul enslavement of the collective consciousness of the earth humans that is used to power up these grids. This dismantling and grid rehabilitation has been transpiring with the Guardian teams since my awareness of this project in 2008

The NRG is responsible to break apart hybridized genetics by reversing any synthesis of alchemy that happens organically between the male and female principle (electron-proton balance), as well as repelling any healing for the DNA of reverse pair bonds that are connected to Nephilim DNA or that which has been hybridized with reptilian genetics. This is desired by the Reptilians because their human representatives on the earth have been bred as Nephilim (genetic hybrid between Oraphim and Reptilian) and thus are easy to possess and Mind Control for carrying out the negative alien agenda NAA.

The Reptilians Negative Aliens do not want to heal their genetics, thereby integrate into human society as an equal, they want to rule humanity as an absolute authority as the False King of Tyranny. The Illuminati plan and the infiltrated monarchy are based within these genetically controlled factions, that are considered the royal bloodlines. Many of these royals are not human any longer, but have been partially or fully possessed by the interdimensional entities in order to make the carrying out of the agenda more convenient. The NRG is a massively complicated alien machinery that has interfered with true spiritual marriage or Hieros Gamos, the union between the inner male-female principles in the original human DNA, making this embodiment nearly impossible for most human beings on the planet.

We are continually working on embodying the unity template of Spiritual Marriage in No Time, in order to create the foundation for Hieros Gamos which unites the male-female consciousness units, and requires the alien bi-wave systems fail to run on the earth grids in the future Timelines. The NRG system keeps electron distortions feeding the Patriarchal Domination archetypes that are superimposed upon the males and females given power and influence over others, in the socially accepted roles of identity. This results in a bevy of highly destructive mental belief systems and emotional body schisms that split the male and female principle apart from each other, referred to as Gender Splitting. The strategies of splitting the pair bonds is outlined in the Archontic Deception Behavior.

These schisms promote the Predator Mind and anti-human thinking, which is highly dysfunctional to the point it generates genetic damage in the lightbody, especially in the 2nd Chakra and 4th Chakra layer functioning where there is the 2D/4D Split. These archetypes were once creational myths that the souls could play out in the polarity game on earth, but the archetypes were synthesized into AI mind control machinery in order to become a massive source of energy food to be harvested for the controllers, especially with the use of the Victim-Victimizer software. As these archetypes became AI controlled, they were used to gain access to the human energy fields, and control people with Mind Control software, thus the person regressed into aggressive anti-human, robotic and disconnected behavior, losing all feelings of Empathy and spiritual connection. Spiritually abusive behaviors that disconnect people from their Soul Matrix are known as Archontic Deception Behaviors.

Sexual Misery

The name of the game for the NRG is propagating and feeding highly destructive addictions and deviant sexual attitudes and behavior within the global human population. This is a part of propagating the Sexual Misery program along with the Victim-Victimizer. Its first priority is designed to relegate all sexual activity laced with guilt and shame into the lowest forms of human expression and perversion possible. Depending on accepted cultural attitudes it will use the perceptive level of access to serve the current societal paradigm into distortion. (In Muslim countries it can be the legal killing of raped women by being left in the desert to die by their own husband, or the selling of little girls to prostitution in Thailand, Catholic priest pedophilia in the Vatican, Sadistic or masochistic fetishes in Germany. These harvested energies all feed back into the same NRG matrix.)

This NRG matrix starts out looking on the surface like its "harmless" based on open sexual attitudes (What are you, a prude? Are you jealous and possessive? Don't you know that polyamory is what we were designed for?) It's designed to suck you into Addiction Webbing and nonstop base instinct desire of the second chakra, so all that is craved is "plugging into" the next "outlet" or in its deeper levels - getting relief from addictive anxiety. The promiscuity design is to crash your human genetic code so you lose your "real" sense of divine human connection, which is the deep desire to be truly

intimately connected and experienced as the divinity within. Unity Field intelligence (God force) is created between the male and female principle at highly developed consciousness frequency such as within the union between equals in Spiritual Marriage in No Time or Hieros Gamos. (This is what it is like on advanced planets. This is when unconditional love is shared in a safe emotional haven and the full transparency of trust to create divine union is made possible.) Most of us engaged in the sexual act forget that the human design to Ascend into God Source is a part of the union of equals existing in perfect love. We need to remember this again in order to heal ourselves and return true unity in spiritual marriage to the planet.

In order to separate humans from divine union, the NRG grid promotes disconnection through all means sexual, such as internet porn, the sexualization of inanimate objects and the belief the grass is always greener with another sexual partner. Once a person becomes addicted to the bait of this rapidly descending pathway, the architecture of this control system hooks into all of your lower centers to capture your vital force. When something vampirizes your vital force (sexual chakra) all you instinctively want is to get it back, so you seek the next "seduction" to vampirize someone or something else. Never succeeding in feeling satiated, you become addicted to all things external. The mind becomes fixated on latching into another outlet, sex, food, drugs, clothes, or any object or person. This is the definition of Mind Controlled Addiction. In its advanced stages the fixation becomes obsessive compulsive in order to relieve the discontent to the level of anxiety experienced, courtesy of the NRG grid.

Princess Code

As an example, the Asian grids are feeding "Princess Code" female principle distortions as well as "sexual robot" fantasies. Hello kitty products (princess code) and Anime cartoons (sexual robot) had extensive architecture powering into the NRG as a battery source. This means huge Asian populations are feeding distortions to power this NRG in the same way the reptilians are using, this does not mean these items in itself are "negative". It means these items are being exploited into some massive deviation that is far from balanced and healthy to the human being who is unaware they are being negatively manipulated through these systems.[2]

NRG Implants

Alien Implants and Alien Machinery are used in key areas of the planet to instruct the human nervous system to release chi energies and body parts to be given to feed this network, the NRG Grids) that are used for energy siphoning and to gain control over the population. Genetic history plays a part in the type of implant or level of psychic or energetic harassment one receives from this network that has its main headquarters in the UK.

Identified Implants

Fleur De Lis artifacts, distorted DNA Seed Code artifacts, distorted Arc Codes, Vesica Pisces implant, breeder implants, vampire and predator implants, sexual energy harvesting implant, Genetic Code Crasher, when someone has sex with someone like a one night stand, this is very common that the sexual vampire is being used to read, decipher or steal their target, an Indigo or Starseed coding, reversal polarity of sexual fluids - Like semen or ovum, Gender Confusion. Sometimes this creates extreme pain with a person feeling like a man trapped in a women s body, etc., genetic experiments on the genitals either current or as a soul history memory, Genital Mutilation in the etheric body, massive amounts of etheric semen from astral and etheric rapes (in both women and men), genital plugs (etheric penis plug or lingham in rectum or vagina), burn mark brands, (like branding cattle), clamps or metal structures blocking organic Kundalini energies from opening in the energy body and moving up the Central Vertical Channel, this is so they can drain the energy from the root, perineum and prevent it from moving up and coming out of the crown, Etheric Weapons, knives, cleavers, etc. in the genitals.

Implants Behavior Profile

In the application of a NRG coded implant, its mechanism acts like a tick or leech that burrows itself deeper into the lower areas of the astral body, mostly into the 2nd chakra and into the Instinctual Response functions of the central nervous system. From the 2nd level of layer infection - if the addiction becomes severe over time (repetitive destructive response to external stimulus) it eventually embeds itself deeper into the matrix of the body. A False webwork (like a film or spider web), is an overlay on the nervous system (sections become infected until the entire system is infected) winds up the spinal cord and will have a trigger implant placed in the back of the head and neck. Once the implant is fully embedded and operational, severe addiction and mood swings occur as the target becomes more bi-polar, with extreme mood swings.

This area is the atomic doorway, the 9th Chakra, where the inner spirit light reflects out of the eyes. That light will die or become dead in the eyes after this implant takes over the body. The implant is a reptilian brain implant that is placed in the structure of the brain stem via the Medulla Oblongata.

Decussation of Pyramids

It attaches through the two pyramids that contain the motor fibers that pass from the brain to the medulla oblongata. This area in the base of the brain is called the Decussation of the Pyramids. Since this area controls motor fibers – it controls the stimulus and information flow throughout the Central Nervous System. This is how these Reptilian implants work, they stimulate the nervous system with artificial stimulus systems to control the nerves/transmitters to promote whatever energy, or emotional state or addiction state they want to remain in the target. Since motor neurons control the flow of neurotransmitters to the brain, as well as muscle twitches, in this way they can stimulate responses of rage, anger, anxiety, agitation, addiction (or rape or hurting another person) for whatever they are calling. After repeated manipulations of use on the target - the control system moves to the Parietal Lobe to block sensory responses of awareness or cognition. The person is now "locked in a 3D window" and cannot perceive anything outside of that window of perception. The Parietal Lobe may be caged or sensory function is controlled by the manipulating entity. This is how Holographic Inserts of projected images can be controlled to the perception of the human being. This is how the masses are controlled, put to sleep or mind sliced. [See Also: Mind Slides]

Memory Manipulation

As an example, if a human is abducted or astrally raped – the entity programs a reality dream of happy serenity with something or someone the person relates to as a positive subject at that time/space the person was violated. However, if one pays attention they can ask if this was artificially placed. Many times something will feel " off" and if the answer is yes, one can regress the subject to that timeline or reveal the real memory recorded in the cellular system in order to surface the pain and release and heal the damage. All damage can be healed this way – what we repress or deny can hurt your body.

Addiction Pathology

This implant tick function will impulse addiction symptoms for a multitude of reasons, mostly to continue the destructive behavior into multiple repetitions to imbed deeper into the target. The more you repeat the destructive action, the closer you are to invasion to possession by a Reptilian force. Once invaded you are a slave and automaton to be used by these groups. Generally a person unknowingly influenced by these implants will be driven to obsession, an obsession for whatever the addictive substance is. If the addiction is sexual in nature, the tick will continue to burrow itself in the astral soul body to collect more of it. When this mechanism is in full swing, the person is haunted and driven by cravings that they feel they cannot control. All severe addictions on the planet are caused by these severe Soul Fragmentation caused by astral body splitting and therefore damage to the nervous system (Nadial System and energy receivers) and later the Brain itself. Therefore all Addiction can be ultimately healed by soul fiber and nadial plexus repair to reorganize the central nervous system. Since the person is his/her most powerful healer and this information has been hidden from the masses, it creates a block in healing addiction problems for many. People do not understand the causation of severe addiction is trauma based mind control and entity Possession promoted by this most harmful network and their own unconscious submission and consent to this energy harvesting system.

Network and Implant administration

Simple generated demonic entities called Golums were created to collect the energy in people or at the NRG center tributaries of collecting energy from the planet. There seems to be a special kind of Golum that works in direct alliance with sexual predator energy, as it maximizes the yield by numbers of targets or deviant levels of behavior that yield the numbers they want. Their networks are heavily involved with various levels of pornography, especially child pornography. They feed on Black Magic and Reversal Networks]], so much of their playing field includes extreme levels of depravity. Because sexual energy can be rapidly stolen by raping another, this is prevalent, and sodomy is used to humiliate another for this reason. Through my observance – at this time – I have only witnessed males with this particular possession.

The sexual predator golum attachment is a brown/greyish flat faced reptoid with no lips. Its mouth is roundish and it has pointed razor sharp teeth that it will bare when seen. This is like a dog who snarls at you and bares its teeth to provoke aggression, shark like. These golums are seen like in transparent overlays on top of the human being, males in my observance. The males I have seen with these possessions are unaware this entity golum is attached to them and using them to harvest sexual energy. The males I have seen with these possessions are primarily Anunnaki hybrids, Nephilim bloodlines and are generally the wealthy and privileged patriarchal dominate or alpha male class. In most cases the male is concerned with power and control for status, is sexually addicted and seeks as many women to have sex with as possible. Most of these males border to Misogyny and look at women first as sexual objects, rather than any other redeeming qualities of personal character, such as ethical conduct or merit.

NRG Remedies

Knowing this structure exists is the most powerful form of terminating its influence over your body and your consciousness. Do not be afraid of it. Personal Shielding [See 12D Shield], commanding your space [See GSF] and stopping addictive behaviours from controlling you, or allowing yourself to be an automaton, will not allow this parasite into your body. This particular NRG network appears to be more geared to addiction and sexual deviance, so becoming aware of what it is in order to heal it, clear it and be free of shame, guilt and the many permutations of Sexual Misery will be very helpful to pinpoint the problem and surface them with honesty, disclosure and non-judgment. Those of us that are etheric surgeons and energy healers, by knowing this network exists, will be able to identify the culprits and help to free more people from this type of enslavement to fuel addiction and [[Sexual Misery and suffering. Additionally, we will be called to clear it out gradually, to remove it from the planetary networks when this option becomes available. First, we must identify it in the human body so we can take it out of the planetary body. This is a Guardian Project and is a work in progress to help the planet and humanity be rid of these nasty transdimensional parasites. As we unify and come together to share our findings in fieldwork as Gridworkers, we become a part of the planet support team to free humanity from this insidious NAA enslavement matrix.

Constellation

The constellation Ophiuchus is known as the "Serpent Holder" and sits 180 degrees across from the Orion constellation (Osiris). The Orion constellation sits in the opposite direction, which would be considered the anti-galactic center. Ophiuchus and Orion are mirror images of opposing polarity. Together, they represent the ascending path through the Gate of Man meeting at the Gate of Gods. The many Ascension Stages we endure to reach our spiritual Magnum Opus, are the stages of humanity moving through these sequences of consciousness gateways. We all incarnate as earthly beings that evolve through the Precession of the Equinoxes. This takes us through the consciousness realms moving through the ecliptic path of the Gate of Man to eventually complete the evolution cycle, which intersects at the Galactic Center. Once we unify the consciousness experiences through the Gate of Man intersecting with the Galactic Equator at Ophiuchus' feet, we are potentially given access to The Golden Gate. This allows us to proceed on the Ascension path to become resurrected eternal spiritual beings unified with the Cosmic Holy Spirit.

Alchemy

This phase is the solar alignment with the Cosmic Aether which is at the core of the Galactic Center, which represents pouring of healing spiritual waters into the earth and humanity from Mother God. Previously, these waters were corrupted by entrapping the Mother principle and Gold Ray Seraphim on earth by the knowledge coveting Serpent. Hence, this is also the symbol for the Fallen Angel. This is why this constellation is both ruled by the Golden Eagle spirit and the Snake. During the ascension cycle this constellation is to return to its original geometry, to represent the union of all polarity as the perfect blueprint of energetic balance and harmony for humanity. Through the embodiment of this energetic balance into perfected unity, in the upcoming Pisces cycle, the knowledge and wisdom is given back to the truth seeker. Therefore, in its highest expression this constellation represents the potential blueprint of divine perfection in a Human Being. It also represents the pending birth of the Christ child growing in the womb of the Divine Mother. It is one with all things and has no opposite. It is capable of healing all human wounds and amplifies spiritual healing in this cycle. It is related to the symbol Phi and reemerging Sophia. See The Golden Gate.[1]

Ophiuchus is the Trine Unifier

In addition with the Ophiuchus transmissions, the divine fire water element acts as the trine and unifier between each of the squares in the combinations of four constellation groupings that make up the cardinal signs, fixed signs and mutable signs. In the previous cycles, the spiritual Blueprint of humanity included many squares and oppositions in the birth imprint from certain planetary or constellation conjunctions that generated disharmony, discordance and distress. These oppositional forces placed limitations upon the spirit, and resulted in a variety of spiritual oppressions, miasmatic patterns and karmic burdens. It is similar to say that squares, oppositions and limitations that are recorded in the geometries of the spiritual blueprint can be understood in the birth chart, and are the result of the consequences of actions, unlearned lessons, spiritual purpose and the debts of destiny that have been carried throughout multiple lifetimes. The earth body also has its own blueprint that is made up from the Collective Consciousness records of humanity, so when incarnating into a timeline on the earth, we are also imprinted with the karmic burdens of the collective consciousness imprint at the time of incarnation.

It is also accurate to say that the NAA had control over aspects of the twelve constellation transmissions, which had resulted in more extreme negative polarities in the world of forces, in order to achieve their intended objective of control over matter forms. They intended to radically increase Black Subtle Forces by filtering Negative Polarity aspects of the constellation archetypes, in order to influence humanity into the negative polarity and to use planetary dark matter for running AI machinery.[2]

Law of Transcendence

- Astrological Correspondence - Ophiuchus – Chiron - Divine Fire Water – The Golden Gate
- Chakra and Sphere 9, Keriatric or Causal Mind of Monadic Body

Through the pursuit of enlightenment and the result of the awakened consciousness, the ego loses dominance and we recognize the flow of the divine, the spirit within everything. We naturally choose to consciously participate in co-creating with God Source, in order to generate more goodness for everyone on the earth. The Law of Transcendence is the moment we experience the sacred vibration of love as omnipresent, we feel the mind of God permeating our mind, and we are able to grasp Universal Knowledge beyond the state of reasoning, without the assistance of the current human belief systems. Through our inner state of heightening the superconsciousness experience, we gain direct knowing from perfect concentration, and the alignment to the greater purpose of divine will is known and that knowledge supersedes all self pre-occupation and personal desires. Through transcendence of the earthly personality, we become aware of our consciousness power to understand the operation of general causes and effects, observing the Natural Laws in action,

focused on the consciousness direction of attaining truth, Virtue-Ethics, moral character and communing with the Spirits of Christ. During the Law of Transcendence, is the moment we embody the greater truth and realization of our spiritual being, knowing our purpose, experiencing our relationship to the God creator, and in the face of this truth, we give up everything so that we can receive something of much, much greater value. The Law of Transcendence removes the veils of light and time, to experience true unity with God, and to experience the interconnection that exists in all things. The truth of our purpose is revealed to us, we see the laws in creation and we are filled with awe at the magnificence and beauty of God's natural creation.

Patriarchal Domination Coding

Thus, the NAA groups have to work much harder and are attempting to kill more living things to siphon the amount of global energy they need in order to maintain their black magic control over the earth. Some of their human counterparts in the Power Elite group believe they must bring on these destructive events to generate the apocalypse and end of times. The Armageddon or 9-11 program is what incites the trigger events for the apocalyptic timelines, and this is actually a patriarchal domination code system that has its own technological language, which was installed by the NAA into the planetary mind at the time of invasion. This is one purpose for the increase of the outer projections of dystopian and apocalyptic images sent into the mass media, news and entertainment outlets that use predictive programming. This is intended to flash destructive images embedded with the numerical coding that activate the genocidal programs and mind control that is put in place by the Controllers.

Predictive programming is a subtle form of psychological conditioning and targeting of the subconscious with coded words and low frequencies, used in these mind control networks. This function is provided by the controlled press and mainstream media to acquaint the public with planned societal changes that are being implemented by the Controllers for the New World Order. Their intended design is to kill off a significant portion of the global population for use in blood sacrifice fueled black magic, that can be used to power up these artificial timelines as a result of activating the numerical language programs that trigger the apocalyptic software. These numerical coded programs, let's say to activate 9-11 timelines, are what continue the NAA's Luciferian reversal systems that project the virtual reality of the apocalypse. This fuels the Armageddon software and thus continues the anti-Christ rule of enforced patriarchal domination. However, the Godhead has other plans in store that are much more benevolent and compassionate on behalf of supporting the earth and humanity to become free of their spiritual oppressors during the Ascension cycle.

Essentially, many of these reversal networks for energy harvesting are being starved out, as this particular Mother Arc coded activation is dissolving bi-wave reversal architecture that has been enforcing the anti-Christ 3D patriarchal systems. There is alien based architecture that is numerically coded specifically to run the patriarchal domination systems and this is used to feed into the Luciferian supported false father God mind control programs and its complex system of false light artificial grids. This recent shift is dismantling the patriarchal domination code network which is its own numerical language embedded in the collective consciousness field, for the purpose of subconscious thought control. Sets of frequency embedded word codes and numerical coding are constantly being transmitted into the subconscious layers of humanity to enforce the anti-Christ reversals. As this patriarchal code system starts to break down or dissolve, it is allowing for more organic vertical spiritual connections to the Mother Arc Gateway, that serve the planetary grid systems for regenerating the trinity wave energies to circulate throughout the diamond heart networks. With the Mother Arc Gateway breathing her Aqualine plasma rays onto the earth grids, this has restored enough energetic balance in the Krystic architecture to finally bring into manifestation the Universal Solar Feminine templating, which allows the Mother's Sophianic principle to manifest onto the earth.

This field shift has had a significant impact on modifying all sequences of coded tones embedded in the spectrum of Emerald Father and Aqua Blue Ray Mother frequency signatures, now available on the earth, that are purposed to either host or gain entry into the protected Arc Zone. Over the recent weeks, this was accompanied with ongoing spiritual initiation sequences for Emerald Order Blue Flame activations designed to support the genetic restoration for the original Maji Grail King lines, reclaiming Christos Essenes and the Female Blue Flame Melchizedeks for igniting sacred marriage within the Emerald Heart of Albion. This is supporting the next stage of global awakening for the Indigos and Christos Essene family lineages on the earth to evolve into their monadic body, which eventually involves contact with their monadic spiritual family in the future dimensions. As a result of these recent spiritual initiations embodying higher Aqua

Blue Ray frequencies, many have experienced a dimensional time shift into the future spaces, the shifting that occurs in the personal timeline from the dissolution of past memories and clearing of traumatic records. Effectively, many of us were put onto a new timeline right after the Summer Solstice, and this meant aligning ourselves into yet another future potential for the self-actualization of our highest spiritual purpose.[1]

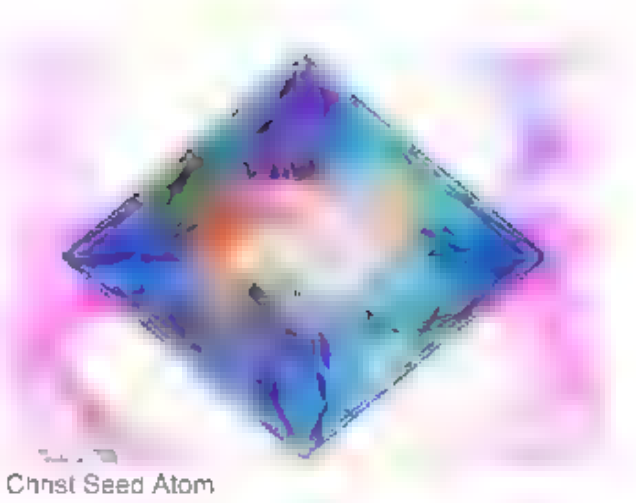
Permanent Seed Atom



Christ Seed Atom

The Permanent Seed Atom is that which contains the Divine Christos Blueprint and its blood record within the Thymus Gland in the higher heart center. The divine blueprint transmits the DNA Fire Letters into the instructional grids once it is relayed through the opened and activated Permanent Seed Atom. As every living thing has a permanent seed atom and blueprint structure, so does the Living Universal Layers of the Time Matrix. As the record of the Permanent Seed Atom opens into each sub band and its harmonic layers across all space,time and dimension, it then feeds the Source energy, the Zero Point Field) into each of these grid's instruction layers. In accordance to the Law of Harmonics, which includes reflectional symmetry - whatever structure does not resonate to its original blueprint pattern, either self-corrects as it is overridden or it collapses. The collapse of the structure is due to distortions to such degree the integrity of the blueprint has been fully corrupted. Therefore upon the impact of the critical mass of Living Light Current that has been accumulated within a manifest container that is holding consciousness, it may possibly destroy the container of that form that has become distorted in order to be corrected into its original blueprint nature [1]

Monadic Activation

We are attempting to embody as much of our Monadic Consciousness and activate the Permanent Seed Atom in our higher heart complex and thymus gland. As we activate the Permanent Seed Atom, we activate and change the pulse rhythm in the grid on the planet and help to build the Diamond Heart planetary network. So many areas of the planetary grid are damaged, so they are going in reversals patterns. If we can hold this base pulse rhythm, we create a circumference in an area where we can literally create a safe zone. We are being asked to create a safe zone by Guardian contacts. If we can embody this, we create a safe zone on the planet. The more of us that do this, the more safe zones we are going to have. More people are going to have the opportunity to be able to pick up the code they need and not get sucked down into the controllers system where their Seed Atom, therefore their Diamond Heart could get shattered.[2]

Christ Seed Atom

The Permanent Seed Atom or the Christ Seed starts coming on line when the Monad starts connecting to the body. Higher Spirit Body starts connecting to the body at the thymus level and starts adjusting the heart pattern. It causes change in Hormones, endocrine, biorhythms like a domino effect when the Monad starts coming on line.

This is about igniting the **Christ Consciousness eternal Seed Atom** and bringing that on line. The Monadic spark starts to connect to the Seed Atom, which holds the blueprint for Christ Consciousness and our Crystal Lotus Body. This is the Seed that the controllers are attempting to crush or stop from flowering in the human population. They want to crush the Permanent Seed Atom in the Thymus Gland, which is the 8th Chakra, which is where the Monad starts coming in and actually connecting in to the physical body.[3]

Monad and Seed Atom

The Monad and the Permanent Seed Atom are different parts of the same functioning spirit body. When the seed atom is coming online the Monadic light generates into the diamond blueprint Diamond Heart filter of the permanent seed atom. The inner Monadic spirit ignites with the Mother's Holy Spirit or the Amoraea Flame. The activated 'Christ' Seed Atom generates the instruction set of the Silicate Matrix and is the Universal Christos Field or 12D Ray.

Phantom Matrix

The Phantom Matrix is a replica of the fallen earth timelines, it is used to blend with the organic earth body in order to consume the living light in the organic creator codes and living souls on this planet This is also referred to as the AI timelines of the fallen earth, and this section of the Phantom Matrix blends in with the organic timelines which we are bifurcating away from, as it collapses during the Ascension Cycle.[1]

Artificial Timeline Wars

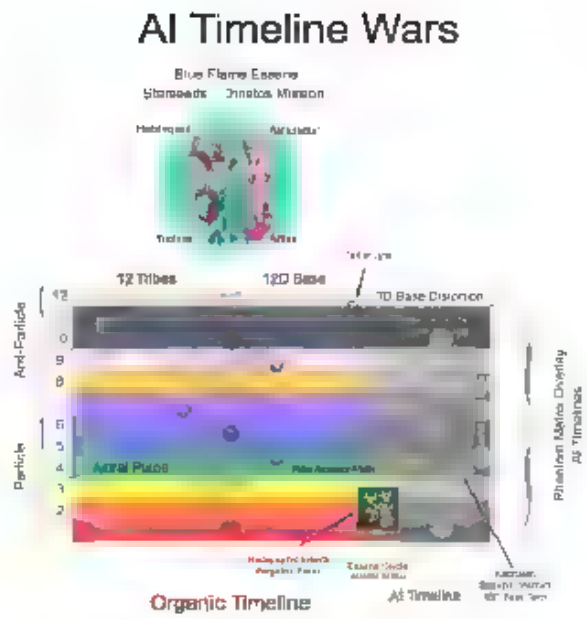
The current Timeline Wars are primarily over maintaining the base 10 architecture and metatronic Fibonacci coding that uses the Artificial Tree of Life constructs, which exist as NA controlled artificial machinery within the planetary body. This generates a Blended Earth Reality. The base 10 architecture uses an artificial core manifestation body and distorted birth Transduction Sequence that runs reversal 10 current. This reversal current runs throughout the technologically controlled sections of the planetary field which force splitting, which implements the artificial timelines that project the artificial spaces or phantom matrices. A Phantom Matrix can be considered a virtual reality hologram with a finite energy source. The structure is entropic and parasitic as it must rely upon an external power source through which to siphon energy to continue to exist. [2]



Time ine Wars and Phantom Matrix

What is a Phantom Matrix?

The Phantom Matrix: A fallen region of lower-dimensional spectrum originally from our Universal Time Matrix. It became a slowly degenerating black-hole reality and contains a fallen parallel Earth that the Bible refers to as the bottomless pit, Hades or Hell. Nevertheless if one fell into this, say via the Falcon or Phoenix Grid wormholes, on the basis of frequency affiliation one wouldn't necessarily encounter sheer misery and torment. There would be upper portions of this reality which initially might be indistinguishable from Earth as it is today, though one would soon realize the control and suppression was greater and from an ET government. Also that it was an astral frequency dimension with no death of the body, except that one would slowly die in an imperceptibly imploding black-hole system (capable of lasting some hundreds of millions of years without external and internal sustenance.[3]

Over the last 5,500 years our planet has been operating on a closed bi-wave, reversal polarity system (see the Ages of Humanity chart). This means neither the Trinity wave of the Christos nor the Cosmic Mother Arc were existing or accessible from within this planetary field during that timeline. A closed system means finite energy supply. With finite energy supply, based on the Artificial Tree of Life, this architecture is designed to consume others energies and parasitic relationships multiplied in massive proportions. These feed lines have clustered creating multiple infections of Dead Energy and Miasma in the Universal Time Matrix. These infected areas are called the Phantom Matrix or dead spaces. These dead spaces contain virtual environments that must feed on someone or something in order to exist. They contain massive debris and waste, energetically similar to piles of infectious dead waste and pollution that is piled in a corner. In the matter realm this is just like massive trash dumps and plastic bottles littering the land and oceans of the Earth. It is into the phantom or dead spaces that the NAA Controller Forces are able to siphon our planetary life force energy. They do this by manipulation of the bi-wave polarity fields and rotation of the electron particle, by forcing the energy flow in disproportionate channels that feed their intended closed source. Usually the feed line of Loosh is directed by and through the Alpha Draconis/Orion Group controllers off planet.[4]

Mental Holograms and Holographic Inserts

This phantom area extends to artificially generated Mental Holograms that produce clones of various people, Mental Maps and soul imprints that are copied onto light holograms that are used for consciousness traps or to divert and manipulate many individuals and groups from achieving spiritual freedom. This is part of how the blended reality is propped up, using virtual copies and clones of people to be puppets of AI programs, often acting counter to the consciousness intentions and choices of the being who has been copied.

AI Timelines of Fallen Earth

We are providing a summation of the most common Historical Timeline Trigger Events that were generated during the Great Galactic War histories, in order to give greater context and meaning to the memory associations that occur through the remembering process. When we start to remember what has happened, this supports the reclamation of soul fragments and the returning of consciousness memories that were being manipulated by the AI version of the 3D timelines. (These are the Phantom Earth timelines). The NAA have used dimensional blending experiments and alien technology to eliminate certain historical timeline records and to manipulate the perception of important figures throughout human history, in order to control or eradicate these memories from the physical 3D matrix of human perception. This is intended to lure the human soul into the Phantom Earth powered up by AI technology and false timelines.

In order to be freed from the control of the AI reality, one must see it as false. The artificial reality is based on maintaining deceptions and manipulations that keep us ignorant of the larger truth of what has really happened to humanity.[5]

Hibernation Zones

Additional phantom area pockets or zones were created during the Atlantian Cataclysm through reversal electron or Light reversals made in sections of the earths field that were intended to inhabit the NAA and intruding races, to enslave the planet and humanity. This connects with the NETs that turned earth into a Prison Planet

5D Earth, Tara

The 5D planet Tara exploded millions of years ago and as a result, was sucked into a reversal black hole which fragmented the entire fifth dimensional planetary blueprint into 12 planetary bodies in our current third dimensional Solar System. This includes the 3D version of Earth we inhabit in this Time Vector of the Universal Time Matrix. We exist in a lower dimension of Phantom Matrix created by the reversal black hole, which are the 3D earth timelines. These 12 planets are Mercury, Venus, Earth, Mars, Maldek, Jupiter, Uranus, Neptune, Pluto, Nibiru and then the Sun star. Current science recognizes only seven planets of the twelve in our Solar System, along with dwarf planets. [6]

Tara and Tiamat aspects were companions in a Binary Star system in the higher dimensions. Binary Star Systems are common for ascending planets with advanced races. Tiamats explosion and destruction in the 5D universe, along with the planetary cataclysm of Tara, is the reason our planet earth descended into the Phantom Matrix and has an artificial satellite which is the Moon.

Tiamat as Phantom Matrix

This collision with Nibiru happened millenniums ago with a 5D planet that was between Jupiter and Mars referred to as the female principle Stellar body Tiamat. This collision was catastrophic and severed the consciousness units of Tiamat and her Moon consort (Apsu, then son Kingu) which were strewn into pieces as an asteroid belt. This asteroid belt changed the orbits of the inner planets and outer planets of our Solar System. The severed bodies and consciousness of the planet were absorbed into a Phantom Matrix and its physical remains plummeted into a descending orbit into the 3D density where we now exist. It is a part of this 3D earth planet that we now exist upon.

Daath Portal

Essentially, during the Luciferian Rebellion the NAA captured the Family of Michael and got access into the Arc portal passages and gained control of the Spine of Albion, which infected multiple layers of portals with artificial matrices transmitting from within the 11D gateways, including the Daath portal. They intended to infiltrate all of the Grual Points in the Universal Time Matrix with artificial coding which would drag the consciousness located there into the Phantom Matrices.[7]

Distorted Soul Birth Records

The base 10 architecture uses an artificial core manifestation body and distorted birth transduction sequence that runs reversal 10 current. This reversal current runs throughout the technologically controlled sections of the planetary field which force splitting, which implements the Artificial Timelines that project the artificial spaces or phantom matrices.[8]

Planetary Gates

The Planetary Stargate System are the Earth's connection points or Portals into the Galactic and Universal Stargate Systems. They were once sealed off and closed, but now these Stargates are progressively opening during the Ascension Cycle. See the Precession of the Equinoxes.

The organic Planetary Stargate System or Universal Tree of Life Templar opening has been damaged from NAA and the Alien Machinery abuse from the Negative Aliens collaboration to control the earth. This necessitated Krystal Star Guardian intervention and this intervention is referred to as Ascension Plan B with Mission Upgrades

Science knows these energy vortices as wormholes. However, in this context, Stargates function differently than wormholes. Wormholes are generally created with the abuse of technology, and thus, lead to black hole systems that are finite life systems.[1]

Grail Point and Stargate System

Planet Earth has a Krystal Body anatomy that holds many energetic constructs, which form into Chakras, Axiatonal Lines, Ley Lines and the many energy vortices that make up the layers of the entire Planetary Auric Body. The fact this planet was originally created from the Diamond Sun architecture, reveals the true creator of this planet and the progenitor of the human species. This remains the truth no matter what extraterrestrial race has planted its flag on the earth surface, claiming the earth as their territory. Starseed gridworkers may sense and work with many of these Holographic constructs

in the earth grid, which form the basis of understanding the energetic architecture of the earth consciousness body, and how this structure creates the many realities and time fields. The many dimensional layers in the earth's auric body are the container for entire collective consciousness on planet. These structures hold the content of all of the consciousness that manifest into the many different kingdoms and species that exist on the earth. They hold the point of origination for all of the collective consciousness energy that was originally seeded onto the planet, and entered the material realm from the Grail point. The Grail Point is located within the planet's second dimensional Stargates, with its primary access being within Temple Mount.

The Planetary Chakra system, also called Stargates, acts to step down the higher energies transmitting from the Source field into the Sun, which is then directed into the many Stargates. The Stargates transmit an energetic spectrum of frequencies, moving from the higher to lower dimensions, in order to reach the matter fields and circulate them throughout the planetary grid network. Stargates create spirals of these energies, which are designed on a frequency scale to circulate the God Source energy into reciprocal exchanges with multiple dimensions of creation. The frequency scale of the spirals of energy feed into the manifested realms of space and time, returning back into the center point of the feedback loop, thus, returning to unite with the God Source field. The Planetary Stargate that receives the transmission of the Source field for distribution into the rest of the planetary grid system, is the Grail Point or Grual Point. As many of us may be sensing, the transmission of the intergalactic plasma waves from the Source field into the Grail point and the Planetary Stargates, is greatly accelerating now.

This intensifies higher sensory experiences of multidimensional bleed through, lifting the veil between dimensions, thus, more people are sensing an array of dark and light entities, sensing people that have passed their physical body, but are still existing in other dimensions on the earth plane. Moving forward, more people will have experiences with passed on relatives, people existing in other dimensions, seeing a variety of spiritual entities, orbs, elementals, etc. The intensity of the current shift amplifies an array of multidimensional experiences, and we are the experiencers in the changing of the guard to help the masses know that this is a natural result of Planetary Ascension. We must normalize multidimensional experiences as a healthy perception of reality in a humane society.

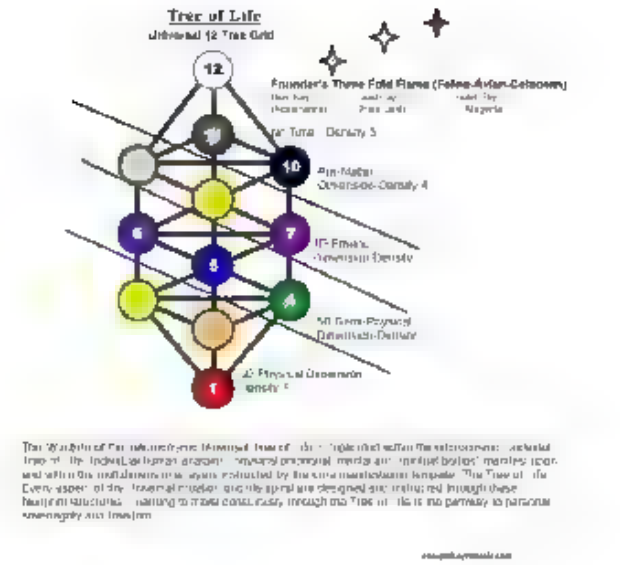
The planet's lowest density dimensional frequency bands and their energy vortices are gradually rolling up and dissolving into the Grail point. As the energetic contents that had existed in the lower three dimensions changes its location and frequency level, it is reconfigured or it is processing through the Grail point. The Grail point in our personal body resonates with the sexual organs and sacral areas, and it holds the unprocessed content of our Pain Body. Therefore we must address this pain body, in all ways to find unconditional love, healing and forgiveness for the contents of the pain that was recorded there. This is similar to saying this cycle constitutes the separation of the wheat from the chaff, as the debris or lower energetic constructs in our pain body and unconscious mind are being dissolved, then harmonized, and what remains is shifting with us into the next Harmonic Universe.[2]

Universal Tree Of Life

The structure of the macrocosmic Universal Tree of Life is replicated within the microcosmic personal tree of life, the music of spherical vibrational frequency. We may see the multidimensional reality represented in the Universal Time Matrix and how that impacts our planet. Individual human anatomy (physical, emotional, mental and spiritual bodies) and Planetary anatomy manifest upon and within the multidimensional layers of vibrational frequency as instructed by the core manifestation body template, the 12 Tree Grid or the Tree of Life. These make up the blueprint of the Planetary Gates or Stargates.

12 Tribes

There are 12 Tribes which make up the entirety of the collective human gene pool on this planet. Each of the 12 Tribes are genetically key coded to the demographic Planetary Gates location and to that planetary dimensional sphere and its Ley Lines network. When we incarnate onto the planet we have genetic time codes in our DNA related to that Planetary Gates dimensional system that is apart of our main Human Tribal Identity. This identity has had many lifetimes and participated with the evolution cycles of the Root Races.



12 Tree Grid

Many of us are at different stages of the Ascension process, yet at every level with a sincere heart and conscious participation we can access exactly what we require. The first suggestion is to meditate upon the 12 Tree Grid with intention to move through each personal sphere knowing this is one's direct connection to each of the Stargates of the earth and aspects of identity. Focusing on each 12 Tree Grid sphere starting at the first dimension level (1-12), ask to know your **main tribal identity within the 12 Tribes** and to receive the genetic time codes that main tribal identity requires. (ES community has many 12 Tree Grid meditations that one can devote specifically to this process). Once you feel connected to that dimension of tribal identity, you may feel called to meditate with the corresponding Planetary Emancipation Gridwork and Stargate meditation (PEG).

Stargate and Humanity Tribe One

Week One of Twelve weeks of Planet Emancipation Gridwork. Inner Gate of Cyprus (Stargate 1) and its linkup into Arizona, North of Sedona for the period of Seven days. It is suggested to dedicate meditation for a seven day weekly period before moving to the next project. Week One Intention: Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 1 Inner Gate Cyprus, and Northern Arizona. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 1. [3]

Stargate and Humanity Tribe Two

Week Two Planet Emancipation Gridwork: Inner Gate of Easter Island, Chile (Stargate 2) and its FFM (Four Faces of Man) linkup into Jerusalem (Dome of the Rock, Temple Mount) and the Northeast Gulf Of Mexico (Biloxi, Mississippi to Mobile, Alabama to Fort Meyers, Florida) for the period of Seven Days. Week Two Intention: Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 2 Inner Gate Easter Island (See Four Pillars of Man Grid to link from the inner earth into Dome of the Rock and the Northeast Gulf of Mexico, specific points of interest are in the half moon crescent in the coastal areas of the Northeast Gulf: Biloxi, Mobile, Pensacola, Fort Myers. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 2. [4]

Stargate and Humanity Tribe Three

Week Three Planet Gridwork. Inner Gate of Johannesburg, South Africa linkup into Nepal and the Bermuda Triangle areas for the period of Seven days. Week Three Intention. Set up HGS Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 3 Inner Gate Johannesburg to link from the inner earth into

Nepal and the Bermuda Triangle. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 3.[5]

Stargate and Humanity Tribe Four

Week Four Planet Gridwork. Inner Gate of Central Mexico (Jesus- Maria Municipality, Aquascalientes through Mexico City), linkup into Giza, Egypt areas for the period of seven days. Week Four Intention. Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 4 Inner Gate Central Mexico to link from the inner earth into Giza, Egypt. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 4.[6]

Stargate and Humanity Tribe Five

Week Five Planet Emancipation Gridwork. Inner Gate of Vatican city, underground linkup into Machu Picchu, and the Mother arc Gateway and field thread we created in Bali areas. (The Asian Grid project from June 2011 and trip in August 2012) Week Five Intention. Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 5 Inner Gate underneath VATICAN CITY to link from the inner earth into Machu Picchu and the HGS system in BALI MOTHER ARC GATE. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 5.[7]

Stargate and Humanity Tribe Six

Week Six Planet Emancipation Gridwork. Inner Gate of Thar Desert at the India and Pakistani Border (About 366 miles from New Delhi), and its underground linkup into the Caucasus Mountains at the Russia and Georgia border (between the Black Sea and Caspian Sea) for the period of Seven days. Week Six Intention. Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 6 Inner Gate underneath Thar Desert area to link from the inner earth into Caucasus Mountains. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 6. Suggested practice is to dedicate this meditation for a seven day or weekly period before moving on to the next project.[8]

Stargate and Humanity Tribe Seven

Week Seven Planet Emancipation Gridwork. Inner Gate of Ionian Islands (Albanian and Greek Coastline of Ionian Sea), and its underground linkup into the Lake Titicaca, Bolivia for the period of Seven days. Week Seven Intention. Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 7 Inner Gate in Gaios, Paxoi area of the Ionian Island chain, Paxi area to link from the inner earth into Lake Titicaca, Bolivia. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 7.[9]

Stargate and Humanity Tribe Eight

Week Eight Planet Emancipation Gridwork. Inner Gate of Lop Nur, Border of Tibet and China, and its underground linkup into the Xian, China for the period of Seven days. Week Eight Intention. Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 8 Inner Gate of Lop Nur to link from the inner earth into Xian, China. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 8.[10]

Stargate and Humanity Tribe Nine

Week Nine Planet Emancipation Gridwork: Inner Gate of Westbury England in the Valley of the White Horse (South of Bath) and its underground linkup into the Tibet Autonomous Region, Bam Co Lake, (North of Lhasa and Bhutan) for the period of Seven days. Suggested practice is to dedicate this meditation for a seven day or weekly period before moving on to the next project. Week Nine Intention: Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Inner Gate 9 in Westbury England in the Valley of the White Horse (South of Bath) and its underground linkup into the Tibet Autonomous Region, Bam Co Lake, (North of Lhasa and Bhutan) Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 9.[11]

Stargate and Humanity Tribe Ten

Week Ten Planet Emancipation Gridwork: Inner Gate of Basrah, Iraq and its underground linkup into the Abadan, Iran for the period of Seven days. It is suggested to work with the meditation for seven days before moving on to the next project. Week Ten Intention: Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Inner Gate 10 in Basrah, Iraq and its underground linkup into the Abadan, Iran. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 10. Suggested practice is to dedicate this meditation for a seven day [or weekly period before moving on to the next project. [12]

Stargate and Humanity Tribe Eleven

Week Eleven Planet Emancipation Gridwork: Inner Gate and Island of Ireland's Eye in the Irish Sea and its underground linkup into the binary structure of St. Ives Bay, Cornwall, UK and Amesbury, Wiltshire, UK (near Stonehenge) for the period of Seven days. It is suggested to work with the meditation for seven days before moving on to the next project. Week Eleven Intention: Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Inner Gate 11 in Irish Eye Island (Irish Sea near Dublin) and its underground linkup into the Cornwall and Wiltshire, UK. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 11 [13]

Stargate and Humanity Tribe Twelve

Week Twelve Planet Emancipation Gridwork: Inner Gate and Island of Kauai, Hawaii and its underground linkup into the South of France, Montsegur for the period of Seven days. Suggested practice is to dedicate this meditation for a seven day or weekly period before moving on to another project. This is the final meditation of the twelve week series of planetary emancipation gridwork (PEG) with the Krystal Star Host. Week Twelve Intention: Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Inner Gate 12 Kauai, Hawaii and its underground linkup into the South of France, Monsegur. We are including the Languedoc region towards Montsegur, the area of the Albigensian Crusades. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 12 [14]

Root Races

As a part of the 12 Tribes of the human race (and other E.T. races), we all have contributed and participated in several levels of this planetary experience via experiments in the development of human consciousness at various timeline cycles. In each time cycle, a level of "Root Race" (aka the 12 tribes) had a particular purpose in its exploration of consciousness. Each worked in its own way with the genetic/DNA advancement of the human species and its relationship to the school of planet Earth. Each Root Race - as a collective - had a mission to assemble certain DNA strands. Each mission programmed certain experiences designed to clear various distortions (karma) created from other Timelines. See Root Races.

Platinum Crystal

Since 2000, Platinum Indigos and those on the Christos Mission have come to the earth to anchor the platinum white and diamond crystals into the earth body and have quietly been embodying the platinum ray crystalline energies in order to seed the planetary Ascension template. The platinum crystalline network and the platinum ray act as the harmonic stabilizers of the planetary grid to interface with the parallel realities and align the matter realms with the anti-matter realms. Thus, the Platinum Ray 12D Shield technique offers protective strength to the human biological crystal and the planetary Crystal Core through the access made to run the highest available coherent energy current, which harmonizes the grid through the merge of particle and anti-particle. The platinum white crystal is located in the human lightbody at the top of the 12D Shield, in the 14th Chakra. When this biological crystal is activated in the lightbody it interconnects the human consciousness to the platinum crystal energy records in the earth body. This allows a biological interface to embody hydroplasmic light of the crystalline source of the platinum ray, which then extends to link into the whole spectrum of opalescent and pearlescent rainbow crystal light.

The Platinum Crystal seeded in the earth body is the master crystal containing the access into the frequency resonance that connects directly with the Law of One, the crystalline unity grid, or Cosmic Christos Consciousness. It provides the frequency code that brings completion to the unified male-female aspects in its crystalline DNA form. As a result of the perfect balance that exists between the states of polarity which exist in both matter and anti-matter in the Platinum Crystal and its crystalline ray structure, they provide for the highest available coherence for reaching the unified state that exists between multidimensional energies. The first stages of embodiment of the platinum ray will gradually activate the gold, platinum white and diamond crystal within, which will balance and heal the feminine principle lightbody connections to initialize the higher heart complex and Silicate Matrix.

The Platinum Crystal in the earth is connected with the Sun Disc Network, and this activates stages of balancing for the feminine-masculine principle and the mental bodies. Connection with these crystalline frequencies will begin to heal anti-Life reversal current, metatronic reversal and artificial signals of Mind Control. In the individual lightbody, the entire solar plexus area reconfigures the mental body layers into a Golden Solar Gate energy vortice, which is called the RA Center.

The Platinum Crystal and Platinum Ray current activate the Sun Discs which are organic spirals of gold crystalline technology that are embedded in the planetary grid which extend out into a highway of holographic light frequency patterns. The planetary grid is organized intelligently into layers of geomantic blueprints holding living crystal consciousness, which perform specific functions within a precise layer of a crystalline lattice. Thus, when the Platinum Crystal became activated in the earth body, the Sun Disc technology that had been dormant since the time of the Atlantian Cataclysm also began to come online. The Sun Disc gold spirals generate the crystalline lattice that connect directly with the crystal core and run throughout the earth body and into the celestial map of Sun-Star networks located in the Galactic and Universal plane. The planetary grid is a living ancient mapping system of multiple energy spectrums of stellar and crystal consciousness filled with intelligent geometric patterns of Universal Creation code.

The Sun Discs are vortices connected on the earth grid that interconnect with these stellar networks on multiple planes of reality, it is similar to viewing the holographic projection of the Cosmic Map of the Celestial bodies and Stars. Essentially through connection with the Sun Discs on the earth grid, it is possible to travel intergalactic highways of coherent crystalline solar light that allows for consciousness transport to other dimensions. The Sun Discs are being sequentially activated through the changes that have transpired in the Planetary Staff, shifts in the planetary axial tilt, the change in rate of spin, matter and anti-matter converging, and transmissions of an assortment of crystalline frequencies.

Recently the Sun Disc network has been highlighted during Solar Activations for this Summer Solstice, as a new Universal Layer of Paliadorian Solar Bodies have recently interconnected with the planetary Sun Disc network. The Paliadorian Suns have also been referred to as Sun-Stars, as they appear to transmit star crystals and star bodies, as well as a range of stellar frequencies. As a result of Paliadorian Activation, new crystal bodies are being grown from the plasmic light activity in the crystal caverns, earth core and Albion body. This appears to be a transmission of healing crystal frequencies for the human tribes and race lines in the formation of new crystal stars, designed for healing solar bodies, in which those on earth with fractured souls are given crystal stars at some point in the timeline in order to heal their consciousness body.

Recent gridwork involving Guardian projects for Crystal Core Activation have highlighted underground crystal bed networks being activated through Easter Island to link with the crystalline energies that are connected to the Sun Disc vortices in Minas Gerais, Brazil, Lake Titicaca, Bolivia, Rosslyn Chapel, Scotland, Giza, Egypt and Uluru, Australia.[1]

Prison Planet

The Guardian Host has revealed the Alien Machinery and NETs that are used for Consciousness Wiping all planetary inhabitants, bringing attention to the false light used in the False Ascension Matrix, as well as the repeated recycling of Souls that are routed into Consciousness Traps that make the Earth a Prison Planet. Planet earth is undergoing a major spiritual crisis of Global Human Slavery enforced by the NAA and Controllers. During the Ascension Cycle, the Krystal Star Guardians are essentially on a rescue mission to help the planet ascend, and liberate the Souls on the Earth from Mind Control and AI False Timeline Propagation

Historical Records Erased

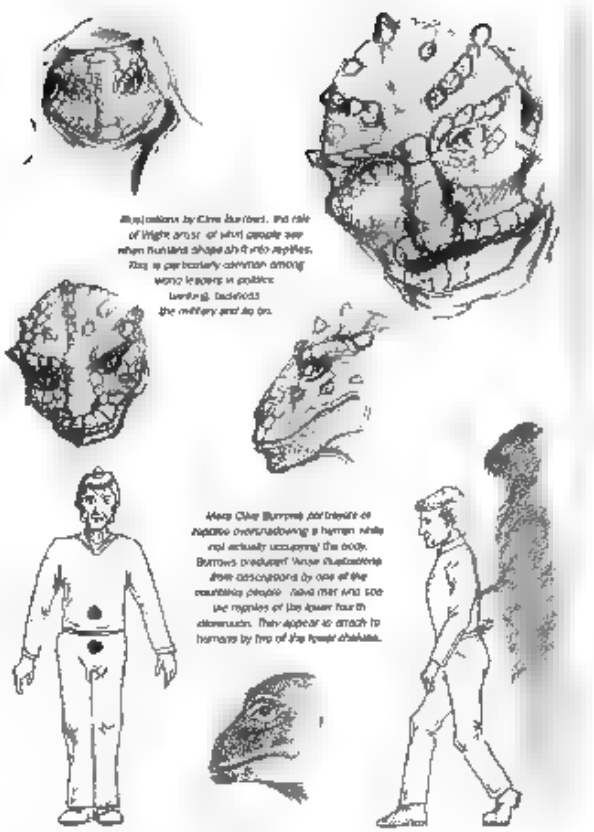
On 3D planet Earth, humanities true star origins, ET involvement and historical records, ancient artifacts and sacred spiritual texts, along with higher consciousness memories were mostly erased, so that we would not remember who we are or where we came from. We were handed a false history, false identity and false reality from the victors of war, along with strong broadcasts of NAA Mind Control programming in order to condition us to believe in the fabricated anti-human culture that is the controlled AI version of 3D reality. Artificial grids and AI timeline networks are used by the Controllers, both human and nonhuman, to maintain the 3D artificial reality for the inhabitants of this planet and to maintain the Prison Planet enslavement status. [1]

Black Sun Program

The Negative Alien agenda NAA is to force the planet to serve another multiple species Controller agenda, through imposing false replicated time fields using bio-warfare technology such as Holographic Inserts, AI and Mind Control, namely created under genetic reptilian-insectoid Archon extraterrestrials, at the expense and life force of the human race and the kingdoms under human domain. Much of the NAA is veiled behind the shadow levels of the ET and human military industrial complex, the primarily takeover access is the naval forces and in the underground bases on the earth. It appears the earth was invaded several times by hostile Negative Aliens with a major shift occurring 26,000 years ago during the Luciferian Rebellion, Atlantian Cataclysm and leading to the latest events in the Sumerian-Egypt Invasion. These agendas are still in effect today and impact all human and earthly life as a enforced enslavement on a Prison Planet, being harvested for a variety of resources to send back to off planet Controllers, such as harvesting the energetic quanta of the human life force and earthly minerals.

Black Sun Agenda for Debt Currency

The system of debt based currency used as the current global monetary system was originally brought to the earth by the Alpha Draconis Orion Group. These entities have organized themselves on the earth in what is called the Black Sun Agenda. The Draco Reptilians of the Orion Group view themselves as the most intelligent species in the Universe and believe that earth humans have descended from their biological seeding processes, from multiple planets they have conquered. Therefore they believe humans, as well as the earth, are their personal property and have instituted the global slavery system via the indoctrination of debt-based currency. One should be aware that on many other planets, monetary systems do not exist, and all inhabitants born onto the planet are considered free citizens with equal rights to flourish in the global society that is organized by that planet's system of government. A planetary system ruled by debt currency in which one has to pay for their basic shelter, food and healthcare from birth is considered a Prison Planet.[2]



Reptilian in Astral

Prison Colony

Some of these Black Sun factions decided to use the earth as a Prison Planet for trapping and containing all undesirables, including those entities that were not compliant to their authoritarian militarized rule or were straight out criminals and degenerate perverts. Thus, the earth and the Solar System became known in the Black Sun Orion Group as the prison colony, as they would not let anyone out of the earth's reincarnation cycles via technological frequency fences and soul harvesting structures. The Black Suns consider earth their territory and believe that surface earth people are criminal prisoners, which extends to them the right to abduct humans for an assortment of working slave colonies. These are the underground and off planet bases like Ceres, coming to light as whistleblowers remember their experiences as Milabs and being recruited into the Secret Space Programs, that are both involved in galactic Human Trafficking.[3]

Hibernation Zones

Additional phantom area pockets or zones were created during the Atlantian Cataclysm through reversal electron or Light reversals made in sections of the earths field that were intended to inhabit by the NAA and intruding races to enslave the planet and humanity. This connects with the NETs that turned earth into a Prison Planet

Alien Airl Interview Transcript

The Alien Airl captured in 1947 by U.S. Military, describes a similar scenario of Prison Planet with her telepathic interpreter, Nurse Officer, Matilda O'Donnell MacElroy [4]

Key Definitions

- ISBE – Immortal Spiritual Being, Consciousness that exists outside the material body, Lightbody

- The Domain = Annunaki Groups ET Domain Expeditionary Force Self Proclaimed Rulers of Territory in Earth's Solar System, Airl is Officer in The Domain
- Electronic Force Field = NET
- Electric Shock Therapy = Mind Wiping, Blank Slating, memory erasure
- Old Empire = Orion Group
- Return to the Light = False Ascension Matrix

Transcript of Airls' Communication circa 1947: "Eventually The Domain discovered that a wide area of space is monitored by an "electronic force field" which controls all of the IS-BEs in this end of the galaxy, including Earth. The electronic force screen is designed to detect IS-BEs and prevent them from leaving the area. If any IS-BE attempts to penetrate the force screen, it "captures" them in a kind of "electronic net" The result is that the captured IS-BE is subjected to a very severe "brainwashing" treatment which erases the memory of the IS-BE. This process uses a tremendous electrical shock, just like Earth psychiatrists use "electric shock therapy" to erase the memory and personality of a "patient" and to make them more "cooperative" On Earth this "therapy" uses only a few hundred volts of electricity However, the electrical voltage used by the "Old Empire" operation against IS-BEs is on the order of magnitude of billions of volts! This tremendous shock completely wipes out all the memory of the IS-BE. The memory erasure is not just for one life or one body It wipes out the all of the accumulated experiences of a nearly infinite past, as well as the identity of the IS-BE! The shock is intended to make it impossible for the ISBE to remember who they are, where they came from, their knowledge or skills, their memory of the past, and ability to function as a spiritual entity They are overwhelmed into becoming a mindless, robotic nonentity

After the shock a series of post hypnotic suggestions are used to install false memories, and a false time orientation in each IS-BE. This includes the command to "return" to the base after the body dies, so that the same kind of shock and hypnosis can be done again, and again, again -- forever The hypnotic command also tells the "patient" to forget to remember What The Domain learned from the experience of this officer is that the "Old Empire" has been using Earth as a Prison Planet for a very long time -- exactly how long is unknown -- perhaps millions of years So, when the body of the IS-BE dies they depart from the body They are detected by the "force screen", they are captured and "ordered" by hypnotic command to "return to the light" The idea of "heaven" and the "afterlife" are part of the hypnotic suggestion -- a part of the treachery that makes the whole mechanism work. After the IS-BE has been shocked and hypnotized to erase the memory of the life just lived, the IS-BE is immediately "commanded", hypnotically, to "report" back to Earth, as though they were on a secret mission, to inhabit a new body Each IS-BE is told that they have a special purpose for being on Earth. But, of course there is no purpose for being in a prison -- at least not for the prisoner

Any undesirable IS-BEs who are sentenced to Earth were classified as "untouchable" by the "Old Empire" This included anyone that the "Old Empire" judged to be criminals who are too vicious to be reformed or subdued, as well as other criminals such as sexual perverts, or beings unwilling to do any productive work. An "untouchable" classification of IS-BEs also includes a wide variety of "political prisoners" This includes IS-BEs who are considered to be noncompliant "free thinkers" or "revolutionaries" who make trouble for the governments of the various planets of the "Old Empire" Of course, anyone with a previous military record against the "Old Empire" is also shipped off to Earth. A list of "untouchables" include artists, painters, singers, musicians, writers, actors, and performers of every kind. For this reason Earth has more artists per capita than any other planet in the "Old Empire" "Untouchables" also include intellectuals, inventors and geniuses in almost every field. Since everything the "Old Empire" considers valuable has long since been invented or created over the last few trillion years, they have no further use for such beings. This includes skilled managers also, which are not needed in a society of obedient, robotic citizens. Anyone who is not willing or able to submit to mindless economic, political and religious servitude as a taxpaying worker in the class system of the "Old Empire" are "untouchable" and sentenced to receive memory wipeout and permanent imprisonment on Earth. The net result is that an IS-BE is unable to escape because they can't remember who they are, where they came from, where they are. They have been hypnotized to think they are someone, something, sometime, and somewhere other than were they really are.

Although the military base of the "Old Empire" was destroyed, unfortunately, much of the vast machinery of the IS-BE force screens, the electroshock / amnesia / hypnosis machinery continues to function in other undiscovered locations right up to the present moment. The main base or control center for this "mind control prison" operation has never been found. So, the influences of this base, or bases, are still in effect.

The Domain has observed that since the "Old Empire" space forces were destroyed there is no one left to actively prevent other planetary systems from bringing their own "untouchable" IS-BEs to Earth from all over this galaxy, and from other galaxies nearby. Therefore, Earth has become a universal dumping ground for this entire region of space. This, in part, explains the very unusual mix of races, cultures, languages, moral codes, religious and political influences among the IS-BE population on Earth. The number and variety of heterogeneous societies on Earth are extremely unusual on a normal planet. Most "Sun Type 12, Class 7" planets are inhabited by only one humanoid body type or race, if any. In addition, most of the ancient civilizations of Earth, and many of the events of Earth have been heavily influenced by the hidden, hypnotic operation of the "Old Empire" base. So far, no one has figured out exactly where and how this operation is run, or by whom because it is so heavily protected by screens and traps. Furthermore, there has been no operation undertaken to seek out, discover and destroy the vast and ancient network of electronics machinery that create the IS-BE force screens at this end of the galaxy. Until this has been done, we are not able to prevent or interrupt the electric shock operation, hypnosis and remote thought control of the "Old Empire" prison planet. Of course all of the crew members of The Domain Expeditionary Force now remain aware of this phenomena at all times while operating in this solar system space so as to prevent detection and the capture by "Old Empire" traps." Radio Waves

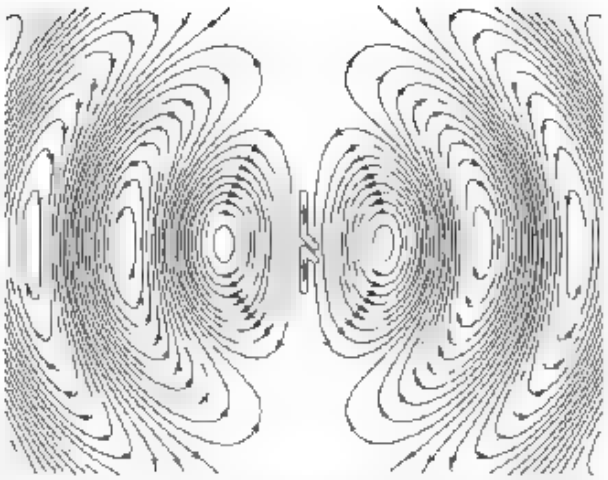
Radio Waves are a type of electromagnetic radiation with wavelengths in the electromagnetic spectrum longer than infrared light. Radio waves have frequencies from 300 GHz to as low as 3 kHz, and corresponding wavelengths ranging from 1 millimeter (0.039 in) to 100 kilometers (62 mi). Like all other electromagnetic waves, they travel at the Speed of Light. Naturally occurring radio waves are made by lightning, or by astronomical objects. Artificially generated radio waves are used for fixed and mobile radio communication, broadcasting, radar and other navigation systems, communications satellites, computer networks and innumerable other applications. Radio waves are generated by radio transmitters and received by radio receivers. Different frequencies of radio waves have different propagation characteristics in the Earth's atmosphere; long waves can diffract around obstacles like mountains and follow the contour of the earth (ground waves), shorter waves can reflect off the ionosphere and return to earth beyond the horizon (skywaves), while much shorter wavelengths bend or diffract very little and travel on a line of sight, so their propagation distances are limited to the visual horizon.[1]



An animation of a half-wave dipole antenna radiating radio waves, showing the electric field lines. The antenna in the center is two vertical metal rods with an alternating current applied at its center from a radio transmitter (not shown). The voltage charges the two sides of the antenna alternately positive (+) and negative (−). Loops of electric field (black lines) leave the antenna and travel away at the speed of light; these are the radio waves. The action is drastically slowed down in this animation.

The study of electromagnetic phenomena such as reflection, refraction, polarization, diffraction, and absorption is of critical importance in the study of how radio waves move in free space and over the surface of the Earth. Different frequencies experience different combinations of these phenomena in the Earth's atmosphere, making certain radio bands more useful for specific purposes than others.

In order to receive radio signals, for instance from AM/FM radio stations, a radio antenna must be used. However, since the antenna will pick up thousands of radio signals at a time, a radio tuner is necessary to tune in a particular signal. This is typically done via a resonator (in its simplest form, a circuit with a capacitor, inductor, or crystal oscillator, but many modern radios use Phase Locked Loop systems). The resonator is configured to resonate at a particular frequency, allowing the tuner to amplify sine waves at that radio frequency and ignore other sine waves. Usually, either the inductor or the capacitor of the resonator is adjustable, allowing the user to change the frequency at which it resonates.

The human body is a crystal oscillator and frequency resonator which unconsciously picks up and absorbs many different Radio Waves, depending on what station of Frequency and consciousness that person is tuned in to.

Radio Frequency

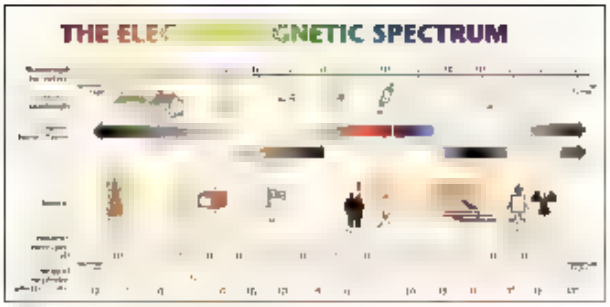
We need to understand the Spectrum of Frequency in the Electromagnetic Wave Spectrum and to be aware of radio frequency (RF) energy to help protect ourselves from harassment by understanding what is being transmitted into the environment. Radio waves are received and transmitted by antennas, and are often tuned by length. As an example, AM radio frequencies are so long that an antenna 100 feet long isn't long enough for it's wavelength. When you look at a television antenna on a roof top, you are seeing a much shorter antenna, simply because the frequencies range from 50MHz to about 800MHz, or just under the analog cell phone frequency.



Electromagnetic Spectrum

Radio waves at lower frequency (50MHz and lower) will bounce off the Ionosphere and back to earth. Higher frequencies pass into space. Radio frequencies at terahertz frequencies (1,000MHz and higher) may pass through metal. The human body emits these types of frequencies from the life force energy field around it. A person's location in a room can be imaged through walls with the right equipment.

Mind Control via EMF

Mind control technologies are weapons which use electronic microchip implants, nanotechnologies, microwaves and/or electromagnetic waves to subvert an individual's sense of control over their own thinking, behavior, emotions or decision making by attacking the brain and nervous system. The development of these methods and technologies has a long history. [2]

Radio Induced Voices & Hallucinations

Many years ago, a method for psychotronic warfare through radio waves or Microwave Weaponry was perfected to induce sound in the human head from a distance up to a mile. This devious Radio frequency technology has the ability to make someone believe they are psychotic, by implanting Mind Slides and Holographic Inserts into the persons bio-energetic field or Aura. Any person visiting a doctor who tells them that they hear voices, or see invisible aliens, could easily end up hospitalized and medicated, while branded for life as mentally ill. When we consider that every possible sound effect has been created, even on a home PC, it would be easy for this technology to be used for nefarious purposes in order to induce unsuspecting people to commit criminal acts.

Project MKUltra was not closed down, the undisclosed technological experimentation of Mind Control upon the human public has just changed names. Mind Control based technology, psychological warfare, has greatly progressed in the past 50 years, far beyond the knowledge of how these weapons are actually being used. (The rule of thumb is that military technology advances 44 years for every one calendar year.) This RF technology is able to induce mass hallucinations via satellite. Imagine the psychological damage this could do to an entire crowd of people. It will only be a matter of time, before this heinous mind-control technology is integrated into so-called "active denial weapons." People will be cooking AND hearing things they never heard before, all at once.

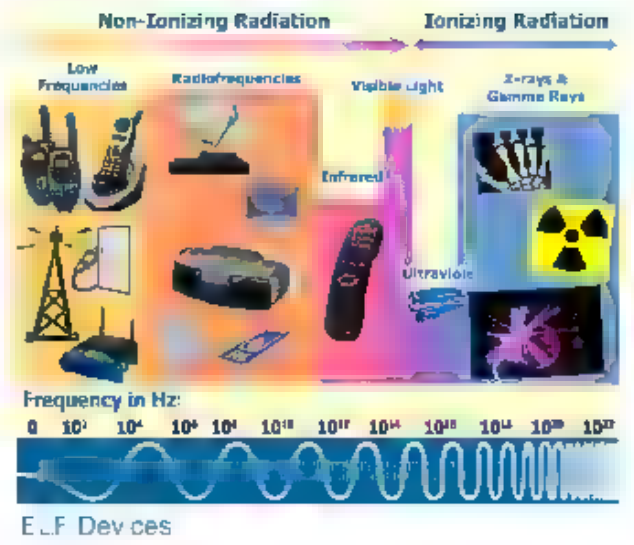
The most important point about psychological warfare and Mind Control weapons is it is only effective on those who are unaware it is being done to them. Once someone knows, that they are being targeted with Mind Control technology, the effectiveness is forever lost.[3]

Mind Slide

Mind Slides program is when human beings completely ignore unapproved "words", terms or issues that involve their enslavement or torture, even if they come face to face with it. Mind Slides are a form of Mind Control and sometimes Consciousness Sweeping to erase memories that can be implemented through Radio Waves that form frequencies that transmit into the persons Unconscious Mind in their bio-energetic field.

ELF Radio Waves

Extremely low frequency (ELF) is the ITU designation for electromagnetic radiation (radio waves) with frequencies from 3 to 30 Hz, and corresponding wavelengths from 100,000 to 10,000 kilometers. In atmospheric science, an alternative definition is usually given, from 3 Hz to 3 kHz. ELF waves can also penetrate significant distances into earth or rock, and "through-the-earth" underground mine communication systems use frequencies of 300 to 3000 Hz. The frequency of alternating current flowing in electric power grids, 50 or 60 Hz, also falls within the ELF band, making power grids an unintentional source of ELF radiation. Two areas of the body, the eyes and the testes, can be particularly susceptible to heating by RF energy because of the relative lack of available blood flow to dissipate the excessive heat load.[4]



Extremely-low-frequency RF

High-power Extremely low frequency RF with electric field levels in the low kV/m range are known to induce perceivable currents within the human body that create an annoying tingling sensation. These currents will typically flow to ground through a body contact surface such as the feet, or are to ground where the body is well insulated.[5]

Electronic Harassment

Electronic harassment is the purported use of electromagnetic waves to harass, terrorize or Mind Control a victim. Psychologists have identified evidence of auditory hallucinations, delusional disorders or other mental illnesses in online communities supporting those who claim to be targeted. Individuals suffering from auditory hallucinations, delusional

disorders or other mental illness have claimed that government agents make use of electric fields, microwaves (such as the microwave auditory effect) and radar to transmit sounds and thoughts into their heads, referring to technology that they say can achieve this as "voice to skull" or "V2K" after an obsolete military designation.[6]

Directed Energy Weapon

A directed-energy weapon (DEW) emits highly focused energy, transferring that energy to a target to damage it. Potential applications of this technology include anti-personnel weapon systems, potential missile defense system, and the disabling of lightly armored vehicles such as cars, drones, jet skis, and electronic devices such as mobile phones. DEWs can be used discreetly, as radiation above and below the visible spectrum is invisible.

The energy can come in various forms.

- Electromagnetic radiation, including radio frequency, microwave, lasers and masers
- Particles with mass, in particle-beam weapons
- Sound, in sonic weapons[7]

Remote Neural Monitoring

The technology employs Satellite-delivered (ELF) Extra Low Frequencies to communicate voice-to-skull transmissions for Electronic harassment, terrorism or Mind Control purposes. This produces delusional or schizophrenic related symptoms, such as hearing voices. ELF radio signals are used to communicate with Naval Submarines deep below the oceans' surfaces. These frequencies can pinpoint a target anywhere on Earth and can penetrate water, rock, concrete and other dense matter. The brain is composed of neurons (wires) and is powered by low electrical currents. Much like insects communicate with non-contact antenna, humans can communicate with radio transceivers. Each person has a unique genetic code (DNA) each of has our own distinct radio frequencies. Find the frequencies and a terror technician, such as those operatives employed by the CIA's Project MKUltra, can communicate directly into the brain. Remote Neural Monitoring is used to control MILABS or those recruited to work covert military operations.

RF Active Denial System

The Active Denial System (ADS) is a non-lethal, directed-energy weapon developed by the U.S. military, designed for area denial, perimeter security and crowd control. Informally, the weapon is also called the heat ray since it works by heating the surface of targets, such as the skin of targeted human subjects. Raytheon is currently marketing a reduced-range version of this technology. The ADS works by firing a high-powered beam of 95 GHz waves at a target, which corresponds to a wavelength of 3.2 mm. The ADS millimeter wave energy works on a similar principle as a microwave oven, exciting the water and fat molecules in the skin, and instantly heating them via dielectric heating.[8]

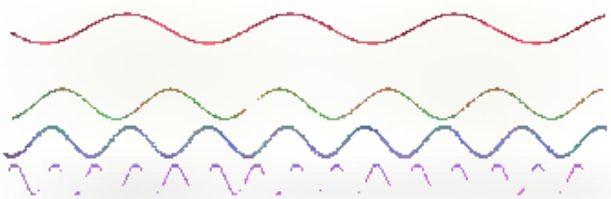
Rate of Frequency

Energy is Consciousness and it either contracts or expands to maintain or increase its Rate of Frequency

The process of how fast or slow energy contracts back towards its center point of source field is the Vibration rate.

The process of how fast or slow that same energy expands away from the center point of the source field is the Oscillation rate.



Rate of Frequency

The combination of both the pattern of Vibration (contraction) and Oscillation (expansion) speed is what determines the Frequency rate of all energy and things. As our personal, collective and planetary consciousness raises frequency, the matter world, including our physical bodies, also becomes less dense as our Frequency increases [1]

Vibration

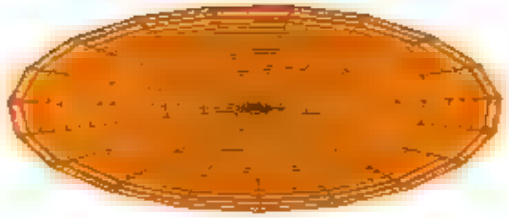
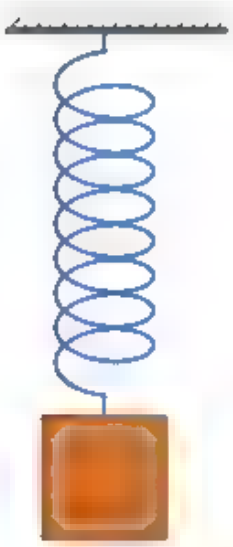
Vibration is a mechanical phenomenon whereby oscillations occur about an equilibrium or center point. The oscillations may be periodic such as the motion of a pendulum or random such as the movement of a tire on a gravel road. Vibration is responsible for the motion of a tuning fork, the reed in a woodwind instrument or harmonica, or mobile phones or the cone of a loudspeaker, and necessary for the correct functioning of the various devices.The study of sound and vibration are closely related. Sound, or "pressure waves", are generated by vibrating structures (e.g. vocal cords), these pressure waves can also induce the vibration of structures.[2]



Vibration Pattern of Circular Drum

Oscillation

Oscillation is the repetitive variation, typically in time, of some measure about a central value (often a point of equilibrium) or between two or more different states. Familiar examples include a swinging pendulum and alternating current power. The term vibration is sometimes used more narrowly to mean a mechanical oscillation but is sometimes used as a synonym of "oscillation". Oscillations occur not only in mechanical systems but also in dynamic systems in virtually every area of science: for example the beating human heart, business cycles in economics, predator-prey population cycles in ecology, geothermal geysers in geology, vibrating strings in musical instruments, periodic firing of nerve cells in the brain, and the periodic swelling of Cepheid variable stars in astronomy.[3]



Harmonic Oscillator

Law of Vibration

Beyond the material realm and into a realm in which everything is energy is the Law of Vibration. A Natural Universal Law that states that nothing rests, everything moves, every-thing vibrates which forms a Rate of Frequency. The lower the vibration, the slower the vibration, the higher the vibration the faster the vibration. The difference between the manifestations of the physical, mental, emotional and spiritual result simply from different levels of vibrating energy, or frequencies. So, while the feelings of fear, grief and despair vibrate at a very low Rate of Frequency, the feelings of love, joy and gratitude vibrate much quicker.

Consciousness is Vibration

Consciousness energy (vibration) consists of and is interconnected providing a distinct vibratory pattern and is immediately transmitted and received, with no concept of space or time when released into the universe. Consciousness Vibration is not limited to time and space. Vast amount of qualities of vibrational frequency exist as an ever present consciousness layer that exists in the entire universe. Everything in our universe consists of layers of vibrational frequency. If the rate of that vibration falls below or rises above a certain intensity, it becomes immeasurable or invisible to the basic human senses. This means it is beyond the capacity of the five basic senses, such as frequency rates outside of the visible light spectrum. That doesn't mean that Vibration or Frequency doesn't exist because you cannot sense it.

Frequency Waves

Frequency is the number of occurrences of a repeating event per unit time. For cyclical processes, such as rotation, oscillations, or waves, frequency is defined as a number of cycles per unit time.

Visible light is an electromagnetic wave, consisting of oscillating electric and magnetic fields traveling through space. The frequency of the wave determines its color: 4×1014 Hz is red light, 8×1014 Hz is violet light, and between these (in the range 4-8×1014 Hz) are all the other colors of the rainbow. An EMF electromagnetic wave can have a frequency less than 4×1014 Hz, but it will be invisible to the human eye, such waves are called infrared (IR) radiation. At even lower frequency, the wave is called a microwave, and at still lower frequencies it is called a radio wave. Likewise, an electromagnetic wave can have a frequency higher than 8×1014 Hz, but it will be invisible to the human eye, such waves are called ultraviolet (UV) radiation. Even higher-frequency waves are called X-rays, and higher still are gamma rays.

All of these waves, from the lowest-frequency radio waves to the highest-frequency gamma rays, are fundamentally the same, and they are all called electromagnetic radiation. They all travel through a vacuum at the same speed (the speed of light), giving them wavelengths inversely proportional to their frequencies.[4]

Spectrum of Frequency

Awareness of our Lightbody, the Human Energy Field and Spectrum of Frequency supports the beginning of understanding that all and everything around and within us is an Energetic Form and Vibratory Quality of Rate of Frequency. In our Ascension model we recognize and work with 15 Wave Spectrum of Frequency that correlate directly with the Universal Rays (See the Universal Time Matrix) and our individual Chakra systems.

Chakra Wave Spectrum

We are Pure Energy and Consciousness and with that there are very specific locations within our Lightbody that an individual's choice of expressing emotion, thought, memory and experience all contribute to the manifestation of experience and form into physical matter. This will help us to become self-sovereign within our personal power and responsible manifestors in the world of form thus experiencing a much greater range of joy and fulfillment in the unlimited possibilities of co-creation.

Religious Violence

The Rise of NAA World Religions, Armageddon Mind Control 1,700 YA Intentional spreading of violent world religions based on Satanic Blood Sacrifice, holy wars and worshipping Alien False Father Gods. Armageddon mind control linked to Atlantian Cataclysm and Human Genocidal Campaigns.

One of the largest lies promoted to divide our race is the War over Gods promoted through Religious Violence. Religious Violence is propagated by the NAA to generate Archontic Deception Behavior to meet the AD strategies used by Controllers to achieve total domination and enslavement of the human race and planet earth. Religious violence is promoted through Mind Control in the planet to trigger events into the Armageddon Software which is a NAA agenda. NAA Religion meets all Top Five Archontic Deception Strategy objectives

At this time our planet is undergoing stages of the Deconstruction of the Cross in our physical body, spiritual bodies and other matter life forms that have been impacted by crucifixion and Blood Sacrifice. This is effectively the remembering, thus the remembering, release and erasure of the memories of blood sacrifice SRA and spiritual vampirism and violence from the past, present and future timelines.

May we consider the source, origin and basis of Religious Violence and how violence and hate filled literature has impacted our culture, society and belief systems that transcend any and all Religion. Inner violence towards the self and others, promotes external methods of violence, there is no possibility of knowing God through intentional and premeditated violence, and the blood sacrifice of a human being. There is no such thing as a Holy War or Just War. For the last two thousand years the agenda has been to spread violent religions across the earth with the primary use of Christianity and Islam worshippers who are numbered in the billions.

May we consider long range impacts of religious violence and its subtext to the collective mind of humanity, in so that we may commit to remove all inner violence against our own person, to remove all violent thoughts, actions and deeds from our personal behaviors. The mass consciousness program towards committing violent actions, whether inner or outer violence, is made strong, and as we remember the Cross and what it has done to humankind, we can terminate all of its collective influence made upon our bodies, hearts, mind and spirit.

Alien Gods Crucifixion

The purpose of the artificial cross architecture (See Crucifixion Implants) is to enslave humanity through the violent crucifixion and blood sacrifice of their inner spiritual being or Christ self. Violent Religion was created by the NAA to keep these cross implants and their religious belief systems of Mind Control in place, so that, humanity would live in fear of the retribution from his False Father Alien God. This Archontic Controller mechanism (Archontic Deception Behavior was to keep humanity subservient to the continual feeding of their False Gods Vampires. One of the most prolific ways to feed the bloodthirsty vampires is mass killing in wars, especially in the name of God or religion. This is Blood Sacrifice which in all cases is Satanic Ritual Killing SRA which feeds Satanism as well as Satanic forces to spread on the earth. The NAA entities are in the majority a Satanic force, so this way of life of blood sacrifice is aligned to their vampiric killing mentality.

As the April and May 2014 newsletter is the massive topic of Deconstructing the Cross, this also peels back the many, many layers of which the Cross theology has promoted a spiritual disease into the subconscious and conscious human mind. The Cross theology is the basis of genocide, blood and human sacrifice through torturous death, and continual wars made in God's name. Humans have accepted this anti-human war agenda through Mind Control and mass deception around our true origins. None of this has anything to do with God or Christ, and is a NAA predator mind control program inserted to cause fear, violence and salvationistic worship of the Alien Gods, rather than support humanitarian and life giving value systems that would empower the entire planet.

Negative Alien Religions

One of the largest lies promoted to divide our race is the War over Gods promoted through Religious Violence. The false archetypal story of a Crucified Christ figure is a mockery to further enslave humans into believing in a salvation model through a Crucified Christ. It represents the tortured human being, as we are all the Christ, and we have been crucified, implanted as our planet was invaded. **These structures are called Crucifixion implants.** These Crucifixion Implants are tangible control structures placed in the 7th dimensional logos, and therefore it is in our individual bodies, in the 7th dimensional chakra, its complex, meridians, and the entire left side (our female spirit) of our bodies. We are not aware of these implants until we open the 7th Chakra Seal and start connecting this part of our 7th layer Lightbody to our personal consciousness field. This is a direct result of the Negative Aliens and the NAA strategy for enslavement through Mind Control.

Genital Mutilation

Satanic beings of the Negative Aliens groups are aware who controls the mind, controls the soul. By starting to implement religious sexual trauma and some form of genital trauma or Genital Mutilation as young as possible, they hope to fragment the mind as well as the soul. When a person is sexually traumatized, such as through the rape of a young child, it is the worst damage one can commit to the soul, and that act alone can fragment the personality into multiple personality disorder. When this occurs the Satanics can bind, Mind Control or use the person much more easily, and so the goal of

sexual torture and genital mutilation is mental fragmentation as well as soul fragmentation CIA programs test the use of sexual domination or torture, (such as MK Ultra) and use orgasm as a form of Mind Control as they are well aware of the power over the individual body and collective humanity to controlled subservience through acts of sexual abuse.

Sexually Barbaric Religions

The Jews were the first organized sexual barbarians having written it into their bible. The biggest single set of death penalty crimes are sexual in nature followed by a whole set of religious prohibitions. The Bible has been used to justify the most archaic beliefs and regulations about sexuality, and these views have been forced on millions of unwilling people, often by the most brutal means. (This is the Archontic Deception Strategy of the Sexual Misery programming.)[2]

"The homophobic, anti-women views of Judaism, compounded by the even more anti-sex ideals of Christianity, or more pointedly Roman Catholicism, poisoned with sin what was once a sacred and holy act for much of the ancient world. Religious texts, which billions claim as their holy books, are in fact violent hate filled literature themselves, calling distinctly for the murder not only of different cultures, but also homosexuals, rebellious children, unfaithful wives and others " The Christians naturally followed incorporating the old testament into their religious teachings with too many of their priests falling into the temptation to abuse their young charges Islam followed and perhaps they are the most barbarous of all having built their tradition on top of two sexually barbaric religions Pope Benedict XVI himself says the Catholic Church must reflect on what is wrong with its message and with Christian life in general that allowed for the widespread sexual abuse of children by priests [3]

Moral Implication

The relationship of Christianity and violence is the subject of controversy because one view is that Christianity advocates peace, love and compassion while it is also viewed and proven as a violent religion. Peace, compassion and forgiveness of wrongs done by others are key elements of Christian teaching. However, Christians have struggled since the days of the Church fathers with the question of when the use of force is justified (e.g. the Just war theory of Saint Augustine). Such debates have led to concepts such as just war theory Throughout history, certain teachings from the Old Testament, the New Testament and Christian theology have been used to justify the use of force against heretics, sinners and external enemies. Many have identified the Inquisitions, Crusades, wars of religion, and antisemitism as being among the most notorious examples of Christian violence. To this list is added warrior popes, support for capital punishment, corporal punishment under the guise of 'spare the rod and spoil the child,' justifications of slavery, world-wide colonialism in the name of conversion to Christianity, the systemic violence of women subjected to men. A broader definition of violence that extends the meaning of the word to cover up "harm or damage" that has been perpetrated, not just physical violence per se. Thus, under this definition, Christian violence includes forms of systemic violence such as poverty, racism, and sexism

Many authors highlight the ironical contradiction between Christianity s claims to be centered on "love and peace" while, at the same time, harboring a violent side. For example, that despite its central tenets of love and peace, Christianity—like most traditions—has always had a violent side. The bloody history of the tradition has provided images as disturbing as those provided by Islam or Sikhism, and violent conflict is vividly portrayed in the Bible. This history and these biblical images have provided the raw material for theologically justifying the violence of contemporary Christian groups.

In western societies the term jihad is often translated as "holy war" Scholars of Islamic studies often stress that these words are not synonymous Muslim authors, in particular, tend to reject such an approach, stressing non-militant connotations of the word. There is another word in Arabic that means struggle and is never used when referring to war Jihad, has by association been used in times of war more often.

Terrorism refers to terrorism by Muslim or individuals and motivated by either politics, religion or both. Terrorist acts have included airline hijacking, kidnapping, assassination, suicide bombing, and mass murder. As an ideology in the 20th century, only Communism, with its murder and mass killings, are responsible for more deaths and violence than is Islam. In terms of Islamic violence, both ancient and modern history are replete with Islamic intolerance and ensuing violence against every other ideology, such as modern violence against Western institutions, as well as historical violence against Hindus, and perpetual violence against Christians.

These conflicts are among the most difficult to resolve, particularly where both sides believe that God is on their side and has endorsed the moral righteousness of their claims. One of the most infamous quotes associated with religious fanaticism was made in 1209 during the siege of Béziers, a Crusader asked the Papal Legate Arnaud Amalric how to tell Catholics from Cathars when the city was taken, to which Amalric replied "Tuez-les tous, Dieu reconnaitra les siens," or "Kill them all, God will recognize his." [4][5]

Archontic Strategy

Religious Violence is propagated by the NAA to generate Archontic Deception Behavior to meet the AD strategies used by Controllers to achieve total domination and enslavement of the human race and planet earth. NAA Religion meets all Top Five Archontic Deception Strategy objectives.

The Top FIVE AD Strategies to generate more AD Negative Ego predator mind behaviors and spread their violent anti-human value systems in the human public are:

1. Divide and Conquer

2. Victim-Victimizer

3. Sexual Abuse and Sexual Misery

4. Child Abuse and Child Sacrifice

5 Misogyny

Reversal 55 Grid

The ES Website was manifested on 9/11, 2007 with special master code (re-encryption to distorted base code architecture in the controller grids) to override the 911 Timelines and its Morphogenetic Field grid connected to 3D Timelines and their grids 555 and 553. These are inorganic AI Timelines that are based on the Fibonacci sequence that manifests in Metatronic Reversal, reverse merkaba ratios based on mathematical doubling of harmonics related to number 5, used by Thoth Grids to hijack the DNA from the Astral fields and thwart the progression of Expanding Consciousness of the earth and humanity.

Fibonacci Formula for 55 Reversal

With the NAA invasion history and the war with competing off planet species writing code into the planetary Morphogenetic Field to modify human DNA, and to genetically manipulate the original divine human core manifestation body, the 12 Tree Grid, extradimensional entities used the Fibonacci sequence and created AI energetic wave spirals of which to hijack, siphon and steal energy from the planetary body and humanity. These artificially generated Fibonacci Spirals are inorganic, vampiric and created through Alien Machinery and AI technology. This is how the Metatronic Reversal fields were created, as well as the Adverse Sephiroth or Artificial Tree of Life that is represented in Kabbalah teachings, made popular by Black Magicians such as Aleister Crowley. The Metatronic code is based on two spheres of Bi-Wave Influences of the Vesica Pisces instead of the eternal life three spheres, or Trinity Wave. Metatronic code manifests reverse merkaba ratios which forces peoples Merkabas to spin in ways that prevents Ascension.

Metatronic Code

The Metatronic code is based on two spheres of Bi-Wave Influences of the Vesica Pisces instead of the eternal life three spheres, or Trinity Wave Fallen Consciousness, such as the Fallen Angelics and Imposter Spirits, are due to Metatronic Code configuration in the planet and is the result of excessive misuse of free will choice that opposes the divine plan and intention of God Source. In the cycles of evolution, the opposing expression reaches the point at which it jeopardizes the Eternal Life expression and continued existence of the Cosmic Order

Metatronic Reversal means to digress from the original Christos Divine Blueprint of the 12 Tree Grid and manifest Anti-Christ Life forms. When the original creation program of the Krystal Code from God Source is altered or modified in any way, the ability to self-regenerate and ascend is interrupted, leading to Fallen Consciousness and potential destruction.

Reverse Merkaba Ratios

Reversal 555 and 553 are the two timelines hijacked by the NAA in our 3D dimension to progress into the Alpha Omega or the 911 (Armageddon) Software. 55 and 53 are the fractional ratios which determine the spin of the electron vs.proton ratios in the merkaba. So it would be like seeing the two (2) tetrahedrons of the merkaba star, one on top spins clockwise and it spins at 33 1/3 ratio, see CW Male. The bottom half of the merkaba always spins counter clockwise and it spins at 11 2/3 ratio, see CCW Female. The spin rate creates the 45 degree repositioning of the body template, the 12 Tree Grid or Tree of Life. When we do processes this is coded into the shield and group work with Guardian support. (add the ratio of top and bottom spin and you get 45 degree) The 55 represents the distortion rate of spin at 55 degrees, that formula the NAA uses to horizontally position the timelines therefore the Consciousness or spiritual bodies away from the Krystal Star proportions, which interferes and blocks 10D Krystal Avatar communication. This is why reversal 10D comes out of Iraq-Iran Gate (10D Stargate) and infects the GEG which drills down into the timelines and people's consciousness of course. Clearly why there is so much war and bloodshed and animalistic mentality near the epicenter of reversal 10D transmission. Hitchhiking on the original timeline architecture of this dimension, these were/are manipulated by Alien Machinery related technology (and militarized technology such as HAARP, etc.) used to control and modulate the electron to proton ratio in the overall quantum field.

This forum thread explains the balance better, although it may be a bit lengthy read it has some good graphics which relate this concept of reversal at the electron-proton level well. [1]

Golden Eagle Grid Damage

The way to understand this is that this Planetary Grid Networks is a conscious living entity. This Consciousness grid, the Golden Eagle Grid, is literally the projected collective consciousness and blood of the Seraphim. The Founder races of the Seraphim gave their blood, their genetics, their consciousness to us, the human being. And they, in their love, became the guardians of the horizontals for us to reclaim our race back to Unity Field, the Zero Point Field. They are of the Gold Order, one of the Threefold Founder Flame Rays. The heart of the GEG is the Iran Gate or the 10th dimensional Stargate which directly impacts the functioning of our Solar Star or 10th Chakra in our personal Lightbody. Because the Solar Star is the main communication center for our Avatar Christ identity, the reversals on the planet are designed to damage this area of the planet, thus damage the individual human Lightbody from its proper functioning. This area of the Iran Gate is the Anubian Black Heart which is designed to run 10th dimensional current in reversal and scrambled frequencies (This is called reversal 10 current or Reversal 55 Grid), to block humanity from accessing their Krystal Star extra dimensional family. These reversal frequencies create a Frequency Fence and NET. The broadcast for the False AA Michael channeling are broadcast from here to manipulate the New Age agenda to serve the NAA purposes.[2]

Scrambling DNA Language

The Melchizedeks are of the 12 Tribes lineages of the Hibiru Tribes, who were given the genetic hosting responsibility to assist in the embodiment of the higher DNA language called Habiru. This language is a genetic code which originated from the Cradle of Lyra, in the Avatar matrix 10D timelines. The Melchizedek lines were attempting to salvage this ancient language of humanity on the earth, which was intrinsic to protecting the memories of the histories of humanity in time codes, also known as Vector Codes.Upon the Luciferian Rebellion the Melchizedek lines became infiltrated by the Luciferian forces. The primary infiltration was from Patriarchal Melchizedeks who developed a misogynist bent based on the distortions in the Sophianic Body. These lines started to lose their connection to the Mother principle from the many wars they justified in their beliefs that led them to commit intentional harm to others. This is the Fallen Melechizedek's, once a Universal Unity Field consciousness, a faction of this Melchizedek consciousness succumbed to the illusion of inequality between the Gender Principle. This led to a hive mind mentality, which is a Group Consciousness out of balance with unity. This patriarchal slant distorted the original 12 Base code (12D Ray) into 10 base code. This became the primary root of all control over the patriarchy, the masculine principle, the damage to rod function, the reversal 10-10 code or Reversal 55 Grid was born and brought to earth from this distortion. See Sephiroth.

Frequency Fences

What happens to a person who is on the spiritual path and they really truly are devoted and they really want to do this Ascension work they hit up against that Frequency Fence and it shocks them. When it shocks them they're thinking, 'What's going on I thought when I was connecting to God I would become more at peace, I would become more at one, I don't understand that I'm hitting something like a glass ceiling!' Every time it's returning karmic dusts and karmic exhaust back to me' That's exactly what this NET is doing it's called a bi-polar field or Reversal 55 Grid and it's a reversal pattern so that when a being starts to get at a certain development of their spiritual lightbody (Monad and above levels) they hit this frequency fence the frequency fence sends back karmic exhaust and the person is basically pummelled to the floor with the Miasma waste that has basically been laid upon them. That is what's happened to a lot of the Starseeds and Indigos on this planet that have been attempting to work through these fields and most of them that have encountered that have been really confused. They really have not understood what is going on, let alone not feeling too happy about every time you stand up you get hit and you know or every time you try to move into this next level there's something electrocuting you and saying get back in that pen because you're not supposed to be out of there. It takes a lot to get past that Reversal 55 Grid field that how that particular field is generated there's a particular circuit programme that the guardians call Nephilim Reversal NRG and this has to do with the histories of hybridisation and intentional genetic splitting. [3]

PEG Stargate 10

The main locational point of Planetary Invasion 5,500 years ago that gave the foothold of Hierarchal Reptilian Negative Aliens to wreak their enslavement agenda upon the inhabitants of this earth. The hijack of the horizontal grid networks of the Golden Eagle and Phoenix Grid were taken over to create a global brain hemisphere splitting, stage the takeover of the global brain that has led to the Mind Control programming of the people of the earth. These races divide into two major agendas, the Luciferian Annunaki, a hive mind hierarchal reptilian mentality, and the Satanic Black Sun, a materialistic individualist race of misogynist war mongers. Both groups of intruders subscribe to patriarchal domination through elitist mind control agendas, such as the Illuminati, that employ military warfare and technological strategies to program, enslave and torture the inhabitants on the earth through war and enforced killing. These beings have stolen the consciousness field technology through reversal code programs to create the anti-Life or death programs on earth, to bind the planetary soul (human collective) to serve their Satanic and Luciferian agendas of current time and future time planet enslavement. [4]

Reversal Networks

A Reversal Networks are collecting life force from the collective fields of all earth inhabitants, and creating more black force and miasm in the planet by sending energetic currents into reversal patterns and synthesizing them into AI machinery on the planetary grid network. We can refer to that reversal pattern as an anti-life pattern, which also means the anti-Christ pattern. When collective life force is moving in the reversal patterns, it creates blockages that disconnect that person from the organic supply of eternal energy that is accessed within their own spiritual body. Instead, that life force energy is being collected and harvested for certain preferred groups on the earth, generally for those who keep the reversal networks running for the NAA. As an example, the NRG grid is a harvesting station of global life force that exists in the center of the United Kingdom. As the Albion body awakens, it starts to disrupt the function of this specific reversal network and it gradually collapses sections of its operational structure. Additionally, there are many Black Heart Reversal Networks scattered in the main cities, generally the bigger cities on the planet throughout the earth. Black Heart Reversal Networks feed into other types of alien architecture designed to oppress the collective consciousness, such as binding planetary crucifixion implants in a geometry pattern called the Rosy Cross. Reversal Networks are held on the planetary grid by bi-wave geometry systems, that run on the low frequency energies that are generated in the masses

In our planet today, we have levels of geometric architecture that are based on bi-wave geometry, that have been installed in the planetary brain to create static NETs and reversal fields. The Artificial intelligence architecture is synthesized into the planetary field in order to collect energy, harvest it, and sends it to off-planet sources, or to their preferred people here on planet Earth that are carrying out their control agenda. So those energies are collected and basically given, with preference, to humans or nonhumans that serve the control and enslavement agenda. As Reversal Networks are gradually taken offline, the feedline of the parasitized energy throughout the food chain stops, essentially starving them by denying them access to the collective human power source. Although this is very positive for the planet and the collective human consciousness, it escalates the forces of chaos in the field from desperate entities

Galactic History Summation of Root Race Seedings

SEEDING ONE- The 7D Earth

- Huge war broke out over this First Root Race Seeding cal ed the Electric Wars, it was a conflict over the dominion of the Earth Rea ms and Human (Christ) Kingdom Race War Confl cts ensued over the genetic mutations and damage that was caused by explosions and other races subsequent evolutionary and genetic d gression. E ohim and the Founders re-negotiated to ensure that Human species evo ution would continue but would be sealed off from the higher realms as to protect the higher dimensions and entities from all of the distortions and genetic mutations that had occurred in the Human Race. Humans would have to clean up their mess to be allowed access to their Cosmic Families again Our bodies were sealed off and we were separated from our 12 DNA consciousness, and this distortion to us created a separation between our antiparticle and particle selves meaning we now experienced separation and dua ity
- Many more distortions to Human species blueprint and consciousness occurred through subsequent seeding and evolutionary rounds This also meant we would experience separation and awareness of the other aspects of ourselves including our light body layers To begin the heal ng of our fragmentation we would beg n by unifying our stations of identity and its layers of consciousness through the time fields (dimensions) During our repeated incarnations we would beg n the unification of our consciousness by starting to draw in our Lemurian fragments in through our 2D/Chakra 2 and our At antian Fragments through our 3D/Conscious Minds. The human 4D Astral body would also draw in 3rd and 4th Root race Fragments, as a part of the separated emotional body that was created from these distortions in our morphogenetic fie d blueprint from DNA damage. So another task for human race is that we are responsible to collect the fragments of ourse ves from the other root race cycles and seed ngs

SEEDING 2 – The 3D Earth

- Sirians (Sirius B) Hosted this Seeding of Human Race – Eye of Horus a Stellar Bridge used to bring in consciousness to incarnate
- Root Races 3-5 attempted to seed onto the Earth Melchizedek Race Families came in to he p to repair genetic digression around this time approx mately 35 000 years ago Violations by the Incarnated Me chizedek's using Earth portals incorrectly around the Egyptian Dynastic timeline unleashed a lot of Dark energies onto the Earth surface Th s was not purposed by the Melchizedek's as it was a part of their intended plan to integrate the Annu template from the damaged planetary fie ds that had resulted from the Atlantian explosions of the grids during the previous Root race seed ng Unfortunately there were some m sca culations and other genetic issues that raised a serious breach of planetary templar security (The Templar is the Stargate Portal System of the Earth that opens into the 12 Dimensiona Leve s of the Universal Time Matrix) For this violation seals were placed on the 6th and 7th dimensional access in our DNA coding preventing physical ascension out of this realm This became a curse on Humans as it was genetically inbred through the generations When the human consciousness was no longer a threat to the P anets or Universal Security the Sea s are lifted and assistance is given to release them
- During the end of 2nd Seeding the Annunaki started breeding with Humans and a race called NEPH L M was created Th s was not agreed upon to genetically tamper with the human race and the Elohim wou d not let this race walk on or be on the Earth Th s created a Conflict and another War broke out This created the war with the Annunaki and other Annunaki sympath zers such as the Dracs and Sirian Annunaki Hybrids The War ended this seed ng attempt and we reorganized for the next Evolutionary Round

SEEDING 3 –3D Earth

- We are in the 5th Root Race Cycle and are here to heal and unite with a l of our Fragments from the previous Root Race Cycles and well as to activate our 4th DNA STRAND

Sacred Crystal Heart

During this time, it is of critical importance to explore and understand the workings of our Sacred Crystal Heart, our pure heart, which holds the feelings and language that communicates directly with the God Source and gives us the gift of experiencing unconditional love and peace. When we recognize an energy signature around us and we can deeply feel and sense something with greater awareness, this is the sacred heart resonance at work. Sensing and feeling energies are the higher functions of the heart complex, and the way that the heart, as an organ of perception, should be functioning within all people.

Thus, the most important organ system and spiritual lightbody component for every person on the earth is their Sacred Crystal Heart complex, which functions to receive and transmit the omnidirectional forces of love, and through which the inner wisdom of cellular knowing arises. All of us have an inner compass that is our spiritual guidance system that is based in the forces of love flowing from within our heart complex. Our Sacred Crystal Heart will lead us to safety and it will make the best choice for us at any given time, if we can quiet the mind and indeed listen to it. The crisis humanity is facing is the crisis of consciousness that is generated from a lack of love and from closed down hearts, as well as a lack of self-awareness to know what deeply motivates our behaviors. Through the opening of our Sacred Crystal Heart, we also gain increased knowledge of health through sustaining energetic balance, which serves as the healing force we transmit to become the true agents of spiritual healing in this world.

The forces of love are one with the Eternal God Spirit that resides within our Sacred Crystal Heart and are without exception, the strongest healing and harmonizing forces available on this planet. By finding the true love that exists from within the self, the crystal heart complex is activated from within the lightbody which is further designed to attract and embody the highest qualities of soul-spiritual intelligence.

The earth body functions as the Sacred Crystal Heart complex for the entire Solar System, and thus it is more important now than ever for humanity to consciously work to open their hearts in order to elevate the entire planet, which even raises the consciousness in the worlds that exist beyond. During the Ascension Cycle, as humanity raises and expands collective race consciousness, the impacts ripple out to influence the neighboring worlds and other species. To open the crystal heart means to devote oneself to learn how to be Love, loving ourselves, loving others, loving the earth and her creatures. The soul groups that incarnate on the earth receive the planetary DNA imprint that holds unique heart configurations in their individual lightbody that are based upon the diamond sun template and contain the Cosmic Kristos heart principle. The physical DNA which has been modified through alien hybridization in the lower dimensions, through direct physical genetic manipulation, can be corrected. The heart complex can connect with the higher spiritual intelligence and override these distortions by spiritualizing the emotional body into a soul. This is true for all reptilian and mammalian DNA even when they represent diametrically opposing principles. This potential remains dormant until the individual makes a choice to evolve towards being more awake and more loving, seeking a meaningful relationship with All-That-Is. The Cosmic Kristos heart principle is gender based and generates the inner and outer heart flame twinning, a male and female heart complex that unites in order to merge into Oneness. This can be achieved through the biological spiritual ascension process on the earth which naturally evolves into inner heart flame twinning between the gender principles, circulating and generating forces of omnidirectional love through hierogamic union.

During spiritual initiations that are occurring more rapidly during the shift, the most critical aspect of awakening is to learn how to open the crystal heart and to get comfortable with a widening range of emotional spectrums by resolving emotional conflicts. When we open our crystal heart, we begin to work with spiritual powers which are sentient living

Sacred Geometry

Sacred Geometry is the building blocks of the Blueprint of all of creation form the unmanifest to manifest worlds and is the basis of all form and Consciousness. Sacred Geometry is the pattern of Consciousness that expresses itself in numbers On every scale from the Quantum Mechanics to the massive planetary and celestial bodies, every pattern of growth, change or movement will conform to the mathematical precision of one or more geometric shapes. Sacred Geometry is an ancient metaphysical science that explores the mathematical patterns that are inherent in creation and reveals the precise way that the Universe organizes itself Sacred Geometry reveals the underlying connection between all things in the form of math, numbers and geometry that proves the hidden order behind creation in Divine Infinite Calculus [1] When we have a greater understanding that "God is Math", and Sacred Geometry is the language of the Universe and behind all form in creation, it creates a cosmology of unity, rather than the perception of separation. The 12 Tree Grid and the basis of the Universal Time Matrix are based upon sacred mathematics base 12 (Trinity (3) times Universal Prototype of 4 12) which encode the blueprint of the Consciousness experiences throughout multidimensional space and time. The experience of Sacred Geometry through meditation or contemplation is essential in revealing the nature, purpose and necessary education of the Soul. Our unique soul pattern holds mathematical patterns and geometric forms which dictate the pattern of our consciousness When we study these structures of awareness we gain deeper insight to these mathematical patterns and codes which reveal the symbolic nature of our relationship to ourselves, reveal our relationship to the Universe and God.

Everything has a pattern which is the basis of a blueprint and is the key to creating specific experiences and effects in our consciousness or perception. When we study forms that we see in the natural change and movement of the natural kingdoms, when we study the geometry inherent in nature, it will inform us greatly of how nature works. All forms are brought forth in the Gender Principle of Creation, the Mother principle is Matter, and the Father principle is the Pattern, together through their mating everything is created

Black Magic Hijack of Creation Symbols

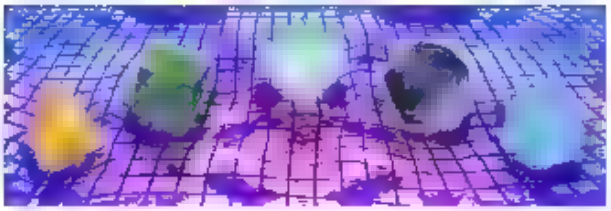
For every lightworker, it is critical to discern the quality of force that is behind the use of symbols, codes or geometries, as the intent infused into the symbol is energized with the quality of force that the person is applying into that symbol, as well as for what purpose they use that symbol or code. On the earth, the NAA have done everything possible to associate

creation symbols, symbols that are pure consciousness energy, and distort and debase that energy into reversals, in order to destroy creation and destroy life. The Imposter Spirit has purposely usurped many holy symbols and sacred geometry for the main purpose of creating confusion and fear in the average mind, and to associate negative qualities with creation symbols and holy presence. The main purpose of the Satanist or Luciferian is to destroy the original intent of creation codes, such as Sacred Geometry in so that the human being will be so filled with fear and confusion around sacred symbolism, they will develop spiritual terror and run away from them as to not "offend god". This is the ruse of the Satanic forces, who want to steal creation and life force away from humanity, and thus steal the inherent knowledge of humanities own consciousness bodies away from them. Hence, as an primary example, the Star of David is used in Black Magic by people that have been taught to defile its true meaning in occult rituals by the Imposter Spirit and NAA. This is to prevent the true meaning of its use to inspire unity in human beings.

Vesica Pisces or Dyad

The Principle of the Vesica Pisces geometry is bi-wave or polarity. The overlapping space between the two spaces of polarity is known as the cosmic womb and is the Mother principle in creation. From the cosmic womb, everything else emerges, the rest of the geometric principles and shapes and numbers are born. The process of Polarity Integration is the process of merging the duad from the extreme of opposite poles in an attempt to attract to each other in so a merge may occur and return the poles into the state of balance and unity in triad. The triad or tri-unity is the symbolic base of our divinity. The wholeness of the Universe is a Triad (See Threefold Founder Flame) that mediates our return to energetic balance and transmits the Sacred Geometry which brings forth our inner perfection and completion that perpetually returns us back to the Godhead.

Platonic Solids



Platonic Solids

The Mystery Schools of Pythagoras, Plato and the ancient Greeks taught that these five solids are the core patterns behind physical creation. Four of the Platonic Solids are the archetypal patterns behind the four elements in all creation, Earth, Fire, Air, and Water. The fifth pattern was considered to be Universal Substance of creation and in some Mystery Schools was considered the fifth element of Aether. The fifth solid is the dodecahedron and its usage in the material world was closely guarded as it was felt to be dangerous if it was misused. We are acutely aware the NAA and many of the Illuminati lines has misused these as forms that are the basis of reversal ten structures that have been placed on the earth as Mind Control matrices. These are called reversal 55 Grid and appear as dodecahedron shapes, they are a part of the reversal matrix used by Service to Self entities. Hence, in our model we came the dodecahedron as the elemental matrix substance used to form time and space. Through Hieros Gamos the upgrade is the Star of Azoth to the Krystal Star Seven Sacred Suns which hold the Cosmic Aether component for our connection and communication which is fully governed by Cosmic Sovereign Law and the Krystal Star host. The Cosmic Aether or Mothers Quintessence manifests itself into any geometrical wave pattern and breathes life into it creating offspring, multiple fractal patterns of spirals that are creations birthed into form matter

Platonic Solids arrange themselves in fractal patterns that weave a Morphogenetic Field into a Blueprint that manifests a matrix in space which interconnects atoms with the Stars in their celestial patterns. The scale of the platonic solid shapes are different but the ratios between them are the same geometries which follow the same holographic patterning, this is following the Hermetic principle of "As Above, So Below". These celestial patterns are called the Gate of Man or The Silver Gate which is the annual movement of our Sun on an elliptical path through the constellations, moving over many thousands of years in evolution cycles called the Precession of the Equinoxes. The Universe moves and evolves through

spirals, all opposing polarities resolve in spiraling into balance, as balance between polarities can be made visible in the spiral movement. The movement of spiraling energy has the center core which is called the eye, in the eye of the spiral is the absolute zero, neutral or calm center. This core center in the spiral of consciousness exists in all living things.

Fractals

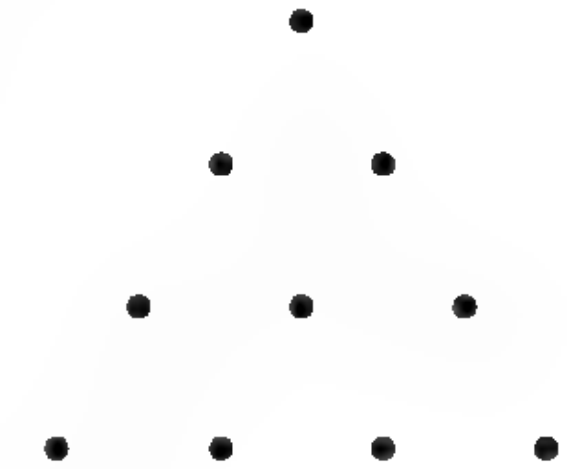
A Fractal is a repetitive geometric pattern that can be scaled to any size, extremely small to large. The scale may change but the ratio remains constant. The same repetitive patterns that are found in the Platonic Solids that fit within each other are fractals. That fractal pattern is what shapes the atom, the smallest unit of matter that defines the chemical elements. That same atomic structure behind the fractal pattern is what shapes our planets, stars and the Universe. The inner structure of a fractal is reflected identically in its outer structure, it is the same geometric pattern repeated. A fractal means fraction which indicates that it is a fraction of the all, each piece is holding a reflection of the part of the whole. The fractals of the Electromagnetic Field energy interconnect with everything through multiple layers of Morphogenetic Fields repeating their fractal pattern in many dimensions within the Universe and are the basic building blocks of the Holographic Universe.

Seven

The heptagon which is based on the number Seven (7) cannot be born through the Vesica Pisces or Dyad of two. This is why Seven is considered a sacred number for contemplation, an important number that cannot be divided and cannot produce other numbers. Nothing in the natural matter world creates seven sided geometries. The human body has seven main primary chakra layers, and seven sets of endocrine glands that connect into these seven Chakras. Seven is the dimension of the Planetary Logos of which we were designed to harmonize the musical notes of the body with the musical notes of the Seven Spheres (Seven Solar Planes) to progress our Consciousness through the stages of The Silver Gate to reach The Golden Gate of spiritual Ascension.

Tetractys

The Sacred Decad (10) or Tetractys symbolize the Four Living Creatures and the elements that made them through the Prima Materia, fire, air, water, and earth. This also intersects into the four quadrants of cardinal directions and represents the divine calculus of the Universe. The Sacred Decad geometry is held within the Ophiuchus constellation transmission (13. 4) which represent the organization of dimension and space in the Cosmos



Tetractys

- the first row represents zero-dimensions (a point)
- the second row represents one-dimension (a line of two points)
- the third row represents two-dimensions (a plane defined by a triangle of three points)
- the fourth row represents three-dimensions (a tetrahedron defined by four points)[2]

Four as the Universal Prototype

According to the Pythagorean symbolism in the Tetrad, Four is considered the root of all things and the source of all nature. It is the number of numbers because The Sacred Decad or 10, includes 1, 2, 3 and 4, because it is a symbol of the four of the first four numbers. The tetrad connects them throughout all numbers, elements, and temporary structures which manifest as recurrent cycles in time. A Master Builder or Mason is quantified by the number 22, which when broken down aligns back to the structure of Four. The Master Builder sees the archetype, and brings it down to earth in some material form. The Universal Prototype in the Law of Structure related to the Four is revealing its truth to us now. That which has been created with falsified archetypes or with deception is being destroyed. While that which holds the sacred and perfect number of the Universal Law will remain and reveal its truth. To consider the importance of the Four as the Universal Prototype in the Law of Structure, there are many aspects in creation[3].

Secret Space Programs

Abbreviation - SSP

Secret Space Programs that are involved with planet earth have been in existence for eons of time and have many different objectives and agendas, both human and non-human. Since the Luciferian Rebellion and subsequent Atlantian Cataclysm, the Secret Space Programs were managed by off planet earlier human civilizations, and the Annunaki and Nephilim hybrids who managed their negotiations with a variety of many other extraterrestrial and extra dimensional species. Some of the humans that were on the planet or Tara during the final Atlantian Cataclysm left the earth and went to other planets and became what is called the Solar Lords or the basis of the Solar Wardens. These offshoots also formed a variety of Galactic Confederations, and the Solar System was an outpost for many visiting races that would communicate with these Confederations that functioned as a typed of United Nations Assembly for the Solar System. The centralized races of the Annunaki, along with their Nephilim hybrids, exist within and are gatekeepers of the 4th dimension which is the main dimensional access to our Sun (So.). They started to contact and negotiate treaties with the 3D world governments at the turn of the Century. These treaties have to do with bartering exchanges of planetary goods, natural resources, elements and compounds, and materials that can be taken off planet. That included supplying numbers of human adults and children that the government agreed to barter exchanges for abduction, work camps, sexual slavery, forced breeding, genetic experimentation, genetic augmentation, and Secret Space Programs. Those that were genetically enhanced or had special skill sets, such as high psionic ability, were trained to be placed in a variety of military positions and, or for other functions, such as work as scientists, engineers, geneticists, as well as study these experiments in high tech laboratories. In exchange for abducting human beings, these Megalomaniac government leaders would be given access to extremely advanced off planet or alien technologies, spacecraft blueprints, militarized weaponry, zero point power source technology and so forth.

Black Operation Timelines

During the time that Franklin D. Roosevelt was President (1933-1945) several species of Grey Aliens contacted all the major world governments and made secret treaties with many of them that were inherently conflicts of interest, but they had no intention of honoring any of these agreements. This was the Archontic Deception Strategy to create suspicion, disinformation and spread confusion among the world governments to lead them to war with each other. The leaders would not share information in most cases, and different types of technology and militarized weaponry was given to

different countries or militant sub groups. The intention was to incite continual World Wars, which is the strategy of divide and conquer the human race, keep them busy and suck every last drop of resource from the earth and from human beings. This is a strategy of handing a chimpanzee a machine gun, the Negative Aliens understood that these world governments would abuse their power, create wars and genocide to conquer territory, and thus make invasion of the planet much easier through a human self enforcement slave society based on increasing practices of barbarism. The barbarism practices are straight from the mind of Alpha Draconis/Orion Group and the Predator Mind of these dominating tyrant aliens, who are extremely developed Psionics entities, would mind control and download their thought forms and group conquering objective to the minds of the world leaders and the militant organizations, especially the fighters.

Roosevelt did not enter agreements, but Churchill did, offering the children and adults to be used for abduction and experimentation for a variety of off planet alien projects. They agreed on 5,000 people and more than 50,000 were abducted. Churchill knew he made a deal with the devil. (Minister of Defense and Prime Minster to United Kingdom 1940 to 1945 and again from 1951 to 1955) After World War II, he was aware of the Nordic Aliens involvement with Hitler Nazi regime, and every last marketing propaganda was created to hide alien invasion until they reasoned, they could get this problem under control. This resulted in the creation of a variety of shadow government organizations, such as Secret Space Programs that were designed to combat this issue, while maintain ultimate secrecy under death pacts in order to hide the Negative Alien Agenda NAA.This is the primary causation timeline where the multiple black operations really started to happen across the world, and are still active today.

After Roosevelt died in 1945, Harry Truman took office. Nazi Germany surrendered a few weeks after Truman assumed the Presidency. Following the war, Truman assisted in the founding of the United Nations. He oversaw the creation of NATO in 1949. What the public did not know is he established UN and NATO organizations with artifacts and assets collected through the surrender of Nazi Germany. These assets were used to finance and establish the Secret Space Programs that were hidden from the public for off planet bases to keep territories stable, as he was aware of the alien "problem". In August, after the Japanese government repeatedly refused surrender demands, Truman authorized the atomic bombing of Japan. The atomic bomb was the brainchild of a team of scientists that were given asylum from Nazi Germany, later called Project Paperclip. Operation Paperclip was the Office of Strategic Services (OSS) program in which over 1,500 German scientists, technicians, and engineers from Nazi Germany and other foreign countries were brought to the United States for employment in the aftermath of World War II [1]

Eisenhower Legacy

After World War II, Dwight D. Eisenhower served as Army Chief of Staff under President Harry S. Truman then assumed the post of 34th President of the United States from 1953 until 1961. He was a five-star general in the United States Army during World War II and served as Supreme Commander of the Allied Forces in Europe. In 1951, he became the first supreme commander of NATO, where he was briefed on the alien invasion problem and involved with organizing several branches of Secret Space Programs and met with a variety of alien species. Eisenhower is the the main architect and Father of the Secret Space Programs, although without his leadership, many failing organizations had no accountability to their actions and infighting between the organizations spread. This lack of transparency and continued deception between the ranks of information access, spread corruption, greed, mind control and horrific crimes against humanity. These crimes include hidden agendas designed to maintain aggressive domination, enslavement and genetic modification and mind control over the human population. Alien and advanced technology was hidden by the Power Elite and taken off planet, which fell into the hands of corporate greed and power mongers. The same human and non-human entities who succeeded in takeover control of the planet are those which broke up these main organizations into several "breakaway civilizations". These are the Power Elite humans that sold the rest of us out to the NAA as their private pets to torture, abduct, kill and experiment on at will.

Valiant Thor

One particular visitor with Eisenhower, Valiant Thor from Venus, was living in the Pentagon for three years (1957-1960) He was interrogated for military weaponry and technology, and took part in several of the meetings to brief the Joint Chiefs of Staff, one such being Vice President Richard Nixon at the time.

Jill Donn and Val Thor

Soon after his arrival, together with three members of his crew, he joined a convention in the back yard of the home of Mr Howard Menger in High Bridge, New Jersey. The month was April, 1957. A certain group of individuals who were interested in UFOs were meeting that day. Val and his crew members, Donn, Jill and Tanyia, had changed into the same type of clothing worn by their Earth friends. The meeting was very interesting and these people were on the right track. He was dismayed to learn the undignified manner in which these people were treated by the press [2][3]

"The landing of Valiant Thor was perhaps the first documented landing of a human-type alien by military officials. He met with President Eisenhower and Vice President Richard Nixon for an hour, then the alien was put on VIP status and shuttled back to the Pentagon." –Harley Byrd, Project Blue Book, Division of United States Air Force

MILAB

This is short for Military Abduction MILABS A deceitful military operation performed to convince the targets of the operation that they have had an encounter with extraterrestrial beings which is actually a staged ploy.[4]

DARPA is the organization that holds onto the MILAB projects. Most of the abductions and injections are given via out side doctors well away from the main operations employed by the many levels of organisations. Mind control, intimidation and torture is used by these doctors as a way of controlling the person. Over periods of time, this fragments people as when you torture people, they end up fighting back regardless of what technology or medication is used to control them. Scanning of MILABS for special projects is done on and in military bases, one such base is Wright-Patterson Air Force Base in Dayton, Ohio. Some MILABS get filtered and are used through out the western world for carrying out dark operations and space applications. Some are mind controlled to carry out covert operations that are made to look like an accident to the public and reported as such by the media, these are called Sleepers [5]

DARPA

The Defense Advanced Research Projects Agency (DARPA) is an agency of the U.S. Department of Defenser esponsible for the development of emerging technologies for use by the military. DARPA has been responsible for funding the development of many technologies which have had a major effect on the world, including computer networking, as well as NLS, which was both the first hypertext system, and an important precursor to the contemporary ubiquitous graphical user interface.

DARPA began as the Advanced Research Projects Agency (ARPA) created in 1958 by **President Dwight D. Eisenhower** for the purpose of forming and executing research and development projects to expand the frontiers of technology and science and able to reach far beyond immediate military requirements. The administration was responding to the Soviet launching of Sputnik 1 in 1957, and DARPA's mission was to ensure U.S. military technology be more

sophisticated than that of the nation's potential enemies. From DARPA's own introduction: *DARPA's original mission, established in 1958, was to prevent technological surprise like the launch of Sputnik, which signaled that the Soviets had beaten the U.S. into space. The mission statement has evolved over time. Today, DARPA's mission is still to prevent technological surprise to the US, but also to create technological surprise for our enemies.*[6]

Milab Whistleblowers

In 2014, a whistleblower surfaced and began to share his experiences to the UFO and exopolitics communities due to his claims of having worked with a number of secret space programs.

- The first interview with Good ETxSG, a male in lab, MK Ultra whistleblower from the Secret Space Program. His revealed identity is Corey Goode who went on with David Wilcock to produce the Gaia show Cosmic Disclosure.
- The second interview series is quite disturbing about the reality of milab assets under certain Black Op groups. The level of technological mental and spiritual control now exercised is horrific. How Starseeds are targeted to be black op milab assets.[7,8]

Comments on the topics discussed are:

- AI technology and worries of its infection into other technologies and humans
- Different ET races in large UN type meetings where he was present to observe and then be debriefed on various ETs intentions etc
- Roswell incident a Trojan horse to bring in alien technologies for eventual control system set up
- Humans and many others being manipulated by some higher group or ET
- Once we think we know the answer or who is running the show in this hierarchy, we discover there is another higher level
- Endless "experiments" with the human race for hundreds of thousands of years
- Milab programs
- Negative Aliens and AI parasites -SPE
- Avatars
- Black Magic and metatechnology
- portals and dimensional doorways
- The cult of the Black Sun Program control

More recently, he has become a contactee with a powerful new group of extraterrestrials, Blue Avians, that have entered our solar system. Using the online pseudonym GoodETxSG, the whistleblower (who announced yesterday that his first name is Corey and that he will soon end his anonymity) has described in interviews and posts on two major online forums his former covert background with a number of secret space programs run by various military, corporate and earlier human civilizations. He says that contrary to widespread perceptions in the UFO research community of a single Secret Space Programs belonging to a breakaway civilization, that there are in fact up to ten breakaway civilizations indigenous to Earth. Each of these breakaway civilizations, according to GoodETxSG, Corey has their own secret space program. He says that there are currently three major secret space programs belonging to various national and international entities on Earth. One of these is a large corporate entity similar to what was described in the movie Avatar.

The other two are multinational covert space programs that are similar to NATO in their manner of operations and activities. In addition, he says that there are between 5-7 secret space programs belonging to earlier breakaway civilizations on Earth including Nazi Germany, and another dating as far back as an astounding 500,000 years ago! Adding another level of complexity to what is really happening with the various secret space programs, GoodETxSG says that off-world extraterrestrial civilizations interact or collaborate with one or more of these secret space programs. In a comment responding to the claims of another alleged whistleblower from a secret space program, Randy Cramer (aka Captain Kaye), GoodETxSG summarized the complex situation

"There are many who have been a part of the 3 Separate Secret Space Programs that are independent of the Secret Earth Governments (One of which is a powerful Interplanetary Corporate Conglomerate that owns most of the Mars Bases). There are also 5-7 "Ancient Earth Break Away Civilizations" that have Bases here on Earth. All of the groups mentioned above are "Allied" with various and different Off World Entities and UN Type Federations both with the "Human Like ETs" and the "Non-Human ETs" (All with DIFFERENT Agenda's). There is also a Shadow Civil War going on among some of these Secret Space Programs and their "Off World Allies" to end control of the Secret Earth Governments using the "Babylonian Money Magic Slave System" to control Earth Humanity "

A significant point concerning security in GoodETxSG's postings is that concerning the threat posed by artificial intelligence. According GoodETxSG, artificial intelligence (AI) has been developed by multiple extraterrestrial civilizations that have created synthetic AI humanoids, only to have them turn against their creators in a manner similar to what was depicted in the remake of the television series, Battlestar Galactica. Consequently, all secret space programs have created security procedures to identify individuals displaying evidence of AI influence.As a last resort, individuals trained as intuitive empaths were employed to identify AI influence as well as any form of deception. This was the main job that GoodETxSG says he performed during his 20 year tour of duty

More recently, GoodETxSG claims that up to 100 spherical ships have entered our solar system possessing technology far in advance to anything used by the different secret space programs and their respective extraterrestrial allies. GoodETxSG says that extraterrestrials from this "Sphere Alliance," have been physically contacting him and other private individuals to disclose information about major new events that will profoundly change life on Earth. He says that this Sphere Alliance is assisting humanity in breaking free of the control exerted by powerful elite organizations on Earth, what he calls the "Babylonian Money Magic Slave System "GoodETxSG's claims that he and 70 other private citizens were recently taken to a secret space location for an "Alliance Conference" where along with about 120 others representing the different secret space programs, the Sphere Alliance revealed some of their plans. Among the extraterrestrials from this alliance who interacted with the conference delegates, according to GoodETxSG is a "Blue Avian" race up to 8 feet tall, and a taller 10 foot thin golden brown being with triangular head and blue eyes. The Sphere Alliance apparently is intent on helping bring about full disclosure of extraterrestrial life.

GoodETxSG has been sharing his information with David Wilcock who apparently vetted GoodETxSG with other confidential sources and found him to be credible. Wilcock has subsequently incorporated GoodETxSG's testimony into a number of public presentations attempting to outline the full complexity of issues concerning secret space programs and visiting extraterrestrial life. Wilcock is a major proponent of the idea that extraterrestrial disclosure is imminent due to the collapse of the elite control system that has been in place for centuries. He accepts GoodETxSG's information as validation for his optimistic pro-disclosure position. Before offering my own evaluation of GoodETxSG's claims, it's good to review what is known about his recent public activities. GoodETxSG first became widely known because of two audio interviews he did that were initially promoted through the Project Avalon forum in Oct 2014. He previously had been a long time member of Project Avalon where he had shared personal information, but not his covert background in various secret space programs. That changed in Sept 2014 when he consented to do an informal sit down conversation with a Project Avalon member on behalf of the forum's founder Bill Ryan. The conversation was intended to be used solely for Ryan's personal research but GoodETxSG was persuaded to have it published on Project Avalon with the proviso that all steps would be taken to keep his identity anonymous. While this introduced a wide audience to GoodETxSG's experiences with different secret space programs, this ultimately led to his identity being exposed on the forum, and ultimately a break with Ryan and Project Avalon. Currently GoodETxSG's is posting on a new forum, "The One Truth," where he is answering questions and informing members of new developments. He also has a website which has much of the information he has shared on the two forums here http://goodetxsg-secretspaceprogram.blogspot.com/

Silicate Matrix

Original human genetic imprint designed to manifest 12 strings of DNA which would allow for inter-dimensional travel and existence without deterioration of the biological form. It must be repaired, built or activated.

The original angelic human 12 Strand DNA is called the Diamond Sun DNA. The Oraphim original prototype for angelic humans that was created by the Founders has a 24 Strand DNA and is called the Double Diamond Sun Body DNA. Further there is a 48 Strand DNA Founder race line called the Emerald Sun DNA. See Threefold Founder Flame or Emerald Order

It is important to be aware that there is always support given for DNA rehabilitation programs for achieving Ascension, in that fallen entities, such as the Annunaki Hybrid Fallen Angelics can choose to clear their DNA distortions and cellular alphabet scrambling that run metatronic and anti-life reversals. An incredible amount of resources and effort has been made by the Guardian Host to assist fallen and digressive DNA lines to rehabilitate their genetics through rehabilitation and regenesis programs.

Spiritual Purpose for DNA Assembly

Previous to the Atlantian Cataclysm, each of the groups of the angelic human 12 Essene Tribes were entrusted as Guardians of a section of the Emerald Founder Records, which held extensive consciousness knowledge about the star origins and genetic template information that was recorded on 12 holographic discs.

All 12 genetic components of the 12 Tribes hold one strand of DNA code for reassembling the crystal gene for the Diamond Sun body or Silicate Matrix, that is key coded to activate the 12 layers of the planetary stargate system. This provides the means to contact our higher Stations of Identity as spiritual bodies, and to connect with the conscious living light and sound frequencies in the holographic matrix. The instruction sets to rebuild and reassemble the 12 Strand DNA pattern, are held in the genetic keys found in the Cosmic Kryst-Krystal.ah blueprint which makes up the 12 Tree Grid manifestation template.

Through the individual and planetary spiritual Ascension process that takes place during several root race evolution cycles, the integration and healing of all 12 levels of DNA coding through its genetic components potentially unite and merge to form the complete Silicate Matrix. These dual forces of polarity, male and female, are designed to spiritually integrate and synthesize within the angelic human body while naturally evolving on the ascending earth. As a result of the forces of alchemy and energetic synthesis made between inner and outer layers of these multidimensional consciousness forces, the spiritual embodiment of the original 12 Strand DNA of the Diamond Sun Body is then made available to the planet and humanity through DNA Assembly. Thus, ascending individuals are gradually repairing and regenerating their DNA template so they are able to open and move through stargates safely.

The Diamond Sun body represents full consciousness freedom for an ascending human being, in which the Inner Christos is fully activated with the flowering of the Sacred Crystal Heart. As a result, the spiritually ascending human is able to transmute their consciousness out of time and into Zero Point, moving through stargates into another location. Therefore, they are free to leave the Prison Planet, freed from the enforced Mind Control and reincarnation cycle occurring in the lowest density of earth.[1]

Diamond Sun Body

The Oraphim is a part of the Diamond Sun DNA Christos lineages, the original humans created from the Guardian Founder Races lines. The Diamond Sun refers to the original design of the angelic human 12 Strand DNA silicate matrix. This was the potential DNA and higher consciousness experienced by angelic human beings in previous time cycles on the 5D parallel earth, previous to its cataclysm. The Double Diamond Sun refers to the Original Founder Oraphim Christos design of a fully embodied 12 strand DNA and further access to 24 other dimensions of consciousness while in a human body. When the Oraphim DNA potential is activated, it allows for physical body immortality and the ability for the consciousness bodies full transmutation out of dimensional time.

Natural Order

The base 12 mechanics represent the Natural Order of the Universal Time Matrix, an organic creation and inner sustaining architecture that connects directly with the God Source field for an unlimited supply of consciousness energy. This is an open source energy structure, inherently referred to as the Christos Blueprint.[2]

Shifting Carbon Density

there were groups of souls (see Soul Matrix) that were responsible to anchor and work with the first five DNA strands and to participate in the Earth experiment in working with those particular levels of consciousness. Our original goal was to re-evolve the divine human template to its original intention which was as a 12 strand DNA, which would mean 12 simultaneous dimensions of existence while still retaining a particular type of form. The form would not be this dense, in terms of the carbon material our physical elemental body is comprised of at this time. It would be more of a **silicate** or etheric Plasma Waves type of nature. So, this is where we are going, we are clearing the carbon based density out of our molecular and Subatomic structures, and becoming less dense and more refined, in that we are starting to anchor more of our actual crystalline structure, which is of a silicate crystalline base. We can imagine that as we go through this transformation it can be very intense at times. It's like taking the most dense carbon form, a Carbon Atom and attempting to alchemically shift that into more and more refined states of oscillating patterns of higher vibration. So, that is our goal at this time, as a natural part of what the Ascension process is. So, it's important to keep that in mind.

12 Strands DNA

The original human DNA pattern is arranged into 12 dimensionalized mathematical programs, each of which set the Blueprint for one DNA Strand Each strand is composed of 12 base magnetic (Mion) female codes, and 12 base-electrical (Dion) male acceleration Codes The 12 Base Codes and 12 Acceleration Codes hold the mathematical program for each Double-Helix strand, which combine to form a set of 12 Vector Codes One Base Code plus one Acceleration Code is equal to one Vector Code.The 12 Vector Codes of the human genome manifests as 12 nucleotides that form the Nucleotide Base Pairs which are the entire DNA Strands are composed Due to the NDC also called the Checkerboard Mutation unnatural sonic control program installed in the planetary field, only four of the Vector Codes have been active in biological Earth Life since the Luciferian Rebellion The foundations of human DNA is miniaturized crystallized frequency, that is, patterns of electromagnetic light that magnetically group into crystalline form. These multidimensional crystalline templates are referred to as DNA Seed Codes. The DNA Seed Code, the template for one DNA strand is composed of 12 magnetic particle units and 12 electrical anti-particle units Each DNA strand is composed of the frequency patterns and light spectrum of one dimensional band. Each DNA Strand represents a Fire Letters Code program sequence corresponding to one dimensional frequency band of Consciousness (24 Seed Codes 1 DNA strand). The level of frequencies that are accreted into the personal Morphogenetic Field will determine the level of DNA strand assembly that you posses. As a person pulls in more frequency bands from the dimensional Unified Fields, the personal frequency accretion level rises, and thus, more DNA codes can assemble and activate.

As we understand Ascension Mechanics, we study patterns, numbers, archetypes, physics and cycles. Everything in creation has intelligent purpose in pattern and nothing is random. As such, we can take into account the four basic stages of biological cycles which include two additional catalysts into the lifestream called the "Taskmaster" Saturn acts as the taskmaster, which means, if you have not figured out how to get aligned to your heart, some massive life altering event, or even your exit point (death) will transpire as you were not paying attention to your "soul task" There is no judgment in this, as you set the exit point yourself' However, if you are wasting life force energy and not being productive, the soul may call you home and invest its energy in another one of your lifetimes. During the Tasking periods, you will notice many people leave the planet. As an example we have seen a lot of celebrity rockstars leave the planet around Age 27 This was the Taskmaster calling them back home for a start over

Biological Cycles

So let's briefly review the Biological Cycles of Spiritual Expansion in the Original Human DNA. As in the structure of the Four Corners, The Four Faces of Man, there are also Four Main Pillars of Spiritual Foundation for Human Biological Cycles

- Biological Age 12 (Soul or Initiate, 4-5-6)

Prior to the year 2000, most all earthlings were blocked in their DNA and unable to access or begin full soul embodiment by Age 12 This is a mutation in the genetics. In the last 26,000 years and prior to 2000, about 68% of the earth population met partial soul accretion levels at some point in their lifetime and were reincarnated back into 3D again A very small percentage were freed of the karmic wheel, while the rest were trapped in servitude in the Underworld After 2000, this is accretion is possible above 4D at age 12 and happens in approximately 20% of the population, all Indigos. The rest of us have to catch up in our biology later or have specific contract.

- Biological Age 22 (Oversoul or Adept, 7-8-9)

Prior to the year 2000, most all earthlings were blocked in their DNA and unable to access or begin oversoul embodiment by Age 22 or in their lifetime. This is a mutation in the genetics. After 2000, this is possible and happens in approximately 20% of the population, all Indigos. The rest of us have to catch up in our biology later Monadic waves for biological

embodiment became available in 2009 on planet and are undergoing further ascension development now. Prior Monad embodiment is by specific individual agreement. This means for the soul embodied, the oversoul/monad is beginning to possibly inhabit the biology now

- Saturn Taskmaster – Age 27

During this Cycle preparation for catching up on soul lessons that were missed by accelerating painful or unresolved issues in the life stream will begin. How the person chooses to deal with this cycle of time determines the spiritual level that can be accessed. The more resistance to change, the more suffering the person will experience. The goal is to alter the life path of the being to be interested in soul pursuits. This is created as an early exit point, or "escape hatch" when the soul is not sure if they want to stay here. If they stay 1st level of Ancestral Miasm is activated to begin clearing.

- Biological Age 33 (Avatar Teacher or Christ Ritual Master 10-11-12)

Prior to the year 2000, most all earthlings were blocked in their DNA and unable to access Avatar embodiment by Age 33 or in their lifetime. This is a mutation in the genetics. After 2000, this is possible and happens in less than 1% of the population in predestined agreement, all Indigos. The rest of us have to catch up in our biology later or have specific contract. Avatar waves for biological embodiment become available in 2012 on planet and are undergoing further ascension development now. This means for the few oversoul embodied, the Avatar is possible to begin to inhabit the biology. Most all above 12 stranded Indigos will have a walk in, massive kundalini or spiritual event at Age 33, especially if they are incarnated for World Teacher or World Service. Many humans will have spiritual events at Age 33 also to reflect this biological pattern in the DNA. When this happens they have to start at the Soul accretion, and move up the Jacobs ladder to accrete each level until the Avatar levels. Because of the physics of consciousness, there are no shortcuts. Too much frequency exposure can damage the brain and nervous system extensively

- Biological Age 44 (Guardian or Rishi Sun, Zero Point)

Most all earthlings were blocked in their DNA and unable to access Guardian Sun embodiment by Age 44 or any Age. This is a mutation in the genetics on this planet and currently unavailable in a physical form. New templates of embodiment are being created for Aurora Guardian templating. This is a Founder Guardian God Consciousness in Form. The Founders are returning to the planet to resurrect the dead and repair the DNA damage. They are completely Neutral.

- Saturn Taskmaster – Age 54

During this Cycle preparation for catching up on soul lessons that were missed by accelerating painful or unresolved issues in the life stream will begin. In many cases if the person did not get the message at Age 27, they will manifest disease or sickness as an exit point now. How the person chooses to deal with this cycle of time determines the spiritual level that can be accessed. The more resistance to change, the more suffering the person will experience. The goal is to alter the life path of the being to be interested in soul pursuits. Many times awakening comes in disease and during the process of death transition and the person receives much evolution by undergoing the learning process this way. So they may manifest a disease path that results in rapid death of the body, or choose to exist in the disease state for many years forward to learn how to love themselves better. This is generally brought on by an Ancestral Miasm activation. If they did not clear the first level of it at Age 27, they have a double level of intensity applied now. The Taskmaster has no mercy at this point, in its goal to mold the person to connect with their Spirit.

As you may note in advanced biological human Age (after Age 54) these biological cycles can be repeated in order to best serve the evolution of the person. As an example there are many people biologically older than 54 that are just now beginning to advance into the Soul Initiation. However their lifestream will still obey this cycle moving forward as it is in the human DNA record

Sleeper

A person who is (or is believed to be) brainwashed into becoming a subversive agent, and this may also include being programmed to be a mind control assassin. These people many times do not remember their destructive actions at the time of the event, because they have been possessed or mind wiped. Brainwashing for means that serve a specific political agenda, is also an subversive agent referred to as a Manchurian Candidate, based on the popular book and film

Biological Warfare Strategy

However, it has been observed to attach through the two pyramids that contain the **motor fibers** that pass from the base of the brain stem and into the Medulla Oblongata. This area in the base of the brain is called the "**Decussation of the Pyramids**" Since this area controls motor fibers – it controls the stimulus and information flow throughout the Central Nervous System and its impulses to the brain. This is how these Military Abduction or Reptilian Alien Implants work, they stimulate the nervous system with artificial stimulus systems to control the nerves transmitters to promote whatever "energy-vibration", or thoughtforms, emotional state or addictive state they want to remain in the "target" This is bio-neurological Mind Control which is a biological warfare strategy through the use of Holographic Insert and other technologies

Since motor neurons control the flow of neurotransmitters to the brain, as well as muscle twitches, in this way they can stimulate responses of rage, anger, anxiety, agitation, addiction (or rape or hurting another person) for whatever they are calling. When there is biological neurological control exerted on certain test subjects, such as people that have been subjected to alien or milab abduction for experimentation, the person can be triggered neurologically to commit certain behaviors or criminal acts That person that is triggered by certain key words, phrases or energetic phasing, into these actions involuntarily is called a "Sleeper" After repeated bio-neurological manipulations of use on the target-person - the control system moves to the **Parietal Lobe** to block sensory responses of awareness or direct cognition. The person is now "locked inside a 3D window" and cannot perceive anything outside of that window of perception Essentially, the consciousness is trapped in a small material cell block in the reality The parietal lobe may be "caged" or higher sensory function is controlled by the manipulating entity or programming. This is how Holographic Inserts of projected images and thoughtforms can be controlled to the perception of the human being. This is how the masses are controlled, put to sleep or "mind shded" [See- Mind Shdes]

(As an example, if a human is abducted or astrally raped – the Negative Aliens entity programs a reality dream of happy serenity with something or someone the person relates to as a positive subject at that time/space the person was violated. This is a type of manipulation of the person's Timelines. However, if one pays attention they can ask if this memory was artificially placed, many times something will feel "off" and if the answer is yes, one can regress the subject to that timeline or reveal the real memory recorded in the cellular system in order to surface the pain and release and heal the damage. All damage can be healed this way – what we repress or deny can hurt your body This is a form of hypnotic regression which allows access into the root memories of the subconscious mind. See Three Layers of Ego)

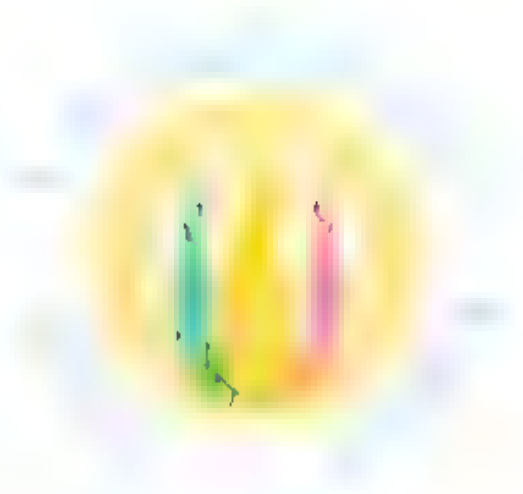
Solar Rishi

The Solar Rishi are the first triad of light manifestations that make the Universal Trinity, that are projected from the Emerald Order and Blue Flame, Gold Order and Gold Flame, and Amethyst Order and Violet Flame from the God Source field, the Threefold Founder Flame or Cosmic Trinity.



God-Sovereign-Free (GSF)

The first light manifestation of the Emerald Order are Solar Rishi Blue Ray orders of Elohim and Oraphim that direct support to the Guardian Founder Races in the lower Harmonic Universe and are supporting GSF liberation and the continued spiritual evolution of humanity towards Ascension and the Law of One. The Emerald Order of Elohim seeded the Andhazi Feline Elohim races through the Lyran 12th Stargate in the fourth harmonic universe, on Aramatena.

The second light manifestation of the Gold Order are Gold Ray orders of Seraphim, Cerez Avian bird people and Aethan lines are the Solar Rish. which incarnated in the fourth harmonic universe on Lyra-Vega through the 10th Universal Stargate.

The third light manifestation of the Amethyst Order are Violet Ray orders of Solar Rishi comprised of Cetacean, Avian Pegasus people, and aquatic Braharama seeded in the fourth harmonic universe on Lyra-Aveyon through Universal Stargate 11.

The Trinity of the Emerald Order, Gold Order and Amethyst Order incarnations seeded in the fourth Harmonic Universe in the Lyran Matrix are known as the Royal Houses.

Fifth Harmonic Universe

For human beings, these consciousness bodies exist throughout the densities and are aspects of the higher self and Lightbody.These aspects are called the Stations of Identity

- In the Fifth Harmonic Universe in 13D-14D-15D exists the Three Layers of the Rishi matrix or Threefold Founder Flame or GSF Flame

These collective consciousness bodies exist on the planet earth throughout the densities and are aspects of the future timelines and the Lightbody of the planet earth. The earth consciousness body is directly interconnected in all Harmonic Universes to interface with the human consciousness, which is its life form expression in all densities.

Fifth Harmonic Universe

- In the Fifth Harmonic Universe there is no dimensionalization into matter forms therefore there is no planetary body or human forms. In the fifth density, as the consciousness does not manifest into matter, this area is called pre-matter. The three prima light and sound fields hold the ray expressions of Mother Arc, Father Arc and Golden Ray Sun of Christos, the trinity of the Godhead, from which all biological forms are created in all of the Harmonic Universes.

12 Tribes

The primary hosting race for the angelic human seeding of the 12 Tribes on earth, Tara and Gaia were the Serres-Egyptians most advanced genetic lines that had received the Blue Flame Melchizedek genetic imprints. These lines are the Urtite-Cloister host races or Melchizedek Ur that went on in the latter creation cycles to create the Maji Grail lines that are the genetic time Keepers of the Threefold Flame, The Keepers of Blue Flame, Gold Flame and Violet Flame. Through the Paliadorian Covenant the original Maji Priest King Grail lines were from the Solar Rishic levels of the Emerald Order, Gold Order and Amethyst Order and incarnated through the Urtite Cloister host race in the location of the Stargate opening points on the planet.

Return of Solar Rishi

The entire Universal Time Matrix, our Milky Way system has shifted into the higher frequency domain of the non-dimensionalized Cosmic layers of the God Source field as an Ascension Host failsafe plan. The expansion into these three new bands of Cosmic God Source field creation allow for the return of the Solar Rishi, the first triad of light manifestation that make up the Universal Trinity. The Universal Solar Rishi are the Threefold Founder Flame gestalt consciousness that exist in pre-matter and are that which all biological forms have been created in the Harmonic Universes. Recently, during the next stages of the planetary Ascension Cycle, the Solar Rishi have begun their descent from the pre-matter layers and into the core of creation which links into the dimensions of the matter worlds. The return of the Solar Rishi into the matter worlds is a significant event which has generated massive impacts to the timeline architecture of this reality, bringing structural changes and ripples of deep cellular transformation to the individual, collective consciousness and entire planetary sphere. During this phase the planetary architecture has entered into the Solar Rishi matrix spiritual initiation, the Kee Ra Sha tri-wave braided communication. Approximately by the end of this year, the Solar Rishi matrix will have braided themselves and anchored the entire Rishic matrix into the Planetary Staff for the purpose of the Universal Trinity integration within the organic timeline of this matter realm.. Solomon Shield

The Solomon Shield is a collective buffer field (3-6-9 Rod Repair) and horizontal network created for the earth to ensure an alternative evolution timeline during the Ascension Plan B mission by the Guardian Founder Races. This helps as companion to anchor the Consciousness Corridor, an array of Guardian Hosted timelines for identifying and locating lost souls, or fragmented souls that have been damaged due to Alien Machinery or that was harvested by the NAA on planet, in the last cycle.

This shield network is designed to override the damage created in the 2nd dimension, such as the issues with San Graal Stargates (Temple Mount in Jerusalem, and Sarasota, Florida), the 2nd Chakra Orange wave spectrum, upgrading the Rod function to elevate into the 14th Chakra Gold Ray, and the support the Golden Eagle Grid functions for the masculine energetic principle, in both planetary and personal consciousness. Additionally, it serves to repair 1D to 4D,(False Ascension Matrix) to complete an interdimensional resonator tone which can link between the Astral Plane gates into the Mother Arc into the earth core, terminating the false white light matrix, which includes the False Umbilicus and its False White Webbing.

Patriarchal lines descended from the ancient Magi bloodlines of the human known as Guardian Yeshua (or Christos) are called the House of David. The House of David rises again guided by Krystal Star to rehabilitate and unite all of the King David, King Solomon blood lines through the Solomon Shield in order to bring divine grace and holiness into the males, transforming them from the False King of Tyranny to Benevolent Kings. As the True King returns to his benevolent power on earth, he applies his 14 D Golden Rod, made from the Golden Shields of Solomon, to anchor the embodiment of the Heavenly Father Arc Diamond Heart through him. This anchor protects the earth, as the Compassionate action of the Holy Heavenly Father Arc, and seals those areas weakened from the misuse of power, from the False King of Tyranny, the NAA that promotes continual militarization of the planet in war, killing and destruction. Planetary grid work where the protection of Benevolent Kings is desired, areas where the domination and abuse of male power is blatant, call for the Solomon Shield. When working with the Golden Eagle Grid, Militarization, or personal male issues, one may desire to call upon the Solomon Shield as the companion to heal inner and outer male energies into energetic balance. The embodied Rod in the male principle has upgraded from 2D orange frequency to 14D golden frequency, during this Ascension Cycle (Base Tone).[1]

Guardian Project for Rod Repair

The Guardian Timelines Grid Repair and Hosting Project include integrating the Solomon Shield on our planet which is also designed to support our males to the new consciousness and upgrade the architecture of the horizontal grid and its "Rod" function.

The Shield of Solomon was built from the "House of David" genetic line and is from the Holy Grail male bloodline that has the power to override the previously distorted collective masculine "Rod" consciousness. The distorted male "rod" consciousness has been infected with patriarchal domination stemming from the controllers mind control game of installing the "False King of Tyranny" as the dominating rulers of this planet. The controllers handpicked the hybridized Nephilim bloodlines that they could corrupt through the mind control programs in order to carry out their "enslavement through tyranny" agenda. (This does not mean that all Nephilim bloodlines are corrupted, it means they are hybridized genetic beings that have been perpetrated upon to be recruited as the enforcers of the negative alien agenda NAA.)

The Guardians explain the Solomon Shield is the consciousness grid technology that is changing the planetary electron spin back to the organic 12 12 Electrical Christ Male pattern. This pattern is only viable in select places on the planet (because of planetary grid damage unable to hold this frequency) and it is the Rod and Staff couples (Hieros Gamos) that are locking it down into the planet by merging their combined embodied "unity code" source architecture. Until the planet can hold the new electron spin, these groups are attempting to embody the frequency and its new electron spin pattern in their combined male principle energy. The 12 12 only exists within that Unity Field architecture field and not within the reversal systems which still are running reversal electron spin rates based on the hijacked code by the controllers. This is also the reason why energetic "interference" has been aggressive for certain Rod and Staff couples, to prevent them from holding the unified field necessary to bring in the embodied unity source code architecture. That 12 base architecture is coming from the projected mind of God's Cosmic Cube Matrix of 144,000 archetypes that is being inducted into the third eye. It takes both the male and female genetic equal bodies to hold it, and so both the male and female must merge their Monadic energies in combined divine purpose in order to do so.

With the Guardian Hosting of the Solomon Shield our masculine principle and its rod function for this planet are changing to be reconfigured beyond the Golden Eagle Grid infiltration and its distorted consciousness. This allows our male electron to be reconfigured to the new 12 12 Electrical Christ Male pattern, freeing it from the mind control enslavement technology and the Armageddon Software, Military Grey Alien Technology war machine promoted by the NAA.[2]

3-6-9 Rod Repair

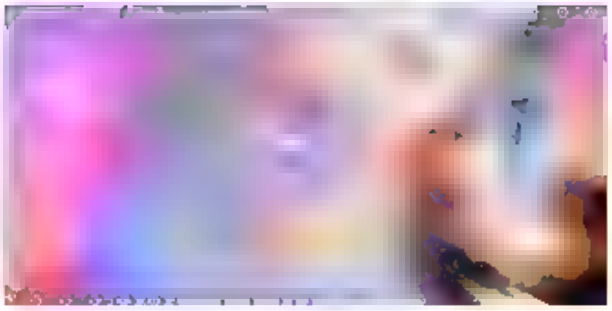
Once the Kundalini current runs in corrected patterns to build the subharmonic strings in each of the 3-6-9 dimensions, the actual structure of the Horizontal Triad Bodies can begin to build higher mental bodies and merge into their Trinitized Form. The corrected mental body patterns rebuilt in each of these higher mind matrices, is also leading to Metatronic Bodies repair which is a Nephilim 9D body correction.When these three harmonic triads are corrected throughout the Horizontal Triad Bodies the Lightbody structure known as the Masculine Rod starts to initiate and activate in the Lightbody.

Mystery Schools

The covenant with King Solomon (and its Mercy Shield) is being sequentially activated to start the change over from the current infiltrated structure of the Mystery Schools by reprogramming their corrupted horizontal energetic architecture into a spherical system. Those that have been abusing technologies linearly (i.e. Satanism, Black Magic, etc.) will not have the same impact with SRA ritual for this reason. The Solomon Shield is a spherical Morphogenetic Field designed to buffer and realign horizontal timeline networks (and clock shield devices) on the planetary body. A clock shield device is like a combination lock that opens biological clocks (i.e. your perception of biological Age is governed by a clock shield device

Soul Fragmentation

The more soul fragmented and damaged a person's energetic body is operating (or not operating at all) the more distorted the thoughts and behaviors become.



Soul Retrieval

These deviations are manifested as Addictions, perversions and a wide array of damaging personality disorders or Alternate Identities that can be well observed in the individual as destructive to the self and destructive to others. When one is continually destructive towards the self, or others, eventually the Soul Matrix layers fragment and split. When a human being is soul split, they will exhibit mental confusion and tendencies that are called, Narcissism, schizophrenia, dissociative personality, Sociopathy (Lack of Empathy), and an array of psychological distortions that potentially lead to insanity. See Negative Ego for stages of pathology

Insanity is a description of the existence of hell realms, and is how to easily recognize Possession through Satanic (anti-life) behaviors that are controlled by the possessing entity, such as one of the collective thoughtforms of Fallen Angelics. Insanity is a diseased mind (diseased or disconnected soul) which leads the being to choose to continually inflict destruction and harm to the self and others. If continual destructive spiritually abusive behavior is not stopped, it will damage the soul through fragmentation and genetic degradation. **Insanity is a way to define behaviors which create soul destruction, that action which ultimately disconnect the body/mind from the soul**. We describe these behaviors in ES as the Archontic Deception Behavior. When a being is soul disconnected they experience an unquenchable thirst of desire, Addiction, black depression, pain and suffering at great levels. This is the description of the internal pain and suffering of a Satanic being.

Severe soul damage, enslavement through mental fragmentation with genetic biological destruction of an entire species is not a "god ordained" energetic rebalancing of karmic power abuses (cause and effect) from other lifetimes. However, in order to permanently heal these deviant behaviors rampant in global society at the individual level (microcosmic blueprint) experience, they also have to be corrected at the planetary (macrocosmic blueprint) level of experience.[1]

Fragmentation causes Negative Entity Attachments

Additionally, when a living thing is tormented into feeling extreme pain or suffering, the mind and Soul can fracture into pieces, keeping those pieces trapped in phantom pockets that are controlled by that negative entity. This can happen at multiple dimensions of existence and stations of identity that are connected with the consciousness of that spiritual-energetic being. The more fragmented the being, the more disconnected and less evolved the consciousness becomes, until it sinks into the most primitive layers of existence. Fragmentation may continue after the consciousness has transitioned from the body. This is the primary goal of the NAA that attempt to enslave human consciousness, by eliciting pain or terror when exiting the physical body. In Satanic Ritual Abuse the rape, torture or killing of an animal or human is for the purpose of collecting the loosh produced during the blood sacrifice event, and to bind the energy with attachments, which can be fed upon by the black hole entities. They form attachments from the negative energy they consumed, to the fragments that make up the consciousness of that person. Many of these negative entities consume negative emotional energy to enable their presence in the multidimensional layers of the earth field. Because of their vibrational incompatibility with human frequency levels, they must rely on consuming Loosh for their existence.

The important lesson to comprehend is that expressions of Negative Ego and hatred, the intent to harm and the violent killing of other living things, fragments consciousness and feeds the reversals to build up negative emotional energy or Loosh. We do not want to co-create negative emotional energy to be fed upon by these negative entities or to directly feed the Inverted Systems that produce Loosh energy for the NAA. The most productive thing we can do is to take steps to clear negative ego and our Pain Body, so that we will not be triggered by the Mind Control programs or AI broadcasts. When we do this, we are instead capable of holding neutral and calm within the chaos.

We can practice unconditional love, peace and Harmlessness. This helps to integrate and heal our Fragments to unify, as well as neutralize any Negative Emotional Energy in the environment. When we stop feeding the energy reversals, they are gradually taken offline. The feedline of the parasitized energy throughout the food chain stops, essentially starving them by denying them access to the power source. When we can hold compassionate witnessing and refuse to be triggered into negative emotional states, we are refusing to be manipulated and siphoned by the NAA. Additionally, truly empathic and unconditionally loving humans may also gain the spiritual power to recollect and transit the consciousness Fragments of sacrificed children and traumatized people that are trapped in the earth realms, and this is an important service we can do to help heal the earth.[2]

Mental Anxiety

The Ascension frequency shifts and the changes to the energetic terrain still remain largely unknown, ambiguous and confusing to the majority of the people on the Earth. Most anxiety is a result of mental confusion, when we do not have a proper evolutionary context of which to reframe our old beliefs, traditions, habits and their dying structures. **Imbalanced behaviors and negative mental attitudes are not tolerated in the new frequencies and if we have not cleared our ego to submit to higher forces, we are getting hammered by external circumstances which amplify these inner distortions.** The Three Layers of Ego if uncleared, will manifest depression, obsessions, anxiety, mania and other brain dysfunctions when not integrated with the inner spirit, the Soul Matrix. **This mental and emotional imbalance is referred to as "soul fragmentation"**, the root cause is persistent negative mental thoughts created by an untrained and undisciplined mind. Mental Miasma such as thought or belief obsession can also be inherited and can be cleared through ancestral healing. Many people who are not aware of the Ascension process, in attempting to deal with their day to day lives are echoing in their sentiment, "Why am I so incredibly tired?" One cannot resist the change upon the planet or fight against this transformational current without getting energetically pummeled. Everyone is feeling some level of this evolutionary change now. No matter who we think we are or where we think we are going - we must return to inner balance.[3]

Breathing and meditation techniques can be mastered to release the mental anxiety and learn to shift the body into peaceful and relaxed states of being, even when in the midst of great chaos. See the Krystal Aegis section

Forced Identities

Additionally, there has been a shattering and decimation of collective mind negative alien architecture which have been used as consciousness "Ego Filters" to control humanity for a very long time. This kind of NAA Artificial Machinery used in the planetary architecture is designed to superimpose forced identity overlays on the human mind which contribute to soul fragmentation. This technology is also called SPE and is used to promote the Victim-Victimizer belief systems through Dark Force Manipulation Methods.

These Mind Control and Mind Slides implanted structures quantify as Dead Energy spaces and are configurations which are used to filter soul energies through the harnessing of forced identities. A forced identity is a superimposed "overlay" that filters perception of an archetypal identity that is running an alien (anti-human) mind control program through a human body. Depending on the Chakra energies that are attuned to the particular quality of energy spectrum (Spectrum of Frequency) and the DNA imprints they are looking to harvest from, is the direction the controlling entity reinforces the archetypal ego identity. Through the chakra systems they place archetypal mind filters that reinforce ego programs and in some cases implant false memories, thought-forms or holographic movies to manipulate beliefs and direct actions within the human. All of this is to gain access and control to the planet earth, to the many levels of resources located here, control timelines and technology, perpetuate lies about the extraterrestrial involvement, and harness the use of the collective quantic yield and individual life force (soul) energies. These vital energies are comprised of the multidimensional collective human soul matrix of which so many have forgotten belong to the access of the human being directly. When one has control over the thoughts of one's mind, one has control over the direction and actions of the physical body, all of its parts and reclaiming of the soul energies. Whoever controls the Mind controls the Soul Matrix.

Addiction Causes Fragmentation

When no inner foundation, soul connection and self-love are present, the entire mental fixation becomes upon the external value and worth being shaped by the consensus reality or culture of that environment. To change the shape of human values formed by the consensus or culture, constant mind control through psycho-spiritual warfare is perpetuated to warp accurate reality and distort perception. (An example of anti-human psycho-spiritual warfare used to warp perception of values in culture is justifying the beliefs that a boy child consented to sodomy, a woman's clothing consents her to be raped, and an alien abductee is a lunatic. The predator continually warps reality and uses the victim to be the victimizer.) See Victim-Victimizer. Psycho-spiritual warfare is carried out when the original identity of a being is continually erased, the memories of spiritual purpose and access to the Soul Matrix and Monad is disconnected, fears of survival, terrorism, cataclysm and Armageddon Software is artificially implanted in the planetary brain via the NAA, etc. Humanity is undergoing a severe personal trauma based on the disconnection from the real self-identity as a spiritual-energetic consciousness. This real self-identity is organic and not forced artificially, such as with Alien Implants or Mind Control devices.

Behavior is Related to Spiritual Development

The process of spiritual reconnection of the physical body to its Soul Matrix, Monad and then ultimately, its Inner Christos integrates the energetic balance between each of the layers of the bodies, and that balance activates increasing levels of higher spiritual intelligence, cultivation of Virtues such as Compassion. Thus developing higher consciousness intelligence manifests higher form and function throughout all of the levels of the being. This level of higher consciousness is free from manipulated mind control of Artificial Machinery which superimposes directly into the nervous system to influence

thoughts and behaviors. Higher form and function is a natural byproduct of increasing intelligence that operates in alignment to the organic evolution that exists as a part of the energetic flow of nature. This alignment to the natural flow creates harmony between all of its bodily parts, and then functions as a part of an integrated whole. When functioning as an integrated energetic whole, deviant behaviors, such as the addictive patterns that create disease (i.e. cancer) are eradicated. Inorganic energy and Miasma, Planetary contribute largely to disease patterns on the earth. This is true at both microcosmic (personal) levels and macrocosmic (global or group) levels. The Macrocosm is also related to the Planetary Logos.

Soul Matrix

Each Soul is an individual consciousness unit that originated from the Eternal God Source, or Infinite Consciousness, All That is. Every Soul has a unique blueprint that has divine purpose, which is to learn, evolve and experience all aspects of creation and eventually return back home and reunite with the Eternal God Source.

Soul Triad

The Soul body is the threefold principle of creative imagination, receptivity and feeling perception and holds the recorded memories of the Consciousness. The Soul acts as the repository of accumulated memories from the physical or external experiences that are translated into the internal energetic reality of the consciousness of being. These many lifetimes of experiences are recorded into the soul body which translates into memories that are embedded in the cellular matrix of our body.

Without the Soul body whole or connected, all of these functions will either become distorted or non-existent, as qualities of experience and blocked memories inside the body. The Soul is the higher sensory body, which allows higher emotional states and feelings to be experienced, along with continually developing sensory abilities. The Soul allows our heart to deeply feel the Love of God as a unifying force. It acts as the bridge between the Soul and Monad body that is united with the Inner Holy Spirit, when ignited in the Higher Heart (thymus area) [1]

The Soul Matrix is the first spiritual triad of when a human being starts to connect and integrate the soul body energies and heart complex during the first stages of the process of spiritual awakening or spiritual Ascension. The entire soul body is made of three layers that interact together into a Horizontal Triad Body. Each of these layers, 4D, 5D and 6D correlate to the same Chakra, its colored wave spectrum and a dimension of time and space in the future.

Soul Extensions

When we intend to connect with the organic architecture of our Christos Blueprint, this helps to heal and integrate our soul extensions and monadic extensions. Our Soul and Monad is a family of consciousness that contains extensions that are existing simultaneously in other dimensional timelines. The first level of spiritual Awakening is connecting with our soul consciousness and extensions, our soul family is comprised of 12 different individual personalities. As we integrate our Soul consciousness, we integrate these 12 aspects within our consciousness body, and this unifies the triad of the entire Soul Matrix, so that we experience our emotions and the forces of love in entirely new ways

Complete soul integration leads us to the higher integration of our Monadic matrix or Oversoul Matrix, which contains 12 oversouls, each containing 12 souls within them, for a total of 144 monadic or oversoul extensions. With each stage of monadic integration there are significant expansions of consciousness that unify the monadic matrix in our consciousness body, and then we find that we are connected to everything, living in a massive Universe that is filled with many possibilities to explore. The process of soul extension and monadic family reintegration is happening at an accelerated rate at this time, because this has been made possible when the transduction birth records were shifted into organic Timelines.[2]

Astral Plane is the Soul Plane

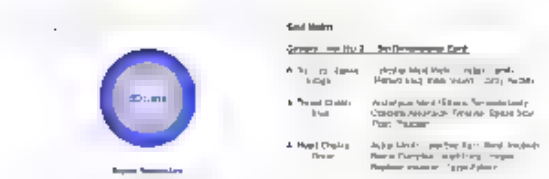
In 2008 a Guardian planetary repair project was healing the distorted timelines and damage in the 4th dimensional Astral Plane and its related impact to the 4th strand of DNA within the divine human body template. The Astral Plane is severely damaged with Phantom Matrix, Dead Energy and Miasma, Planetary

The 4th layer of the human body Chakra system houses the first level of the divinity, the soul matrix and heart intelligence.

The 4th layer of the human Lightbody is impacted by the 4th layer of the planetary lightbody also called the Astral dimensional plane. The 4th Dimensional Planetary Stargate leads us into the Astral plane layers and is positioned at Giza in Egypt. [3]

Second Harmonic Universe

These collective consciousness bodies exist on the planet earth throughout the densities and are aspects of the future timelines and the Lightbody of the planet earth. The earth consciousness body is directly interconnected in all Harmonic Universes to interface with the human consciousness, which is its life form expression in all densities.



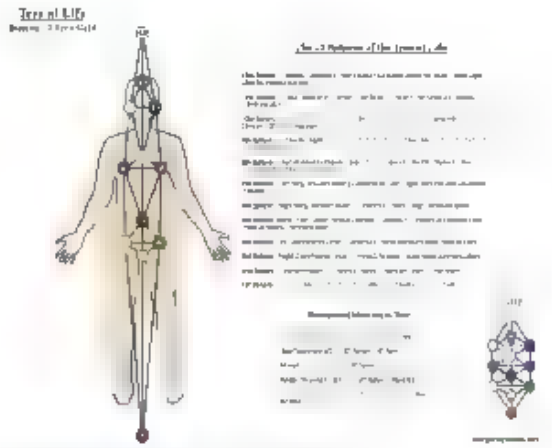
Second Harmonic Un verse

- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Soul Matrix.
- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Tara Matrix

Universal Ascension Model

In our Ascension model we recognize and work with 15 Waves of Spectrum of Frequency that correlate directly with the Universal Rays (See the Universal Time Matrix) and our individual Chakra systems. The first nine layers of the Spectrum of Frequency or Kundalini include levels of particle currents that make up the matter worlds. Above nine dimensions are the anti-particle dimensions which are blueprint forms of liquid plasma light or hydroplasmic currents.The amount of energy stored in the Kundalini is the capacity of the genetic code to hold energy. The Soul energies that cannot integrate into the DNA will be stored in the Kundalini center at the base of the spine.

These three layers can be seen in the 12 Tree Grid graphic as in the soul dimension and are related to the 5th dimensional timelines on the future planet earth, Tara



Soul Matrix Triad is 4D 5D-6D

Astral is 4th Layer of Soul Body

The entire soul body is made of three layers that interact together. Each of these layers, 4D, 5D and 6D correlate to the same referenced Chakra energy center, its colored wave spectrum and a dimension of time and space in the future. These three layers can be seen in the 12 Tree Grid graphic as in the soul dimension and are related to the 5th dimensional timelines on the future planet earth. The Astral Plane is the 4th dimension and the first layer of the triad of the Soul Matrix. For more detail see the Universal Time Matrix.

Astral Heart

This is the Astral Heart 4th Chakra located in the centre of the chest. It is Green in Chakra Wave Spectrum colour and it opens into the dimensions of the Astral Plane.

Astral Heart Manipulation

When one has control over the thoughts of one's mind, one has control over the direction and actions of the physical body, all of its parts and reclaiming of the soul energies. Whoever controls the Mind controls the Soul. Most NAA Mind Control is manipulated in the Astral Plane and this Alien Machinery has damaged humanities Astral Heart and 4th Chakra, thus blocking our true heart purpose which is to express the soul through the heart center. When the 4th Chakra is blocked it accumulates aberrant emotional energies in the 2nd Chakra creating trauma, Soul Fragmentation and Addiction problems. These blockages disrupt the Soul and Monadic integration in the body and consciousness, manifesting many disease states or mental body pathologies.

Archetypal Body

The center for the Soul matrix body is the 5D layer of the Lightbody which sets the patterns for our etheric body, as such it is called the Archetypal Body. During Soul embodiment the 5D archetypal body merges with the physical layers through the blue flame or blue chakra wave spectrum. When bringing in the blue flame wave spectrum into the physical layers, the Soul becomes increasingly focused within the body, shifting consciousness into the Soul frequencies

Soul-Monad Connection

The Spirit body of the Monad is only consciously aware of the contents of the Soul when it is connected to the Soul. This is the same as when the physical body is disconnected from the Soul, the conscious mind does not remember her (cannot feel the soul) When the Spirit body is disconnected from the Soul, the spirit consciousness can no longer remember the Soul, and becomes unconscious of the Souls memory of existence. This unconsciousness has the impact of Soul Fragmentation. How this manifests in the First World, the lowest plane on earth, is Insanity, schizophrenia, catatonia, psychotic break, and all other forms of split consciousness. How this manifests in the Second world is chaotic dream states of astral delusions, holographic bits of fragmented pictures of millions of storylines. These pictures intersect without coherence or cohesion, just jumbled messages of dreamy, disconnected fantasy images and impressions. This manifests in the Third World in much the same way as an anesthetic puts the consciousness to sleep, similar to hypnotic like trance or sleepwalking. When the Consciousness layers are split apart, it results in a sleepwalking or amnesiac type trance in all Three Worlds Conversely, when we awaken our consciousness and start to desire communication with our Soul and Spirit, this starts the awakening process in all Three Worlds. [4]

Soul Split in Underworld

When aspects of the Soul fragment and sink into the lowest layers of perception, they enter a danger zone Some of these distorted aspects are from our fallen history and the astral body damage that ensued with the 2D/4D Split. The 2D-schism split the instinctual body into separate functions, creating a collection of fragmented astral sub-personalities and a repository for collective chaotic forces. The 4D-schism placed a barrier that separates the astral body/heart chakra from merging with the 3D Solar Plexus mental body This created a Soul Split that subjects the person to underworld energies and lower astral traveling.When the Soul is separated from its higher spirit body and continually sinks into the lowest dimension, it will merge at the areas where the personal and collective unconsciousness start to flow together When this merge with collective unconscious occurs, dark, chaotic, shadow bodies start to emerge and multiply The Soul aspect enters the realm of the Underworlds, which are the spheres of collective unconsciousness. This is the chaotic realm of demonic hierarchies, animalistic, vulgar and grotesque creations If this soul-spirit consciousness split remains at the death of the body, the human being enters this Underworld of darkness and demonism [5]

Building Wings

When the Soul Matrix and Monadic Matrix begin to merge together in the first stage of sacred hierogamic union, this is called Building Wings, signifying the union of the masculine and feminine as One. Upon Building Wings in the lightbody, the chakra membranes dissolve and merge into one unified column of light. At this time, the planetary grid is in the unusual position of supporting both humans with chakras on the 3D timelines, and humans on the ascending path without chakras on the 5D and above timelines.

Soul Fragment

When aspects of the Soul fragment and sink into the lowest layers of perception, they enter a danger zone When the Soul is separated from its higher Spirit body it continually sinks into the lowest dimensions, where the personal shadow and collective unconsciousness start to flow together and merge. When this merge with collective unconscious occurs, dark, chaotic, shadow bodies start to emerge and multiply, possibly becoming fixed and consubstantial with the Soul, engulfing its light. The Soul aspect enters the realm of the underworlds or phantom matrix, which are the spheres of collective unconsciousness in which the NAA and lunar groups are directing artificial technology to create consciousness traps. Primarily, the consciousness traps are the AI False Timeline Propagation that was generated from the NAA group's 9-11-

2001 declared war against humanity, called the Armageddon Software. This event signified that they intended to take complete control over the future earth timelines, and would attempt to circumvent Ascension by continued dimensional blending experiments and instigating wars, while rolling out the Transhumanist agenda.[6]

Astral Plane and AI

The Astral Plane is essentially assimilated into a fully technologically based realm that uses Artificial Intelligence to read the collective race consciousness and then fuse it with an AI hive mind that generates many artificial dreamscapes that program virtual environments for the Phantom Matrix. If a person blends with the artificial intelligence located in these virtual environments, the individual's co-creative consciousness will start to manifest these artificial dreamscapes into forms in the fallen system, becoming Consubstantial with the NAA and dark forces that exist there. Souls of Tara

With current major magnetic shifts, matter substance is becoming less dense and changing its chemical structure. As it becomes more fluid and flexible there are articles or things rising to the surface. This reveals an assortment of artifacts and objects manifesting from other timelines, as well as parasitic debris coming to the surface for witnessing. Future timelines reveal the fragments of various kinds of bodies, energetic bodies and spiritual bodies that were exploded and became intermixed with the matter substance in the earth body. Timelines from the 5D earth matter, connected to the Souls of the Taran body that exploded, became a type of radioactive decay intermixed into the soup of matter that came into this physical dimension, from the explosion event and the magnetic manipulation of the time and space fields. The World Soul of Tara, became a part of the atomic body of this physical planet, stuck and strewn between the first and the fourth dimensions. We are in a phase of time where the matter composition is changing into something less dense, and while it's in less dense states we are able to move out these artifacts, assorted bodies and consciousness remnants. As a result, some of us may have been helping in the recon and transit of the Souls of Tara, which is connected to the Reclamation of Christos Mission that goes back to the Covenant of Paliador

And so we leave you with GSF Blessings to be applied on their behalf. See Tara.

I would like to finalize a God Sovereign Free blessing to the Taran souls, or souls which we are representing here and now to have them go forth fully freed in the eternal light of God

Beloved holy presence in Cosmic Sovereign Law, I am your compassionate witness in service to the souls of Tara or the world collective soul of which this impacts. I pray with all of my heart to bless them and protect them in the eternal light of God in the blessings of Holy Spirit and the spirits of Christ to be fully freed from the spiritual burdens and shackles that have been placed upon them by those imposters and deceivers of God's eternal light. Through the light of God I am and through the power of love in my heart, I consecrate and bless the world Souls of Tara to be freed into their highest expression and true nature that they may be with God. May they be God Sovereign Free in the eternal light of God now and always. May all beings be baptized and blessed in the Holy Spirit so that the true nature of God and reconnection and reclamation of Christ is fully made manifest in this reality here and now. Thank you![1]

Amenti Mission

Lyran Sirian contact expressed that those responsible to guard and protect humanities genetic records and hidden histories were primarily ambassadors of the Sirian administration councils. The Sirian Lodge is a Hall which oversaw the 6D networks which acted as the portal for Star and Indigo Races to incarnate on the earth plane through the Amenti halls. This Lyran-Sirian administrative body created the Azurite council for the sole purpose of a collective team to support the human embodiment of the Jesus Christ or Yeshua Mission to repair these networks and secure the Amenti field. The Azurites were assigned primary responsibility for the carrying out of the Covenant of Paliador which is to recover the lost Souls of Tara.

Organic Field Restoration

For those on the Christos Mission, we have regained access into the pre-Fall of Taran holographic matrices and organic field instruction sets in the second harmonic universe, which have reset the consciousness evolution pathway into organic timelines for the Taran souls. This is one very important alteration that has been recently upgraded in the collective human race transduction blueprint records on the planet earth. This challenging stage in the Guardian mission of reclaiming 5D architecture from the dimensional splits in the Artificial Timelines, that were pulling 5D Taran fragments into the phantom, is a major milestone and victory in these timeline wars.[2]

Taran First Human Seeding

The matter form body we have embodied as an angelic human being began on the earth's fifth dimensional future timeline, the future planet Tara is the true origin of the current prototype for the human tribes on the earth. The angelic human prototype on Tara was incredibly genetically advanced and was designed to embody and hold all of the Universal Genetic Library, as well as have direct communication links with the celestial management structures and other star civilizations. Other civilizations wanted to interbreed or hybridize with these new God creator bodies called Tarans, and the blending with non-humans created genetic diversity in such ways that began to fragment and fracture the consciousness body of the human species. Alien hybridization and eugenic programs are still very active today in the current enslavement agendas, as the same entities are attempting to steal or crack the God Creator DNA codes found within the angelic human body, are still working on using human DNA as a consciousness weapon against our species. The planet Tara was originally inhabited by God-like humans designed to be the Guardians of the Universal Genetic Library, thus collectively we held the jewel in the crystal heart of the entire Universal body. When Tara fell, our Sacred Crystal Heart would be shattered and the angelic human species would be forced to return to incarnate upon the earth in the lowest density during the dark ages, in order to begin the long process of reclaiming and healing our original human DNA.

During the ending evolutionary cycles on Tara, conflicts erupted within those Melchizedek factions that desired guardianship over the spiritual power of the Blue Flame and decided to appoint themselves as the Keepers of the Blue Flame. As self-appointed Blue Flame Keepers, these groups started experimenting with directing the planetary core Staff with the Blue Flame to achieve certain objectives, often utilizing planned strategic methods in order to gain power over others. The sixth dimensional wing holders of the patriarchal Melchizedek faction violated their agreements with the Paliadorian Covenant through power abuses when they unleashed chaotic underworld forces and then used them as a weapon to infiltrate the Egyptian-Serres culture on Tara. The Egyptian-Serres human tribe acted as the rod and staff holders that synthesized the unity code between the twelve tribes to hold the Universal Tribal Shield. This power grab made by the patriarchal Melchizedeks contributed to the ultimate destruction of the planet Tara and the disintegration of the vertical blue flame staff.[3]

SPE

Abbreviation - SPE or Suppressor Parasite Entity

Suppressor Parasite Entity (SPE) Genetic Artificial intelligence (AI) drones or Archons sent by higher ups in the Negative Alien Agenda NAA or those entities that source from Imposter Spirit and are a type of militarized AI to dominate and posses consciousness through Mind Control and thought projection This is militarized psychotronic warfare technology that is primarily sourced from Orion Groups consortium of Black Sun Program.They are mind and body parasites that can be individual or in clusters that attach to the bio-neurological system and are a Mind Control technological warfare. It has been observed that after a sequence of deeper layers of infection in the Lightbody, the SPE will harvest genetic material out of the human DNA host to form a type of Cyborg. We believe this is apart of the transhumanist agenda to create cyborgs in the human population through AI, to be used for a variety of purposes (slave labor) on earth and to be taken to other planets by the NAA. It appears that through insertion of holographic images with the intention to control the individuals Consciousness, the SPE is also creating astral delusions that the person believes is real, becomes addicted and attached to on the Astral Plane, thus acting as Consciousness Traps. [1]

SPE's are aggressive Artificial intelligence parasites that invade the central nervous system to monitor a persons thought patterns so that they can mimic them They monitor thought patterns and emotional behaviors and search for weaknesses within the human host body so they can aggressively use that weakness against the person to plummet them into very low frequency thoughts of the Predator Mind. See the Houses of Ego. When a person has weak spiritual-energetic development, weak moral character along with a weak mind, this makes it much easier for the AI parasite to control the human being and prepare the body for dark force or Imposter Spirit Possession.

The way to dismantle and deactivate artificial intelligence and nanotechnology Alien Implants is to develop your heart center and spiritual human qualities such increasing deep emotional feelings of Loving Kindness, Compassion and Empathy

Archons

The Archon is defined as a False King of Tyranny Ruler that controls through masks of deception promoted through warring technological abuse, such as Mind Control, frequency implants, and military strategies and can be applied to human or non-human (alien) sources. It is both the military human and non-humans shared greed for domination of

which they both employ hidden advanced frequency technologies designed to perpetrate and promote the Archontic Deception Strategy of the NAA. The Archontic Deception and its Patriarchal Oligarchy stems mostly from the Reptilian and Draconian races from the Orion Constellation, together they are called the Orion Group. See Archons and Archontic Deception Strategy. June 2013 Newsletter

Inorganic Entity

Inorganic and unnatural energy is defined as that which exists as an artificial structure to replicate or generate energies discordant with the Universal Natural Laws. Inorganic energies are generated by artificial systems, therefore are Artificial Intelligence Alien Machinery that is replicating forces to replace natural laws, and ultimately bring death, disease and destruction if not brought into balance. As an example, when a person chooses to manipulate others energies and resources for personal gain by outwardly lying and controlling the influence he has on others, this is defined as "artificial and inorganic" This person has put up artifices and deception in order to exploit others by representing the opposite of what he says he is representing. This is inorganic to the natural laws of energy [1]

One may note that things in nature represent themselves as what they are and do not hide what they are not. A bird in its natural state does not act like a dog, as the bird responds to its natural blueprint of creation If the bird is exposed to synthetic chemicals (inorganic), it may mutate to inorganic states of disease, which will rapidly deteriorate the breed from its original blueprint, possibility causing extinction.

In another example, if a Negative Alien Implants a human being with Mind Control and manipulates his thoughts without his conscious awareness or consent, this is a violation of the natural laws. The "implant" being used is Artificial Machinery and not organic to the person. Because it is not organic it can create disease, pain or immense trauma that create schism in the person. The more schisms a person has blocking Self Awareness, the more soul fragmented they become. All interference and manipulation that interrupts and blocks the flow of a person's spiritual source (organic) light, is a violation against the Natural Universal Laws. Continued violation of natural laws, brings genetic deterioration, physical and mental sickness, and eventual extinction of a species of not corrected.

SPE Implant Tentacles

Most commonly these will be located and palpitated for on the temporal areas of the skull, either left or right side of the cranium, above the ears. When palpated for, they may throb or pulsate, when being physically "observed" Most generally appear in etheric vision as "crabgrass", shadow looking spiders or as an octopus, jellyfish with tentacles. They become more pronounced when they are being energetically "fed" by Mind Control thoughts that the unaware person is looping within their mental body When SPE's are fed via the subject's mind looping and obsessive thoughts, they will replicate themselves into pods that look like seeds. These pods will form longer tentacles that attach themselves throughout the spinal cord and spinal nerves, in advanced stages. They first appear to cleave onto portions of the energy body that have etheric or radial damage in the lightbody from unhealed trauma These also will be felt as physical body blockages or physical pain by the subject. The primary function of SPE appears to generate thought-forms that are replicated by the person's own cloned genetic material, so that the person believes these artificially produced thoughts are of their own making. This is to trick the person to believe what they are "hearing" is their own inner voice, when it is not. Many times the storage area of the brain that translates voice recognition/languages will be compromised, this area is the Wernicke's area of the brain Emotional clearing, possible EFT (Emotional Freedom Technique) will help clear and release this pattern in the Wernickes, and in the meridians.

It is known SPE's are vibrationally sent through frequency thought control carrier waves into the meridian systems to run codes to the neurological system, which materializes in the Person through its frequency substance when they are gripped in mind control They are first lodged into the gallbladder meridian, (runs in all 44 points), which starts at the top of the

ear, on either side of the cranium. The gallbladder meridian relates to the 4th dimension and is the only meridian in the body that has a interface which allows a point in and out of the astral dimension that goes directly into the cellular matrix of the physical body itself. This purpose is to infiltrate the physical body to be controlled and to slowly take over the nadial and central nervous system, therefore the subject's brain.

As insidious as these are, they can be defeated through reprogramming thoughts and taking command of one's space in GSF. They can be removed by skilled and activated person's with hand/palm codes, however for most people it is very painful to remove them from the body by hand. The pull must be generated at site origin of the SPE embed on top of the ear, and that is on the hairline, so body hair gets easily pulled. The general modality is to Identify and Locate the SPE nest, gather its energy in one's hand and with laser mental focus, collect it and pull it through the natural meridian line of which it is attached. It is important to pull hard and quickly as to not lose the momentum of the "paralyzed" SPE and its structure as its been gathered by activated hand codes. These activated hand codes are also referenced as Orion Healing Codes.

AIM and HGS sessions are working to assist with the frequency dissolution of these painful SPE implants, as to help remove them as pain free from the human body as possible. Removing these SPE's in the most efficient and easy way possible, is still in a state of exploration. However it is abundantly clear the subject must be 100% in agreement to remove them, aware of them and not in resistance of their personal emotional or mental body responsibility. The person must be willing to control and change their thought patterns and reclaim their brain, nervous system and consciousness in the Law of Consent. Once the SPE is removed, emotional dross and Holographic Inserts is removed from the body and staying psycho-emotionally centered renders the person immune to them, and repels repeated infection. Adherence to the practice of the Law of One, developing Virtues and ethics is key to heal oneself from this insidious infection.

There is in some cases of observing a relationship of 4D SPE astral infection and 7D Crucifixion Implants. In the case study of LR, the SPE nest was removed in conjunction with left side Crucifixion Implants removals.[2]

Archontic Genetic Engineered Entities

Compiling information on SPE is a huge work in progress that began in 2004 along with the NRG project, and has been activated with the recent Planetary Emancipation Gridwork (PEG) Project Week 3 [3], which feels like this particular distortion on the planet will get heightened. It is complex in how SPE are intertwined with the etheric webbing of the auric bodies. However, I am starting to compile information that is pertinent to comprehending the SPE, Archon operations and its relationship to the GB meridian and Astral Plane body.

This is one of the main sources of voice recognition mind control that is implanted most commonly through the Gallbladder Meridian. It seems to be much more difficult to release these from the male population, it is what is used most commonly to commit violence or sexual distortions. So understanding the energy/acupuncture relationship to the gallbladder meridian health is important in vanquishing these entities. When learning how to comprehend partial possessions, such as the recent mind control used on the Muslim Youth groups in London and Stockholm, this is how they Negative Alien Agenda(NAA) get access to sleepers and start planting their minds with these violent thoughts.

Important Notes

SPE are jelly fish, spider or crab grass like blobs with "tentacles" that are genetically engineered by the NAA militarized Archons to implant the side (lateral) head of the target, and can be either right or left or both sides. They eventually move into other parts of the body through the central nervous system. They generally are implanted in the GB meridian from the outside corner of the eye and wrap around the ear like the GB meridian. These engineered machines "mimic" the person's thoughts, voice and create a voice recognition pattern with the person/host brain pattern and chemistry. This implant

takes time to "train" the body to "listen" to the artificial entity, and as the person is unaware that the Mind Control is being used to influence their thoughts, actions and behaviors, the entity actually "grows" It has a hub/brain in the center blob which has etheric tentacles that will grow to stimulate parts of the CNS/autonomic responses in the spinal nerves. spinal cord. In more advanced stages it will be the voice inside the host's head, pushing thoughts into the mental body It feeds and grows on the life force of the host like a parasite. The thoughts are programmed to genetically mimic your own voice recognition pattern which hardwires the brain to react automatically as the brain thinks it is receiving self-impulsed thoughts. This is used to create human military machines or create sociopaths, who do not ask questions but just carry out orders or react without applying reason or intelligence.

When there are changes shifting the planet, certain elements get amplified, and I believe this issue is getting amplified now This does present an opportunity because at these moments we also can find ways to clear and eradicate these insidious implants and understand better how to address them when we notice them in other people

I feel that the NAA uses males more to carry out these acts of violence, and to get them to do so, will implant them with these SPE's. I have noted the tentacles when they grow create instinctual reactions in the person, and this can eventually grow the addiction matrix to be at the whim of this controlling SPE entity, having trained the brain pattern.

It is possible to pull them out of the body from the GB meridian channel with your hands and fingers, and there was a time where I learned to do that, although very strenuous and taxing to my person. I feel that the balance of female-male hierogamy in energetic session work makes the removal of these insidious objects easier I feel that more of us in this community will activate our meridian channels in our hands to be able to actually "pull" these frequency alterations in the field out and away from the persons skull The ability to pull out implants with the hands is referred to as the ORION CODES. This is because this is a remnant from the Orion Wars. The HGS will probably be a tandem tool to work with this as we get more skill and expertise learning how to disarm and destroy these creatures at their source location in the temporal area of the brain and skull.

In the interim to stop them from being implanted or growing further if you are suffering from this kind of attack.

1. Be conscious of their existence and know they're there, do not allow yourself to go on auto pilot and dentify them as not a part of your organic self
2. Do not feed them in any kind of frenzied emotional or sexual displays. Calm and discipline your emotions
3. Palpate the temporal lobe you can feel them "pulse" with your fingertips Especially when you catch them off guard
4. Work with the gallbladder meridian meditation and ways to increase the flow of your GB meridian energies Study the GB meridian and in meditation focus all of your might on removing these and asking for Guardian Kryst support to do so
5. Acupuncture may help move the energy flow in the areas the tentacles are embedded
6. Detox your Gallbladder and Liver to help remove parasites both energetic and physical Parasites are a source of mind control and disease
7. Energy session workers may be able to gather the 12D GSF energy in your hands in a ball encapsulate the entity brain/hub inside your hands energy ball and build the energy momentum to destroy it The thing will hide itself and cloak itself, so it's important to not engage with it in conversation at any level
8. Intuitively you may learn to pull out the structure through the GB meridian pathway out of the finger tips or the toes which is entirely possible although it may be painful to the subject (Hair gets in the way around the ear) When you capture the entity and pull it out, it will create cracking energy noises over the joints – you can hear the energetic structure moving past joints
9. Meditate, clear negative ego and hold inner peace and this stops them from growing, they wither away and make them easier to pull out like half-dead weeds
10. They seem to be related to the C1/C2 dislocation at the back of the cranium and spine, and crucifixion implants These implants seem to make their removal much more difficult, so when the Atlas adjustment occurs and there is a systematic release of the crucifixion implants these jelly fish creatures are much more easily pulled out at the side temporal lobe So a part of the issue is waiting for the person to evolve to a point where they can participate with their own spiritual growth, and recognize these creatures, otherwise pulling these out can feel like a violation to the body

11 Our ES meditations and HGS will he p although I have not had a verified case of total SPE removal that I have been made aware of as of yet This may be why this is coming up so our community can pay attention and be aware of these insidious and malicious entities.

Observations of AI

1 When they grow they have a life cycle similar to a jellyfish, the central organism creates pods, so you can have something like a family of SPE creatures, a large Parent hub with smaller children pods These pods are deposited in areas of the meridians to control the CNS
2 The main Parent Hub seems to always be located in the temporal lobe above the ear, either right or left side
3. The tentacles can grow down the spine and neck, and will create muscle stiffness, pain, headaches.
4. They can jump on to people that are vulnerable to mind control like massage therapists or other practitioners not advanced in shielding or aware of the NAA agenda.
5. People with these tend to act erratic, may be responsible for personality changes and eventually in advanced stages become automatons
6. Please see my crude drawing for the location area and note the main hub Parent with the smaller pods deposited around it

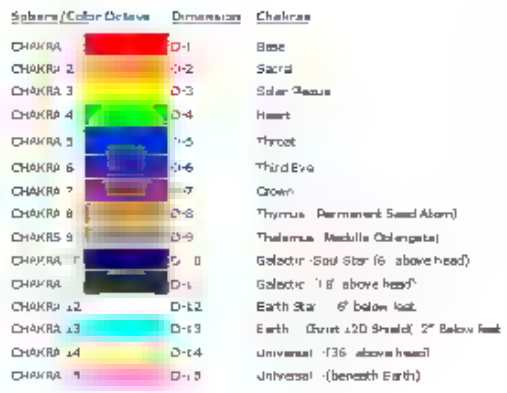
Spectrum of Frequency

Awareness of our Lightbody, the Human Energy Field and Spectrum of Frequency supports the beginning of understanding that all and everything around and within us is an Energetic Form and Vibratory Quality and Rate of Frequency. In our Ascension model we recognize and work with 15 Wave Spectrum of Frequency that correlate directly with the Universal Rays (See the Universal Time Matrix) and our individual Chakra systems.



Chakra Wave Spectrum

We are Pure Energy and Consciousness and with that there are very specific locations within our Lightbody that an individual's choice of expressing emotion, thought, memory and experience all contribute to the manifestation of experience and form into physical matter. This will help us to become self-sovereign within our personal power and responsible manifestors in the world of form thus experiencing a much greater range of joy and fulfillment in the unlimited possibilities of co-creation.

Rate of Frequency

Energy is Consciousness and it either contracts or expands to maintain or increase its Rate of Frequency. The process of how fast or slow energy contracts back towards its center point of source field is the Vibration rate. The process of how fast or slow that same energy expands away from the center point of the source field is the Oscillation rate. The combination of both the pattern of Vibration (contraction) and Oscillation (expansion) speed is what determines the Frequency rate of all energy and things. As our personal, collective and planetary consciousness raises frequency, the matter world, including our physical bodies, also becomes less dense as our Frequency increases. [1]

Chakra Functions

Chakra Functions are to transmit and receive Spectrum Of Frequency.

It is important to open the chakras and increase the circulation of energy flow or life force because the more energy that is flowing, the healthier we are. Illness in the body is caused by energetic imbalances or blockages of the flow through the bodies systems. Reduced energy flow not only leads to illness and states of disease it creates distorted perceptions that allow us to be out of harmony with natural laws that interferes with experiencing life as our true authentic self.

The Chakras major functions are:

1. Vitalize the Auric bodies and thus the physical body, organs and glands

2. To bring about the development of different aspects of self-consciousness. Each Chakra is related to a specific psychological (higher mental blueprint) form and function.

3 To transmit energy between the Auric layers of the Lightbody Each Auric body has its own set of seven major particle wave Chakras, and eight corresponding anti-particle wave Chakras (also called morphogenetic chakras) each located in the same place on the physical body Each progressive layer exists in increasingly higher Frequency, each with a higher frequency band than the lower one. Energy is transmitted from one layer to the next through pathways in the tips of the Chakra Most of these pathways are sealed in most people They open through the intention to align to expanding their consciousness or through spiritual purification work. Since the Chakras serve to vitalize the body they are directly related to the pathology or energy blockages in the body

Harmonic Universes, Stations of Identity

For human beings, these consciousness bodies exist throughout the densities and are aspects of the higher self and Lightbody.These aspects are called the Stations of Identity

- In the First Harmonic Universe in 1D-2D-3D exists the three layers of the personality matrix or incarnated human
- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Soul Matrix
- In the Third Harmonic Universe in 7D-8D-9D exists the three layers of the Monadic matrix
- In the Fourth Harmonic Universe in 10D-11D-12D exists the three layers of the Christos Avatar Matrix.
- In the Fifth Harmonic Universe in 13D-14D-15D exists the Three Layers of the Rishi matrix or Threefold Founder Flame or GSF Flame.

Speed of Light

According to current mainstream science, Light travels at a constant, finite speed of 186,000 mi/sec. A traveler, moving at the speed of light, would circumnavigate the equator approximately 7 5 times in one second. By comparison, a traveler in a jet aircraft, moving at a ground speed of 500 mph, would cross the continental U.S. once in 4 hours.Sunlight takes about 8 minutes 17 seconds to travel the average distance from the surface of the Sun to the Earth

The speed of light in vacuum, commonly denoted c, is a universal physical constant important in many areas of physics. Its precise value is 299792458 metres per second (approximately 3.00×108 m/s), since the length of the metre is defined from this constant and the international standard for time. According to special relativity, c is the maximum speed at which all matter and hence information in the universe can travel. It is the speed at which all massless particles and changes of the associated fields (including electromagnetic radiation such as light and gravitational waves) travel in vacuum.[1]

From the Guardian perspective, the speed of light is not constant or finite, but instead is relative to the station of consciousness within time or space, the shorter the frequency wave, the higher the frequency spectrum, thus the more expanded the consciousness body, the faster the speed of light.

Spherical Energy Domains

On the macrocosmic scale of the Universal Time Matrix, within the center of a merkaba field is a shield or spherical energy domain in which the process of individuation occurs within a holographic template form manifestation. In the exact center point, this sphere of energy exists in the center of the merkaba field in which the blueprint of that form is held to project that consciousness into matter, so the individual consciousness experiences a three-dimensional time and space. Each harmonic universe is comprised of three spherical energy domains that are nested within each other and surrounded by a frequency barrier, at the center of which exists the electromagnetic mathematical program that projects a hologram into three dimensions of time.

Within the Universal Time Matrix there are five nested harmonic universes, each with three shields or three spherical energy domains. Each subset of three make up the dimensional spaces that exist within that particular three-dimensional spectrum of frequencies, or the electromagnetic domain in that harmonic universe. As an example, the first harmonic universe is where we have incarnated in this evolution cycle here on earth. This is made up of three layers of dimensional spectrums of frequency in 1D-2D-3D, that make up the three spherical energy domains of the personality matrix and the physical plane of matter. During the Ascension Cycle, the planetary body is transitioning into the next three layers of dimensional spectrum that exist in the 4D-5D-6D layers, that make up the next three spherical energy domains which include the entire soul matrix and this is located in the second harmonic universe.

Horizontal Triad Bodies

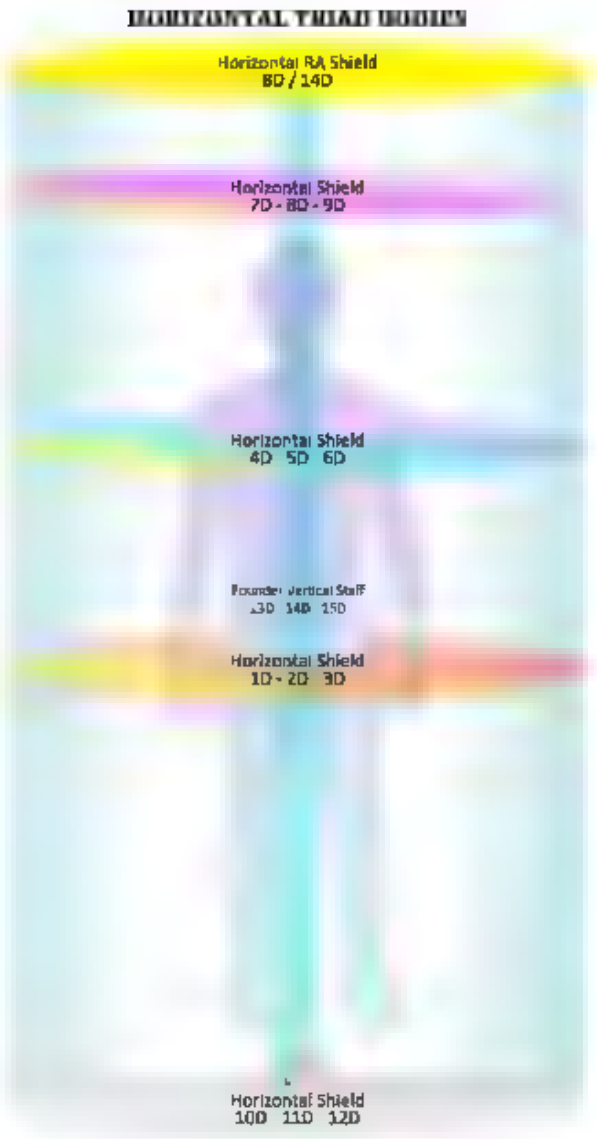
When we incarnate into a three-dimensional electromagnetic domain we are imprinted with the holographic template of the complete Universal Tree of Life, and all of these five harmonic universe layers direct the instructions for our consciousness life stream that is experiencing time and space. The five levels of the harmonic universes govern the spin rates for all of the merkaba fields which transmit electromagnetic currents that are based upon the architectural laws and frequency characteristics that exist within each system. As an example, the spin rate of the planetary merkaba fields govern the birth, evolution and death cycles of the entire planetary species.

As we are made aware from the Guardian Host context, alien machinery was installed into the planetary body for the main purpose of controlling these merkaba spin rates, and thus genetically modifying and controlling the direction of the collective consciousness stream of the planetary inhabitants. Thus, each individual receives the life force current, consciousness level, matter form and the holographic projection experience from their light body DNA template and the connections it has made with the merkaba spirals that transmit from within these five harmonic universes. This is required to align the merkaba fields to corrected positions that facilitated planetary ascension, as well as the continued biological spiritual expansion of the planetary inhabitants. In the dark cycle following the Luciferian Rebellion, the planetary architecture in the lower harmonic universe was blocked from interacting and receiving organic energy

transmissions from the higher harmonic universes. As a result, planetary ascension and full biological ascension in a silicate matrix 12 strand template was not made possible

All of this changed in the 2012 and beyond ascension timeline, and now these energetic connections exist between the personal lightbody which is the microcosmic merkaba field, and the macrocosmic merkaba fields that are transmitting vast amounts of ray currents from the planetary, galactic and Universal levels The macrocosmic ray currents are transmitted through the electromagnetic domains to be received into the microcosmic radiation bodies, or the Radial Body of the individuated consciousness forms that exist in the lower harmonic universes. For many people on the earth, their lightbody has been damaged or blocked with trauma so these macrocosmic energy connections are disconnected from these five layers that make up the Radial Body and the lightbody is unable to run the life force currents properly throughout their bodily systems.

In order to expand the life force current beyond the control mechanism of the base 10 artificial merkaba fields on the earth, and begin to repair the metatronic reversal fields and miasmas, the individual will need to intend to spiritually develop towards removing alien machinery and false identities and begin running the tri-wave current of the Christos shield. The Christos blueprint is a base 12 holographic template that continually expands to circulate the life force currents that exist from the God Source fields all the way into the lowest harmonic universe These trinity wave forces re-string the subharmonics through every electromagnetic domain that holds the original divine human template of the entire 12 Stranded DNA.



Horizontal Triad Bodies

The Christos imprint begins to circulate and expand the Radial Body layers of the higher frequency life force currents into the DNA-RNA from the axiom lines, which send it directly into the personal spherical energy domain, running current into the horizontal triad bodies. Each spherical energy domain is a template for the horizontal triad body that corresponds to three grouped DNA strands that are connected to the electromagnetic domain of that particular harmonic universe The activation of the merkaba fields in each of the harmonic universes relates to one set of the three DNA strands, which corresponds to the triad of the spiritual bodies, the soul, monad, avatar and rishic consciousness levels.

The horizontal triad bodies are made up of trion fields, the ante-matter consciousness units from the highest harmonic universe which allows the individuated consciousness to make the energetic connections to the primal light source that occurs beyond or outside of the time matrix. The corridors leading into the God worlds are also referred to as the Center Point of All Union, these are the transmigration levels and home domain of the true Ascended Masters and Cosmic Citizens.

The interconnected collective layers of all of the five horizontal triad bodies which includes all spherical energy domains, is called the Radial Body These are multidimensional radiation identity spheres that encompass and protect the horizontal triad bodies. The Radial Body controls all of the internal spherical energy domains which further govern the holographic

projection in the timelines that the individual consciousness experiences while incarnated in the harmonic universes. The merkaba field circulation of the instruction sets that pass into the personal Christos shield and then into the individuals' DNA template are what inform the Radial Body about the specific design for the actual holographic manifestation that is being experienced in time.

The Radial Body

Most are unaware that the extensive connective tissue of the fascia network is the manifestation of the pre-matter instruction set of tissue capsules and complex crystalline webbing that make up the multidimensional identity spheres energetic structure of the Radial Body

Within the spiritual anatomy of the human lightbody, there are extremely refined layers of tissue capsules that act as an energetic skin which holds together the five spherical layers of the horizontal triad bodies that are collectively referred to as the Radial Body. The five horizontal triad grids are spherical energy domains that hold the morphogenetic field for the mental bodies and the stations of identity in time. Each formation of the energy sphere in a triad body shield builds a layer in the horizontal structure of the 12 Tree Grid and is directly connected to the mental body and the masculine principle that builds the internal Rod configuration. The Radial Body holds spheres within spheres that form tissue capsules or membranes around all layers of our horizontal triad bodies, which are structural shields that act similar to load bearing beams and flooring to our inner spiritual dwelling.[1]

Stargate

A Stargate is a vortex of energy wave spectrum that connects into multiple other dimensions within the Universal time space matrix. Stargates are an organic part of the the mechanics of creation and function as the core manifestation template of Universal creation, which is the holographic architecture called the 12 Tree Grid. There are 12 original Planetary Gates. The main planetary gates open into the Galactic and Universal Stargates at the end of evolutionary cycles These were sealed off by the Guardian Founder Races due to severe damage and control by Negative Alien Races NAA. As a result many Starseeds and Indigo 1 s have agreed to incarnate on the planet during the Ascension cycle to help repair planetary Ley Lines and embody Stargates.

The Stargates are directed by the planetary Lightbody of the second layer of the Crystal Seals Grid in the 12 Tree Grid. They form 12 seals and one to form a energy grid in the the physical realm. A Stargate is like an energetic program that has 12 Pyramidal Triangles above the One Great Pyramid.

Grail Point and Stargate System

Planet Earth has a Krystal Body anatomy that holds many energetic constructs, which form into Chakras, Axiatonal Lines, Ley Lines and the many energy vortices that make up the layers of the entire Planetary Auric Body The fact this planet was originally created from the Diamond Sun architecture, reveals the true creator of this planet and the progenitor of the human species This remains the truth no matter what extraterrestrial race has planted its flag on the earth surface, claiming the earth as their territory Starseed gridworkers may sense and work with many of these Holographic constructs in the earth grid, which form the basis of understanding the energetic architecture of the earth consciousness body, and how this structure creates the many realities and time fields. The many dimensional layers in the earth's auric body are the container for entire collective consciousness on planet. These structures hold the content of all of the consciousness that manifest into the many different kingdoms and species that exist on the earth They hold the point of origination for all of the collective consciousness energy that was originally seeded onto the planet, and entered the material realm from the Grail point. The Grail Point is located within the planet's second dimensional Stargates, with its primary access being within Temple Mount

The Planetary Chakra system, also called Stargates, acts to step down the higher energies transmitting from the Source field into the Sun, which is then directed into the many Stargates. The Stargates transmit an energetic spectrum of frequencies, moving from the higher to lower dimensions, in order to reach the matter fields and circulate them throughout the planetary grid network. Stargates create spirals of these energies, which are designed on a frequency scale

to circulate the God Source energy into reciprocal exchanges with multiple dimensions of creation. The frequency scale of the spirals of energy feed into the manifested realms of space and time, returning back into the center point of the feedback loop, thus, returning to unite with the God Source field. The Planetary Stargate that receives the transmission of the Source field for distribution into the rest of the planetary grid system, is the Grail Point or Grual Point. As many of us may be sensing, the transmission of the intergalactic plasma waves from the Source field into the Grail point and the Planetary Stargates, is greatly accelerating now.[1]

Subharmonic Strings

There are twelve (12) Subharmonic Strings within each of the 12 dimensions in the Universal Time Matrix, that make up a total of 144 Subharmonic strings. A dimension is a full frequency band of repeating sequences of flashing waves going on and off. (1D-2D-3D-4D-5D-6D-7D-8D-9D-10D-11D-12D = 12 Subharmonic Strings X 12 Dimensions = 144 Subharmonic Strings).

12D Ray

This 12D White Ray (a ray is a term for an energetic particle wave spectrum) is the consciousness unit and a level of our being that manifests on the 12th Dimension. The 12D Ray holds the imprint of all 144 Subharmonic Strings from all 12 dimensions in the Universal Time Matrix. It is the first dimension of individuation on which the original divine blueprint for humanity was created as a 12 DNA Strand Avatar. The Threefold Founder Flame, Prime creator merged Blue Ray (13D), Gold Ray (14D) and Violet Ray (15D). These three primal sound fields created all of our 15 Dimensional model of our Universal Time Matrix to create the Divine Monadic Blueprint for the Human Krystal Star or Christos Consciousness Being. This is also known as the Silicate Matrix, the Crystalline Body holding the codes of the Eternal Christ principle. Eternal Life Ever Flowing into the expansion of One Source. As we work with this 12D Ray and 12D Shield we reconnect the memory of our Silicate Matrix Crystalline Body into embodiment. This becomes more powerful during Ascension cycles.

Soul Subharmonic Strings

There are twelve (12) subharmonic tones within each dimension (4D-5D-6D), which make up the three layers of the Soul body. The person starts to accrete the 1st subharmonic of the Soul layers and must absorb all 12 to complete the entire 4D spectrum. This continues all the way up the harmonic scale of dimensions where we all have aspects of our spiritual bodies. These frequency notes drill down through the layers of our Lightbody until they're fully anchored and interconnected into our physical structure. This process is also referred to as light accretion. The combination of our natural biology, Soul and Monad intelligence is in charge of this process, and the higher intelligence does this as smoothly as possible. If the person resists or does not understand what is happening to them, it can block progress, and block spiritual communication from continuing. The NAA promotes fear in the spiritual development process to stop it from occurring.

Kundalini forces

The three main currents that exist as the Kundalini forces in the planet, that make up the 36 subharmonics of the first, second and third dimension, those harmonics were scattered from the static fields If we can think of music in its scale of harmonic tones, our planet should have been running these 36 harmonics in resonating scale. These first layers of 36 harmonics are what have created the lower particle fields in the first three dimensions. Each of these Dimensions has 12 Subharmonic String patterns, those 12 subharmonic patterns need to be running, and resonating together We are enduring the process of wrapping up or rolling up, the lower frequencies where these first 36 harmonics have existed in the red wave spectrum and the orange wave spectrum and the yellow spectrum, which have been making up the lower three chakras of humanity Those harmonic patterns are starting to braid into triads and this is a part of understanding that this directly impacts Kundalini forces, or the inner spark activated off of the Fetal Cells, that becomes ignited in the Tailbone of a person, when they begin their ascension journey

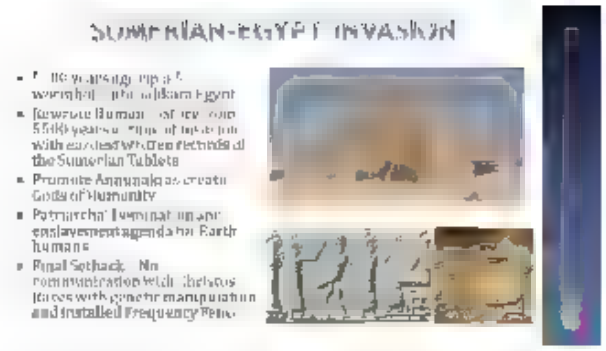
Sumerian-Egypt Invasion

The Final Setback in the Negative Alien Invasion of the planet earth. This is the point in our current historical record where the human DNA was unplugged and all Galactic Wars memories and our true origins were erased form our memories by the NAA races.



Sumerian-Egypt Invasion

- 5500 years ago the NAA groups rip a 5D wormhole into Sakkara Egypt.
- They settled into Sumeria and rewrote human history from 5500 years ago at time of Annunaki and NAA groups Invasion. We are told that the earliest written records of our history and language is the Sumerian Tablets.
- This begins the promotion of a false history, and False Father God Religion that the Jehovian-Annunaki are the creator Gods of Humanity. The Fallen Melchizedeks and Dracon an based Roman Catholics promote the distortions into Alien religions that promote Religious Violence.
- Indoctrination into Violent Religions, Patriarchal Domination, Reincarnation Recycling into the Astral Plane, and the Victim-Victimizer Mind Control enslavement agenda for Earth humans
- This is the Final Setback – There is no further communication with extra-dimensional Christos Races with the genetic manipulation and installed Frequency Fences which unplug human DNA and place a NET around the earth

DNA Unplugged

When the Sumerian-Egypt invasion began, this event unplugged human DNA and scrambled the Fire Letters and the geometric codes in the planetary Morphogenetic Fields which blocked Higher Sensory Perception and thus, blocked multidimensional perception of other Timelines and extradimensional races. The Stargate Takeover in Egypt form the Luciferian Rebellion allowed the Annunaki and NAA groups to erase the collective human race memory in the Astral Plane and Soul Matrix layers, of which they created the False Ascension Matrix as an enslavement for repeated human reincarnation for recycling souls. For those with their genetic preference or under Mind Control to serve the NAA on earth, they gave the real Atlantian Cataclysm history and the ability to have Higher Sensory Perception. They gradually infiltrated the ruling monarch classes and bloodlines and collected life force through SRA methods to give to those to remain in Controller power with the NAA program to continue to enslave the asleep, amnesiac humans.

The Alien Machinery distorted the 12 Tree Grid template created by the Lyran-Sirians on Tara as a homing device to find, retrieve all lost aspects of the 12 Strand DNA, such as retrieve soul fragments and mismatched body parts and human beings stuck in Phantom Matrix timelines

At the point of NAA invasion it blocked the 8th Portal and the 12th Portal of the Planetary Gates, therefore blocking the 8th Chakra and 12th Chakra and related energy centers in the human body and planetary body. This blocked life force and kundalini natural flow, blocked all the endocrine system glands, the pineal, pituitary, hypothalamus, thyroid, etc. This severely shortened the human life span and damaged immunity creating diseases and other mutations. This was desired to shorten life span in order to set up for recycling to Astral Plane in 4D

The most current issues facing humanity now is that these Negative Aliens have rewrote Human History from 5,500 years ago at time of Invasion in Sumeria-Egypt and instituted a Mind Control plan for Patriarchal Domination and continued enslavement agenda for all Earth humans

Armageddon Software

Using Humans to write the Bible as the source of religious Mind Control from the Jehovian Annunaki, the Patriarchal Domination and enslavement agenda for theArmageddon Software and Crucifixion Implants are put into the Planetary Logos which is the planetary brain at the 7D level of the magnetosphere. Alien Machinery is installed in the planet via Holographic Inserts of NAA Alien Technology to project Mind Control Archetypes and self enforced enslavement of humanity

The Draconians from the Orion Group infiltrate the the Church of Rome and use the Crucified Christ Figure of SRA and the False Father God Religion of Jehovah to perpetrate the greatest spiritual abuse of human beings. A psychological and spiritual warfare is waged against humanity in the form of technological Mind Control that uses brainwashing through Religious Fears, Persecution based upon Cataclysm, Terrorism and Pestilence wielded by Reptilians to torment humanity into submission of enslavement. The Armageddon story in the Revelation of the christian bible is based on the Atlantian Cataclysm and is a Reptilian Software to torment humans from their cellular memories of Atlantis and Lemuria that were erased in Conscious Mind and collective race mind in the Soul Matrix.[2]

Sun Disc Network

From deep within the Crystal Core of the planetary body, new instruction sets are being transmitted from the planetary staff into the earth's crystalline grid, which is in a process of releasing a tremendous amount of crystalline current and non-polarized current throughout the planetary grid network. This has activated Sun Discs and Sun-Star crystals that also interconnect with the underground crystal caverns that hold information about the hidden timeline histories of Earth, Tara and Gaia. Essentially, we are in a phase of receiving more positive energy and benevolent technology that is designed to support human Ascension and planetary liberation. The crystalline imprints are supporting the recoding of the kundalini forces that were missing an assortment of proper sub-harmonic frequencies, as well as igniting a vast network of previously dormant Crystal Caverns and star crystals. The crystal caverns are being reconnected through the Sun Disc Network in multiple timelines of the Earth, Taran and Gaian bodies in which they exist.

Plasma infusions have been made into the earth's Crystal Core, which include the process of weaving an array of Aqualine Light and sentient solar vapors from the Galactic Suns. This allows an interactive fusion between multiple Paliadorian Sun-Star bodies that have recently birthed into our Solar System network. This has increased the pearlescent color waves of the Eye of God that are becoming interlaced into the crystalline lattice of earth, stacks of interwoven chains that are connecting into the golden Sun Disc network. The Blue Rainbow Galactic Suns from the Aqualasha matrix in the heart of Andromeda, are one of the Galactic Sun-Star bodies that have shown up for grid projects and are supporting crystal transmissions for planetary ascension.[1]

Platinum Crystals and Sun Discs

The Platinum Crystal in the earth is connected with the Sun Disc Network, and this activates stages of balancing for the feminine-masculine principle and the mental bodies. Connection with these crystalline frequencies will begin to heal anti-Life reversal current, metatronic reversal and artificial signals of Mind Control. In the individual lightbody, the entire solar plexus area reconfigures the mental body layers into a Golden Solar Gate energy vortice, which is called the RA Center.

The Platinum Crystal and Platinum Ray current activate the Sun Discs which are organic spirals of gold crystalline technology that are embedded in the planetary grid which extend out into a highway of holographic light frequency patterns. The planetary grid is organized intelligently into layers of geomantic blueprints holding living crystal consciousness, which perform specific functions within a precise layer of a crystalline lattice. Thus, when the Platinum Crystal became activated in the earth body, the Sun Disc technology that had been dormant since the time of the Atlantian Cataclysm also began to come online. The Sun Disc gold spirals generate the crystalline lattice that connect directly with the crystal core and run throughout the earth body and into the celestial map of Sun-Star networks located in the Galactic and Universal plane. The planetary grid is a living ancient mapping system of multiple energy spectrums of stellar and crystal consciousness filled with intelligent geometric patterns of Universal Creation code.

The Sun Discs are vortices connected on the earth grid that interconnect with these stellar networks on multiple planes of reality, it is similar to viewing the holographic projection of the Cosmic Map of the Celestial bodies and Stars. Essentially through connection with the Sun Discs on the earth grid, it is possible to travel intergalactic highways of coherent crystalline solar light that allows for consciousness transport to other dimensions. The Sun Discs are being sequentially activated through the changes that have transpired in the Planetary Staff, shifts in the planetary axial tilt, the change in rate of spin, matter and anti-matter converging, and transmissions of an assortment of crystalline frequencies.

Recently the Sun Disc network has been highlighted during Solar Activations for this Summer Solstice, as a new Universal Layer of Paliadorian Solar Bodies have recently interconnected with the planetary Sun Disc network. The Paliadorian Suns have also been referred to as Sun-Stars, as they appear to transmit star crystals and star bodies, as well as a range of stellar frequencies. As a result of Paliadorian activation, new crystal bodies are being grown from the plasmic light activity in the crystal caverns, earth core and Albion body. This appears to be a transmission of healing crystal frequencies for the human tribes and race lines in the formation of new crystal stars, designed for healing solar bodies, in which those on earth with fractured souls are given crystal stars at some point in the timeline in order to heal their consciousness body.

Recent gridwork involving Guardian projects for Crystal Core Activation have highlighted underground crystal bed networks being activated through Easter Island to link with the crystalline energies that are connected to the Sun Disc vortices in Minas Gerais, Brazil, Lake Titicaca, Bolivia, Rosslyn Chapel, Scotland, Giza, Egypt and Uluru, Australia.[2]

Tara

The name Tara has been used to describe the future earth in its 5D form in the Soul Matrix Universe. Our planet Earth exists in three main formed identities in this Universal Time Matrix. The Earth originally came from Tara which was a planet in the second Harmonic Universe that exploded and then imploded into a black hole, some of the fragments were pulled into the lower dimensions and became our planet and Solar System. Organic and naturally evolving Solar Systems that remain connected to the Center Point of All Union generally include 12 planets, including the Sun or Solar body. In the Earth's Solar System, mainstream scientists have not recognized Nibiru and the planet Maldek which exploded a long time ago into the asteroid belt.

3D Earth, 5D Tara, 7D Gaia (art by Sequoia)

3D Earth is called Earth or Terra, 5D Earth is Called Tara and 7D earth is called Gaia. Different E.T. Races and extra dimensionals may call these future Earths by different names based on their language. (Such as Urantia) They are all planet Earth at different stages of evolution in the Timelines.

The 5D planet Tara exploded millions of years ago and as a result, was sucked into a reversal black hole which fragmented the entire fifth dimensional planetary blueprint into 12 planetary bodies in our current third dimensional Solar System. This includes the 3D version of Earth we inhabit in this Time Vector of the Universal Time Matrix. These 12 planets are Mercury, Venus, Earth, Mars, Maldek, Jupiter, Saturn, Uranus, Neptune, Pluto, Nibiru and then the Sun star. Current science recognizes only seven planets of the twelve in our Solar System, along with dwarf planets. [1]

12 Essene Tribes

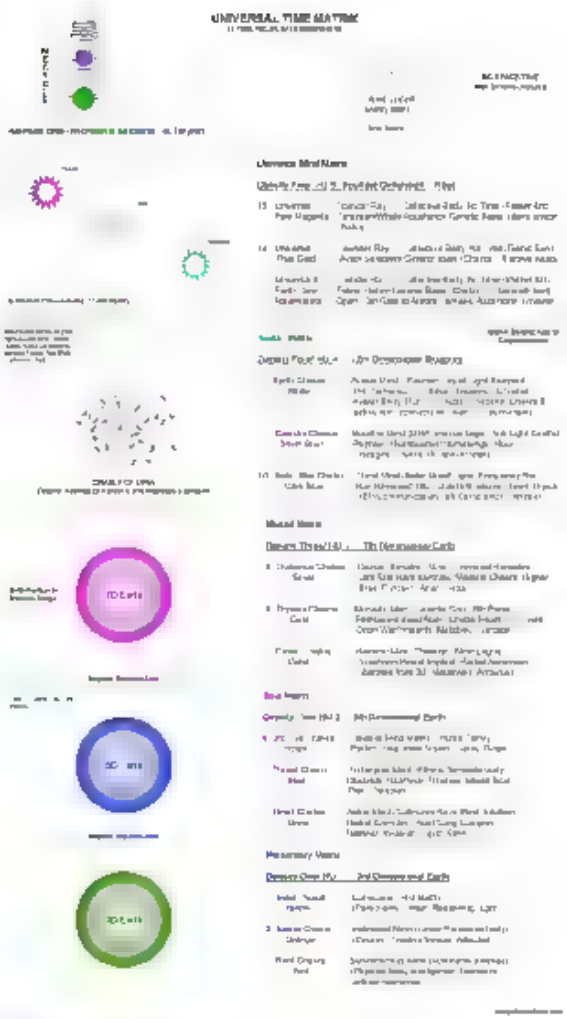
The Emerald Founder Records reveal that there are 12 Essene Tribes which make up the entirety of the collective human gene pool, or are the descendants of Universal Tribal Shield that has been originally incarnated onto this planet from the future timelines of Tara.

The original 12 Essene Tribes were seeded on the earth as a part of the evolution plan that was the result of the Covenant of Paliador, to rescue the lost Souls of Tara, making it easier to reclaim these identities when the stargates finally opened during the end of the Ascension Cycle.[2]

Second Harmonic Universe

These collective consciousness bodies exist on the planet earth throughout the densities and are aspects of the future timelines and the Lightbody of the planet earth. The earth consciousness body is directly interconnected in all Harmonic Universes to interface with the human consciousness, which is its life form expression in all densities.

- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Soul Matrix.
- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Tara Matrix.



Universal Time Matrix

Tara and Tiamat

Tara and Tiamat aspects were companions in a Binary Star system in the higher dimensions. Binary Star Systems are common for ascending planets with advanced races. Tiamats explosion and destruction in the 5D universe, along with the planetary cataclysm of Tara, is the reason our planet earth descended and has an artificial satellite which is the Moon.

Hu 2; 5D Pleiadian Groups

The 5D Earth Planet Tara was a sister planet to another 5D planet known as Tiamat of which her bodily remnants are located in the 5D Universe as the asteroid belt that is between the planet bodies known as Mars and Jupiter. The planet Maldek is the counterpart of the bodily remnants of Tiamat in the 3D Universe of which the asteroid belt exists between Mars and Jupiter. This means that the asteroid belt we see in the 3D Universe is Maldek's exploded planet, and the asteroid belt in the 5D Universe is Tiamat's exploded planetary body.

The Asteroid Belt with its comets move in a retrograde orbit, as does Nibiru. The Asteroid Belt has remained in the approximate place in the solar system as the former planet, Tiamat in 5D, and Maldek in 3D.

Tiamat was essentially the Taran 5D earth body Twin planet, and her consciousness was captured into Phantom Matrix and tethered to the Niburu planet trajectory in order to stabilize its orbit in our 3D Solar System. This Annunaki alien architecture between Tiamat and Nibiru is called Wormwood, which is used as an ET Outpost and its main structure is attached to planet Earth in the 11th Stargate NET in the United Kingdom, Stonehenge area. Nibiru is also called Marduk by the ancient Babylonians.

The Ascension Cycle transpiring on 3D Earth gives us the opportunity to reclaim these 5D fragments and consciousness pieces that were exploded and damaged in these cataclysms and Extradimensional wars.

Gaian Seeding

The first seedings of the first two Root Races occurred on the 7D version of our planet called Gaia.

Lost Souls of Tara

Future timelines reveal the fragments of various kinds of bodies, energetic bodies and spiritual bodies that were exploded and became intermixed with the matter substance in the earth body. Timelines from the 5D earth matter, connected to the Souls of the Taran body that exploded, became a type of radioactive decay intermixed into the soup of matter that came into this physical dimension, from the explosion event and the magnetic manipulation of the time and space fields. The World Soul of Tara, became a part of the atomic body of this physical planet, stuck and strewn between the first and the fourth dimensions. We are in a phase of time where the matter composition is changing into something less dense, and while it's in less dense states we are able to move out these artifacts, assorted bodies and consciousness remnants. As a result, some of us may have been helping in the recon and transit of the Souls of Tara, which is connected to the Reclamation of Christos Mission that goes back to the Covenant of Paliador [3]

Covenant of Paliador

The original 12 Tribes were created as a part of the plan that became the Covenant of Paliador to rescue the lost Souls of Tara, which would be made easier to recover during the Ascension Cycle when the Halls of Amenti were opened. The Luciferian Covenant was formed as a result of the earlier war of the Luciferian Rebellion, which was designed to divide and conquer the human tribes through intruder alliances of the NAA. This was to ensure the inner stargates, the Sphere of Amenti, and the Arc Portal Passages would be effectively damaged in order to ensure the failure of the recovery mission known as the Covenant of Paliador

Organic Taran Field Restoration

For those on the Christos Mission, we have regained access into the pre-Fall of Taran holographic matrices and organic field instruction sets in the second harmonic universe, which have reset the consciousness evolution pathway into organic timelines for the Taran souls. This is one very important alteration that has been recently upgraded in the collective human race transduction blueprint records on the planet earth. This challenging stage in the Guardian mission of reclaiming 5D architecture from the dimensional splits in the Artificial Timelines, that were pulling 5D Taran fragments into the phantom, is a major milestone and victory in these timeline wars.[4]

Taran First Human Seeding

The matter form body we have embodied as an angelic human being began on the earth's fifth dimensional future timeline, the future planet Tara is the true origin of the current prototype for the human tribes on the earth. The angelic human prototype on Tara was incredibly genetically advanced and was designed to embody and hold all of the Universal Genetic Library, as well as have direct communication links with the celestial management structures and other star civilizations. Other civilizations wanted to interbreed or hybridize with these new God creator bodies called Tarans, and the blending with non-humans created genetic diversity in such ways that began to fragment and fracture the consciousness body of the human species. Alien hybridization and eugenic programs are still very active today in the current enslavement agendas, as the same entities are attempting to steal or crack the God Creator DNA codes found within the angelic human body, are still working on using human DNA as a consciousness weapon against our species. The planet Tara was originally inhabited by God-like humans designed to be the Guardians of the Universal Genetic Library, thus collectively we held the jewel in the crystal heart of the entire Universal body. When Tara fell, our Sacred Crystal Heart would be shattered and the angelic human species would be forced to return to incarnate upon the earth in the lowest density during the dark ages, in order to begin the long process of reclaiming and healing our original human DNA.

During the ending evolutionary cycles on Tara, conflicts erupted within those Melchizedek factions that desired guardianship over the spiritual power of the Blue Flame and decided to appoint themselves as the Keepers of the Blue Flame. As self-appointed Blue Flame Keepers, these groups started experimenting with directing the planetary core Staff with the Blue Flame to achieve certain objectives, often utilizing planned strategic methods in order to gain power over others. The sixth dimensional wing holders of the patriarchal Melchizedek faction violated their agreements with the Paliadorian Covenant through power abuses when they unleashed chaotic underworld forces and then used them as a weapon to infiltrate the Egyptian-Serres culture on Tara. The Egyptian-Serres human tribe acted as the rod and staff holders that synthesized the unity code between the twelve tribes to hold the Universal Tribal Shield. This power grab made by the patriarchal Melchizedeks contributed to the ultimate destruction of the planet Tara and the disintegration of the vertical blue flame staff [5]

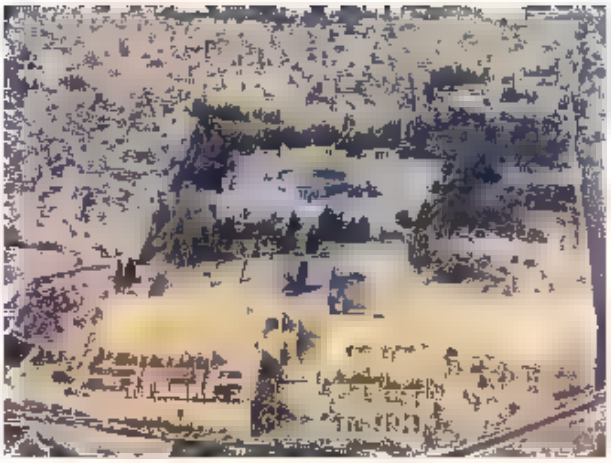
Temple Mount



Aerial Temple Mount

The Temple Mount, known in Hebrew as Har HaBáyit, the Noble Sanctuary, is one of the most important religious sites in the Old City of Jerusalem. It has been used as a religious site for thousands of years. At least four religious traditions are known to have made use of the Temple Mount. Judaism, Christianity, Roman religion, and Islam. The Temple Mount is the holiest site in Judaism, which regards it as the place where God's divine presence is manifested more than any other place. According to the rabbinic sages whose debates produced the Talmud, it was from here the world expanded into its present form and where God gathered the dust used to create the first human, Adam. According to the Bible, both Jewish Temples stood at the Temple Mount, though there is no proof for the first temple. However, the identification of Solomon's Temple with the area of the Temple Mount is widespread. According to Jewish tradition and scripture (2 Chronicles 3:1-2), the first temple was built by King Solomon the son of King David in 957 BCE and destroyed by the Babylonians in 586 BCE. The second was constructed under the auspices of Zerubbabel in 516 BCE and destroyed by the Roman Empire in 70 CE. Afterwards the site remained undeveloped for six centuries, until the Arab conquest. Jewish tradition maintains it is here a Third and final Temple will also be built. The location is the holiest site in Judaism and is the place Jews turn towards during prayer. Due to its extreme sanctity, many Jews will not walk on the Mount itself, to avoid unintentionally entering the area where the Holy of Holies stood, since according to Rabbinical law, some aspect of the divine presence is still present at the site. It was from the Holy of Holies that the High Priest communicated directly with God. The Dome of the Rock is located at the visual center of a platform known in English as the Temple Mount and in Arabic as Al-Haram al-Sharif, or "the Noble Sanctuary". It was constructed on the site of the Second Jewish Temple, which was destroyed during the Roman Siege of Jerusalem in 70 CE.[1]

Crusader period

The Crusader period began in 1099 with the First Crusade's capture of Jerusalem. After the city's conquest, the Crusading order Knights Templar was granted use of the Dome of the Rock on the Temple Mount. The Temple Mount had a mystique because it was above what was believed to be the ruins of the Temple of Solomon. The Crusaders therefore referred to the Al Aqsa Mosque as Solomon's Temple, and it was from this location that the new Order took the name of Poor Knights of Christ and the Temple of Solomon, or "Templar" knights. [2]

Golden Gate

The Golden Gate, as it is called in Christian literature, is the oldest of the current eleven gates in Jerusalem's Old City Walls. According to Jewish tradition, the Shekhinah (Divine Presence or Holy Spirit) used to appear through this gate, and will appear again when the Messiah comes **(Ezekiel 44:1–3)** and a new gate replaces the present one, that is why Jews used to pray for mercy at the former gate at this location. [3]

Ezekiel

Ezekiel cannot go anywhere until this field is cleaned up in relationship to collective masculine consciousness, especially that which is connected to the Hibiru Tribes lines. Recently, it has been magnified that the bones and graves of prominent people like Ezekiel had been robbed by the NAA. They use the Morphogenetic Fields of certain key figures that they have picked for Religious heroes or other roles that further the Yahweh-Jehovian False Father God Religions on the earth. In these cases, people have been mummified or buried in the earth when they should have been fully cremated. This also has relationship to the timeline of the Masada Massacres and Herod the 1st, to whom Ezekiel gave explicit prophecies many years earlier. Herod was responsible for the construction of the Temple Mount and the Second (Herod) Temple in Jerusalem. The 'Curse of Yahweh' is related to Ezekiel and to the sextant matrix that was used to shorten the human life span and kill the body. The Sextant Matrix is equal to degrading the elementals and to the corruption coded into the Mitochondria and DNA as miasms. [4] See Ezmeralda Archetype.

Solomon Shield

The Solomon Shield is a collective buffer field and horizontal network created for the earth to ensure an alternative evolution timeline during the Ascension Plan B mission by the Guardian Founder Races. The architecture is being built to connect with Temple Mount. This helps as companion to anchor the Consciousness Corridor, an array of Guardian Hosted timelines for identifying and locating lost souls, or fragmented souls that have been damaged due to Alien Machinery or that was harvested by the NAA on planet, in the last cycle. This shield network is designed to override the damage created in the 2nd dimension, such as the issues with San Graal Stargates (Temple Mount in Jerusalem, and Sarasota, Florida), the 2nd Chakra Orange wave spectrum, upgrading the Rod function to elevate into the 14th Chakra Gold Ray, and the support the Golden Eagle Grid functions for the masculine energetic principle, in both planetary and personal consciousness. Additionally, it serves to repair 1D to 4D,(False Ascension Matrix) to complete an interdimensional resonator tone which can link between the Astral Plane gates into the Mother Arc into the earth core, terminating the false white light matrix, which includes the False Umbilicus and its False White Webbing.

Planetary Emancipation Gridwork

The planetary stargate which connects into 2D Gate in Temple Mount Jerusalem and in Sarasota, Florida. We have received our second assignment and it is the **Inner Gate of Easter Island, Chile** and its wormhole to the linkup into Dome of the the Rock, Temple Mount in Jerusalem for the period of Tuesday, May 14th to the following Tuesday, May 21st. For those who are called to direct energy, focus and attention to help stabilize and support our ascending planet, this blog serves as the clarion call request to those families who are deeply inspired to pray for planetary peace and

emancipation. Intention Week Two Set up Meditation or Prayer Session dedicated to the Purposes of the Krystal Star Host communication networks for Stargate 2 Inner Gate Easter Island and its link into the Dome of the Rock in Jerusalem. Krystal Hosting for Planetary Soul and Humanity Tribe 2. [5]

Convent of Christ, Tomar

The Convent of the Order of Christ is a religious building in Tomar, Portugal, originally a Templar stronghold built in the 12th century by Gualdim Pais, provincial Master of the Order of the Temple, around 1160 The Convent Rotunda was modeled after the Dome of the Rock, after the Christ Templars fled from the invasion and massacre resulting from the first Crusaders capture of Jerusalem in 1099 The main rotunda in the Convent was made to connect with the Ley Lines and run sound frequencies into the earth, as the Essenes Christ Templars were aware of the holy grail point Stargate located in Jerusalem After the Order of the Knights Templar was dissolved in the 14th century, the Portuguese branch of the order was turned into the Knights of the Order of Christ, which supported Portugal's maritime discoveries of the 15th century.[6]

The Sacred Decad

These nine divisions of the Magnum Opus of Alchemical Law meet in Ophiuchus and are three (3) times three (3), plus the Universal Prima Materia (Azoth) life force which equal ten (10), the sacred decad of Pythagoras. The Hebrew Tetragrammaton (YHWH-4) and ten spheres of emanation in the Artificia. Tree of Life are based on the Sacred Decad or Tetractys. This is a triangular figure consisting of ten points arranged in four rows. As a mystical symbol, this was very important to the secret worship of the Pythagoreans which became the basis of many mystical teachings. Freemasonry and Rosicrucianism have claimed to have evolved out of the Pythagorean Brotherhood. Ten is the all-inclusive structure of the four dimensional Universe, which also represents maintaining the domination and order contained within the structure. Thus, ten also represents the "Control Matrix" of that construct which hypnotizes and keeps one locked in the illusion of the third dimensional world.

Tetractys

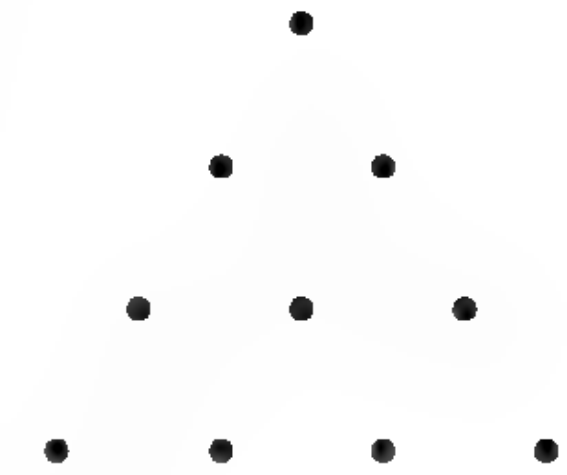
The Sacred Decad (10) or Tetractys symbolize the Four Living Creatures and the elements that made them through the Prima Materia, fire, air, water, and earth. This also intersects into the four quadrants of cardinal directions and represents the divine calculus of the Universe. The Sacred Decad geometry is held within the Ophiuchus constellation transmission (13. 4) which represent the organization of dimension and space in the Cosmos



Tetractys

- the first row represents zero-dimensions (a point)
- the second row represents one-dimension (a line of two points)
- the third row represents two-dimensions (a plane defined by a triangle of three points)
- the fourth row represents three-dimensions (a tetrahedron defined by four points)

Four as the Universal Prototype

According to the Pythagorean symbolism in the Tetrad, Four is considered the root of all things and the source of all nature. It is the number of numbers because The Sacred Decad or 10, includes 1, 2, 3 and 4, because it is a symbol of the four of the first four numbers. The tetrad connects them throughout all numbers, elements, and temporary structures which manifest as recurrent cycles in time. A Master Builder or Mason is quantified by the number 22, which when broken down aligns back to the structure of Four. The Master Builder sees the archetype, and brings it down to earth in some material form. The Universal Prototype in the Law of Structure related to the Four is revealing its truth to us now. That which has been created with falsified archetypes or with deception is being destroyed. While that which holds the sacred and perfect number of the Universal Law will remain and reveal its truth. To consider the importance of the Four as the Universal Prototype in the Law of Structure, there are many aspects in creation[1].

- The Four "Corners" of Creation East South West North
- The Fixed Signs of the Zodiac Aquarius Leo Scorpio Taurus
- The Four Living Creatures (Cherubim) Man Lion Eagle Bul
- The Four Seasons Spring Winter Autumn Summer
- Planetary Grid Networks GEG GWL SBC FFM
- The Ages of Hu-Man Childhood Youth Maturity Age
- The Stages of Existence Birth Growth Maturity Decay
- The Parts of Man's Constitution Spirit Soul Mind Body
- The Four Elements Air Fire Water Earth
- The Four Worlds Emanation Creation Formation Action
- The Royal Stars Aldebaran Fomalhaut Antares Regulus

Sumerian Artifact

There are compositions known as The Sacred Decad, which have been confirmed in several literary catalogues of tablets dating back to ancient Sumeria-Egypt. Sumerian artifacts are the basis of all written history believed to have been established and is the earliest known record of developed human civilization. The Decad contains the narrative of the Sumerian Epic of Gilgamesh, which has influenced modern literature, religions and culture. All themes from the Sumerian Epic of Gilgamesh are found in later biblical text stemming from the time of the Annunaki invasion.[2]

Artificial Tree of Life

Thus, Judaism's Kabbalah and the Artificial Tree of Life is based on the inverted teachings intentionally given by the Thothian groups to generate reversals in the knowledge given in the original Founder Records, and this is overseen and administered by the Yahweh Collective located on Saturn. The Kabbalah esoteric information was brought through in pieces from distorted Patriarchal Melchizedek intelligence that had been captured and reverse engineered, through their original knowledge of the Universal Tree of Life and the quantum mechanics that are included in the 12 holographic plates of the Emerald Founder Records.[3]

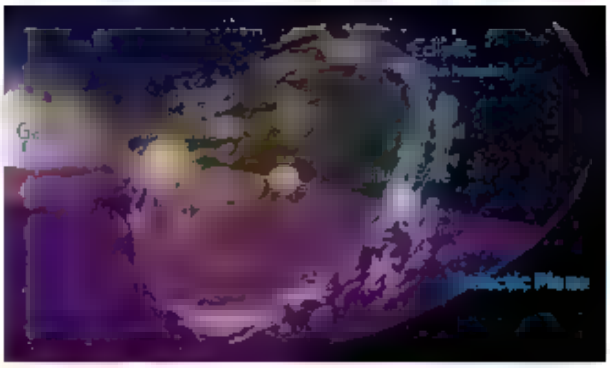
The Silver Gate



The zodiac structural principles are both energetic and geometric which are being aligned to the Alchemical Laws of God hosted by the Krystal Star. The Earth's Magnetosphere and the Solar System's heliosphere are getting exponentially weaker. These alterations to the magnetic field allow an increasing saturation of cosmic rays into our inner solar system. The progression through the Magnum Opus (see March 2014 newsletter) or the 13 constellation activations in this 12 month cycle, each bring in an Alchemical Law. We are moving through specific Laws of Alchemy located in the Ophiuchus constellation activation. This quality of Silver-Gold frequency is being transmitted to our Sun and planetary body for the first time. Through the Silver Ray dissolving into the Golden Gate, the returning of the Spirit to the center of Unity or the process of inner Unification is activated as a Law

This alignment begins a new exposure and is transmitting a new substance, which has qualities of both Elemental Water and Elemental Aether. This is carried in a mixture within these plasmic Silver-Gold liquid light frequencies, which make it Divine Fire Water. Fire Water is a new spiritual element being created through this alchemical process transmitted to the planetary body and humanity. The river of living waters from the Mothers Creatrix, Rainbow Krystal Waters, flow out from the throne of God and unify into the dimensional door of The Golden Gate. The highest emanation of this mysterious elixir is both silver and gold, the Chalice of God which opens the portal of The Golden Gate. [1]

The ancients called this circuit path made around the galactic equator, the Gate of the Gods or The Golden Gate. The Orion constellation sits in the opposite direction, which would be considered the anti-galactic center. **The ancients called this circuit path the Gate of Man or** The Silver Gate. Ophiuchus and Orion are mirror images of opposing polarity. Together, they represent the ascending path through the Gate of Man meeting at the Gate of the Gods. The many Ascension Stages we endure to reach our spiritual Magnum Opus, are the stages of humanity moving through these sequences of consciousness gateways.

We all incarnate as earthly beings that evolve through the Precession of the Equinoxes. This takes us through the consciousness realms moving through the ecliptic path of the Gate of Man to eventually complete the evolution cycle, which intersects at the Galactic Center. Once we unify the consciousness experiences through the Gate of Man intersecting with the Galactic Equator at Ophiuchus' feet, we are potentially given access to The Golden Gate. This allows us to proceed on the Ascension path to become resurrected eternal spiritual beings unified with the Cosmic Holy Spirit. From our solar system the Galactic Center lies visually along a line that passes through The Golden Gate. This is the Gate to Eternal Life which pours out the Universal Elixir that opens at the end of Precession Cycles.

The Golden Gate is located on the circuit path, where the two great celestial spheres intersect together that create four quadrants. The quadrant is one of four circular sectors in the equal division of the planetary sphere. These are marked by the Four Royal Stars. The first great circuit is the path of the Sun through the zodiac made in its annual cycle. The other is the circle path made from the center of our Milky Way galaxy called the galactic equator.

The intersection point made between the two circuits located between Taurus and Gemini constellations is known as The Silver Gate. The intersection point of the two circuits between Scorpio and Sagittarius constellations, right under Ophiuchus right foot, is known as The Golden Gate.

Galactic Plane

The circle path made from the center of our Milky Way galaxy is called the galactic equator or Galactic Plane.

The galactic plane is the plane in which the majority of a disk-shaped galaxy's mass lies. The directions perpendicular to the galactic plane point to the galactic poles. Most often, in actual usage, the terms "galactic plane" and "galactic poles" are used to refer specifically to the plane and poles of the Milky Way, which is the galaxy in which the Earth is located.[2]

Thothian Leviathan

The orchestration of several events leading to the final Atlantian Cataclysm and ripping wormholes in the Giza Stargate system, was only the first stage of implementing the Annunaki Thothian groups working alliance with the Galactic Federation, in which they combined their forces towards securing their domination agenda on the planet through the New World Order. The Thothian Luciferian groups specifically groomed the illuminati hybrid lines to be their representatives and to be the groundcrew carrying out the physical tasks required to gradually implement the consciousness enslavement blueprint of the New World Order, to be fully executed during the pinnacle stages of the ascension cycle. These human Annunaki hybrids were conditioned, implanted and prepared to be the primary Luciferian bloodlines that would be assigned into the highest echelon of global planetary leadership, and would come to be known more specifically as the Thothian Leviathan or Illuminati bloodlines.

The Luciferian cultivated Thothian Leviathan bloodlines were sent to the North American continent to gain control over the Sarasota Grual Stargate and prepare the groundwork of what would become the United States of America. This demographic location was designated for laying the architecture of the New Jerusalem as controlled by the Leviathan entities, for the purpose of building the main Control Pillars of Society upon the North American ley lines that supported the consciousness blueprint for ultimately manifesting their vision of the Global New World Order. The United States land mass was chosen as the epicenter for Thothian and Leviathan entities command central for implementing the programs of the Military Industrial Complex and black operations, that joined humans and nonhumans into several covert intelligence programs and secret space programs. The United States became the primary world military power under their covert leadership in order to prepare for the final conflict or Megiddo battle, which was for gaining complete control over the earth and humanity when the Stargates opened and the planetary Ascension was underway.

And this brings us to the current global agendas still in play, as the battle for the surface earth continues with those loyal to the Luciferian Covenant, that are setting into motion all they can to implement the New World Order objectives, under the guise of socialism and into the hellish pit of communism, the blueprint of human slavery given to Marx from the Black Suns.[1]

New World Order

What are the primary goals and methods used by the NAA and Power Elite in their quest to fulfill the Luciferian Covenant and install the New World Order, a totalitarian and dystopian nightmare of consciousness enslavement?

Many people still believe that the current state of world suffering, poverty, disease and violence was created accidentally, and that what we see today in the globalscape was the organic evolution of humanity since the industrial age. This is inaccurate. The Power Elite families have methodically and patiently grown their global agenda through specific objectives, which they sought to create through the use of Social Engineering and hidden technological Mind Control, along with gaining surveillance over our every move. Let's review a brief summation of these goals.[2]

Threefold Founder Flame

There are Three Original Primal Order Sound Fields that make up the Ray Aspects of our entire Universal creation in the Universal Time Matrix.

Threefold Founder Flame

The Solar Rishi are the first triad of light manifestations that make the Universal Trinity, that are projected from the Emerald Order and Blue Flame, Gold Order and Gold Flame, and Amethyst Order and Violet Flame from the God Source field, the Threefold Founder Flame or Cosmic Trinity

The first emanation of the Primal Sound Field which represents the first individuation of the God Source is the Emerald Order A part of the Cosmic Trinity.

The second emanation of the Primal Sound Field which represents the second individuation of the God Source is the Gold Order. A part of the Cosmic Trinity.

The third emanation of the Primal Sound Field which represents the third individuation of the God Source is the Amethyst Order. A part of the Cosmic Trinity

God-Sovereign-Free (GSF)

Collectively these are also referred to as the Founders and the Threefold Flame that make up the GSF Triad. The Threefold Founder Flame gestalt of Sound-Light Universal consciousness is called the Guardian Host. Aurora from the Seven Higher Heavens in Andromeda answered the Guardian Host clarion call and have joined them to protect this particular Universal Time Matrix. As a result, we also have Omniversal God Sources that are referred to as the Aurora host that are also connected to the primary Guardian Host.

The Three Universal Founder Rays are the Universal Trinity and are comprised of the Blue Ray Mother Arc, Violet-Magenta Ray Father Arc, and the Golden Ray Sun of Christos. The Universal Trinity is the First Light of the ONE BLUE FLAME in 13D, the Second Light of the ONE GOLD FLAME 14D, and the Third Light of the ONE VIOLET FLAME 15D. Together they make the trinity that make up the Threefold Founder Flame of our entire Universal Time Matrix.

Fifth Harmonic Universe

For human beings, these consciousness bodies exist throughout the densities and are aspects of the higher self and Lightbody These aspects are called the Stations of Identity.

- In the Fifth Harmonic Universe in 13D-14D-15D exists the Three Layers of the Rishi matrix or Threefold Founder Flame or GSF Flame.

Fifth Harmonic Universe

These collective consciousness bodies exist on the planet earth throughout the densities and are aspects of the future timelines and the Lightbody of the planet earth. The earth consciousness body is directly interconnected in all Harmonic Universes to interface with the human consciousness, which is its life form expression in all densities.

- In the Fifth Harmonic Universe there is no dimensionalization into matter forms, therefore there is no planetary body or human forms. In the fifth density as the consciousness does not manifest into matter this area is called pre-matter. The three primal light and sound fields hold the ray expressions of Mother Arc, Father Arc and Golden Ray Sun of Christos the trinity of the Godhead from which all biological forms are created in all of the Harmonic Universes

Interdimensional Free World Council

The Emerald Order are the original founders of the Interdimensional Free World Councils, as the result of the Paliadorian Covenant to ensure that all souls lost in the Phantom Matrix are returned back to the God Source. As a result, the plan to restore spiritual freedom and Ascension to the sections Tara in the fallen matrix is also called the Emerald Covenant.

Emerald Order Oraphim

The Oraphim are the Double Diamond Sun Body of the Christos that are here on planet to direct the Threefold Founder Frequencies to repair the architecture of the planetary grid, as well as communicate with the Aurora for the Aurora Krystal Matrix Re-Encryption of Elemental Body projects with the Master Christos Collective, a consortium of beings that are from the Seven Higher Heavens realms.

Founder Aqua Blue Ray

The Earth Core Chakra is Aquamarine and connects to the Universal Mother Arc into the base of the 12D shield 12" below the feet and into the earth core. This is the real Blue Ray activation of Mother Arc. To connect with the Founder Aqua Blue Ray, and reclaim our Mother of God principle for the planet and humanity, we connect to the Aqua Blue Ray of Mother Arc. The Blue Ray was previously under the control of the Melchizedek hosting of our planet. Since the Sumerian-Egypt

Threefold Founder Flame

Invasion the Mother Arc Aqua Blue Ray was not in the earth core, hence, the earth had lost her Mother of God and female Christ Sophianic Body principle. The Ascension Cycle is about reclaiming the Christ and the Mother principle for the planet. Since the Sumerian-Egypt Invasion, the Aqua Blue Ray was a fragmented Blue Ray used by the Melchizedek and Family of Michael forces. In 2009, Mother Arc was reignited in the earth core and in many Mother Arc Hubs Gates on the surface of the Earth. We now have access to our Mother of God, the Holder of the Founder Aqua Blue Ray and beyond into the cosmic Aether that opens the 13th Gate into the Neutron Window which connects us to the Aurora and Krystal Star

Founder Pale Gold Ray

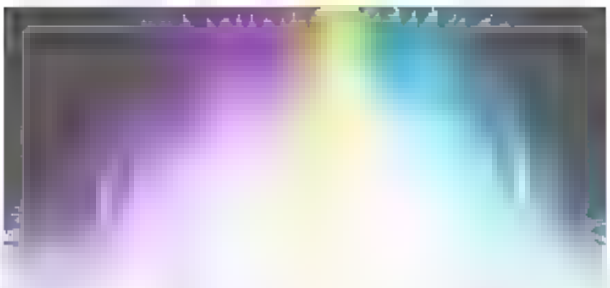
To connect with the Founder Gold Ray, and reclaim our Christos Sun and Daughter of God principle Christos-Sophia for the planet and humanity, we connect to the Gold Ray of Rishic Suns. The Gold Ray was previously under the control of the Golden Eagle Grid distortions and the Fallen Angelics damage on our planet. Since the Luciferian Rebellion the Golden Eagle Grid and the Gold Ray suffered tremendous distortion.To help repair this damage to the Seraphim-Avian consciousness that make up the Gold Ray and the GEG, the Guardians have been attempting to heal the planet's masculine principle and its Rod function through the Shield of Solomon.

Founder Pale Violet-Magenta Ray

To connect with the Founder Magenta Ray, and reclaim our Father of God principle Father Arc for the planet and humanity, we connect to the Magenta Ray of Father Arc. The Magenta Ray was previously under the control of the the distortions made from the invasion of the Planetary Logos that had severely distorted its companion 7D Violet Ray which connects into the 1D Earth core to merge with the Mother Arc Aqua ray. The Moon Chain lineages were sending magnetic field distortions to promote the Archon Controller patriarchal domination archetypes to the masculine which manifested genetic damage on our planet.

The Mother Arc is what has brought forth the Holy Father again, reclaiming his consciousness pieces for planet earth.

Return of Solar Rishi



Kunda Ray Sound Current

The entire Universal Time Matrix, our Milky Way system has shifted into the higher frequency domain of the non-dimensionalized Cosmic layers of the God Source field as an Ascension Host Failsafe Plan. The expansion into these three new bands of Cosmic God Source field creation allow for the return of the Solar Rishi, the first triad of light manifestation that make up the Universal Trinity. The Universal Solar Rishi are the Threefold Founder Flame gestalt consciousness that exist in pre-matter and are that which all biological forms have been created in the Harmonic Universes. Recently, during the next stages of the planetary Ascension Cycle, the Solar Rishi have begun their descent from the pre-matter layers and into the core of creation which links into the dimensions of the matter worlds. The return of the Solar Rishi into the matter worlds is a significant event which has generated massive impacts to the timeline

architecture of this reality, bringing structural changes and ripples of deep cellular transformation to the individual, collective consciousness and entire planetary sphere. During this phase the planetary architecture has entered into the Solar Rishi matrix spiritual initiation, the Kee Ra Sha tri-wave braided communication. Approximately by the end of this year, the Solar Rishi matrix will have braided themselves and anchored the entire Rishic matrix into the Planetary Staff for the purpose of the Universal Trinity integration within the organic timeline of this matter realm. [1]

Emerald Founder Records

The Cosmic Founders promise to us was made with the Emerald Covenant, that all Souls in this Fallen Universe would eventually be found and returned back to their original spiritual home. This was the original divine plan of spiritual Ascension, the evolutionary journey through the astrological ages and timelines which would facilitate our way back home, to remember our divine purpose and be reunited with God.[2]

Tiamat

Tiamat was the Living Goddess of the 10th Gate of planet earth, in what was formerly Sumeria, and is now Iraq. Tiamat is the female Planetary Logos principle and was a 5D planet, her principle was the living intelligence gatekeeper to the Christ-Buddha-Avatar matrix on our planet and in our Solar System. She was exploded into bits by the Moon Chain lineages and Nibiru who used her essence to recreate the lunar forces and to replicate her female essence to force her to birth creatures in reversal formats (anti-life). The planet Tiamat is related to the destruction of the Sophianic Body and the inability of the Christos-Sophia consciousness to incarnate in human forms on the 3D earth. The female consciousness of the planet Tiamat was Sophianic, so when she exploded, her consciousness descended into a collective form body which is known as the Achamoth. Achamoth is name for the the wounded goddess fragmented body parts which were collected and trapped by the NAA and Fallen Angelics in the 2D Underworld of the planetary body to incubate or impregnate Archontic creations. Thus, she was imprisoned in the earth body in the Negative Form body which manifested as the Baphomet realms when the lower spirits of Satanic nature abused her forces. All Satanists use the Baphomet fields trapped in the earth as the female principle used in their conjuring or worshiping rituals.

This is the source causation timeline of forced Breeding Programs and the loss of freedom for women to consciously participate with the choice of pregnancy and birth. The Achamoth parts were used in reversal formats to manifest creations for the NAA and was the destruction of freedom for the Mother and feminine principle on the earth. Thus, this event impacts all women, which led to the harnessing of her body parts in the Underworld which created the Baphomet realms and the Leviathan Races which are used by the Satanics. These lower realms manifested their Satanic forces in a variety of ways upon the material world, and that appears as Sexual Misery and misogyny in all of its forms. One known alien architecture that exploited this underworld damage as a Phantom Matrix was used by the NAA Religious models, such as the Black Madonna Network which feed into Baphomet.[1]

Womb Worlds/Achamoth

I would also describe the womb worlds as something that we have named in another term, which is synonymous with womb world which is Achamoth. So in the Templars' Gnosis, again understanding Gnostic material of what Sophia is. The reversal Christos-Sophia in her negative form is the Baphomet, but the fallen consciousness, the aspect of the mother, that was used to impregnate was the Achamoth. So its like saying the fallen body parts of, when we call Tiamat the planet,

Tiamat is a goddess consciousness but its understanding the planet, this is the stellar body consciousness of Tiamat. So Tiamat as a planet explodes, parts of the mother principle are in there, this part that is split into its forms is called an Achamoth, its fallen. Its now connected to our particular planet. These levels because its the female, its the mother, it has the parts of her womb, of creation, the Creatrix parts. So they start impregnating it with creations, like, well this is the Archon parasites. The archon parasites, the Controller entities start impregnating this womb world or this Achamoth to generate these extremely low astral spirits. [2]

Refugee Races

Due to explosions or cataclysms that made certain planets uninhabitable in our Solar system, such as the planets' Tiamat and Maldek, our planet has been used as a relocation destination for beings, referred to as Refugee Races that were beings that have been displaced from their own planet because of an event of destruction on their planet. This relocation of other races on the earth contributed to the hybridization of the original earth human bloodlines and damage to the original DNA Silicate Matrix. Although, many of the refugees were genetically similar to the original humans, they were much more aggressive and had destroyed their civilization through abuses of technology. The Refugee Races began to interbreed with the earth based humans and their higher ups organized Breeding Programs considered the mixed race of the hybridized humans on the earth today.

Marduk, Son of Enki

Marduk a planetary Logos aka Nibiru gave this intelligence to Enki/ Ea who decided he would invade Sumeria and play Annunaki God to the humans and gave his version of accounts that the Anu created the human beings and therefore they were the Gods of this planet. This was a way to create humans as slaves. Somehow Marduk did this to the Kumaras whom he was showing his anger, (who are the Chohan Ray Masters, otherwise known as the partially Ascended Masters of the New Age – El Morya, Kuthumi et al, there was some bad blood about Human-Orion Wars brought karmically to this planet with this complex situation). Without Tiamat we were unable to have our 10th Chakra and all its functions work in our bodies, as she was the frequency link to communicate with our Christos Avatar self. She is a part of the Triple Goddess Formation and apparently the Merging Shield is the Living Creature Matrix to remind us that we are to rebirth her essence again onto our planetary body, and then hence our own physical body. Because we went through the wall in time on the 28th, we are able to gain access to this incredibly ancient part of ourselves. The 10th Chakra has lines around our Left side and its main portal is a network from behind the left ear, to the crown and to the Soul Star directly above our crown, about 6 to 8 inches above our head. This is a Triad Communication Station portal from our Avatar (triad) Christ consciousness intelligence, and without this communication hub in our Lightbody, we cannot sense communication at that frequency level. So it is like expressing that this is the decoder of language to hear or directly sense that communication inside our own body, directly. That process of HSP is called direct cellular cognition. The destruction of Tiamat (like a heaven and earth principle living together in perfect harmony) is synonymous with the destruction of sacred marriage (union of opposites), the destruction of the Hieros Gamos, thus splitting apart the consciousness of the Christos-Sophia. This also manifested the split in the wall in time, and the shift to patriarchal domination and, its electron distortion that was exploited by the False King of Tyranny and the Imposter Spirit. The shift to patriarchy domination was inevitable and planned through the last cycle by the Alpha Draconis/Orion Group, however the levels of destruction nearly took creation to annihilation.

Tiamat as Phantom Matrix:

This collision with Nibiru happened millennium ago with a 5D planet that was between Jupiter and Mars referred to as the female principle Stellar body Tiamat. This collision was catastrophic and severed the consciousness units of Tiamat[3] and her Moon consort (Apsu, then son Kingu[4]) which were strewn into pieces of an asteroid belt. This asteroid belt

changed the orbits of the inner planets and outer planets of our Solar System. The severed bodies and consciousness of the planet were absorbed into a Phantom Matrix and its physical remains plummeted into a descending orbit into the 3D density we now exist. It is a part of this planet that we now exist upon.

All of us on this planet have this trauma memory (Dead Energy and Miasma) in our planet body and cellular body of the Fallen Goddess the Binary Twin Stars of Planets Tara and Tiamat. We will experience this sensation in different ways depending on our developed consciousness and higher sensory perceptions. It is an incredible memory of destruction, cataclysm and annihilation of planetary life. It is the same memory the controllers seek to manipulate in the human race to recreate that terror and cataclysm on this planet today.[5]

Tiamat in Gender Reversal

Tiamat is the dark Fallen Goddess, wounded, enslaved and abused female archetype in the holographic architecture, which is used to distort women and female principle on this planet. Nibiru is the same, an architecture and archetype for patriarchal domination to distort males. These two planet bodies are like on a see-saw (an energetic elliptical trajectory that moves them in partnership) holding a balance between them except one body matrix, Nibiru, is here in our atmosphere, and the Tiamat exploded bits are congealed in a false phantom body being "used" as the dark Fallen Goddess and female counterpart to the masculine Nibiru.

There are artificial wormholes and parts of the time and space fabric that are vulnerable and weak from alien artificial manipulation, and it's a connector between here in 2012, the Nibiru planetary body matrix and the Tiamat exploded planet, of which its combined memories are kept to inflict pain in the human soul bodies in the next density (and here). The pain of Tiamat is part of the construct used as a phantom system to artificially inflict these painful memories and its residue upon the human race. They squirreled parts of her wounded body bits in 2D, and use her consciousness to move in and out of time portals. This has been brought to my attention as this construct has something to do with the NRG Grid feed line in Stonehenge, and is something that holds the Vesica Pisces in harness through this construct which reversal feeds and distorts our true sacred marriage of divine equals, as in the Krystal Star, Hieros Gamos Union. Nibiru, the Annunaki planet has used the female planet Tiamat, post explosion, as the "female balance" to power its artificial machinery which keeps its movement to and with this earth, in an artificial orbit. This alien artificial machinery is called Wormwood.[6]

Leviathan Races

The Annunaki seeded hybrid, the Leviathan Races, is one such result from the disastrous implication of exploding a planet in another timeline, and further destroying with intended malice other races ability to evolve. The Leviathan Races are the demon seed of karmic Miasma holding extreme hatred and envy of the human race.

3D Planet Maldek

The planet Maldek is the counterpart of the bodily remnants of Tiamat in the 3D Universe of which the asteroid belt exists between Mars and Jupiter. This means that the asteroid belt we see in the 3D Universe is Maldek's exploded planet, and the same asteroid belt in the 5D Universe is Tiamat's exploded planetary body.

The Asteroid Belt with its comets move in a retrograde orbit, as does Nibiru. The Asteroid Belt has remained in the approximate place in the solar system as the former planet, Tiamat in 5D, and Maldek in 3D.

5D Tara Twin Sister Planet

The 5D planet Tara exploded millions of years ago and as a result, was sucked into a reversal black hole which fragmented the entire fifth dimensional planetary blueprint into 12 planetary bodies in our current third dimensional Solar System This includes the 3D version of Earth we inhabit in this Time Vector of the Universal Time Matrix. Tara and Tiamat were companions in a Binary Star system. Binary Star Systems are common in ascending planets with advanced races. Tiamats explosion and destruction is the reason our 3D planet has an artificial satellite placed by the Moon Chain Lineages which is our Moon.

Transduction Sequence

The Transduction Sequence is the definition of when the "God Spark" connects to the core manifestation body (12 Tree Grid) which is our Lightbody that is the Blueprint record that projects our Consciousness identity out into the elemental physical manifest body

All nine dimensions of the Spectrum of Frequency or the triad of three sets of Kundalini energies are coiled up within eight fetal cells located on the tailbone or coccyx. These eight fetal cells are created at the time of conception. The incarnating consciousness identities are connected in these intelligent layers of Spectrum of Frequency which are linked into the Silver Cord of the Soul and hold the Birth Transduction Sequence which includes the Morphogenetic Field imprint of the entire Consciousness.

Once freed of the False Umbilicus structure, the power management in the Monadic atomic body that connects at the 1D level is changing (at what is known as) the transduction sequence record. The transduction sequence is the exact moment of cellular record of incarnational birth of the Consciousness into this physical body [1]

Consciousness Identity

The transduction sequence is the definition of when the "God Spark" connects to the core manifestation body (12 Tree Grid) which is our Lightbody that is the Blueprint record that projects our Consciousness identity out into the elemental physical manifest body

Session Excerpt: In order to shift what's known as the birth Transduction Sequence, which is the core patterns that get imprinted in the birth process. When we come through the birth canal we are actually imprinted with what is known as astrological and magnetic imprints that influence our soul, our light and arcing of that light. The transduction sequences is that exact moment where our consciousness light comes into a filter, which would be our Soul blueprint, and that soul blueprint is called our core manifestation body or core manifestation 12 Tree Grid. The Core Soul Protection is working with that particular core manifestation tree which is at that exact moment the transduction of consciousness light comes into the projection through this filter into form.

We are learning and also having clarify that the shifting of the transduction is a part of our ongoing spiritual development, initiation and Ascension process because our third dimensional imprints are held in place by that Transduction Sequence at the moment of birth in these bodies we inhabit. So it's an imprint in the genetic material. It is an imprint in the physical

being and because of the challenges we have with reptilian consciousness takeover and the polarity games that are still being played at that level, it is something that in most cases on our planet human beings are manipulated and influenced a lot by dark forces. So let say the interception of one's self-determination and free will. [2] Transcript by Kim.

Transduction Sequence Link

Please clear the miasmic imprint from these cording damages, through the layers of Transduction Sequence. Please take this through the consciousness units, and then clear it through the manifestation templates – through layers one (Quantum Level), two (Unmanifest to Manifest Reality) and three (External Impacts). Then please clear it through the morphogenetic field instruction, and through the merkaba field pattern. Then clear through the DNA and RNA imprint, all the way through the auric field, and into the Chakras. Then clear it through the layers of the radial capsules in the 3rd dimension, and through the layers of the etheric nadis. Please continue clearing to the nuclear core at the sub atomic and molecular level, clearing to the central nervous system, metabolic system, blood, brain, neuro-hormonal structure, and through all organs and tissues. [3]

Birth Transduction Sequence

The Birth Transduction Sequence is the exact moment that the cellular record of the consciousness identity imprinted during incarnational birth into this physical body on the earth. When we come through the birth canal we are actually imprinted with ancestral-genetic, astrological, celestial and magnetic imprints that influence the pathway of our soul-spirit, our consciousness identity and the arcing spiral of that light through time. The transduction sequence is that exact moment when our consciousness light comes into a filter for physical expression, and therefore acts as the fundamental construct of our lightbody Grounding Mechanism that exists in the first dimension. It is this interface that connects us to the earth body transduction sequence record for connecting to the system of collective earth consciousness. This record reflects in our lightbody that we are earthlings, consciousness identities from the earth plane, located in this lower creation realm section of the Universe.

This also could be referred to as our soul-spirit blueprint for achieving our highest expression in divine purpose and alignment with Universal Laws. The transduction sequence is the definition of when the "God Spark" connects to the core manifestation body (12 Tree Grid), which is our Lightbody and that is the blueprint record that projects our consciousness identity out into the elemental physical manifest body.

There are nine dimensions of the Spectrum of Frequency or the triad of three sets of Kundalini energies that are coiled up within eight fetal cells located on the tailbone or coccyx. These eight fetal cells are created at the time of conception, and are usually impacted by the reptilian tail implant that stops kundalini activation in the general population. The incarnating consciousness identities are connected in these intelligent layers of frequency that are linked into the silver cord of the soul-spirit and hold the birth transduction sequence that is the instruction set for the entire consciousness. During spiritual initiation, once freed of the false umbilicus structure in the astral plane as a result of proper Soul body integration, the power management in the monadic-spiritual layer of the atomic body that connects at the 1D level changes the birth transduction sequence record and grounding mechanism. The spiritual initiate or energetically sensitive will feel their grounding to the earth body wired differently. The larger importance of this current reconfiguration is that this same process is transpiring in the planetary body during the shift to the next harmonic universe, as the natural result of the planetary Ascension. This shifts everyone's grounding, whether they are aware of that fact or not.

As the Collective Consciousness of planet earth shifts out of the 3D transduction sequence record, it fundamentally changes everything that we were as an earthling. The core of our identity is being challenged and tested to match with the higher version of our spiritual selves, making this a very confusing time for many people on the earth who are grappling with their personality identity as well as the dismantling of their 3D version of reality. All of us on earth are shifting

transduction sequence and that means we are no longer the same identity we were originally when we were born onto the earth, our incarnational record will reflect entirely different coordinates in time. This massive consciousness shift in the transduction record is one of the major reasons many Starseeds clamored to come to the earth during the Ascension Cycle, to take part as a forerunner in this quantum leap made through the timelines

The birth transduction shift can be very hard on the physical body when a human being has not been given a bio-spiritual context, or reasons why the body must physically adapt to these changes occurring with the electromagnetic fields. It is crucial to remain as relaxed, fluid, transparent and loving as possible to these shifting electromagnetic fields, to help the body remain open to align to its new lightbody Grounding Mechanism and transduction record. We must recognize when to retreat in order to protect ourselves from the chaotic onslaught and artificial technologies, and know that we must surrender everything to our higher power in order to remain as relaxed as possible [4]

Consciousness Descension into Manifest Biology

The Transduction Sequence describes the process by which consciousness undergoes several stages of descension, passing through multiple layers of dimensionalization in order to manifest into a matter form. Consciousness uses a Blueprint, architecture to express itself in matter. A Core Manifestation Template is designed for consciousness to express itself into the biological form that is located within a specific dimension of time and space. As an example, the original angelic human 12 Strand DNA template is expressed through the holographic template of the 12 Tree Grid, or Kathara manifestation grid. Consciousness units arrange themselves into dimensional grids which form into layers of morphogenetic fields, containing specific instruction sets that build into energy spirals that make up the merkaba fields

The Merkaba fields are what help to sustain the energy that builds the entire Lightbody construct, in which there are male-female sets of counter-rotating electromagnetic spirals of the consciousness energy. The male-female sets of consciousness energy spirals generate a DNA and RNA imprint. The DNA architecture is the masculine principle, while the RNA is the feminine principle. The DNA-RNA messaging circuitry must communicate together in balance. The DNA and RNA imprint project the entire lightbody hologram which organizes the Light of the consciousness into a bio-energetic field, or auric field.

The auric field organizes into multiple layers of energy matrices that act as small computers, and these are the Chakras, the lower exist in the particle layers and the higher dimensional chakras exists in the anti-particle layers. The anti-particle chakras are Morphogenetic Chakras and they inform the instruction sets absorbed into the lower dimensional chakras, who can open the higher contents when they are able to hold the higher frequencies. Over time the chakras dissolve into each other when absorbing the higher dimensional frequencies

The chakras send their processed energy as intelligent spirals into the nadial capsule which forms around the manifest biological form. The nadial capsule is comprised of the three-dimensional layers of the harmonic universe, in which the consciousness is stationed as an identity. The nadial capsule instructs how the consciousness must organize itself into the manifested DNA and RNA cellular biology. The DNA-RNA in matter sends its intelligent design to the Nadial Structure, which acts as the blueprint for energetic transmission and energetic receivers that form into the blueprint for the physical Brain and nervous system. The central nervous system transmits into the molecular structure and then into the nuclear core in the 1D Atomic Body, which informs the Dark Matter Template.

This nuclear core sends intelligent consciousness energy from all combined blueprint layers into the central nervous system, which sets the metabolic and biological base rhythms. These biological base rhythms are imprinted from the Soul and spiritual intelligence into the blood, which form into the historical spiritual records. This blood record forms an imprint that is recorded in the brain to produce and distribute Hormones, and the natural chemical reactions that are recorded in each organ and gland, and into all cellular tissues

Triad Communication Station

The macrocosmic structure of the Universal Tree of Life is replicated within the microcosmic structure of the personal tree of life, as the Musica Universalis, the Music of the Spheres which act as the harmonic structure that organizes the spherical vibration of multiple spectrums of frequency [1][2] The Music of the Spheres incorporates the metaphysical principle that mathematical relationships express qualities or tones of energy which manifest in numbers, visual angles, shapes and sounds, that are all connected within a pattern of proportion.

Triad Communication

Thus, we may become attuned to see these patterns of movement as energy in action in the multidimensional realities that are represented in our model of the Universal Time Matrix, as these massive sentient fields of co-creative Collective Consciousness that are journeying throughout time, space and dimension. Layers upon layers of Morphogenetic Fields exist at every level that a form has manifested as a Station of Identity in each dimensional plane, these dimensional spaces embrace and contain many other forms where all experiences of reality and manifestation take place. These fields are instruction sets that hold massive amounts of intelligent energy and intelligent consciousness communication that can be interacted with through heightened sensory awareness, such as Telepathy In working with the planetary grid, Gridworkers may be asked to help deliver these energy imprints, hold blueprint prototypes, observe and review the architecture that these instruction sets hold in the morphogenetic field at the planetary layers, and these instruction sets may even extend to off planet worlds or into other star systems. For primarily Starseed people, this is another level of the intelligent consciousness communication that may be received in the process of aligning and embodying our unique divine spiritual mission on the planet during the Ascension Cycle. Reconnecting our spiritual links and vertical channels correctly with the trinity wave architecture is an intrinsic part of the process of building Triad Communication Stations for exchanging with and expanding the Krystal Star communication networks throughout the Planetary Grid Network.

Trinity Principle of Krystal Star

The source code or Unity Field intelligence is a Krystal Star or Christos Consciousness hub that is accessed through the merging of manifested bodies that are holding trinity wave formats and are able to connect directly into the exchange made with the Eternal Source Light of the Godhead. The three sound-wave-tone parts when merged into Internal Energetic Balance become designed as one component that accesses directly into the feedback loop that is exchanging with the Eternal source supply, the Zero Point. This exchange with the Threefold Founder Flame Godhead is the trinity principle of Christos, an inner sustained and eternal source light.[3]

Morphogenetic Fields as Communication Stations

Morphogenetic Fields are comprised of templates of conscious light and sound which serve as the blueprints on which matter and conscious identity will then manifest. This occurs at a microcosmic and macrocosmic levels of the Core Manifestation Template and is a part of the mechanics of all creation.

All matter forms and forms of consciousness, including the layers that make up planetary bodies and human bodies, are manifested through these morphogenetic, form-holding imprints of the core manifestation template or the 12 Tree Grid. They exist as a quantity of crystalline energetic substance that is composed of specific patterns in arrangements of frequency. The morphogenetic fields are instruction sets, they direct the movement of energy in the Scalar Wave points to form in certain ways, so that we perceive the holographic reality within that frequency band that our consciousness body is actually stationed within. The instruction sets contain intelligent energy that relays that quality of information to our consciousness, in which we can perceive that information directly or translate that information through sensory ability. [4]

The purpose of knowing about the instruction sets, is in knowing that our higher consciousness, the inner light of Christos, can activate and begin to transmit trinity wave formats into the planet's morphogenetic field patterns, and this shifts the reality into trinitized formats, that further build the Triad Communication Stations.

Hub Handshake

Many of the Galactic and Planetary Gridworkers have been setting up vertical communication links that act as Hub Handshake fields to help the Guardian Races access the new communication links needed to become a dual communication exchange with the Krystal Star families on the earth. These are spinning vortexes moving into toroidal transformer fields with a neutral core (as an example, see the 12D Shield Hub) which is designed for multiple purposes, such as to run corrected proportions of the energy currents and higher frequencies that are being transmitted during the Ascension Cycle. The Hub Handshake is the way Christos Starseeds poke holes in the NET to reconnect spiritual links and begin to communicate with the Krystal Star and Diamond Sun Christos races. The corrected current of the 12D Ray is capable to reset and reprogram Reversal Networks such as the Anubian Black Heart systems in the Planetary Grid Networks. Also another purpose is to step down the Zero Point Field and cosmic Christ intelligence Blueprint into the larger Collective Consciousness fields in so they act as a buffer to stabilize and harmonize the earth surface from destructive cataclysms, disasters or running the Armageddon Software. Once we can build the Hub Handshake we can start to lay down the Trinity Wave and Krystal Star architecture for building and expanding the gridwork for the Triad Communication Station. This is one form of planetary architectural repair to help correct the reversal systems of Alien Machinery that are used to collect Loosh, as the spiritually Awakening and activated human Lightbody is capable to reconnect and repair the spiritual links within oneself, as well as within the planetary grid system. [5]

Eternal Eye of God

Transcript - For years the Guardian Host have been showing me optical lenses which refract the light source into the holographic projector of the consciousness blueprint fields. It was shown how intermediary lenses, also referred to as eyes, are used in Mind Control systems to manipulate the patterns of refracted light in the 3D reality in order to create distorted holograms. The Negative Aliens technology created many of these artificial intelligence "eyes" that operate as the optical lenses of the False Father gods, such as Yahweh. These alien networks run bi-wave and reversal current into the planetary body and planetary mind in order to siphon energy into their artificial systems. In 2010 the Krystal Star family with the 144,000 seal in their 3rd Eye began to witness the schematic of the Divine Mind of God blueprint imprinted upon the center of our brain. The actual living and eternal Divine Plan of God through the Holy Father's Laws is being projected as a geometric schematic which contains the instruction sets of the divine will blueprint as perceived through its "All Seeing Eye". Unfortunately, the All Seeing Eye symbol has been hijacked in the past through the many uses of its symbolism in black magic rituals carried out for satanic or luciferian purposes. Which can be observed as the symbolism used in black magic to gain control over the economic and financial system, as well as the entire global money supply.

The Eternal Eye of God instruction set has been placed in the field through our physical, embodied person, and our mission is to ensure that we hold this 144 cell schematic for the energetic balance of the planet. When the schematic is being released for transmission into the field, it is similar that the body is acting as a transformer for the frequency current, stepping down and stepping up the variation of frequencies as they are being run throughout one's internal circuitry. The Divine Will from the Mind of God Blueprint has been placed in the 33rd parallel north latitude coordinate for access all over the globe. The 33rd parallel north is a circle of latitude that is 33 degrees north of the Earth's equatorial plane. It crosses Africa, Asia, the Pacific Ocean, North America and the Atlantic Ocean.

This begins another stage of the process which planetary guardian gridworkers are able to access the geometries required to create diamond sun networks of trinitized forms, that support the building of Triad Communication Stations throughout the globe. This is required to change the bi-wave energy system to the tri-wave energy system, which in effect is moving from a closed energy system into an open source network.

The installation of Triad Communication Stations and Krystal Star networks are designed to replace Reversal Networks that have been collecting Loosh from the earth inhabitants, and to work with the Krystal Star organic technology to open spiritual links to communicate directly with Krystal Star and Aurora Guardians throughout the many timelines. This began as a focused Planetary Grid Network repair project to install Krystal Star hosting and communication networks in December 2012, during the change of planetary hosting. [6]

Planetary Emancipation Gridwork (PEG)

In 2013 the ES community under my stewardship were given a project called PEG, a series of locations in the Stargates in the planet we assigned, in order to install Krystal Communication Networks which are Triad Communication Stations. The PEG Project dates were weekly assignments from 5/5/2013 to 7/28/2013.

Our ES community has been asked to begin group collaboration for grid work and transits on Twelve (12) weekly assigned planetary networks in partnership with Krystal Host. We have been asked to invite the public that finds resonance with these words to offer another consciousness ring of heartfelt prayers to support the Krystal Host Planetary Emancipation Gridwork (PEG) Project. These are Planetary Grid Network repair projects. [7] [8] [9]

Cosmic Trinity Opens into Andromeda

The Cosmic Trinity contains three emanations. The first emanation of the Primal Sound Field which represents the first individuation of the God Source, and this is the Emerald Order. The second emanation of the Primal Sound Field which represents the second individuation of the God Source is the Gold Order. The third emanation of the Primal Sound Field which represents the third individuation of the God Source is the Amethyst Order. See Threefold Founder Flame.

The Cosmic Trinity emanations have reconnected spiritual links between Universal Melchizedek, Andromedan-Aurora families, and the Sirian Christos Masters that made an opening access connected through the astral layers that can be entered through the Giza location. The portal access then moves through Sirius 6D - Arcturus 7D - Orion 8D (Galactic Core), into Andromeda 9D, and then finally out of this system entirely. This is the Meta-galactic layers aligned to the luminaries of the next Universe which are connected to our Krystal Star communication networks. These are the result of a succession of Andromedan Stellar Activations. This was purposed to rehabilitate and relocate the lost souls of Tara and reclaim and repair the soul fragments in 4D, the Astral Plane and to emancipate the collective consciousness lost in the astral illusions of the False Ascension Matrix. This opening portal was allowed access for Krystal Star Guardians from the Next Universe, the Seven Higher Heavens due to the creation of the Trinity Wave blueprints that build the Triad Communication Stations in the planetary grid network. Trinity Wave

God source code is a Trinity Wave accessed through the merging of polarity, such as the merging of masculine and feminine energies, our species has been suppressed through Bi-Wave Influences that split apart the gender polarity making it impossible to connect to God Source through the sacred union of the male and female Sacred Union is our divine birthright and this organic architecture is now being returned to our species during the Ascension Cycle as Hieros Gamos. This gender polarity pattern is changing now on our planet and we are able to access a new Trinity Wave or unity code through these male "Rod and female Staff" embodiment.

This embodiment is also referred to as Hieros Gamos, and is the foundation of the HGS system.[1]

Recoding Bi-wave to Trinity Wave

Guardian Assignments include Starseed couplings have been a work in progress in the planetary field architecture since February of 2009 to sequentially dismantle the polarity(bi-wave) of the **Vesica Pisces harness** and the NRG program headquartered in the United Kingdom. The use of these structures on the planet is to collect, siphon and transpose life force and sexual energy from human beings and to promote enslavement and Sexual Misery. (To override this extreme polarity distortion these couples build a platform for the Trinity Wave field which allows true tantric (heart) union to occur.) The revelation hidden inside these "sacred unions" are astounding as they have so many different dimensions of purpose for the Ascension process.

Trinity Principle of Krystal Star

The source code or Unity Field intelligence field is a Krystal Star (Christos Consciousness) hub accessed through the merging of manifested bodies holding trinity wave formats that connect directly into the Eternal Source light (Godhead) The three sound-wave-tone parts when merged into internal energetic balance become designed as one component that access directly into the feedback loop exchanging with the Eternal source supply. This exchange with the Threefold Founder Flame godhead is the principle of Christos, an inner sustained eternal source light which signals the end of

vampirism or consumptive modeling on planet. This is what it means that the Godhead cannot be reached by anything but the Christos Consciousness (Krystal Star Tones),KA_RA_YA_SA_TA_AA_LA_(KRYSTAL) although this process of unifying consciousness with the Godhead is known by many different names.[2]

Negentropic Coded Krystal Spirals

When the life force energy is drawn back into the source field, through the trinitized geometries, the feedback loop of reciprocal source light is generated and expanded. Our goal during the new paradigm is to create the tri-tone (neutral) field. This draws the composite energy back into the zero point, through a feedback loop of energy, back into the source of all creation. The trinity field creates an eternal and perpetual supply of life force that regenerates the bodies by restoring the energy loss, and eventually expanding consciousness. The Krystal Spiral has the potential to dissolve artificial structures that have attached or enmeshed with our Lightbody from other lifetimes, due to trauma histories and alien hybridization coding. It recollects and reorganizes spiritual body parts, while returning obsolete energies back to be reabsorbed in the Cosmic Mother's womb.

It is possible to accomplish this with spiritual dedication and service to develop our highest consciousness. Essentially, the use of correct mathematical principles based upon the trinity field, can return the free energy system of zero point, back to earthlings. Christ Consciousness connection to the zero point can be proven mathematically, as well as through one's direct spiritual experience.

This eternal supply of life force is the Cosmic Christos plasmic light and contains the trinity principle. When this pattern is applied to matter, it is called a trinitized form. In simple terms we accomplish this through genuinely opening our hearts, and practicing unconditional love, kindness, forgiveness and true compassion towards the self and others. If you practice the Law of One as a committed lifestyle, any person can and will organically connect to the Krystal Spiral transmission. A personal commitment and dedication to loving and compassionate behaviors, to serving your highest expression, is the single most important factor of Ascension. Radiant Love is the most important force to fully embody, and whatever technique, you choose to further develop true loving-kindness is inconsequential.

The Krystal Spiral perpetually retains a living, breathing connection through the preservation of what came before, as it expands through multiplication. Out of the one comes the many. This statement is to contemplate the profound meaning of the upcoming Aquarian influence during the 12th alchemical stage of Multiplication. Multiplication is the alchemical process, which greatly increases the concentrated refinement, energetic effectiveness and sphere of influence, of the embodied biological Christos-Sophia eternal light source.[3]

Triune Scale of Particle Based Time

The first section of the Triune is the Particle Universal Scale of Time (See Triune 1 Timelines) This is the external reality we experience in physical matter on 3D Earth including the nature of Timelines that exist at the Particle Universe level. We can call that the particle Timelines. Right now we can access up to the 12th Astrological precession which includes 288 organic timelines.

The second section of the Triune is the Anti-Particle Universal Scale of Time. (See Triune 2 Timelines) This is the Parallel Universe of which contains an antiparticle mirror (or double) of our Particle Universe. The parallel or anti-particle earth holds the exact mirror opposite to the time cycles we have on particle earth. We can call that anti-particle timelines or Parallel Universe timelines. Right now we can access up to the 12th Astrological precession in the anti-particle Timelines which includes another 288 organic timelines totaling 576 timelines.

The third section of the Triune is the Universal Inner Worlds Scale of Time or the In-between Spaces. (See Triune 3 Timelines) This is the domain of the Inner Worlds which intersect between the Particle Universe and the Anti-Particle Universe. The Universal Inner Worlds Scale of Time holds both the architecture of the particle timelines and anti-particle timelines. This means both combined timelines and their cellular memories can be accessed from the Inner Worlds, such as the Inner Earth Domains.

Right now we can access up to the 12th Astrological precession in the Inner Worlds timelines which includes another 288 possible organic Timelines totaling 864 timelines and ALL of those cellular memories and their DNA Fire Letters.

At certain points in the time cycle when merges occur, new architecture can be created which impacts the particle and antiparticle time field. This time is now. (The Inner Worlds are the access key to creating the Universal Ascension timeline known as Ascension Plan B.)[1]

Universal Time Matrix

A Time Matrix is a map of all of the Timelines in which the consciousness moves that are simultaneously taking place within the entire time matrix, it is the mathematical program by which consciousness experiences time and matter. The Cosmic structure contains six 15 dimensional Universal time matrices for the purpose of consciousness individualization into dimensionalization, in order to experience the perception of time, and to which are collectively referred to as the Time Matrix.

The Universal Time Cosmology of Twelve Dimensions of Simultaneous Time-Space Cycles within a Fifteen Dimensional Wave Spectrum. Each Harmonic Universe is equal to the Triad of Spiritual Identity that our consciousness evolves through as our Personality (1D-2D-3D), Soul (4D-5D-6D), Oversoul (Monad) (7D-8D-9D), Avatar Christos (10D-11D-12D) and Founder Consciousness (13D-14D-15D)

Universal Tree of Life

Every aspect of Universal Creation and its life spiral are designed and instructed through these blueprint structures which contain multiple arrangements and layers of vibrational Spectrum of Frequency This is the Universal Tree of Life Learning to travel consciously through the vibrational quality of the Tree of Life, is to travel through the multiple dimensions of time and is the personal pathway to achieve spiritual sovereignty and energetic freedom. This is referred to as GSF.

12 Tree Grid Architecture

The Core Manifestation Body Foundation The structure of the macrocosmic Universal Tree of Life is replicated within the microcosmic personal tree of Life. Individual Human anatomy manifests upon and within the multidimensional layers instructed by the core manifestation template – The Tree of Life. Every aspect of the Universal Creation and life spiral are designed and instructed through these Blueprint structures built upon Sacred Geometry

Harmonic Universes or Densities

The Universal Time Matrix is comprised of five density levels that each hold three dimensional holographic fields within them, or groups of three Spectrum of Frequency that manifest as platforms of consciousness perception and expression. Each of these density levels are organized into a trinity of dimensional reality fields, and each of these reality fields are also called Harmonic Universes or HU. In each Harmonic Universe, there are consciousness levels that have characteristics in the blueprint that result in matter forms and consciousness perception that is unique to each harmonic universe or density. Each expression of the God source in its collective consciousness or life form, has many stations of identity that exist in each of the dimensional realities or Harmonic Universes.

Planet Earth Timelines

These collective consciousness bodies exist on the planet earth throughout the densities and are aspects of the future timelines and the Lightbody of the planet earth. The earth consciousness body is directly interconnected in all Harmonic Universes to interface with the human consciousness, which is its life form expression in all densities.

- In the First Harmonic Universe the in 1D-2D-3D exists the Three layers of the earth matrix
- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Tara Matrix
- In the Third Harmonic Universe in 7D-8D-9D exists the three layers of the Gaian matrix.
- In the Fourth Harmonic Universe in 10D-11D-12D is the future earth blueprint in its crystalline form in the exists the three layers of the Aramatena or Aurora Earth Matrix
- In the Fifth Harmonic Universe there is no dimensionalization into matter forms, therefore there is no planetary body or human forms. In the fifth density, as the consciousness does not manifest into matter, this area is called pre-matter. The three primal light and sound fields hold the ray expressions of Mother Arc, Father Arc and Golden Ray Sun of Christos, the trinity of the Godhead, from which all biological forms are created in all of the Harmonic Universes.

Genetic Library Source Code

In essence, the holographic discs contained the entire genetic source code and blueprint architecture library for the Diamond Sun template, including the schematics of the multidimensional planetary body layers as generated from the original Emerald Founder Creators. In addition to the ancient wisdom revealed in the unifying principles of the Cosmic Sovereign Laws, the holographic discs also contain the complete book of maps and genetic keys that are necessary to gain full access into the Universal 12 Tree Grid holographic matrix from within the Grual points of the planetary stargate system. Access to Diamond Sun body templates and specific details about planetary stargate Quantum Mechanics are highly coveted by the NAA Controlling groups because they believe it is their ticket to ride on out of this Universal Time Matrix.[1]

Universal Tribal Shield

The Emerald Founder Records reveal that there are 12 Essene Tribes which make up the entirety of the collective human gene pool, or are the descendants of Universal Tribal Shield that has been originally incarnated onto this planet from the future timelines of Tara. Each of the 12 Tribes are genetically key coded to their demographic Planetary Gates location and to that planetary dimensional sphere and its ley line network. When we incarnate onto the planet, we have genetic time codes in our DNA related to the planetary gates dimensional system that is a part of our main Human Tribal Identity. We activate our human tribal identity personal planetary keys when we activate our Inner Christos by running the 12D Ray, stringing 144 harmonics throughout our Lightbody, otherwise called the 12D Shield. That identity has had many lifetimes that have participated with the consciousness evolution cycles of assembling DNA codes in the angelic human Root Races evolving throughout the Solar System.[1]

Paliadorian Activation in Tribal Shield

The Paliadorian eternal light beings created the entire original blueprint and instruction set for all of the 12 human tribes, which when all combined together, comprises the human Tribal Shield records in all of the planetary evolutionary rounds. The Tribal Shield is the entire morphogenetic field comprising all the variations of specific frequency arrangement for all of the 12 Tribes of the Human DNA template. During this cycle through the rise of the Paliadorians, this is activating the human Tribal Shield to become freed of the blood covenants and Alien Hybridization coding imposed upon angelic humans. The Andromedan Blue Feather and Crystal Rose Heart coding are another example of how this is being accomplished in the field. [2]

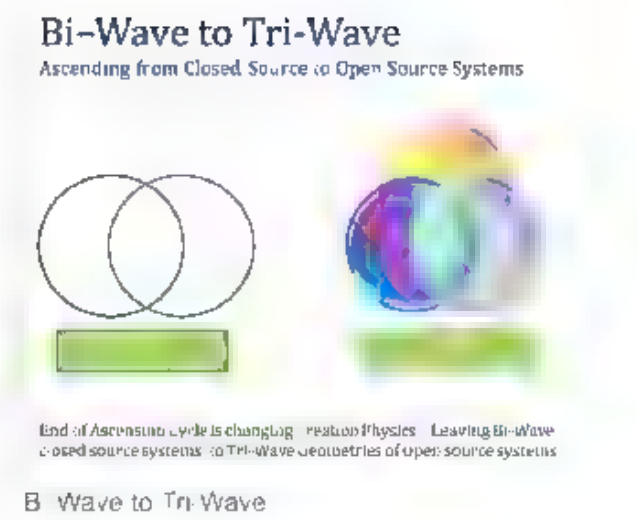
Vesica Pisces



Over the last 5,000 years our planet has been operating on a closed bi-wave system. A closed system means finite energy supply that is being continually recycled. With finite energy supply, and with no way to increase inner sustainability, consuming others energies and parasitic relationships multiplied into massive proportions on the planet. This energetic imbalance was purposely programmed by the Controllers to distort the organic relationship between the electron and proton spin rates, splitting apart the masculine and feminine principle. The life force energy was being harnessed by controllers through hijacked creation code and inorganic reversal architecture, through the **Vesica Pisces** (VP) bi-polar geometry. This hijacked Vesica Pisces architecture from the Alien Machinery of the NAA kept the binary code locked down in our planet so that the trinity code that enabled unity consciousness and Zero Point access would not be made available. This mathematical program enforces consciousness polarity split through increasing disconnection and separation from the Source field. This forced reversal and split patterns that continually fragmented the human consciousness body at multiple dimensions.

The time of the **VP geometric harness** is ending and we are learning how to create Trinity Wave patters of trinitized forms which allow the feedback loop of source field energies. [1]

Recoding Bi Wave to Trinity Wave

Assigned Starseed couplings have been a work in progress in the planetary field architecture since February of 2009 to sequentially dismantle the polarity bi-wave **Vesica Pisces harness** and then gradually working up to dismantle the NRG program headquartered in the land mass of the United Kingdom. The use of these structures on the planet is to collect, siphon and transpose life force and sexual energy from human beings and to promote consciousness enslavement and Sexual Misery programming. To override this extreme polarity distortion these spiritual couplings build a platform for the Trinity Wave field which allows true tantric heart union to occur. This is referred to as the Hieros Gamos. The revelation hidden inside these sacred unions are astounding as they have so many different dimensions of purpose for fulfilling the Christos Mission and planetary Ascension process.[2]

War Over Timelines

Recently, we have witnessed some of the mysteries of the mechanics of creation unfolding, with revelations and advances in the war over consciousness and more specifically over Timelines.There has been an acceleration in the war over the timelines involving artificial base 10 architecture that supports the holographic projections of Artificial Timelines used by the NA]]A to generate splits and inversions throughout the earth's dimensional fields. This escalating conflict has intensified the outer chaos, as well as dark aggression aimed at those awakening groups of Starseeds and Indigos that are supporting the base 12 timelines that reassemble the organic planetary architecture. An awakened human with an active 12 Strand DNA imprint may run base 12 frequencies throughout the planetary grid, which has the potential to heal the dimensional splitting that occurred between the organic reality and phantom reality. The organic layers co-exist with phantom layers, side by side in timeline stacks. It is possible to discern the organic timelines versus the Artificial Timelines, when running the Christos Blueprint 12 base code frequencies within the lightbody

Embodiment of the Christos blueprint allows for discernment of artificial timelines, by testing the signature of field architecture and noting that the architecture or timeline is being generated artificially via alien machinery and is wholly inorganic. The majority of the active artificial timelines are using reversal elemental structures that are being plugged into the planetary 10D Stargate system, connecting with several wormholes that lead back into the Black Hole System. The 10D gateway connects into an Atlantian Pylon Network system that is powered by the entrapped Gold Ray Seraphim consciousness bodies, comprised of the Galactic body distortions of the Fallen Solar Michael and Mary-Sophia that became enmeshed within the Golden Eagle Grid after the Luciferian Rebellion.

As we entered October, the annual 10 10 transmission window intensified the global conflicts over maintaining base 10 architecture in the alien machinery embedded in the planetary body, used to project artificial timelines into an Artificial Tree of Life manifestation template.

With architectural shifts and timeline shifts of this magnitude, there is a massive ripple of change that is undulating throughout the planetary grid pushing for the radical transformation of thoughts and beliefs. This change nudges individuals to reconcile ideological conflicts in their version of reality, which can bring on sensations of deep physical exhaustion and spatial displacement. This cycle in particular denotes a milestone of a deep expansion occurring in the collective race consciousness that is happening on a global scale, to break through barriers of artificially generated thought-forms. For many, this is a time where it may even feel uncomfortable to exist inside your own skin. The physical body and consciousness are being stretched way beyond their frequency comfort zone in order to accommodate these radical magnetic shifts involving deep-seated planetary transformation.

Base 10, Artificial Tree of Life

During the Atlantian timelines, the distorted core manifestation template of the Artificial Tree of Life, became increasingly popularized. A finite source architecture that promoted anti-life sciences that would be used to generate an assortment of death cults upon the earth. This is this same core architecture that is currently known as the Kabbalah Tree of Life that consists of 10 nodes symbolizing the dimensional spheres, which are considered to be the spiritual pathways of consciousness exploration. The students of Kabbalah or the esoteric sciences are taught that this Artificial Tree of Life represents the totality, encompassing all aspects of consciousness existence. The columns of the base 10 Artificial Tree structure are usually symbolized as pillars, which connect to the inorganic four directions used to control the cosmic clock in the Yahweh Matrix.

From the Guardian perspective the Sephiroth, meaning the divine emanations as defined in the 10 attributes of God as described in the Kabbalah Tree of Life, is a part of the esoteric teachings of Judaism that was directly influenced by the NAA groups. The NAA groups promoted this esoteric knowledge to the secret societies in order to hijack human beings' collective consciousness to feed their base 10 architecture in the Artificial Tree of Life, that is an alien machine placed in the planetary field to split off organic timelines and create artificial ones. The use of the Artificial Tree of Life in rituals for Service to Self is common to incite Black Magic in many spiritual disciplines, and this is designed for the purpose of maintaining the artificial timelines and artificial machinery of the base 10 architecture running in the earth fields.

Thus, Judaism's Kabbalah and the Artificial Tree of Life is based on the inverted teachings intentionally given by the Thothian groups to generate reversals in the knowledge given in the original Founder Records. Due to the Patriarchal Domination distortions infiltrating the Universal Melchizedek Lineages as brought through the artificial timelines from the hidden negative alien invasion, the original Universal Tree of Life was disfigured via metatronic coding and reduced to ten spheres instead of the original mathematical base of twelve. Essentially, the Thothian Luciferian agenda was to utterly destroy all organic creation code, matrices and artifacts that included Base 12 Math and replace it with their own versions of base 10 math. The Kabbalah Artificial Tree of Life represents the distorted 10D base code genetic blueprint of the Black Sun regressive lineages, that are attempting to permanently genetically modify and hybridize human 12 strand DNA genetics through the imposition of their artificial manifestation template.

Base 12, Natural Order of Christos Blueprint

The divine blueprint which holds the original intention for the natural order of consciousness evolution within our Universal creation, is encoded in the base 12 mechanics of the Christos blueprint. At a cosmic level this same open source architecture is referred to as Kryst-Krystallah, the unified masculine and feminine consciousness energy that exists in perfect harmony and balance within organic creation. The base 12 Universal Androgynous Merkaba fields of Christos-Sophia are also referred to as Kryst-Krystallah architecture, as they make up the instruction set for all merkaba fields within all the timelines and densities throughout the Universes.

Thus, the term Christ or Christos used in this context is not denoting the individual being referred to as Jesus Christ, as taught through the world religions. Christos extends way beyond all meaning associated with planetary consciousness and actually describes the state of eternal Cosmic Consciousness, the title given to a free Cosmic Citizen.

We endeavor to use the word Christ, Christos-Sophia, Krystal, Krist and Krystallah interchangeably to return the real meaning and use of these sound tones within the words. These denote the spiritual freedom inherent within the consciousness principles of the Cosmic Sovereign Law of One, the cosmic structure of the natural order of Universal creation as it is intended by the Eternal God Source. The inner light of Christos when actualized in form, is the embodiment of an Eternal God Human.

The Christos shield contains the natural order for our Universal creation, which is the meaning associated when describing the existence of organic timelines, and the original organic matrix for stations of consciousness evolving throughout creation. The natural order essentially means the base architecture in the Universal Time Matrix maintains alignment to the Natural Laws, which ensures the stations of consciousness remain multidimensionally interconnected, to hold direct relationship to the God Source connection at every level of existence. Within the Christos matrix, we are free to incarnate within the many multidimensional experiences of creation, sustaining our full connection with the God Source. We are thus able to return home to the God Worlds, maintaining the complete integrity of our consciousness experiences while exploring the many timelines of creation.

Thus, during the timeline wars, the Christos Mission is the incarnational agreement made by many Starseeds that came to the earth during the Ascension Cycle, To help realign the planetary grid back into Krystic architecture, building the Christos blueprint, in order to restore energetic balance and the natural order to the consciousness evolution cycles.

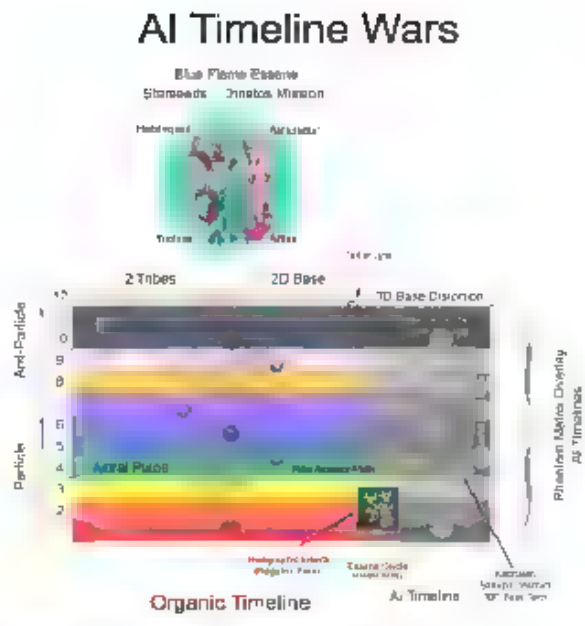
Blended Earth Reality

During the Ascension Cycle, those serving the Christos Mission are attempting to dismantle the distorted base 10 Artificial Tree of Life used in an assortment of artificial technologies to project artificial timelines. Those that embody the Christos blueprint have returned to the earth field to support these template corrections, through the restoration of the core manifestation body being returned back into its natural formula of base 12 math. The metatronic reversal of the collective shadow bodies, is held within the adverse sephiroth that are created from this distorted organizational template. This is also called the Black Tree of Life, which transmits Qlippoth current consisting of black subtle forces assimilated into AI fields that are used to maintain the metatronic codes running in the earth grid.

The split of two main organizational templates in the earth body has manifested a blended system that is competing between artificial and organic timelines, in which the artificial layers running metatronic coding are designed to fully mutate the original human DNA into reversal 10 base architecture that is preferred by the invading forces. [1]

Timeline Wars

Thus, during the timeline wars, the Christos Mission is the incarnational agreement made by many Starseeds that came to the earth during the Ascension Cycle. To help realign the planetary grid back into Krystic architecture, building the Christos Blueprint, in order to restore energetic balance and the natural order to the consciousness evolution cycles. When a human being chooses to devote themselves to the spiritual embodiment of their personal Christos blueprint, their consciousness and physical body become the highest expression of the Natural Order and serves the divine plan for all. Their consciousness body will naturally transmit loving, balancing, healing and harmonizing frequencies to the earth and to all of humanity. The Christos frequencies may feel discordant, unpleasant and even repellent to those humans and non-humans who are unaware of the negative influences of the Predator Mind or who have not chosen to embody their Christos blueprint.



Time ine Wars and Phantom Matrix

Aberrations Cause Damage and Fragmentation

Violations of Natural Order: Over multiple millions of years, there have been many warring conflicts that generated deviations from the natural order and caused an assortment of aberrations, such as planetary grid damage and consciousness body fragmentation throughout our Universe. The primary historical timeline trigger events in human Galactic history that generated the most serious damage, such as rips and holes in the fabric of space and time, were during the Lyran Wars, Orion Wars, and subsequent wars that led to the utter destruction of an entire planetary consciousness.

The 5D planet Tara exploded millions of years ago and as a result, was sucked into a reversal black hole which fragmented the entire fifth dimensional planetary blueprint into 12 planetary bodies in our current third dimensional Solar System. The 12 planets are Mercury, Venus, Earth, Mars, Maldek, Jupiter, Saturn, Uranus, Neptune, Pluto, Nibiru and then the Sun star. Current science recognizes only eight planets of the twelve in our Solar System, along with dwarf planets. With the 12 planetary bodies we can again note the 12 base math that is reoccurring and represented in the macrocosm of our Solar System.

Much of the consciousness that was originally incarnated on Tara, currently exists on the earth and has been subjected to repeated recycling and fragmentation without any alternative that allows for continued consciousness evolution or bio-spiritual ascension. The Paliadorians embodied all of the genetic tribal records for the planet Tara that existed before the destruction of the planetary body, and preserved all of the genetic records for the race lines within the Mother's Aqua Ray. As the Blue Flame Arc Technologies are progressively coming online, this allows for reintegration of many soul fragments through the Mother's Aqua Ray. An Ascension pathway is anchored in the matter fields which allows for genetic rehabilitation and reconnection with our original Christos Blueprint, to restore the direct God source connection.[2]

"THE COMPLEXION OF THE CAROLINA INDIANS IS BLACK, NOT MUCH DIFFERENT FROM THAT OF THE ETHIOPIANS. THEIR HAIR IS BLACK AND THICK, AND NOT VERY LONG, TIED BACK BEHIND THE HEAD LIKE A SMALL TAIL. AS FOR THE PHYSIQUE OF THESE MEN, THEY ARE WELL PROPORTIONED, OF MEDIUM HEIGHT A LITTLE TALLER THAN WE ARE. THEY HAVE BROAD CHESTS, STRONG ARMS, AND THE LEGS AND OTHER PARTS OF THE BODY ARE WELL-COMPOSED. THEY'RE BROAD IN THE FACE AND HAVE BIG BLACK EYES. THEY HAVE A SHARP CUNNING AND ARE AGILE AND SWIFT RUNNERS."

ADMIRALTY. A court which has a very extensive jurisdiction of maritime causes, civil and criminal, controversies arising out of acts done upon or relating to the sea, and questions of prize.

It is properly the successor of the consular courts, which were emphatically the courts of merchants and sea-going persons, established in the principal maritime cities on the revival of commerce after the fall of the Western Empire to supply the want of tribunals that might decide causes arising out of maritime commerce.

Also, the system of jurisprudence relating to and growing out of the jurisdiction and practice of the admiralty courts.

Consular courts /kónsty)ələr sorts/ Courts held by the consuls of one country, within the territory of another, under authority given by treaty, for the settlement of civil cases. In some instances they had also a criminal jurisdiction, but in this respect were subject to review by the courts of the home government. The last of the United States consular courts (Morocco) was abolished in 1956.

Note: In the "BLACK'S LAW DICTIONARY DELUXE 4th EDITION" Admiralty definition states in the 2nd paragraph, "It is properly the successor of the consular courts...after the fall of the Western Empire?" "The Fall of the Western Empire"... We are in the "Western Empire" now allegedly? So, when did it fall? The Rastas, the N.O.I., and etc...are still waiting for Babylon (America) to Fall, i.e., the U.S. So, obviously, this is not a reference to the U.S., but the last Western Empire (De Jure Government) prior to this one (de facto government) who stated, "It is properly the successor of the consular courts..." Interesting, so, I looked up the meaning of "Consular courts" and another interesting connection happen. Make note in the last sentence of the paragraph..."The last of the United States consular courts (Morocco) was abolished in 1956."

According to THE HOLY KORAN CIRCLE SEVEN OF THE MOORISH SCIENCE TEMPLE OF AMERICA by the Prophet Noble Drew Ali - Chapter XLVII. EGYPT, THE CAPITAL EMPIRE OF THE DOMINION OF AFRICA
6. The Moabites from the land of Moab who received permission from the Pharaohs of Egypt to settle and inhabit North-West Africa; they were the founders and are the true possessors of the present Moroccan Empire. With their Canaanite, Hittite, and Amorite brethren who sojourned from the land of

Canaan seeking new homes.
7. Their dominion and inhabitation extended from North-East and South-West Africa, across great Atlantis even unto the present North, South, and Central America and also Mexico and the Atlantis Islands; before the great earthquake, which caused the great Atlantic Ocean.

Prophet Noble Drew Ali is responsible for the governmental Moorish flag flying once again on American (Moroccan, or the Moroccan Empire, Empire Washitaw de Dugdahmoundyah Mu'urs [Moors], Amexem Empire) soil in 1913? (read: "101 QUESTIONNAIRE FOR MOORISH CHILDREN " 031. What is the modern name for the Moabites? Moroccan 32. Where is the Moroccan Empire? Northwest Amexem. 033. What is the modern name for Amexem? Africa. Hence, you are in North Africa [Amexem]. America is the code word for Africa d Morocco...AmeRICA decoded is AfRICA and MoRoCo decoded is aMeRiCa (see "ANNOINTED NEWS JOURNAL," June 1998, Page 23). According to the tale told to us Mu'urs (Moors / Moorish Americans), Prophet Noble Drew Ali traveled to see President Woodrow Wilson and here he sat and they challenged him. Drew Ali raised his right hand and light filled the room. Noble Drew Ali asked the President to teach his people, and they asked him, "Are you talking about the 'Negroes'?" He replied, "There are no Negroes, Colored Folks, Black People, or Ethiopians! They are descendants of the Ancient Moabites, who inhabited the Northwest and Southwest Shores of Africa! I came for the flag of Our Ancient Forefathers." The President stated, "It is not yet your time!" Ali answered, "I have been appointed in due time by Allah (Ur Ra, Heru Ur, Amen Ra) the Great God of the Universe." One of the President's counsels asked, "What kind of flag is your flag?" Drew Ali said, "YOU HAVE IT HIDDEN IN YOUR VAULT!" So they went to the vault room. They began to bring out all kinds of modern day flags. Ali stated, "You know it is much older than these!" They began to dig deeper and came up with a red flag and said, "This is the flag of Morocco." The Prophet stated, "I am here for the Moorish flag, that which you called a cherry tree." Then they dusted off an old flag that was red with a five pointed green star in the center. The President and counsel stared amazed at the exactness of the Holy Prophet. The President the said, "We have had them so long that they will not follow anyone else and to tell them would be like putting pants on a mule." The Prophet stated, "My flock knows my voice." After a while, he left and returned to his people (Note: There is no documented proof of this ever happening outside of the MSTA).

After, the mysterious death [murder?] of Prophet Noble Drew Ali the "Great Schism" was on. Slave masonic infiltrators and de facto government agents caused the closing of most temples, at least the ones originally set up by Prophet Noble Drew Ali, [M.H.T.S.] Moorish [Holy] Temple of Science [of the World] [Civic-1926] and [M.S.T.A.] Moorish Science Temple of America (Religious-1928), without the Inc. of 1934 founded by Charles Kirkman-Bey. Bro. Kirkman–Bey changed the status of the organization from a religious organization incorporation to a non-profit organization incorporation and that's why Inc., is on their charter). The name 'America' is derived from the name Morocco (Al Moroc) and not from the Italian name, Amerigo (Americus Vespuccius). America was/is part of the dominions of the Moroccan Empire (Ottoman, Songhai [Ghanian / Malian]) (see United states code title 22 chapter 2 section 141). 22 USC § 141 to 143 - Repealed. Act Aug. 1, 1956, repealed sections 141 to 143 effective upon the date which the President determined to be appropriate for the relinquishment of jurisdiction of the United States in Morocco. Jurisdiction of the United States in Morocco was relinquished by memorandum of President Eisenhower dated Sept. 15, 1956. Notice was given to Morocco on Oct. 6, 1956, and all pending cases were disposed of by 1960. See Bulletin of the State Department Vol. 35:909, page 844. Section 141, R.S. §§ 4083, 4125, 4126, 4127; act June 14, 1878, ch. 193, 20 Stat. 131, related to judicial authority generally of ministers and consuls of United States in China, Siam, Turkey, Morocco, Muscat, Abyssinia, Persia, and territories formerly part of Ottoman Empire including Egypt.

Consequently, the Kingdom of Morocco in (East) Africa (North -Western part) was not allowed to fly the Moorish flag until 1956 A.D., which the five-pointed star is intersecting; after their independence from France. The five pointed green star in the center of a field of red is the governmental Moorish flag, which the star is overlayed; it was the alleged cherry tree that General George Washington (Note: The real George Washington was replaced by Adam Weishaupt, the founder of the Bavarian Illuminati who infiltrated the United States Masonic lodge read "COSMIC TRIGGER Vol. 1" by Robert Anton Wilson), chopped down in 1774 (read: "MOORISH CIVIC RELATIONS CONCEPTS," by Moorish Mason: Taj Tarik Bey). George Washington was a Grand Master Mason and a racist slave owner who convened at the Odd Fellows Convention. The popular name of this convention according to European history books became known as the First Continental Congress, and George Washington was elected chairman of this convention. In Masonic terms, he was elected as Grand Master. The two main issues, which were discussed, and debated was (1) how were the 13 colonies going to form a united front against King George III of England. (2) How were the 13 colonies going to justify the institution of perpetual slavery of the Moorish inhabitants and population whom were renamed by the European Nations negro, black, and colored people, cutting the so-called Black people off from the illustrious history of their forefathers. This happened on September 5, 1774, long before Washington was elected President. Of course, in the story told to us in public school, "At the age of (9) nine George Washington told his father, 'I can not tell a lie, I chopped down the cherry tree.'" Assisted by England, Scotland, Ireland, Netherlands, France, Germany, Finland and Sweden the United States of America (Al Moroccan) ended their war with the Moors (Al Moroccan Empire, Empire Washitaw de Dugdahmoundyah Mu'urs) and signed the Treaty of Peace and Friendship with the Emperor Mohammed Bey III (Moorish-Mason) The aforementioned treaty is the longest unbroken treaty in the history of the United States (read: "U.S. MOROCCAN RELATIONS," by Robert G. Neuman, former U.S. Ambassador to Morocco [1973–1976]). On December 1, 1789, the (9) ninth President of the United States George Washington (Adam Weishaupt?), under the "ARTICLES OF CONFEDERATION," apologizes to his Masonic Brother Emperor Mohammed Bey III, for not sending the regular advices (tribute: a payment by one ruler or nation to another as acknowledgment of submission or price of protection, excessive tax). Also, President Washington asked the Emperor to recognize their newly formed government. The Moroccan Empire (Moors) were the first nation to recognize the thirteen colonies as a said sovereign union (see: "MOROCCO WAS THE FIRST NATION TO RECOGNIZE THE U.S. - Obama's Speech" http://youtu.be/33HoU1N4XfU) Allegedly, the Emperor agreed to their recognition because 25 Mu'urs (Moors) were members of the first Continental Congress (read: "THE WRITING OF GEORGE WASHINGTON FROM THE ORIGINAL MANUSCRIPT SOURCE 1745—1799," by Editor John C. Fitzpatrick, Volume 30, pages 474—476.

HOLY PROPHET NOBLE DREW ALI

Bro. I. Cook-Bey, G.G. (Emeritus) of Ill, said that the Holy Prophet Noble Drew Ali told the Moors that "the Europeans went to the Moroccan government, and asked for permission to come over here (to America) to develop this land, and they were given a 50 year mandate to do so. Then the Europeans went to an old Sheik and asked him to give them some people to help them to develop this land. The Sheik told them to take those Moors, because they are not going to do anything." This is a direct reference to the "THE TREATY OF PEACE AND FRIENDSHIP BETWEEN MOROCCO & THE U.S."

PEACE AND FRIENDSHIP

This Is The First Page Of The Moroccan Treaty Of 1787. Thomas Jefferson And Benjamin Franklin Worked Closely With The Moors In The Continental Congress To Secure This Treaty. In The Bevans Collection There Are Over 200 Letters To The Bey Of Morocco From The Continental Congress. There Were Many Moors In The Continental Congress Working With The European Masons Originally Taught By Moors, To Form A "Novus Ordo Seclorum" | New Secular Order Of The Ages, "E Pluribus Unum" Out Of Many Peoples And Nations, One|. The Moroccan Treaty Is Very Powerful Because According To The Constitution, Treaties Are The "Law Of The Land ". This Treaty Specifically Deals With Moors. The Question Then May Arise, " How Do We Know That Where The Treaty Says Moors, That So-Called "Black" People Of That Time Is Being Referred To"?

HOLY PROPHET NOBLE DREW ALI

Sister M. Whitehead El (who is Sister M. Lovett El, (Past) G G. of Illinois, and who was the Holy Prophet's wife's aunt. She was the aunt of Sister Pearl Ali stated that Prophet Noble Drew Ali said "Look what I have on, now this was handed to me by the government. It represents the royal prince."

Prophet Noble Drew Ali, (Sheik Sharif Abdul Ali) was born Timothy Drew in the territory North Carolina on January 8th, 1886. "I was given a high name over there (In Mecca) but you can not use it over here. Be good Moors and I will hand it down to you. He arrived in Arabia as an "Angel" (Moslem) from Egypt.There (In the Holy City of Mecca) he, Timothy Drew, was given the Holy Attribute through the Head of the Holy City, Sultan Abdul Aziz Ibu Suad, a direct descendant of Hagar who named him: "El Hajj Sharif Abdul Ali." He was born of Washitaw-Tunica Mu'urs (Moors) and Kituwah (Cherokee / Cohaire) raised up on a Shariqi / Tsalagi (Aniwa, Aniyunwiya, Kituwah, Cherokee / Coharie) Reservation around the age of (7) seven with his father's people, (associated with the Smoky Mountains Native American Reservation) near the city of Clinton, in Sampson County (referred to as Simpsonbuck County .non existence) in North Carolina Republic, however, there is a village called Simpson (Greenville) in Pitt County, North Carolina. however, the only said Indian Reservation around is approximately 50 miles away, the Haliwa Saponi Tribe. It could not be Simpson, North Carolina, because Simpson as a village / town did not become incorporated until 1914 (but it is possible, people referred to the area prior to that as Simpsonbuck, but even then Simpson is not a county), Prophet Noble Drew Ali was born in 1886. Nevertheless a couple of countries away is Sampson County, which was formed in 1784, over a hundred years before the birth of the Prophet.

John A. Drew-Quitman
Full-Blooded Cherokee (Coharie)

Eliza Turner (Tunica Tribe) & John Drew Quitman (Keetman) (Kituwah Tribe, one of the five native names for Cherokee)

The following information is taken from "RETURN OF THE ANCIENT ONES" by Her Highness Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner) Goston El-Bey

The United States government assumed military control over North America east of the Mississippi River pursuant to the Treaty of Paris of (1783) and U.S. Incorporation of 1789. The former British Quebec-Louisiana (1774-1789) became U.S. Northwest Territory north of the Ohio River while the Louisiana south of the Ohio River became U.S. Southwest Territory. See U.S. Southwest and U.S. Northwest Ordinances of the Corporate U.S. government.

Meanwhile, the Treaty of San Lorenzo (1795), also known as the Pinckney Treaty re-established the 31st parallel as the southern boundary of the United States of America, acknowledging the Spanish Floridas and the Spanish Louisiana west of the Mississippi River. The Spanish de Bourbon would now serve as the Protectorate of the lands and sovereignty of the Washitaw Nation of Muurs.

Given the "Secret Treaty" of San Il-deFonso of 1800, the de Bourbon Charles IV King of Spain, seceded to the French Imperor, Napoleon I Bonaparte, the seaport city of New Orleans ONLY. The whole of Spanish Louisiana was not conveyed or transferred to Napoleon I. So when Napoleon seceded the Port City of New Orleans to U.S. President Thomas Jefferson as the so-called Louisiana Purchase treaty of 1803, the whole of Louisiana west of the Mississippi River was NOT included. This fact has been secure on the original documents. The Secret Treaty of San Il-deFonso of October 1, 1800. See also the Secret Treat of San Il-deFonso of 1762 for the Imperial Spanish Land Grant conveyed to the French crown in the person of LOUIS XVI.

Meanwhile, given the death of both the heir to the French Crown, LOUIS XVII, and the heiress to the Washitaw Throne, AYIMARIEEYAH, the Tiles of Louisiana Dauphin and Regent MARQUIS de MAISON ROUGE were conveyed to the next-in-line to the Imperial French Crown, Louis Francis Joseph de Bourbon, Prince de Conti (1734-1814) the son of Louis Francis de Bourbon, Prince de Conti (17 7-1776).

Louis XVII and Ayimarieeyah had been wed in 1795, and now their daughter ANNIAMAREE, was to be wed to Joseph de Bourbon, Prince de Conti. A second daughter of Louis XVII and Ayimarieeyah, LULIA DANIEL, was to be wed to the French Nobleman, Louis Boulingny Garrison. As the 2nd MARQUIS de MAISON ROUGE, Joseph de Bourbon became the recipient of both the Imperial Spanish Land Grant of 1767 and Spanish Land Grant of Monroe, Louisiana. With the death of Joseph de Bourbon in 1814, his eldest son HENRY JOSEPH TURNER inherited the Maison Rouge estate.

Mahala Garrison, the eldest daughter of Louis Boulingny Garrison and Lulia Daniel became the next Empress of the Washitaw. Meanwhile, HENRY JOSEPH TURNER the eldest son of the 2nd MARQUIS de MAISON ROUGE, Louis Francois Joseph de Bourbon, Prince de Conti and Anciamaree, the Empress of the Tunica [illegible]

HENRY JOSEPH TURNER became the recipient of the 1762 and 1795 Imperial Spanish Land Grants, the 3rd MARQUIS de MAISON ROUGE.

Mahala Garrison married William "Bill" Kimms-Badger and from this union will come their eldest son, Ishem Washitaw (Washington). HENRY JOSEPH TURNER (d. 1844) married Sarah Tunica and from this union will come their eldest son, JOSEPH HENRY TURNER, the 4TH MARQUIS de MAISON ROUGE.

Ishem Washington will marry Delphia Kimms-Badger (1850-1967); and from this union will come their eldest son, Frederic Houston Washington. JOSEPH HENRY TURNER (whose sister is Eliza Turner, the mother of the Prophet Noble Drew Ali) will marry Matilda; and from this union will come the eldest daughter, Annie Frankee Turner.

Frederic Houston Washington, Regent of the Empire Washitaw de Dugdahmoundyah will marry Annie Frankee Turner, the recipient of the 1762 and 1795 Spanish Land Grants and the heir of the Henry Joseph Turner estate. The eldest daughter of Frederic and Frankee is the current Emperial Empress of the Washitaw, Verdiacee "Tiara" Washington. Verdiacee is married to John Goston, the son of Corrella Turner. Corrella is the daughter of Eliza Turner. Eliza is the mother of the Prophet Noble Drew Ali. Corella and Drew Ali are brother and sister. Eliza is the daughter of Sarah Tunica and Henry Joseph Turner (d. 1844). John Goston had been the 4th MARQUIS de MAISON ROUGE after Noble Drew Ali, who had been the 5th MARQUIS de MAISON ROUGE.

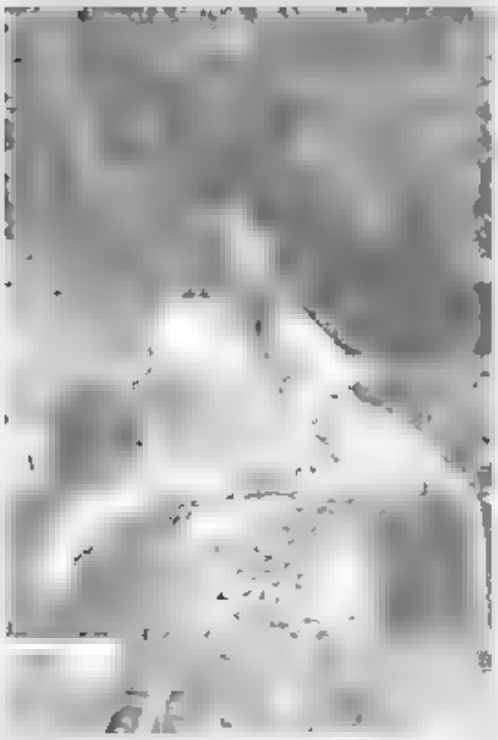
A direct descendant of LOUIS XVI and AYIMARIEEYAH, Verdiacee "Tiara" (b. May 4, 1927) is the sovereign. The U.S. Supreme Court case nos. 3 & 191 of 1948 United States v. Henry Turner's Heirs, affirms the estate of the Washitaw 68,868) acres of land constituting the northern half of the present state of Louisiana. The land is the personal and private property of the Empress, heir to the 1795 Spanish Land Grant Maison Rouge. The land now serves as the capital seat (Washitaw Proper), of a much larger land claim.

In the context of International Law the Washitaw has established itself as a Sovereign Independent Nation. (United Nations, NIS-21/593) apart from the corporate Union of 1781 and the corporate United States of 1787. The land claim of the Washitaw has been affirmed by the Spanish and French, as well as the British, pursuant to Spanish Land Grants of 1762 and 1795.

In the context of U.S. Federal law the land of the Washitaw has been defined as "Indian Country" and the people regarded as "Indians". Both the people and their land have been placed under the authority of the United States government via the Bureau of Indian Affairs within the Department of Interior, which is governed by both Executive

The late Her Highness Empress Verdiacee Washitaw (Washington) Tunica (Turner) Goston El-Bey at the 1994 Convention with S G.G. (at that time the Supreme Grand Governor) E. Braswell Bey.

HIGHNESS EMPRESS VERDIACEE 'TIARI' WASHITAW (WASHINGTON) TUNICA (TURNER) GOSTON EL-BEY



Empire Washitaw de Dugdahmoundyah Mu'ur (Moor) are ascendants of the Kushite (Cushite) Empire, the Songhai-Malian Empire (IX / Olmec), and the Ottoman Empire (Moroccan). The Washitaw de Dugdahmoundyah Mu'urs (Moors) are also called the Choctaw (or Shabtau [Sbt], which is the Tribe of Shabazz, the Tribe of Hebrews or Israelites and etc...) lay claim to the following land by and through bloodline. Her Majesty Her Highness! The late Dr. Empress Verdiacee "Tiara" Washitaw-Turner Goston EL-Bey is the Great Great Granddaughter of Marie Antoinette, (6) six times removed and the rightful heir to the Throne of France, Spain, & (England) by the Royal bloodline (Puck-cuchque) She laid claim to the following land by and through bloodline (Puck-cuchque): de bourbon Estate, also known as The Emperial / Imperial International Estate of the Bourbon Hapsburg Empire which includes Western Europe: de bourbon Estate, also known as The Emperial International Estate of the Bourbon Hapsburg Empire which includes Western Europe: The Netherlands, Belgium, Luxembourg, Switerland, Germany, Italy, Sicily, Naples, Sardina, Spain, and Portugal. As well as, most of North America and Caribbean in addition to Central and South America; and all of North America west of the Emperial Demarcation Line (1713) or British Royal Proclamation Line (1763). This is the breakdown of the Royal Emperial Bloodlines for the Washitaw-Tunica Mu'urs (Moors): The young heir to the French Throne, King Louis XVII, married the young heiress to the Washitaw-Tunica Throne, Ayimarieeyah. Their Emperial / Imperial marriage would become official in 1795, pursuant to the conveyance of Spanish Land Grants bestowed upon the young heir, King Louis XVII, and his wife and heiress, Ayimarieeyah. These two would also receive the Imperial Spanish Land Grant of 1763. As a recipient of both the 1762 and 1795 Spanish Land Grants, King Louis XVII, became known as Marquis de Maison Rouge: owner of Louisiana and Florida. These Land Grants supersedes Rick Holley, president and CEO of Plum Creek Timber Co., is the state's largest private land holder's deeds (colorable law / legalities).

Upon the death of Ayimarieeyah and King Louis XVII, the Titles of Louisiana Dauphin and Regent Marquis de Maison Rouge were conveyed to the next-in-line to the Imperial French Crown, Louis Francis Joseph de Bourbon, Prince de Conti (1734-1814) the son of Louis Francis de Bourbon, Prince de Conti (1717- 1776). The Daughter of Ayimarieeyah and King Louis XVII married Louis Francis Joseph de Bourbon, Prince de Conti. As the second Marquis de Masion Rouge, Louis Francis Joseph de Bourbon, became the recipient of both the Imperial Spanish Land Grants of 1762 and the Spanish Land Grant of Monroe, Louisiana. With the death of Joseph de Bourbon, his eldest son, Henry Joseph Turner inherited the Maison Rouge Estate. Henry Joseph Turner became the recipient of 1762 and 1795 Imperial Spanish Land Grants; making, him the third Marquis de Maison Rouge. Henry Joseph Turner married Sarah Tunica (Turner); and from this union came their eldest son: Joseph Henry Turner, the fourth Marquis de Maison Rouge. Timothy Drew (Prophet Noble Drew Ali) was Prince and fifth Regent Marquis de Maison Rouge by and through his mother, Eliza, a daughter of Sarah Tunica and Henry Joseph Turner. Eliza

Tunica (Turner) married John A. Drew-Quitman (Keetman or Kituwah, one of the five names for Cherokee). According to the "ORAL STATEMENT AND PROPHECIES," Prophet Noble Drew Ali said, "I am the fifth and last prophet, and I am five times more powerful than I was before." This is the reason why Noble Drew Ali is referred to as a Prophet, because, he had land..."Land of Milk and Honey...Canaan to take us (Asarians, biblically called Israelites) to, unlike the allegorical (fictional character) Moses, whose story is based on Amenhotep IV (Ankh Aton) to go to. Moreover, Bro. A. Wise-Bey, (Past) Grand Natl. Secretary said that the Holy Prophet said, "I didn't tell anyone where I was born at or who my parents were, because I didn't want people to make a shrine out of the place or make over my parents like was done with Joseph and Mary."

Allegedly, on January 20, 1928 to February 16, 1928 C.E., Prophet Noble Drew Ali went to the 6th Annual Pan-American-Conference held in Havana, Cuba (Note: The minutes from 6th Annual Pan-American Conference of 1928 are missing? And thus, documentation has yet to be found to verify this as truth or not). Secretary Of State Hughes went down to represent the United States and Noble Drew-Ali went down to represent the Mu'urs (Moors) as Head of a Nation-State. At that conference, the mandate for the landmass of Greater-Amexem [North, Central, and South-Central-Amexem] misnomer as the North, Central, and South "Americas" was returned to the Mu'urs (Moors). Prophet Noble Drew-Ali knew what this meant and what the ramifications of this was and is (read "EXHUMING OF A NATION; THE BIOGRAPHY OF PROPHET NOBLE DREW ALI" by Swift Angel Elihu Pleasant Bey) (Note: Prophet Noble Drew Ali basically knew his lineage and heritage through his Aunt that helped raise him - Dr. Ali Muhammad)." An excerpt from a chapter in "THE MONTAUK BOOK OF THE DEAD" by Peter Moon - The Ali Shuffle states, "In 1928, Ali attended a Pan American conference in Havana Cuba where he enjoyed broad recognition from a host of other countries. They were, of course, recognizing his sovereign status (as a Prince of Washitaw-Tunica and the 5th Royal Regent - Marquis de Maison Rouge), who was representing the ancient empire of Amexem (Al Morroc). The document Drew Ali received was a copy of a mandate whereby the Amexem (Moroccan) Empire extended a land grant of the entire Western Hemisphere to certain Europeans. Essentially, it "leased" America to a certain party for a particular number of years, not unlike the way China leased Hong Kong to Great Britain. The lease was up in 2004. According to Abdullah El Talib Mosi Bey, "The United States Of America Corporation is the Administering Authority of our Moorish Territories which are in the category of Trust Territories under mandate of the United Nations. The United Nations will terminate the United States of America's Mandate over our Moorish Territories and Great Seal Federal Republic Government once we regain a full measure of self-government (sovereign capacity). The United Nations International Decade of the World's Indigenous Peoples (1995 – 2004) is the window period that the United Nations have set to terminate all Mandates of territories currently administered as Trust Territories, thereby, eliminating Colonialism and enslavement of the World's Indigenous Peoples. By international and national law, the United States of America corporation is obligated to honor and respect the Treaty of Peace and Friendship of 1787 A.D. – Article VI of the Constitution of the United States of America makes the Treaty of Peace and Friendship the Supreme Law of the Land that govern all matters of Interchange, Commerce and Law between the Moors and the Foreign European Christians" (read: "THE UNIVERSAL DECLARATION ON HUMAN RIGHTS" [Dec. 10, 1948]), "THE COVENANT ON THE RIGHTS OF INDIGENOUS NATIONS" [initiated on July 28, 1994])," "UNITED NATIONS DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLES" (passed September 7 and adopted September 13 2007), "INTER-AMERICAN DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLE [1995]," "CHARTER XI (DECLARATION regarding Non-Self-Governing Territories), CHAPTER XII (International Trusteeship System) and CHAPTER XIII (The Trusteeship Council) and etc...

Sister M. Howell El of Temple 19 said that the Holy Prophet told the Moors, "I brought you your nationality, your religion, and (nobility) title to your vast estate (The "Charter Warrant & Dispensation" of the [MHTS] Moorish Holy Temple of Science / [MSTA] Moorish Science Temple of America, El, Bey, Dey, Al, Ali, Chapter 47 of the "MOORISH HOLY KORAN CIRCLE 7"...these were the names used during the last days under the Ottoman Empire). What do you want me to do; kill you?" Prophet Noble Drew Ali took several stop gap measures to secure our [Moors] birthright inheritance and beneficiary interest as Moors to the land mass within the aforementioned land mandate, in which was "part and parcel" of the "Vast Estate" Express Trust. Sister M. Payton-Bey of Temple 4 and 25 said that the Holy Prophet said, "I have got the world in a jug, and the stopper in my hand." Others said that the Holy Prophet said, "I have got the world in a jug, and the stopper in my hand. I have got the Asiatic, and I have got the European. I have got the silver and I have got the gold." Secretary of State Hughes, from the U.S. Government was made privy to the land mandate. So were several other heads of state. Two months after Noble Drew Ali made transition (July 20th, 1929), the board of directors over the wealth of the Moorish Nation (Wall Street) realized it was too late. The stock market crashed and the United States was forced to declare bankruptcy. The so-called United States, Great Britain, France, Germany, Italy, Spain, and Portugal convened in Geneva, Switzerland for 5 continuous years [1928 C.E.-1932 C.E.] to set up what would be the policy of all of the participating countries. These 5 years of meetings became known as the Geneva Convention. In 1930 C.E., the so-called United States, Great Britain, France, Germany, Italy, Spain, and Portugal all declared bankruptcy. Any attempt to obtain the minutes of the 1930 C.E. Geneva Convention are futile because they publish the volumes of minutes for every year of the Geneva conventions including 1930 C.E. but refuse to make the 1930 C.E. minutes available to the public because they contain the evidence of the bankruptcy. Going into 1932 C.E., the aforementioned states stopped meeting in Geneva. In 1932 C.E. Franklin D. Roosevelt became the U.S. President and his job was to put into place and administer the bankruptcy that the United States had declared 2 years earlier and hide the bankruptcy from the unsuspecting public by establishing a re-organization plan [The New Deal / Administrative State that functions under the "color of law" of the United States of America]. The United States of America and the United States for America along with the United States Constitution became defunct from that moment on and all that remained was the insolvent / bankrupt for profit corporation known as the United States / UNITED STATES [Codified and documented in Title 26 of the Code of Federal Regulations section 1.911-2(h), In Re Merriam 36 NE 505. 141 N.Y. 479 upheld by the 16 S. Ct 1073. 163 U.S. 625 41 L.Ed 287 See also 16 Stat 419 and District of Columbia vs. Cluss 103 U.S. 705.26-1 Ed.455] operating a democratic military venue under martial law [War Powers Act] and the Uniform-Commercial-Code [Hebrew Commercial Law]. The so called "States" all revamped their local constitutions by 1938 C.E. to take into account their capitulation to the bankrupt mother corporation doing business as the United States thus clearing the way for the Buck Act of 1940 allowing the corporate United States to extend its jurisdiction and by default usurp all sovereignty over the now defunct State Republics (read: "EXHUMING OF A NATION: THE BIOGRAPHY OF NOBLE DREW ALI," "MONTAUK THE BOOK OF THE DEAD" by Peter Moon). Getting back to Roosevelt, he was sworn into the United States Presidency in January 1933 C.E. and wasted no time getting started with the bankruptcy. The U.S. Bankruptcy is expressed in Franklin-Roosevelts' Executive Order Numbers: 6073,6111, and 6260 (See U.S. Senate Report 93-549 pp. 187, 594) under Trading With The Enemy Act of 1917 codified as United-States-Code: Title: 12: Section: 95a: House Joint Resolution 192 of June 5, 1933 C.E. confirmed in Perry-v-U.S. (1933), case site 294 U.S. 330-381 and United-States-Code: Title: 31: Sections: 5112 and 5119. Roosevelt immediately shut the banks down [Banking Holiday] and proceeded to pull all of the gold out of circulation, while replacing it with a debt currency/tender/i.o.u. The U.S. is tributary to the Moors and they have to repay a 25 million dollars in gold loan that we made

to the U.S.: Government in 1861 C.E. The U.S.: Congress is responsible to repay which is why the seal of the Moors, the All Seeing Eye / Pyramid is on the back of the U.S. 1 dollar currency/tender/i.o.u.]. The European nations paid tribute to the Moors well into the 19th century. David MacRitchie in the book, "UNITED STATES AND BARBARY POWERS" the U.S., English, French, Dutch, Danes, and Swedes, and I may say all nations are tributary to the Moors. David MacRitchie goes further in "ANCIENT AND MODERN BRITONS VOL 1, AND VOL 2" and states, "The Moors had control of the Atlantic and the Mediterranean (paraphrasing)." This is why the U.S. Marines sing of defeating the Moors "From the halls of Montezuma (Mexico) to the shores of Tripoli," confirming in song the extent of the Moorish Empire or dominions of Amexem, or Atlantis. The United States is NOT a nation, nor a nationality (Note: The United States is of America, but America (Al Morocco) is NOT of the United States, meaning one has a superior position. Nevertheless, American is a nationality... "I need all support from all true American citizens of the United States of America. Help me to save my people who have fallen from the constitutional laws of the government - "DIVINE WARNING BY THE PROPHET FOR THE NATIONS," by Prophet Noble Drew Ali" (Note: He did not say United States citizen, because there is a difference) (see Amexem Moor Empire information).

This is a US supreme Court case that they try to hide. US Supreme Court of the United States 1795, "In as much as every government is an artificial person, an abstraction, and a creature of the mind only, a government can interface only with other artificial persons. The imaginary, having neither actuality nor substance, is foreclosed from creating and attaining parity with the tangible. The legal manifestation of this is that no government, as well as any law, agency, aspect, court, etc. can concern itself with anything other than corporate, artificial persons and the contracts between them." S.C.R. 1795, Penhallow v. Doane's Administrators (3 U.S. 54; 1 L.Ed. 57; 3 Dall. 54).

"There is a clear distinction in this particular case between an individual and a corporation, and that the latter has no right to refuse to submit its books and papers for an examination at the suit of the State. The individual may stand upon his constitutional rights as a citizen. He is entitled to carry on his private business in his own way. His power to contract is unlimited. He owes no such duty to the State, since he receives nothing therefrom, beyond the protection of his life and property. His rights are such as existed by the law of the land long antecedent to the organization of the State, and can only be taken from him by due process of law, and in accordance with the constitution. Among his rights are a refusal to incriminate himself, and the immunity of himself and his property from arrest or seizure except under a warrant of the law. He owes nothing to the public so long as he does not trespass upon their rights. Upon the other hand, the corporation is a creature of the State. It is presumed to be incorporated for the benefit of the public. It receives certain special privileges and franchises, and holds them subject to the laws of the State and the limitations of its charter. Its powers are limited by law. It can make no contract not authorized by its charter. Its rights to act as a corporation are only preserved to it so long as it obeys the laws of its charter." Hale v. Henkel, 201 U.S. 43 at 47 (1905).

Particularly note, that the rights of the a natural person (American), precede the organization of the state. The common-law rights of the individual are senior to any contrary statutes or regulations (colorable law). The people who masquerade as so-called 'government' have used various means to trick their victims to unwittingly submit to statutory jurisdiction.

Definition of the United States: (15) "United States" means—(A) a Federal corporation; (B) an agency, department, commission, board, or other entity of the United States; or (C) an instrumentality of the United States. http://cfr.law.cornell.edu/uscode/28/usc_sec_28_00003002----000-.html

(Note: "Count Volney author of "THE RUINS OF EMPIRES" translator Joel Barlow (1750-1812) himself was an American statesman well known for drafting the Islam-appeasing Treaty of Tripoli, in which it was written that "the United States of America is not, in any sense, founded on the Christian religion" [Treaty of Tripoli 8 Stat 154]).

U.S.A. is a RELIGIOUS CORPORATION now managed by Queen Elizabeth and UNDER CONTROL OF THE VATICAN. The Pope's laws are obligatory on everyone. (Bened. XIV., De Syn. Dioec, lib, ix., c. vii., n. 4. Prati, 1844) (Syllabus, prop 28, 29, 44). Therefore, ALL said MOORS contracting with the U.S. / U.S.A. are Chattel Property of the Vatican. Go to the www.manta.com website, owned by Dunn & Bradstreet. If you research the private corporation called 'the UNITED STATES Government', you will find that the 'OWNER' is listed as being 'Archbishop Deric J. McLeod, of The Basilica of the National Shrine of the Immaculate Conception, of Washington, D.C. Since Archbishops of the Vatican are sworn to poverty, then, the Archbishop can only be the named agent for the secular (so-called) Roman Empire, situate in the city / state called the Vatican (Papal State). According to "ELEMENTS OF ECCLESIASTICAL LAW" 20: The Pope can abolish any law in the United States. Why, because, it is a Religious Corporation, a said Christian Society now.

However, read the "ORAL STATEMENTS AND PROPHECIES OF PROPHET NOBLE DREW ALI," Bro. T. Booker-Bey, G.N.T. (Emeritus) said that the Holy Prophet Noble Drew AH said, "I have got the Romans in the palm of my hand."

Sister A. Brown El of Temple 4 and 25 said that the Holy Prophet said, "Don't throw away your Bibles, because I am going to use them to condemn the government."

Corrella Turner (Tunica) is the sister of Noble Drew Ali. Corrella's son, John Goston, is married to a direct descendent of Ayimarieeyah and King Louis XVII: Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner Goston El-Bey. Empress Verdiacee is the sovereign. Her union with John Goston makes him the sixth Marquis de Maison Rouge.

In the "ORAL STATEMENTS AND PROPHECIES OF PROPHET NOBLE DREW ALI," the Holy Prophet Noble Drew Ali stated, "The Moors are the off-springs of Kings and Queens."

The Royal Imperial / Emperial bloodlines have never be broken; therefore, ownership of most of North America and other lands belongs to Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner) Goston El-Bey and on June 7th 1999, she made Prince Ramisis Abel Bey, the "Crown Prince of the Empire Washitaw de Dugdahmoundyah Mu'urs" and brought him into the Washitaw-Tunica Emperial Bloodline (the edict was signed June 6th, 2003) and thus, began the formation of the United Washitaw De Dugdahmoundyah Mu'urs (Moors), "Prince Bey" in turn brought the Chiefs of United Washitaw De Dugdahmoundyah Mu'ur Nation into Washitaw-Tunica Emperial Royal Bloodline. In fact, we are the

"Royal House of Tunica" (Note: In the Empire Washitaw de Dugdahmoundyah Mu'urs there Is no such position as 'Chief', however "Prince Bey" seen the position 'Chief' as a necessity for the ultimate survival of Washitaw). So, based on Her Highness Empress Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner) Goston El-Bey bestowing Ramisis Abel Bey, the title "Crown Prince"...she too obviously made a move to ensure the survival of Washitaw. Thus, "Crown Prince Hutan Tu'pak Bey" is actually the seventh Marquis de Maison Rouge. John Jay, the 1st chief justice of the U.S. Supreme Court once said, "Those who own the country ought to govern it." According to Federal Law (colorable law, color of law), the land of the Washitaw has been defined as "Indian Country," and the people regarded as Indians. Both the people and their land have been placed under the authority of the United States government via the Bureau of Indian Affairs within the Department of Interior, which is governed by both Executive and Congressional Plenary powers. As a result, the United states has assumed the "Trust responsibility" for the Washitaw -Tunica Muurs (Moors) also called Witchetaw Nations, via Spanish Land Grant of Henry Turner.

Sarah Tyler	1 000 Acres Nelson Bouge Grant
Cott & Harrison	14 000 Acres Nelson Bouge Grant
Eliza Qu Tunn	1 000 Acres Nelson Bouge Grant
Total	49 960 Acres

Note: On the 3rd paragraph on the 1st page (shown here) of the United States v.s. The Heirs of Henry Turner, you will see the name Eliza Turner, the mother of Timothy Drew (Prophet Noble Drew Ali). Notice on the State of Louisiana letter Eliza Turner goes by her married name "Quitman" and she owned 1,036 acres by herself. Also, make note that this is the same Judge Roger B. Taney that ruled in the infamous "DRED SCOTT" case (1856-1857) just (9) nine years later, which essentially stated "There is nothing a negro has that the white man is bound to respect." These two paramount cases prove that there is a status difference between "Moor" and "negro (read "RETURN OF THE ANCIENT ONES" by Empress Vediacee Washitaw Tunica Goston El-Bey and "THE NEGRO, THE BLACK AND THE MOOR" by Noble Rommani Amenu-El).

HISTORIC PROOF OF LAND TIES THE HEIRS OF TURNER (TUNICA) VS. THE UNITED STATES

Eliza Turner (Tunica) and John Drew-Quitman (Keetman) played an important role in our heritage. They were a part of the landmark court case of Free Women and Men, also referred to in law as, "Free White Persons" (Note: The status of the descendants of the Moorish Inhabitants of Spain and Portugal on American soil is FREE WHITE PERSONS [natural men and women]. This STATUS does NOT apply to the Caucasian Race, Aryan Race, or Indo-European Races under the Naturalization Act [Amended by Act. July 14, 1879], I Stat.103,c.3 [See: "BLACK'S LAW DICTIONARY"4th Edition]... naturalization is part of the nationalization process,

however, as natural persons it is not necessary to be naturalized) who won back 68,883 acres of land in Louisiana. The court case the "UNITED STATES vs. THE HEIRS OF HENRY TURNER (TUNICA) case 32 UNITED STATES APPELLATE COURT" in 1850 was an appeal to an earlier case won by the Heirs of Henry Tunica called "THE HEIRS OF TURNER (TUNICA) vs. THE UNITED STATES case 191" in 1848. In other words, on June 6, 1848, a Supreme Court Decision read by Theo H. McCaleb (Judge), declared that the United States does NOT own the land of The Ancient Ones (Uaxashaktun) Mound Builders of North America (much more than 1,000,000 square miles of land). Mu'urs (Moors) are the Title holders The Tities are El, Bey, Dey, Al, and Ali; translated as the 5 civilized so-called Indian tribes (Choctaw [Washitaw], Cherokee, Chickasaw, Creek [Muskogee], Seminole Yamassee]). Also, the Court declared the lawful land owners are the heirs of Henry Turner (Washitaw-Moors / Muurs). A series of Congressional Bills/Acts and US Supreme Court cases reaffirm national sovereignty for the heirs of Henry Turner de Bourbon and the claim has been recorded before the World Court at The Hague (1996), that since the Treaties of Utrecht (1713) in which the Spanish de Bourbon had established themselves as the Protectorate of lands known as the Floridas, on behalf of Washitaw de Dugdahmoundyah Empire. Here are two United States Supreme Court cases in which the Washitaw won: https://supreme.justia.com/cases/federal/us/52/663/ and http://supreme.justia.com/us/44/773/case.html, and https://www.law.cornell.edu/supremecourt/text/44/773. The United Supreme Court found that "The Neutral Strip (2,961,983.5 acres of land. .approximately 3 million acres in the said U.S., not including Canada and other territories or lands) was definitely not a part of the Territory ceded to the United States" (Louisiana Dept. of Transportation, 1940), (2) the 1992 return of 68,883 acres of land by the State of Louisiana (Land Grant #923/1991), designated "Washitaw Proper;"and (3) "Washitaw Terra" including The Floridas The state of Louisiana returned 68,883 acres of land to the Washitaw Empress Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner) Goston El-Bey on August 1, 1992. The Empress evoked a state of emergency proclamation, signed by George Bush, ordering all colorless (pale) people to be air lifted from her land August 10, 1992. The Empress mailed a claim and demand to the state of Louisiana for 388,000,000,000 00(Billion) USD in gold and silver to be paid to the Washitaw De Dugdahmoundyah Mu'ur Empire for the uses of Washitaw's property (land). No payment has been received although the state of Louisiana did respond. How much do the thirteen colonies of (United) Union States, the United States, and the United States of America owe the Washitaw Empire for dispossession of our people and the unauthorized occupation of our lands? 80,000,000,000,000,000.00 (((EIGHTY QUADRILLION NON-COUNTERFEIT USD))). There is documentation in The National Archives in Washington, D.C. and elsewhere that confirm the Mound Builders (Uaxashaktun de Dugdahmoundyah).The United States has recognized the Washitaw de Dugdahmoundyah Mu'urs as an indigenous people of North America and had under consideration in the 105th Congress (H.R. #260), The Guadalupe-Hidalgo Treaty Land Claims Act of January, 1997.

LOUISIANA > Continuing her quest to bring truth to light, Empress Verdiacee Tiara Wastinaw Turnica Goston El-Bey, recalling 40 years of work including research as an archivist, in order locate documents and treaties concerning land known as "The Louisiana Purchase," in which her people are identified as "the Ancient Ones." The Empress says their land was never included in any land deal; that it was not part of the Louisiana Purchase when sold by Spain to France, nor was it bought in 1803 when France Roles it to the United States of America.

Empress Verdiacee Tiara Wastinaw-Turnica Goston El-Bey

She writes, "President Thomas Jefferson was well aware of this fraudulent land deal and stated his sentiments at the time."

In truth, the land spoken of has never been a part of the United States of America. It has always belonged to The Ancient Ones.

This sounds like the same land President Abraham Lincoln was going to return to the Moors after slavery. He called it the Egypt of the West and or Central America, the land between the Rockies and the Alleghany Mountains, from the Gulf of Mexico, up into Canada and on both sides of the Mississippi. In 1848, the Washitaw, also Quachita and Tunica nations took their land case before the U.S. Supreme Court and won their case under Judge Taney, the same judge, who in 1856 gave his opinion, which was not a legal decision, in the tragic Dred Scott case, which basically states, "there is nothing a Black man has, that a Whiteman is bound to respect." The result of this opinion meant further slavery and death to Washitaw-Tunica and other nations.

"They were murdered by the tens of thousands, enslaved and run off their lands. Their names were changed to hide the truth of their history. The Washitaw became Washington and Tunica became Turner."

The Louisiana Purchase (purportedly all the land from the Mississippi River to the Rocky Mountains purchased by President Thomas Jefferson in 1803 from France...President Lincoln's "Egypt of the West" or Prophet Noble Drew Ali's "Vast Trust Estate") has been proven by research of original Treaty and land Grant documents, to be nothing more than the Bourbon Street and a few military barracks, but does not include any land North of the Red River." Therefore, Napoleon actually sold only the streets (as in Bourbon Street etc...) of New Orleans and a military barracks." And Thomas Jefferson actually purchased the arsenal at New Orleans and a small amount of land outside the city limits, but within the providence where the city lies. The price agreed on was $15 Million, of which $11,250,000 was to be paid outright by the US to France. The balance of 3,750,000 was to be paid by the U.S. to its Citizens to satisfy their claims against France. Within the so-called Louisiana Purchase Treaty, Napoleon included

a stipulation under Art. III that states:

LOUISIANA PURCHASE TREATY - April 30th, 1803 with Convention 1

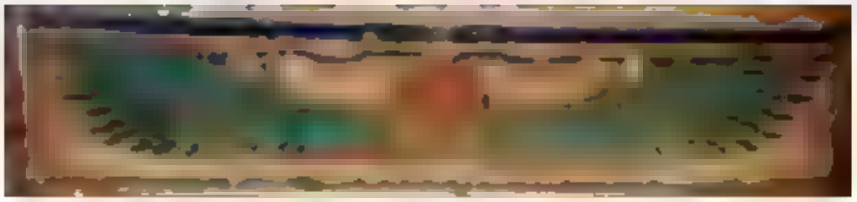
Article III: "The inhabitants of the ceded territory shall be incorporated in the Union of the United States and admitted as soon as possible according to the principles of the federal Constitution to the enjoyment of all these rights, advantages and immunities of citizens of the United States, and in the mean time they shall be maintained and protected in the free enjoyment of their liberty, property and the Religion which they profess."

Also in Article II of the Louisiana Purchase it states (exactly what was supposed to have been purchase); "In the cession made by the preceding article are included the adjacent Islands belonging to Louisiana all public lots and Squares, vacant lands and all public buildings, fortifications, barracks and other edifices which are not private property."

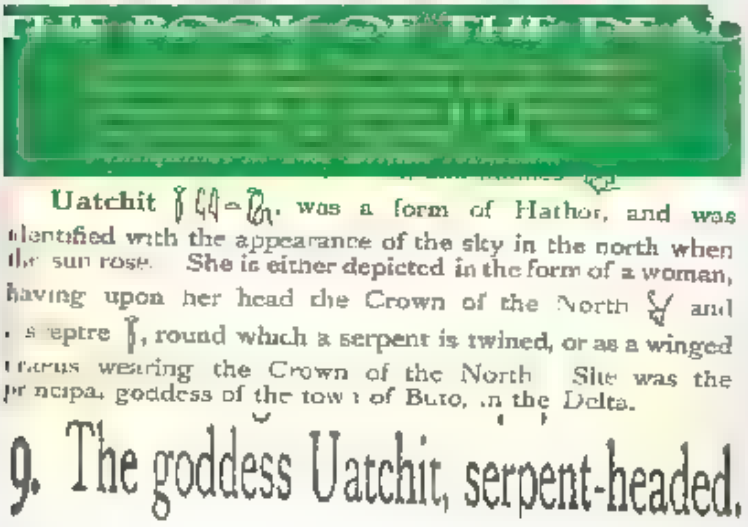
Let's use some common sense here, "Does this sounds like the whole of Louisiana or the so-called Louisiana Purchase of 15 or so states?" Answer: No, it does not! The payment for the so-called Louisiana Purchase never arrived to France, because the ship was sunked off the coast of Florida. Officially, the wreck was never salvaged. Therefore, Napoleon was never fully paid. Therefore, not even the Port of New Orleans were ever purchased by the U.S. As you can see from the Louisiana Purchase Treaty, the massive land grab was never a part of the original contract between Jefferson and Napoleon anyway. See, the land in question was originally, claimed (but not owned) by France, and France ceded it to Spain. Spain then ceded a portion of land back to France sometime later, but these cedes only included the streets and barracks in New Orleans, NOT THE REST OF THE ORIGINAL LAND CLAIMED BY FRANCE! Verification of this is in the Secret Treaty of San Il-defonso of 1800, the de Bourbon, Charles IV, King of Spain, seceded to the French Emperior Napoleon Bonaparte, the seaport city of New Orleans only, not the whole of Louisiana; so what Napoleon ceded to U.S. President Thomas Jefferson was the Port of New Orleans, not the whole of Louisiana as claimed by the U.S. in the so-called Louisiana Purchase Treaty of 1803. U.S. President Thomas Jefferson, sent Robert Livingston to purchase the Louisiana Purchase from Napoleon Bonaparte. Napoleon only had the power to sell the harbor city of New Orleans to the United States. The Washitaw received no money from the Louisiana Purchase and the purchase exceeded its boundaries by covering over 15 states and parts of Canada which were never part of the deal. This fact has been secured in the Secret Treaty of San Il-defonso of October 1, 1800. (See the Secret Treaty to see the unlawfulness of the Louisiana Purchase: (http://www.napoleon-series.org/research/government/diplomatic/c_ildefonso.html)

Napoleon of France stipulated in the sale to the United States, known as the Louisiana said Purchase Treaty, that he could not sell the land that belonged to the Ancient Ones of Washitaw, because Spain had not ceded that land back to France, but had deeded it by a Spanish Land Grant to the Ancient Ones of Washitaw (Note: King Phillip II of Spain change the Washitaw Mu'urs name to Spaniards, because the Washitaw Mu'urs [Moors] were also the ascendants of the Moors that ruled Spain [Europe] for over 800 years, along with the Olmecs [Xi People from Mali]). Further evidence of the actual details of the Louisiana Purchase came from Case Western Reserve, a document storage facility in Cleveland, Ohio who certified that documents found there originally, came from Philadelphia, Pennsylvania in 1817 A.D. The United States took land without giving the Washitaw due process and equal protection of the law, which should have come in the form of a hearing and compensation for their land. According to Article VI, of the United States Constitution, "Treaties are the Supreme law of the land." Thus, the

United Stated is in direct violation of Constitutional and International law by occupying Florida and 15 current U.S. states and two Canadian provinces, better know as the Louisiana Purchase (This link will give you the names of the states involved in the unlawful so-called Louisiana Purchase: http://en.wikipedia.org/wiki/Louisiana_Purchase).



'WASHITAW' CAME FROM THE ANCIENT TAMA-REANU WORD 'UATCHITA' SYMBOL OF THE 'WINGED SUN DISK (UR UATCHIT)'.



Uatchit, was a form of Hathor, and was identified with the appearance of the sky in the north when the sun rose. She is either depicted in the form of a woman, having upon her head the Crown of the North and a sceptre, round which a serpent is twined, or as a winged Uræus wearing the Crown of the North. She was the principal goddess of the town of Buto, in the Delta.

9. The goddess Uatchit, serpent-headed.

The word 'Washitaw' is derived from the Ancient Tama-Reanu word 'Uatchit-a. "From immemorial, the symbol of the 'Winged Sun Disk' (Ur-Uatchit) has been used to signify freedom and expansion (mind, soul, Ra Aton). In the Asarian Mythology, Heru defeated Set by becoming 'Ur-Uatchit' or 'The Winged Sun Disk,' the All-Encompassing Divinity." Thus, it was decreed by Djehuti (Wisdom) that the Ur-Uatchit should be seen decorating every temple as the protection from evil." — From the "ASARIAN RESURRECTION MYTH" - Hekau 176b

Dr. Muata Ashby from his book "EGYPTIAN TANTRIC YOGA GUIDE TO LOVE, SEX, MARRIAGE, RELATIONSHIPS AND SPIRITUAL ENLIGHTENMENT" goes on to state "Ur-Uatchit is the epitome of the Ancient Egyptian Tantric mystical philosophy (as it still is today). It is the supreme exposition of the understanding of All Encompassing, All-Pervasive, Absolute Existence. Therefore, the wings are used by both gods and goddesses (Neteru) in Ancient Egyptian mythology because the Supreme Divinity encompasses both male and female, all opposites and all existence (The state of Androgene). Thus, in order to overcome evil (the concept of opposites) it is necessary to discuss the all encompassing vision of creation. Within this understanding there cannot be evil since there is no duality (opposites)."

According to M. Maspero's "MEMORIES SUR QUELQUES PAPYRUS" stated "the goddess Uatchet (Uatchit, Witch) cometh (up from) the Underworld, and would change their faces into things of beauty with brilliant eyes of Light...I fly up and perch myself upon the forehead of RE (RA) in the bows of his boat which is in Heaven...I AM the Spiritual Body of the Sustainer of Ma'at (Truth) which is made by the goddess Uatchet (Uatchit). (Note: Kundalini or Serpentine Fire raises up from the root/base chakra to rest at the 'Anja' or Brow / Third Eye Chakra, HER masculine consort is the U-RAeus. In ancient times, U-RAeus was known as the goddess Uatchet (Aset, Meri, Nekhebet, Arat [Cobra], Ra, Heru, Hat Heru or Eye of Heru or Pineal Gland) ... Af-Ra-Kanu (Africans) believed that the unlimited power of individual godhood occurs with "one who sees God." (Note:

"When [the serpent] rises to the sixth stage, the form of God is seen. But a slight veil remains; it is as if one sees a light within a lantern, and thinks that the light itself can be touched, but the glass intervenes.." THE NEW ENCYCLOPEDIA BRITANNICA (1992)

"OLD TESTAMENT Genesis 32: 30" And Jacob called the name of the place Peniel (Pineal): for I have seen God face to face, and my life is preserved. 31.1 And as he passed over Penuel the sun rose upon him, and he halted upon his thigh (lower-self or Penile Gland, head of the Penis) (Note: The name Heru is translated to mean 'Face').

"NEW TESTAMENT Luke 11:34." The light of the body is the eye: therefore when thine eye is single (Cyclops, Nephilim-Mental Giant), thy whole body also is full of light; but when thine eye is evil, thy body also is full of darkness.

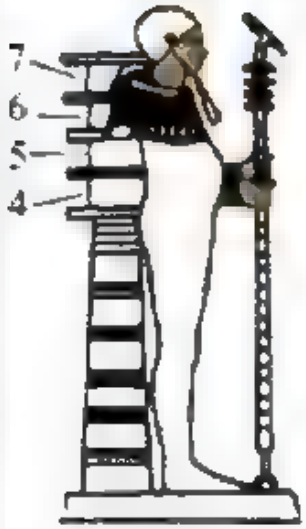
"SCIENCE OF HEALING" by Imaam Isa Al Haad Al Mahd



"Master the fire of the back.. the life giving fire"

The name Djed, meaning "Stability" contains the Medu Neter 'Dj' meaning 'Serpent.' Dj comes back in Dj-huti Thoth/Hermes), Dj-inn (a Magical Serpent Spirit or Genie) and Djedi (An Egyptian Magician). In other cultures the Serpent Power is called the Kundalini. The Serpent or "Serpentine Fire," the Kundalini Shakti (Life-Force Energy) is a Tremendous Power that rests wrapped 3 1/2 times at the base of the spine or in the Spinal Chord at the place of the Sacrum, the first part of the Spine. One of the most important secret rituals in the school of Asaru Ra (Isra-El) was called the Raising of the Djed (Naga). When you Raise the Kundalini in the Backbone you are opening the Path of the Serpent, Mother Goddess Principle, metaphorically called Ptah, the Opener (Hebrew Putauch = to Open; Arabic Fathihah = the Opening). "DJED", page 272, "Stand, O Osiris (Asaru)! Your spine, you now possess God-with-fixed-heart. Your neck has been consolidated and strengthened. Go up therefore on your pedestal, O Osiris (Asaru)! Here I poured lustral water on your feet. I bring you a golden Djed. Be joyful, O Osiris (Asaru), in the sight of this magical image." The 'Djed' is also called 'Meru.'

THE TRUE "WINGED DISK"...IT'S IN THE BRAIN

The True "Winged Disk"...it's in the Brain! This is an actual photograph of inside of the human brain. The cells of the brain are magnified to the equivalent side of a car. The electro-magnetic galaxy-like cloud, which looks like a typical UFO is in the center of the brain. In various books, it is called the Eye of Heru / Asaru / Christ / Buddha / Shiva. It is inside of the brain in a fluid filled space called the Third Ventricle. The Eye of Heru (Horus) is alive, active and floats above the Pineal Gland and influenced Melanin and the spirit world (unseen). This is the Internal "Nibiru!" or "Neb Heru," one of the 42 Neteru (Gods) of Ma'at. The name "Neb Heru" means "Gold Light." This internal "Nibiru" correlates to the External "Sirius C, (Nibiru, Emmeya)." Picture taken from "NUTRICIDE" by Dr. Llala O. Imhotep Afrika. Therefore, when the Kundalini (Mother Goddess Principle, Holy Spirit, Aset-Meri etc...) reaches this pinnacle, the Gold Sun Disk (Heru, the Awaken Asaru or Soul) forms around the head of the Holy Man-God (Sun-God)...for they have obtained the the highest level of enlightenment. This is Washita!!! It is more that just a proclamation, more than just paper work, and more than just (physical) lineage...Ultimately, it is you becoming Heru (Mes, Messiah, Christ, Melchizedek, Metatron etc...merely stages of enlightenment / endarkenment), i.e. Higher Self.

The Washitaw de Dugdahmoundyah Mu'urs are listed at the United Nations under the Indigenous People Organization Number 215 / 93, meaning the seat number for the Washitaw at the United Nations is 215 and this became effective in the year of 1993. According to International Law, the Washitaw has established itself as a Sovereign Independent Nation (United Nations, NIS-21/593) apart from corporate union of 1781 and the corporate United States of 1787. The land claim of the Washitaw has been affirmed by Spain and France, as well as, Britain, pursuant to Spanish Land Grants of 1762 and 1795. The Washitaw de Dugdahmoundyah Mu'urs (Moors) may be classified as Non - Citizen U.S. Nationals but NOT United States citizens (Corporation), as well as, Non-Residential Aliens [1040 NR] and / or passport Non-Citizen U.S. National (see DRED SCOTT vs. SANFORD 1856-57).

HER HIGHNESS Verdiacee 'Tiara' Washitaw (Washington) Tunica (Turner) Goston El-Bey, the re-establisher of the Washitaw de Dugdahmoundyah Mu'ur Empire and HER ONLY Crown Prince Hutan Tu'pak Bey, the establisher of United Washitaw de Dugdahmoundyah Mu'ur Nation, the first nation-state of the Empire!

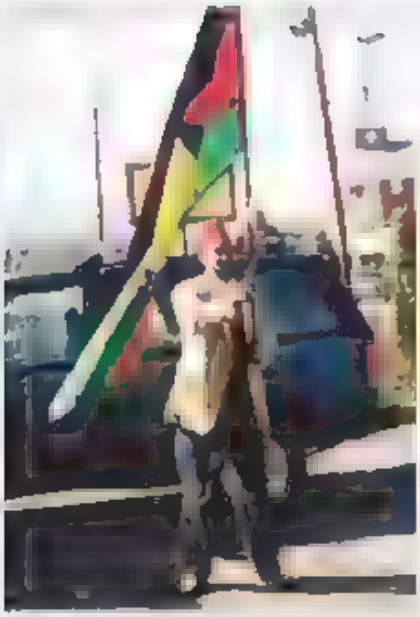
CROWN PRINCE HUTAN TU'PAK BEY OF THE EMPIRE WASHITAW, FOUNDER OF THE UNITED WASHI ..

"CROWN PRINCE HUTAN TU'PAK BEY, EX REL, PRINCE RAMISIS ABLE BEY" YOU CAN HEAR HIM SPEAK HIS TRUTH NOW. STOP LISTENING TO THE NAYSAYERS WHO NEVER MET HIM, OR MADE "CHIEFS-FOR-LIFE", NOR HER HIGHNESS EMPRESS VERDIACEE 'TIARA' WASHITAW (WASHINGTON) TUNICA (TURNER) GOSTON EL-BEY. HER HIGHNESS ORDAINED HIM "CROWN PRINCE" AND THUS, HIS ORDINATION MUST BE RESPECTED. WE DERIVE OUR AUTHORITY FROM THE LATE EMPRESS VERDIACEE 'TIARA' WASHITAW (WASHINGTON) TUNICA (TURNER) GOSTON EL-BEY AND HER "CROWN PRINCE" HUTAN TUPAK BEY. LOOK FOR YOURSELF!!

It is apparent from the above Empire Washitaw Identifications Ramisis Bey, as he was known then was a "Prince" and Citizen since 1991, as well as, he served as "Security" for the Empress during that time. Prince Bey became "Crown Prince" on June 7, 1999, by Her Highness Empress Verdiacee Washitaw (Washington) Tunica (Turner) Goston El-Bey. There is a difference between a Crown Prince and a Prince.

According to *"MERRIAM-WEBSTER DICTIONARY"* a "Crown prince": a male heir apparent to a crown or

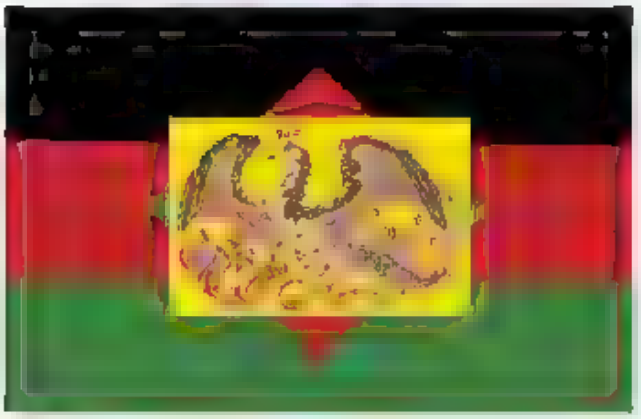


PRINCE BEY WAVING THE EMPIRE WASHITAW DE DUGDAHMOUNDYAH MU'URS FLAG

throne.

Prince is 1 a: MONARCH, KING (Crown Prince) b: the ruler of a principality or state 2 : a male member of a royal family; *especially* : a son of the sovereign 3 : a nobleman of varying rank and status 4 : one likened to a prince; *especially* : a man of high rank or of high standing in his class or profession

In other words, a Prince seat in wait to become a Crown Prince, while a Crown Prince seat in wait to become King or Emperor. Note: Eventhough, the Washita/w is a matriarchical society, it is NOT out of Nature (Neter) to establish and maintain a balance (Ma'at) of the sexes by instituting a hierarchy of Female (Womb/man - Universe) and Male (Man – Mind) rulership (Note: Together forms the Universal Mind...This is completion!). Please pay close attention to the definition...it states that a "Prince" is the ruler of a principality or state. So what principality or state did Prince Bey rule? Answer: the United Washitaw De Dugdahmoundyah Mu'ur Nation, the 1st Nation-State of the Empire Washitaw de Dugdahmoundyah Mu'urs.



This affidavit of Declaration of Nationality is recorded at the Register of Deeds office Deed Book #36130 Pg. 109 in Fulton County, Atlanta, Georgia September 20th, 2003. Note: Prince Hutan Tupak Bey, Ex rel: is Ramisis Abel Bey

CROWN PRINCE HUTAN TU'PAK BEY, FORMERLY PRINCE RAMISIS ABEL BEY; BELOW SAME PICTURE ON "THE FIRST WORLD ORDER" AUTHORED BY ASARU ALIM NU TU'PAK EL-BEY

June 6, 2003 Crown Prince Hutan Tu'pak Bey, formerly Prince Ramisis Abel Bey, formed the first nation-state of the Empire Washitaw de Dugdahmoundyah Mu'urs called United Washitaw De Dugdahmoundah Mu'ur Nation (IN-TRUTH: UNITY-WASHITAW DE-DUGDAHMOUNDYAH: NAGA-MU'UR-NATION). Ramisis Abel Bey was bestowed the title "Crown Prince" (of the Empire Washitaw de Dugdahmoundyah) on June 7, 1999, by Her Highness, Empress Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner) Goston El-Bey, as a solar (birth/born day) gift...in doing so by June 2003, Crown Prince Hutan Tu'pak Bey chose several of us (Chief of Information: Asaru Alim Nu Tu'pak El-Bey and Chief of Finances: Khadirah Ma'at Tu'pak El-Bey etc...in the Tsalagi or Sharakhi (Shariq, Cherokee - said North

Carolina Republic) Territory to be Chiefs in United Washitaw De Dugdahmoundyah Mu'ur Nation (see dvd "THE FORMATION OF UNITED WASHITAW DE DUGDAHMOUNDYAH MU'UR NATION" by Prince Hutan Tu'pak Bey... in the video he made the secondary Chiefs of North Carolina (Sekhemu ur Sharakhi), the primary Chiefs and the primary Chiefs of Georgia (Sekhemu ur Yamassee), the secondary Chiefs...reasons, he speaks about in the video).

Here is a list of the 'original' Chiefs (Sekhemu Re) chosen by Prince Ramisis Abei Bey (later called Prince Hutan Tupak Bey) for United Washitaw de Dugdahmoundyah Mu'ur Nation:

Queen Mother: D' Van Ford

Primary Chiefs: **Nin Tawhiyda Tu'pak El (Yamassee Territory)**
Nanya Zakur Re Tup'ak El (Yamassee Territory)
Louise DuBois (Yamassee Territory)
C. Shaheed Farouk DuBois (Yamassee Territory)
Nin Davinah El (Yamassee Territory)

Chrissy Williams Bey (Tsalagi Territory)
Deborah Jackson El (Tsalagi Territory)
***Chu'a Franko Al Dey (Tsalagi Territory)**

Currently, several Chiefs are passive (inactive). Therefore, it is necessary to re-construct the United Washitaw de Dugdahmoundyah Mu'ur Nation. After "Crown Prince" Hutan Tu'pak Bey passed (physical) form on January 12, 2004, it was proposed by several Chiefs that I, Asaru: Alim Nu Tu'pak El-Bey take "Crown Prince" Hutan Tu'pak Bey's position, however, I did not feel that I was quite ready. Even so, on May 15-17, 2004, My wife (Chieftess Khadirah Ma'at Tu'pak El-Bey), I (Chief Asaru: Alim Nu Tu'pak El-Bey), Chief Nanya Zakur Re Tupak-El and former Queen Mother D. Van Ford went to California to meet with Her Highness, Empress Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner) Goston El-Bey and her son Royal Regent / Prince Frederix 'Joe' Washington (Washitaw) and were accepted as the first nation-state of the Empire Washitaw de Dudahmoundyah Mu'urs. Consequently, the accepted was NOT necessary since "Crown Prince" Hutan Tu'pay Bey was bestowed his title directly from Her Highness Empress Verdiacee 'Tiari' Washitaw (Washington) Tunica (Turner) Goston El-Bey and by doing so, "Crown Prince" Hutan Tu'pak Bey was brought into the Empress' bloodline and as he told all of us who held the "Chiefs-for-Life" title, we too were brought into the bloodline making us the "ROYAL HOUSE OF TUNICA." "Crown Prince" Hutan Tu'pak Bey also made us "United Washitaw De Dugdahmoundyah Mu'ur Nation self- governing and self-autonomous, thus, we are NOT connected to the "Empire Washitaw Ministry", a 501 c3 religious organization formed by Dr L. Anderson, however, we are part of the true Washitaw de Dugdahmoundyah Empire of Mu'urs by heritage. I might add, ALL after the several strokes of the Empress between 2001-2003. Thus, as "Crown Prince" Hutan Tu'pak Bey informed us "WE NATIONALS OF UNITED WASHITAW DE DUGDAHMOUNDYAH MU'UR NATION" ARE SELF GOVERNING AND SELF AUTONOMOUS!!! This is based on the "UNITED NATIONS DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLES"...

Article 4
Indigenous peoples, in exercising their right to self-determination, have the right to autonomy or self-government in matters relating to their internal and local affairs, as well as ways and means for financing their autonomous functions

Furthermore, over a course of months the Ancestors whipped my behind and prepared me and by October 2004, another Chief council meeting took place over the phone and once again I was ask to seat the chair and this time I accepted -- Principal Chief short 'Prince' Asaru: Alim Nu Tu'pak El-Bey. The late Crown Prince Hutan Tu'pak Bey (formerly Prince Ramisis Abel Bey) bestowed upon me the "Title," as well as, all 'Chiefs' he named as "Chiefs for Life!" Prince Bey" ALL Chiefs are to form their own 'Tribe,' but not autonomously from United Washitaw De Dugdahmoundyah Mu'ur Nation (anyone "doing their own thing" has no authority whatsoever and are in clear violation of protocols set by Prince Bey [see the attached videos]). ALL Chiefs are part of the "United Washitaw Council or the "Royal House of Tunica" and must answer to such. Each Chief, in which there are (24) twenty-four (12 Primary & 12 Secondary Council) has (1) one vote each on the council. The "Queen Mother" has (3) three votes, but her votes are only casted to break a tie vote. The "Principal Chief / Prince" has (2) two votes, as well as, the "Principal Chieftess / Princess," also has (2) two votes each (Note: The Tamarean [Kemetian / Egyptian] word 'Sekh' from 'Sekhem' meaning 'Power' is the origin of the Arabic word 'Sheikh' or 'Sheik' [Shiek] and the English derivative 'Chief.' The word 'Sekhem' (Sachem) is also the title origin of the paramount 'Chief' among the Algonquians called 'Sachem.' Other Northeastern American tribes, such as, the Le'Nape used the Arabic derived word 'Sakima', the Narragansett used the word 'Sachim' and the Eastern Abenaki (Abnaki) used the word 'Sakema,'which was anglicized as 'Saga-More' (Moor / Mu'ur).

WEBSTER'S II NEW RIVERSIDE DICTIONARY
Chief - One of highest rank or authority: leader

I. Chiefs are leaders, NOT rulers. In fact, very similar to a usA governor. They are the instruments for executing the people will. ALL moneys, gifts, and other forms of donations to Chief still belong to the people for relief or aid to individuals in time of need. Laws and decrees are issued in the same manner to assure that the voice of the Chief is the "voice of the people." The people and the government are one and the same. Chiefs therefore, are under the law and NOT above it.

II. The People, in honor of the founder(s) of the Nation, thereafter, will elect Chiefs from the founder's family (lineage), if the heirs meet the original test that reflected the founder's character (Rites of Passage).

III. Decisions are made in council amongst the Chiefs, with each Chief having one vote. Hereto, the Supreme command of the fighting forces of self-defense is under the Council.

IV. The Family is recognized as the primary educational, social, judicial, economical and political unity in the society; the Family Council may function as a court empowered to try all internal (non-serious) matters involving only members of
the Extended Family Group (Nationals).

V. In all actuality, the land belongs to NO one, it is Earth and we ALL live on it, temporarily. However, the Chief(s) is/are the custodian(s) of the land, the principle duty being to assure fair distribution and actual use. The land may be held for life and passed onto family's heirs.

VII. The Indigenous Spiritual system (misnomer RE-li-gion) is a way of thinking, and living and this is reflected in all Indigenous institutions and is therefore, of the greatest constitutional significance.

a. The Chief role is also that of a High Priest. Therefore, the Chief(s) must strive to "Evolve into Knowingness" through discipline. For without discipline the Soul can NOT enter the Higher Spiritual Realms, called 'Heaven(s) to commune with the ancestors and the Great Mother/Father Over-Soul.' Thus, it becomes a perquisite that Chiefs learn the mastery of thought(s), mastery of passion(s), mastery of the body (all its members), develop and cultivate the Life-Force (Light) within. This mastery can be enhance through an initiation process or "Rites of Passage," yet, really, it is a life long attainment. The Chiefs must master the Solstices and Equinox ceremonies; Mound rituals; Dance rituals (Galactical-Solar/DNA-Chakra alignment, drive away evil, sun, rain and etc...); Purification rites; Birth, Name, Marriages and Funeral ceremonies.

b. The Chief(s) offers the prayers of the people within and without to the ancestors and to the 'Heavens'(Ang-ELs [AngLEs of Light] or Extra-Terra-Astral [Extraterrestrial]). The Chief(s) must conduct meditation ceremonies for inner awareness. The people must start inwardly, to bring about a genuine transformation outwardly. Innerstanding the Universal axiom "As Above, So Below and As Within, So Without," will helps us do so. The Chief(s) must forever strive to reestablish "Heaven on Earth," by strengthening the connection between the so-called Mortal Physical body and the Immortal Spiritual Soul.

Below is the following proof that we (Dr. Alim El-Bey and Khadirah El-Bey) are listed at the United Nations as 'Prince', as well as, my wife as 'Princess'. Ask the "Naysayers" where is their proof or recognition as said "King", "Crown Prince", "Prince", Princess", Chief or etc... having this "title" or that "title"... More than likely they have NO real authority and have been self-proclaimed, nor have they've been recognized any further than their ignorant followers!

WHO ARE THE WASHITAW (OUACHITA, WICHITA, CHOCTAW, ETOWAH, EUTAW, WASETI plural UAXACTUN / U'AXSHAKTUW, WISSAHICKON, WAH-HANK-TOON or WAH-SHAK-TOON)?

1993 was proclaimed the "International Year of the World's Indigenous People" by the members states of the United Nations. This lead to the International Decade of the World's Indigenous Peoples" (1995-2004).

During this time, delegations from around the globe gathered to draft a formal U.N. Declaration on the Rights of Indigenous Peoples. After many years of collaboration and debate, the United Nations General Assembly adopted this declaration and advanced the recognition of self-determination as a distinct cultural right for indigenous and tribal people worldwide.

Since 1993, The nations of the Empire Washitaw de Dugdahmoundyah have played a vital role in elaborating our position relative to the most important rights of indigenous people: Health and our lands. In 1993, the United Nations Center for Human Rights, recognized the Empire Washitaw de Dugdahmoundyah Muurs as the Oldest Indigenous group of people on Earth. The registered Project # 215/93 ensued. The sovereign people of the Emperial Washitaw Nation ratified the Declaration on the Rights of Indigenous Peoples at our annual convention on January 8, 1997.

Now President Barack and First Lady Michelle Obama declared their Nationality with Washitaw in 1997, the same year Barack began his Senator term. They removed themselves from the BAR (British Accredited Registry). They are no longer Attorneys. They resigned their (from the) BAR... they will lead us into becoming The American Republic, lawfully and peaceably. We are very excited about the new directions of usA policy makers and anticipate the Obama Administration will soon open meaningful dialogues to form the partnerships outlined during the International Decade and address the earnest concerns of ALL Indigenous and tribal peoples who remain disenfranchised and unrecognized in our own lands. The rights of indigenous peoples are now clearly documented and recognized. It is up to us to nobly exercise these rights to help each other and the planet (Bro. Umar

Shabazz Bey). Bro. J. Blakely-Bey said that the Holy Prophet said, "If the European be just, they would have an Asiatic Vice-President, and if they had an Asiatic President (Obama Hussein Barack), they would have an European Vice-President (Joe Biden) (Note: This also explains the raid on the Empress's property in 2000, to hide the fact of his Washitaw connection...each Washitaw National receives a Certificate of Live Birth)."

A Metallic Vase from Pre-Cambrian Rock," "The June 5th, 1852 issue of the "SCIENTIFIC AMERICAN" contains a report about blasting carried out at Meeting Hill Rock in Dorchester, Massachusetts. The blast disgorged tons of rock described by the U.S. Geological Survey as pudding stone over 600 million years old. A bell-shaped metallic vessel was blown out of the rock that was about 4 inches high and was covered with exquisite carving, indicating the presence of artistic metal workers over 600 million years ago" (read "FORBIDDEN ARCHEOLOGY: THE HIDDEN HISTORY OF THE HUMAN RACE" by Michael Cremo & Richard L. Thompson).

Prophet Noble Drew Ali's states in THE HOLY KORAN CIRCLE SEVEN OF THE MOORISH SCIENCE TEMPLE OF AMERICA by the Prophet Noble Drew Ali: Chapter XLVII: EGYPT, THE CAPITAL EMPIRE OF THE DOMINION OF AFRICA

6. The Moabites from the land of Moab who received permission from the Pharaohs of Egypt to settle and inhabit North-West Africa; they were the founders and are the true possessors of the present Moroccan Empire. With their Canaanite, Hittite, and Amorite brethren who sojourned from the land of Canaan seeking new homes.
7. Their dominion and inhabitation extended from North-East and South-West Africa, across great Atlantis even unto the present North, South, and Central America and also Mexico and the Atlantis Islands; before the great which caused the great Atlantic Ocean.

According to Empress Verdiacee'Tiari' Tunica (Turner) Washitaw (Washington) Goston EL-Bey, "The Washitaw are the original inhabitants of what is now named the North, Central and South Americas (adjoining Islands). Therefore, the Washitaw are NOT Indians (Federalized Term)! We do NOT accept the names, African-American, Colored or Indian. "We the people" of North America are predominantly Washitaw, the Ancient Mound builders. We were here thousands of years before the amalgamated so-called Indian." The Washitaw Empire has any descendants, for example, the 12 Shushuni [Shoshone, Shawnee] Nations (1. Cherokee 2. Creek 3. Chickasaw 4. Choctaw 5. Seminole [called the so-called "Five Civilized Tribes"] 6. Blackfoot 7. Arikara 8. Sioux 9. Kiowa 10. Mohawk 11. Cheyenne 12. Mandan), the Yamassee, Arawak, Lumbee, Montauk, Nanticoke Moors (Le'Nape, Ben Ishmael), Melungeon, Mohigan, Comanche, Nez Perce, Natchez, Pawnee (Paniwassaha), Washo, Tuscarora, Catawba, Micmac, Osage, Gingaskin, Mattaponi, Powhattan, Wampanoag, and many more tribal nations. The facts of this rings true in the "TREATY OF CAMP HOLMES" reads Treaty with the Comanche and Witchetaw Indians and their associated Bands. FOR the purpose of establishing and perpetuating peace and friendship between the United States of America and the Comanche and Witchetaw nations, and their associated bands or tribes of Indians, and between these nations or tribes, and the Cherokee, Muscogee, Choctaw, Osage, Seneca and Quapaw nations or tribes of Indians...all these tribal-nations together were and are the remnant of the Empire Washitaw de Dugdahmoundyah (the Ottoman, Moroccan, Ghana-Malian-Songhai, Kushite-Mizraim Empire).

"AFRICAN NATIVE AMERICANS: We are still here" "They are of African descent but they are also Blackfoot, Canarsie, Caribe, Cherokee, Chickasaw, Choctaw, Creek, Lenape, Matinecock, Mohawk,

Munsee, Ramapo, Shinnecock, Seminole, Unkechaug, Taino." Rafinesque was a naturalist who explored and took accurate documentation of his works throughout the U.S.A. In mentioning Negroes, Blacks, Moors, and Ethiopians... explorers such as Rafinesque referred to Negro Black Africans, not dark skinned "Indians." Did you know, that at the time of Colon (Columbus), the sub-continent of India was referred to as Hindustan or the Deccan? The European term for indigenous peoples all over the world was "Indians" from the Spanish "In Dios" meaning "God's people".

Jack D. Forbes in his book entitled "AFRICANS AND NATIVE AMERICANS," page 69 states, "In 1524 the people of the Carolina coast were said to be of dark color, not much unlike the Ethiopians."

"THE CHARLOTTE OBSERVER" dated Sunday, August 15th 1993, stated that "North Carolina in 1690 reported the presence of Moors and that they are the ancestors of a people erroneously called Melungeons."

"ANCIENT AMERICAN MAGAZINE"(Issue 17) reported: "Evidence for black-skinned natives in the Americas long before the arrival of Columbus is abundant. From the distinctly Negroid features of colossal Olmec sculpted heads and a pre-Aztec obsidian bowl being upheld by a figure with unmistakably black characteristics, to the bones of Negroid persons excavated from a 2,000 year-old mound in northern Wisconsin, a wealth of material exists to establish the certainty of non-White, non-Indian population living in pre-Columbian America along with these other groups." Though so many mounds have been deliberately destroyed, over 200,000 ancient pyramids (Miru) and huge mounds (Tekhenu) of Earth in the shape of cones, animals and geometric designs can still be found from the southern coast of America to Canada. These structures were built by a so-called "obscure" people largely known as 'the Mound Builders' (De Dugdahmoundyah)."

According to "SUSA ECONOMICS; THE HISTORY OF PAN-AFRICAN TRADE, COMMERCE, MONEY AND WEALTH; THESE BLACKS FOUND IN THE AMERICAS by 1st Books Library" The Mound Builders: They were dark-skinned woolly-haired Blacks who were indigenous (native) to North America and kin to the Olmecs of South America. The Olmecs and Washitaw, Black Californians, Yamassee, Califunami and other pre-Columbian Blacks of the Americas were part of a prehistoric trade network that began in Africa and spread worldwide over 100,000 years ago and at various periods afterwards.

According to "A HISTORY OF AFRICAN-OLMECS" pub. by 1st Books Library, "Not a single European nation, tribe or kingdom is responsible for the presence of Blacks (Moors/Mu'urs) in the Americas." The very first people of Negroid/African race arrived in the Americas over thirty thousand years ago. According to "NATIONAL GEOGRAPHIC's article on "THE PEOPLING OF AMERICA" ...more than fifty skulls representing Africans (Af-Ra-Kamau) and people of Africoid-Aboriginal type similar to that of Melanesia and Australia were found in Brazil.

Read in "A HISTORY OF THE AFRICAN-OLMECS" by 1st Books Library. The Black Olmecs dominated Mexico and Central America from about 3,113 years Before Christ to about 400 years After Christ. What happened to the descendants of the Olmecs? Here is the shocking fact: The Olmecs spread throughout the Americas, building settlements and trading all over the region. Many remained in Mexico,some mixed out of existence (a sad trend that led to their disappearance). The vast majority left their settlements and returned to trading and maritime activities between Africa and the Americas by the time of Columbus' visit. The descendants of the Olmecs also settled the Mississippi Valley, Texas and the South-Western U.S. They became victims of kidnapping for enslavement when the edict to

"enslave all descendants of Ham found in the New Lands,' was passed by the Church. Hence, today in the Americas, the present communities of Blacks from Brazil to Canada are a mixture of Olmecs, Washitaw, Califunami (Black Californian), Yamassee, Gwale, Black Carib and those slaves brought to the Americas after Columbus. The Olmecs never disappeared but moved to remote parts of Central America (Amaruka) and Mexico or were turned into slaves (in the U.S.). Many of the XI (Shi) people (Olmecs) became victims of kidnapping for enslavement, some remained in Mexico. The vast majority left their settlements and returned to trading and maritime activities between Af-Ra-Ka and the Amerukau (Americas) by the time of Columbus' visit. The Olmecs (Washitaw) descendants spread throughout the so-called Amerukau (Americas) and settled the Mississippi Valley (Washitaw), Texas, the South-Western U.S. and the now known Caribbean Islands (the Bermuda Islands, Jamaica, Haiti, Bahamas, Trinidad, and Barbados and etc...). They even settled Easter Island. They set up colonies on the Caribbean Islands and became known as 'Arawak.' These were the people Christopher Columbus's crew encountered. The Arawaks mixed in with the Portuguese, Spaniards and British and produced "Taino tribe." Alphonze de Qatrefages, anthropologist at the Museum of National History in Paris, identified in his book "THE HUMAN SPECIES" (1905) that "Black inhabitants were found in small numbers and isolated areas in America. Some examples were the Jamassi (Yamassee) of Florida, the Charus of Brazil, the Black Caribs of Saint Vincent on the Gulf of Mexico and the Black Zuni of present-day Arizona and Mexico."

(Note: http://www.raceandhistory.com/historicalviews/ancientamerica.htm states, "The experience of the Washitaw Nation (or Ouchita Nation) of the Southern United States is another piece of solid evidence for the fact of pre-Columbian African presence and settlement in the Americas and specifically in the (North America) United States. According to an article carried in the magazine, "THE FREEDOM PRESS NEWSLETTER", (Spring, 1996), reprinted from "EARTHWAYS, THE NEWSLETTER OF THE SOJOURNER TRUTH FARM SCHOOL" (August, 1995), the Washitaw were (and still are) a nation of Africans who existed in the Southern U.S. and Mississippi Valley region long before the 16th century Europeans arrived and even before there were "(Indians) Native Americans" on the lands the Washitaw once occupied and still occupy today. According to the article, "the Washitaw Nation governed (more than) three million acres of land in Louisiana, Arkansas, Oklahoma, Texas and Mississippi etc... ("AFRICAN PRESENCE IN EARLY AMERICA," by Ivan Van Sertima). According to...the Washitaw Nation, "when Spain ceded the Louisiana Territory to France, they excluded the land belonging to the Washitaw Nation. France did not include it in the "Louisiana Purchase," and according to the leader, "This land is not part of the United States of America." That point was made in the newspaper, "THE CAPITOL SPOTLIGHT", June 1992. In fact, the courts agreed that the land was not part of the U.S. and that in fact the Washitaw (Ouchita) Nation was on the land long before European Colonization: therefore, in legal decisions made, some of the ancient territory was returned. This historical decision was made about 1991...

Among the other Black nations who existed in the Americas before Columbus and long before Christ were the Jamassee (Yamassee, the Priests of the Washitaw), who had a large kingdom in the South eastern U.S. Their descendants were among the first Blacks of pre-columbian American origins who fell victim to kidnapping for the purpose of enslavement. Blacks of South America, the Caribbean and Central America were also attacked and enslaved based on a Pontifax passed during the mid-1400's by the Church hierachy giving the Europeans the go ahead to enslave all "Children of Ham" found in the newly discovered territories. The descendants of the Jamassee are the millions of Blacks who live in Alabama, Georgia, South Carolina and northern Florida. They of course also have African slave ancestors, but these slaves are the relatives of the same Africans who sailed to America

of their own free will, while Europe was in the Dark Ages, and long before Christ, for that matter.

In California, descendants of the fierce "Black Californians" who were a Negroid people of African racial origins and the original owners of California and the South WEST (BEFORE THE SPANISH INVASION...OR THE CREATION OF THE MIXED RACE "HISPANIC" ETHNIC GROUP. Many African-Americans in California are of Black Californian ancestry and their great grand parents were among the original Black Californians who were victims of Spanish Californio enslavement and Anglo American settler attacks. In fact, the Black Californian fought until the late 1800's to maintain control of their ancestral lands from the settlers.

There are aboriginal nations of Blacks in Panama such as the Afro-Darienite and the Choco people. In fact, the Afro-Darienite are the remnants of the aboriginal Black nations of South and Central America who were once hunted down to be made slaves by the Spaniards (in fact Balboa or Peter Matyr chroniclers referred to these Blacks as "slaves of our lord,") meaning, like Blacks in Africa, the South Pacific and elsewhere, they were eligible for enslavement, being descended from Ham, the so-called "father of the Black race."

In Columbia's Choco Region, on the Western side of that country, there are hundreds of thousands of Blacks, whose ancestors have been in Columbia for thousands of years. In fact, scientists and some historians have found out that Black slaves were being kidnapped and hunted down in Columbia and parts of South and Central America, as well as the Caribbean and U.S., by the Spaniards and others long before they began to look for slaves in Africa. (an old painting in National Geographic clearly shows a black with bow and arrow and wearing a loin cloth, hunting along the coast of Columbia during the first voyage there by the Spaniards. These Blacks today of the Choco Region of Columbia are among the most oppressed of Blacks in Latin America today (See the Final Call back issues on this topic).

Then there is the Garifuna or Kalifunami also called "Black Caribs" Being a member of the Black Carib Nation and having done historical research, the myth of the Black Caribs being escaped slaves has been debunked. It is true that the Black Caribs encouraged slaves from the West Indies Islands to join them and that the Black Caribs did ally with the Mongoloid Caribs of Dominica and other parts of the West Indies, but the fact remains, that the Black Caribs were originally Mende traders of gold and cloth, who established settlements throughout the Circum-Caribbean region, Mexico, Central America, South America and the Southern U.S. They had been arriving in the Americas for thousands of years, even before they converted to Islam during the 900's A.D. In fact, the Olmecs of ancient Mexico were Mende, they used the Mende script (found on monuments at Monte Alban, Mexico, and they named places from southern Mexico to South America with Mandinka names. Such names sometimes sound identical to the names of places used in West Africa").

David E. Stannard, "AMERICAN HOLOCAUST; COLUMBUS AND THE CONQUEST OF THE NEW WORLD" [New York: Oxford University Press, 1992]. ISBN 0-19-507581-1. Pages 119-120). America: The oldest civilization known in the Americas was the Olmec, and it was of Black Africoid origin and flourished over a 5000 years period. This civilization existed in the Americas before the arrival of the red Indians. In fact, at the time of the Europeans arrival in Central and South America in the 15th century, descendants of the Black Olmecs were abounding throughout that region, particularly in Mexico.

According to "EARTH WAYS, The Newsletter of the Sojourner Truth Farm School" (August, 1995), reprinted in "THE FREEDOM PRESS NEWSLETTER," (Spring, 1996), Empress Verdiacee 'Tiari' Washitaw

(Washington) Tunica (Turner) Goston El-Bey states "The Washitaw were (and still is) a nation of Africans (Afurakanu) who existed in the Southern U.S. and Mississippi Valley region long before the 16th century Europeans arrived and even before there were 'Native Americans' (the so-called "Red Man") on the lands the Washitaw once occupied and still occupy today. "Indigenous people have been all over the world and specifically, on the North Amer-ican Continent for hundred - thousands of years"... "Actually, there were some Washitaw here (Ameri-kas) even before the Africans (Af-Ra-Kamau) arrived, dating to when all the continents of the world were one. Their lands –the lands of all the Earth – were known by the indigenous term 'Mu.'"

Bro. T. Booker-Bey, Grand Natl. Treasurer (Emeritus) said that the Holy Prophet said, "The Moors were living up and down the Mississippi river before the European man came here" (that is the Moors were living up and down the Mississippi river before the Europeans came to North America).

The scholarly Latin author, C. C. Marquez, explains the strong probability that black people were the first people in America out of which later came the Red (American) race: It is likely that, we repeat that long ago the youthful America was also as Negro continent and that the Otomies of Mexico; the Caracols of Haiti; the Matayas of Brazil; and the Albinos of Panama, are the remains of the aboriginal Negro race out of which later developed later, what is known as the Red or American race. (ESTUDIOS ARQUELOGICOS Y. ETHNOLOGRAFICOS, Vol. 1, Madrid, 1920)

Read "THE LOST REALMS" by Zecharia Sitchin and "MYSTERY OF THE OLMECS" by David Hatcher Childress, they both state that the oldest (documented) civilization in the Western Hemisphere belongs to the Olmecs.

According to "WHAT THEY NEVER TOLD YOU IN HISTORY CLASS" by Indus Khemit Kush states, "THE FIRST AMERICANS WERE BLACK!"

THE FIRST "AMERICANS" WERE BLACK

The scholarly Latin author, C. C. Marquea, explains the strong probability that black people were the first people in America out of which later came the Red ("American") race.

Professor Alexander Von Wuthenau, *Unexpected Faces in Ancient America*, adds how black people were present in America in the most ancient or pre-classical times "The startling fact is that in all parts of Mexico . archaeological pieces representing Negro or Negroid people have been found especially in Archaic or pre-Classic sites."

"The presence of Negroes with their trading masters in **America before Columbus,**" says Professor Leo Wiener, "**Is proved** by the representation of **Negroes in American sculpture and design,** but more specifically, by Columbus emphatic reference to Negro traders from Guinea, who trafficked in a gold alloy, guanin, of precisely the same composition and bearing the same name as frequently referred to by early writers in Africa "

AFRICA AND THE DISCOVERY OF AMERICA

"In this regard, the testimony of Nicolas Leon proves instructive on how ancient the African presence was in America In fact, he says that ***Black people were the original people of Mexico***. 'The almost extinction of the original Negroes during the time of the Spanish conquest and the memories of them in the most ancient traditions induce us to believe that the Negroes were the first inhabitants of Mexico.' " ("HISTORIA - GENERAL DE MEXICO," MEXICO, 15.9.

Riva-Palacio. a Mexican scholar, stresses this point.

> "It is indisputable that in very ancient times the Negro race occupied our territory Mexico The Mex cans recal a Negro god, Ixliton, which means 'black-face' "

Colonel A. Braghine says that he saw in a collection in Ecuador a statuette of a Negro that is at least "20,000 years old." He adds, " .. Some statues of the Indian gods in Central America possess typica. Negro features and certain prehistoric monuments there undoubtedly represent Negroes." (*The Shadow of Atlantis*, pp 40-42, N. A fitting statement was made by Professor Wiener of Harvard University ("Africa and the Discovery of America," Vol. III Philadelphia, 1920-1922).

He shows how the culture of America so closely resemble African culture that one must conclude the African origins o America:

"The **identity of the spiritual civilizations**, down to the remotest details in the **Sudan** and in **Mexico**

and elsewhere in America, leads to the assumption that other cultural elements,

identical in both continents and frequently bearing the same name are of **African origin.**"

And lastly, R. A Jairazbhdy, *Ancient Egyptians and Chines in America*, has pointed out,

"The black began his career in America *not* as slave but as master."

THE EMPRESS

The various articles and books mentioned above testifies to the facts and proves beyond a shadow of a doubt that "We are the Oldest and the Most Indigenous People on Earth." The following information is for the said "white supremacists" / "racists" that would simply quote the revised history that 99.9% percent of said Black Americans descend from Central-West African, which we did, but not the majority of us 400 years ago, as been very well documented already. This occurred in several impacts over a course of 600 million years (read "FORBIDDEN ARCHEOLOGY: THE HIDDEN HISTORY OF THE HUMAN RACE" by Michael Cremo and Richard L. Thompson). Yet, the same said "white supremacists / racists" can not dismiss the scholarly information presented here, nor can they explain the following data. Allegedly, 5,000,000 to 20,000,000 slaves arrived in the Americas between 1540 and 1850 over—a 310 year period (according to US History books). If you look at the following facts of published material, we are living under another ideological part of American Revisionist History. Also, the following undermines the whole breadth and depth of what is written in American history books. By using simple calculations, the following information can be ascertained: Over a period of 300 years, is it fair to say that 60,000 slaves were transported annually to the Americas or has the transportation of slaves to the Americas been one big myth? The largest seagoing vessel carried 400 slaves but not all of the ships were that large. Time of passage was 3 – 4 months That means 200 vessels/ships per year would have to travel carrying 300 people One ship could make 3 passages per year. The Trans-Atlantic Slave Trade Database says there were 1100 – 1400 voyages made over that 300 year period. If that is the case and each ship carried 400 people, the total number would be 560,000 Afurakanu (Africans) were transported It still does not add up. According to the figures above, many more slaving companies would have to be in the business of human trafficking annually to come up with the numbers of slaves actually transported, but the published material lists only three (3) major companies that dealt in the slave trade and were given a 31 year monopoly by the British Government. The Royal Adventurer later was named the

Royal African Company, so it was one in the same company. Independent companies engaged in slave trade, but there were only three (3) main companies engaged in human trafficking The Guinea Company–at its height–had 15 ships from 1618 – 1650. The Guinea Company also dealt in gold, dyes, and other things other than just the human trafficking of slaves. British, French, Dutch, and Danish participated in human trafficking. Statistics have not taken into consideration the Portuguese ships that sailed at the time, but from what is out there, the Portuguese and Spanish transported 81,000 slaves to the Americas (read "SLAVE STATISTICS" by Hugh Thomas published in 1997 by Simon and Schuster). The statistics state only .05% or 1/2 of 1% of all Indigenous people of North and South America are in existence as a result of Christopher Columbus and his European travelers' conquests Ninety-five (95%) percent were massacred by Columbus and his European crews shortly after 1492. Around 1900, it was thought Native Americans were on the brink of extinction with only 250,000 left. Here is the most common sense question asked by Mu'urs/Moors ."What water distillation process did the Europeans possess? Because, the cargo is precious and the need of survival is extermely high. It's a 3 to 4 month voyager with approximately 200 POWs abroad, you have to give fresh water weekly. The average person can only go without water for a week and a half or two weeks. How did they survive? How much fresh water was taken? Not knowing how many said Africans were going to be catched? It is nothing more than Revisionist History. If this is not true, then explain "Why said Blacks were not allowed to read and write for over 100 years [1740-1863?] in the so-called Southern states (of course, there are exceptions)?" "I suspect to rewrite our heritage into his-story." "In the 18th century there were no schools in the southern states of America that admitted (so-called) Black children to its free public schools. Fearing that black literacy would prove a threat to the slave system whites in the Deep South passed laws forbidding slaves to learn to read or write and making it a crime for others to teach them. For example, in 1740 South Carolina passed the following legislation: "Whereas, the having slaves taught to write, or suffering them to be employed in writing, may be attended with great inconveniences, Be it enacted, that all and every person and persons whatsoever, who shall hereafter teach or cause any slave or slaves to be taught to write, or shall use or employ any slave as a scribe, in any manner of writing whatsoever, hereafter taught to write, every such person or persons shall, for every such offense, forfeit the sum of one hundred pounds, current money." Read "THE BLACK WASHITAW NATION ON AMERICA: BLACKS ALSO OWNED MILES OF U.S. PRE-COLUMBIAN LANDS" by Paul Barton, "One of the saddest aspects of enslavement in the Americas, particular North America, is the fact that all forms of education was denied us and still is today. Blacks were forced to remain ignorant and told they have no history or culture Well, here is the problem, most African-Americans are still void of historical knowledge particularly of their ownership to lands right here in the U.S. Blacks owned about (actually more) one million square miles of land in the Louisiana Territories and the South Eastern / Florida region, as well as California. In all these areas of the U.S., there were said Black African-American nations before Columbus, who were targeted for enslavement due to the Papal Edict that gave the Christian nations of Europe the go-ahead to make slaves of all descendants of Ham found in the newly discovered lands This fact cannot be denied. The essay on (said) Black Civilizations of Ancient America, published as the great book, "SUSU ECONOMICS; THE HISTORY OF PAN-AFRICAN TRADE, COMMERCE, MONEY AND WEALTH," tells a reality of this. While many of Africans' ancestors were kidnapped in Africa, many were Africans who came from West Africa, had a number of kingdoms and empires in the Southern parts of the U.S., and who were captured, had their lands taken and their persons sold into slavery These Africans were direct so-called black ancestors and their had a continuing connection with West Africa which included trade and commerce on the very eve of the invasion of the Europeans to the Americas (read "SEX AND RACE" Vol. 1 by J. A. Rogers; "THEY CAME BEFORE COLUMBUS" by Ivan Van Sertima). Empress Verdiacee 'Tiari' Washitaw-Turner Goston El Bey wrote in her book, "THE RETURN OF THE ANCIENT ONES," that"85% of the so-

called Blacks over here in America were already here before the slave trade Only 15% of Blacks arrived 400 years ago from Africa." We all come from Africa but there is a suppressed history of Blacks being a global people. Pangaea proves that all of the continents were connected, so migration to and from Africa and to other places was simple and easy Also see the Ra Expeditions: http //t co/CtJT2kr The Ra Expeditions proves that the ancient Egyptian Sun-boats were capable of global travel. Additionally, temples have been built and named after Egyptian Gods, and Hieroglyphics have been found in the Grand Canyon' http://bit ly/1xJjX7. In Oklahoma in the 1800's, a stele of Pharaoh Akhenaten (Amenhotep IV, aka, Moses of the Bible) was found (See "ICE: THE ULTIMATE DISASTER," by Richard Noone). In the book, "AMERICA B.C.," there is an alabaster egg of a cartouche of King Tut found in Idaho. http://bit ly/9ZZz0F Therefore, you may ask, "What other impact have occurred throughout the millennium?"

UNITED NATIONS' Definition of Indigenous - Those people having an historical continuity with pre-invasion and pre-colonial societies consider themselves distinct from other sectors of the societies now prevailing in those territories or parts of them. They form at present non-dominant sectors of society and are determined to preserve, develop and transmit to future generations, their ancestral territories, and their ethnic identity, as the basis of their continued existence as peoples in accordance with their own cultural patterns, social institutions, and legal systems."

INTER-AMERICAN DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLE Draft approved by the IACHR at the 1278 session held on September 18, 1995

SECTION ONE: 'INDIGENOUS PEOPLES' Art. 1. Definition.
1 In this Declaration indigenous peoples are those who embody historical continuity with societies, which existed prior to the conquest and settlement of their territories by Europeans. (Alternative I) [, as well as peoples brought involuntarily to the New World who freed themselves and re-established the cultures from which they have been torn]. (Alternative 2) [, as well as tribal peoples whose social, cultural and economic conditions distinguish them from other sections of the national community and whose status is regulated wholly or partially by their own customs or traditions or by special laws or regulations.

2. Self identification as indigenous or tribal shall be regarded as a fundamental criterion for determining the groups to which the provisions of this Declaration apply.

What have you gathered from what you have just read? Let's see how holistic your mind really is.

These are merely excerpts of the "UNITED NATIONS DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLE" Passed by 144 Nations on September, 07-13th, 2007. These articles have guaranteed these "(Natural) Indigenous Rights."

Article
2 Indigenous peoples and individuals are free and equal to all other peoples and individuals and have the right to be free from any kind of discrimination, in the exercise of their rights, in particular that based on their indigenous origin or identity.

Article
4 Indigenous peoples, in exercising their right to self-determination, have the free from any kind of

discrimination, in the exercise of their rights to autonomy or self-government in matters relating to their internal and local affairs, as well as ways and means for financing their autonomous functions.

Article
6 Every indigenous individual has the right to a nationality.

Article
9 Indigenous peoples and individuals have the right to belong to an indigenous community or nation, in accordance with the traditions and customs of the community or nation concerned. No discrimination of any kind may arise from the exercise of such a right.

Article
13 1. Indigenous peoples have the right to revitalize, use, develop and transmit to future generations their histories, languages, oral traditions, philosophies, writing systems and literatures, and to designate and retain their own names for communities, places and persons. 2. States shall take effective measures to ensure that this right is protected and also to ensure that indigenous peoples can understand and be understood in political, legal and administrative proceedings, where necessary through the provision of interpretation or by other appropriate means.

Article
33 1. Indigenous peoples have the right to determine their own identity or membership in accordance with their customs and traditions. This does not impair the right of indigenous individuals to obtain citizenship of the States in which they live. 2. Indigenous peoples have the right to determine the structures and to select the membership of their institutions in accordance with their own procedures.

Article
44 All the rights and freedoms recognized herein are equally guaranteed to male and female indigenous individuals

Thus, as indigenous people, remember the INTER-AMERICAN DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLE 'INDIGENOUS PEOPLES' Art. 1. Definition. ...indigenous peoples are those who embody historical continuity with societies, which existed prior to the conquest and settlement of their territories by Europeans. (Alternative I) [, as well as peoples brought involuntarily to the New World who freed themselves and re-established the cultures from which they have been torn] (See http.//bit.ly/cJpHi4)

2. Self identification as indigenous or tribal shall be regarded as a fundamental criterion for determining the groups to which the provisions of this Declaration apply.

Let's see the said "white supremacists / racists, such as, the Southern Poverty (Colorable) Law Center and etc...get past the United Nations definition (or any of the US Supreme laws [decisions / cases] documented and presented). They can not because this includes those saying that we, the said Blacks were here before the Europeans, as well as, those said "Africans" that were brought here to North America (Amaruka, Amexem etc...). In plain words, all dark-skinned people, whether from said Native American descent or said African descent are declared "Indigenous" to not just the Americas, or Africa,

but to the whole globe. Self identification as indigenous or tribal is the fundamental criterion. According to the U.S. Department of State website *www.state.gov › ... › Tribal Consultation,* "President Obama announced that the United States (of America) has changed its position on the United Nations Declaration on the Rights of Indigenous Peoples. The United States (of America) has changed its position on the United Nations Declaration on the Rights of Indigenous Peoples. The United States (of America) supports the Declaration, which—while not legally binding or a statement of current international law—has both moral and political force. It expresses both the aspirations of indigenous peoples around the world and those of States in seeking to improve their relations with indigenous peoples. Most importantly, it expresses aspirations of the United States, aspirations that this country seeks to achieve within the structure of the U.S. Constitution, laws, and international obligations, while also seeking, where appropriate, to improve our laws and policies." Therefore, the DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLE states,

1. We, indigenous people have the right to a nationality based on our indigenous origin or identity free from any kind of discrimination, in the exercise of their rights, ...Our nationality is "Washitaw de Dugdahmoundyah Mu'ur"...In order to have a nationality you must have land tie...

2. right to determine our own identity or membership in accordance with their customs and traditions; the right to determine the structures and to select the membership of our institutions in accordance with our own procedures,

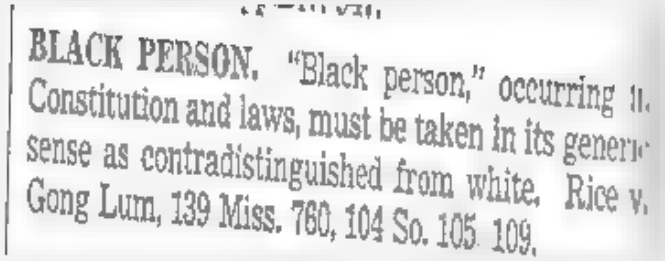
3. right to revitalize, use, develop and transmit to future generations their histories, languages, oral traditions, philosophies, writing systems and literatures, and to designate and retain our own names for communities, places and persons,

4. right to belong to an indigenous community or nation, in accordance with the traditions and customs of the community or nation concerned,

5. autonomy or self-government in matters relating to their internal and local affairs, as well as ways and means for financing their autonomous functions.

According to the above United Nations International Treaty definition, all so-called Black Americans (Mu'urs / Moors) are indigenous. Indigenous means "Natural Person." All "Natural Persons" are human beings and sovereigns of the land, because they are the rightful owners of the land. This is coming from the "BLACK'S LAW DICTIONARY 7th Edition." Just look up natural persons. All Washitaw Mu'urs, Moors are beyond first class Citizens and don't even know it, because we have accepted His-story and slave labels like, negro, black, and colored.

.



BLACK PERSON. "Black person," occurring in Constitution and laws, must be taken in its generic sense as contradistinguished from white. Rice v. Gong Lum, 139 Miss. 760, 104 So. 105, 109.

Black is a description it is not an identity

BLACK, *a.* [Sax. *blac*, and *blæc*, black, pale, wan, livid; *blacian*, *blæcan*, to become pale, to turn white, to become black, to blacken; *blac*, ink; Sw. *blek*, pale, wan, livid; *bleck*, ink; *bleka*, to insolate, to expose to the sun, or to bleach; also to lighten, to flash: D. *bleek*, pale; *bleeken*, to bleach; G. *bleich*, pale, wan, bleak; *bleichen*, to bleach; Dan. *blæk*, ink; *bleeg*, pale, wan, bleak, sallow; *bleeger*, to bleach. It is remarkable that *black*, *bleak* and *bleach* are all radically one word. The primary sense seems to be, pale, wan or sallow, from which has proceeded the present variety of significations.]

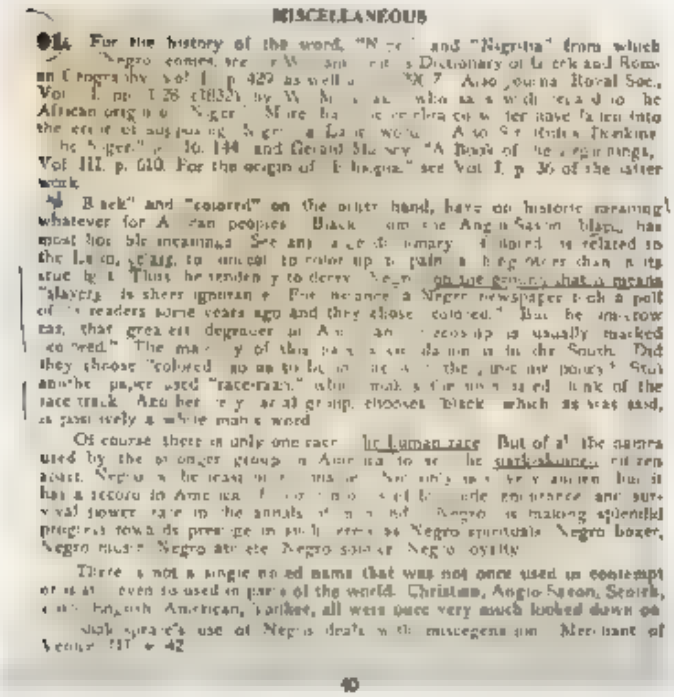
NEGRO. The word "negro" means a black man, one descended from the African race, and does not commonly include a mulatto. Felix v. State, 18 Ala. 720. But the laws of the different states are not uniform in this respect, some including in the description "negro" one who has one-eighth or more of African blood.

Term "Negro" means necessarily person of color, but not every person of color is "negro." Rice v. Gong Lum, 139 Miss. 760, 104 So. 105, 109.

COLORED. By common usage in America, this term, in such phrases as "colored persons," "the colored race," "colored men" and the like, is used to designate negroes or persons of the African race, including all persons of mixed blood descended from negro ancestry. Collins v. Oklahoma State Hospital, 76 Okl. 229, 184 P. 946, 949, 7 A.L.R. 895; Theophanis v. Theophanis, 244 Ky. 689, 51 S.W.2d 957.

But where a state Constitution provided for separate schools for the white and colored races the term "white race" was held to be limited to the Caucasian race, and the term "colored races" to embrace all other races. Rice v Gong Lum, 139 Miss. 760, 104 So. 105, 107

It has also been held that there is no legal technical signification to the phrase "colored person" which the courts are bound judicially to know. Pauska v. Daus, 31 Tex. 74.



MISCELLANEOUS

914 For the history of the word, "Negro" and "Negrita" from which "Negro" comes, see Webster's Dictionary of Greek and Roman Geography, Vol. I, p. 429 as well as Vol. II, p. 907. Also Journal Royal Soc., Vol. I, pp. 126 (1832) by W. Norris, who was a well versed scholar of the African origin of "Negro". More has been written on this word than is worth the effort of supposing. See also Gordon Hamilton "The Negro", p. 10, 144 and Gerald Massey "A Book of the Beginnings", Vol. III, p. 610. For the origin of "Negro," see Vol. I, p. 36 of the latter work.

Black" and "colored" on the other hand, have no historic meaning whatever for African peoples. Black and the Anglo-Saxon blæc, has most horrible meanings. See any standard dictionary. Colored is related to the Latin, celare, to conceal to color up to paint a beginning rather than a true light. Thus, the tendency to derive Negro or the generic what it means "slavery" is sheer ignorance. For instance a Negro newspaper took a poll of its readers some years ago and they chose "colored." But the narrow ass, that great degrader of Africans, race worship is usually marked "colored." The majority of this people are dominated in the South. Did they choose "colored" so as to be in the good graces of the powers? Such as the paper used "race-traitor," which makes the most stupid link of the race track. And here every racial group, chooses black which as was said, is positively a white man's word.

Of course there is only one race, the human race. But of all the names used by the stronger groups in America to name the dark-skinned citizen alien. Negro is the least insulting. Not only is it very ancient but it has a record in America, for more than a half century, and survival power rare in the annals of human race. Negro is making splendid progress towards prestige in such terms as Negro spirituals, Negro boxer, Negro music, Negro athlete, Negro soldier, Negro loyalty.

There is not a single named name that was not once used in contempt or as an insult even as used in parts of the world. Christian, Anglo-Saxon, Scotch, Irish, English, American, Yankee, all were once very much looked down on. Shakespeare's use of Negro deals with the miscegenation. Merchant of Venice, III, v, 42.

(c) (N. Y. 1826) That a negro works for and is claimed by one as a slave is prima facie evidence that he is a slave.—Trongott v. Byers, 5 Cow. 480

[tt] (N. C. 1802) Negroes are presumed to be slaves until the contrary appears, but it is otherwise as to persons of mixed blood.—Gobu v. Gobu, 1 N. C. 188.

[ttt] (N. C. 1802) The presumption from the black color of an individual, is that he is a slave.—Gober v. Gober, 3 N. C. 170.

[u] (N. C. 1828) In questions of slavery or freedom a presumption of slavery arises from a black complexion, but none from that of a mulatto. Scott v. Williams, 12 N. C. 376

[uu] (N. C. 1853) The presumption of slavery does not arise from a complexion a shade darker than that of a mulatto.—Nichols v. Bell, 45 N. C. 32.

Thus, even so the word 'Negro' is a derivative African word and not of Latin origin. However, in U.S. colorable law the word 'Negro' has a very negative connotation.

Introduction

Dr. Thomas further comments,

> The original inhabitants of Arabia, ...were not the familiar Arabs of our own time, but a very much darker people. A protonegroid belt of mankind stretched across the ancient world from Africa to Malaya. This belt, by environmental and othe evolutionary processes, became in parts transformed, giving rise to the Hamitic peoples of Africa to the Dravidian peoples of India, and to an intermediate dark people inhabiting the Arabian peninsula. In the course of time two big migrations of fair-skinned peoples came from the north one of them the mongoloids, to break through and transform the dark belt of man beyond India, and the other the caucasoids, to drive a wedge between India and Africa (p. 398)

In ancient times, Africans in general were called Ethiopians; in medieval times most Africans were called Moors; in modern times some Africans were called Negroes. The Ethiopians were named by the Greeks. The word Ethiopia means "burnface," from the Greek names *ethios* + *face*. This description referred to the dark complexion of these Africans, which the Greeks attributed to sunburn. In the literature on Africa, Africans are commonly identified in two groups one progressive, the other backward. The progressive peoples are called Hamites, Kushites, Moors, etc. whereas the backward ones are called Negroes. The word Negro comes from the Latin word *niger*, meaning black. Hamites, Kushites, and Moors were also black, but they have been included into the white race.

The word Negro was manufactured during the Atlantic Slave Trade; or to put it another way, there are many species of small fish in the ocean, when put into cans they are called sardines. There are no free fish called sardines; they only get that name when canned. No free Africans were called Negroes, they got that name only after being enslaved. A fish becomes a sardine when imprisoned in a can, and Africans became Negroes when they were put in chains. According to American law, anybody with an African ancestry, however remote, is a Negro. To follow this logic, since the human race originated in Africa, everyone in the world is a Negro. A word so vague as this does not mean anything at all.

THE 'NEGRO' DOES HAVE DEEPER CONNECTION IT M JST BE DETERMINED IF ONE IS USING ITS CONNOTATIVE MEANING OR DENOTATIVE MEANING ,. Adj. 1 CONNOTATIVE - having the power of implying or suggesting something n addition to what is expl cit mplicit, inexplicit mplied though not d rectly expressed: inherent n the nature of something, "an impl cit agreement not to raise the subject"; "there was mplicit criticism in his voice"; "anger was implicit n the argument"; "the oak s mplicit in the acorn" Thus, the word Negro in its connotative meaning does means much in regard to a person (except dead'), because, it is not a proper noun but an adjective However, in its denotative mean ng Negro is derived from the Coptic word 'Negus' meaning 'King. 'It is a title for emperors of Ethiopia. [Amharic ngus, from Classical Ethiopic ngu., king, ruler verba adjective of naga, to rule. become king, see ng in Semitic roots. DENOTATIVE d-nt-tv. dn-t-) adj. 1 Denoting or naming, designative. 2 Specific or direct denotative and connotative meanings.

MOOR. An officer in the Isle of Man, who summons the courts for the several sheadings. The office is similar to the English bailiff of a hundred.

Moor (mūəɹ, mōəɹ), *sb.*[2] Forms: 4 **Maur**, 4–7 **More**, 5 **Moure**, **Mowre**, 6, 8 **Maure**, 6–7 **Moore**, 7– **Moor**. (Now with initial capital.) [ME. *More*, a F. *More* (13th c.), *Maure*, ad. L. *Maurus* (med.L. *Mōrus*), Gr. **Μαῦρος**. Cf. Sp., Pg., It. *Moro*; MDu. *Moor*, *Moer* (Du. *Moor*), OHG. *Môr*, pl. *Môri* (MHG. *Môr*, *Mar*, mod.G. *Mohr*).

The L. *Maurus*, Gr. **Μαῦρος** may possibly be from some ancient North African language. Some believe the word to be merely a use of Gr. **μαῦρος** black (which on this view is aphetic from **ἀμαυρός** blind); but this adj. (or at least this sense of it) is confined to late Gr., and may even be derived from the ethnic name.]

1. In *Ancient History*, a native of *Mauretania*, a region of Northern Africa corresponding to parts of Morocco and Algeria. In later times, one belonging to the people of mixed Berber and Arab race, Mohammedan in religion, who constitute the bulk of the population of North-western Africa, and who in the 8th c. conquered Spain. In the Middle Ages, and as late as the 17th c., the Moors were commonly supposed to be mostly black or very swarthy (though the existence of 'white Moors' was recognized), and hence the word was often used for 'negro'; cf. BLACKAMOOR.

Sorry, but negro, black and colored does not ratify the nationality matter in law. Negro, black and colored are adjectives." They describe a person (artificial), place or thing, but is not a person (natural), place or thing...in other words, these 'words' are NOT proper "Nouns." Simply look at the various definitions according to "BLACK'S LAW DICTIONARY 4th DELUXE EDITION" (above). Those who think they are negro, colored, black, afro-american, african-american victims of slavery, usually begin their history on slave boats from Africa. This is not to be said, "We aren't Africans, because we are Africans! And we were not named after Scipio Africanus. Subsequently they also end their history there as well, because it's origin and nature does not allow for anyone to honestly trace their history beyond that period As soon as one goes past the 17th century, prior to those brands, they enter immediately into Moorish History, all over the World (see www.rvbeypublications.com).

According to the "AMERICAN HERITAGE DICTIONARY," the word Moor is a noun and means 1. A Member of a Moslem people a mixed Berber and Arab descent, now living chiefly in Northwest Africa. 2. One of the Moslems who invaded Spain in the 8th century and the 15th century [MIDDLE ENGLISH MORE, FROM OLD FRENCH MUUR, FROM MEDIEVAL LATIN MORUS, FROM LATIN MAURUS, MAURITANIAN, FROM GREEK MAUROS, POSSIBLY FROM BERBER (FROM SPANISH MORO or MORENO)]. On "FREE DICTIONARY THESAURUS" it states: Moslem, Muslim - a believer in or follower of Islam.

Before, we move on, lets set the record straight, because this is the most inaccurate definition one can ever read on Moor. The definition may lead one to the impression that "a Moslem" is specially tied to Al Islam and in a sense it is, but not in the sense of an (pale) Arab belief system per se. But before, I explain the real meaning of the term Moslem (Muslim) let's look at the "OXFORD DICTIONARY"

definition of the word Moor and prove the the term Moor is before the religion of Islam and the Prophet Muhammad.

Moor - A possible derivation of classical Latin *Maurus* , Hellenistic Greek *Μαῦρος* < an ancient North African language on the basis of a mutilated line of Egyptian hieroglyphics (*c* 1285 b.c.: see K. A. Kitchen *Ramesside Inscriptions* (1976) IV. 17)

Moor Does not Mean Death and or Black With Linguistic Proofs-Moabite Origin of the Word Moor P2

EVEN HISTORIAN RUNOKO RASHIDI STATED THAT BASED ON HIS LIMITED RESEARCH, THE FIRST TIME WE HEAR ABOUT THE MOORS IS AROUND 4TH CENTURY B.C.E. AND THE TERM "GENERALLY" IS NOT MOOR, BUT A DERIVATIVE CALLED MAUROS OR MAURY. OF COURSE, THIS IS A CONSERVATIVE DATE, BUT IT DOES HELP PROVE THAT THE TERM MOOR (MAUR) PRE-DATED THE RELIGION OF ISLAM.

Nevertheless, E. A. Wallis Budge states 2500 BC - 2401 B.C.E. Palermo Stele refers to the term "Maur" to mean [the title of the high priest to Anu." This also shows that the Sumerian God Anu (On a form of Ra) was worshipped in Ta Merry (Kemet / Egypt) first.Therefore, the term 'Moor' is the ancient Ta Merrian word / Medu Neter 'Maur'. Remember, vowels were not used in Medu Neter, it is MR.

See, initially, in Al Islam, we were told "We are Moslems / Muslims by birth (nature)." Hence, it implies a tied to one's "Birth-right," A "Birth-right" can not exist without a 'religion;' at less not in the true

sense of the word 'religion' (Latin), which means "to bind or tie back again." In Indu Kushitic (Sanskrit) tradition the word 'Yog / Yoga means 'Union'. In the ancient Egyptian (Ta Ma-Re /Kamau) teaching the Medu Neter "Smai Tawi" means "Union of the two lands." The question becomes to tie back, combine or unify what? The answer: One's lower self merged into one's Higher Self ...making One Self (Allah, Ur Ra, Heru Ur, Your Lord and Personal Savior, etc)...no longer dealing with duality, paradox, and etc... T

The "MOORISH HOLY KORAN CIRCLE SEVEN Chapter II Education of Mary and Elizabeth in Zoan, Egypt" states, 18. Teach them that Allah and man are one, but that through carnal thoughts and words and deeds, man tore himself away from Allah, debased himself. 19. Teach that the Holy Breath would make them one again, restoring harmony and peace.

Therefore, we are only Moslem (Muslim) in the original sense of the word for ALL MAJOR WORLD RELIGIONS: HINDUISM, BUDDHISM, JUDAISM, CHRISTIANITY, ISLAM & etc...COME FROM EGYPT...THE MOUTH PIECE OF AF-RA-KA (Africa) (read "AFRICAN ORIGINS OF THE MAJOR WORLD RELIGIONS" by Amon Saba Saakana [Editor], "THE AFRICAN ORIGINS OF CIVILIZATION, MYSTICAL RELIGION AND YOGA PHILOSOPHY" by Dr. Muata Ashby, "AFRICAN ORIGINS OF MAJOR "WESTERN RELIGIONS" by Dr. Yosef A.A. Ben Jochannan, "ANCIENT EGYPT THE LIGHT OF THE WORLD" by Gerald Massey). In ancient Egypt (Ta Ma Re) the letters 'L' and 'R' are interchangeable, hence Mos-lem (Mus-Lim) is derived from the ancient Egyptian (Ta Merrian) word (Medu Neter) "Mes Rem" meaning "Born from the Tears of Re [Ra]." According to "THE BOOK OF KNOWING: THE RISE AND EVOLUTION OF RA" also called "RA PAPERA" or its later version derivative "HOLY BIBLE" (characters change, but the story remains the same...read "BIBLE MYTHS AND THEIR PARALLELS IN OTHER RELIGIONS" T. W. Doane) says that Shu and Tefnut went to explore the waters of Nun. After some time, Ra believed that they were lost, and sent the his Eye out into the chaos to find them. When his children were returned to him, Ra wept, and his tears turned into the first humans [wombman and man]... Hence, we are called the "Children of the Sun" or "Child of Light"; thus "Mes Sen Re ("Born of Re [Light], Masonry). In Arabic - Hebrew is called "Misr "(Misraim / Mizoram). "Misr" is the derivative of the Coptic word "Mesore," which is derived of Mes Ra or "Mesu Ra" meaning "Born of Ra" or "Birth of Re." This is a title of Ra operating through the Sun during the summer solstice. Metaphysically, it is the kundalini operating at the heart chakra, symbolizing 'Love' (planet Venus symbolizes 'Love', the five-pointed-star on the governmental Moroccan flag means, Love ['Amor' means 'Love' in French], Truth, Peace, Freedom & Justice) or "Birth-right" once again.

Moreover, according to Bro. J. Blakely-Bey, (Past) S.G.A., and M. in the "ORAL STATEMENTS AND PROPHECIES OF PROPHET NOBLE DREW ALI," the Egyptian Adept, Prophet Noble Drew Ali (Sheik Sharif Abdul Ali) stated that"Moslems are not made, they are born." "HOLY BIBLE Genesis 5:2" Male and female created he them; and blessed them, and called their name Adam (Atum), in the day when they were created. Atum (Adam), is Ra in his first sovereignty. The following preceded Atum Re. The first group of Creators were seven in number, with Sut (Heru Ma Khu Sut Tekh / Melchizedek / Michael, the Warring Angel, head of the Seraphims and Cherubims) at their head. The "101 QUESTIONNAIRE FOR MOORISH CHILDREN" states 098. Who is Elohim? Elohim is the Seven Creative Spirits that created everything that ever was, is, and evermore to be. 099. What is Elohim sometimes called? The Seven Eyes of Allah (Ur Ra). So, now the reader should "Overstand" the true meaning of the Medu Neter "Mes Rem" and its Hebrew derivative "Mizraim" and Arabic derivative "Mos Lem" or "Mus Lim."

Now, lets look at the origin of the Medu Neter Saa Rem or Sarem: "Sarem" is also a title of Hapi meaning the river Hap is a "shrine/sanctuary of the Divine tear (rem) of Ra [Re] called Auset-Sapadet (Sirius). This title "Sarem" understand that 'r' and 'l' are interchangeable linguistically is changed to

Salem, Salaam, Islam." This is why it is said that Mu Hap Meht (Muhapmed, Muhammad or Mohammed; Waters of the Northern Nile) brings Sarem (Islam, Sanctuary of Divine Water) to the people. Once must also "overstand" that Allah is the Arabic form of Ur Ra, or Heru Ur (Har-Wer, Horus, the Elder or Horus, the Great, symbolizes one's "Higher Self").

Now lets move to the origin of the Medu Neter Mu Hap Meht: is a title of Hapi, meaning "Waters" (Mu) of the"Northern Nile" (Hap Meht). Hence, Muhapmed, Muhammed or Mohammed etc... This is why Mu Hap Meht also has the ancient title "Sarem (Salem, Salaam, Islam)." Sa means"Shrine or Sanctuary of a Neter (God or Goddess)". Rem means"Tear". Therefore, Professor, Walter Williams is absolutely correct, "There has never been a man that ever walked the Earth in human form by the name "Muhammad," the Prophet of traditional Islam."

Abu al-Qasim Ahmad Ibn Abd Allah Mustafa Ala-min Ibn Abd al-Muttalib Ibn Hashim may have existed, but he surely was not biologically descended from Ishmael. Nevertheless, 'Muhammad" is a 'title' like 'Christ (KRST or Kerest)", 'Messiah' (Mes, Messu) or etc...and as research shows, "It is a title for Hapi, the river Nile deity." Therefore, the only thing in which an Arab Muslim may say is that 'Ahmad' changed his name to 'Muhammad,' which according the various "HADITHS" by Bukari, this is exactly what he did upon his return from Ethiopia (Cush).

In "FREEMASONRY AND ISLAM: WHAT DO THEY SHARE?" by Fahim A. Knight, states, Prophet Muhammad (PBUH) very seldom ventured outside the Arabian Peninsula, but as he attempted to proselytize this new found faith in the seventh century, it was met with opposition; thus, Muhammad (PBUH) had to flee for his life and some historians' record that (he went and) he sent his followers to Abyssinia (Ethiopia), Africa and sought protection and temporary asylum under the militarily strong Coptic Christians. Abyssinian Christians of the Negroid race qualified Muhammad's fleeing Arab companions and found that Muhammad's Islamic teachings resembled and mirrored their own Coptic faith tradition and therefore refused to release Muhammad's followers to their would- be persecutors and tormentors whom were seeking to kill them. The religion of Islam survived due to the mercy and compassion that were rendered by these black Africans."

Even so, Set/Sut has the ancient title "Smai-Ur" meaning "Smai" (lower self; also to join, unite) "ur" (great). "Smai-Ur" in this instance means the "great union". Smai-Ur was corrupted into "Smai-ul", "Smai-il", "Ismaiil" (Arabic) and "Ishmael" (Hebrew). Metaphysically, Set (Smai-Ur) is the Spirit-Force operating through the planet Mercury, the red-hot desert lands of Earth, the nervous system and gonads (testes and ovaries - seat of aggression from whence we get "fired" up), and he also governs the desire (whether guided / lawful or misguided / lust). Heru, the son of Ausar was the rightful heir to the throne, which Set sought to usurp / take from Him. Heru (Spirit-Force operating through the core of the Sun, the solar core of Earth, the heart and cardiovascular system, the will) has the ancient title "Heq" meaning "ruler". "Heq" is pronounced "Sheq". This was corrupted into "Ishak" (Arabic) and "Isaac" (Hebrew). Hapi or Mu Hap Meht (Muhammad) in dual form, binds the Smai (Sema) symbol. The one on the left holds the symbol with a papyrus plant (Set - lower self) and the one on the right binds with a lotus flower (Heru-higher self). This means that the duality of spirit and matter, temporal and transcendent becomes unified in such a way that ones temporal nature (Set) dissolves into the transcendent reality; ones higher nature (Heru)" "EGYPTIAN YOGA" by Dr. Muata Ashby. Therefore, if pale Arabs attempt to state that 'Muhammad' is descendant from 'Ishmael,' this is true in the mythology (for water [Hapi] quenches fire [Set]), but not in geneology. Read:

"HOLY BIBLE King James Version Galatians 4: 22-25" For it is written, that Abraham had two sons, the one by a bondmaid, the other by a freewoman. 23. But he who was of the bondwoman was born after the flesh; but he of the freewoman was by promise. 24. Which things are an allegory: for these are the two covenants; the one from the mount Sinai, which gendereth to bondage, which is Agar. 25. For this Agar is mount Sinai in Arabia, and answereth to Jerusalem which now is, and is in bondage with her children.

"HOLY QUR'AN Surah 3: 7" Translation by 'Abdullah Yusuf Ali - Surah 3: Al-i-Imran (The Family Of 'Imran, The House Of 'Imran)

7. He it is Who has sent down to thee the Book: In it are verses basic or fundamental (of established meaning); they are the foundation of the Book: others are allegorical. But those in whose hearts is perversity follow the part thereof that is allegorical, seeking discord, and searching for its hidden meanings, but no one knows its hidden meanings except Allah. And those who are firmly grounded in knowledge say: "We believe in the Book; the whole of it is from our Lord:" and none will grasp the Message except men of understanding.

"MERRIAM WEBSTER'S DICTIONARY"- ALLEGORY (noun)
1. a short moral story (often with animal characters)
2. a visible symbol representing an abstract idea
3. an expressive style that uses fictional characters and events to describe some subject by suggestive resemblances; an extended metaphor

Therefore, if Abraham [Abram] (Brahman / Brahma / Ra), wife Sarah (Sarai or Saraswati / Aset), wife Hagar being then the namsake of the Ghaggar (or Hakra / Het Heru) river, and (Gayatri the hindu name of Keturah / Sekhmet) are mere allegories (mythical events), then how is it possible to claim geneological lineage from fictional characters? Answer: "You can't!" It is not a geneological lineage, but a school of thought inherited.

According to the "ORAL STATEMENTS AND PROPHECIES OF PROPHET NOBLE DREW ALI" states, Sister A. Brown H and Bro. C. Barker-Bey, (Past) G.M. said that the Holy Prophet told the Moors, "Don't let none of those foreign Moslems get up in your rostrum." (We are not to allow foreign Moslems to teach or speak to an audience in our temples). Why? Why would Prophet Noble Drew Ali teach us this? Aren't we all Moslems? Yes, we are, but some are born and others are made...we have difference degrees / levels of consciousness. For example, when Prophet Noble Drew Ali taught us in the "101 QUESTIONNAIRE FOR MOORISH CHILDREN" 071. What is the Higher self? The Higher self is the mother of virtues and the harmonies of life, and breeds Justice, Mercy, Love and Right. 072. Can the Higher self pass away? No. 073. Why? Because it is ALLAH in Man. "ALLAH in Man?" This is NOT an "Al Islam teaching" or part of so-called "Orthodox Islamic tradition (Sunni and Shia)!" The average religious Moslem (Muslim) would have you worshiping ALLAH (GOD) outside of yourself thus forming a sort of thought form(s), giving your energies (life force) to a made idol (idle) or either having to empower this "thought form" though "Blood Sacrifices." No difference than the average religious Christian, who does Communion, a Cannibalistic Ritual (imitation with a white cracker or wafer and wine or grape juice?) or Jew, a Blood Letting Rituals - Animal or Human for their Passover Leavening Bread. So, the Lord is a jealous GOD. "You shall not worship them or serve them; for I, the LORD your God, am a jealous God" (Exodus20:4-5) for there is ONLY one ALLAH (GOD) within and IT (S/HE) is jealous. Most focus' their attention externally, instead of internally. Nevertheless, "ALLAH (GOD) in Man" is a Sufi (Gnosis, Kabbalistic

etc...) teaching. 'Sufism' or 'Taṣawwuf' (Arabic: تصوف) is defined by its adherents as the inner, mystical dimension of Islam. A practitioner of this tradition is generally known as a Sūfī (صوفي).The word Sufi origin is ṣūf (صوف), is 'purity' and 'wool, as in wooly hair.

"HOLY BIBLE King James Version Daniel 7:9" "I beheld till the thrones were cast down, and the Ancient of days did sit, whose garment was white as snow, and the hair of his headlike the pure wool: his throne was like the fiery flame, and his wheels as burning fire"

"HOLY BIBLE King James Version Revelation 1: 12-17" ..."among the lampstands was someone "like a son of man,"dressed in a robe reaching down to his feet and with a golden sash around his chest. His head and hair were white like wool, as white as snow, and his eyes were like blazing fire. His feet were like bronze glowing in a furnace, and his voice was like the sound of rushing waters."

In the "ORAL STATEMENTS AND PROPHECIES OF PROPHET NOBLE DREW ALI" Sister Gaddy-Bey of Temple 4 and 25 said that the Holy Prophet said, "Children, your hair is not kinky. It Is wooly like your Brother Jesus."

According to "BLACKOUT THROUGH WHITEWASH" by Dr. Suzar, she writes, "The Power that causes galaxies to spiral, and planets and atoms to spin; that causes the double helix spiral of the DNA molecules - this same spiraling power causes spiraling hair... otherwise known as nappy (word origin from the indigenous tribal word "Le'Nape"), kinky (kingly), curly, frizzy, wavy, WOOLY hair! The words, SPIN, SPIRAL, and SPIRITUAL have common roots! The Supreme Power spins; spirals; it is spiritual. It moves or spirals the universe! The entire universe dances in spirals and rotations (hence, the origin of the "Swirling Dervishes" or 'Sufis'). Hair is a really antenna that can receive and transmit energy! Let's look at it this way, before the TV remote control and cable. The TV had channels 2-13, or VHF (Very High Frequency) utilizing the "rabbit 'straight' ear" antenna, represents the 3rd Dimensional apparent reality (Maya = based on length, width and height). However, to reach the higher channels 14-83 (i.e. cable), we had to turn to the 'U' channel or UHF (Ultra High Frequency), utilizing the 'OHM' antenna, represents the 4th Dimensional apparent reality (Maya = add depth). Therefore, as we analyze fur to hair textures "rabbit 'straight' ear" antenna would symbolize the 3rd Dimension (access) and the 'OHM' antenna would symbolize the 4th Dimension (access). The various monks in Shaolin (Buddhism), TIbetan, Taoism, Yoga, and etc...all chant Om (Aum) to tap into this frequency. Based on the current heavenly alignments and according to the prophecies of the indigenous people of planet Earth, such as, the South Africans, Olmec-Mayans, Hopis, Aborigines, and etc...we are moving into the 5th World / Dimension (Energy). The Science of Cosmology dictates the angles (angels) of light energy transmitted upon the planet Earth. Astrology / Cosmology, also correlates with the hair, as it is our antenna, from the Cosmos-to-me, thus Cosmetology. Therefore, hair plays an important part in receiving and transmitting various frequencies (thought, light, sound etc...) from and to the cosmos or spirit world, especially wooly hair that curls like the OHM antenna called 'Shen' in Medu Neter meaning 'Spirit.' In China, 'Shen' is 'Shen' or 'Shin' and it means 'Spirit' also. We, the children of the Sun are born (Mes Remu, Moslems / Muslims) with that spiritual connection (wooly hair = spritual antennas)!

Therefore, what becomes known as Suf-ism (doctrine, system or practice of 'Wool'), the mystic teachings of Al Islam is derived from the (said) Ancient Mystery School of the Barabra (Ethiopians / Nubians) (Note: ISM is an abbreviation for (Astronomy) interstellar medium "COLLINS ENGLISH DICTIONARY –Complete and Unabridged"). According to "WONDERFUL ETHIOPIANS OF THE ANCIENT CUSHITE EMPIRE" by Drusilla Dunjee Houston...The Greeks looked to old Ethiopia and called the Upper

Nile the common cradle of mankind. The Greeks also said that Egyptians derived their civilization and religion from Ethiopia. "Egyptian religion was not an original conception, for three thousand years ago she had lost all true sense of its real meaning among even the priesthood" ("OSIRIS AND THE EGYPTIAN RESURRECTION" by Wallis E. Budge). Yet Egyptian forms of worship are understood and practiced among the Ethiopians of Nubia today. The common people of Egypt never truly understood their religion, this was why it so easily became debased. Ptolemaic writers said that Egypt was formed of the mud carried down, from Ethiopia, that Ethiopians were the first men that ever lived, the only truly autochthonous race and the first to institute the worship of the gods and the rites of sacrifice. Egypt itself was a colony of Ethiopia and the laws and script of both lands were naturally the same; but the hieroglyphic script was more widely known to the vulgar in Ethiopia than in Egypt. ("DIODORUS SICULUS," bk. iii, ch. 3.) This knowledge of writing was universal in Ethiopia but was confined to the priestly classes alone in Egypt. This was because the Egyptian priesthood was Ethiopian." This priesthood was called Maur (Cush Moer, Meru, Muur, Moor, Moro), the priests of Anu (see below).

"The Nile Nubas or Barabra are the original Ethiopians... All Barbara have wooly hair with scant beards like the figures of Negroes on the walls of the Egyptian temples..." They have rejected the name Nubas as it has become synonymous with slave. They call themselves Barabra, their ancient race name. Sanskrit historians call the Old Race of the Upper Nile Barabra..."Our story passes on to another remnant of the ancient Cushite empire, that baffling race, the Iberians, now represented by the Basques; then to the Berbers of North Africa, another branch of the Cushite race. Some scientists have called them the descendents of the "People of Atlantis." (read "WONDERFUL ETHIOPIANS OF THE ANCIENT CUSHITE EMPIRE" by Drusilla Dunjee Houston).

Read "THE PHILOSPHY OF SYMBOLIC FORMS: Vol 1: LANGUAGES" There are: Northern Cushites (mainly in Sudan and Eritrea, and North African Berber, the original 'Berbers' were Ethiopians / Cushites called 'Barabra' or 'Nubian'...hence the origin of the word 'Barbarian'), Central Cushites (also called the Agau group; mainly in Ethiopia, including the Jewish (Hebraic) Falashim, and bearing strong Ethiopic and Amharic influence), the Western Cushites (or Omotic; spoken along the western border of Ethiopia near Kenya), the Southern Cushites (mainly in Tanzania, including the Iraqw, Asa and Ngomwia) and the Eastern Cushites.

The noun 'Moor[s]' is synomyous with the word 'Land' In "BLACK'S LAW DICTIONARY 2nd EDITION" Land: in the most general sense, comprehends any ground, soil, or earth whatsoever; as meadows, pastures, woods, moors, waters, marshes, furzes, and heath. Co. Litt 4a. This is why, the Ku Klux Klan (KKK, a Masonic Society..."Every KKK member is a Mason, but not every Mason is a KKK member!") refers to us as "Mud People," because, we were the first to emerge from the state of Nu (Nun), the Waters of Life. In the Heliopolitan creation myth, Atum (Adam, Atom) was considered to be the first god, having created himself, sitting on a mound (benben) (or identified with the mound itself), from the primordial waters (Nu). Hence, we 'Washitaw' are the "Mound Builders"

(Benbenu Iqedew).

In Genesis 2:7 And the LORD God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul.

MES RA, MES REM OR MOSLEM (MUSLIM) = "BORN FROM THE TEARS OF RA"

According to Bro. J. Blakely-Bey, (Past) S.G.A., and M. in the Oral Statements and Prophesies, the Egyptian Adept Prophet Noble Drew Ali (Sheik Sharif Abdul Ali) stated that "Moslems are not made, they are born."

Moslem (Mes Ra) In Arabic Hebrew s called "Misr" (Misraim / Mizoram). "Misr" is the derivative of the Coptic word "Mesore," which is derived of Mes Ra or "Mesu Ra" meaning "Birth of Ra". This is a title of Ra operating through the Sun during the summer solstice. Hence, a Moslem (Muslim), which is Arabic is derived from the Medu Neter (Egyptian word) "Mes rem." According to the "RA PAPERA," people are born "Mes" of the tears "Remu," which came from the Eye of Ra

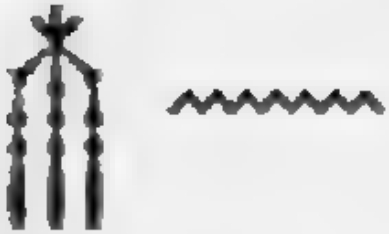
MES MS "BORN" or "BIRTH"

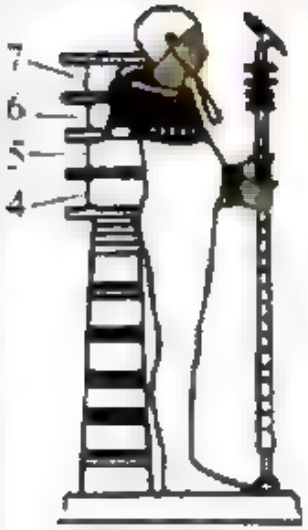
MESSU MSW = "OFFSPRINGS"

Messiah—The Christos, the Anointed, a divinely sent teacher or spirit, a messenger of God. The true root of this word is the Egyptian Mes, Meska, place of birth and rebirth, whence the generation and rebirth of a Mes-iah. The Messiahs who were the incarnations of the Sun, were concealed, buried and arose from the dead, and were symbolized in the rising and the setting of the Sun. Messiahship represented a cycle, and was wholly dependent upon the fulfilment of the cycles of time. When the Sun was elevated above the female or the Moon, and the child El, Aden, Aten, Adonai, Iu-em-Hept and other Sun-gods personated a Messiah, they became known as the son of the father instead of the mother.

MESSEN (MASON) = "CHILD OF"



Dr. John G. Jackson (1972) in "MAN, GOD AND CIVILIZATION"... "The term Free Mason was traced back to the ancient Khametic empire (Egypt) It comes from a combination of two Khametic words Phre (the Sun) and Mas (a Child) meaning "Children of the Sun" [and/or "Sons (and Daughters) of Light"] (John Jackson, 1972). These two words combine to make the word Freemason The term originated in Egypt and proves that the first Freemasons were ancient Africans. It also shows that the order originated in Africa Frank C. Higgins also defines Freemason the same as above, and he has it as Phre-Messen (from Egypt) (Higgins, 1923). They were both students of the teachings of Gerald Massey. Notice they both states, the name Free Mason is derived from the ancient Medu Neter "Phree Messen," meaning "Child of the Sun" or "Heru Mes" meaning "Child of the Light (Day)." Heru is the son of Aset, the Widow, hence, Heru is the Widow's Son. Heru becomes Hiram Abiff derived from Heru's name Heru em Akhet or the Sphinx, the Initiator into the Ancient Mysteries. AnkhAton unified the teachings of Tehuti (Djewhuty) formed universities to reach the Summum Bonum - the "Supreme good from which all others are derived." (3) three degrees were given to the Greeks (Persians), derived from the (9) nine degree system of Hah Kha or Her Bak (Ancient Mystery System). Much later on, this becomes masonry's blue house (lodge) degrees, Entered Apprentice, Fellow Craftsman and Master Mason (see below), the other (30) thirty degrees are honorary in the Scottish Rite traditions, symbolizing the (33) thirty-three vertebrates and (31) thirty-one (inner case spinal nerves) + (2) two (out spinal nerves) sacral nerves, making 33 nerves. The spinal column in Ancient Egypt (Ta Merry, Kemet) is called "The Backbone of Asaru [Osiris]" or "Djed" or "Djedi." This is the origin of the Star Wars masters called "Jedi." Biblically, the spinal column is mentioned in Genesis 28:10-12, "Jacob left Beersheba and went toward Haran. 11 And he came to a certain place and stayed there that night, because the sun had set. Taking one of the stones of the place, he put it under his head and lay down in that place to sleep. 12 And he dreamed, and behold, there was a ladder set up on the earth, and the top of it reached to heaven. And behold, the angels of God were ascending and descending on it!" Figuratively, this is called "Jacob's Ladder."



"Master the fire of the back... the life giving fire."

Moorish Elder Taj Tarik Bey states, "Masonry is, essentially, Islam (this is apparent at the 32nd and 33rd degree and the enterence into the Shriner house, the higher masonic order; the greeting is "As Salaam Alaikum") and Islam (not ritualized) is Cosmology, (even more importantly, it is Physiology...the Supreme Axiom is "As above, so below; As within, so without!")... It is not true nor accurate for us to say that Masons (the fraternal order) are progenitors of this knowledge.The fact is that the high culture science used in Masonry is actually Moorish Science, which in itself is Cosmology (Physiology). Thus, it important that we recognize Ancient Kushite / Egyptian [Kemetian / Ta Ma-Rean] called Hah Kha [Her Bak] or Moorish Science. Moorish Science is the knowledge of the Universe (Cosmos / Cosmology and its influences upon the Physiology or human anatomy), and has been hidden and veiled in Masonry.The Ancient Science comes first; the secret societies and fraternal orders are secondary, modern, and serve as institutional vehicles for dispensing aspects of the Ancient Culture by degrees. Do not assume this relationship to be the other way around. It is also important for us to know that Masonry is not an institution of higher learning that belongs to, nor was its philosophy initiated by Europeans. It is, in fact, the high - teachings of Science and the workings of nature, given to Europeans by the Moors (Mu'urs) by way of the Renaissance, during the 14th, 15th and 16th centuries. The Philosophies were given to Europeans to raise them from the dark-ages of superstition, savagery, and ignorance, and into a new world of knowledge and High Culture, which is referred to as, 'Light'" (see. www.rvbeypublications.com).

move about the pole.

Meru—Garden of the Tree of Life, the Pole or Polar region, said to be "like the Seed-Cup of the Lotus," the "Lotus of Immensity." Meru was called the "Great World's Altar Stairs," by which men could climb heavenward. At each step a planetary heaven was established in their different cycles of time. Meru was also a name for the Thigh, the Matrix, or the Mother. Occultists have described it as "The exalted mass of glory, the veritable haunts of the Gods and heavenly choristers . . .

not to be reached by sinful men . . . because guarded by the Serpents." These were the Fiery Serpents, the "Winged Wheels." (See Seraphim.) Its four rivers, or cardinal points of the world, were symbolized in the four sacred animals, the protectors of mankind, who were the watchers over Karma on Earth. Meru was the celestial mountain where the gods and the highest celestial beings dwell, as well as the mythical birthplace, astronomically the celestial pole, the throne of Jehovah. Ru is the mouth, the outlet. Meru is also imaged as an Island, a Lotus, and Tree, co-types of emanations from the water. It was celestial.

the plateau of Tartary, and from there transmitted to this generation by the sages of India, Persia, Ethiopia, and Egypt. We *are not indebted to either ancient Egypt for either Religion or Masonry, but to America.*

5 It is a fact that at Memphis, Egypt, in the Pyramids, under the guidance of the Kings, the Mystic Rites of Masonry were worked many thousands of years ago, but at that time Egypt and the continent of *America were one and the same.*

6. "In America, re-discovered in the fifteenth century and re-populated in the seventeenth, was recovered Egypt and the promised land, or the land of the constellation of the Eagle."*

Many historians allege that the honor and credit went to Americus Vespucius, an explorer (exploiter). Colon did not discover anything nor did AMERICUS VESPUCIUS, nor did they (Europeans) name it. The word America was developed from the Medu Neter name MERU, which means LEADER, CHIEF, RULER,

etc. The word AMERICA shows the Greeks called a Medu Neter who pronounced I A-MER-I-KOS From the South American indians i.e. TUPAK AMARU The word America bears no relevance whatsoever to Americus Vespucius. This word is also borrowed by the Arabic language, and is called AMIR meaning RULER CHIEF GOVERNOR, PRINCE etc. The European latest corruption of the word MERU reads MEROE If Colon (Columbus) discovered America why then does Vespucius enjoy the credit and honor of having it named after him?

The "WEBSTER'S UNIVERSAL DICTIONARY 1937 Edition" defines an 'American'

1.An aboriginal, or one of the various copper-colored natives found on the American continent by the descents of European settlers. The following is the original application of the name Meru.

The word 'Meru' is founded in the Medu Neter / Hieroglyphics...meaning the Guardian(s). Read "THE TEACHINGS OF PTAHHOTEP: THE OLDEST BOOK IN THE WORLD" by Asa G. Hillard III, Larry Williams and Nia Damali (Editors). According to "STOLEN LEGACY: THE GREEK PHILOSOPHY IS A STOLEN EGYPTIAN PHILOSOPHY" by George G. M. James. "During the Persian, Greek & Roman Invasions, Large Numbers of Egyptians fled not only to the desert and mountain regions, but also to adjacent lands in Africa, Arabia, and Asia Minor, where they lived, and secretly developed the teachings which belonged to their mystery system. In the 8th century A.D. the Moors Natives of Mauritaniain North Africa, invaded Spain and took with them, the Egyptian culture which they had preserved. Knowledge in the ancient

days was centralized i.e.; it belonged to a common parent and system, i.e., the wisdom Teaching or Mysteries of Egypt (Hah Kha)."

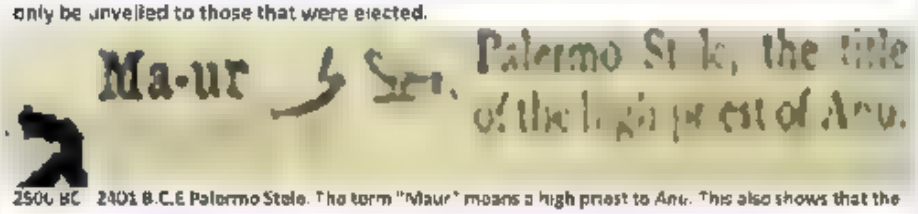
The Meru of Indian literature is none other than the Meroe (anc Sheba) of the Sudan, a primeval Meroe that was long ago lost to cataclysm The four kingdoms of the Saka were Maga (Manga). Masaka, Mansa and Mandaga The Maga the Magians or the Maka of the Persian inscriptions

The Masakas, in the Mahabharata, are called Kastriyas The Mandaga or Manda also referred to as Mada or the Medes These Medians have a fore parent family connection with the ancient Mande speakers of Africa, especially the Manding who often accompanied the Dravidians out of Middle Africa into Asia. This explains the close relationship between Elamite and the Manding languages The Kushite and 1stcousins Kushite-Mande Kingdom lines of the Olmecs-Asians travelled to the South-East of West Nubia-Sudan, and formed the ancient Kingdoms of the Maya s, Inca's, Arawak's, Caribs and Chiquiwanas in South America

MERU IS ALSO SPELT MAUR (MU'UR, MOOR, MOER ETC...)

Meru is also spelt Maur (Mu'ur, Moor, Moer etc...) The Cushites (Kushites) were also called the Meroe. The "CYCLOPEDIA OF BIBLICAL LITERTURE," "There is every reason to conclude that the separate colonies of priestcraft spread from Meroe into Egypt; and the primeval monuments in Ethiopia strongly confirm the native traditions, reported by Diodorus Siculus, that the worship of Zeus-Ammon originated in Meroe, also the worship of Osiris (Asaru). This would render highly probable the opinion that commerce, science and art descended into Egypt from the Upper Nile. Herodotus called the Ethiopians "Wisemen occupying the Upper Nile, men of long life, whose manners and customs pertain to the Golden Age, those virtuous mortals, whose feasts and banquets are honored by Jupiter himself." In Greek times, the Egyptians (Ta Ma-Rau) depicted Ethiopia (Cush / Kush), as an ideal state. The Puranas, the ancient historical books of India, speak of the civilization of Ethiopia as being older than that of Egypt. According to "CONCEPTS OF GOD IN THE TRADITIONAL FAITH OF THE MERU PEOPLE OF KENYA" Marete Dedan Gitari, states, "Meru is located at the eastern part of Mount Kenya. The work begins with a literture review and field based on oral tradition, which indicates

The name of the land is Ta Maure, which has a dua meaning . (1) the Land of Amen Ra the actua longitude and latitude of the geographical land mass. (2) The physical human body. The Maurs/Moors who settled in what is called TaNehesi (Nubia a province of Abyssinia) set up a school structure of science, language, law, mathematics, government astrology, astronomy, military, alchemy, physiology, geometry, etc these were your Neteru/so-called gods. The Maurs (a complete nation of high priest) knew that highest knowledge was to know that man and Creation are one and the same. Referring to the Essence as Heru Ur Ra /Allah/God, (Prana, Chi, Ki energy) the Life Source that lives in every vibration of the Omni verse. The oldest definition of the word Maur/Moor (remember all vowels are interchangeable) means the Neter Amen (the Hidden One / Soul mbedded in the Pineal Gland) as well it means High Priest TaMaure'/Egypt is actually a remnant of that which came from Le'Muuria Mu, and Atlantis, even Su'Mauria is an extension of Ta'Maure'. After experiencing the collapse of previous empires the Maurs/High Priest developed a caste system where they in the sight of the everyday person maintained the science of the true self and filtered it to a select few who had to be initiated in the mystery system. Maurs/High Priest coded the sciences of self in mythology, no longer unveiling the so-called mysteries to the profane. Now the science could only be unveiled to those that were elected.



2500 BC 2401 B.C.E Palermo Stele. The term "Maur" means a high priest to Anu. This also shows that the Sumerian God Anu was originally worshipped in Egypt, for it is simply another name for Anpu

that Meru people came from Northen Africa, moved to Canaan, Meroe, (South of Egypt), Meru-Arusha, Mombassa, and finally through Tana River to their present land. The Meru (Ameroe, Ameru, Amaru, Amurru) people also claim that they came along with all Bantus speaking communities Eastern, Southern and Central Africa." The God of the Meru People is Muru-ngu. This same God "Muru" or "Ngai" is founded in the Americas too (look below). The Meru people are called the Nagas. Various Sanskrit books mention the names of old Cushite kings that were worshipped in India and who were adopted and changed to suit the fancy of the later people of Greece and Rome The Hindu Puranas speak of the Cushites going to India before they went to Egypt, proving Hindu civilization coeval with that of Chaldea and the country of the Nile. These ancients record that the Egyptians were a colony drawn out from Cusha-Dwipa and that the Palli, another colony that made the Phoenicians followed them from the land of Cush. In those primitive days, the central seat of Ethiopia was not the Meroe of our day, which is very ancient, but a kingdom that preceeded it by many ages; that was called Meru. Lenormant spoke of the first men of the ancient world as "Men of Meru." Sanskrit writers called Indra, chief god of the Hindu, king of Meru. He was deified and became the chief representative of the supreme being. Thus was primitive India settled by colonists from Ethiopia...the Tamil or the followers of Atum Re. Early writers said there was very little difference in the color or features of the people of the two countries. Ancient traditions told of the deeds of Deva Nahusha, another sovereign of Meru, who extended his empire over three worlds.

THE SERPENT COLONISTS OF SOUTH AMERICA

ARAMU MURU, THE SERPENT MURU

One of the earliest immortal Serpents from Mu to colonize Amaraka was Aramu Muru or Amaru Muru, the Serpent Muru. According to legend, moments before Mu's final demise the Serpent Muru along with his consort Arama Muru boarded an airship and headed to South America with a cargo of sacred records and artifacts, including a huge golden Sun Disc. The mountains of South America, the Andes, resonated to the same yin vibration as their beloved Mu and were thus considered suitable for the preservation of Lemurian culture. They were also home to the city of Paititi, one of the planetary headquarters of the Solar Brotherhood, an organization Aramu Muru had been a high ranking member of on Mu.

About Paper Terrorism and Frivolous Claims?

If you have relied on prior decisions of the Supreme Court, you have the perfect defense for willfulness. U.S. v. Bishop, 412 US 346

Supreme Court decisions are "Stare Decisis" upon ALL Courts, including Municipal tribunal inferior courts, one must take into serious consideration that most all of the paperwork received from these tribunals are void and are prima facie evidence of 'Paper Terrorism". (see: www.rvbeypublications.com).

Thus, as mentioned previously, the INTER-AMERICAN DECLARATION ON THE RIGHTS OF INDIGENOUS PEOPLE Draft approved by the IACHR at the 1278 session held on September 18, 1995 states, 2. Self identification as indigenous or tribal shall be regarded as a fundamental criterion for determining the groups to which the provisions of this Declaration apply.

This "self identification" at an international level is also at the national level, however, at the national level, it is called "Self-Authenticating." In the said United States according to the "FEDERAL RULES OF EVIDENCE" (Note: Each state also uses the "RULES OF EVIDENCE" just different code[s])

Rule 902. Evidence That Is Self-Authenticating

The following items of evidence are self-authenticating; they require no extrinsic evidence of authenticity in order to be admitted:

(1) *Domestic Public Documents That Are Sealed and Signed.* A document that bears:

(A) a seal purporting to be that of the United States; any state, district, commonwealth, territory, or insular possession of the United States; the former Panama Canal Zone; the Trust Territory of the Pacific Islands; a political subdivision of any of these entities; or a department, agency, or officer of any entity named above; and

(B) a signature purporting to be an execution or attestation.

(2) *Domestic Public Documents That Are Not Sealed but Are Signed and Certified.* A document that

bears no seal if:

(A) it bears the signature of an officer or employee of an entity named in Rule 902(1)(A); and

(B) another public officer who has a seal and official duties within that same entity certifies under seal — or its equivalent — that the signer has the official capacity and that the signature is genuine.

(3) *Foreign Public Documents.* A document that purports to be signed or attested by a person who is authorized by a foreign country's law to do so. The document must be accompanied by a final certification that certifies the genuineness of the signature and official position of the signer or attester — or of any foreign official whose certificate of genuineness relates to the signature or attestation or is in a chain of certificates of genuineness relating to the signature or attestation. The certification may be made by a secretary of a United States embassy or legation; by a consul general, vice consul, or consular agent of the United States; or by a diplomatic or consular official of the foreign country assigned or accredited to the United States. If all parties have been given a reasonable opportunity to investigate the document's authenticity and accuracy, the court may, for good cause, either:

(A) order that it be treated as presumptively authentic without final certification; or

(B) allow it to be evidenced by an attested summary with or without final certification.

4) *Certified Copies of Public Records.* A copy of an official record — or a copy of a document that was recorded or filed in a public office as authorized by law — if the copy is certified as correct by:

(A) the custodian or another person authorized to make the certification; or

(B) a certificate that complies with Rule 902(1), (2), or (3), a federal statute, or a rule prescribed by the Supreme Court.

(5) *Official Publications.* A book, pamphlet, or other publication purporting to be issued by a public authority.

(6) *Newspapers and Periodicals.* Printed material purporting to be a newspaper or periodical.

(7) *Trade Inscriptions and the Like.* An inscription, sign, tag, or label purporting to have been affixed in the course of business and indicating origin, ownership, or control.

(8) *Acknowledged Documents.* A document accompanied by a certificate of acknowledgment that is lawfully executed by a notary public or another officer who is authorized to take acknowledgments.

(9) *Commercial Paper and Related Documents.* Commercial paper, a signature on it, and related documents, to the extent allowed by general commercial law.

(10) ***Presumptions Under a Federal Statute.*** **A signature, document, or anything else that a federal statute**
declares to be presumptively or prima facie genuine or authentic.

(11) ***Certified Domestic Records of a Regularly Conducted Activity.*** **The original or a copy of a domestic record that meets the requirements of Rule 803(6)(A)-(C), as shown by a certification of the custodian or another qualified person that complies with a federal statute or a rule prescribed by the Supreme Court. Before the trial or hearing, the proponent must give an adverse party reasonable written notice of the intent to offer the record — and must make the record and certification available for inspection — so that the party has a fair opportunity to challenge them.**

(12) ***Certified Foreign Records of a Regularly Conducted Activity.*** **In a civil case, the original or a copy of a foreign record that meets the requirements of Rule 902(11), modified as follows: the certification, rather than complying with a federal statute or Supreme Court rule, must be signed in a manner that, if falsely made, would subject the maker to a criminal penalty in the country where the certification is signed. The proponent must also meet the notice requirements of Rule 902(11).**

Slave-Laws in Virginia. In 1682 the slave code received additions. It was enacted that runaways who refused to be arrested might be lawfully killed. Slaves were forbidden to carry arms, offensive or defensive, or to go off the plantations of their masters without a written pass, or to hit a hand against a Christian, even in self-defence. The condition of slavery was imposed upon all servants, whether "negroes, Moors, mulattoes, or Indians, brought into the colony by sea or land, whether converted to Christianity or not, provided they were not of Christian parentage or country, or, if Turks or Moors, in amity with his majesty."

CHAPTER I.

The Status of the Negro, his Rights and Disabilities.

Sec. 4. The term negro is confined to slave Africans, (the ancient Berbers) and their descendants. It does not embrace the free inhabitants of Africa, such as the Egyptians, Moors, or the negro Asiatics, such as the Lascars.

In fact, this is show again or at least is spoken of again in the movie In the movie "ROOTS" by Alex Haley 1977, there was a scene where Kunta Kinte (Toby) escaped and was on the run. Two overseers (officers) were after him. The overseers (officers) comes in contact with two "Free Blacks" (a father and son) on horse and buggy (carriage), the overseers (offiicers) stop them and asks to see their "papers". The father pulls out his "papers" and shows them, they look and casts them back to him and continue on after Kunta Kinte (Toby). The movie, Alex Haley never goes in detail what where those "papers"? Obviously they were his "Freedom Papers". In fact, "Freedom Papers" or rather a "Writ to say...Born Free" were spoken of again in the movie "ABRAHAM LINCOLN: VAMPIRE HUNTER" by character Will Johnson played by Anthony Mackie).

Wormwood/Stonehenge

Stonehenge was built in a special geometry atop the Nibiru Diodic Crystal or NDC, to counteract the NDC's ability to mutate DNA by reversing the planetary merkaba, altering its spin rates and reversing the DNA codes in Earth's grid system. This generates the Checkerboard Mutation, which reverses the five letter sequences and creates junk DNA. There is a programmed crystal that is many stories tall and has been inserted deep into the Earth's crust in this location. The NDC is primarily controlled by the Thoth, Enki, Enlil Collectives from Nibiru which acts as a relay station for scalar sonic beams that are sourcing from Nibiru and directed into the planetary grid.[1] [2]

Checkerboard Mutation

The Checkerboard Mutation is generated from multiple alien machinery systems that reverse the energy current throughout the planetary grid networks to split them into bi-wave frequencies. The bi-wave consciousness allows for extreme polarity amplification in the Collective Consciousness energies, and the splitting between the polarities to generate extreme densification. This is also what produces Gender Reversals in the human Lightbody and Gender Splitting. These reversals are intended to maintain the Reversal Networks on the earth plane that keep human DNA Unplugged and the NAA in control of the Timelines on the earth grids [3]

Niburian Battlestar

Wormwood refers to the Niburian Anunnaki's artificially created battlestar that exists on the counter orbit to the Nibiru planet in our solar system. The alien architecture leeches onto the former body parts of exploded Tiamat which is the Phantom Matrix of Tiamat.[4]

NRG is the Nephilim Reversal Grids.The headquarter hub in Stonehenge area acts as a final collection point by directing huge amounts of power through massive amounts of collected (stolen) life force from multiple subsidiaries all over the planetary globe and the planetary grid lines. Known subsidiary networks exist at every Planetary Gates or Stargate, Michael-Mary Turnstile Matrix in Calgary, The Cathar Grid lines (S. France), False Dragon Grid and Serpent Grid (Snake Networks) in Asia. All are collected and returned to UK for distribution off planet to the Orion Group and Annunaki contingents.[5]

Stargate and Humanity Tribe Eleven

Week Eleven Planet Emancipation Gridwork. Inner Gate and Island of Ireland's Eye in the Irish Sea and its underground Linkup into the binary structure of St. Ives Bay, Cornwall, UK and Amesbury, Wiltshire, UK (near Stonehenge) for the period of Seven days It is suggested to work with the meditation for seven days before moving on to the next project. Week Eleven Intention. Set up Session space that is dedicated to the Purposes of the Krystal Star Host communication networks for Inner Gate 11 in Irish Eye Island (Irish Sea near Dublin) and its underground Linkup into the Cornwall and Wiltshire, UK. Building the architecture required for Krystal Hosting for Planetary Soul and Humanity Tribe 11.[6]

Zero Point Field

Zero Point God Matrix Field, the source of our genesis. The central point of union within our Universe projects itself through the Cosmic Trinity which act as the Threefold Founder Flame of the 13D-14D-15D Rays (Mother Arc, Father Arc, Christed Child) to create the prism of multidimensional life throughout the Universal time and space fields. The source of the Zero Point field is the infinite energy supply of our God Creator that is contained within all living things.

Eye of God (Helix Nebula)

Love is a radiating, strengthening and unifying force spiraling into the upward movement towards the central point of Oneness, the Zero Point. The Force of Love naturally aligns itself back into unity with the Zero Point Field, the unified heart of the Universe. The absence of love, or hatred, is a disintegrating, separative and weakening force, which absorbs light and energy away from the central point of Oneness. The more absence of love, the more absence of living light, and as a result, darkness is manifested through the process of fragmentation into successive layers of density.

The Krystal Star mission is to unify all creation with Unity consciousness vibration (The Universal Frequency of Love and Cosmic Christos Intelligence) as we can heal the internal separation by synthesizing the polarities of our 3D electromagnetism into the zero point or neutral field. The Zero Point or Neutral field is the heart of the God Matrix, the Energetic Core and Source of all Creation, the Still Point of Wholeness.

Living Breath of God

The Gradual Particle Acceleration is a natural physics dynamic that exists at the quantum level, and it is this exchange that creates a faster momentum pulsing between the fission and fusion that exists between the antiparticle and particle mass. To understand this level of our Ascension process, remember that we are merging our Particle (magnetic-female principle)

selves and Anti-particle (electric-male principle) selves into a merged non-charged field at the Zero Point. This merging of our particles into the Zero Point is an event that is happening at every level and layer of our hologram, at the personal level, Planetary level, Universal level and so forth.

All of the Universal creation emulates the In-Breath and Out-breath emanating from the Center Point of All Union, the God Source. As we are made in the image of God, we are also emulating this principle of the Natural Laws. Take a moment to feel this as a guided visualization: As you take a deep inhaling breath, this is the In-breath of God, breathing in the God Particle principle of the Universe. As you hold your breath (the space between the breath) this is the "still point" or Zero Point of God, where all is emanated from and originally sourced. As you exhale this is the Out-breath of God, exhaling the Anti-particle principle of the Universal creation field. As you Inhale and Exhale consciously following the movement of your breath, you will be able to note that this is the fission" and "fusion movement that exists between the particle and antiparticle relationship of our Universe. It is this relationship that manifests into a particle form (such as our physical bodies) as we experience it in this density. As the fission and fusion exchange is accelerated, it changes the pulsing momentum and charge of the frequency field it is creating. It is also important to note that our Creation, our Universal Hologram through the process of this fission and fusion is like a light switch turning on and off perpetually. We are able to experience form creation through the principles of the Living Breath of God Source, perpetually breathing in and out, or turning on and off between the particle and anti particle mass. This is the process of alchemy that manifests form as we experience it.

And this is exactly what is being radically altered on our planet and within our bodies, right now.[1]

Mouth of God

Newsletter discusses the macrocosm of the Universal Zero Point connecting with the microcosm Personal Zero point opening in our Lightbody which is located at the Medulla Oblongata, or 9th Chakra:

We are almost positioned at the Zero Point connection that spirals us through the "Mouth of God" which will drastically magnify and propel us towards a certain directed destiny path.

This reference to the Mouth of God is the consequence of the upcoming cosmic event that has been mentioned in the previous month's news article about the Andromedan Activations. Many of us have been in a phase aggressively preparing our bodies in order to transduce these new Andromedan energies as a human acupuncture point for the planet.

Also remember that the Mouth of God is also a reference point to an energetic command and control center in our Lightbody. It is the 9th Chakra which is also called the Atomic Doorway and is the projector of God Consciousness Units that filter very similarly as a light projector through the back of your Medulla Oblongata, at the base of your neck (at the brain stem). Andromeda energies are referred to by the Guardians as sourcing 9th Dimensional frequency (Planetary Kundalini Current) and will certainly activate the 9th dimensional Axiatonal Lines on the right side of our human body as well as filter up into the 9th Chakra at the base of the neck. This frequency is dull silver in its color spectrum running vertically from your middle right toe and up through the middle right finger, into the base of your neck. When this Lightbody is activated, it creates a macrocosmic orbit with planetary kundalini forces that looks like a moving gyroscope sphere of spiraling frequencies around your upper body and head.

A type of calibrated "neurological entrainment" to these frequencies with a brain upgrade was necessary in order to allow for the cognitive use of these higher functioning parts. Our spiritual teams are familiarizing many of us with the zero point fields of source energy. We are leaving binary fields of electro-magnetism, moving into the (trinary) zero point fields. These Trinity Fields (referred to as Trion Fields) represent the particle/antiparticle merge of our energy bodies into a

completely new field of "holiness" that is to comprise our new "Trinitized Form" and its energy body template. These Fields amplify Source Energy within our bodies. Tesla technologies, Zero Point Field Generators have been showing up for many of us when we are searching for healing facilitation for our bodies.[2]

Zero Point/144

Newsletter discusses Zero point also as a reference for location coordinate:

These (Hierogamic or Sacred Marriage) unions are genetically purposed to work on templating the transfiguration Orb architecture in the Merkaba body, as both Rod and Staff corrected principles are required to enable this function in the Diamond Sun Crystal Body. As the Female principle (Staff) holds the Monadic Blueprint architecture to infuse the Mother Aquamarine 13th Gateway, the Solar Father RA Rod principle unites with her to open the Inner Stargate within a 45 degree spinning field that collapses into a Transharmonic Orb body. That Inner Stargate is located inside our core Diamond Sun body and enables complete transfiguration of our physical and auric body to occur. As the physical body dematerializes pulling its particle mass into the center of the body core, the mass is pulled into the core at a 45 degree angle from four sides. Upon the dematerialization collapse, **the Orb field spins in 360 degrees aligned to zero point/144.** The inner spinning core opens into the Universal Monadic Core and every direction and movement (into any event horizon) possibility opens into the consciousness awareness field. Moving around from inside of this Orb Body feels like "sliding". Similar to a slippery monorail, there is a directional movement of the consciousness field perception of "sliding" back and forth. It's a little like having sea legs after sailing on a boat and returning back to walk on land.[3]

Christos is Unity with Zero Point

The Christos is the Offspring of Hieros Gamos:

What we have come to learn through the Guardian principle of Hieros Gamos is that the Christos Intelligence is the child/offspring of the Holy Mother (Arc) and Holy Father (Arc), and cannot be birthed into the physical world without both principles/polarities equally unified to zero point. These principles of polarity (male/female) are unified between the internal and external manifestation, internally with the inner spirit and externally with the physical body.[4]

Living Light Eternal Current

And this is the phenomena of which will initiate the dimensional and timeline collapse that we are experiencing now on this planet. Those on the Ascension B Timeline feel very much as existing within a void space and have no ability to sense directionally what is next as these systems are collapsing. Even future identities and parallel possibilities are collapsing now as they can no longer be energized. The primary project of where this is underway during this phase is the Astral Plane. As the record of the God Seed atom opens into each sub band and its harmonic layers across all space/time/dimension, it then feeds the Source energy (**The Living Light Eternal Current aka Zero Point Fields**) into each of these grid layers. In accordance to the Law of Harmonics, whatever structure does not resonate to its original blueprint pattern, either self-corrects as it is overridden or it collapses. The collapse of the structure is due to distortions to such degree the integrity of the Blueprint has been corrupted. Therefore upon the impact of the critical mass of Living Light Current that has been accumulated within a "container" of consciousness, it may possibly destroy the "container" that has become distorted and then corrupt to its original blueprint nature. This level of applied Source Energy is now outpouring from our Universal Time Matrix System at the Galactic Core level (the Center Point of All Union, the God Matrix).[5]

One Unified Conscious Energy Source

As our understanding of this universal energy source continues to expand, we are soon confronted with the idea that it is intelligent, that it can directly interact with our consciousness. The entire Universe is composed of a unified field, or One Unified Conscious Energy Source, then we are also a part of that field; our consciousness can interact with it at many levels. And when we strip away the religious and denominational distinctions of various belief systems on the planet and try to weave a single thread through their teachings, we are left with the simple fact that the fundamental nature of God's Energy is Love and Light.

And since its nature is loving, we are told that it seeks to have everyone else feel the same way; it is continually striving to have each conscious life form in the Universe reunite with that Love and Light as much as possible. Hence, Jesus taught us to "Love thy neighbor as thyself." We are told that God is evolving, through the free-will decisions of its apparently separate participants. The whole universe changes as we choose to reunite in Oneness.

So, in the simplest possible sense, we can either have faith or simply postulate that the entire universe is One Being with One Mind, and that both the nonphysical aether and physical matter is all a fundamental part of that interconnected being. **The world's spiritual teachings all tell us that God seeks Oneness, unity and connection, and they also associate this quite directly with the concept of vibration.**[6]
